

ASSUMPTION COLLEGE

Light the way.

WORCESTER, MASSACHUSETTS • ROME, ITALY

As the COVID-19 situation continues to change rapidly, I hope that you and your family are staying safe and finding ways to manage the disruption that it is causing. With so many elements of our day-to-day lives being affected by this pandemic, we know it's hard to think about future plans.

With this in mind, I want to let you know that Assumption is committed to doing what we can to help you during this difficult time. As a result, we are taking the following steps to ease the stress of the college search process on you and your family.

- 1. We are extending our enrollment deposit deadline to June 1.** We hope that this additional time will allow you to have some breathing room in terms of making a final college decision. While the future is still uncertain as far as when our campus will re-open for visitors, we also hope that this extension will allow students and their families to visit campus in the coming months.
- 2. We are decreasing our enrollment deposit from \$400 to \$50.** We understand the financial uncertainty you may be facing, and we want to do what we can to reduce the expenses you need to think about over the next couple of months. We hope that significantly reducing the deposit will provide a little extra cash in your pocket at a time when you may need it most.
- 3. We are developing creative ways to connect with you virtually.** Visiting campuses and connecting with current students, faculty, and other community members is an essential step in determining the right fit school for you. Over the next few weeks, we will add new and meaningful ways for you to learn remotely what it would be like to be an Assumption student.

Assumption is a close-knit community and especially in trying times, we seek ways to support each other. If you find yourself unsure of how to determine the best path forward with your college decision, or if you experience a hardship due to the unexpected circumstances, please reach out to me personally. My team and I will be happy to work with you to find options and solutions. And this will be just the first step in our commitment to your Assumption education and journey.

Sincerely,

Michael DiPiazza
Director of Undergraduate Admission
