

Intersession 2023: Accelerate Your Degree

Want to accelerate your degree? Take an intersession course! All intersession courses are offered asynchronous and online through Brightspace during the winter break. They start Monday, December 26 and end Friday, January 6.

Advising and registration for intersession is the same as for Spring 2023, except that intersession registration remains open until December 15. After that date, we ask for pre-payment and registration is by email to the Registrar's office.

The price for a three-credit intersession course is \$1,700. The one-credit BUS 100K course, a prerequisite for ECO 115 Statistics, is offered free of charge to Assumption students. All others pay \$567.
