The above equivalences grant AU Core Credit for all Becker Core courses except for CORE 3100, Developing an Entrepreneurial Mindset. The courses below are the remaining Assumption University Core requirements not fulfilled by the equivalents above. These would be required of Becker students based on proximity to completion (120 credits), but in no case would they extend time to degree. Seniors would not face added requirements if they have completed Becker's general education curriculum. Juniors could be required to take a proportion of these requirements based on the extent to which they otherwise fit in their on-time degree programs. Those who matriculate at Assumption as sophomores would generally be expected to complete these courses in addition to the Becker core.
