NOTICE OF NON-DISCRIMINATION

Assumption University is a comprehensive, Catholic liberal arts institution sponsored by the Augustinians of the Assumption. We awaken in students a sense of wonder, discovery, and purpose, forming graduates known for their intellectual seriousness, thoughtful citizenship, and devotion to the common good. Our curricular and co-curricular programs provide students with an education that shapes their souls, forms them intellectually, and prepares them for meaningful careers. We are a diverse community that welcomes different points of view and embraces all who share our mission. Enlivened by the Catholic affirmation of the harmony of faith and reason and by the pursuit of the truth in the company of friends, an Assumption education transforms the minds and hearts of students.

The University recognizes the essential contribution of a diverse community of students, faculty and staff. Accordingly, Assumption University commits itself to maintaining a welcoming environment for all people and to complying with all state and federal laws prohibiting discrimination in employment and its educational programs on the basis of race, color, national origin, sex, religion, disability, age, marital or parental status, sexual orientation, genetic information or family medical history, military status, or other legally protected status.

Assumption University rejects and condemns all forms of harassment, wrongful discrimination and disrespect. It has developed procedures to respond to incidents of harassment whatever the basis or circumstance. The University does reserve its lawful rights where appropriate to take actions designed to promote the Catholic, Assumptionist principles that sustain its mission and heritage.

Assumption University has designated its Director of Human Resources to coordinate its efforts to comply with and carry out its responsibilities to prevent discrimination in accordance with state and federal laws, including Title VI, Section 504 and the ADA. Any applicant for admission or employment, and all students, faculty members and employees, are welcome to raise any questions regarding this notice with the Director of Human Resources:

Assumption University

TO OUR UNDERGRADUATE STUDENTS,

The education that Assumption University offers students awakens in them a sense of wonder, discovery and purpose that will allow you to flourish as a human person. The challenging times in which we live has made the unique value of a Catholic liberal education like the one Assumption provides even more evident. The most important challenges our society faces involve more than technical problems—although those are an important part of an Assumption education too. The essential issues are the deepest questions of the human heart, which transcend time and place. Ancient and modern thinkers, many of them philosophers and theologians, have explored those questions. What is the common good? How do we cultivate judgment and understand complexity? What are our responsibilities to each other, especially the most vulnerable among us? What is the meaning of suffering, how do we find meaning and purpose in life? St. Augustine reminds us that these questions are “ever ancient, ever new.” The Assumption education you will receive prepares you for a changing world. Many institutions have forgotten the enduring questions. Assumption never has and you will benefit from this. A Catholic liberal education engages these questions and will prepare you to live out your vocations, professions and to be lifelong learners. It will provide you with the wisdom and courage to confront the challenges we face throughout our life.

The college years are ones of discovery. In the course of four years, you will discover things about yourself and your interests that will set the direction of your life. For this process of discovery and self-discovery to occur, it is important to understand the purpose of education. While you undoubtedly will acquire the skills necessary to pursue a particular career, your education at Assumption will be so much more than vocational training. Our goal is to provide you with a holistic education that forms your mind, heart, and soul. That is the essence of a liberal arts education and the defining characteristic of Assumption University. We seek to form you, and in turn, transform you, by providing an education that is value-based, whether you are pursuing a degree in the traditional liberal arts and sciences, or in one of our professional programs such as business, nursing, or education.

At Assumption, you are introduced to a broad body of knowledge that will unlock the potential that lies within the very depths of your being. In the course of your studies, you will be exposed to a wide array of disciplines that will expand your mind as you consider new ideas, new ways of looking at the world around you, and new ways of questioning. We seek to provide you with a moral and ethical framework that will assist in the formation of who you are, who you want to become, and how you will live out your personal and professional life. Our goal is not simply to lay the foundations for you to lead the good life, but more importantly, for you to live a good life — a subtle, yet important difference.

As a Catholic institution in the Assumptionist tradition, we take faith seriously as an integral part of the human experience. We strive to foster a climate that will provide you with opportunities to encounter God in the course of your studies. You will explore questions that recognize the role of faith and reason in the search for truth. By highlighting the Catholic intellectual tradition, you will encounter ideas that have
contributed to the formation of a Christian outlook on the world that reflects the type of education envisioned by Fr. Emmanuel d’Alzon, the founder of the Assumptionists. Equally important, we seek to foster an ecumenical spirit that will allow you not only to know, but also to live wisely the truths about God, humanity, and the world.

Your education at Assumption is enriched by our student-centered faculty who are outstanding teacher-scholars. You will not only benefit from their expertise, but also from their availability to work with you outside of the classroom. I urge you to get to know your professors well during your time as a student at Assumption.

During your years at Assumption take advantage of the many opportunities to grow intellectually, socially, and spiritually to allow the development of your full potential as a human being. In this way, the motto of the University, “. . .until Christ be formed in you,” will become a reality of your Assumption experience. Our goal is to form leaders with values and vision. The faculty, administration, and staff are committed to serving you to make this goal possible.

Enjoy the exciting journey you have begun at Assumption University! God bless you.

Sincerely,

Francesco C. Cesareo

Francesco C. Cesareo, Ph.D.
Assumption University President
Professor of History
About Assumption University

MISSION
Assumption University is a comprehensive, Catholic liberal arts institution sponsored by the Augustinians of the Assumption. We awaken in students a sense of wonder, discovery, and purpose, forming graduates known for their intellectual seriousness, thoughtful citizenship, and devotion to the common good. Our curricular and co-curricular programs provide students with an education that shapes their souls, forms them intellectually, and prepares them for meaningful careers. We are a diverse community that welcomes different points of view and embraces all who share our mission. Enlivened by the Catholic affirmation of the harmony of faith and reason and by the pursuit of the truth in the company of friends, an Assumption education transforms the minds and hearts of students.

OBJECTIVES
Assumption University is a community of learning in the Catholic tradition where together we pursue the truth wherever it is found. The relationship of professors and students is at the center of the learning process that takes place in this community and is the most effective means for the fulfillment of the University’s intellectual, moral, cultural, social, and religious purpose. In order to assure that the learning process be as successful as possible, the University holds the progress of each individual to be of central importance, encourages its professors to explore with their students the personal and social dimensions of the life of faith, seeks to provide the time and space needed for true learning to take place, sees broad participation in its governance as integral to its life as an academic community, fosters co-curricular activities that complement the academic program, and encourages its teachers and students to pursue the highest standards of excellence in all their activities.

As scholars in a community of learning and as guides to their students, as well as to one another, teachers at Assumption are committed to the liberal education of each student. They strive to act responsibly toward God and neighbor and to encourage students to develop habits of responsible action. They are specialists in particular disciplines who strive to discern each discipline’s relation to all other disciplines and to the goals of the University, and promote and participate in the co-curricular life of the University as an extension of their activity in the classroom.

In their pursuit of a life of inquiry within a community of learning, students at Assumption are intent upon acquiring knowledge of the ideas, achievements, and figures that have formed the Western tradition, and seek to gain knowledge of the ways of peoples beyond their cultural horizons in order to better understand themselves and the world in which they live, maintain a balance between specialized professional preparation and a general program of studies and be aware of the need and place for both in education, and should undertake their studies for personal development while in University and as a basis for lifelong learning.

CHARACTER
Dedicated to the pursuit of knowledge, Assumption attempts to equip its students with insights and skills that will encourage and enable them to continue their personal pursuit of truth throughout life. The education that the University provides focuses on all dimensions of human life: moral (personal and social), cultural (the arts and sciences), professional (career preparation), and religious. It investigates the traditions of the past as these shape our present. It attempts to develop a capacity for clear and independent thinking. As a Catholic institution bearing witness to the unity of all truth and to the harmony that exists between faith and reason, the University encourages its students to reflect deeply on the truths of their faith and to allow those insights to enlighten their rational pursuit of the truth. Our students are encouraged to give living expression to their faith in the celebration of the Church’s liturgy.

Assumption is aware that education is a process which involves not only the mind but also the total person in one’s relationship to oneself, others, and God. The formal academic programs are therefore interspersed with opportunities for dialogue and counseling in order that each student might better understand himself or herself and more adequately serve mankind in response to the command of God. Recognizing that individual freedom is a correlative of responsibility, the University also seeks to develop self-discipline and dedication in its members as guarantees of the integrity and enhancement of its life and commitment. The
University welcomes all persons who share its goals, respect its process, and wish to participate responsibly in its life as a Christian academic community. Students, faculty, and administrators voluntarily affiliate with it. Their activities are expected to be consistent with its purpose and character.

ASSUMPTIONIST SPONSORSHIP
The Assumptionists, whose spirit invites them to give “a doctrinal, ecumenical, and social dimension” to whatever they do, belong to a religious order founded by Father Emmanuel d’Alzon, an educator whose most cherished project was the establishment of a Catholic university. To all those who taught in his schools — religious and laity alike — he proposed the motto: “Until Christ be formed in you.” Father d’Alzon envisioned an institution committed to the pursuit of truth and academic excellence wherein faith and reason give harmonious witness to the unity of all truth. He sought the development of the whole person. He wanted the students to grow in the knowledge of their human condition as well as of their ultimate destiny.

Since the specific purpose of his Congregation is to extend the Kingdom of God, he concerned himself with the special bond that exists between a liberal education and the Gospel message. Liberal education, posing as it does the fundamental questions about God and creation, sets the student on a personal quest for truth. Spurred on by the wisdom found through reflection on the visible world, and encouraged by an intellectual community whose faith seeks deeper understanding, the student is led to those deeper realities which cannot be seen. A liberal education thus provides the dynamic vehicle for attaining one’s full development as a human being. The Assumptionists, therefore, maintain their involvement at Assumption University because they see it as a place where they can carry out the mission of the Church in the field of higher education. In collaboration with the trustees and the entire administrative, academic, and clerical staff, they have a primary role in guaranteeing the Catholic character of Assumption University and in promoting a philosophy of education which is consonant with the highest Christian and classical values and ideals. Through this commitment, they share in the building of an enlightened Church and in the formation of Christian leaders.

HISTORY OF THE UNIVERSITY
Assumption University was founded in 1904 by the Augustinians of the Assumption (the Assumptionists), a religious congregation founded in France in 1850. Initially, the students were sons of immigrants from French Canada who had settled in New England. The University was originally located in the Greendale section of Worcester, Massachusetts. Through the years of the Great Depression and World War II, Assumption remained a small school dedicated to producing a Catholic elite to serve the Franco-American population of New England. The school was decimated by World War II, when virtually the entire University-level student body left for military service. Fortunately, the numbers in the preparatory school increased as dramatically as those in the University declined. After the war, the Assumptionists observed the gradual assimilation of French-speaking families into the English-speaking mainstream. In the early 1950s they began admitting Franco-American students who knew no French, and all classes were taught in English. A graduate studies program was instituted in 1952. Just as this new era was getting under way, a tornado struck the Greendale campus on June 9, 1953, taking three lives and causing extensive damage to buildings and grounds. The Assumptionists decided to turn this disaster into the long-awaited opportunity to separate the prep school from the College. The Greendale campus was restored as the home of Assumption Preparatory School, while the College carried on first in temporary quarters and then, in 1956, on the current Salisbury Street campus. The purchase of the property on Salisbury Street was made possible by way of a generous grant from the Kennedy Foundation.

During its sixty years on Worcester’s west side, the University has lived through many changes and challenges. By the end of the 1950s, lay professors outnumbered Assumptionists on the faculty, a process that has accelerated over the decades. In 1968, the Assumptionists turned the school over to a new board of trustees made up of both religious and lay people. In 1969, women matriculated as undergraduates for the first time. In 1972, the College welcomed its first lay president. In 2013, a campus was opened in Rome, Italy to provide students with a unique study-abroad experience utilizing the city of Rome as the classroom. In recent years, academic offerings have expanded to meet the interests of students and societal needs, while maintaining a strong commitment to the liberal arts as the foundation for all programs. Most notably programs in Nursing, Cybersecurity, Data Analytics and Neuroscience have been developed. The addition of these new programs, along with existing programs, point to the fact that Assumption has evolved over several decades into a comprehensive institution. Consequently, in 2019, Assumption underwent a restructuring into five separate schools – the D’Amour College of Liberal Arts and Sciences, the Grenon School of Business, the Froelich School of Nursing, the School of Health Professions and the School of Graduate and Professional Studies. In 2020, in recognition of the comprehensive nature of the institution, Assumption was approved for university status by the Commonwealth of Massachusetts. The University has
experienced significant facilities growth, to support an undergraduate population of 2,000 and more than 500 graduate students. The physical plant portfolio has been greatly enhanced since 2000 with new buildings such as the Tsotsis Family Academic Center, Admissions House, the Testa Science Center, the Fuller Information Technology Center, new residence halls, and the Multi-Sport Stadium, as well as major renovations to academic buildings, dining facilities and residence halls. In 2012, the Tinsley Campus Ministry Center was completed adjacent to the Chapel of the Holy Spirit. The Tsotsis Family Academic Center, which includes the Curtis Performance Hall, the Lagarce Trade Room, the Honors Program and the Core Texts and Enduring Questions Program, along with classrooms and offices for the Grenon School of Business, was, completed in 2017. The University’s most recent building is the Health Sciences facility which houses the Froehlich School of Nursing, the health science program, and the future physician assistant studies program.

ALUMNI ASSOCIATION
The Assumption University Alumni Association includes nearly 28,000 men and women who have graduated from the University, including graduate and Continuing and Career Education alumni. Of the 20,379 undergraduate alumni, approximately 50 percent have graduated since 1998. These men and women are engaged in a variety of professional, technical, and service careers. The Alumni Association plays an active role in the life of Assumption University. A growing percentage of alumni provide regular financial support to the University. Programs specifically designed for alumni include regional alumni events, fall homecoming, and summer reunion activities - all of which are excellent networking opportunities. Alumni also play an active role in identifying qualified candidates for admission to the University, and assisting students and graduates in securing internship and employment opportunities.

GRADUATE STUDIES
Assumption University offers seven graduate programs leading to master’s degrees: Applied Behavior Analysis, Business Administration (M.B.A.), Clinical Counseling Psychology, Health Advocacy, Rehabilitation Counseling, School Counseling, and Special Education. Additional information and application materials are available at www.assumption.edu/explore-academics/graduate-studies. For Assumption University undergraduate students, fifth-year options (combined bachelor’s and master’s degrees) are offered in the Business Administration (M.B.A.), Rehabilitation Counseling, and Special Education programs. Direct entry into dual degree programs is available to highly motivated high school students interested in the graduate programs in Applied Behavior Analysis, Business Administration (MBA, Management or Accounting), Clinical Counseling Psychology, Rehabilitation Counseling, School Counseling, and Special Education. Please see https://www.assumption.edu/explore-academics/undergraduate-studies/dual-and-accelerated-degrees for additional information. Eligible Assumption undergraduates may take graduate courses with written permission of the Director of the relevant graduate program and the Chair of the relevant department. See the “Academic Policies,” section of this catalog, under “Undergraduate Registration in Graduate Courses.”

MASTERS IN APPLIED BEHAVIOR ANALYSIS
The Applied Behavior Analysis (ABA) programs teach the science of behavior, which is essential for individuals interested in autism, general and special education, developmental and intellectual disabilities, social work, and related fields. Our programs prepare students to be behavior analysts, independent practitioners with the expertise to conduct behavioral assessments, interpret the results of behavioral assessments, and design behavioral interventions for clients in a variety of fields. A behavior analyst may also supervise behavioral therapists and technicians. The primary goal of the programs is to create well-rounded behavior analysts by providing a strong foundation in the applied, basic, and conceptual branches of the science of behavior. Our coursework emphasizes the multi-disciplinary nature of ABA and demonstrates how behavioral principles can be applied in a variety of settings. Graduates of the program will be well prepared for both applied and research careers in ABA. The programs also include a required practicum that allows students to work under the supervision of a Board Certified Behavior Analyst. Both the 45-credit Master of Arts in ABA and the 30-credit Certificate of Advanced Graduate Studies in ABA fulfill the current educational and fieldwork requirements needed to apply for licensure as an Applied Behavior Analyst in Massachusetts and both programs prepare students to sit for the Board Certified Behavior Analyst exam.

MASTERS IN BUSINESS ADMINISTRATION
The Master of Business Administration (M.B.A.) program’s primary goal is to provide students the opportunity to develop the knowledge, skills, abilities and competencies that constitute a foundation for career growth and development in business,
government or other organizations. With principled leadership as the key animating idea of the program, the curriculum emphasizes ethics and values in business. Students may choose to pursue concentrations in Accounting, Finance/Economics, Human Resources, International Business, Management, Marketing, and Nonprofit Leadership. A specialized M.B.A. in Healthcare Management combines M.B.A. courses with those from the University’s Health Advocacy Program to prepare students for leadership positions in healthcare. A fifth-year option (Six-in-Five combined B.A./M.B.A.) is available to qualified Assumption University undergraduates who may begin their graduate studies during their senior year.

The Accelerated M.B.A. is a special program designed for those who recently earned undergraduate degrees in an area of business studies. This full-time, one-year intensive program offers a unique Professional Practice concentration that focuses on multiple dimensions of designing and launching a new career through various experiential learning opportunities. The Accelerated M.B.A. offers tracks in Accounting and Management.

Business Administration also offers a Certificate of Advanced Graduate Study (C.A.G.S). The C.A.G.S is a non-degree program designed to provide the opportunity for advanced graduate study beyond the M.B.A. degree and serve the continuing education needs of M.B.A. graduates and other professional managers with comparable advanced degrees.

MASTERS IN CLINICAL COUNSELING PSYCHOLOGY
The Master of Arts in Clinical Counseling Psychology is the premier graduate level clinical counseling psychology program in the nation, specializing in curriculum-wide integration of Cognitive Behavioral Therapy (CBT). The master’s program prepares students by building a knowledge and expertise base that leads to the high-level practical application of CBT as a professional mental health counselor. Optional concentrations are available in Cognitive-Behavioral Therapies and Child & Family Interventions. The Clinical Counseling Psychology program offers up to ten Graduate Fellowships annually to students who have strong academic records.

MASTERS IN HEALTH ADVOCACY
The Health Advocacy program imparts the knowledge, skills, competencies and habits of mind necessary for aspiring and established healthcare professionals to pursue high-impact careers in health advocacy. Health Advocacy integrates key elements of management, social sciences, human services, education and health science in such a way to prepare students to navigate the healthcare system and become effective professionals. The program prepares students to operate from strengths-based, culturally competent frameworks that value, respect and empower clients/patients and enhances healthcare organizations and systems. The Health Advocacy program offers a one-year Professional Certificate program, Master of Arts in Health Advocacy, and Certificate of Advanced Graduate Study (C.A.G.S). Both the M.A. and C.A.G.S. programs prepare students to take the national Board Certified Patient Advocate certification examination.

MASTERS IN REHABILITATION COUNSELING
The 60-credit Master of Arts (M.A.) in Rehabilitation Counseling is offered by the Institute for Human Services and Rehabilitation Studies (HSRS). The M.A. degree in Rehabilitation Counseling will lead to a rewarding career working with individuals with disabilities. The primary role of the Rehabilitation Counselor is to empower individuals with significant disabilities, and to assist them to achieve life goals such as employment and independent living. Students may focus on services to veterans, youth in transition, individuals with psychiatric disabilities, substance abuse and addiction, and traditional vocational rehabilitation services. Upon successful completion of the academic and clinical requirements, students are eligible to sit for the national Certified Rehabilitation Counselor (CRC) exam. The Master of Arts program is offered on-campus and online. A special six-in-five program (Combined B.A./M.A.) in Rehabilitation Counseling is available for qualified Assumption University undergraduate students who can begin taking graduate courses in their senior year and complete their master’s degree in their fifth year of study. A five-course, 15-credit Certificate of Advanced Graduate Study (C.A.G.S.) in Rehabilitation Counseling is offered to students who have completed the 60-credit master’s program in Rehabilitation Counseling at Assumption University. The C.A.G.S. course of study is developed in consultation with the graduate program director. Students enrolled in this program have an opportunity to develop an area of specialization that is related to their current work or future career goals.

MASTERS IN SCHOOL COUNSELING
The Master of Arts in School Counseling program meets the highest national and state standards. The primary objective of the program is to prepare students for a career as a school counselor. The program is designed to meet Massachusetts Department
of Elementary and Secondary Education initial licensing requirements for School (Guidance) Counselor (Pre K–8; 5-12) or to obtain licensure as a School Social Worker/Adjustment Counselor (all levels). The vision of the program is to graduate counselors who are leaders in the field. In addition, the program offers the necessary course work and field work experiences for students interested in seeking national certification as a National Certified Counselor (NCC) and National Certified School Counselor (NCSC). These certifications are under the auspices of National Board of Certified Counselors (NBCC). A Certificate of Advanced Graduate Study (C.A.G.S.) provides specialized knowledge and skills in specific areas of School Counseling for those individuals who already possess a master’s degree in School Counseling or a related field. A customized course of study consisting of 21-30 credits (7-10 courses) is developed in consultation with the program director. Students in this program have the opportunity to develop an area of specialization that is related to their current work or future career goals.

MASTERS IN SPECIAL EDUCATION

The Master of Arts in Special Education program primarily prepares candidates for careers as teachers of students with mild to moderate disabilities. The program is approved, with distinction, by the Massachusetts Department of Elementary and Secondary Education and leads to eligibility for Massachusetts Licensure as a Teacher of Students with Moderate Disabilities (Pre K–8 or 5–12). The competency-based program is founded upon the principles of effective evidence-based instruction and the philosophy of inclusive education. The courses that comprise the program emphasize connections among theory, research, and practice to build students’ awareness of how to maximize the development of each pupil in a variety of settings. Accordingly, students in our program develop a repertoire of instructional, diagnostic, consultative, and collaborative skills and strategies critical to the role. They also develop an understanding of the full continuum of services available to individuals with exceptionalities. A fifth-year option (Six-in-Five Combined B.A./M.A. program) is available for qualified Assumption University undergraduate students to complete requirements for both the Bachelor of Arts (B.A.) degree in an area of the liberal arts and sciences and the Master of Arts in Special Education. The student must have an overall GPA of 3.3, a GPA of 3.0 in the relevant major or minor, and written permission of the sponsoring department chairperson and the Graduate Program Director of Special Education. In addition, the student must have a major in one of the core academic subjects taught in 5-8 or 8-12 for which the Massachusetts Department of Elementary and Secondary Education issues a license and for which the University has a state approved program. Special Education also offers a C.A.G.S. in Positive Behavior Support (PBS) that provides specialized knowledge and skills in Positive Behavior Support for professional educators who hold a master’s degree. It is awarded upon completion of 15 credits beyond the master’s degree in Special Education or related field.
What’s New in Advising?

NEW BACHELOR OF SCIENCE DEGREES
The department of Biological and Physical Sciences has added some Bachelor of Science degrees to its offerings, according to the table below.

NEW MAJOR IN NEUROSCIENCE WITH A PSYCHOLOGY PATH
A Major in Neuroscience utilizes an interdisciplinary approach to empower students to: 1) develop and refine skills of inquiry with a focus on the brain and mind, 2) gain a strong understanding of the classic and contemporary findings in neuroscience, 3) comprehend and appreciate the dynamic, multidisciplinary nature of this field, 4) ask thoughtful questions and strategically select approaches to answer questions, 5) develop informed hypotheses and design/execute experiments to test hypotheses, and 6) critically analyze data and determine if data supports hypotheses. Students are encouraged to engage in independent research and internships, in addition to successful completion of the required coursework. Students who major in neuroscience will be prepared to pursue careers in industry, health professions, and graduate studies within the field of neuroscience.

REQUIRED COURSES (16)

- PSY 101 General Psychology
- PSY 250 Perception
- PSY 251 Introduction to Brain and Behavior
- PSY 252 Cognitive Psychology
- PSY 335 Motivation and Emotion
- BIO 160 Concepts in Biology (4-credit)
- BIO 280 Sensory Systems (4-credit)
- BIO 415 Principles of Neuroscience (4-credit)
- PHI 267 Person, Mind, & Brain
- BIO 375 Milestones in Neuroscience or BIO 310 Animal Behavior (Choose one)
- PSY 224 Statistics
- PSY 225 Research Methods
- PSY 391 Experimental Techniques in Human Neuroscience
- PSY 402 Social and Affective Neuroscience or PSY 403 Cognitive Neuroscience
- Two Neuroscience Electives
  - Any Psychology course (200-level or above)
  - Any Biology course (200-level or above)
  - MAT 117 Calculus I
CSC 117 Introduction to Programming

Strongly recommended in the Core Curriculum for Neuroscience with a Psychology Path majors are: for the second Philosophy seminar, either The Human Difference or the Book of Nature, and for the second Theology seminar, Faith and Reason.

NEW MINOR

CHANGES TO EXISTING COURSES OR PROGRAMS OF STUDY

Change to Major in Economics As part of the development of the major in finance, a new FIN designation was created. ECO 325 Corporate Finance became FIN 325 Financial Management I; ECO 357 Investment Theory became FIN 357 Investment Theory, and ECO 315 Econometrics II was modified and became FIN430 Financial Econometrics. These courses are now options to fulfill ONE of the FOUR major electives in the Economics major.

Change to Major in Nursing. Nurses are no longer required to take POL 321 Public Policy. They may opt for any social science in the core curriculum.

Change to Major and Minor in Philosophy To ease completion, both the PHI major and minor now require ONE FEWER course in the history of philosophy, and one MORE elective numbered 200 or higher. Both programs remain the same size.

Changes in Psychology Major There are some minor updates to the requirements for the Major in Psychology with a Concentration in Neuroscience of Human Behavior, and the psychology program in general, in light of the new Neuroscience with a Psychology Path major. These changes include updated course descriptions and inclusion of new courses in lists of options.

Name Changes for English Minors The “Minor in English: Writing” has been changed to the simpler, “Minor in Writing.” The “Minor in English: Literature” has been changed to the simpler, “Minor in English.” Both are still 6 courses, 18 credits.

MUS 140, formerly Beginning Voice, is now called Vocal Health and Pedagogy. The number remains the same.

SOC 465 Sociological Research Methods is now SOC 390, same title. The new number better conveys that the course should be taken in spring of the junior year.

CRM 242: Criminology is now CRM 160, same title. This is an introductory course to for the major, like CRM 130: Introduction to the Criminal Justice System. The 100-level number shows that.

BIO 250 Microbiology has a new course description and new pre-requisites. Nursing students no longer take the pre-requisite, BIO 210 Genetics. Now, they take BIO 105 Human Heredity. But we still need our nurses to take Microbiology. So the pre-requisites to BIO 250 Microbiology are now are now “BIO 210, or declared nursing major and completion of BIO 160 and BIO 105.”

SOC 385 Independent Study is now SOC 380 Independent Study. This allows WMS 385 to be cross-listed into SOC.

BIO 280 Sensory Systems has a new pre-requisite option, drawing on the new offerings in psychology. So the pre-requisite options are either BIO 160 Concepts in Biology and a 4-credit course in Biological or Physical Science OR b. BIO 160 Concepts in Biology and PSY 225 Research Methods and PSY 251 Introduction to Brain and Behavior OR BIO 160 Concepts in Biology and PSY 225 Research Methods and PSY 250 Perception.
BIO 310 Animal Behavior has a new option among its pre-requisites: now BIO 280 Sensory Systems fulfills the prior knowledge piece. Students can still take either BIO 220 or BIO 240, but 280 is also now a ticket into 310 Animal Behavior.

BIO 375 Milestones in Neuroscience has a new course description and pre-requisites. The description now reads, “Using critical examination of the primary literature as a tool, this course explores landmark advances within the field of neuroscience. In this course, students gain a deeper understanding of neurobiological themes such as neurophysiology, neuroplasticity, neural development and communication between select model animal systems. Classic articles that are foundational to the field of neuroscience are thoroughly dissected to gain an historical appreciation of advances in the field. These are contrasted with recent articles to appreciate the advances in neuroscience research techniques. By contrasting major historical advances with more recent work, students weigh the implications of these findings at the time of publication, and learn to critically assess the significance of recent findings. Students gain a deeper understanding of highlighted milestone advances in neurobiology. The old pre-requisites were BIO 340 Cellular and Molecular Biology OR BIO 370 General Physiology OR by permission of the instructor. The new pre-requisites are BIO 340 Cellular and Molecular Biology OR BIO 370 General Physiology OR BIO 280 Sensory Systems (choose one).

BIO 415 Principles of Neuroscience has a new course description and pre-requisites. Course description reads, “This course introduces students to the rapidly growing field of neuroscience, which is the study of the nervous system. Our nervous system shapes our every thought, emotion and sensation. Students will gain an understanding of the underlying neural basis of how we perceive the world. This course begins with an anatomical approach and then integrates physiological, cellular, molecular and functional approaches. Topics range from how cells in the brain communicate with one another, to current diagnostic and research technology, to the biological basis of movement, and includes the study of disease and injury to the brain, such as Alzheimer’s disease, Parkinson’s disease and stroke.” The old pre-requisites were BIO 340 Molecular and Cellular Biology or BIO 370 Physiology or permission of the instructor. The NEW pre-requisite is one of the following: BIO 340 Molecular and Cellular Biology OR BIO 370 Physiology OR BIO 310 Animal Behavior OR BIO 375 Milestones in Neuroscience OR Permission of the instructor.

ECO 115 Statistics now requires BUS 100 be taken first. The previous pre-requisite, CSC110 Excel, has been discontinued. Very few students were able to demonstrate sufficient proficiency in Excel by means of the placement exam, so it has also been discontinued. BUS 100 is a one-credit course, and is free to matriculated students.

MUS 330 Conducting now requires students take MUS 301 first as a pre-requisite, or get permission of instructor.

NEW COURSES

ARH 125 Healthy Perspectives: Reframing Art History
Art history trains a person in looking closely at an image. The cognitive skills gained from art history – observing and describing art objects – easily lend themselves to the health care arena and the helping professions by enhancing the ability to communicate and interpret. Astute observation is particularly important for health care professionals because it aids in physical examinations, diagnoses, and empathetic responses. This course is the traditional art history survey reinvented with special attention to students who plan to go into a career in health care or the helping professions. Fulfills the fine art requirement in the core curriculum.

BIO 125 Backyard Biology
Biology is the science of life – and life happens all around us. In this course, we will explore fundamental concepts of biology using real-life examples encountered for example in your kitchen or backyard. We will focus on the principles of ecology and evolution, while tackling contemporary problems of global importance – climate change and biodiversity decline. The integrated laboratory experience consists of self-guided explorations of plants, animals, and other organisms commonly found in the Northeastern USA, as well as simple at-home experiments and simulations. This course aims to broaden your horizons and instill an appreciation for the creatures large and small with whom we share the world. By exploring the life that happens right outside your door, you will not only learn basic biological facts, but more importantly the ecological connections that make life on Earth possible and enjoyable! Three credits. Counts in the core curriculum as a science in Scientific and Quantitative Reasoning.

BUS 100 Introduction to Excel (one credit)
BUS 100 Introduction to Excel replaces CSC 110 Excel as pre-requisite to ECO 115 Statistics. The new course is online and asynchronous, one credit, graded pass/no credit, no charge. The course covers the basic tools of Microsoft Excel. Students will learn to create worksheets, enter and move data, format cells and worksheets, apply functions, write formulas, and create effective charts and graphs. The course is can be added as a 6th course during a fall or spring semester or taken during the summer or intersession. Either way, it is free of charge to matriculated AU students. (Non-students may register, but are charged.)

CHE 102 Chemistry Fundamentals for Health Science (one credit)
This course aims to prepare students who have not completed general and organic chemistry for upper level biology courses, especially BIO 370 (General Physiology). Topics covered include atoms and molecules, properties and concentration of solutions, acids and bases, thermodynamics, kinetics, and basic organic chemistry with an emphasis on biological and healthcare-related examples. (Spring) Staff/One credit.

HRS 435: Advanced Assessment in Psychosocial Rehabilitation: Individuals and Communities in Crisis
This advanced course provides students, anticipating a role in the human and rehabilitation services, with an opportunity to combine knowledge of assessment and rehabilitation with an understanding of the personal and systemic dynamics of crises. Additionally, the course prepares students to respond to the immediate presenting needs of clients and systems experiencing crisis, to access community resources, to make the necessary referrals, and to engage in consultation and collaboration. Students also learn to recognize the effects of stressors and service delivery on human services and rehabilitation professionals, emphasizing the importance of self-care strategies, and burnout prevention skills. Prerequisites: HRS 119, 121, 200, 305, 320, 330 and 340.

PHI 240 Education and Liberation
This is a seminar on the idea of liberal education—that is, an education that emancipates and that prepares a person for living freely. Why do people sometimes describe their educations as liberating? From what would education free us? And are some forms of education not emancipating, but enslaving? What type of activities must the freed person learn in order to live well in freedom? The tradition of liberal education is the history of an argument about what oppresses human beings and what we are meant to do with our freedom, and thus about what type of learning we need in order to live a fuller human life. This course will require extensive reading, writing, and discussion. Readings will include classic texts from the tradition of liberal education as well as more contemporary adaptations of that tradition. Prerequisites: PHI100 Socrates and the Search for Truth and any intermediate philosophy course (PHI 151-154). Counts in the Great Conversation part of the Core as a third philosophy.

PSY 391 and PSY 391L Experimental Techniques in Human Neuroscience and Lab
This 4-credit laboratory course reviews the utility, strengths, and weaknesses of leading tools and techniques used to study human neuroscience. Specifically, the course examines electroencephalography (EEG), event related potentials (ERP), functional magnetic resonance imaging (fMRI), and measures of autonomic nervous system activity (heart rate variability and skin conductance). Students are encouraged - and challenged - to think about the implications of using these tools to understand human neuroscience. Is the activity recorded by these tools predictive or responsive to human thought and behavior? Do particular patterns of brain activity reliably predict atypical or abnormal outcomes? When are neuroscientific methodologies necessary? In the accompanying laboratory section of this course (PSY 391L), students acquire hands-on experience collecting and analyzing data obtained with many of these tools. Students apply the knowledge acquired in lecture and lab to develop and test research questions, collect and analyze data, and communicate results in written (APA-formatted research paper) and oral formats. Prerequisites: PSY 224 Statistics and PSY 225 Research Methods and PSY 251 Introduction to Brain and Behavior or permission by instructor.

PSY 403 Cognitive Neuroscience
A Course in the new Psychology Neuroscience major. This upper-level seminar course explores the neural processes that support cognitive capacities including, but not limited to, sensory inference, attention, learning and memory, decision making, and language. Throughout the course we survey current research in cognitive neuroscience by critically reading empirical journal articles. Students showcase their understanding and evaluation of this research using effective communication skills (written and oral). Prerequisites: PSY 251 Introduction to Brain and Behavior and PSY 252 Cognitive Psychology, or permission of the instructor.
Undergraduate Academic Policies

Assumption students are expected to inform themselves regarding all academic policies. They can do this by reading the Academic Catalog and Advising Guide, consulting with their academic advisors, visiting the academic advising portal site, and regularly reviewing their degree audits, called “My Progress” in WebAdvisor Student Planning, the University’s online advising and registration system. The Academic Catalog is not an irrevocable contract. Regulations published in it are subject to change by the University at any time without notice. University regulations are policy statements to guide students, faculty, and administrators in achieving the goals of the institution, and protecting the integrity of the degree. The appropriate authorities with the interest of the students and the institution in mind will make necessary interpretations of these policies. Students are encouraged to consult their academic advisor, a department chair or dean, or the Associate Vice President of Academic Affairs if they have questions about a policy.

Each new edition of the Academic Catalog and Advising Guide becomes effective at the opening of the fall semester following its publication. To receive a degree, an undergraduate student must satisfactorily complete all requirements described in the Academic Catalog in effect at the time of their enrollment as a degree student at the University or all requirements described in the catalog in effect at the time of graduation. Any student who changes from one major or minor to another must meet requirements of the added major or minor in effect at the time of the change. Any student who leaves the University or changes to another major or minor for a period of one calendar year or longer, and then returns to the University or to the original major or minor, will be required to meet requirements in effect at the time of return. Exceptions to these policies may be necessitated by changes in course offerings, degree programs, or by action of authorities other than the University. In that event, every effort will be made to avoid penalizing the student.

UNDERGRADUATE DEGREE REQUIREMENTS

A student in good standing who satisfactorily meets the following requirements is awarded the Bachelor of Arts degree: a minimum of 120 semester hours of University credit, with a minimum of 38 semester courses. No course of fewer than three credits may count toward the 38 courses required for graduation. No more than 10 courses may carry grades of D-, D, and D+. Any course beyond the tenth one will not count as a course or for credit, but the grade will be reflected in the GPA. A maximum of four courses taken during the academic year or during the summer at another accredited institution or through Assumption’s Division of Continuing and Career Education (CCE) may be used to satisfy degree requirements after a student has enrolled in the Undergraduate Day University. The 120 hours required for graduation shall include no more than nine semester hours of practicum and internship, unless required by the major or special program sponsored by the University, such as an international internship or study away experience. Fulfillment of all Core and major requirements stipulated in the Academic Catalog of their year of matriculation, a Grade Point Average (GPA) of at least 2.0 both cumulatively and in the student’s major program of study are required for degree completion. Minor programs of study, though valuable, are not required for degree completion. Students are expected to fulfill Core and major requirements in residence, with the exception of credits granted at the time of matriculation or through special programs such as study abroad. A maximum of two courses may be taken outside the undergraduate day University to satisfy Core requirements. These are subject to departmental approval, certifying equivalence by the department chair to a Core requirement offered in the undergraduate University. At least one half of all courses, 60 of 120 credits, must be taken in the undergraduate day University during the fall, spring, or undergraduate summer semester, or through the Higher Education Consortium of Central Massachusetts (HECCMA).

DEFINITION OF A CREDIT HOUR

Assumption upholds the Federal Credit Hour Standard in its award of credit. Whether for graduate or undergraduate credit, for each hour of credit earned Assumption requires fifty minutes of faculty instruction and two hours of student preparation per week for the fifteen weeks of the semester for a total of 42.5 hours of engagement required per earned credit. A 3-credit course, for example, includes a minimum of 2.5 hours of faculty instruction and 6 hours of student preparation each per week in a 15-week semester. This standard applies to the fall and spring 15-week semesters, and to the accelerated summer terms. Classes held three times a week on Monday, Wednesday, and Friday are 50 minutes long; twice-weekly Tuesday/Thursday classes are 75 minutes in duration. This standard is applied in the awarding of labs, practica, internships for credit, studio work, or other academic work completed as part of an academic program of study.
THE CURRICULUM

The undergraduate curriculum is composed of three kinds of course: those in the Core curriculum, those in a major program of study, and elective courses, sometimes called “free electives,” to distinguish them from “major electives,” meaning courses in the major selected from a range of options approved by the department. Students must complete the Core and at least one major program of study to complete the degree. Minor programs of study are not required.

THE CORE CURRICULUM

Rooted in the Assumptionist and Augustinian Catholic intellectual tradition of charity, the love for learning, the integration of faith and reason, and the pursuit of truth wherever it is to be found, Assumption’s core curriculum introduces students to essential works, ideas, and enduring goals of the liberal arts and sciences. Emphasizing the humanizing role disciplines such as philosophy, theology, literature, and political science play in the tradition of Catholic higher education, the core curriculum contributes to the formation of thoughtful citizens who are committed to the challenge of lifelong learning. Deepening and broadening the foundations of students’ learning in their major and minor fields of study, the core curriculum cultivates the habits of mind, learning practices and skills, passion for truth, and love of wisdom that are hallmarks of an Assumption University education.

The core comprises five areas of study: core seminars in philosophy, English, and theology; courses in scientific and quantitative reasoning; history and the social sciences in an area called “Person and Society;” language, art, and global awareness in an area called “Culture and Expression;” and finally, “The Great Conversation,” comprising further study in literature or political science, and philosophy or theology. All students, regardless of the University or School they may be associated with, must complete the core curriculum, as well as the requirements of their major program of study.

MAJOR PROGRAMS OF STUDY

The purpose of the major is to allow students to develop greater depth and competence in their field of interest. A departmental major must require at least nine courses. Courses over and above 14 in a discipline will not count as courses and credits toward graduation, but grades will be included in the cumulative GPA. The major grade point average is calculated using the first successfully completed course that qualifies to fulfill a requirement. Once the major is completed, further eligible courses in the major will be calculated into the cumulative grade point average only. Students are expected to declare a major by means of a signed form submitted to the Registrar by early in the spring semester of the sophomore year. Juniors remaining undeclared in the fall semester will be barred from registering for spring courses. Please note that expressing interest in application materials or advising surveys does not constitute declaration of major.

DOUBLE MAJORS

To take on two fields of mastery is an ambitious goal, but can yield excellent preparation in related pairings such as English and history, for instance, for those planning to teach literature, or International Business and a language, for those planning to conduct business abroad. However, a double major requires careful planning. Those considering two majors might ask themselves: what is the value of the second major, and how does it link to the first? Would a minor field of study serve my needs? Am I prepared to give up free electives in order to complete a double major? Am I certain I would have time to complete a second major? Have I consulted my academic advisor? Applications to apply for a double major are available from the Registrar’s office or the Office of Undergraduate Studies, La Maison Hall 202.
DOUBLE COUNTING
At least three courses taken for a minor must be distinct from those courses taken for a major or a concentration. A minimum of six courses taken for a second major must be distinct from those courses taken for another major or concentration. Within the core, the same course may satisfy the Global Awareness requirement and another core requirement. Otherwise, no double counting is permitted within the core. Courses taken to satisfy core requirements may, if eligible, also count in major and/or minor programs of study.

SPECIAL MAJORS AND MINORS
Individually-designed major or minor courses of study may be arranged. Interested students should meet with the Associate Vice President of Academic Affairs. A form outlining the proposed course of study must be completed by the student and approved by the relevant department chair(s) and the Associate Vice President. These plans must be made no later than the end of the junior year.

MINOR PROGRAMS OF STUDY
Minors are not required for graduation. A minor consists of at least 18 credits and must be completed with a 2.0 or higher grade point average. At least three (3) courses in a minor must be distinct from those in a major program of study. A minor may be earned in most academic disciplines. Special minor programs of study are available; see the procedure for special majors above. Minor programs are available in most majors and in Community Service Learning; Comparative Literature; Core Texts and Enduring Questions (CTEQ); Geography; Information Technology; Medieval and Early Modern Studies (MEMS); Physics; Sports Management, Law, Ethics, and Constitutional Studies (LEX); and Women's Studies.

ELECTIVES
Perhaps better than any other element in the curriculum, electives exemplify the liberal arts ideal of study undertaken freely for the enrichment of the human mind. These are courses “elected” or chosen by a student purely to explore fields of interest and enrichment, independent of any requirement. Electives count towards the 120 credits required for completion of the degree. Students may use electives to strengthen their majors and/or minors with coursework in different but related areas.

FULL TIME AND PART TIME STATUS
To qualify as a full-time student, a student must register for least 12 credits per semester. Only full time students (carrying at least 12 credits) are eligible for Federal or University financial aid and for on-campus housing. However, in order to complete the B.A. degree in eight semesters (four years), students must register for 15 credits per semester. A full-time, matriculating student is charged the full time tuition rate. Students carrying fewer than 12 credits per semester are considered part time students and are not eligible for Federal or University financial aid or on-campus housing. A part-time student is subject to the same academic regulations and degree requirements as a full-time degree candidate. In addition, part time students must maintain an acceptable degree of academic progress and continuity of studies. Part time students are not eligible for the Dean’s List, and are charged at a per-credit rate plus additional fees as determined by the University. A full-time, matriculating student may become a part-time degree candidate with the written authorization of the Office of the Registrar, renewed each semester.

NON-MATRICULATION STATUS
A non-matriculating student is one who is not a candidate for a degree. The number of courses or credits taken per semester does not affect this status. A non-matriculating student is subject to the same academic regulations and discipline as a degree candidate. However, he/she is given no class rank and is not eligible for academic honors. A non-matriculating student is charged at a per-credit rate, plus additional fees as determined by the University. A non-matriculating student may request to become a full-time or part-time degree candidate by making application at the Admissions Office. The usual policy is to permit a maximum of 12 credits to be transferred from the non-matriculated status to the matriculated status.

ACADEMIC ADVISING
The University has a longstanding academic advising program. Full-time faculty serve as academic advisors and assist in course selection, discernment of major, and as mentors to support and help if the advisee is experiencing difficulties with his or her program of studies. In the first year, students are assigned a faculty advisor based on their expressed academic interest. After
that, students may select another advisor, often when officially declaring a major. The advising program is administered by the Office of Undergraduate Studies. The University maintains membership in the National Academic Advising Association (NACADA), and regularly updates an advising portal site. Its online advising and registration system is called WebAdvisor Student Planning.

REGISTRATION FOR COURSES
Students register in order of seniority: seniors, juniors, sophomores, first years. Registration follows advising and advisor course approval in WebAdvisor Student Planning in late March/early April (fall semester) and early November (spring semester). Students may not register for any course that has not been approved by an academic advisor. Confirmed course schedules are available prior to the beginning of each semester. Full payment of all tuition and fees is required before registration is considered complete. A student not enrolled in a degree program must consult with the Registrar prior to registering. Free courses granted by means of dean’s listing must be registered for during add/drop week. Summer Semester courses are planned, approved, and registered for in WebAdvisor along with fall semester classes each spring. However, summer registration remains open in WebAdvisor until mid-May.

COURSE LOAD
The expected course load for a full-time undergraduate student is five courses, which equals 15 credits or more. Students should be aware that withdrawing from a course or registering for fewer than 15 credits will necessitate summer, intersession, or additional fall/spring courses in order to graduate with one’s class, and add to the overall cost of a completed degree. Most courses meet for 150 minutes per week, either three times a week for 50-minute sessions or twice a week for 75-minute sessions.

COURSE OVERLOAD
Students in good standing may carry a sixth 3 or 4-credit course for the semester. Students on the Dean’s List are permitted a free sixth course in the fall or spring semester following their Dean’s Listing. Summer and intersession terms are not included. Free courses granted by means of dean’s listing are registered for during add/drop week. Students who study abroad in the semester subsequent to their Dean’s Listing may request a free sixth course for the following fall or spring semester, only. They would make this request to the Office of Undergraduate Studies, La Maison 202. Students are responsible for any special, non-tuition fees associated with a Dean’s List free course, such as a lab fee or studio art fee. Students not on the Dean’s List will be billed per credit after the normal load of 15 credits. These students should consult with the student accounts office before adding a sixth course. All students requesting more than six courses will be required to obtain permission from the Associate Vice President for Academic Affairs.

COURSE ADJUSTMENT
After the initial course registration, students may adjust their course selection during the designated all-school adjustment periods, or during drop/add in the first week of fall or spring classes. Summer Semesters do not have an add/drop period, but students may drop a summer course on the first day of class without the course appearing on their transcript as a withdrawal. After that, the only way to change one’s schedule is by withdrawal from a course, permitted through the 12th week of classes in fall/spring semesters, and through the second to last day of class in summer semesters. Failure to attend classes or to participate in online work does not constitute a withdrawal – a timely, formal request is required. Students must complete and submit to the registrar a signed course withdrawal form available on the advising portal page, and in the Registrar’s office and the Office of Undergraduate Studies, La Maison 202. In fall/spring semesters, students are not permitted to withdraw from more than one course if this changes their status to that of a part-time student, carrying fewer than 12 credit hours. Students should be aware that withdrawing from a course or registering for fewer than 15 credits will necessitate summer, intersession, or additional fall/spring courses in order to graduate with one’s class, which adds to the overall cost of a completed degree.
**TRANSFER CREDIT**

Once the student has matriculated in the undergraduate day University, no more than four courses taken at another accredited institution may be used to satisfy degree requirements. This limitation does not apply to study abroad courses or courses taken through the Higher Education Consortium of Central Massachusetts (HECCMA) cross registration program. While the University expects all core courses will be taken at the University, two of the four permitted transfer courses may, with department approval, be counted in the core requirement. Capstone courses must be taken in residence, and other departmental restrictions apply.

Online courses taught by theology instructors in the University’s day school are accepted. Study Abroad courses reviewed case by case, as a third Theology course satisfying the “Great Conversation” part of the core.</td>
</tr>
</tbody>
</table>
Courses taken in the University’s summer semester are not transfer courses, nor are courses taken on the University’s Rome campus. To transfer courses and credits taken at another institution into the Assumption University day degree, students identify the course they wish to take and receive written pre-approval from the chair of the department of the proposed course’s discipline. They must earn a grade of C or higher for the course, and order an official transcript be sent to the Office of the Registrar. Grades earned at these institutions are not included in the calculation of the student’s grade point average.

AUDITING
To register as an auditor in a course a student must obtain the written permission of the course instructor and the Registrar and pay the regular tuition charge. An auditor attends the class but does not receive a grade or credit.

UNDERGRADUATE REGISTRATION IN GRADUATE COURSES
Seniors may enroll in a graduate course numbered 500 and above if the course is in their declared major or minor field or in a related discipline. Undergraduate students who enroll in graduate courses must meet the criteria established by the graduate program that offers the course, and have written permission from the relevant department chairperson and the relevant graduate program director.

ATTENDANCE REGULATIONS
Classes and laboratories are an integral part of a course. Hence students are expected to be prompt and regular in their attendance at all classes and laboratories, to prepare assignments with care, to turn in reports and papers on schedule, and to take an active part in class discussions. Only by fulfilling their obligations as students can they gain the full benefit of their educational opportunities. All students must attend class whenever an announced test, quiz, oral or written examination is given, and whenever a report or paper is due. Instructors should state in writing any specific attendance requirements for their courses, and any penalties for absences or lack of participation. It is the responsibility of the student to remain fully informed of class assignments, special activities, examinations of all types, and to meet the requirements of the course.

Students who have been absent from class for more than one full week for medically documentable reasons or for other very serious life occurrence should notify the Office of Undergraduate Studies at (508) 767-7486, provide documentation, and specify the days of absence. The Office of Undergraduate Studies notifies faculty members of the documented absence, but does not excuse the student from meeting course requirements set by the instructor. For absences of one week’s duration or less, the student should contact instructors directly.

A student who is absent from a final examination because of serious illness or emergency may request a make-up examination. Such a request must be presented in a timely fashion to Office of Undergraduate Studies, and such a request cannot be for a course the student has completed. Sitting an examination indicates the student is in good enough health to take it and understands it will be counted. Serious illness or emergency are the only acceptable excuses for missing an examination. Any exception to this rule must be authorized by the Associate Vice President for Academic Affairs after consultation with the student’s professor. To evaluate intellectual progress and mastery of knowledge and skills, the University requires students in all courses to fulfill the final requirement by taking an examination (written or oral), or writing a paper, or completing a project. This concluding exercise must be completed during the end-of-semester final examination period.

CREDIT BY EXAMINATION
Students may earn credits and course equivalents for College Board Advanced Placement (AP) exams. Minimum scores are determined by individual academic departments. Scores below three do not earn credit in any discipline. The Registrar receives AP scores for incoming first year students in July. Please note: students may not receive both AP credit and credit for the course taken at the University. If a student is uncertain whether or not he or she has earned AP credit, he or she should avoid registering for the course for which credit may be awarded. The University will award three credits to the student who earns the score recommended in the subject examinations of USAFI/DANTES. Credit will only be given to examinations in disciplines appropriate to a liberal arts institution. For the International Baccalaureate Exam, the University will evaluate Higher Level exams only.

## GRADING SYSTEM

Course grades are recorded on the student’s permanent record at the end of each semester, and are issued to the student at the end of each semester. Students may request a progress report from the instructor in each of their courses prior to the last day for withdrawal in each semester. Letter grades, which may be modified by plus or minus symbols, indicate the level of
performance in a course as follows: A (Excellent), B (Good), C (Average), D (Poor); a grade of F indicates that a student has failed the course. Only grades for courses taken at Assumption University (including transfer courses taken in Assumption’s Continuing and Career Education Program) and at Consortium campus institutions through cross-registration are included in the calculation of GPAs for transcript purposes. Following is a numerical conversion of letter grades: A (4.0); A (3.7); B+ (3.3); B (3.0); B (2.7); C+ (2.3); C (2.0); C (1.7); D+ (1.3); D (1.0); D (0.7); F (0). Grade point averages are calculated by multiplying the points for the grade earned by the number of credits the course is worth, then dividing by the total number of credits attempted. If a student earned a B in five 3-credit courses, she would have earned 3 points times 3 credits, or 9 grade points for each of five courses. Nine times five yields a total of 45 grade points. Divided by the 15 credits attempted, the student has a 3.0 grade point average for the semester.

WITHDRAWAL FROM A COURSE

Withdraw (W), becomes the final grade when a student withdraws from a course prior to the withdrawal deadline as posted on the fall/spring academic calendar. Withdrawing from a course may create a course and credit shortage. The student will have to complete additional course work to eliminate this shortage and graduate on schedule. A W grade is processed only when the student submits to the Registrar a course withdrawal form with all required signatures, including that of the instructor of record. Not attending class does not constitute a withdrawal.

REPLACING A COURSE

When an F or any other low grade is earned by a student, the student may compensate for this either by repeating the course, if it is a specific requirement, or by taking a course which satisfies the same requirement. The low grade then appears on the student’s transcript with no hours attempted or earned and is removed from the semester and cumulative grade point averages after the course has been replaced. Students must request course replacements from the Registrar. Replacing a course for which the student earned credit with a D or higher removes credits earned for the course. Credit may not be earned for the same course twice.

CLASS RANK

The final class rank of a graduating student is based on the average of all grades for courses taken at Assumption University and at Consortium institutions through cross-registration.

ACADEMIC INTEGRITY POLICY

Academic honesty is essential to the existence and growth of an academic community. Without high standards of honesty, the University’s mission to educate students in the Christian liberal arts tradition and to promote Christian living cannot be accomplished. Although maintaining the standard of honesty is primarily the responsibility of the faculty, this responsibility is shared by all members of the academic community. As teachers, faculty members are responsible for initiating students into the activity of learning. To assess this learning, they need to evaluate student work. To carry out this office, faculty members must try to ensure that student work submitted for academic credit is the result of the student’s own effort and conforms to established standards of academic honesty. Therefore, academic evaluation includes a judgment that the student’s work is free from dishonesty of any type, and course grades should be and shall be adversely affected by academic dishonesty. The University views collaboration and sharing information as valuable characteristics of academic communities, and faculty members are responsible for clarifying to students the expectations and boundaries about collaborations and information sharing in their courses and their academic disciplines. It is the duty of faculty members to take measures to preserve and transmit the virtues of the academic community, both through example in their own academic pursuits and the learning environment they create for their students. To this end, they are expected to encourage in their students a desire to behave honestly. They also must take measures to discourage student dishonesty. To meet their obligations, when academic dishonesty is suspected, faculty members must follow the policies and procedures stated in the Assumption University Student Academic Honesty Policy. The University’s commitment to maintaining and encouraging a high degree of integrity is demonstrated in many ways. One manifestation is the policies and procedures governing student violations of academic honesty. Specific definitions, penalties, and procedures for dealing with violations of the code of student academic honesty can be found in the Assumption University Student Academic Honesty booklet. Copies of this publication may be found in the Offices of Undergraduate Studies, Student Affairs, the d’Alzon Library, the Academic Support Center, and the Assumption University website.
PASS/NO CREDIT
In order to allow students the opportunity to explore courses which they might otherwise be hesitant to take, the University offers a Pass/No Credit option. Under this option, the student receives a grade of P (Pass) for performance at the level of C- or higher and NC (No Credit) for performance at an unsatisfactory level (i.e., below C-). Neither grade will include quality points calculated into the student’s overall GPA. This option is available to all second, third-, and fourth-year students who have an overall GPA of 2.0 at the time the option is requested. Transfer students must have completed at least one semester at Assumption before they are eligible. Qualified students must request this option by filling out and submitting a Pass/No Credit Form in the Registrar’s Office up to the last day for withdrawing from a course, as published in the academic calendar. Once the form has been submitted to the Registrar’s Office, the P/NC option is final. The student will not receive a letter grade in the course on his or her grade report or transcript. This option applies only to free elective courses and may not be used for any courses taken to satisfy Core, Major, or Minor requirements. Only two courses may be taken for Pass/No Credit during the student’s time at the University, and only one may be taken in any given semester.

INCOMPLETE
An Incomplete (I) is approved when a student, because of illness or serious emergency at the end of the semester, is unable to complete the requirements of his/her course by the final grade deadline. Incompletes must be approved by the Associate Vice President for Academic Affairs, in consultation with the instructor of record. They are not approved if the student has completed the requirements for the class. All requests for incompletes must precede the end of the semester. Taking an examination or submitting a final assignment means it will count in the student’s grade. Faculty overseeing incompletes must submit a Change of Grade form before the end of the sixth week of the following semester, or the Incomplete is changed to an F. Any exception to this policy must have the prior approval of the Associate Vice President of Academic Affairs.

CHANGE OF GRADE
All grade changes must be requested by the instructor of record before the end of the sixth week of the following semester. Students requesting a change of grade do so by petitioning the faculty member in writing, stating the reason for the request. If the faculty member agrees, he/she submits a change of grade form, with a clear indication of the reason for the change, to the Associate Vice President of Academic Affairs for approval or denial. Grade changes are approved only in the case of error in the computation or submission of a grade, or other accident or error. All requests for changes of grade based on work turned in after the last day of the semester will be denied.

ACADEMIC STANDING
Good academic standing means making steady progress towards completion of the undergraduate degree, achieving a grade point average of at least 2.0 (C) each semester, towards the 2.0 or C average in both the major and cumulative gpas that is required for graduation. If a student fails to achieve a 2.0 grade point average in any given semester, he or she will be reviewed by the Academic Policy Board. When the Academic Policy Board reviews a student’s records, one of four statuses will be assigned: Academic Warning, Academic Probation, Conditional Enrollment, or Required Withdrawal (expulsion). If placed on Academic Warning, the student remains in good standing. While on Warning, Probation or Conditional Enrollment, the student is required to work with his/her academic advisor, the Division of Student Success and staff from the Academic Support Center to earn a 2.0 or higher. Those who have, through summer or intersession study, regained good standing (2.0) prior to the beginning of the next semester are still required to meet with support staff for the semester.

PROGRESS TOWARDS THE DEGREE
It is expected that all students will register for and successfully complete fifteen (15) credit hours per semester. Indeed, students must do so in order to complete a bachelor’s degree in the expected four years or eight semesters. Registering for fewer than 15 credits, failure in or withdrawal from a course will result in a shortage of credit hours. Such credits must be made up by means of a departmentally pre-approved summer, intersession, or fall/spring term sixth courses. All such courses fall outside of the fall/spring tuition package, and as such constitute an added financial burden on the student. Full-time status is maintained at twelve (12) credit hours; students are not permitted to carry fewer than 12 credit hours and remain a full-time student. Students who register for fewer than 12 credit hours 1. must file a change to part-time status form with the Registrar at the beginning of each semester, 2. will not be eligible for on-campus housing, 3. will have their financial aid package reviewed and possibly adjusted, and 4. may not be eligible for health insurance through their parents.
WITHDRAWAL FROM THE UNIVERSITY

A student who voluntarily withdraws from the University must return all University property and settle all financial obligations to the University, inform the Office of Undergraduate Studies of his/her intention, and complete a withdrawal form. A student who receives considerable financial support from his/her parents or guardians would be well advised to obtain their written approval prior to officially withdrawing. A student who withdraws without having complied with the above requirements will receive a grade of F in all current courses. The student forfeits any tuition refund, all rights to transcripts of grades, and consideration for readmission.

WITHDRAWAL WITH INTENT TO RETURN (WWIR)

It is sometimes necessary for students to interrupt their studies due to ill health, family emergency, or other serious cause. For such students, the University offers Withdrawal with Intent to Return (WWIR). Applications for WWIR are processed by the Associate Vice President of Academic Affairs. The applicant must be in good academic and judicial standing, must request WWIR for a specific period of time stating cause, and must confer with Financial Aid prior to departure regarding the effects of WWIR on financial aid, loan repayment, and grace periods. When the student wishes to return, the student must write a letter to the Associate Vice President, requesting readmission. If conditions for return were stipulated at the time of application for WWIR, those conditions must be met. Student on WWIR maintain their portal access and Houndmail accounts. For students returning from WWIR, every effort will be made to reinstate financial aid in its original form. An administrative fee of $250.00 is charged for each semester of Withdrawal With Intent to Return. Students planning to return should contact Residential Life at x7505 regarding housing. Students studying abroad or studying away are not required to take WWIR, but are on a study abroad/away leave of absence from the University.

READMISSION TO THE UNIVERSITY

All students requesting readmission to the University, regardless of their cause for withdrawing, must submit a letter to the Associate Vice President of Academic Affairs, explaining the circumstances of their departure from the University, their reasons for requesting to return to Assumption, and how the circumstances leading to their withdrawal have changed. For spring semester readmissions, completed applications must be received by December 21. For fall semester readmissions, completed applications must be received by July 1. Students who have been required to withdraw for academic or disciplinary reasons are ineligible for readmission for one full semester. In addition to the letter described above, these students will further be required to send the Associate Vice President official transcripts of academic work completed since leaving the University, and letters of recommendation from professors, employers, and other relevant persons in support of his or her application. Other materials may be required in order to demonstrate that all issues leading to the student’s required withdrawal have been addressed by the student during his or her time away. Students will be notified in writing if readmission is permitted or denied. If readmitted, the student will be on placed on Conditional Enrollment, and required to meet regularly with a designated staff person, and must follow any and all conditions set at the time of readmission.

DEAN’S LIST

A student whose semester GPA is 3.50 or higher qualifies for Dean’s List if she/he meets one of these two criteria: 1. During the semester, the student carried at least five courses, earning at least 15 credits, and 2. During the semester, the student carried at least four courses, earning at least 12 credits and, since matriculating at Assumption University, has successfully completed an average of five courses, 15 credits per semester. This list is published once at the end of each semester. A student on the Dean’s List is permitted to register for a sixth course at no additional cost for the following fall or spring semester. The free course does not apply to courses offered the summer semester or intersession. Students achieving Dean’s List prior to a semester studying abroad may request that the free course be applied to their semester of return.

GRADUATION OR “LATIN” HONORS

Graduation honors are awarded based on graded courses taken at Assumption University or through the Higher Education Consortium of Central Massachusetts (HECCMA). Thus, the Bachelor’s degree is conferred Cum laude—upon a student who earns a cumulative GPA of 3.50; Magna cum laude—upon a student who earns a cumulative GPA of 3.75; Summa cum laude—upon a student who earns a cumulative GPA of 3.90. A part-time matriculated student is eligible for graduation honors based on the same standards as a full-time matriculated student. Transfer students may qualify for graduation honors if they satisfy the
standards described above in a minimum of 19 courses taken in the undergraduate day university or through the Higher Education Consortium of Central Massachusetts (HECCMA).

VALEDICTORIAN AND SALUTATORIAN
Each spring, the valedictorian and salutatorian are chosen from graduating students of the undergraduate day University who fulfill the criteria for a Bachelor of Arts or Sciences degree and who are ranked in the top ten students of their class, with ties for tenth place inclusive. The selection committee consists of the Associate Vice President of Academic Affairs (chair), the Senior Class President and Vice President, the Chairperson(s) of the Commencement Committee, and those elected representatives of the Representative Faculty Senate who serve on the Commencement Committee. The committee reviews academic records and contributions to the community and interviews candidates in order to select worthy recipients of the University’s highest graduation honors.

PARTICIPATION IN COMMENCEMENT
Degree candidates who are within two courses (a maximum of eight credits) of completing their requirements at the end of the Spring semester will be permitted to participate in Commencement as degree-in-progress candidates under the following conditions: 1. The student must formally petition the Associate Vice President of Academic Affairs no later than the last Friday in March. The petition must specify the deficiency and include a plan to complete the course work, preferably during the subsequent summer; 2. The student must have a 2.0 grade point average both cumulatively and in the major at the time of the petition, since both are graduation requirements; 3. The committee, comprised of the Associate Vice President and the Registrar, will review all petitions to determine if the students have met the eligibility requirements for participating in Commencement. The determination by the committee will be final, and no appeals of the decision are permitted. Students who are required to withdraw after the fall semester of their senior year are not eligible to participate in Commencement. Petitioners will be notified in writing of the committee’s decision. Those students who are permitted to participate in Commencement will receive diploma cases containing confirmation of in-progress status. Their names will be marked “Degree in Progress” in the Commencement program.

TRANSCRIPTS OF ACADEMIC RECORD
Students may order official transcripts using the Parchment transcript service. For more information and a short instructional video, visit the Registrar’s page on the Assumption website, https://www.assumption.edu/people-and-departments/organization-listing/registrar. The fee for transcripts is $7 for an electronic copy, and $9.50 for a paper copy sent via surface mail. Current students may access unofficial transcripts through their portal accounts in WebAdvisor, under “My Progress.”

FAMILY EDUCATIONAL RIGHTS AND PRIVACY (FERPA) RELEASE OF INFORMATION
The Family Educational Rights and Privacy Act of 1974 (FERPA) affords students certain rights with respect to their educational records. These include: The right to review the student’s education records within 45 days of the day the University receives a request for access. Students should submit to the Registrar, Associate Vice President, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

The right to request the amendment of the student’s education records that the student believes are inaccurate, misleading, or otherwise in violation of the student’s privacy rights. Students may ask the University to amend a record that they believe is inaccurate or identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is
disclosure to University officials with legitimate educational interests. A University official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Higher Education; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another University official in performing his or her tasks. A University official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the University discloses education records without a student’s consent to officials of another school in which a student seeks or intends to enroll.

The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-8520, FERPA.Complaints@ed.gov

Written notification to withhold any or all items must be directed to the Registrar’s Office by the publicized deadline. Unless otherwise directed, the following items may be released at the discretion of the University: the student’s name, address, telephone listing, campus e-mail address, date and place of birth, academic program(s), class year, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees, honors and awards received, current photo, and the most recent previous educational agency or institution attended by the student. A request to withhold any or all of the above data in no way restricts internal use of the material by the University.

Only parents of dependent students have access rights to the records of students. In compliance with the Family Education Rights and Privacy Act of 1974 (as amended), the University reserves the right to disclose information about dependent students to their parents without the students’ written consent. Information will not be released until the University is assured that the parent is entitled to such information. Students have the right to review their disciplinary records which are maintained by the Office of Student Affairs. Students may challenge the content of those records which they believe to be inaccurate or misleading. In order to review records, students should make an appointment with the Vice President of Student Affairs. In order to maintain the confidentiality of other students, the Vice President will review the file with the student in summary form. Duplicate copies of the file will not be issued to the student.

SPECIAL ACADEMIC OPPORTUNITIES

COMPASS FIRST YEAR EXPERIENCE

All first-year students participate in COMPASS, the Common Pursuit of Academic and Social Success. COMPASS is designed to offer new students the tools they need to navigate the transition from high school to college. Students join a learning community that together takes two courses: one a seminar in English, Philosophy or Theology, the other a course in another discipline, perhaps in the student’s major. By sharing two courses with the same small — no more than 22 — group, students get to know each other and their professors quickly and feel more comfortable in the classroom, which results in a more engaging environment for asking questions and interacting with peers and professors. With their learning community, students experience workshops throughout the fall semester, facilitated by staff members and upper-class students. The COMPASS workshops focus on skills that are key to a successful transition, such as managing time well, studying effectively in college, and learning to identify, use and cite good information properly. Enhanced COMPASS offers a year-long first year learning community with additional academic support through peer tutoring, and the faculty serve as academic advisors as well as instructors. With closer, year-long connections with faculty and peer tutors, students benefit from even more support.

THE HONORS PROGRAM

In keeping with Assumption’s tradition of academic excellence, the University offers the Assumption University Honors Program, designed to foster academic engagement inside and outside the classroom. The program promotes intellectual friendship and discourse, while providing a common, intensive learning experience. This program allows students to earn an Honors Program Certificate. Admission is by invitation and application. Outstanding accepted students who have demonstrated academic excellence in standardized test scores, rank in class, engagement inside and outside the classroom, and a passion for learning are invited to apply to the program. Students with an outstanding first semester may also apply to join the program at the beginning.
of the sophomore year. The Program Director will invite eligible students to apply during the spring semester. Transfer students are eligible to apply to the Honors Program at the time of admission by submitting a transcript and writing an essay. Interested students should contact the Interim Director of the Honors Program, Prof. Molly McGrath. Curricular details can be found in the “Interdisciplinary Programs” section of this catalog.

STUDY ABROAD
Assumption University encourages students to spend a semester or a year abroad as a part of their undergraduate education, either at the University’s campus in Rome (sophomore or junior year) or through one of its approved study abroad programs, or both. Assumption students study across the globe in locations like Australia, Austria, Chile, Costa Rica, England, France, Germany, Ireland, Italy, Northern Ireland, Japan, Scotland, South Africa, Spain, Switzerland, and Semester at Sea. Host institutions include Oxford University, Stellenbosch University, and the University of St. Andrews. Stateside, students have participated in the Washington Center for Internships and Seminars, the Washington Semester at American University, and the New York Media Experience. Some study abroad programs permit students to begin language study; other programs offer language immersion—including homestays—for those who wish to achieve fluency. All financial aid applies, including all merit and athletic scholarships, with the exception of work study. Interested students should call the Office of Undergraduate Studies, x7486, to make an appointment.

ROME CAMPUS
Rome, the Eternal City, is a treasure of art, culture and history—a place where the foundations of Western Civilization were built. Against this rich backdrop, Assumption University has established a campus for students who wish to spend an exciting semester abroad to experience the richness of Rome and many other cities through excursions—included in tuition— to destinations such as Assisi, Florence, Pisa and more, while completing many of their core requirements. Italy becomes a living classroom with visits to culturally and historically significant locations. The program accepts a maximum of 18 students per semester, and applicants must have a minimum 2.75 cumulative grade point average and a good record of conduct. Interested students should contact Dr. Eloise Knowlton at x 7486 and visit www.assumption.edu/Rome. The deadline to apply for the spring semester is October 15; for fall, April 15; for summer, March 15.

SOPHIA PROGRAM
The SOPhomore Initiative at Assumption (SOPHIA) is a living and learning experience for sophomores aimed at guiding and cultivating discernment of their personal, professional, and spiritual vocations. Students apply for admission in the spring semester of their first year. SOPHIA Collegians may live in residence together in the Living/Learning Center; have a dedicated faculty mentor; compete for three high impact summer grants in the areas of community engagement, faith, and the life of the mind; and are invited to participate in a two-week capstone experience on the Rome campus.

SUMMER SEMESTERS
Assumption offers summer courses that are the same as their fall and spring semester counterparts, with the same small class size, the same level of intellectual rigor, often taught by the same professors. Summer semesters are six weeks in length; courses cover the same content in an intensive manner. Some courses are offered in the online format, while others meet on campus. The summer semesters provide the opportunity to accelerate a degree program, catch up, lighten the course load in a future semester, or simply focus on one particular course. Registration for Summer Semesters employs the online WebAdvisor registration system for Assumption University students. Payment of summer tuition and all outstanding charges is required before registration is considered complete. Students from other colleges and universities may register for summer courses using the form found on the Summer Semesters webpage or by calling the Registrar’s Office. Registrations are accepted through the first day of the semester. There is no week-long add/drop period. Students who enroll and then decide to withdraw from a summer course are provided refunds as follows: before the start of classes – 100%; during the first week of the semester – 60%; during or after the second week of the semester – 0%. After the first week of the semester a student who withdraws from a class will have a “W” recorded on his or her transcript. A student may withdraw from a course through the second to last day of class, with the permission of the instructor. Failure to attend classes or participate in online work does not constitute a withdrawal—a timely, formal request is required.
**INTERNSHIP FOR CREDIT**

Putting what you learn in the classroom to work in the real world, and bringing what you learn at work back into the classroom makes for powerful learning. Internships are invaluable. Non-credit bearing internships are offered and approved through the Career Development and Internship Center (CDIC), and may be paid or unpaid. Internships for credit add a substantive academic component to the work experience and may also be either paid or unpaid. In recent years, students have undertaken internships for credit in a wide variety of settings: with state representatives, in museums and archives, in radio, television, and newspapers; in banking, public relations, marketing, human resources, labor-management relations, and in the medical profession with pharmacists, dentists and surgeons. Recent sites include the University of Massachusetts Medical School, Old Sturbridge Village, and the *Telegram and Gazette*. Students can complete full time internships in Washington, D.C., New York City, or overseas. The student must hold a grade point average of 2.8 or higher, and have the academic background necessary to work effectively at the internship site. Typically, an internship for credit carries three academic credits for 140 hours of work on site, and completion of those academic components determined when the experience was designed. A student may complete only one internship for credit, unless otherwise required by his or her major. Applications are available from the Office of Undergraduate Studies, La Maison 202.

**INDEPENDENT STUDY**

A truly engaged student may develop an interest in a field or subject not addressed in the usual course offerings, or by way of the Worcester Consortium (HECCMA). Such a student might choose to undertake an Independent Study, a uniquely-designed course with a professor of relevant expertise. Applications for Independent Study are available in the Registrar’s office, and must carry the signature of the instructing faculty member and that professor’s chairperson before being submitted to the Office of Undergraduate Studies for final approval. Only one Independent Study per semester is permitted.

**FULBRIGHT AND OTHER POST-BACCALAUREATE SCHOLARSHIP MENTORING**

Prestigious scholarships enable Assumption students and post-graduates to engage in learning experiences in the United States and abroad. Opportunities are available for undergraduate and post-graduate scholarship support. Some of these scholarships opportunities include the Fulbright for postgraduate study abroad, the Marshall and Rhodes for postgraduate study in the United Kingdom, the William Simon Fellowship for Noble Purpose, the James Madison Scholarship, the Barry Goldwater Scholarship, the N.C.A.A. Post-Graduate Scholarship, and the David L. Boren Graduate Fellowship. For more information contact Professor Thomas Wheatland, 508 767-7562.

**COOPERATIVE PROGRAMS OF STUDY**

**HIGHER EDUCATION CONSORTIUM OF CENTRAL MASSACHUSETTS, INC. (HECCMA)**

In 1968, Assumption University joined with other institutions of higher learning in the Worcester area to organize the Worcester Consortium for Higher Education, more recently renamed the Higher Education Consortium of Central Massachusetts. Cross registration between partner institutions widens the range of study for all. Participants in the Consortium are: Anna Maria College, Assumption University, Clark University, the College of the Holy Cross, Cummings School of Veterinary Medicine at Tufts University, Massachusetts University of Pharmacy and Health Sciences, Quinsigamond Community College, University of Massachusetts Medical School, Worcester State University, and Worcester Polytechnic Institute. The cross-registration arrangements of the Consortium Universities permit full-time day students to take courses at other Consortium institutions. Registrants are limited to one cross-registered day course per semester. If a similar course is offered at the home institution, permission may be denied. A student registering for a Consortium course is responsible for satisfying course requirements, even though calendars and regulations may differ among Consortium institutions. Through the Consortium, students are exposed to a greater variety and flexibility in course offerings. It should be recognized that students are registered on a space-available basis. Course information can be obtained through the Office of the Registrar or on the website at [http://courses.heccma.org/](http://courses.heccma.org/). All cross-registration procedures for Assumption University students should start by filling out a form online and bringing it in person to the Office of the Registrar.
AMERICAN ANTIQUARIAN SOCIETY AMERICAN STUDIES SEMINAR
Each fall, the American Antiquarian Society and five Worcester Universities sponsor a research seminar at the Antiquarian Society library. The seminar is conducted by a scholar familiar with the Society's holdings in early American history, and the seminar topic is related to his or her field of research. Selection is highly competitive. The participating students are chosen by a screening committee made up of representatives of the five participating Universities: Assumption University, Clark University, the College of the Holy Cross, Worcester Polytechnic Institute, and Worcester State University. The seminar topic and research methods combine several disciplines, and students from a wide variety of majors have participated successfully in this unique undergraduate opportunity. For further information, contact Prof. Carl Robert Keyes, ckeyes@assumption.edu.

MARINE STUDIES CONSORTIUM
The Marine Studies Consortium (http://www.brandeis.edu/marinestudies/about.html) is an association of 18 educational and research institutions in Massachusetts dedicated to increasing understanding and stewardship of coastal and marine ecosystems. The Consortium pursues this mission through an academic program and policy-development efforts centered on protection and management of marine environments. The Consortium's academic program offers unique learning opportunities, including Introduction to Marine Mammals and Coastal Zone Management. Other courses, such as Water Resources Management and Marine History of New England are offered nowhere else in our region at the undergraduate level. Consortium courses are taught by working professionals from research and policy centers, providing students with a real-world perspective on marine science and policy problems.

ARTICULATION AGREEMENTS

BIOTECHNOLOGY
Assumption University/ Northeastern University B.A./M.S. in Biotechnology.
Northeastern University will reserve space for two qualified Assumption University students in its Master of Science in Biotechnology program. The minimum requirements to be eligible include a cumulative GPA of 3.2, satisfactory completion of the prerequisites, and a completed application. The GRE and application fee will also be waived for these students. For additional information, please see Professor Steven Theroux.

Assumption University/Framingham State University B.A. in Biotechnology and Molecular Biology/Professional Science Masters (P.S.M.)
This is an accelerated 4+1 Masters program. Normally, the completion of these two programs takes six years. The dual degree student combines four years of training in the liberal arts and biotechnology and molecular biology at Assumption University with one year of graduate instruction in biological science, business, and the regulatory science of biotechnology at Framingham State University. This program provides students with an opportunity to pursue careers in the pharmaceutical industry, government, and the health care industry. To enter the graduate portion of the program, the student must have an overall GPA of 3.0 or higher, as well as a GPA of 3.0 or higher in the science courses. The student must also complete coursework in statistics. Furthermore, at least two relevant advanced science courses in cell biology, genetics, or molecular biology must be completed by the end of the junior year. For more information about the program and the additional requirements for admission, contact Professor Steven Theroux.

BUSINESS
Assumption University B.A./ Assumption University M.B.A.
Assumption undergraduate students are eligible for the Philosophy, Ethics, and Business 6-in-5 BA/MBA Program integrates a classical liberal education with diversified pre-professional training. Students who complete the Philosophy Major, Pre-Business Track, and maintain a 3.0 G.P.A. earn guaranteed admission to Assumption University's accelerated MBA program. Requiring several ethics-related courses and two business studies courses, the twelve-course Philosophy Major, Pre-Business Track, is tailored to address themes related to ethics, business, and economic life and can fit with most other majors as a second major. The accelerated MBA features an intensive Foundations in Business Program followed by a year of MBA coursework fully integrated with real-world practicums in which students work with local employers. Students earn both a BA and MBA in five years instead of the traditional six years. Those interested in the Philosophy, Ethics, and Business 6-in-5 BA/MBA Program...
should contact Prof. Dan Maher, Chair of the Department of Philosophy, at dmaher@assumptpion.edu, or Dean Joseph Foley, Dean of the Grenon School of Business, jfoley@assumption.edu.

ENGINEERING

Assumption University/University of Notre Dame University of Engineering
Assumption University has established an agreement with the University of Notre Dame University of Engineering that allows qualified Assumption students to earn a B.A. in Chemistry, Environmental Science, Mathematics or Computer Science from Assumption University and a B.S. in one of several fields of Engineering from the University of Notre Dame. This is a 3:2 program, which means students in this program of study spend three years at Assumption University and two years at the University of Notre Dame. The Assumption University degree will usually be Chemistry (for Chemical Engineering), Environmental Science (for Environmental Engineering), Computer Science (for Computer Engineering) or Mathematics (for Aerospace, Civil, Electrical, or Mechanical Engineering). The program is designed to provide the student with a strong liberal arts education in the sciences and mathematics. At Assumption, you will be in small classes with faculty who emphasize high-quality teaching. Students who complete the program will also receive state-of-the-art engineering training at the University of Notre Dame, one of the nation’s leading engineering universities. This program is rigorous, and it requires intensive study in science, mathematics and engineering. Students must finish a specified curriculum at Assumption. Typically, the student must also earn a cumulative G.P.A. of 3.6 or higher, a grade of 3.6 or higher in the specified mathematics, science and engineering courses, and a grade of C or higher in all courses taken at Assumption to be eligible for admission at Notre Dame. Admission to Notre Dame is not guaranteed. Those who are accepted are eligible for financial aid from Assumption and Notre Dame. Individuals planning to participate in an engineering program should be ready to take Honors Calculus in their first semester at Assumption. The well-rounded education acquired in the 3:2 dual degree program in engineering, science and mathematics will make the student very competitive in the job market or for admission to graduate school. For more information about this program, contact Prof. James Hauri at 508 767-7359.

Assumption University/Washington University at St. Louis
Assumption University and Washington University offer a 3:2 engineering degree that leads to a B.A. from Assumption and a B.S. in one of several fields of engineering. This program is very similar to the University of Notre Dame’s 3:2 degree program described above. To participate a student must have a 3.25 GPA, and admission to Washington University is not guaranteed. Assumption University and Washington University also offer a 3:3 option for those seeking to earn a master’s degree in Engineering. Students in this course of study spend three years at Assumption University and three years at Washington University, and upon completion are awarded a B.A. from Assumption University and a Masters in Engineering from Washington University. Participation in the 3:3 program also requires the student to maintain a 3.25 GPA while at Assumption, and admission to Washington University is not guaranteed. Washington University has a highly-regarded and nationally ranked engineering program, and qualified students who enter the 3:2 or 3:3 programs can choose to study Biomedical Engineering, Chemical Engineering, Computer Engineering, Electrical Engineering, Mechanical Engineering or Systems Science and Engineering. Students entering the 3:2 or 3:3 programs are eligible for financial aid from Assumption University and Washington University. For more information about these programs contact Prof. James Hauri at 508 767-7359.

ENVIRONMENTAL SCIENCE AND FORESTRY MANAGEMENT

Assumption University/Duke University 3:2 Program in Environmental Science Management or Forestry Management
Students interested in pursuing a master’s degree from Duke University in Environmental Science Management (MEM) or Forestry Management (MF) can complete their general education requirements, their major requirements, and their application for admission to the Duke graduate school in three years. If accepted into the Duke professional master’s degree program, the student is eligible to receive his or her Assumption University undergraduate degree upon the successful completion of their first year of graduate studies at Duke University. At the end of the second year of graduate study, the student is eligible to receive the MEM or the MF from the Nicholas School at Duke University. The Duke University agreement does not guarantee that Assumption University students will be accepted into the graduate program, and admission is competitive. Students interested in this program should contact Professor Steven Theroux or Professor James Hauri early in their undergraduate career.
EXERCISE SCIENCE

Assumption University /American International University (AIC), B.A./Master of Science (M.S.) in Exercise Science
AIC will reserve two seats for qualified Assumption University students who want to earn an M.S. in Exercise Science with a Concentration in Strength and Conditioning. To qualify for admission the student must earn a cumulative GPA of 3.0 or higher, and a 3.0 or higher in the prerequisite courses. The student must also complete the requirements for a major in Health Science with a Concentration in Pre-clinical studies, or Biology, or Biology with a Concentration in Neuroscience, or Biotechnology and Molecular Biology, or Chemistry, prior to matriculation at AIC.

HUMAN SERVICES AND REHABILITATION STUDIES

Assumption University Human Services and Rehabilitation Studies B.A./Assumption M.A. in Rehabilitation Counseling
The Department of Human Services and Rehabilitation Studies has an accelerated path toward helping undergraduate students obtain a master's degree in Rehabilitation Counseling. The Six-in-Five Graduate Program in Rehabilitation Counseling is open to all students at Assumption University regardless of their declared major. Undergraduate students that have completed general education requirements and the required courses in their major may begin the graduate program in Rehabilitation Counseling during their senior year. Upon completion of one additional year of graduate study (the fifth year), students will be awarded a Master of Arts Degree in Rehabilitation Counseling. Students are then eligible to take the Certified Rehabilitation Counselor Examination and become nationally certified as a Rehabilitation Counselor (CRC). Upon completion of this nationally accredited program in Rehabilitation Counseling, students have a number of professional options. Students can gain employment as a professional rehabilitation counselor in State Rehabilitation Agencies, Rehabilitation Hospitals, Educational Settings, Private Settings, Insurance Based Settings, Independent Living Centers, etc. The Master’s Degree will enable students to achieve professional counselor status and improved prospects for advancement into supervisory positions. Students can also use the Master’s Degree in Rehabilitation Counseling for entry into a Doctoral Program. Students interested in the Six-in-Five Graduate Program in Rehabilitation Counseling should consult with the Chair of the Department of Human Services and Rehabilitation Studies no later than February 1st of their junior year at Assumption University. Admission to the Six-in-Five Program in Rehabilitation Counseling requires a strong undergraduate record of academic success. Interested students will apply to the program by submitting a letter of application to the HSRS Chairperson and submitting two academic letters of reference along with a transcript. Application materials are accepted until March 1st. Once admitted to the Six-in-Five Program in Rehabilitation Counseling, students will begin taking graduate courses during their undergraduate senior year. On-going evaluation of student progress will take place during the senior year to ensure students are successfully completing graduate level coursework. During the spring semester of the senior year students with successful achievement will make application to Assumption University’s Graduate School and be admitted as official graduate students. Financial support such as grants and scholarships are available to qualified students.

MARINE SCIENCE

Assumption University/Duke University Marine Sciences Education Consortium (MSEC)
Assumption students are eligible to study at Duke University’s Marine Laboratory in Beaufort, North Carolina during the fall, spring, or summer sessions. The Duke program offers an opportunity for intensive study in marine science and marine ecology. In addition, Assumption students may participate in the MSEC’s study abroad programs which include sites in Singapore, Trinidad, Hawaii, Panama and France. While at Duke, it is possible to carry out an independent research project in collaboration with Duke faculty. It is also possible to take courses in Physics while in residence. This program should be of particular interest to Environmental Science majors and minors and to those who seek a science-intense study abroad opportunity. For more information contact Professor Steven Theroux.

HEALTH PROFESSIONS

Assumption University/Northeastern University B.A./M.S in Allied Health Professions
Northeastern University will waive the application fee and the GRE requirement for qualified Assumption University students interested in pursuing graduate degrees in pharmaceutical science, physician assistant studies, exercise physiology, school counseling, health informatics, and public health. To be eligible, students must earn a GPA of 3.2 or higher.

Assumption University/New York Chiropractic University (NYCC) B.A./Doctor of Chiropractic (DC)
There are two options at NYCC for Assumption students interested in pursuing a doctorate in chiropractic medicine, a traditional program and an accelerated program of study.

**Traditional Chiropractic Doctoral Program (DC)**
Five seats are available at NYCC each year for qualified Assumption students who want to enter a doctoral program in chiropractic medicine. The program requires 40 months of study beyond the B.A. For more information please see Professor Steven Theroux.

**Accelerated Chiropractic Doctoral Program (DC)**
Qualified Assumption students are also eligible to enter an accelerated program of study at NYCC. This course of study allows qualified students to complete a doctorate in chiropractic medicine in six years of study instead of seven. Students interested in this option should contact Professor Theroux for more information.

**Assumption University/Bridgeport University/Doctor of Chiropractic (DC)**
Bridgeport University offers eligible Assumption University students preferred admission and financial assistance. To be eligible students must complete the required prerequisite courses, earn a minimum cumulative GPA of 3.0, and a minimum GPA of 2.0 in the required prerequisite courses. For more information please see the Health Professions Advisor, Prof. Steven Theroux.

**Assumption University/American University of Antigua Medical School B.A./Doctor of Allopathic Medicine (M.D.)**
Assumption University students who fulfill the terms of the agreement will be accepted at the American University of Antigua University of Medicine. The terms of the agreement include the following: the student must have a GPA of 3.25 or higher, they must have a GPA of 3.0 or higher in the prerequisite courses, they must not have an F or a D in any prerequisite course, they must earn a score of 24 or higher on the medical University admissions test (MCAT), and they must earn a favorable recommendation from the AUA admissions officer who they interview with. For more information please see the health professions advisor.

**Assumption University/Regis University/B.A. in Biology or Biotechnology and Molecular Biology/M.S in Molecular Imaging**
Assumption University and Regis University offer a B.A. in Biology or Biotechnology and Molecular Biology and a Master of Science in Molecular Imaging. To qualify for the two preferred admission seats within the graduate program, the student must complete the requirements of the science major, earn a cumulative GPA of 3.0 or higher, earn a 3.2 or higher in the specified science prerequisites, and earn a C or better in each prerequisite course. Those admitted are eligible for a GRE/MAT waiver and a waiver of the admissions fee. Please see Professor Steven Theroux for more information.

**Assumption University/Massachusetts University of Pharmacy and Health Sciences B.A./Bachelor of Science in Nursing (B.S.N.)**
The Massachusetts University of Pharmacy and Health Sciences (MCPHS) has agreed to provide at least three seats at their Manchester, NH campus and three seats in their Worcester, MA campus for qualified Assumption students who want to earn a second bachelor’s degree in nursing. This is a 16-month program, and to be eligible Assumption students must complete the specified prerequisites with a grade of C or better (with no repeats), earn an average GPA of 3.2 or higher in the required prerequisites, and obtain a cumulative GPA of 3.2 or higher. Please see the Health Professions Advisor for additional details and requirements.

**Assumption University/Western New England University B.A./Master of Science in Occupational Therapy**
The Western New England University has agreed to provide at least two seats for qualified Assumption Students who want to earn a Doctorate in Occupational Therapy. For more information about this program, see the Health Professions Advisor, Professor Steven Theroux.

**Assumption University/Massachusetts University of Pharmacy and Health Sciences B.A./Doctor of Optometry (O.D.)**
The Massachusetts University of Pharmacy and Health Sciences (MCPHS) has agreed to provide five seats at their Worcester, MA campus for qualified Assumption students who want to earn a Doctorate in Optometry. This is a four-year program, and to be eligible Assumption students must complete the prerequisites with a grade of C or better (with no repeats). They must also have a GPA of 3.2 in the required prerequisite courses, an overall GPA of 3.2, and they must pass an interview at MCPHS. Please see the Health Professions Advisor, Professor Steven Theroux, for more information.

**Assumption University/New England University of Optometry B.A./Doctor of Optometry (O.D.)**
Assumption University and the New England School of Optometry have agreed to cooperate in providing an accelerated, seven-year curriculum of undergraduate and professional education leading to the Bachelor of Arts degree with a Major in Biology
from Assumption University and the Doctor of Optometry degree from the New England University of Optometry. The program consists of a three-year curriculum at Assumption University followed by a four-year curriculum in optometry at the New England School of Optometry. Upon successful completion of their first year at the New University of Optometry, individuals in this program are eligible to graduate with a bachelor’s degree from Assumption University. Admission into the School of Optometry is not guaranteed. For more information about this program, contact Professor Steven Theroux.

Assumption University/Massachusetts University of Pharmacy and Health Sciences B.A./Doctor of Pharmacy (Pharm.D.)
The Massachusetts University of Pharmacy and Health Sciences (MCPHS) has agreed to provide two seats at their Manchester, MA campus and five seats at their Worcester, MA campus for qualified Assumption students who want to enter an accelerated doctoral program in pharmacy. To qualify for admission into this 34-month program of study, Assumption students must complete the required prerequisites with a grade of C or better (with no repeats). They must also have a GPA of 3.4 or higher in the required prerequisites and an overall GPA of at least 3.4. Please see the Health Professions Advisor for additional details and requirements.

Assumption University/University of Saint Joseph/B.A./Accelerated Doctorate in Pharmacy (Pharm.D.)
Assumption University and Saint Joseph University are working together to offer a BA in Biology and a Doctorate in Pharmacy in six years. Typically students earning these degrees do so in seven or eight years. Students in the accelerated program will spend three years at Assumption University and three years at the University of Saint Joseph. To qualify for admission to the graduate program, applicants must complete the core curriculum requirements at Assumption, all but two of the required courses for a major in Biology or Biotechnology and Molecular Biology, and they must earn 90 credits. In addition, the applicant must complete the specified courses required for admission to the graduate program, and they must meet the admissions standards of the University of Saint Joseph. For more details, see Professor Steven Theroux.

Assumption University/Western New England University B.A./Accelerated Doctorate in Pharmacy (Pharm.D.)
Assumption University and Western New England University offer two programs of study for those who are interested in earning a doctoral degree in pharmacy. The accelerated doctoral degree is completed in seven years instead of the normal eight years, and Western England University has agreed to accept at least two qualified students from Assumption University into the program. The program consists of a three-year curriculum at Assumption University followed by a four-year curriculum in pharmacy at Western New England University. Upon successful completion of their first year at Western New England University, individuals in this program are eligible to graduate with a bachelor’s degree from Assumption University. Admission to the School of Pharmacy is not guaranteed, and students in the program must meet the admissions standards of the Western New England University Pharmacy Program. Assumption University and Western New England University also offer a more traditional program of preparation which involves four years of study at Assumption University followed by four years of study at Western New England University. Western New England University has agreed to accept at least two qualified Assumption University students each year into the graduate portion of the program. For more information, contact Professor Steven Theroux.

Assumption University/Massachusetts University of Pharmacy and Health Sciences B.A./Doctor of Physical Therapy (DPT)
The Massachusetts University of Pharmacy and Health Sciences (MCPHS) has agreed to provide two seats at its Worcester, MA campus for qualified Assumption students. To be eligible for study in this 32 month accelerated doctoral program, students must earn a 3.3 in the specified prerequisites and they must have a cumulative GPA of 3.3 or higher. See the Health Professions Advisor for additional details and requirements.

Assumption University/Massachusetts University of Pharmacy and Health Sciences B.A./Master of Science in Physician Assistant Studies (M.S.P.A.S.)
The Massachusetts University of Pharmacy and Health Sciences (MCPHS) has agreed to provide at least one seat at their Manchester, MA campus and one seat at their Worcester, MA campus for qualified Assumption students who want to earn a master’s degree in Physician Assistant Studies. This is a 24-month program, and to be eligible Assumption students must complete the prerequisites with a grade of C or better (with no repeats). They must also have a GPA of 3.4 or higher in the required prerequisites, an overall GPA of at least 3.4, and they must pass an interview at MCPHS. Please see the Health Professions Advisor for additional details and requirements.

Assumption University/Barry University B.A./Doctor of Podiatric Medicine (D.P.M.)
Assumption University and Barry University School of Podiatric Medicine have agreed to cooperate in providing an accelerated, seven-year curriculum of undergraduate and professional education leading to the Bachelor of Arts degree with a major in Biology from Assumption University and the Doctor of Podiatric Medicine degree from Barry University School of Podiatric Medicine. Upon successful completion of their first year at Barry University of Podiatric Medicine, individuals in this program are eligible to graduate with a bachelor’s degree from Assumption University. Admission into the School of Podiatric Medicine is not guaranteed. For more information, contact Professor Steven Theroux.
**Assumption University/Regis University/B.A./Master of Science in Occupational Therapy**

Assumption University and Regis University offer a program that leads to a Bachelor of Arts with a major in Biology from Assumption University and a Master of Science in Occupational Therapy from Regis University. There are two seats available for preferred admission within the graduate program, and to qualify for the seats, a student must complete a specified course of study, earn a cumulative GPA of 3.2 or higher, earn a GPA of 3.2 or higher in the science prerequisites, and earn a grade of B- or better in all of the science prerequisites taken at Assumption. For more information, contact Professor Steven Theroux.

**Assumption University/Regis University/B.A./Master of Science in Regulatory and Clinical Research Management**

Assumption University and Regis University offer a program that leads to a Bachelor of Arts with a major in Biology from Assumption University and a Master of Science in Regulatory and Clinical Research Management from Regis University. To qualify for the two preferred admission seats within the graduate program, a GRE/GMAT waiver, an admissions fee waiver, and a free graduate course prior to matriculation into the program, the student must earn a BA in Biology or Biotechnology and Molecular Biology from Assumption University and a cumulative GPA of 3.0 or higher. To matriculate into the graduate program the student must also obtain a satisfactory letter of recommendation from a faculty member in the Assumption University science department, and they must successfully complete an interview at Regis University. For more information, contact Prof. Steven Theroux.

**LEGAL STUDIES / LAW SCHOOL**

**Assumption University/ Duquesne University School of Law B.A./J.D.**

Assumption University and Duquesne University School of Law offer an accelerated program of study that allows qualified students to earn a bachelor’s degree from Assumption University and a law degree from Duquesne University in six years. Typically seven years of study are required to earn these degrees. In order to be eligible for admission into this accelerated program, students must complete the requirements of their major and the General Education Requirements of Assumption University in their first three years of study. Upon successful completion of their first year of law school at Duquesne, individuals in this program are eligible to graduate with a bachelor’s degree from Assumption University. Admission into the law school is not guaranteed. For more information about this program, contact Prof. Bernard J. Dobski or Prof Carl Robert Keyes.

**Assumption University/ Western New England University School of Law B.A./J.D.**

Assumption University and the Western New England University School of Law offer an accelerated program of study that allows qualified students to earn a bachelor’s degree from Assumption University and a law degree from Western New England University School of Law in six years. Typically seven years of study are required to earn these degrees. In order to be eligible for admission into this accelerated program, students must complete the requirements of their major and the General Education Requirements of Assumption University in their first three years of study. Upon successful completion of their first year of law school at Western New England University School of Law, individuals in this program are eligible to graduate with a bachelor’s degree from Assumption University. Admission into the law school is not guaranteed. For more information about this program, contact Prof. Bernard J. Dobski or Prof. Carl Robert Keyes.

**Assumption University/Vermont Law School B.A./J.D.**

The Vermont Law School has an exceptionally strong program in Environmental Law, and it has consistently been ranked among the top one or two programs in the country by US News and World Report. Students interested in pursuing a J.D. in Environmental Law may wish to consider this program. The Vermont University of Law also prepares students for the practice of other areas of law, so admission to this institution is not limited to those interested in Environmental Law. Admission into the law school is not guaranteed. Students eligible for admission to the law school through this agreement must complete the requirements for a bachelor’s degree from Assumption University. The applicant must also complete a minimum of 60 credits towards the bachelor’s degree in residence at Assumption University with a GPA that is equal to or exceeds the average GPA of the first year JD class in residence at Vermont Law School at the time of the student’s application. In addition, students eligible for admission through this agreement must have a current LSAT score that is equal to or exceeds the average LSAT score of the first-year JD class in residence at the time of the student’s application. For information about additional requirements please contact Professor Theroux or Professor Dobski.
PRE-PROFESSIONAL PROGRAMS

PREPARATION FOR STUDY IN ONE OF THE HEALTH PROFESSIONS

Students interested in studying one of the health professions (e.g., medicine, dentistry, nursing, optometry, physical therapy, pharmacy, nuclear medicine, etc.) can major in one of the sciences or they can choose one of a variety of non-science majors. However, in order to be considered for admission to a graduate program in the health sciences, the student must complete the prerequisite coursework specified by their program of interest.

The Assumption University health professions advisor and the faculty of the natural science department assist the student in planning an appropriate course of study. The University also has a Health Professions Committee that can provide students with a letter of recommendation from the Natural Science Department. Through the Natural Sciences Club, the student may have the opportunity to meet members of the health professions. Many students interested in one of the health professions complete an internship in one or more areas related to their specific interests.

Pre-Health Professions Program of Study

The Health Professions Program is designed to help students enter graduate school in one of the health professions. The program focuses on preparing the student to earn good grades and strong scores on the admissions test and graduate school interview. Those who complete the program requirements will have the fact that they did so stated on their transcript.

Pre-Health Professions Program Requirements

1. Complete the required coursework with a cumulative GPA of 3.0 or better and a GPA of 3.0 or better in one of the appropriate majors. Appropriate majors are: Health Science with a Concentration in Pre-Clinical Medicine, Biology; Biology with a Concentration in Neuroscience and Behavior; Biotechnology and Molecular Biology; Chemistry; Psychology; Psychology with a Concentration in Brain, Cognition and Behavior; or Human Services and Rehabilitation Studies.

2. Submit a statement indicating that the prerequisite courses required for admission to a particular health professions graduate program were successfully completed.

3. Present evidence from Kaplan that he or she successfully completed a Kaplan Test Preparation Course (e.g., MCAT, DAT, OAT, VCAT, PCAT, GRE, etc.).

4. Present evidence that he or she took a graduate admissions test (e.g., MCAT, DAT, GRE, etc.) and scored in the top 50% of those taking the test in that year.

For additional information contact Professor Steven Theroux.

POST-BACCALAUREATE PRE-HEALTH SCIENCES PROGRAM

Assumption offers a post-baccalaureate certificate program in the pre-health sciences for students that need to complete additional science coursework prior to applying to a graduate program in one of the health sciences. Students in the program work with the health professions advisor, Professor Steven Theroux, and design a course of study. Applicants should have a B.A. or B.S. from an accredited institution and an overall GPA of 3.0 or higher. An application for the program can be obtained by calling Prof. Theroux at 508.767.7545. Completed applications are due February 1.

POST-BACCALAUREATE PRE-THEOLOGY CERTIFICATE PROGRAM IN PHILOSOPHY

The post-baccalaureate Pre-Theology Certificate Program consists of two components: (1) the first is a course of study, principally in Philosophy, intended for men discerning the possibility of a vocation to the priesthood after their University years; (2) the second is a course of study, principally in Theology, for men seeking admission to the Assumptionist Congregation. If a candidate is judged to have completed the first course of study elsewhere, he may proceed directly to the second component of the program under the supervision of the appropriate department Chair and Assumptionist mentor. The first component recognizes the importance of solid philosophical training in the serious study of theology. A two-semester course in Philosophy
and Theology anchors the curriculum. In addition, students complete five one-semester courses that introduce the chief areas of philosophical investigation and the history of philosophy and at least three electives chosen from a group of upper-level courses in Philosophy, Theology, Political Philosophy, and other approved areas. Each student will be provided with individual guidance by a member of the Philosophy Department. For further information contact Prof. Daniel Maher, at dmaher@assumption.edu

The second component offers a course of study, principally in Theology, designed to satisfy the requirements established by the Assumptionist Congregation. Students may pursue up to 48 additional credits in courses offered as independent studies on topics such as Assumptionist and Augustinian Spiritual Thought; The Theology of Prayer; Sacraments and Worship; History of the Church in 19th Century France; The Theology of Religious Life; The History of the Assumptionists; Journal Writing, etc. Students may pursue courses from this component simultaneously with the first component. Each student will be provided with the individual guidance of an Assumptionist and a member of the Theology Department and will submit any directed study courses for approval to the Chair of the Theology Department and the Associate Vice President of Academic Affairs.

AIR FORCE AND ARMY RESERVE OFFICER TRAINING CORP (ROTC)
Assumption University students may participate in the Air Force or Army Reserve Officer Training Corps (ROTC) at Worcester Polytechnic Institute. Qualified U.S. citizens who earn their degree from Assumption University and satisfactorily complete the ROTC program requirements will be commissioned as second lieutenants. Air Force ROTC offers a four-year and two-year program for qualified individuals to earn their commission; two- and three-year scholarship opportunities are also available to qualified individuals in specific areas of academic study. Army ROTC offers a four, three and two-year program for qualified individuals to earn their commission; two-, three- and four-year scholarships are also available to qualified individuals. For more details on either program, write to the Department of Aerospace Studies (Air Force) or Department of Military Services (Army), 100 Institute Road, Worcester MA 01609, call them at 508-831-5747 (Air Force), or 508-831-5268 (Army) or email them at airforce@wpi.edu or armyrotc@wpi.edu.

PRE-LAW ADVISING PROGRAM
The study and practice of the law has always attracted ambitious, civic-spirited and intellectually serious students. And for good reason: lawyers are important. Indeed, Alexis de Tocqueville, that great student of democracy in America, thought that lawyers were so critical to our political and cultural health that he questioned “whether democratic institutions could be long maintained” without the special knowledge, habits of mind, and unique methods that a serious study of the law affords our fellow citizens. To prepare students interested in law school to meet the many intellectual and ethical challenges of the legal profession, the Pre-Law Program at Assumption University combines the school’s commitment to a strong liberal education with the personalized advising, co-curricular activities, and development opportunities necessary for success in law school.

The faculty advisors in the Pre-Law Program encourage students interested in law school to seek their services early in the students’ academic careers. Our advisors help students from all majors identify both law schools and areas within the law that best fit the interests and competencies of the students. They also help the students tailor their academic programs in a manner suitable to their particular circumstances and abilities. Such an approach gives the individual student the freedom to choose the course of study that suits his or her interests. It is also consistent with the expectations of the American Bar Association and law school admissions officers who agree that no single curricular path prepares students for law school better than any other. In other words, the best preparation for law school is a field of study about which students are genuinely enthused and in which they can therefore excel. Not surprisingly, several majors at the University, such as English, History, Natural Science, Philosophy, Political Science and Sociology, among others, successfully matriculate students to law school.

In addition to academic advising, Pre-Law advisors hold informational meetings for students, arrange meetings with Assumption University alumni who are in law school or in the legal profession, sponsor legal internships, and organize professional development opportunities. Above all they aid students in their preparation for the Law School Admissions Test (LSAT) while guiding them through the law school application process. Assumption graduates have gone on to matriculate at such law schools as Boston University, Brooklyn University of Law, Catholic University of America’s Columbus School of Law, Florida State University, New England School of Law, the University of Notre Dame, and Suffolk University School of Law, and have continued to succeed in the profession. For more information contact the pre-law advisor, Professor Carl Robert Keyes, ckeyes@assumption.edu.
Centers and Institutes

AARON T. BECK INSTITUTE FOR COGNITIVE STUDIES
Founded in 1996 and named in honor of the “Father of Cognitive Therapy,” the Aaron T. Beck Institute annually hosts speakers and conferences that address research and therapeutic developments in cognitive therapy, as well as ethical and moral issues faced by therapists and clients. The Institute also sponsors education and training projects in cognitive therapeutic skills for graduate students and postgraduate professionals. The Institute strives to provide the community at large with information that illuminates the contributions of cognitive factors to the resolution of problems in living.
Even though the Institute’s programs offer intensive instruction in cognitive therapy for mental health professionals, these workshops and lectures are available to all students. The Institute hosts internationally known psychologists and psychiatrists who discuss innovations in psychological treatments for a wide variety of psychological problems. For students who are interested in learning about psychology, the Institute’s programs offer unique opportunities to learn about developments in highly effective psychotherapies. For more information, contact Prof. Leonard Doerfler.

CENTER FOR PURPOSE AND VOCATION
The Center for Purpose and Vocation connects students to the many campus resources and opportunities available to them for their pursuit of life purpose, meaning and callings. CPV programs and events support students in building strong character and leading a more meaningful and purposeful life. At the CPV, we support the exploration of vocation in its many forms —active, contemplative, creative, religious, social, communal, personal, professional— through courses, events, and initiatives sponsored in partnership with various academic departments, programs, and offices such as the Career Development and Internship Center, the Community Service Learning Program, the D’Amour Center for Teaching Excellence, Campus Ministry, the Offices of Student Affairs and Residential Life, and the CPV’s own SOPHIA Program for sophomores. For more information, contact the Center’s director, Esteban Loustaunau at cpv@assumption.edu.

D’AMOUR CENTER FOR TEACHING EXCELLENCE
The D’Amour Center for Teaching Excellence works to foster and contribute to conversations about teaching and learning at Assumption University. The Center sponsors programs and events for faculty related to teaching and learning in higher education; consults and collaborates with individuals, offices, departments, and programs that impact teaching and learning; gathers and disseminates resources on teaching and learning in higher education to all teaching faculty; and produces, supports, and promotes the scholarship of teaching and learning on campus and in the broader higher education community. Students are able to participate in the work of the Center through our Student Fellows Program. For more information, contact Prof. Molly McGrath.

THE ECUMENICAL INSTITUTE
The Ecumenical Institute at Assumption University was established in 1968 and refounded in 1999 to provide a forum for reflection and discussion of questions of common interest to Christians of all churches and to people of other faiths. Through annual lectureships, special programs, and collaboration with other organizations, the Institute stresses education and makes a deliberate effort to bring contemporary scholarship to bear on the life of the University, Church and society in our time. Its work is inspired by the Assumptionists’ commitment to ecumenism and social justice and by the emphasis the University’s mission places on the harmony of faith and reason. The Institute seeks to address common issues confronting all believers in our day—namely, the relation of faith to the modern world—being particularly sensitive to the fact that, in many instances, the real problems persons of faith encounter today.

THE FRENCH INSTITUTE
The French Institute was founded in 1979 to honor and preserve the French heritage of Assumption University and the region. The Institute is both an academic research facility and a center for French cultural activities. Although its main goals are to foster the conservation and study of the records of French ethnicity on this continent, the name French Institute (Institut français) was chosen for its ability to encompass the entire francophone world. The Institute is a leading place to study material relating to the
nearly one million French Canadians who immigrated to the United States, especially New England, in the 19th and 20th centuries. As a research center, it acquires books and archival materials pertinent to its primary focus: the French presence in North America, with emphasis on New England. In 2004, the Institute’s collection was complemented by the arrival on campus of the Mallet Library of the Union St. Jean-Baptiste, another fine collection of Franco-Americana. The French Institute seeks to promote knowledge and awareness of francophone North Americans and francophone questions generally by organizing lectures and colloquia, publishing a newsletter and books, and participating in a variety of cultural projects. The Institute has published conference proceedings on various aspects of French-Canadian immigration to the United States, and it has provided English translations of texts to make them accessible to non-French speakers. It has also hosted many distinguished visitors, including the French Minister for Francophone Affairs, the Vice-Minister for International Affairs of Quebec, and scholars from Europe, Canada, francophone Africa, and Haiti.

CENTER FOR GLOBAL STUDIES
The world has perhaps never seemed so small. Founded in 2018, the Center for Global Studies gathers the University’s many facets of international education in one location. It is home to the Global Studies major and minor programs. Questions regarding the study abroad, both for Rome and all other Global locations can be asked to the Program Director. Additionally, there are semester-long internship opportunities (fall, winter and summers, available through the University’s affiliation with The Washington Center and American University in Washington, D.C. Study and conference areas for international students are also located here. The Director of the Center for Global Studies is Prof. Kevin Hickey, khickey@assumption.edu, 308 Founders Hall.

HOLY NAME OF JESUS INSTITUTE
In 2008, the Holy Name of Jesus Institute was established at Assumption University for the purpose of educating seminarians pursuing a vocation to the diocesan priesthood in the Diocese of Worcester. Seminarians receive their Bachelor of Arts degree in Philosophy at Assumption University at reduced cost. This program of study conforms to the norms established for priestly formation by Saint Pope John Paul II in the Apostolic Exhortation, Pastores Dabo Vobis, and adopted by the United States Conference of Catholic Bishops. For more information about the program contact Fr. Donato Infante III, Director@worcestervocations.com, 508-630-4473.

DANIEL PATRICK MOYNIHAN CENTER FOR SCHOLARSHIP AND STATESMANSHP
From Cicero to Burke and John Adams to James Madison, the convergence of scholarship and statesmanship has produced some of the great insights and great actions in political history. There is no finer recent exemplar of that tradition, and no greater example of the kind of scholars, statesmen and citizens the contemporary academy should seek to cultivate, than Senator Daniel Patrick Moynihan. In an era of increasingly divisive politics when truth itself seems to be a matter of political will and rising cynicism is alienating alarming numbers from political life, the Daniel Patrick Moynihan Center for Scholarship and Statesmanship at Assumption University seeks to cultivate thoughtful citizens and insightful ideas by both exploring and encouraging the intersection of ideas and action in politics. Located in the Department of Political Science, the Center hosts scholars, holds conferences on themes inspired by Moynihan’s work and, starting in summer 2022, will sponsor a Washington program for undergraduates from Assumption and around the country during which they will explore the intersection of scholarship and statesmanship while meeting prominent people who work at it. Other opportunities for Assumption students include participation in both faculty research and student reading groups. For more information, contact the Center’s associate director, Prof. Deborah O’Malley, at d.omalley@assumption.edu.

THE CENTER FOR NEUROSCIENCE
Assumption’s Center for Neuroscience is home to a vibrant, interdisciplinary community of students and faculty with neuroscience-focused interests. In addition to offering co-curricular activities, community outreach, service, and career networking opportunities, the Center also sponsors paid summer research internships, a neuroscience lecture series, an affiliation with the Western Massachusetts Chapter of the Society for Neuroscience, and co-hosts events with Assumption’s chapter of Nu Rho Psi – the National Honors Society in Neuroscience. Assumption offers several options for students interested in studying neuroscience including a major in biology with a concentration in neuroscience and behavior, a major in psychology with a concentration in neuroscience of human behavior, and a major in neuroscience with a psychology path. For more information, contact the Center’s director Prof. Michele Lemons, mlemons@assumption.edu.
WORCESTER INSTITUTE FOR SENIOR EDUCATION (WISE)

Assumption University’s School of Graduate Studies presents the Worcester Institute for Senior Education (WISE), a premier lifelong learning institute. Since 1993, this member-run organization has offered intellectual stimulation and personal growth for older adult learners. WISE Instructors are retired professors and/or individuals with expertise in their field who engage members through educational programming. Peer learning and active participation are key components. The membership fee entitles members to participate in Institute courses, clubs, discussion groups, attend special events, use the University library, and attend University lectures and cultural activities. The WISE program is currently offered through a virtual platform with a plan to offer a hybrid model to accommodate both in-person and remote learners. Courses are held during the day in Fall, Spring, and Summer terms. For more information contact Monica Gow at ml.gow@assumption.edu.
D’Amour College of Liberal Arts and Sciences
Department of Art and Music

Associate Professors: Carrie Nixon, Toby Norris (Chair); Assistant Professor: Scott Glushien; Professor of Practice: Peter Clemente; Visiting Assistant Professor: Lynn Simmons; Instructors, Lecturers: Jonathan Bezdegian, Paul Buono, Elissa Chase, Brad Dumont, Tom Grady, Susan Hong-Sammons, Bruce Hopkins, Michele Italiano Perla, Jon Krasner, Gary Orlinsky, Joseph Ray, Peter Sulski, Margaret Tartaglia, Tyler Vance.

MISSION STATEMENT
The department aims to give students an understanding of the importance of rigorous practical and intellectual formation in stimulating creative thought and achieving creative expression. We also strive to help students appreciate Art and Music as significant dimensions of the human experience. Studying the history of the arts brings home the central role that they have played in the development of human thought, both within and outside the Judeo-Christian tradition. Practicing the arts encourages students to incorporate creative expression into their wider intellectual and personal development. In forming the human being more completely, the department fulfills a fundamental goal of Catholic education.

MAJOR IN GRAPHIC DESIGN (14)
The major in Graphic Design is a fourteen course major with twelve required courses and two electives. The main goal of the major is to educate students to effectively communicate visually by combining form, content, and information, and to prepare students for entry into the professional field as a graphic designer, and/or continue their education in graduate school. Students in the major will develop a strong base in typography, web design, photography, drawing, illustration, and marketing. Students will also broaden their ability to think critically and creatively, and will have a thorough knowledge of the latest design software and technology. With these skills the graphic design major will be able to effectively research, conceptualize and communicate varied solutions to any design problems they will encounter.

ART 101 Drawing I
ARD 115 Graphic Design I: Form and Content
ARD 215 Graphic Design II: Meaning and Messaging
ARD 315 Graphic Design III: Advanced Strategies
ARD 175 Introduction to Digital Photography
ARD 216 Illustration
ARD 217 Typography
ARH 227 Meaning of Modern Art or ARH 229 Art Since 1945
ARD 300 Internship in Graphic Design
ARD 317 Motion Graphic Design
ARD 318 Graphic Design for the Web
ARD 401 Senior Seminar in Graphic Design

2 Electives from:
ART 106 Sculpture I
ART 111 Painting I
ART 201 Drawing II
ARD 275 Digital Photography II
CSC 170 Desk Top Publishing
ENG 219 Introduction to Media Analysis
MKT 101 Principles of Marketing
MKT 310 Advertising
RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN GRAPHIC DESIGN

First Year
ART 101 Drawing I
ARD 115 Graphic Design I
ARD 175 Introduction to Digital Photography

Sophomore Year
ARD 215 Graphic Design II
ARD 217 Typography (Fall)
ARD 216 Illustration (Spring)
ARH 227 Meaning of Modern Art or ARH 229 Art Since 1945 (typically offered in the Spring semester)

Junior Year
ARD 315 Graphic Design III
ARD 317 Motion Graphic Design or ARD 318 Graphic Design for the Web (Fall)
ARD 300 Internship in Graphic Design (Spring)
Elective

Senior Year
ARD 317 Motion Graphic Design or ARD 318 Graphic Design for the Web (Fall)
ARD 401 Senior Seminar (Spring)
Elective

ADVISING TIPS FOR THE GRAPHIC DESIGN MAJOR
- The sequence of classes outlined above is flexible. Students can successfully complete the major starting as late as Spring semester of their sophomore year. Please consult with a member of the Graphic Design faculty to establish a program of study.
- ARD 115 meets the Fine Art requirement in the Culture and Expression segment of the Core Curriculum

MAJOR IN MUSIC (11)
The major in Music covers the areas of Music Theory, Music History, and Performance with the opportunity for development of individual performance skills. Studies develop musicianship, competency in the principles and procedures that lead to an intellectual grasp of the art, and the ability to perform. The major in Music consists of 11 courses:

MUS 122 History of Music I
MUS 124 History of Music II
MUS 201 Music Theory I
MUS 301 Music Theory II
MUS 330 Conducting
MUS 193 Chorale or MUS 195 Band or MUS 196 Jazz Ensemble or MUS 197 String Camerata (six semesters at 1 credit per semester, equivalent to two 3-credit classes)

Four additional courses from among program offerings (not to include MUS 101 Fundamentals of Music). Applied music instruction in Voice or an instrument may be counted toward the major. Three semesters at 1 credit per semester are required to count as one course.

ADVISING TIPS FOR THE MUSIC MAJOR
- MUS 122, 124 and 201 should ideally be taken by the end of the sophomore year, but there is considerable flexibility in the structure of the major. Please consult with a member of the Music faculty if you are interested in declaring a music major.
- MUS 122/124 meets the Fine Art requirement in the Culture and Expression segment of the Core Curriculum.
- MUS 125 and MUS 126, which count as electives in the major, meet both the the Fine Art requirement and the Global Awareness requirement in the Core.
MINOR IN ART HISTORY (6)
ART 101 Drawing I or ARD 115 Graphic Design I
ARH 125 History of Western Art or ARH 160: Art Ancient and Modern: The Question of Beauty
ARH 400 Senior Art History Seminar
Three other courses from among Art History offerings, of which one must be at the 300 level

MINOR IN CREATIVE WRITING AND MAGAZINE DESIGN (7)
This interdisciplinary minor consists of 7 courses in English (ENG) and Graphic Design (ARD).
Three required courses:
• ENG 209: Creative Writing
• ARD 115: Graphic Design I
• ARD 215: Graphic Design II

One (1) genre course in literature selected from among:
ENG 231 Introduction to Poetry
ENG 233 The Modern Short Story
ENG 235 Introduction to Theatre
ENG 240 Gothic Literature
ENG 241 Fantasy Literature
ENG 390 The Art of the Novel

Three (3) creative writing courses selected from among:
ENG 203: Autobiography Workshop
ENG 305: Fiction Workshop
ENG 306: Poetry Workshop
ENG 307: Drama Workshop
ENG 309: Creative Nonfiction

Students interested in the minor are urged to seek the advice of a faculty member in the Departments of English or Art and Music in order to design a program that is best suited to the student’s interests and professional goals.

MINOR IN GRAPHIC DESIGN (7)
ART 101 Drawing I
ARD 115 Graphic Design I: Form and Content
ARD 175 Introduction to Digital Photography
ARD 215 Graphic Design II: Meaning and Messaging
ARD 217 Typography
ARD 315 Graphic Design III: Advanced Strategies
ARH 227 Meaning of Modern Art or ARH 229 Art Since 1945

MINOR IN MUSIC (6)
MUS 122 History of Music I
MUS 124 History of Music II
MUS 201 Music Theory I
MUS 301 Music Theory II
MUS 193 Chorale or MUS 195 Band or MUS 196 Jazz Ensemble or MUS 197 String Camerata (3 semesters)
One additional course from among program offerings (not to include MUS 101 Fundamentals of Music). Applied music instruction in Voice or an instrument may be counted toward the minor. Three semesters at 1 credit per semester are required to count as 1 course.

MINOR IN STUDIO ART (6)
ART 101 Drawing I
ART 111 Painting I
ART 201 Drawing II
ART 211 Painting II
ARH 125 History of Western Art or ARH140R Art in Rome
ART 401 Senior Studio Art Seminar or one 300-level ART course

AFFILIATED PROGRAM
FORTIN AND GONTHIER CORE TEXTS AND ENDURING QUESTIONS PROGRAM (CTEQ)
Designed for select students who want to combine their pursuit of a specialized major with a fully integrated, interdisciplinary minor, the CTEQ minor brings four separate departments—Art History, Philosophy, Theology, and Political Science—together in one unified minor. Our students explore perennial human questions (about the nature of justice, beauty, human nature, and God) with the help of the Great Books. CTEQ students and faculty form a distinctive and close-knit learning community at Assumption University. For more information, see the entry under “Interdisciplinary Programs of Study” or contact us at CoreTexts@Assumption.edu.

COURSE DESCRIPTIONS

GRAPHIC DESIGN (ARD)

ARD 115 GRAPHIC DESIGN I: FORM AND CONTENT
This course will offer an introduction to graphic design and visual communication. Students will be introduced to the elements and principles of design as well as critical analysis and visual problem solving skills. The interrelationship between visual and verbal communication will be explored along with the study of typography. In this course, the computer application Adobe Illustrator will be used as the design tool on Macintosh computers only. A working knowledge of basic Macintosh computer skills will be helpful but not necessary. Studio Fee: $115.00. This course fulfills the Core requirement for a Fine Art course in Culture and Expression.
Staff/Three credits

ARD 175 INTRODUCTION TO DIGITAL PHOTOGRAPHY
This project-based studio course serves as an introduction to digital photography as it applies to the fine arts. Students will explore technical and aesthetic foundations of photography through the latest digital technology. Digital cameras, scanning, and image manipulation software will be covered as well as an examination of the history of photography and its role as a form of artistic expression. We will also read and discuss critical issues in photography and the history of photography. Students will be responsible for purchasing specialized paper and a Studio Fee of $175.00 This course does NOT satisfy the Core requirement for a Fine Art course in Culture and Expression.
Glushien/Three credits

ARD 215 GRAPHIC DESIGN II: MEANING AND MESSAGING
This class offers a continuation of Graphic Design I. Students will further explore the use of typographic symbols as a crucial element to design. Design history and critical issues in design will be explored. Students will work on a series of projects that emphasize visual expression, composition, and problem solving. The computer application Adobe Illustrator will be used. Adobe InDesign will be introduced. Studio Fee: $100. Prerequisite: ARD 115.
Glushien, Simmons/Three credits

ARD 216 ILLUSTRATION
This class is an overview of basic illustration techniques geared to the needs of the graphic designer. Assigned projects will cover the use of pen and ink, acrylic paint and the digital media programs Adobe Photoshop and Illustrator. The class will focus on pictorial communication and exposure to various genres of illustration. Strong design from conceptualization through execution is stressed. Studio Fee $50.00. Prerequisite: ART 101 or ARD 115.
Ray/Three credits
ARD 217  TYPOGRAPHY
This course covers principles of typeface selection and the use of typographical grids as well as families of type and historical usage. Typographical assignments are presented through themed projects. A variety of basic layouts and formats is introduced. Exercises are geared to develop sensitivity to the integration of typography with a variety of visual imagery. There is an emphasis on concept development and on the cultural associations of various typefaces. Students will be encouraged to integrate ideas and interests from other areas of study in their exploration of the expressive possibilities of type. Prerequisite: ARD 115
Glushien, Simmons/Three credits

ARD 275  DIGITAL PHOTOGRAPHY II
This course is a continuation of the study of digital photography as it applies to the fine arts. Students will gain a solid working knowledge of the process and context of photography in the fine art world. This is a studio course in which we will expand our expertise with Adobe Photoshop, advanced camera functions and sophisticated printing techniques. However, the main focus will be on the content and meaning of our photographs. Classes will consist of demonstrations, discussion of readings, printing, lectures, and weekly critiques. We will be creating an increasingly complex visual language through emotional and physical concentration and open-minded observation. Our photographs will not simply focus on appearances—they will become expressions and metaphors of life itself. Students will be responsible for purchasing specialized paper and a Studio Fee of $175.00. Prerequisite: ARD 175 Glushien/Three credits

ARD 299, 399, 499  INDEPENDENT STUDY IN GRAPHIC DESIGN
Each of these numbers designates a specific level of specialized study on a relevant topic that has been designed by the student in conjunction with a faculty member. Permission of Chair required.
Staff/Three credits

ARD 300  INTERNSHIP IN GRAPHIC DESIGN
This course enables students to apply their academic knowledge and analytical skills in professional settings while earning academic credit. Students complete an internship (minimum 120 hours, paid or unpaid) and attend weekly seminar/classroom sessions to discuss and share observations about their internships. All students document their daily internship activity using a Blackboard log, and complete an online portfolio and resumé using LinkedIn and Behance. The semester culminates with an online portfolio/journal that documents workplace activity and reflects on the process of applying the design skills learned in the classroom. (Spring)
Italiano Perla/Three credits

ARD 315  GRAPHIC DESIGN III: ADVANCED STRATEGIES
Each student will develop a visual vocabulary through assigned readings, class discussion, projects, and through experimentation. This will set the groundwork that reinforces one’s critical, analytical, and perceptual skills. This course will present students with a variety of complex design problems. Students will apply their growing knowledge of the interaction between typography and other visual forms to these specific problems. Research and methodology are vital components of this course and of design in general, and their importance will be stressed. Students will undertake a variety of design projects, as well as a class presentation on a designer of historical importance. Studio Fee $100.00. Prerequisite: ARD 215.
Glushien, Simmons /Three credits

ARD 317  MOTION GRAPHIC DESIGN
Visual design and technical strategies will be developed to effectively work with moving type and images in a timeline, from storyboards through production to distribution. The history of moving images and motion graphic design will be introduced to support contemporary theories and practices. Working with time-based, sequential processes will increase visual communication strategies and conceptual abilities, while developing skills needed to convey information as successfully as possible. Being able to create animated graphics, kinetic typography, and video projects, as well as work with sound, will help students to better prepare for an ever-expanding graphic design field. Adobe Photoshop, Adobe After Effects, and Final Cut Pro will be used. Prerequisite: ARD 215 or permission of instructor.
ARD 318  GRAPHIC DESIGN FOR THE WEB
This course introduces students to graphic design for website creation. Students will learn to think critically about web design and apply basic conceptual design principles to website development. The focus of the course will be applying design elements such as color, typography, layout, the grid and hierarchal design to the technological aspect of web design. While the aesthetics of web design will be of primary importance, the technological process will also be studied. Students will learn the latest web languages such as HTML 5, CSS, and JavaScript, develop concepts for web sites, and follow a design process in realizing them. Research and methodology are vital components of this course. Each student will develop two website design projects, as well as a number of smaller design projects. One of these projects will cover embedding animation, movies, and sound into a web site. At the end of this course students will have a working knowledge of web design, and will be able to build and host a site of their own. Prerequisites: ARD 115 and ARD 215 or 217.

Italiano Perla/Three credits

ARD 352  SPECIAL TOPICS IN GRAPHIC DESIGN
Special topics in graphic design are offered occasionally. These courses respond to special interests evinced by students, outgrowths of topics addressed in an intermediate course, or interests of the faculty.

Staff/Three credits

ARD 401  SENIOR SEMINAR IN GRAPHIC DESIGN
The seminar, offered in the Spring semester, is devoted to an advanced project in Graphic Design as a culmination of a program of study for the major in Graphic Design. This project is completed by an exhibition of student work. Students are responsible for materials related to their senior project and a Studio Fee of $75.00

Glushien/Three credits

ART HISTORY (ARH)

ARH 125 HISTORY OF WESTERN ART
How long have humans been creating art? What makes the Mona Lisa the Mona Lisa? Why is Picasso so famous? This course answers such questions by surveying the development of art in the West from prehistoric times to the present day. Through illustrated lectures and in-class discussion we will consider what purposes art serves, why it changes, and how artistic change is linked to political and social developments. At the same time, close study of individual works will introduce the skills needed to identify works of art and decode the imagery they contain. This course fulfills the Core requirement for a Fine Art class in Culture and Expression. It also serves as a gateway to a minor in Art History.

Chase, Norris/Three credits

ARH 126 HEALTHY PERSPECTIVES: REFRAMING ART HISTORY
Art history trains a person in looking closely at an image. The cognitive skills gained from art history – observing and describing art objects – easily lend themselves to the health care arena and the helping professions by enhancing the ability to communicate and interpret. Astute observation is particularly important for health care professionals because it aids in physical examinations, diagnoses, and empathetic responses. This course is the traditional art history survey reinvented with special attention to students who plan to go into a career in health care or the helping professions. It fulfills the Core requirement for a Fine Art class in Culture and Expression.

Chase/Three credits

ARH 140  ART IN ROME
This course, exclusive to the Rome campus, examines the history and society of Rome and its architectural and artistic expression as it developed over a period of 3000 years. Students study key examples of architecture, monuments and art from Classical Rome through to the Renaissance and Baroque, and the modern period. Much of the course is taught on site with visits to churches, palaces and museums. This course fulfills the Core requirement for a Fine Art class in Culture and Expression.

Borghese/Three credits
ARH 160 ART ANCIENT AND MODERN: THE QUESTION OF BEAUTY
This course surveys the history of Western Art from the Greek world to the present day, using the question of beauty as a unifying theme. The first class each week will introduce the art or architecture of the period; the second will use readings from period sources to understand how beauty was perceived and defined in that period. The course will have a particular emphasis on theories of beauty that recur in successive historical periods: beauty and mathematics, beauty and function, beauty and color, beauty and mimesis, beauty and effect. This class fulfills the Core requirement for a Fine Art class in Culture and Expression. It also serves as a gateway to the Fortin and Gonthier Core Texts and Enduring Questions Program and/or to a minor in Art History.
Norris, Chase/Three credits

ARH 223 RENAISSANCE ART AND ARCHITECTURE
This course looks at one of the most celebrated eras of art history, the Renaissance. Focusing on Italy and Northern Europe, the course will look at art made from the fourteenth through sixteenth centuries. Material covered will include painting, sculpture, architecture, and fresco, from the devotional works of the Franciscans to the courtly art made for the Duke of Urbino, and works made for women as well as men. Looking critically at primary source material, such as the writings of Alberti and Vasari, the course will also consider the role of the artist and what is often seen as his rise in status, through examples like Botticelli, Michelangelo, Giotto and Dürer. This class fulfills the Core requirement for a Fine Art class in Culture and Expression, and is taught primarily on the Rome campus.
Borghese, Staff/Three credits

ARH 224 BAROQUE ART AND ARCHITECTURE
Typically offered on the Rome campus, this course examines the emergence of Baroque art in the late Cinquecento and early Seicento (16th and 17th centuries) and follows the development of the Baroque style in sculpture, painting and architecture. During the class students study artists including Caravaggio, Bernini and Borromini. Much of the course is taught on-site in Rome, the ‘cradle’ of the Baroque.
Borghese/Three credits

ARH 225 NINETEENTH CENTURY ART
This course examines the art of Europe and the United States from the French Revolution to the end of the nineteenth century, starting with the Neoclassicism of Jacques-Louis David and ending with Impressionism and its impact on the art world. Topics covered will include the invention of photography and its effect on painting; the development of landscape painting in Germany, France and the United States, and the growth of the art market. French art will be the main focus of the course, but we will also be thinking about Francisco Goya in Spain, Romanticism in Germany, the Hudson River School in America, and the Pre-Raphaelite Brotherhood in England.
Chase/Three credits

ARH 227 THE MEANING OF MODERN ART
This course examines the development of modern art in Europe and the United States, focusing on the period between 1880 and 1950. Starting with Post-Impressionism, we trace the key movements in modern art (including Expressionism, Cubism, Surrealism and Abstract Expressionism), and consider some of the more traditional forms against which they defined themselves. In the process, we seek to understand how the terms ‘modern,’ ‘modernist,’ and ‘avant-garde’ came to be applied to art and artists, and to establish what art historians and cultural critics mean when they use them.
Norris/Three credits

ARH 229 ART SINCE 1945
The course examines the art produced between the end of World War II and the present day. Since the art of this period uses an extraordinary range of materials and approaches, many of them far outside the traditional practices of European art-making, we also try to answer some important questions: What does it mean to be an artist? What conditions must an object or event fulfill to qualify as a work of art? Are these artists even serious? You will emerge not just with an understanding of movements in art since the middle of the last century, but also with an awareness of the dramatic ways in which the entire concept of art has changed in the last 70 years.
Norris/Three credits
**ARH 299, 399 OR 499 INDEPENDENT STUDY IN ART HISTORY**
Each of these numbers designates a specific level of specialized study on a relevant topic that has been designed by the student in conjunction with a faculty member. Permission of Chair required.
Staff/Three credits

**ARH 300 INTERNSHIP IN ART HISTORY**
This upper level, field-based course is designed for juniors and seniors to explore and develop professional opportunities and apply concepts and skills learned in their coursework in art history. Permission of Chair required.
Staff/Three credits

**ARH 325 THUS SPOKE ZARATHUSTRA – NIETZSCHE AND THE AVANT-GARDE**
This course combines a close reading of Friedrich Nietzsche’s *Thus Spoke Zarathustra* with an examination of the book’s impact on the development of modern art. *Thus Spoke Zarathustra* describes how the prophet Zarathustra descends from his solitude in the mountains to tell the world that God is dead and that the Overman is his successor. In a series of encounters and conversations, Zarathustra expounds and refines his philosophical system, concluding that he himself is the Overman. In the course of his poetic parable, Nietzsche skewers the materialism and mediocrity of late-nineteenth century European society, and proposes that only the creative individual can blaze a path to a better future. Modern artists, out of sympathy with a world that rarely appreciated their work and fed by Romantic notions of the artist as a force for change in society, latched onto Nietzsche’s ideas with passionate enthusiasm, molding them into an image of the avant-garde artist as world-changer.
Norris/Three credits

**ARH 350 SPECIAL TOPICS IN ART HISTORY**
One Special Topics course in art history is offered each Fall semester in conjunction with the Senior Art History Seminar. These courses respond to special interests evinced by students and/or the research interests of the faculty.
Norris, Chase/Three credits

**ARH 400 SENIOR ART HISTORY SEMINAR**
This course serves as a culminating experience for art history minors. It is offered in the Fall semester each year in conjunction with a Special Topics in Art History class. The topic studied will vary but the course will always examine a specific period of art history in detail, combining visual analysis of works of art in class with readings of primary and secondary texts and classroom discussion. Students will undertake a semester-long research project culminating in a formal presentation of their work and in a written paper.
Norris, Chase/Three credits

**STUDIO ART (ART)**

**ART 101 DRAWING I**
This introductory course focuses on learning to see and learning to translate what is seen into two dimensions. Learning to see often requires overriding what the brain knows and learning to trust one’s growing skill at visual response. Translating visual information to the page involves developing skill with line, shape, space, form, and composition. The intent is to develop a broad visual vocabulary which allows communication of the subject matter with sensitivity in charcoal, pencil, ink, and collage. This involves working from life, including the figure, and using images to clarify and enrich what we do through references to art history. Students will be responsible for purchasing a supply kit and for a Studio Fee of $40.00. This course fulfills the Core requirement for a Fine Art class in Culture and Expression.
Nixon, Staff/Three credits
ART 106  SCULPTURE I
This course is an introduction to the concepts and the forms of three-dimensional design. It is based upon the recognition that the origins of and inspiration for much of design stems from nature. Projects will start with an idea, and then the appropriate medium will suggest itself. Students will be responsible for purchasing a supply kit and for a Studio Fee of $40.00. This course fulfills the Core requirement for a Fine Art class in Culture and Expression.
Orlinsky/Threecredits

ART 107  COLLAGE AND ASSEMBLAGE
This course is an examination of collage and assemblage — art made from the found and collected debris of the contemporary world. Questions of memory, history, fragmentation, ecology, and language will be explored in the making of collages from found, recycled, and constructed images and objects. These things that resonate with the past might suggest a collective memory for humanity, but one that is hazy at best. We will consider the public culture of mass produced objects and the autobiographical symbolism of private mementos, as we raise questions about memory, history, recycling, and reuse in relationship to material culture. These issues will be addressed in the making of collages from recovered, recycled, and constructed images and objects and in-class discussions. In addition to studio work, assignments include readings, films, and in-class presentations. Students will be responsible for purchasing a supply kit and for a Studio Fee of $40.00. This course fulfills the Core requirement for a Fine Art class in Culture and Expression.
Orlinsky/Threecredits

ART 111  PAINTING I
This course is an introductory investigation of painting. Using oil paint, students will thoroughly examine questions of composition and space, issues of light and color, and exploration of technical issues. In weekly in-studio and outside-of-class assignments, students will also consider both contemporary and historical approaches to painting. Students will be responsible for purchasing a supply kit and a Studio Fee of $75.00. This course fulfills the Core requirement for a Fine Art class in Culture and Expression. Nixon, Staff/Threecredits

ART 201  DRAWING II
The course concentrates on the drawing as an object and on the physical activity involved in making it an expressive phenomenon. Students will explore a variety of materials, ideas, formal issues, and art history, as well as natural phenomena as sources for inspiration. Work with the human figure will emphasize context and environment, and encourage the student to develop more personal attitudes toward content. Studio Fee: $40. Prerequisite: ART 101.
Nixon, Staff/Threecredits

ART 211  PAINTING II
A continuation of ART 111, this course will deal with both figurative and nonfigurative approaches to painting. Depending upon the instructor’s preference, students will work with the figure, the landscape, still life, or a combination of the three. Students will be directed in more advanced painting problems using varied techniques and conceptual frameworks. Studio Fee: $75. Prerequisite: ART 101, ART 111.
Nixon, Staff/Threecredits

ART 299, 399 OR 499  INDEPENDENT STUDY IN STUDIO ART
Each of these numbers designates a specific level of specialized study on a relevant topic that has been designed by the student in conjunction with a faculty member. Permission of Chair required.
Staff/Threecredits

ART 300  INTERNSHIP IN STUDIO ART
This upper level, field-based course is designed for juniors and seniors to explore and develop professional opportunities and apply concepts and skills learned in their coursework in studio art. Permission of Chair required.
Staff/Threecredits
ART 301  DRAWING III
This course focuses on the issue of personal expression in drawing, and includes a reevaluation of the elements of drawing from that point of view. Working problems take into consideration the individual's inclinations as he/she begins to formulate his/her own rationale for making art. Specific artists will be studied with a focus on the nature of the expression in their work. Studio Fee: $40. Prerequisite: ART 201 or permission of the instructor.
Nixon, Staff/Three credits

ART 311  PAINTING III
This course explores advanced problems in painting. Students will be directed in a more in-depth examination of the extensive possibilities of the oil painting medium. Both abstract and figurative approaches will be explored. Emphasis is on thematic self-direction and group critiques. The focus of the course shifts annually to reflect the perspective of the faculty member teaching it. Studio Fee: $75. Prerequisite: ART 211 or permission of the instructor.
Nixon, Staff/Three credits

MUSIC (MUS)

MUS 101  FUNDAMENTALS OF MUSIC AND MUSICIANSHP
This course focuses on learning to read music notation, the fundamentals of basic music theory, and the study of technique and repertoire in one of two performing mediums: piano or guitar. Upon completion of this course, the student should have acquired the ability to read music, an introductory-level technical facility in piano or guitar, and a thorough foundation in the fundamental elements of music theory, including basic aural skills. This course fulfills the Core requirement for a Fine Art class in Culture and Expression.
Clemente, Bezdegian, Buono/Three credits

MUS 122  HISTORY OF MUSIC I
Following a brief study of the vocabulary and basic materials of music, this course will cover the historical development of music in the West from the Middle Ages to the Classical period. Major composers and their works will be studied and connections among history, culture, and musical language will be explored. The course will focus on the enhancement of active listening skills and musical understanding. This course fulfills the Core requirement for a Fine Art class in Culture and Expression. Lamothe, Clemente, Bezdegian/Three credits

MUS 124  HISTORY OF MUSIC II
This course follows the historical development of Western music from the Romantic period to the present day. Major composers, their works, and the major musical trends will be studied and all will be related to cultural history. This course fulfills the Core requirement for a Fine Art class in Culture and Expression.
Clemente, Bezdegian/Three credits

MUS 125  WORLD MUSIC
This course is a survey of musical traditions from around the world, including an examination of the cultures and philosophies that shape them. Students learn about the field of ethnomusicology, and the integral role music plays in the lifeways of the world's peoples. This course fulfills the Core requirement for a Fine Art class in Culture and Expression, and also counts in the Core as a Global Awareness course.
Clemente/Three credits

MUS 126  GLOBAL POP
A category of ethnomusicology, Global Pop explores musical traditions from a variety of nations with an emphasis on the popular music industry in each. This course examines the forces that enable the movement of music and musicians around the world and that give global music its persuasive power. Topics include music as expressive culture, music production, ethnicity and identity in pop music, music as symbol, cross-cultural collaborations in popular music, and music as a force that transcends sociological,
political and national boundaries. This course fulfills the Core requirement for a Fine Art class in Culture and Expression, and also counts in the Core as a Global Awareness course.

Clemente/Three credits

**MUS 140 VOCAL HEALTH AND PEDAGOGY**
The voice is the most important tool for communication both in singing and in speaking. Students in this course will learn the process of phonation, healthy vocal hygiene, and valuable techniques for the use of the vocal instrument. They will cover topics relating to muscle tensions, airflow, the relation of Song to Speech, the basics of Anatomy and Physiology of the Vocal instrument and common disorders of the voice. This course is valuable for all professional or non-professional voice users. A professional voice user is one who depends on their voice for their career. They can include singers, actors, teachers and public speakers.

Clemente/Three credits

**MUS 193 CHORALE**
Concert choir which performs choral literature from the Renaissance to the 20th century. There will be several major performances during the year with orchestra, and there will be tours every two years. Audition required. This course taken three times fulfills the Core requirement for a Fine Art class in Culture and Expression.

Dumont/One credit optional, no extra charge, may be repeated for credit

**MUS 195 BAND**
Ensemble for winds, brass, and percussion rehearses once a week and performs at concerts and University functions. This course taken three times fulfills the Core requirement for a Fine Art class in Culture and Expression.

Hopkins/One credit optional, no extra charge, may be repeated for credit

**MUS 196 JAZZ ENSEMBLE**
Jazz Ensemble offers the opportunity to explore and engage in the art of jazz performance. This ensemble studies and performs blues and jazz from the modern jazz period, swing era, bebop era, and other style periods of jazz. Students will be given experiences in the stylistic performance of small group jazz. Instrumentalists interested in jazz who play wind, brass or rhythm section instruments are encouraged to enroll. Other instrumentalists and singers should consult the instructor before enrolling. Students will rehearse weekly and perform each semester. This course taken three times fulfills the Core requirement for a Fine Art class in Culture and Expression.

Buono/One credit optional, no extra charge, may be repeated for credit

**MUS 197 STRING CAMERATA**
String Camerata allows students from Assumption to play with the Clark University Sinfonia, a string ensemble focusing on the repertoire of the Classical era and beyond. It provides an opportunity for students to further improve their playing skills through in-depth study and performance of music from all eras. This course taken three times fulfills the Core requirement for a Fine Art class in Culture and Expression.

Sulski/One credit optional, no extra charge, may be repeated for credit

**MUS 201 MUSIC THEORY I**
After a review of the basic concepts of notation, scales, intervals, and triads, the student will study the various structural elements of music. Topics covered will include cadences, non-harmonic tones, harmonic rhythm, melodic organization and structure, voice-leading in four-part chorale writing, and transposition.

Clemente, Bezdegian/Three credits

**MUS 233 MUSIC IN THE UNITED STATES**
This course forms a study of American Music of the last three centuries with particular emphasis on 20th-century trends, including Modern American Classical music, Blues, Jazz, Musical Theatre, Rock and Roll, and Popular music. Influences of Native American, African, and European music will be highlighted, and connections among history, culture, and musical language will be explored. The course will emphasize the enhancement of active listening skills and musical understanding.

Clemente/Three credits
MUS 240  ADVANCED STUDIES I: VOICE
This class develops the student’s knowledge of the fundamentals of healthy vocal production through lectures, readings, vocal exercises and repertoire. Students review the basics of healthy vocal production and develop the techniques learned in MUS 140. Topics include further study of the anatomy and physiology of the vocal instrument, including vocal fold function, dynamics of both the singing and speaking voice, application of correct vocal technique to various styles and types of repertoire, and individual assessment of the voice. This course is usually held simultaneously with MUS 340. Prerequisite: MUS 140
Tartaglia/Three credits

MUS 250  ADVANCED STUDIES I: PIANO
This is a course for pianists in the advanced beginner to intermediate stage. Course includes continuation of technique and fundamentals from MUS 101, scales and arpeggios in two octaves, introduction to sight reading and chording, and repertoire of greater difficulty than that encompassing five-finger position. Introduction of actual repertoire from the classical masters as well as more contemporary repertoire. This course is usually held simultaneously with MUS 350. Prerequisite: MUS 101 or previous piano studies
Staff/Three credits

MUS 260  ADVANCED STUDIES I: GUITAR
This is an intermediate course in acoustic guitar technique and musicianship. A development of MUS 101 (Fundamentals of Music: Guitar), class topics include 2-octave scales, left and right hand technique, and an introduction to bar chords. These topics will be applied to various musical repertoires including pop, folk, acoustic rock, and classical. This course is usually held simultaneously with MUS 360. Prerequisite: MUS 101 or previous experience.
Clemente/Three credits

MUS 299, 399 OR 499  INDEPENDENT STUDY IN MUSIC
Each of these numbers designates a specific level of specialized study on a relevant topic that has been designed by the student in conjunction with a faculty member of music. Permission of Chair required.
Staff/Three credits

MUS 300  INTERNSHIP IN MUSIC
This upper level, field-based course is designed for juniors and seniors to explore and develop professional opportunities and apply concepts and skills learned in their coursework. Permission of Chair required.
Staff/Three credits

MUS 301  MUSIC THEORY II
A course in traditional harmony and analysis, Music Theory II explores the language of tonal music from both written and aural perspectives. The course goal is to develop a thorough understanding of the techniques and materials of musical composition and to apply this knowledge to the music of diverse repertories. Topics to be covered are: seventh and ninth chords, secondary dominants and other chromatic chords, harmonic progression, voice leading, harmonization and non-harmonic tones, musical texture, modulation, and musical form. Prerequisite: MUS 201
Clemente, Bezdegian/Three credits

MUS 330  CONDUCTING
This course is designed to provide the student with the fundamental skills of conducting and is geared primarily toward majors and minors who will conduct musical groups in schools and churches. Skills developed will include beat patterns, sight singing, ear training, score reading, and preparation. Students will be assigned a laboratory ensemble to conduct in rehearsal and performance.
Dumont/Three credits

MUS 340  ADVANCED STUDIES II: VOICE
This class continues to build upon the information learned in MUS 140 and MUS 240. Students delve deeper into the physiological functions of the voice including muscles of the larynx, increased breathing capacity, prevention of vocal abuse, voice misuse,
proper resonance and maintaining an consistent efficient vocal production. Topics include healthy singing for Pop Musicians, projecting the voice for stage work and public speaking, and methods to keep the voice healthy and productive throughout the life cycle. This course is usually held simultaneously with MUS 240. Prerequisite: MUS 240.
Tartaglia/Three Credits

MUS 350 ADVANCED STUDIES II: PIANO
This course continues to build on the foundation of previous piano experience. Topics will include major and minor scales in three octaves, arpeggios, technical studies, accompanying folk and popular music from chord symbols, transposition, and the study of more advanced classical repertoire. This course is usually held simultaneously with MUS 250. Prerequisite: MUS 250 or the equivalent.
Staff/Three credits

MUS 360 ADVANCED STUDIES II: GUITAR
This is an advanced course in guitar technique and musicianship. Class topics include scales in all keys (with metronome application), slurs, position studies, and arpeggios. Focus is given to chord progressions involving multiple positions and bar forms, guitar solos, and improvisatory concepts so as to prepare the student for ensemble opportunities. These topics will be applied to various musical repertories including pop, folk, acoustic rock, and classical. This course is usually held simultaneously with MUS 260. Prerequisite: MUS 260 or the equivalent.
Clemente/Three credits

MUS 400 SPECIAL TOPICS IN MUSIC
Special topics in Music are offered occasionally by the department. The courses respond to special interests evinced by students, outgrowths of topics addressed in an intermediate course, or research interests of the faculty. These courses are sometimes interdisciplinary in nature and may be offered without prerequisites.
Clemente, Staff/Three credits

APPLIED MUSIC COURSES
Students may elect to take applied music lessons in which they work one-on-one with an instructor. Emphasis is placed on developing musicianship and technique through varied repertoire and technical exercises. Material ranges in difficulty from beginning to advanced depending on the student’s ability. There are 10 one-hour lessons per semester, students may receive one credit per semester, and the course can be repeated for further credit. Tutorial fee per semester: $600.

MUS 131 APPLIED FLUTE INSTRUCTION (Staff/One credit)

MUS 141 APPLIED VOCAL INSTRUCTION (Tartaglia/One credit)

MUS 151 APPLIED PIANO INSTRUCTION (Bezdegian/One credit)

MUS 161 APPLIED GUITAR INSTRUCTION (Clemente/One credit)

MUS 171 APPLIED ORGAN INSTRUCTION (Bezdegian/One credit)

MUS 181 APPLIED STRINGS INSTRUCTION (Sulski/One credit)
Department of Biological and Physical Sciences

Professors: Elizabeth A. Colby Davie, Stuart I. Cromarty, David Crowley, Edward J. Dix, Georgi Y. Georgiev, Michele L. Lemons, Brian K. Niece (Chairperson), Steven J. Theroux; Associate Professors: Aisling S. Dugan, James F. Hauri, Jessica A. McCready; Assistant Professors: Karolina Fučíková, Teresa Herd, Benjamin J. Knurr, Nikos Lessios, Laura Marcotte; Professor of Practice: Jessica Whitt; Visiting Instructors: Anthony Sacino; Soraya Betancourt-Calle; Lecturers: Sandra Nedelescu, Hubert G. Meunier (Professor Emeritus).

MISSION STATEMENT
The Department of Biological and Physical Sciences is dedicated to preparing students to live and work in a changing world by ensuring competency in the natural sciences and scientific inquiry. The department strives to provide a basic understanding of classical and contemporary scientific concepts in these areas. While developing an understanding of the scientific process and its application, the following critical skills are stressed: observation, inquiry, data collection, analysis, communication, and correlation of scientific concepts. The department prepares students for careers and professional opportunities in the sciences as well as for life-long learning in the context of a liberal arts curriculum in the Catholic tradition.

PROGRAMS OF STUDY AND CAREER OPTIONS
The Department of Biological and Physical Sciences offers majors in Biology, Biology with a Concentration in Neuroscience and Behavior, Biotechnology and Molecular Biology, Neuroscience, Chemistry, Environmental Science, and Environmental Science with a Concentration in Environmental Policy. The Department also offers minors in Biology, Environmental Science, Chemistry, and Physics, and it co-sponsors a concentration in Physical and Occupational Therapy with the Department of Human Services and Rehabilitation Studies. Research opportunities are available at the University and at nearby institutions (e.g., University of Massachusetts Medical School and the Biotechnology Park). Students interested in teaching science in the public school system should work with a science faculty member and a member of the Education Department in planning their course of study. The Department also offers courses for non-majors.

Students who want to pursue careers in medicine, dentistry or one of the many other health professions must complete the necessary prerequisites for admission to the health profession schools of their choice. These individuals should consult their academic advisors and the Health Professions Advisor (Dr. Steven Theroux) when designing their course of study. The Health Professions Program helps students meet the admissions requirements for these professional programs. The Department has agreements with several institutions that offer degrees in the health professions. Students interested in Allopathic or Osteopathic Medicine, Podiatric Medicine, Pharmacy, Physical Therapy, Optometry, Physician Assistant Studies, Nursing, or Biotechnology should discuss these agreements with the Health Professions Advisor, Professor Steven Theroux.

The University has established a collaborative program of study in Engineering with the University of Notre Dame. Students spend three years at Assumption University completing foundational courses in math and science before transferring to Notre Dame to complete engineering studies. Interested students should contact Professor Jimmy Hauri, Director of the 3:2 Engineering Program.

The University also has agreements with several graduate schools. In conjunction with Duke University we offer combined B.A. and Master’s degree programs in Environmental Science Management and Forestry Management. There are several options for students interested in the legal profession, especially those interested in practicing environmental law or intellectual property law. Science students interested in learning more about all of these programs should see Professor Steven Theroux. The Department offers a post-graduate program for those who have a bachelor’s degree in an area other than Biology and who are interested in pursuing admission to a health professions program (e.g., medicine, dentistry, pharmacy, etc.) Details about this certificate program can be obtained from the Health Professions Advisor, Dr. Steven Theroux.
Students who graduate with an undergraduate degree in science can pursue employment in industry, government, or in an educational setting. Some of our students pursue graduate studies in science, one of the health professions, business or law. Upon the completion of the appropriate graduate program our students can pursue research careers in environmental management, or in the biotechnology, pharmaceutical and chemical industries. They can also develop careers in elementary, secondary and higher education, or in the health professions, business management, government, or legal profession.

**MAJOR IN BIOLOGY, B.S. DEGREE (16)**

A major in Biology teaches students how to investigate and appreciate the unity of function that underlies the diversity of life forms. Lectures encourage students to synthesize the best of classical and contemporary ideas in Biology. Laboratory work gives students technical expertise and helps them to observe, ask questions, test hypotheses, analyze results, and present their conclusions orally and in writing. The Bachelor of Science degree provides a foundational core in the biological science. The B.S. in Biology focuses on Chemistry and Physics course work that prepares students for advanced studies in Medical, Dental, Veterinary, Physical Therapy, and Ph.D. programs, as well as a variety of other paths in research and biotechnology. Elective courses provide a guided choice of advanced study in Biology and related areas. Students may participate in seminars, independent study, internships and summer research.

**REQUIRED COURSES (12)**

Biology majors should take CHE 131, BIO 160, and MAT 114 (or higher) in their first semester.

**Foundational Core (11)**

- BIO 160 Concepts in Biology
- BIO 210 Genetics
- BIO 320 Evolution or BIO 360 Ecology
- BIO 340 Molecular and Cellular Biology
- CHE 131–132 General Chemistry I and II
- CHE 201–202 Organic Chemistry I and II
- MAT 114 Elementary Functions (or higher if placed higher)
- PHY 201–202 General Physics I and II

One of the following Organismal Biology courses (1)

- BIO 220 Invertebrate Zoology
- BIO 230 Plant Biology
- BIO 250 Microbiology
- BIO 280 Sensory Systems
- BIO 310 Animal Behavior
- BIO 370 Physiology
- BIO 420 Developmental Biology
- BIO 415 Principles of Neuroscience
- BIO 430 Comparative Physiology

**TWO BIOLOGY ELECTIVES (2)**

Two additional biology courses at the 200 level or higher. One BIO elective must be at the 400-level.

**TWO QUANTITATIVE ELECTIVES (2)**

Any additional courses in BIO, CHE, PHY, ENV at 200 or higher

Statistics
A maximum of two independent study (i.e., BIO 490 and 491) courses may be taken. Additional independent study credits will count toward degree requirements but will not count toward the major in Biology.

EXAMPLE FOUR-YEAR PLAN FOR THE B.S. IN BIOLOGY

The following is a possible four-year schedule for classes in the biology major. It is important that first year students enroll in both BIO160 and another biology core course (BIO210 or Organismal biology course) AND the CHE131-132 sequence to start the major and to best balance the remaining three years of the curriculum. Students should work closely with an advisor in the science department to tailor course selection to their interests and goals and to be confident of course availability and sequencing.

ADVISING TIPS FOR THE B.S. IN BIOLOGY

- BIO 360: Ecology and several upper level biology courses are offered on an every-other-year schedule.
- Students interested in medical school, dental, and veterinary school should consider a B.S. in Biology as the requirements for these health profession programs and their entrance exam align more closely with course work in the B.S. Biology track.
- Students interested in pursuing medical school or affiliated careers should consider PHY 201 and 202 in the sophomore year and CHE 414 in the junior year to prepare for the MCAT exam after Junior year.

MAJOR IN BIOLOGY, B.A. DEGREE (16)

A major in Biology teaches students how to investigate and appreciate the unity of function that underlies the diversity of life forms. Lectures encourage students to synthesize the best of classical and contemporary ideas in Biology. Laboratory work gives students technical expertise, and helps them to observe, ask questions, test hypotheses, analyze results, and present their conclusions orally and in writing. The Bachelor of Arts (B.A.) degree is designed to provide a foundational core in biological concepts while also providing flexibility for students to pursue courses in interdisciplinary fields like environmental science, psychology, health sciences, and education. The B.A. in Biology provides a wide breadth of electives in disciplines related to the biological sciences that draw connections to the natural world. With its flexibility, the major prepares students for a variety of
careers in industry, education, and others and enables double majors in several fields. Students may participate in seminars, independent study, internships and summer research.

REQUIRED COURSES (10)
Biology majors should take CHE 131, BIO 160, and MAT 114 (or higher) in their first semester.

Foundational Core (9)
- BIO 160 Concepts in Biology
- BIO 210 Genetics
- BIO 320 Evolution or BIO 360 Ecology
- BIO 340 Molecular and Cellular Biology
- CHE 131–132 General Chemistry I and II
- CHE 201 Organic Chemistry I
- MAT 114 Elementary Functions (or higher if placed higher)
- PHY 201 General Physics I

One of the following Organismal Biology courses (1)
- BIO 220 Invertebrate Zoology
- BIO 230 Plant Biology
- BIO 250 Microbiology
- BIO 280 Sensory Systems
- BIO 310 Animal Behavior
- BIO 370 Physiology
- BIO 420 Developmental Biology
- BIO 415 Principles of Neuroscience
- BIO 430 Comparative Physiology

TWO BIOLOGY ELECTIVES (2)
Two additional biology courses at the 200 level or higher. One BIO elective must be at the 400-level.

FOUR INTERDISCIPLINARY ELECTIVES (4)
- Any additional courses in BIO at BIO 200 or higher,
- Up to three additional CHE courses at CHE 200 or higher,
- PHY 202, PHY 213
- Up to one course in each of the following categories:
  - Environmental Science (200 or higher)
  - Health Sciences (200 or higher)
  - Statistics
  - Psychology (PSY 250, 251, 252, 402)

For EDU majors, up to two of the following: BIO140, EDU 221, EDU 346

A maximum of two independent study (i.e., BIO 490 and 491) courses may be taken. Additional independent study credits will count toward degree requirements but will not count toward the major in Biology.

EXAMPLE FOUR-YEAR PLAN FOR THE B.A. IN BIOLOGY
The following is a possible four-year schedule for classes in the biology major. It is important that first year students enroll BIO160, the CHE 131-132 sequence, and BIO 210 or an organismal biology course to start the major and to best balance the remaining
three years of the curriculum. Students should work closely with an advisor in the science department to tailor course selection to their interests and goals and to be confident of course availability and sequencing.

** ADVISING TIPS FOR THE B.A. IN BIOLOGY **

- BIO 360: Ecology and several upper level biology courses are offered on an every-other-year schedule.
- The B.A. in Biology is not intended for students interested in pursuing medical school, dental, and veterinary school. These students should consider a B.S. in Biology as the requirements for these health profession programs and their entrance exams align more closely with course work in our B.S. Biology track.

**MAJOR IN BIOLOGY WITH A CONCENTRATION IN NEUROSCIENCE AND BEHAVIOR, B.S. DEGREE (17)**

This concentration allows students to complete a Biology Major and also pursue interests in neuroscience. This is done by completing the foundational courses required for a Biology Major and completing neuroscience-focused courses as electives. In addition, students also take an Animal Behavior course and select two psychology courses that have a neuroscience-focus, as appropriate for the interdisciplinary study of neuroscience. Students who choose this concentration are encouraged to do internships or independent studies in neurobiology laboratories. Students who complete the requirements of this concentration will be well prepared for advanced studies in Medical, Dental, Veterinary, Physical Therapy, Occupational Therapy, Optometry and Ph.D. programs, as well as a variety of other paths in research and biotechnology. It should be noted that requirements for entry into graduate programs are varied, and it is each student’s responsibility to learn the requirements of all programs to which he/she may wish to apply. Students are encouraged to work with their academic advisor to align their coursework with their post graduate goals.

**REQUIRED FOUNDATIONAL COURSES (13)**

Biology with a Concentration in Neuroscience and Behavior majors should take CHE 131, BIO 160, and MAT 114 (or higher) in their first semester.

BIO 160 Concepts in Biology (with lab)
PSY 101 General Psychology
MAT 114 (or higher) Elementary Functions (or higher)
CHE 131-132 General Chemistry I and II (with lab)
BIO 210 Genetics (with lab)
CHE 201-202 Organic Chemistry II and II (with lab)
BIO 320 Organic Evolution OR BIO360 Ecology (with lab)
BIO 310 Animal Behavior (with lab)
BIO 340 Molecular and Cellular Biology (with lab)
PHY 201-202 General Physics 1 and 2 (with lab)

NEUROSCIENCE CAPSTONE COURSES (2)
BIO 415 Principles of Neuroscience (with lab)
PSY 402 Social Affective Neuroscience OR PSY403 Cognitive Neuroscience

BIOLOGY ELECTIVE, CHOOSE ONE OF THE FOLLOWING (1)
BIO 220 Invertebrate Biology (with lab)
BIO 240 Mammalian Anatomy (with lab)
BIO 250 Microbiology (with lab)
BIO 370 General Physiology (with lab)
BIO 280 Sensory Systems (with lab)
BIO 375 Milestones in Neuroscience
CHE 414 Biochemistry (with lab)
BIO 480 Seminar in Life Sciences: Neuroscience topic
BIO 430 Comparative Physiology
BIO 420 Developmental Biology

PSYCHOLOGY ELECTIVE, CHOOSE ONE OF THE FOLLOWING (1)
PSY 250 Perception
PSY 351 Introduction to Brain and Behavior
PSY 252 Cognitive Psychology

SUGGESTED (BUT NOT REQUIRED) COURSES
PSY 224 Statistics
PSY 225 Research Methods
PHI 267 Person, Mind and Brain
BIO 490–491 Independent Study in Biology

Please note: This is one example of a course sequence for this major. There are many possibilities.

**ADVISING TIPS FOR THE BIOLOGY WITH A CONCENTRATION IN NEUROSCIENCE AND BEHAVIOR, B.S. DEGREE**

- Students should take CHE 131, BIO 160, and MAT 114 (or higher) in their first semester
- Students are advised to take no more than two laboratory courses in a given semester.

**MAJOR IN BIOTECHNOLOGY AND MOLECULAR BIOLOGY, B.A. DEGREE (17)**

Biotechnology has developed around the study of living things at the molecular level. The chemistry of genetics has found applications in medicine and industry. Techniques of molecular genetics have allowed dramatic advances in our understanding of developmental biology, physiology, immunology, and evolution. This major provides a balanced foundation in biology, plus an introduction to the theory and methods of biotechnology and molecular biology. Students in the major are encouraged to do internships at biotechnology laboratories in the Worcester area. When they graduate, students can pursue graduate study in the biological sciences or in the health sciences. The major is also excellent preparation for a teaching career or employment in a biotechnology-based field.

**REQUIRED COURSES (14)**

Biotechnology and Molecular Biology majors should take CHE 131 and BIO 160 in their first semester.

- BIO 160 Concepts in Biology
- BIO 210 Genetics
- BIO 250 Microbiology
- BIO 340 Molecular and Cellular Biology
- BIO 440 Biotechnology: Theory and Practice
- CHE 131–132 General Chemistry I and II (Note: MAT 114 is a pre-requisite for CHE 132)
- CHE 201–202 Organic Chemistry I and II
- CHE 414 Biochemistry
- MAT 114 Elementary Functions, or higher if placed higher
- PHY 201–202 General Physics I and II
- PHI 151 Ethics and the Good Life

**ELECTIVES (3)**

Three additional electives in Biology from level 200 or above. A maximum of two of these electives can be selected from internships or BIO 490 or 491. Additional internship or independent study credits will count toward degree requirements but will not count toward the major in Biology. PHI 262 Biomedical Ethics is strongly recommended, but not required.
RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN BIOTECHNOLOGY AND MOLECULAR BIOLOGY, B.A. DEGREE

The following is a possible four-year schedule for classes in the biotechnology major. It is important that first year students enroll in both the BIO160-210 sequence AND the CHE131-132 sequence to get started in the major and to best balance the remaining three years of the curriculum. Students should work closely with an advisor in the science department to tailor course selection to their interests and goals and be confident of course availability and sequencing.

ADVISING TIPS FOR THE MAJOR IN BIOTECHNOLOGY AND MOLECULAR BIOLOGY, B.A. DEGREE

- Several upper level biology courses are offered on an every-other-year schedule.
- Students interested in pursuing medical school or affiliated careers should consider PHY 201 and 202 in the sophomore year and CHE 414 in the junior year to prepare for the MCAT exam after Junior year.

MAJOR IN CHEMISTRY, ACS CERTIFIED B.S. DEGREE (17)

The American Chemical Society (ACS) Certification B.S. option serves as evidence that a graduate has completed a rigorous program in chemistry approved by a national scientific organization. Employers and graduate schools recognize ACS certification as a sign of the high quality of a student’s preparation for employment or further study in the chemical sciences. Completion of the ACS Certified program is determined by the department.

The Bachelor of Science degree will be attractive to those students intending to pursue graduate study in chemistry or a career as a chemist. This degree option leads the student to a degree certified by the American Chemical Society and as such is a more rigorous program, particularly with respect to hands-on laboratory experience.
REQUIRED COURSES (15)
Chemistry majors should take CHE 131, BIO 160, and MAT 114 (or higher) in their first semester.

BIO 160 Concepts in Biology
CHE 131-132 General Chemistry I and II
MAT 117–118 Calculus I and II
OR
MAT 131–132 Honors Calculus I and I
CHE 201–202 Organic Chemistry I and II
PHY 201–202 General Physics I and II
CHE 311–312 Physical Chemistry I and II
CHE 315 Analytical Chemistry
CHE 316 Inorganic Chemistry
CHE 414 Biochemistry
CHE450 Instrumental Chemistry

ELECTIVE (1)
One additional three- or four-credit courses from among CHE 318 or CHE 416.

RESEARCH (1)
Complete at least 3 credits of laboratory research, with report submitted to the department as a final project in CHE480 Seminar in Chemistry or as part of CHE 491 or 492 if the research is undertaken on campus.

RECOMMENDED FOUR-YEAR PLAN FOR THE ACS CERTIFIED B.S. IN CHEMISTRY
The following plan is recommended for chemistry majors. It prepares students for the workforce or for graduate school. The General Chemistry sequence is an important part of the student’s first year at Assumption University. It is important to work with an advisor to be confident in the timing of course offerings in the department.

<table>

ADVISING TIPS FOR THE ACS CERTIFIED B.S. IN CHEMISTRY

- Upper level chemistry courses noted with an asterisk* are offered on an every-other-year schedule.
- BIO 160 may be taken at any point in the curriculum prior to taking CHE 414 Biochemistry.

MAJOR IN CHEMISTRY, B.A. DEGREE (16)

The objective of the chemistry major is to provide the student with knowledge of the fundamental principles governing the structure of matter. The courses are organized to establish a foundation in the basic areas of inorganic chemistry, organic chemistry, physical chemistry, biochemistry, and analytical chemistry, and to develop an understanding of the unity of Chemistry by relating these basic areas to each other and to other scientific disciplines. The laboratories are designed to develop a degree of proficiency in the practical aspects of experimentation and instrumentation.

Through a well-planned choice of electives, a student can prepare for graduate study in chemistry, biochemistry, or some other area of science; for industrial employment; for teaching Chemistry; or for professional study in medicine, dentistry, or other health sciences. Qualified chemistry majors may also pursue a dual degree program leading to a B.A. in Chemistry from Assumption University and a B.S. in Chemical Engineering from The University of Notre Dame. Interested students should contact Professor Jimmy Hauri, Director of the 3:2 Engineering Program.

The Bachelor of Arts degree may be attractive to those students interested in enhancing their undergraduate experience with a second major to prepare for other career paths, the clinical medical sciences in particular.

REQUIRED COURSES (14)

Chemistry majors should take CHE 131, BIO 160, and MAT 114 (or higher) in their first semester.

- BIO 160 Concepts in Biology
- CHE 131-132 General Chemistry I and II
- MAT 117–118 Calculus I and II
  OR
- MAT 131–132 Honors Calculus I and I
- CHE 201–202 Organic Chemistry I and II
- PHY 201–202 General Physics I and II
- CHE 311–312 Physical Chemistry I and II
- CHE 315 Analytical Chemistry
- CHE 316 Inorganic Chemistry
- CHE 414 Biochemistry

ELECTIVES (2)

Two additional three- or four-credit courses from among: CHE 318, CHE 416, CHE 450, CHE 460, CHE 470, CHE 480, CHE 491–492. At least one of the electives must include a lab. Only one Independent Study course (CHE 491 or CHE 492) or Internship may be counted towards the Chemistry Elective requirement.

RECOMMENDED FOUR-YEAR PLAN FOR THE B.A. IN CHEMISTRY
The following plan is recommended for chemistry majors. It prepares students for the workforce or for graduate school. The General Chemistry sequence is an important part of the student’s first year at Assumption University. It is important to work with an advisor to be confident in the timing of course offerings in the department.

### First Year

<table>
<thead>
<tr>

### ADVISING TIPS FOR THE B.A. IN CHEMISTRY

- Upper level chemistry courses noted with an asterisk* are offered on an every-other-year schedule.
- BIO 160 may be taken at any point in the curriculum prior to taking CHE 414 Biochemistry.

### MAJOR IN NEUROSCIENCE WITH A CELLULAR PATH, B.S. DEGREE (19)

A Major in Neuroscience utilizes an interdisciplinary approach to empower students to: 1) develop and refine skills of inquiry with a focus on the brain and mind, 2) gain a strong understanding of the classic and contemporary findings in neuroscience, 3) comprehend and appreciate the dynamic, multidisciplinary nature of this field 4) to ask thoughtful questions and strategically select approaches to answer questions, 5) develop informed hypotheses and design/execute experiments to test hypotheses, and 6) critically analyze data and determine if data supports hypotheses, and 7) explore philosophical questions about the nature of human life, human consciousness, and free will.

Neuroscience also involves exploring the complex interactions between the distinct aspects of brain, mind, and behavior. The major in Neuroscience engages students through a holistic, interdisciplinary approach rooted in rigorous science and augmented by philosophical perspectives that address the brain, mind, and human nature.

Neuroscience majors engage in numerous, interdisciplinary neuroscience-focused courses throughout their undergraduate career. These courses span from an introductory 100 level to highly- rigorous 400 level neuroscience courses. Students are
encouraged to engage in independent research and internships, in addition to successful completion of the required coursework. Students will be well prepared for research positions in both academic and industry settings, and numerous careers in health professions. Students are poised to pursue advanced graduate studies in Medical, Dental, Veterinary, Physical Therapy, Occupational Therapy, and Optometry programs. Students will also be prepared for Master programs and Ph.D. programs. It should be noted that requirements for entry into graduate programs are varied, and it is each student’s responsibility to learn the requirements of all programs to which he/she may wish to apply. Students are encouraged to work with their academic advisor to help with their post graduate goals.

The Major in Neuroscience with a Cellular Path features curriculum that employs molecular, cellular, genetic, and organismal approaches to understand:

1. Neuroanatomy and function of the nervous system
2. Biological basis of behavior and sensation
3. Underpinnings of diseases and injuries that impact the brain, spinal cord and nervous system
4. Research techniques used to enhance our understanding of the field
5. How to conduct and critically evaluate scientific research
6. Philosophical conversations about the relationship between brain and mind, free will, and human consciousness.

REQUIRED FOUNDATIONAL COURSES (15)

Neuroscience with a Cellular Path majors should take CHE 131, BIO 160, and MAT 114 (or higher) in their first semester. Neuroscience majors are encouraged to take PHI152 or PHI153 as their second core seminar in Philosophy.

BIO 160 Concepts in Biology (with lab)
BIO 210 Genetics (with lab)
MAT 114 (or higher) Elementary Functions (or higher)
CHE 131-132 General Chemistry I and II (with lab)
CHE 201 Organic Chemistry I (with lab)
PSY 101 General Psychology
BIO 240 Human Anatomy (with lab)
PSY 251 Introduction to Brain and Behavior
PSY 224 Statistics
PHI 267 Person, Mind, and Brain
BIO 280 Sensory systems (with lab)
BIO 340 Cellular and Molecular Biology (with lab)
BIO 370 General Physiology (with lab)
BIO 375 Milestones in Neuroscience

NEUROSCIENCE CAPSTONE COURSES (2)

BIO 415 Principles of Neuroscience (with lab)
PSY 402 Social Affective Neuroscience OR PSY403 Cognitive Neuroscience

BIOLOGY ELECTIVE, CHOOSE ONE OF THE FOLLOWING (1)

ADVISING TIPS FOR THE B.S. IN NEUROSCIENCE WITH A CELLULAR PATH

- Students should take CHE 131, BIO 160, and MAT 114 (or higher) in their first semester.
- Students majoring in Neuroscience with a Cellular path are encouraged to take PHI 152 The Human Difference or PHI153 The Book of Nature before taking PHI267 Person, Mind, and Brain.
- Students are advised to take no more than 2 laboratory courses in a given semester.
- Students pursuing advanced programs in medicine should consider taking CHE414 as a biology elective for this major and in addition, take CHE202, PHY201, and PHY202. Requirements for programs are varied, and it is each student’s responsibility to learn the requirements of all programs to which he/she may wish to apply.
MAJOR IN ENVIRONMENTAL SCIENCE, B.A. DEGREE (17)

Human modification of the environment has been evident since the beginning of civilization and has proceeded at an ever-accelerating rate from the Industrial Revolution to the present day. Human activities have affected the soil, water, vegetation, climate, animal life, and even the surface of the earth itself. An awareness of environmental deterioration has forced us to seek remedies. Thus, there is a need for men and women trained to recognize, quantify, and seek solutions for environmental problems. This major gives students a broad foundation in the fundamentals of environmental science, including chemistry, biology, physics, and mathematics. Students can use the options within the major to focus on one aspect of the field, such as resource conservation, environmental policy, or toxic materials. To ensure the best choice and scheduling of courses, close cooperation between students and their faculty advisors is crucial. Students interested in this major are eligible to take courses off campus through the Massachusetts Marine Biology Consortium, the Duke University Marine Biology Consortium, and the Colleges of Worcester Consortium.

After graduation, students can seek employment in government agencies or industry, or they can pursue graduate studies in environmental engineering, environmental science, environmental management, law, education or the health sciences. To facilitate entry into these areas of study the University has established agreements that allow qualified Assumption Environmental Science students to earn a B.S. in Environmental Engineering from The University of Notre Dame, a M.S. in Environmental Management or Forestry Management from Duke University, world-renowned for its work in Environmental Science, or a J.D. in Environmental Law from the Vermont Law School, which U.S. News and World Report currently ranks as the nation’s leading environmental law program.

REQUIRED COURSES (13)

Environmental Science majors should take CHE 131, and ENV 150, and MAT 114 (or higher) in their first semester.

- ENV 150 Introduction to Environmental Science
- ENV 480 Environmental Science Seminar
- BIO 160 Concepts in Biology
- BIO 360 Ecology
- CHE 131–132 General Chemistry I and II (Note CHE 132 requires MAT 114 or higher as a pre-requisite.)
- CHE 201–202 Organic Chemistry I and II
- CHE 318 Environmental Chemistry
- PHY 201–202 Physics I and II
- MAT 117 Calculus I OR MAT 131 Honors Calculus I
- ECO 115 Statistics OR PSY 224 Statistics

One of the following (1)

- GEO 101 Physical Oceanography
- GEO 103 Introduction to Meteorology
- BIO 260 Bioinformatics
- PHY 213 Introduction to Engineering Problem Solving
- ENV 350 Wetlands (consortium); Limnology/Aquatic Ecology (consortium)

One of the following (1)

- BIO 220 Invertebrate Zoology
- BIO 230 Plant Botany
- BIO 250 Microbiology
- BIO 350 Marine Mammals: Biology and Conservation
One of the following (1)
- ECO 235 Environmental Economics
- GEO 134 Conservation of Natural Resources
- GEO 240 Geographic Information Systems
- GEO 252 Land Use and Planning Law
- POL 321 Public Policy
- ENV 260 Water Resources Planning and Management
- ENV 280 Coastal Zone Management (consortium)

One additional 300 or above elective (1)
Students can choose from courses listed above which haven’t fulfilled a section requirement, as well as ENV 491 Environmental Science Independent Study, CHE 315 Analytical Chemistry, CHE 450 Instrumental Analysis, BIO310 Animal Behavior, or an approved Worcester consortium course.

RECOMMENDED FOUR-YEAR PLAN FOR THE ENVIRONMENTAL SCIENCE MAJOR, B.A. DEGREE
The following plan is recommended for environmental science majors. It prepares students for the workforce or for graduate school. The General Chemistry sequence is an important part of the student’s first year at Assumption University. Students should work closely with an advisor in the science department to tailor course selection to their interests and goals and be confident of course availability and sequencing.

**ADVISING TIPS FOR THE B.A. IN ENVIRONMENTAL SCIENCE**

- Upper level courses are often offered on an every-other-year schedule.
- ENV 150 may be offered in other semesters. Students should work with an advisor for planning course sequencing.

**MAJOR IN ENVIRONMENTAL SCIENCE WITH A CONCENTRATION IN ENVIRONMENTAL POLICY, B.A. DEGREE (17)**

This concentration introduces students to the principles and theories used to develop public policies for the conservation of natural resources. The program is designed for students who hope to make a substantial contribution to the development of green technologies and a sustainable environment. The concentration combines rigorous coursework in environmental science with interdisciplinary studies in environmental policy. After graduation, individuals with this concentration can pursue graduate study in Environmental Science or seek employment in government agencies or industry (see the Assumption University/Duke University programs described above for an example of the type of graduate programs that environmental science majors may pursue). The major is also excellent preparation for a career in teaching, law, or the health sciences.

Ideally, students should take CHE 131 and ENV 150 in the fall semester of their first year and CHE 132 and BIO 160 in the spring. Students should choose the remaining required courses in consultation with their academic advisor. Students who choose this major after their first year should consult their academic advisor before registering for classes.

**REQUIRED COURSES (17)**

- ENV 150 Introduction to Environmental Science
- ENV 480 Environmental Science Seminar
- BIO 160 Concepts of Biology
- BIO 360 Ecology
- CHE 131–132 General Chemistry I and II (Note: MAT 114 is a pre-requisite for CHE 132)
- CHE 201–202 Organic Chemistry I and II
- CHE 318 Environmental Chemistry
- MAT 117 Calculus I

  **OR**

- MAT 131 Honors Calculus I
- PHY 201–202 Physics I and II
- ECO 115 Statistics

  **OR**

- PSY 224 Statistics
ECO 235 Environmental Economics
GEO 134 Conservation of Natural Resources
POL 321 Public Policy

One additional course from the list below:
GEO 108 World Population Issues
GEO 252 Land Use and Planning Law
An environmental policy course approved by the Department of Biological and Physical Sciences chairperson. This course can come from the offerings at Assumption, the Massachusetts Marine Biology Consortium, the Duke University Marine Biology Consortium, or the Higher Education Consortium of Central Massachusetts (HECCMA). Consult your advisor for more information.

ADVISING TIPS FOR THE B.A. IN ENVIRONMENTAL SCIENCE, ENVIRONMENTAL POLICY

- Majors in Environmental Science with a Concentration in Environmental Policy should take CHE 131, ENV 150, and MAT 114 (or higher) in their first semester.

MAJOR IN HEALTH SCIENCES, B.A. DEGREE (14)
A major in Health Sciences prepares students for a broad range of career opportunities in the growing fields of health care with applications to clinical practice, administration, policy development, and research. The Health Sciences major at Assumption University is an interdisciplinary program with coursework in the biological and physical sciences, disease and disability, health care delivery and care models, as well as the economics, ethics and policies that drive our global health care systems. Students are encouraged to customize their education by adding a concentration to their major, in close consultation with their advisor, which may help direct them toward the graduate program of their choice. Typical concentrations for the Health Sciences major include Pre-Physical Therapy, Pre-Occupational Therapy, Communication Sciences and Disorders, Pre-Clinical Health Professions, and Patient Advocacy. Graduate school is not necessary for employment after earning a bachelor’s degree in Health Sciences. Entry-level positions in health care administration, patient advocacy and patient experience, medical billing, health insurance, and the pharmaceutical and medical device industries are all possible outcomes for undergraduates who don’t wish to pursue graduate studies.

A significant component of the Health Sciences curriculum is a 6-credit internship that enables students to explore their professional interests and develop essential skill sets by working in a variety of health care settings. This experiential learning component of the major is critical to connect the concepts learned in the classroom to the practice of health care in the community. This internship should typically be completed in the students’ junior or senior year and the specific setting will be determined in close consultation with a clinical coordinator within the Human Services and Rehabilitation Studies Department.

REQUIRED COURSES (12)
HSC 100 Systems Approach to Delivering Health Care in America
HRS 119 Introduction to Health, Human, and Rehabilitation Services
HRS 121 Human Development and Disability Across the Lifespan
HSC 150 Introduction to Public Health
BIO 160 Concepts in Biology (4 credits)
HRS 210 Medical Aspects of Chronic Illness and Disability
HRS/HSC 220 Psychosocial Aspects of Chronic Illness and Disability
PSY 224 Statistics (SOC 300 or ECO 115 are also accepted - consult with advisor)
HSC 310 Evidence-based Health Care
HRS 330 Interviewing Techniques
HSC 360 Legal and Ethical Aspects of Health Care
HSC 450 Internship in Health Sciences (6 credits)
**BIOLOGY ELECTIVES (2)**

- BIO 102 Human Biology in Health Disease (4 credits)
- BIO 105 Human Heredity
- BIO 110 Nutrition
- BIO 210 Genetics (4 credits)
- BIO 240 Human Anatomy (4 credits)
- BIO 250 Microbiology (4 credits)
- BIO 340 Molecular and Cellular Biology (4 credits)
- BIO 370 General Physiology (4 credits)

The particular sequence of courses is highly dependent upon other programs of study (i.e. concentrations, minors, etc.) the student may wish to pursue. Some courses have prerequisites; therefore, it is highly recommended that the student work closely with an advisor in selecting electives and the sequence of courses to be taken. Communication Sciences and Disorders concentrators can substitute HRS 335 Anatomy and Physiology of Speech and Hearing Mechanisms for one Biology elective in the Health Sciences major.

**CONCENTRATION IN PRE-CLINICAL HEALTH PROFESSIONS (17)**

The Concentration in Pre-Clinical Health Professions is designed to prepare students for graduate study in one of the many clinical health professions, such as medicine, dentistry, veterinary medicine, physician’s assistant, nursing, and optometry. This interdisciplinary concentration provides the student with a strong background in mathematics, the biological and physical sciences, and the social sciences. As a concentration, it must accompany a major program of study, but can augment a variety of majors. Majors that share the greatest numbers of common courses with this concentration are Biology, Biotechnology and Molecular Biology, Biology with a Concentration in Neuroscience and Behavior, Psychology with a Concentration in Neuroscience, and Health Sciences.

**REQUIRED COURSES (17)**

- BIO 160 Concepts in Biology
- BIO 210 Genetics
- BIO 240 Human Anatomy
- BIO 250 Microbiology or BIO340 Molecular and Cellular Biology
- BIO 370 Physiology
- CHE 131-132 General Chemistry I and II (Note CHE 132 requires MAT 114 or higher as a pre-requisite.)
- CHE 201-202 Organic Chemistry I and II
- CHE 414 Biochemistry
- MAT 114 Elementary Functions or MAT 117 Calculus I
- PHY201-202 General Physics I and II
- PSY 101 General Psychology
- Statistics PSY 224 or SOC 300 or ECO115
- HSC 100 Systems Approach to Delivering Health Care
- SOC 121 Principles of Sociology

**CONCENTRATION IN PRE-OCCUPATIONAL THERAPY (11)**

The minimal entry-level degree for practice as an Occupational Therapist is a clinical master’s degree in Occupational Therapy. The Concentration in Occupational Therapy is designed to prepare students for graduate study in Occupational Therapy. The concentration is not a major, and all students completing the concentration must also complete the requirements of a major prior to graduation. Students must also complete a major with the concentration. Many students interested in Occupational Therapy have majored in Biology, Human Services and Rehabilitation Studies, or Psychology, and many of the courses required for the concentration are also required for completion of these majors.
REQUIRED COURSES (10)

- HRS 125 Professional Orientation to Physical and Occupational Therapy (Spring)
- HRS 345 Occupational Therapy: Occupation, Theory, Intervention and Assessment Across the Lifespan (Fall)
- BIO 160 Concepts in Biology with Lab (Fall/Spring)
- BIO 240 Human Anatomy with Lab (Fall)
- BIO 370 General Physiology with Lab (Spring)
- PSY 101 General Psychology (Fall/Spring)
- PSY 216 Abnormal Psychology (Fall/Spring)
- HRS 121 Human Development and Disability (Fall/Spring)
- PSY 224 Statistics or SOC300 or ECO 115 (Fall/Spring)
- SOC 121 Principles of Sociology
  or
- ANT 131 Cultural Anthropology

FIELD BASED COURSE (1)

- HRS 490 Internship in Human Services and Rehabilitation Studies (HSRS Majors-12 Credits)
- HRS 400 Human Services and Rehabilitation Studies (non HSRS Major-3 credits)
- HSC 450 Health Sciences Internship (HSC majors – 6 credits)

Some programs may require a course in Neuroscience, Kinesiology and/or Neuroanatomy with a focus on the Central and Peripheral Nervous System. First semester freshmen who want to complete the concentration should enroll in BIO 160 and HRS 125. First-year students should also consult with the Health Professions Advisor, Dr. Steven Theroux at the beginning of the fall semester to plan out the remainder of their course of study. A significant number of hours (as many as 1,000) in fieldwork related to health care may be required for admission to some OT programs. The internship experience required for our program may not provide all of the hours needed to satisfy this requirement. Additional experience can be gained by volunteer work or by acquiring a paid position as a rehabilitation aide. It may also be possible to obtain additional fieldwork experience by completing additional internships within the major.

It is also important to note that some graduate programs have atypical course requirements. Students who are considering applying to graduate school for Occupational Therapy should review the admission requirements of the schools they plan to apply to by the beginning of their junior year in order to be certain they will have time to complete all of the necessary coursework before graduation.

CONCENTRATION IN PRE-PHYSICAL THERAPY (16)

The minimal entry-level degree for practice as a Physical Therapist is a clinical doctoral degree in Physical Therapy. The Concentration in Physical Therapy is designed to prepare students for graduate study in Physical Therapy. The concentration is not a major, and all students completing the concentration must also complete the requirements of a major prior to graduation.

A student may complete any major while also completing the concentration. Many students interested in Physical Therapy have majored in Biology, Human Services and Rehabilitation Studies, or Psychology, and many of the courses required for the concentration are also required for completion of these majors.

REQUIRED COURSES (13)

- HRS 125 Professional Orientation to Physical and Occupational Therapy (Spring)
- BIO 160 Concepts in Biology
- BIO 240 Human Anatomy (Fall)
- BIO 370 General Physiology (Spring)
- CHE 131 General Chemistry I (Fall)
- CHE 132 General Chemistry II (Spring) (Note: MAT 114 is a pre-requisite for CHE 132)
PHY 201 General Physics I (Fall)
PHY 202 General Physics II (Spring)
BIO/HRS 390 Exercise Physiology (Fall)
PSY 101 General Psychology
PSY 216 Abnormal Psychology
PSY 290 Psychology of Development
SOC 121 Principles of Sociology

ONE OF THE TWO HRS COURSESListED BELOW:
  HRS 490 Internship in Human Services and Rehabilitation Studies (if HSRS Major-12 Credits)
  HRS 400 Human Services and Rehabilitation Studies (if Non-HSRS Major-3 credits)

ONE OF THE FOLLOWING STATISTICS COURSES:
  PSY 224 Statistics
  ECO 115 Statistics

ONE OF THE FOLLOWING MATH COURSES:
  MAT 114 Elementary Functions
  MAT 117 Calculus I

RECOMMENDED (BUT NOT REQUIRED) COURSEWORK
  BIO 415 Principles of Neuroscience
  PSY 251 Introduction to Brain and Behavior

Students who wish to complete the concentration should enroll in BIO 160 and its lab in their first semester at the University, as well as HRS 125 in the spring semester. First-year students should also consult with the Health Professions Advisor, Dr. Steven Theroux, or Human Services and Rehabilitation Studies Advisor, Dr. Gary Senecal, at the beginning of the fall semester to plan out the remainder of their course of study. A significant number of hours (as many as 1,000) in fieldwork related to health care may be required for admission to some PT programs. The internship experience required for our program may not provide all of the hours needed to satisfy this requirement. Additional experience can be gained by volunteer work or by acquiring a paid position as a rehabilitation aide. It may also be possible to obtain additional fieldwork experience by completing additional internships within the major. It is also important to note that some graduate programs have atypical course requirements. Students who are considering applying to graduate school for Physical Therapy should review the admission requirements of the schools they plan to apply to by the beginning of their junior year in order to be certain they will have time to complete all of the necessary coursework before graduation.

CONCENTRATION IN PATIENT ADVOCACY (7)
The Concentration in Patient Advocacy is designed to advance students’ knowledge and understanding of health and human services, health psychology, health care management, and sociology, in the context of the health care environment working with, and for, patients. The Concentration in Patient Advocacy is designed to prepare students with the foundational knowledge for entry-level roles in the field of health advocacy and patient navigation. The concentration prepares students for non-clinical graduate study in health care such as patient advocacy, public health, health care administration, and health care policy. Additionally, the Concentration in Patient Advocacy will complement students’ preparation for graduate study in one of the many clinical health professions such as medicine, dentistry, physician’s assistant, nursing, and optometry. This interdisciplinary concentration provides the student with education in aspects of law, ethics, policy, human services and the social sciences necessary for advancing patient- and family-centered health care. Students must also complete a major with the concentration. It can be undertaken while studying a number of possible majors.
REQUIRED COURSES (7)
HSC 100 Systems Approach to Delivering Healthcare in America
HRS 210 Medical Aspects of Chronic Illness and Disability
HRS/HSC 222 Advocacy for Patient-Centered Care
HSC 310 Evidence Based Health Care
HRS 340 Principles of Case Management
HSC 360 Legal and Ethical Aspects of Health Care
HSC 370 Principles of Health Education and Promotion

MINOR IN BIOLOGY (5)
Students who wish to pursue the study of life forms and functions may elect a minor in Biology. This course of study may appeal to students majoring in the behavioral sciences who plan a career in a health-related field. Ordinarily the student will begin with BIO 160 Concepts in Biology, adding at least four Biology courses numbered above 200 in consultation with an advisor from the department. Courses taken numbered below BIO 160 require the approval of the department chairperson. Please note that the double-counting rule applies to this minor, and three courses in it must be distinct from a major, another minor, or a concentration.

MINOR IN CHEMISTRY (8)
Students who wish to pursue the study of the structure of matter beyond the level of an introductory may elect to minor in Chemistry.

REQUIRED COURSES (7)
CHE 131–132 General Chemistry I and II (Note: MAT114 is a pre-requisite for CHE132)
CHE 201–202 Organic Chemistry I and II
CHE 311 Physical Chemistry I
MAT 117 and 118 or MAT 131 and 132 Calculus I and II

ANALYTICAL CHEMISTRY COURSE (1)
CHE 315 Analytical Chemistry
CHE 316 Inorganic Chemistry
CHE 450 Instrumental Chemistry

MINOR IN PHYSICS (6)
Students interested in furthering their knowledge of physics can choose to minor in this discipline. Required courses for the minor are: PHY 201–202, and PHY 480. Students must also complete three of the following eight courses, and no more than two of the three may be from the mathematics offerings: CHE 311, CHE 312, PHY 213, PHY 275, PHY 301, PHY 302, PHY 491, PHY 492, MAT 331, MAT 351, MAT 355.

MINOR IN ENGINEERING SCIENCE (6)
This minor is for students who are interested in gaining a foundation in engineering, but do not wish to transfer to one of our 3-2 engineering partner schools. Students who do transfer to a partner school and graduate with an engineering degree are not eligible for the minor. The minor is a good option for those considering obtaining a graduate degree in engineering. The minor consists of 6 courses:

REQUIRED COURSES (4)
PHY 213 Introduction to Engineering Problem Solving
MAT 355 Differential Equations
CSC 117 Introduction to Programming
PHY 301 Statics

ELECTIVES (2)

*Must be from different disciplines.*

MAT 356 Numerical Analysis
CSC 317 Java Programming
PHY 275 Applied Optics
PHY 302 Dynamics
CHE 311 Physical Chemistry I or equivalent Thermodynamics course
Approved engineering courses, transfer credit or HECCMA consortium

MINOR IN ENVIRONMENTAL SCIENCE (6)

Students may expand their study of environmental problems with a Minor in Environmental Science. This program will appeal to students who have an interest in the science behind environmental issues.

REQUIRED COURSES (6)

- ENV 150 Introduction to Environmental Science
- BIO 160 Concepts in Biology
- ENV 480 Environmental Science Seminar
- 1 200 level course from Section A below
- 1 300 level course from Section A below
- 1 course from Section B below

Section A

- BIO 220 Invertebrate Zoology
- BIO 230 Botany
- BIO 350 Marine Mammals: Biology and Conservation
- BIO 360 Ecology
- CHE 318 Environmental Chemistry
- ENV 350 Wetlands
- ENV 491 Independent Study in Environmental Science

Section B

- GEO 101 Physical Oceanography
- GEO 103 Introduction to Meteorology
- GEO 134 Conservation of Natural Resources
- GEO 252 Land Use and Planning Law
- ECO 235 Environmental Economics
- ENV 260 Water Resources Planning and Management (consortium)
- ENV 280 Coastal Zone Management (consortium)

MAJOR IN NEUROSCIENCE WITH A CELLULAR PATH, B.A. DEGREE (18)

A Major in Neuroscience utilizes an interdisciplinary approach to empower students to: 1) develop and refine skills of inquiry with a focus on the brain and mind, 2) gain a strong understanding of the classic and contemporary findings in neuroscience, 3) comprehend and appreciate the dynamic, multidisciplinary nature of this field 4) to ask thoughtful questions and strategically select approaches to answer questions, 5) develop informed hypotheses and design/execute experiments to test hypotheses, and 6) critically analyze data and determine if data supports hypotheses. Students are encouraged to engage in independent
research and internships, in addition to successful completion of the required coursework. Neuroscience majors will be prepared to pursue careers in industry, health professions, and graduate studies within the field of neuroscience.

REQUIRED COURSES (16)
Neuroscience with a Cellular Path majors should take CHE 131, BIO 160, and MAT 114 (or higher) in their first semester.

- BIO 160 Concepts in Biology
- BIO 210 Genetics
- CHE 131 General Chemistry I
- CHE 132 General Chemistry II (Note: MAT 114 or higher is a pre-requisite for CHE 132)
- PSY 101 General Psychology
- CHE 201 Organic Chemistry
- BIO 240 Human Anatomy
- PSY 251 Introduction to Brain and Behavior
- PSY 224 Statistics
- PHI 267 Person, Mind, and Brain
- BIO 280 Sensory Systems
- BIO 340 Molecular and Cellular Biology
- BIO 370 General Physiology
- BIO 375 Milestones in Neuroscience
- PSY 402 Social and Affective Neuroscience
- BIO 415 Principles of Neuroscience

BIOLOGY ELECTIVE (1)
- BIO 220 Invertebrate Biology
- BIO 250 Microbiology
- BIO 310 Animal Behavior
- BIO 260 Bioinformatics
- BIO 410 Developmental Biology
- BIO 430 Comparative Physiology
- BIO 490 Independent Study with Neuroscience Focus
- CHE 414 Biochemistry

PSYCHOLOGY ELECTIVE (1)
- PSY 250 Perception
- PSY 252 Cognitive Psychology

Please note that MAT 114 Elementary Functions is a prerequisite for CHE 132. While all students must take at least one Math course to fulfill the core, science majors planning to take CHE 132 should take MAT 114 during the first semester of the first year.

RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN NEUROSCIENCE WITH A CELLULAR PATH, B.A. DEGREE
The following is a possible four-year schedule for classes in the neuroscience major. It is important that first year students enroll in both the BIO160-210 sequence AND the CHE131-132 sequence to get started in the major and to best balance the remaining three years of the curriculum. Students should work closely with an advisor in the science department to tailor course selection to their interests and goals and be confident of course availability and sequencing.

**ADVISING TIPS FOR THE B.A. IN NEUROSCIENCE WITH A CELLULAR PATH**
- Several upper level courses are offered on an every-other-year schedule.
- Students interested in pursuing medical school or affiliated careers should work closely with their advisor and consider PHY 201 and 202 in the sophomore year and CHE 414 in the junior year to prepare for the MCAT exam after Junior year.

**MAJOR IN BIOLOGY WITH A CONCENTRATION IN NEUROSCIENCE AND BEHAVIOR, B.A. DEGREE (17)**
This concentration introduces students to neuroscience and biological and psychological rationales for behavior. It is ideal for individuals interested in obtaining a strong foundation in biology while pursuing an interdisciplinary approach to study of human behavior. Students who choose this concentration are also encouraged to do internships or independent studies in laboratories studying neurobiology or the biological basis of behavior. Individuals who complete the requirements of the major will be prepared to pursue work in the biotechnology and pharmacology industries or in other life science organizations. They will also be eligible to pursue graduate studies in neuroscience or the health professions. It should be noted that the B.S. option above is recommend for those intending to pursue.

**REQUIRED COURSES (13)**
Biology with a Concentration in Neuroscience and Behavior majors should take CHE 131, BIO 160, and MAT 114 (or higher) in their first semester.
- BIO 160 Concepts in Biology
- BIO 210 Genetics
- BIO 310 Animal Behavior
- BIO 415 Principles of Neuroscience
- CHE 131-132 General Chemistry I and II (Note: MAT 114 is a pre-requisite for CHE 132)
- CHE 201-202 Organic Chemistry I and II
MAT 114 Elementary Functions (or higher if placed higher)
PHY 201-202 General Physics I and II
PSY 101 General Psychology
PSY 402 Social and Affective Neuroscience

ELECTIVES (4)
Choose at least 3 of the following:
   BIO 220 Invertebrate Biology
   BIO 240 Human Anatomy
   BIO 250 Microbiology
   BIO 280 Sensory Systems
   BIO 340 Molecular and Cellular Biology
   BIO 370 General Physiology
   BIO 375 Milestones in Neuroscience
   BIO 480 Seminar in Life Sciences: Neuroscience topic
   CHE 414 Biochemistry

Choose at least 1 of the following:
   PSY 250 Perception
   PSY 251 Introduction to Brain and Behavior
   PSY 252 Cognitive Psychology
   PSY 253 Psychology of Learning

Suggested (but not required) courses:
   PSY 224 Statistics
   PSY 225 Research Methods
   PHI 345 Special Topics in Philosophical Issues – Human Nature
   BIO 490–491 Independent Study in Biology

RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN BIOLOGY WITH A CONCENTRATION IN NEUROSCIENCE AND BEHAVIOR, B.A. DEGREE
The following is a possible four-year schedule for classes in the biology with a concentration in neuroscience major. It is important that first year students enroll in both the BIO 160-210 sequence AND the CHE 131-132 sequence to get started in the major and to best balance the remaining three years of the curriculum. Students should work closely with an advisor in the science department to tailor course selection to their interests and goals and be confident of course availability and sequencing.

ADVISING TIPS FOR THE BIOLOGY WITH A CONCENTRATION IN NEUROSCIENCE AND BEHAVIOR, B.A. DEGREE

- Several upper level biology courses are offered on an every-other-year schedule.
- Students interested in pursuing medical school or affiliated careers should consider PHY 201 and PHY 202 in the sophomore year and CHE 414 in the junior year to prepare for the MCAT exam after Junior year.

STUDENT RESEARCH—SUMMER OPPORTUNITIES

Department faculty members oversee research programs on campus that engage upper-level students in the projects associated with their research interests. Summer research positions that provide a stipend are available on a competitive basis. Assumption students have been accepted into prestigious summer research programs at major research institutions around the country. The sponsoring institutions for this research include the National Science Foundation, the National Institutes of Health, and the American Cancer Society.

PREPARATION FOR TEACHING SCIENCE AT THE SECONDARY LEVEL

Students interested in seeking certification to teach high school biology or chemistry should consider a Major in Biology or Chemistry and a Major in Education, Secondary License. Application to the Education Major must be made by April 30 of the sophomore year. Please see a complete description of procedures and policies in the Department of Education section of the catalog. A student should carefully plan a course of study in conjunction with advisors in both departments (Education and Biological and Physical Sciences).

Biology – Field of Knowledge Competencies:

- BIO 160 Concepts in Biology
- BIO 210 Genetics
- BIO 230 Botany
- BIO 220 Zoology
- BIO 240 Human Anatomy
- BIO 370 General Physiology
- BIO 360 Ecology
- CHE 131–132 General Chemistry I and II

Chemistry – Field of Knowledge Competencies:

- CHE 131–132 General Chemistry I and II
- CHE 201–202 Organic Chemistry I and II
- CHE 316 Inorganic Chemistry
CHE 315 Analytical Chemistry
CHE 311–312 Physical Chemistry I and II
PHY 201–202 Physics I and II
MAT 117–118 Calculus I and II
MAT 131–132 Honors Calculus I and II

PRE-MEDICAL/PRE-DENTAL
As a liberal arts university, Assumption offers students the knowledge necessary for entrance to and success in medical and/or dental school. Most students interested in pursuing a career in Medicine or Dentistry major in Biology, however, it is possible to choose other majors and still prepare for such a career. Although there is no universal standard for medical school admissions, most school requirements would be fulfilled by inclusion of the following courses:

BIO 160 Concepts in Biology
One from the following three Biology courses:
   BIO 210 Genetics
   BIO 240 Human Anatomy
   BIO 340 Molecular and Cellular Biology
CHE 131–132 General Chemistry I and II (Note: MAT114 is a pre-requisite for CHE132)
CHE 201–202 Organic Chemistry I and II
PHY 201–202 General Physics I and II
ENG 130 English Composition
LTE 140 Introduction to Literature

Additional courses that are usually highly recommended include:
   CHE 414 Biochemistry
   MAT 117 Calculus I or MAT 131 Honors Calculus I
   ECO 115 or PSY 224 Statistics
   Courses in Psychology, and Computer Science
   Additional courses in Biology, Chemistry, and Mathematics are helpful.

Note these courses reflect a suggested course load. Students should contact their desired schools and Dr. Steven Theroux before committing to a plan of study.

MEDICAL TECHNOLOGY OPTION (BIOLOGY MAJOR)
The Medical Technology Option is designed to offer students the background necessary to apply for admission to a hospital-affiliated school of Medical Technology. This option can be completed in three or four years at Assumption before entering a school of Medical Technology; the three-year program is described here.

● During the first three years while the student is at Assumption University, he/she should complete:
● Four courses in Chemistry, including Organic Chemistry
● Two courses in Physics
● Seven courses in Biology, including Microbiology and Immunology
● One course in Mathematics, at the level of MAT 114 or above

In addition, other curriculum requirements to fulfill the Bachelor of Arts program at Assumption must be taken during the first three years of the program when planned in conjunction with a faculty advisor in the Department of Biological and Physical Sciences. It is important for a student interested in this option to indicate his/her interest in the first year and to plan the program carefully.

Three years of study (30 courses) as a Biology major at Assumption are followed by one year of training and study in an approved hospital school of Medical Technology. Upon completion of the hospital year, the student will receive a Bachelor’s degree from
Assumption and will be eligible to take the National Registry Exam in Medical Technology. Participation in Assumption’s undergraduate Medical Technology Option does not guarantee admission to a School of Medical Technology.

**HEALTH PROFESSIONS PROGRAM**

The Health Professions Program is designed to help students enter graduate school in one of the health professions (Medicine, Dentistry, Physical Therapy, Occupational Therapy, Physician’s Assistant, etc.). The program focuses on preparing the student to earn good grades and strong scores on the admissions test and graduate school interview. Those who complete the program requirements will have the fact that they did so listed on their transcript. All students interested in a health profession should consult with their advisors and Dr. Steven Theroux, Chairperson of the Health Sciences Committee, at the beginning of their undergraduate careers.

To complete the Health Professions Program, the student must:

- Successfully finish a major in Biology; Biology with a Concentration in Neuroscience and Behavior; Biotechnology and Molecular Biology; Chemistry; Psychology; Psychology with a Concentration in Neuroscience of Human Behavior; or Human Services and Rehabilitation Studies
- Complete the required coursework with a cumulative GPA of 3.0 or better overall and a GPA of 3.0 or better in the major
- Complete the “Social, Economic and Ethical Issues in the Health Professions” course
- Submit at least one list of prerequisite courses required for a specific health-related graduate program to which he or she intends to apply
- Submit a statement indicating that the prerequisite courses required for admission to a particular health professions graduate program were successfully completed
- Present evidence from Kaplan that he or she successfully completed a Kaplan Test Preparation Course (e.g., MCAT, DAT, OAT, VCAT, PCAT, GRE, etc.). (The exact course that the student completes will vary depending on the graduate program the individual hopes to enter.)
- Present evidence that he or she took a graduate admissions test (e.g., MCAT, DAT, GRE, etc.) and scored in the top 50% of those taking the test in that year. Kaplan preparation courses are offered on campus at reduced rates. Financial aid is available.

Students who plan to pursue a graduate degree in a health profession should be aware of the timetable in which to fulfill their requirements, which include admissions exams and letters of reference from the Health Sciences Committee. Students should be prepared for entrance exams in their junior year and request a letter of reference at that time. Students must contact Dr. Theroux at least two weeks before the scheduled Committee meeting times in the second week of October, the second week of February, and the second week of May. The letters will usually be ready within four to five weeks of the meeting.

**ARTICULATION AGREEMENTS IN THE SCIENCE AND HEALTH PROFESSIONS**

Assumption University holds a wide range of agreements with graduate institutions in the health sciences. For a complete list, including agreements with law schools and Notre Dame’s College of Engineering, see the “Articulation Agreements” section above and/or contact the Health Professions Advisor, Prof. Steven Theroux, stheroux@assumption.edu.

**COURSE DESCRIPTIONS**

**BIOLOGY (BIO)**

**BIO 102  HUMAN BIOLOGY IN HEALTH AND DISEASE**

A course for non-science majors that focuses on selected functional systems of the body, the organs that compose them, and the interactions among them. Special attention will be given to disease processes. In these systems laboratory work (one three-hour session per week) will include studies of physiological concepts at the cellular and systems levels. This course is especially designed for students majoring in Social and Rehabilitation Services or Psychology, or students seeking background for courses
in Anthropology and other social sciences. Lab Fee: $400.00. This course fulfills the science core curriculum requirement. (Fall, Spring)
Staff/Four credits

**BIO 105 HUMAN HEREDITY**

This course presents an introduction to the principles of human genetics. Major topics covered include cell division and the distribution of genetic material, embryonic development and the role of teratogens; Mendel’s experiments, inheritance patterns in human families; the interaction of genes and the environment; the structure and function of DNA; personal genomics; and genetic technologies. An historical approach is used and most genetic principles are introduced by examples from human medical genetics. Two or three integrated lecture-laboratory sessions per week. Lab fee: $200. This course fulfills the science core curriculum requirement. (Fall, Spring)
Staff/Three credits.

**BIO 110 NUTRITION**

This course will explore the basic principles of human nutrition. Topics to be covered include nutrient classes, nutritional guidelines, nutrition-related diseases and disparities in access to healthy foods. This course will also cover controversial topics in nutrition such as GMOs and fad dieting. This will be an interactive course that will require students to use the scientific method and will include in-class research, data collection, presentations and discussions. Two or three integrated lecture-laboratory sessions per week. Lab fee: $200. This course fulfills the science core curriculum requirement. (Fall, Spring)
Staff/Three credits

**BIO 115 MATTERS AND MYSTERIES OF YOUR BRAIN**

The brain is the most complex and least understood organ in our bodies. It is fascinating to consider that the brain is required for a vast array of functions including learning and memory, motor movement, and perception of our environment. The brain’s vital role in our daily life is indisputable, yet we do not fully understand the fundamental underpinnings of brain function. For this reason, the brain is referred to as the last frontier of science. In this course, student-driven approaches will be used to explore what is known and what is not yet fully understood about brain function through the use of case studies of humans suffering from brain injury, hypothesis-driven experimentation, and critical examination of recent science findings as described by the media. Students will refine their practice of the scientific method while enhancing critical thinking skills. Two or three integrated lecture-laboratory sessions per week. Lab fee: $200. This course fulfills the science core curriculum requirement. (Spring)
Staff/Three credits

**BIO 125 BACKYARD BIOLOGY**

Biology is the science of life – and life happens all around us. In this course, we will explore fundamental concepts of biology using real-life examples encountered for example in your kitchen or backyard. We will focus on the principles of ecology and evolution, while tackling contemporary problems of global importance – climate change and biodiversity decline. The integrated laboratory experience consists of self-guided explorations of plants, animals, and other organisms commonly found in the Northeastern USA, as well as simple at-home experiments and simulations. This course aims to broaden your horizons and instill an appreciation for the creatures large and small with whom we share the world. By exploring the life that happens right outside your door, you will not only learn basic biological facts, but more importantly the ecological connections that make life on Earth possible and enjoyable! Two or three integrated lecture-laboratory sessions per week. Lab fee: $200. This course fulfills the science core curriculum requirement. (Summer)
Fučíková/Three credits

**BIO 140 INQUIRY BIOLOGY FOR EDUCATORS**

In this course, students learn fundamental concepts and models associated with three major sub-disciplines of biology – genetics, ecology, and evolution. The course heavily emphasizes the use of open-ended, problem-solving methods of teaching and learning to help students develop their own functional understanding of the major concepts. A significant part of students’ problem-solving work involves the use of computer technology, including the use of concept mapping and computer simulations to facilitate concept development. The course is intended for students planning on pursuing a career in elementary or middle school education. As such, particular attention is given to understanding common misconceptions that children have concerning learning
about biological phenomena and considering the ramifications of these misconceptions for the development of effective classroom instruction. At least twice during the term, students will be expected to teach “mini” lessons in the biological sciences to visiting elementary school children. The course meets twice weekly in a 3-hour lab session. This course fulfills the science core curriculum requirement. (Fall, Spring)

Staff/Four credits

BIO 160 CONCEPTS IN BIOLOGY
An introductory course required of all science majors that emphasizes major concepts in biological science: structure and function, homeostasis, energetics, perpetuation, and evolution of living organisms. The laboratory will introduce students to the techniques and approaches used in biology. Three lectures and one laboratory period each week. Should be taken by intended science majors in the first year. Lab Fee: $400.00. This course fulfills the science core curriculum requirement. (Fall, Spring)

Staff/Four credits

BIO 210 GENETICS
A brief survey of Mendelian and cytological genetics with most emphasis placed on recent advances in molecular genetics. Replication, translation, and transcription of the genetic material receive detailed study. Three lectures and one laboratory per week. Prerequisite: BIO 160 and a course in Biology or Chemistry. Should be taken before the Junior year. Lab Fee: $400.00 (Fall, Spring)

Crowley, Theroux/Four credits

BIO 220 INVERTEBRATE ZOOLOGY
A survey of invertebrate animals from protozoans through invertebrate chordates, emphasizing their functional organization, modes of reproduction, ecological roles, and evolutionary relationships. In the laboratory, we will examine representative living and preserved specimens, concentrating on their structure and behavior. Three lectures and one laboratory or field trip each week. Prerequisite: BIO 160 or equivalent. Lab Fee: $400.00. (Spring)

Staff/Four credits

BIO 230 PLANT BIOLOGY
This course provides an introduction to the biology of plants. Among the topics considered are the role of plants in the biosphere, plant form and function, and the evolution of plants. In the laboratory, students examine representatives of the major groups of plants and learn the fundamentals of plant tissue culture techniques in order to study plant growth and development. Field work includes trips to a variety of local habitats. Three lectures and one laboratory or field trip each week. Prerequisite: BIO 160 or equivalent. Lab Fee: $400.00. (Fall, even-numbered years)

Fučíková/Four credits

BIO 240 HUMAN ANATOMY
Anatomy is the study of the structure of organisms. In this course we will study human anatomy in four regions: (i) back, (ii) upper and lower limbs, (iii) thorax, abdomen and pelvis, and (iv) head and neck. We will focus on anatomy of the human body and emphasize how structure affects function. Major topics covered in each region include muscles, bones, blood vessels and nerves. This course will consist of three one-hour lectures and one three-hour laboratory each week. Prerequisite: BIO 160 or equivalent. Lab Fee $400 (Fall, Spring)

McCready/Four credits

BIO 250 MICROBIOLOGY
Microorganisms, especially bacteria and viruses, are studied with respect to their morphological characteristics, growth and metabolism, genetics and environmental significance. The role of microorganisms as pathogens and the control of microorganisms are also considered. Laboratory techniques include sterilization, isolation, and culturing. Three lectures and one laboratory per week. Prerequisite: BIO 210, or declared nursing major and completion of BIO 160 and BIO 105. Lab Fee: $400.00. (Fall, Spring)

Dugan/Four credits
BIO 260 BIOINFORMATICS
Bioinformatics is the umbrella term for a wide range of methods and tools used to analyze large and complex biological data sets, especially DNA and RNA sequence data. This course introduces students to broadly applicable bioinformatic methods. Students will learn to access and use information from public databases, align homologous sequences, construct and interpret phylogenetic trees, and extract information from genomes using a variety of computational tools, including the use of basic command line interface. Relevant primary literature will be analyzed and discussed. The laboratory portion of the course is dedicated to practice with the analysis tools introduced in lectures, and to student projects. Students will work in groups to explore real data sets, select and apply suitable bioinformatic methods, interpret analysis results in the context of published works, and present their findings to the class. This course counts as an elective towards the Biology, Biotechnology, and Data Analytics majors. Three lectures and one laboratory per week. Prerequisites: BIO 160 Concepts in Biology or CSC 120 Statistical Programming or permission of instructor. Lab Fee: $400.00 (Spring, even-numbered years)
Fučíková/Four credits

BIO 275 SPECIAL TOPICS IN BIOLOGY
This special topics course will explore an area of biology using the literature, and if appropriate, a cross-disciplinary approach. The course will allow the students and faculty an opportunity to investigate areas of biology that are not part of the regular curriculum. Staff/Three credits

BIO 280 SENSORY SYSTEMS
Sensory Systems provides an understanding of how organisms see, hear, smell, taste, and feel sensations. In this course, we discuss the physiological and cellular mechanisms that allow organisms to receive sensory information. We introduce reflex pathways in organisms with complex nervous systems, and then compare these to how organisms with reduced nervous systems carry out stereotyped behavior. These simpler examples of sensory processing and behavior provide a foundation to understand how information is processed by the early stages of central nervous systems for more complex behavior. Our focus is on the mechanisms and sensory pathways the nervous system uses to process sensory information and control movement. Using comparative animal model systems, topics include sensory transduction and the sensory physiology for the best known sensory systems (olfactory, visual, somatosensory, auditory, gustatory) and models of sensory processing. We also ask: what can we learn from animals with senses that primates are currently not known to have, such as magnetic and electric senses? These are currently active areas of animal research. Prerequisites: BIO 160 Concepts in Biology and a 4-credit course in biological or physical science OR BIO 160 Concepts in Biology and PSY 225 Research Methods and PSY 251 Introduction to Brain and Behavior OR BIO 160 Concepts in Biology and PSY 225 Research Methods and PSY 250 Perception. Fee: $400.00. (Fall)
Cromarty, Lessios/Four credits

BIO 291 INTERNSHIP IN BIOLOGY
Directed study within an internship program. The student will be expected to keep a journal detailing the internship. The student will also be expected to write a paper, usually approximately 10 pages in length, summarizing an area related to the internship experience. An evaluation by the on-site supervisor will be considered when determining the grade. The student will be required to have a G.P.A. of 3.0 to enroll.
Staff/Three credits

BIO 310 ANIMAL BEHAVIOR
This course will initially approach the study of animal behavior from the physiological perspective: the neural basis of behavior (the nervous circuits responsible for sensory input and integration and motor output) will be studied in some detail. Subsequently, the emphasis will shift to the contribution of ecological, developmental, and evolutionary forces to shaping the ultimate behavior output. Three lectures and one three-hour laboratory each week. Lab fee $400.00. Prerequisite: BIO 220 or BIO 240 or BIO280.
(Fall)
Cromarty/Four credits

BIO 320 ORGANIC EVOLUTION
This course is an introduction to genetic changes in populations over time and to the models and evidence we use to identify and explain those changes. Topics include: influence of the environment, genotype-phenotype connections, Hardy-Weinberg equilibrium, genetic variation, genetic drift, in-breeding, natural selection, gene flow, speciation, phylogeny, macro-evolutionary trends, and the fossil record. Prerequisite: BIO 210. (Spring)

Staff/Three credits

**BIO 340  MOLECULAR AND CELLULAR BIOLOGY**

This course focuses on the structure and function of the eukaryotic cell. The role of cellular membranes in basic physiological processes is discussed in detail. The physiological roles of the extracellular matrix, the cytoskeleton, and various subcellular structures are also addressed. Finally, the student will be introduced to the processes that govern cellular division and cellular evolution. When possible, the course topics are related to the development of various human maladies, such as cancer and AIDS. The laboratory exposes the students to several classical techniques used in cell biology and to a number of modern methods used by protein chemists and molecular biologists. Prerequisite: BIO 210 or permission of the instructor. Lab Fee: $400.00. (Spring)

Crowley, McCready/Four credits

**BIO 350  MARINE MAMMALS: BIOLOGY AND CONSERVATION**

This course is designed to familiarize students with the biology and natural history of marine mammals. Emphasis is placed on whales, dolphins, and seals of the western North Atlantic, but species from all over the world will be discussed. Topics to be considered include evolution, anatomy, behavior, field identification, the history of whaling, and contemporary conservation problems. Hands-on activities include one evening laboratory work (harbor porpoise or seal dissection) and marine mammal survey on Massachusetts Bay. Prerequisites: BIO 160 and two additional biology course. (Fall)

Marine Studies Consortium/Three credits

**BIO 360  ECOLOGY**

In this course, students interpret published data, critique some original papers, and participate in class discussion on the following topics: limits on species distributions, demography, population growth and regulation, interactions of species, energy flow, nutrient cycling, community dynamics, succession, and patterns of species diversity. In laboratory, students participate in class exercises, and design, perform, and report their own group field projects. Three lectures and one three-hour laboratory per week. Lab Fee: $400.00. Prerequisite: Two Biology courses or permission of instructor. (Fall, odd-numbered years)

Staff/Four credits

**BIO 370  GENERAL PHYSIOLOGY**

Human and animal physiology, with a comparative approach to the study of muscle contraction; blood circulation and respiration; metabolic and temperature controls; digestion and excretion; and nervous, sensory, and endocrine functions. The laboratory exercises focus on the investigation of basic concepts of animal and human physiology at the cellular and systems levels. Three lectures and one three-hour laboratory period each week. Lab Fee: $400.00. Prerequisites: BIO 240 and (CHE102 or CHE132). (Fall, Spring)

Cromarty, Lemons, Lessios/Four credits

**BIO 375  MILESTONES IN NEUROSCIENCE**

Using a critical examination of the primary literature as a tool, this course explores landmark advances within the field of neuroscience. Students gain a deeper understanding of neurobiological themes such as neurophysiology, neuroplasticity, neural development and communication between select model animal systems. Classic articles that are foundational to the field of neuroscience are thoroughly dissected to gain an historical appreciation of advances in the field. These are contrasted with recent articles to appreciate the advances in neuroscience research techniques. By contrasting major historical advances with more recent work, students weigh the implications of these findings at the time of publication and learn to critically assess the significance of recent findings. Students gain a deeper understanding of highlighted milestone advances in neurobiology. Prerequisites: BIO 340 Cellular and Molecular Biology or BIO 370 General Physiology or BIO 280 Sensory Systems. (Spring)

Lessios/Three credits
BIO 380  THE BIOLOGY OF CANCER
This course will explore the biology of cancer. Beginning with an examination of the personal, social and economic consequences of this disease, it will move to a focus on the cellular and molecular biology of cancer. Specially, it will study the nature of cancer, the role of viruses in cancer, cellular oncogenes, cellular signaling mechanisms, tumor suppressor genes, and the maintenance of genomic integrity. Other topics to be examined include: the cell cycle, apoptosis, cellular immortalization, tumorigenesis, angiogenesis and metastasis. Finally, this course will examine how modern molecular medicine is being used to treat cancer. Prerequisites: BIO 160, BIO 210, BIO 340. (Fall) Theroux/Three credits.

BIO 390  EXERCISE PHYSIOLOGY
This advanced course is designed to provide students with applied knowledge relative to the human’s physiologic responses to acute and chronic exercise stress. Students’ basic knowledge of neuromuscular physiology, energy metabolism, cardiovascular and respiratory physiology will be honed to focus on human exercise response, with the focus of the course being on applications to exercise training and programming, sport, nutrition, youth, aging, and disease. Laboratory exercises will enable practical skills to be gained in measuring and testing for physiological markers of human readiness and response to exercise. Lab Fee: $400.00. Prerequisites: BIO 240 and BIO 370. (Fall) Staff/Four credit

BIO 410  INTRODUCTORY IMMUNOLOGY
The focus of this course is the biology of the immune response. Topics include immunoglobulin structure, the generation of antibody diversity, and the cellular basis of the immune response. Disorders of the immune system, such as allergies, autoimmune diseases, and AIDS are also considered. In the laboratory, students learn tissue culture and such immunologic techniques as SDS gel electrophoresis; Western blotting; ELISA fluorescent antibody staining; isolation and study of B cells, T cells and macrophages; mixed lymphocyte reactions; and hemolytic plaque assays. Three lectures and one laboratory per week. Lab Fee: $400.00. Prerequisites: BIO 340, CHE 131–132. (Spring, even-numbered years) Dugan/Four credits

BIO 415  PRINCIPLES OF NEUROSCIENCE
This course introduces students to the rapidly growing field of neuroscience, which is the study of the nervous system. Our nervous system shapes our every thought, emotion and sensation. Students will gain an understanding of the underlying neural basis of how we perceive the world. This course begins with an anatomical approach and then integrates physiological, cellular, molecular and functional approaches. Topics range from how cells in the brain communicate with one another, to current diagnostic and research technology, to the biological basis of movement, and includes the study of disease and injury to the brain, such as Alzheimer’s disease, Parkinson’s disease and stroke. Three lectures and one three-hour laboratory each week. Lab Fee $400. Prerequisites: BIO 370 or BIO 340 or BIO 310 or BIO 375 or permission of the instructor. (Fall) Lemons/Four credits

BIO 420  DEVELOPMENTAL BIOLOGY
This course covers the principles and concepts of growth, morphogenesis, and differentiation in developing animals. We will discuss the major features of embryonic development from fertilization through organogenesis. Particular attention is given to how the regulation of specific genes contributes to development of an embryo. The lab will allow the student to explore techniques used by developmental biologists. Students will also have the opportunity to develop an independent project. Prerequisite BIO 340 or permission of the instructor. Fee: $400.00. (Spring, odd-numbered years) Lemons/Four credits

BIO 430  COMPARATIVE PHYSIOLOGY
This course combines a brief review of fundamental principles of animal physiology with an in-depth discussion of how these principles are modified and shaped by environmental and ecological pressures. The functional significance of physiological adaptation to an animal’s environment is emphasized by describing various mechanisms of regulation of physiological variables
(temperature, metabolism, oxygen consumption, water retention, circadian rhythms) in extremely different environmental conditions. Three lectures and one three-hour laboratory each week. Prerequisite: BIO 370 or permission of instructor. Lab fee: $400.00. (Fall, alternate years)
Cromarty/Four credits

**BIO 440**  **BIOTECHNOLOGY IN THEORY AND PRACTICE**
This course integrates the disciplines of cellular biology, molecular biology, and protein chemistry through a series of related experiments. The course will expose students to: 1) recent journal articles within the scientific literature; 2) selected methods, techniques, and instruments used in biotechnology; and 3) strategies that can be employed to solve interesting biological problems. The laboratory experience will introduce the student to DNA amplification by the polymerase chain reaction; oligonucleotide-directed site specific mutagenesis; gel electrophoresis; isolation of protein, DNA and RNA; gene cloning; DNA sequencing; cell culture; gene expression in mammalian cell lines; and Southern hybridization analysis. Class meets six hours per week for lecture, laboratory, and discussion. Lab Fee: $400.00. Prerequisites: CHE 202 and BIO 340. (Spring)
Theroux/Four credits

**BIO 480**  **SEMINAR IN LIFE SCIENCES**
An overview of a defined scientific topic (such as the process of cell division) will be presented, and then recently published articles on this topic will be discussed in detail. As part of the course requirements, each student will be asked to present one or more assigned journal articles to the class. The course is designed to increase the student’s knowledge of an active area of scientific inquiry and to enhance the student’s reading, data analysis, and oral presentation skills. Prerequisites: Seniors or second semester juniors who have completed BIO 160 and five additional biology and chemistry courses, and permission of instructor.
Staff/Three credits

**BIO 490–491**  **INDEPENDENT STUDY**
Directed study or experimental research. Prerequisites: Six courses in Biology and consent of instructor. The student is expected to have a G.P.A. of 3.0 to enroll. (Offered by arrangement)
Staff/Three credits each semester

**CHEMISTRY (CHE)**

**CHE 105**  **EVERYDAY CHEMISTRY**
This course is designed for non-majors to better understand the chemistry that they interact with in their everyday lives. Even though chemistry has a constant and ubiquitous impact on our lives, most people are unaware of the science behind the products that they use every day. Emphasis will be on the connection between fundamental chemical properties and concepts and the student’s everyday lives. Topics will be organized around the chemistry seen in different household areas such as the kitchen, bathroom, laundry room, and garage. Two or three integrated lecture-laboratory sessions per week. Lab fee: $200. This course fulfills the science core curriculum requirement. (Spring)
Hauri/Three credits

**CHE 131–132**  **GENERAL CHEMISTRY I AND II**
Fundamental principles of chemistry. Topics covered in CHE 131 include: matter and measurement, atomic and electronic structure, stoichiometry, gases, bonding, and solutions. In CHE 132: chemical equilibria (gases, solubility), acids and bases, electrochemistry, thermochemistry, nuclear and coordination chemistry. Emphasis is placed on problem solving. Laboratory work includes Qualitative Analysis. CHE 131 is a prerequisite for CHE 132. Intended science majors should take this series in their first year. Lab Fee: $400.00 each semester. This course fulfills the science core curriculum requirement. (Part I, Fall; Part II, Spring.) Pre-requisite: MAT 114 is a prerequisite for CHE132.
Hauri, Knurr, Marcotte, Niece /Four credits each semester

**CHE 201–202**  **ORGANIC CHEMISTRY I AND II**
The chemistry of organic compounds (the compounds of carbon) is studied. The topics include covalent bonding, molecular structure, and resonance; constitutional, geometric, and optical isomerism; the reactions of organic compounds through their functional groups; the nucleophilic, electrophilic, and free radical reaction mechanisms; and spectroscopy. These theoretical and practical principles are applied to the solution of such organic chemical problems as structure determination, chemical synthesis of desired molecules, the effect of structure on properties, and the biological roles of organic molecules. This full-year course meets the needs of students who expect to pursue graduate studies in natural sciences and also of those who plan to enter professional schools. Prerequisite: CHE 131–132. Lab Fee: $400.00 each semester. (Fall, Spring)
Colby Davie, Dix/Four credits each semester

CHE 275  SPECIAL TOPICS IN CHEMISTRY
This special topics course will explore an area of chemistry using the literature, and if appropriate, a cross-disciplinary approach. The course will allow the students and faculty an opportunity to investigate areas of chemistry that are not part of the regular curriculum.
Staff/Three credits

CHE 291  INTERNSHIP IN CHEMISTRY
Directed study within an internship program. The student will be expected to keep a journal detailing the internship. The student will also be expected to write a paper (usually approximately 10 pages in length) summarizing an area related to the internship experience. An evaluation by the on-site supervisor will be considered when determining the grade. The student will be required to have a G.P.A. of 3.0 to enroll.

CHE 311–312  PHYSICAL CHEMISTRY I AND II
An intensive study of the structure and interconversions of matter in its several states. Intra- and inter-molecular forces, thermodynamics, equilibria, electrochemistry, kinetics, and statistical and quantum mechanics are considered. Prerequisites: CHE 201–202, PHY 201–202 (may be concurrent with permission of instructor), MAT 117–118 or MAT 131–132 or permission of the instructor. Lab Fee: $400.00 per semester. (Fall, Spring)
Knurr/Four credits each semester

CHE 315  ANALYTICAL CHEMISTRY
A study of the major methods of chemical analysis, including statistics in evaluating the error associated with measurements, the systematic treatment of acid-base equilibria, introductory electrochemistry and spectrophotometry, and the theory of separations (chromatography). Three lectures and one three-hour laboratory per week. Prerequisite: CHE 201–202. Lab Fee: $400.00. (Fall, odd-numbered years)
Niece/Four credits

CHE 316  INORGANIC CHEMISTRY
A study of the structure and properties of the elements and their compounds. Topics covered are atomic structure, periodic relationships, molecular bonding, acid-base systems, and coordination compounds. Laboratory work focuses on the interaction between experiment and theory in understanding and predicting chemical phenomena. Three lectures and one laboratory period per week. Prerequisite: CHE 201–202. Lab fee: $400.00. (Fall, even-numbered years)
Niece/Four credits

CHE 318  ENVIRONMENTAL CHEMISTRY
A specialized knowledge of chemistry is needed in order to identify, understand, and solve environmental problems. This course will be an in depth study of the chemistry of environmental issues and pollutants. Students will learn the mechanisms of important chemical reactions, as well as relevant analytical techniques related to environmental chemistry. In the lab, students will combine field work, analytical chemistry, and remediation techniques during their investigation of environmental problems. Prerequisites: CHE 131–132, CHE 201–202. Lab Fee: $400.00. (Spring, odd-numbered years)
Hauri/Four credits
CHE 414    BIOCHEMISTRY
The major classes of biochemicals, carbohydrates, proteins, lipids, and nucleic acids are studied with particular attention to the relationship between their chemical structures and biological functions. Specific topics include (but are not limited to) biocatalysis, receptors, membrane structure, metabolism, biosynthesis, and energy production. Prerequisite: CHE 201–202 and BIO 160. Lab Fee: $400.00. (Fall, Spring)
Marcotte, Schandel/Four credits

CHE 416    MOLECULAR STRUCTURE AND CHARACTERIZATION
A detailed study of current chemical bonding theories and characterization techniques. Topics covered include molecular symmetry, molecular orbital theory, and computer molecular modeling. Molecular characterization with electronic, vibrational, and nuclear magnetic resonance spectroscopies is addressed. Laboratory work includes molecular modeling, NMR, UV/Visible, and IR Spectroscopy. Three lectures and one laboratory period per week. Prerequisites: CHE312 (can be concurrent with instructor’s permission, CHE316. Lab Fee: $400.00 (Spring, odd-numbered years)
Niece/Four credits

CHE 450    INSTRUMENTAL CHEMISTRY
The study of the theory of instrumental methods of analysis and their application in the laboratory. Topics include computers in data collection and management, UV-vis, IR, AA, fluorimetry, and electrochemical methods. In addition, NMR and mass spectrometry are covered in the lecture. Two lectures and one laboratory period per week. Prerequisite: CHE 202 or permission. Lab Fee: $400.00. (Spring, even-numbered years)
Niece/Four credits

CHE 460    MEDICINAL CHEMISTRY
Natural and synthetic medicines are investigated with attention to their fate in a living organism: absorption, distribution, and elimination; dose-response and time-response relationships of drugs; and the relationship between chemical structure and biological activity. The biochemistry of several diseases (probably including AIDS) will be examined to learn different ways that chemicals can be used to interfere with the course of a disease. Prerequisite: CHE 201–202 and BIO 160. (Spring, even-numbered years)
Dix/Three credits

CHE 470    ADVANCED ORGANIC CHEMISTRY
An advanced course surveying modern organic chemistry. Topics include synthetic methods, mechanistic analysis, isotope effects, pericyclic and photochemical reactions, and electron transfer. Several case studies will be used to illustrate these topics. Three lectures per week. Prerequisites: CHE 201–202 and CHE 311 or CHE 313. (Spring, odd-numbered years)
Colby Davie/Three credits

CHE 480    SEMINAR IN CHEMISTRY
The student researches specified areas of Chemistry under the guidance of faculty members for oral presentation and defense before the class. Written papers are submitted for final review. Offered upon sufficient demand. Prerequisites: six courses in Physics and Chemistry.
Staff/Three credits

CHE 491–492    INDEPENDENT STUDY
Directed study and research in some aspect of chemistry. Open to students who have a minimum GPA of 3.0 and at least six courses in chemistry or other science. Offered by arrangement with a faculty member. (Fall, Spring)
Staff/Three credits each semester
ENVIRONMENTAL SCIENCE (ENV)

ENV 150  INTRODUCTION TO ENVIRONMENTAL SCIENCE
The interdisciplinary nature of environmental science will be stressed by covering the chemical, biological, and social aspects of environmental issues and problems in a case study approach. The lab will expose the students to both field and lab work associated with applied environmental work. Three lectures and one three-hour laboratory per week. Lab Fee: $400.00. Required for all Environmental Science majors. This course fulfills the science core curriculum requirement. (Fall)
Hauri/Four credits

ENV 260  WATER RESOURCES PLANNING AND MANAGEMENT
This is an interdisciplinary introduction to our most precious resources. Water has shaped our bodies, our planet, our history, our culture. How we manage it will shape our future. Because of increasing demand, waste, and pollution, we are depleting—and risk destroying—the limited supply of usable fresh water. This course will look at water through scientific, historical, and cultural viewpoints and survey contemporary water problems in all their dimensions—political, economic, and technological.
Marine Studies Consortium/Three credits

ENV 275  SPECIAL TOPICS IN ENVIRONMENTAL SCIENCE
This special topics course will explore an area of environmental science using the literature, and if appropriate, a cross-disciplinary approach. The course will allow the students and faculty an opportunity to investigate areas of environmental science that are not part of the regular curriculum.
Staff/Three credits

ENV 280  COASTAL ZONE MANAGEMENT
This course will introduce students to the coastal environment and its resources and uses; coastal zone issues resulting primarily from human activities; the framework established by the Federal Coastal Zone Management Act for collaborative planning and regulation of the U.S. coastal zone; the roles played by the federal, state, and local governments, advocacy groups, and private property owners; the design and achievements of these programs; and international applications of coastal management. Guest speakers and case studies (e.g., Boston Harbor project, nonpoint source plans, Cape Cod Commission) will be used to illustrate themes and the intricacies of public policy development.
Marine Studies Consortium/Three credits

ENV 291  INTERNSHIP IN ENVIRONMENTAL SCIENCE
Directed study within an internship program. The student will be expected to keep a journal detailing the internship. The student will also be expected to write a paper (usually approximately 10 pages in length) summarizing an area related to the internship experience. An evaluation by the on-site supervisor will be considered when determining the grade. The student is required to have a cumulative G.P.A. of 3.0 to enroll.

ENV 350  WETLANDS
Wetlands play a vital role in the hydrology and ecology of global landscapes. This course will consider several topics: the function of inland and coastal marshes, swamps, and bogs in water and nutrient cycles; the influence of wetlands on biodiversity, from microbes to vertebrates; the biological links between wetlands and human activities, such as agriculture, coastal development, and fisheries; and the legal framework for the protection and restoration of endangered wetlands. Prerequisites: CHE 132 and two Biology courses at the 200 level or higher. (Fall)
Marine Studies Consortium/Three credits

ENV 480  ENVIRONMENTAL SCIENCE SEMINAR
An in-depth study of a current topic in environmental science. This course will emphasize review and analysis of primary literature. Students will be expected to give oral presentations as part of the course requirements. Some example topics are global availability of drinking water in the 21st century, eutrophication, and environmental pollution control. Classes will meet for three
hours weekly. Prerequisites: Permission of instructor or six courses in environmental science or other science. (Spring, even-numbered years)
Hauri/Three credits

ENV 491–492 INDEPENDENT STUDY
Directed study or experimental research on some aspect of environmental science. Prerequisites: The student is expected to have a GPA of 3.0 and six courses in environmental science or other science. Offered by arrangement. (Fall, Spring)
Staff/Three credits

PHYSICS (PHY)

PHY 201 GENERAL PHYSICS I
This course explores mechanics and heat. Three lectures and one laboratory period. Prerequisite: MAT 114 or Calculus (may be concurrent). Lab Fee: $400.00 per semester. This course fulfills the science core curriculum requirement. (Fall)
Georgiev, Herd/Four credits each semester

PHY 202 GENERAL PHYSICS II
This course explores sound, electricity, magnetism, and light. Three lectures and one laboratory period. Prerequisite: PHY 201 and MAT 114 Elementary Functions or MAT117 Calculus I (may be concurrent). Lab Fee: $400.00 per semester. This course fulfills the science core curriculum requirement. (Spring)
Georgiev, Herd/Four credits each semester

PHY 213 INTRODUCTION TO ENGINEERING PROBLEM SOLVING
This introductory course is designed to acquaint students with the variety of engineering disciplines, as well as provide students with the basics of the engineering mindset. The ability to develop and resolve solutions to applied problems is a necessary skill for a multitude of disciplines. The structure of the course emphasizes group projects and the use of computers to create models to solve problems. Prerequisite: MAT117/131 and MAT118/132 (can be taken concurrently). (Spring)
Staff/Three credits

PHY 275 APPLIED OPTICS
The course investigates the general methods and applications of optics within the natural sciences. We will consider the optics of waves, the electromagnetic nature of light, reflection and refraction, interference and diffraction, polarization and geometrical optics, and optical instruments widely used in the natural sciences. Lab Fee $400.00. Prerequisites: PHY 201, PHY 202 and MAT 114 or MAT117.
Georgiev/Three credits

PHY 301 MECHANICS I: STATICS
The goal will be to endow students with a fundamental understanding of the engineering mechanics of static objects and fluids. Students will emerge proficient in problem solving, application of physical mechanical principles and critical thinking skills. This will be the first course in a year-long sequence on engineering mechanics. Topics to be covered include: Vector Algebra/Calculus, Vector forces and moments in 2-D and 3-D systems, Equivalent systems of forces, Equilibrium of rigid bodies, Centroids, centers of gravity, and distributed forces, Trusses, frames, machines: two-force and multi-force members, Beams: internal forces, shear and bending moment diagrams, Dry friction, Wedges and screws, Moments of inertia, Fluid Statics, Virtual work mechanics essentials. Prerequisites: MAT118 or MAT 132 and PHY 202. (Fall, even-numbered years)
Staff/Three credits

PHY 302 MECHANICS II: DYNAMICS
This course is a 3 credits course, the second in a year-long sequence on engineering mechanics, the first being statics, a required sequence for most engineering tracks. Students will explore the fundamentals of physical-mechanical principles and apply them
to the dynamics of objects and fluids. Topics to be covered include: friction forces and spring forces, power, work, and energy, momenta, impulses, and collisions, dynamics of systems of particles, kinetics of a rigid body, fluids. This course is only offered in the spring, every other year. There is no lab requirement for this course. Prerequisites: MAT118 or MAT 132 and PHY 202. (Spring, odd-numbered years)
Staff/Three credits

PHY 480  SEMINAR IN PHYSICS
The student researches specified areas of physics under the guidance of faculty members for oral presentation and defense before the class. Written papers are submitted for final review. Offered upon sufficient demand. Prerequisites: Six courses in physics and chemistry. (Spring)
Staff/Three credits

PHY 491–492  INDEPENDENT STUDY
Directed study in an area of Physics. The course is open to students who have completed a minimum of six science courses and have a GPA of 3.0 or higher. Offered by arrangement. (Fall, Spring)
Staff/Three credits
Department of Education

Professors: Lisa A. D’ Souza; Associate Professors: Jessica A. de la Cruz, Nanho S. Vander Hart; Assistant Professors: Samantha E. Goldman, Cathleen K. Stutz (Chair); Professor of Practice: Elizabeth Walsh; Lecturers: Kelly Benestad (Field Placement Coordinator), Thomas Brindisi, Kathleen Dion, Casey Handfield, Christine McMahon, Brenda Plainte, Kathleen Scibelli, Karen Weilbrenner (Licensure Program Coordinator).

MISSION STATEMENT
The Department of Education at Assumption University prepares its students to teach effectively in a safe classroom environment. The department also strives to educate its students to exemplify good character and integrity in their professional lives.

LEARNING GOALS OF THE MAJOR IN EDUCATION
By the conclusion of their studies in the Education major, Assumption University students will demonstrate:

- conceptually sound lesson planning derived from research-based methods
- effective instructional strategies to meet the needs of all students
- competent subject matter knowledge
- the ability to improve practice based upon self-evaluation of teaching
- a commitment to professional obligations and responsibilities.

PROGRAM INFORMATION
To achieve excellence in teacher preparation, Assumption programs emphasize liberal arts and science study; an array of pre-professional courses; and guided field experience and supervised teaching practice [practicum] in area schools. This combination provides a mutually reinforcing program of study designed to prepare teachers who are knowledgeable, competent, and reflective. It is important to note that Education majors carry an extensive program which, in rare instances, may extend beyond the usual eight-semester time frame.

Assumption University offers the following state approved teacher preparation programs for the Massachusetts Initial license in the following areas:

- Elementary [grades 1–6]
- Biology [grades 8–12]
- Chemistry [grades 8–12]
- English [grades 5–12]
- General Science [grades 5–8]
- History [grades 5–12]
- Mathematics [grades 5–8 or 8–12]
- Spanish [grades 5–12]
- Special Education

For undergraduate students interested in Special Education, the Education Department offers a special, five-year program enabling a student to complete both a Bachelor of Arts degree in a liberal arts or science and the Master of Arts degree in Special Education. Students who successfully complete the program will be eligible for a Massachusetts Initial license as an elementary, middle, or secondary teacher as well as a Massachusetts Initial license as a Teacher of Students with Moderate Disabilities [grades PreK-8 or 5–12].
ADVISING AND BECOMING AN EDUCATION MAJOR

It is recommended that students meet with the Licensure Program Coordinator (LPC), Karen Weilbrenner, in the Education Department as early as their first year, if they have any interest in teacher licensure. After a student meets with the LPC, their name is placed on the PRE-EDU major list which is sent to the Registrar’s Office. Students begin by taking Stage 1 courses, which are open to all undergraduate students, but preference is given to PRE-EDU majors.

Students must meet with the LPC each semester for advising about course selection, program requirements, and their progress in the Education major. Students who intend a semester in off-campus study must also meet with the LPC to ensure that all program requirements will be met.

Students interested in teacher licensure apply to the Education major during their sophomore year. Once accepted into the Education major (Stage 2), students subsequently declare their major in elementary (1–6), middle (5–8), middle/secondary (5–12), or secondary (8–12) education. Students who successfully apply to the Education major are permitted to take Stage 2 courses within their respective chosen licensure option. The Stage 3 courses, Practicum and Seminar, are open only to Education majors who have met the retention criteria described below. Should a student successfully complete the Education major requirements (per the respective Education curricula and per the retention criteria) and the University Degree requirements, the student may be eligible to apply for a Massachusetts Teacher License following completion of the degree.

In the event that a student who is majoring in Education fails to satisfy one or more parameters of the retention criteria or who for various reasons decides not to teach, the student will no longer be permitted to take Stage 2 or Stage 3 courses and will be removed from the Education major.

Individuals who complete approved programs under the Education major are eligible for licensure reciprocity with the approximately 45 other states that are parties to the National Association of State Directors of Teacher Education and Certification (NASDTEC) Interstate Agreement.

Note: Assumption University responds to the Commonwealth of Massachusetts Department of Elementary and Secondary Education in matters of teacher licensure. The University reserves the right to modify its major in Education programs accordingly. All Assumption students are alerted to changes in the education program as is appropriate.

POLICIES AND PROCEDURES FOR APPLYING TO THE EDUCATION MAJOR

Students interested in the major in Education are invited to an informational meeting held in the fall semester and are prompted to set up a meeting with the LPC. At this meeting, they are informed about relevant program requirements, department policies regarding acceptance and retention in the program, and Massachusetts licensure regulations for teachers at the elementary, middle, and secondary levels. Students receive an advising sheet that list the required courses needed for the specific undergraduate program of study that leads to Initial licensure.

Because of the demands of the licensure programs, students should meet with the LPC for advising as early in their university studies as possible. Each semester, students will have a mandatory meeting with the LPC. During these meetings, the LPC will review student’s academic record and progress in the program. The LPC will explain the application process during the first semester of their sophomore year. Students are responsible for completing all of the requirements for the Education major application and submitting them to the Licensure Program Coordinator by April 30th of the sophomore year. A student’s application will not be reviewed if the Education Major File requirements are incomplete.

1. Completed Assumption University Education Program Application
2. Signed acknowledgement of understanding the Assumption University Education Major Policy Overview
3. Completed Worcester Public School CORI form
4. Completed Wachusett Regional School District CORI form
5. Copy of driver’s license (or a government issued photographic identification)
6. Proof of completing the SAFIS fingerprinting process
7. Completed Safe Environment Training Certificate

CRITERIA FOR ADMISSION
Admission to the Education major for all students, including transfer students, is based upon the following criteria: students must have an cumulative GPA of 2.8 to be accepted into the major, allowing enrollment in Stage 2 courses. Students must also show evidence of a time commitment to their personal goals and to professional excellence. All full-time education faculty members review the student applications for admission to the major in Education. Applicants are informed of their status by July 1st. Students wishing to pursue certain Stage 2 and Stage 3 courses (pre-practicum and practica) must maintain the retention criteria described below.

CRITERIA FOR RETENTION
Students accepted into the program are held to the same standards required for admission. Additionally, students are expected to demonstrate exemplary behavior and maintain a strong record in the professional sequence of study to continue in the Education major. Students who do not satisfy one or more of the above criteria may not be permitted to enroll in one or more pre-practicum courses during Stage 2 of the major. Because a strong record in the professional sequence of studies is required, students in the Education major must take each Education course for a letter grade with the exception of pre-practicum. To remain in the program, and be eligible for the practicum, all Education Majors must:

- pass the Communication and Literacy Skills tests of the Massachusetts Tests for Educator Licensure (MTEL) by June 1st of their sophomore year.
- provide official evidence of taking the required subject matter knowledge MTEL by the 1st day of class senior year.
- provide official evidence of passing all required subject matter knowledge MTEL by December 13th of their senior year to be eligible to enroll in the practicum during the spring semester of their senior year (Stage 3).
- have at least a 3.0 GPA in the Education Major.
- **middle/secondary education majors need to have at least a 3.0 GPA in their content major.**

TEACHER LICENSURE AREAS

- **Elementary, grades 1-6:** Teacher candidates must choose a content major in biology, chemistry, English, environmental science, history, mathematics or Spanish
- **Middle, grades 5-8:** Teacher candidates must choose a content major in general science, mathematics
- **Middle/Secondary, grades 5-12:** Teacher candidates must choose a content major in English, history, Spanish
- **Secondary, grades 8-12:** Teacher candidates must choose a content major in biology, chemistry, mathematics

Below are the curricular requirements that pertain to each of the licensure options. Students interested in one of the options should plan accordingly when selecting courses of study as early as the Stage 1 courses (prior to applying to the major).

ELEMENTARY GRADES 1-6, TEACHER LICENSURE
Students planning to seek licensure as elementary teachers (1–6) should meet with the Licensure Program Coordinator during their first-year for program advising and declare their intent to apply by the fall of the sophomore year. Students must apply to the major during their sophomore year. Part of the application includes meeting with the Licensure Program Coordinator. Prior to formal admission into the major, students may enroll in introductory Education courses (Stage 1) during the first year and sophomore year.

Regular and careful advising is crucial for those students seeking an Elementary teaching license. Once admitted to the major, students must meet with the Licensure Program Coordinator each semester for advising about course selection, program requirements, and their progress in the Education major. Students who intend a semester in off-campus study must also meet with the Licensure Program Coordinator to ensure that all program requirements will be met. Because Massachusetts licensure requirements stipulate competency in a breadth of liberal arts subject knowledge per State Regulations, the Education
Department may require students to take additional liberal arts subject courses in addition to those stipulated within the Elementary requirements given below and Assumption’s General Education Core.

Students wishing to pursue the Elementary Education Major must complete the following REQUIRED COURSES and must obtain a concurrent major in one of the following core academic disciplines: English, Spanish, history, math or science, following the Elementary Education Track within that discipline (where indicated), as listed in the Academic Catalog and Advising Guide.

STEM CONCENTRATION FOR ELEMENTARY EDUCATION MAJORS

Students interested in deepening their content and pedagogical knowledge of science, technology, and mathematics beyond the elementary education major are encouraged to consider concentrating in Elementary STEM. Students completing this program will equip themselves with specific knowledge of the STEM subjects they will teach as elementary school teachers, as well as the capability to spark the interest and ability of future STEM students.

Required Courses for the Concentration in Elementary STEM (6)

- BIO 140 Inquiry Biology for Educators
- MAT 150 Numbers and Operations for Educators
- MAT 151 Algebra, Geometry, and Data Analysis for Educators
- EDU 221 Science in the Elementary Curriculum
- EDU 222 Technology Integration Across the Curriculum
- EDU 324 Mathematics in the Elementary Curriculum

MIDDLE/SECONDARY: SUBJECT-SPECIFIC TEACHER LICENSURE (5-8, 5-12, 8-12)

Assumption University currently offers state-approved programs in the following fields and at the following levels:

- biology (8-12)
- chemistry (8-12)
- English (5-12)
- general science (5-8)
- history (5-12)
- mathematics (5-8; 8-12)
- Spanish (5-12)

Students planning to seek licensure as a subject-specific middle/secondary teacher should meet with the Licensure Program Coordinator during their first-year for program advising and declare their intent to apply by the fall of the sophomore year. Students must apply to the major during their sophomore year. Part of the application includes meeting with the Licensure Program Coordinator. Prior to formal admission into the major, students may enroll in introductory Education courses (Stage 1) during the first year and sophomore year.

Students wishing to pursue the Middle/Secondary Education major must complete the following REQUIRED COURSES and must also complete a major of study in their chosen academic discipline: biology, chemistry, English, history, mathematics, or Spanish, as listed in the Academic Catalog and Advising Guide.

**MINOR IN EDUCATION (6)**

A minor in education is a good option for those students interested in studying the broader social and foundational dimensions of education, without the requirements for teacher licensure. A minor in Education is available in consultation with the Licensure Program Coordinator. The student who declares the minor in education must take a total of six courses (18 credits) in education and related disciplines. The following four courses are required in addition to two elective courses selected in consultation with the Licensure Program Coordinator and approved by the Education Department Chairperson.

**REQUIRED COURSES (4)**

EDU 101 Teachers and Teaching in American Schools  
EDU 260 Teaching Students with Special Needs
One of the following sets of courses:

EDU 120 Teaching and Learning in the Elementary School

AND

PSY 290 Psychology of Development: Infancy and Childhood

OR

EDU 140 Teaching and Learning in Middle/ Secondary School

AND

PSY 281 Psychology of Adolescence and Maturity

ELECTIVES (2)

ABA 350: Applied Behavior Analysis: Evidence-based Interventions

ABA 450: Applied Behavior Analysis: Implications for Practice

BIO 140 – Inquiry Biology for Educators

EDU 265 – Effective Classroom Management

ENG 263 – Children’s Literature

HRS 119 – Introduction to Human Rehabilitation Services

HRS 121 – Human Development and Disability Across

MAT 150 – Numbers and Operations for Educators

MAT 151 – Algebra, Geometry and Data Analysis for Educators

PSY 290 or PSY 281 (if not used to satisfy an above requirement)

PSY 210 – Social Psychology

PSY 253 – Psychology of Learning

PSY 392 – Raising Happy and Successful Children

SOC 121 – Principles of Sociology

Note: No more than two psychology courses may be counted towards the minor in Education.

B.A./M.A. PROGRAM FIFTH YEAR OPTION FOR THE MASTER OF ARTS IN SPECIAL EDUCATION

The Education Department offers a five-year program that allows a student to complete requirements for both the Bachelor of Arts degree in a liberal arts or science and the Master of Arts in Special Education degree. The program leads to eligibility for the Massachusetts Initial License for Teacher of Students with Moderate Disabilities (PreK-8; 5–12) as well as a Massachusetts Initial license in one of Assumption’s approved programs offered at the undergraduate level. Undergraduate students who are admitted to the B.A./M.A. program must be eligible for Initial licensure as elementary, middle, or secondary teacher. If admitted to the program, they may begin taking graduate courses during the senior year and complete the master’s degree requirements in a fifth year of study at the University.

Undergraduate students who are considering applying to the B.A./M.A. program should consult with the Licensure Program Coordinator during the junior year to discuss eligibility and application procedures. Assumption students who are interested in enrolling in the Master of Arts in Special Education program after their undergraduate studies should consult with the Director of the Special Education program to plan a course of study. Interested students may request information about the Master of Arts in Special Education from the Office of the Graduate Admissions.

CRITERIA FOR EARLY ADMISSION TO THE MASTER OF ARTS IN SPECIAL EDUCATION

All undergraduate students who seek early admission to the Master of Arts in Special Education program must meet the following standards, and students in the Education Major are eligible and especially encouraged to apply.

- Candidates must have at least a 3.3 cumulative GPA and a 3.0 GPA in the major field of study;
• If they are not in the major in Education, candidates must have a major in one of the Core academic subjects of the liberal arts and sciences appropriate to Massachusetts teacher licensure at the 5–12 level.

To apply for early admission to the fifth-year program, candidates must submit the following to the Office of the Graduate Admissions, ordinarily by the end of the junior year:

• An official application form (fee waived for Assumption students);
• A transcript of undergraduate study;
• Three letters of recommendation;
• A current resume;
• A personal statement of interest.

Assumption students who seek a Massachusetts Initial license as elementary, middle, or secondary teacher and teacher of students with moderate disabilities must pass all of the Massachusetts Tests for Educator Licensure (MTEL) required for licensure in their specific field(s) prior to enrollment in the practicum.

Note: Assumption University responds to the Massachusetts Department of Elementary and Secondary Education in all matters of educator licensure and reserves the right to modify its programs in accordance with current state regulations. In the event that the graduate program is modified, students are notified of changes as is appropriate.

ASSUMPTION UNIVERSITY REPORT ON TEACHER PREPARATION FOR PROGRAM YEAR 2019-20

Title II of the Higher Education Act* requires institutions of higher education to disclose to the State and the general public the pass rate of the teacher preparation program completers on assessments required for teacher licensure, the statewide pass rate on those assessments, and other relevant information. The following details data that Assumption University submitted to the Massachusetts Department of Elementary and Secondary Education (DESE) in Spring 2021, for program year 2019-20. In academic year 2019-20, there were 70 students enrolled in the teacher preparation program, all specializations. There were 64 students who had supervised clinical experiences (excluding practicum). There were 29 students in student teaching [practicum] supervised by a total of 6 faculty members from the Education department, and additional faculty from liberal arts and sciences departments. The student teacher/faculty ratio was 5:1. The average number of supervised student teaching hours required per student per week was 30; the average number of weeks of supervised student teaching required was 12.5. The average total number of hours of supervised student teaching required was 372.

In program year 2019-20, Assumption University had 20 undergraduate program completers. The aggregate pass rate of the completers who took the Communication and Literacy Skills Test of the Massachusetts Tests for Educator Licensure (MTEL) during the reporting period was 100%. The University pass rate for the reading subtest of this basic skills test was 100% and for the writing subtest, 100%. Thirteen of 13 program completers passed the Foundations of Reading and the General Curriculum tests required for an Elementary Initial license resulting in an aggregate pass rate of 100%. Seven of 7 program completers passed required academic content tests required for English, history, mathematics, or Spanish Initial licensure.

In summary, Assumption University program completers passed the required Massachusetts Tests for Educator Licensure in 2019-20 with a pass rate of 100%.

* Title II of the Higher Education Act [Sections 207 (f) (1) and (f) (2)]

COURSE DESCRIPTIONS

EDU 101 TEACHERS AND TEACHING IN AMERICAN SCHOOLS
In this course, students will gain an understanding of the role of teachers and teaching in American society. Students will explore the lives and vocations of teachers through teacher narratives, as well as articles highlighting the choices, challenges, and satisfactions of teaching. Over the course of the semester, students will examine five themes: (1) School Structure, Governance,
and Purposes; (2) Curriculum; (3) Students, Families, and Community; (4) Building and Sustaining Positive School Cultures; (5) Teaching as a Vocation/Profession. Each theme will be developed through an examination of essential questions. EDU 101 is an introductory education course, satisfying one of the Core curriculum requirements for the social sciences. The course is open to any interested student. It also serves as a beginning course in the sequence of Education courses for those students intending to declare their Education major. As such, the course-content correlates with some of the Massachusetts Professional Standards for Teachers. (Fall, Spring)
D'Souza, Stutz, Staff/Three credits

EDU 120 TEACHING AND LEARNING IN THE ELEMENTARY SCHOOL
This course emphasizes the interrelated aspects of teaching and learning in an elementary school. Students examine the practices of effective elementary teachers and the purposes of the elementary school in educating children. Topics such as learning environments, the application of learning theories to instruction, and classroom management specific to students in elementary school are included. (Fall, Spring)
Walsh, Staff/Three credits

EDU 140 TEACHING AND LEARNING IN THE MIDDLE/SECONDARY SCHOOL
This course emphasizes the interrelated aspects of teaching and learning in middle/secondary school. Students examine the practices of effective teachers and the purposes of the middle/secondary school in educating adolescents. Topics such as learning environments, the application of learning theories to instruction, and classroom management specific to middle/secondary students are included. (Fall, Spring)
Stutz, Staff/Three credits

EDU 190 FACILITATING A MATHEMATICS ACADEMY II
This course is the second part of a 2-course sequence intended to prepare students to facilitate/lead the Assumption University Math Academy (AUMA) in Summer 2022. Students will select and refine activities, form instructor teams, establish team facilitation responsibilities, and finalize daily AUMA teaching plans. They will develop a theme for the AUMA program, select high school-level activities, and learn about how to facilitate groups of students in a collaborative team environment. This course will meet for 1-hour a week. Prerequisite: MAT 190 Facilitating a Math Academy I. (Spring)
de la Cruz/One credit

EDU 221 SCIENCE IN THE ELEMENTARY CURRICULUM
In this course, students draw from contemporary teaching and learning theories to design and implement effective science lessons and units for elementary school children. An emphasis will be placed on four domains, 1) identifying appropriate science content relative to grade level, 2) understanding the common misconceptions that children harbor about scientific topics, 3) developing inquiry-based lessons to foster children’s conceptual learning, and 4) identifying varied ways of assessing children’s learning. Significant attention throughout is given to understanding what it means to “do science” and how to help elementary children appreciate a scientific way of knowing about the world. Lesson design and teaching is aligned with the Massachusetts Science and Technology/Engineering Curriculum Framework. Prerequisite: EDU 101 (Fall, Spring)
Staff/Three credits

EDU 222 TECHNOLOGY INTEGRATION ACROSS THE CURRICULUM
This course examines methods for applying technological tools in teaching practices to enhance student learning and support teaching. The primary goal of the course is to provide an introduction to a variety of educational technology tools and their applications within the classroom, to emphasize criteria for evaluating the benefits and drawbacks of technological tools, and to develop the ability to design lessons that effectively integrate technology, not just for the sake of technology, but to solve a problem (e.g. difficulties with engagement, classroom management, level of abstraction, productivity, assessment, meeting diverse needs). Prerequisites: Education majors only. (Spring)
de la Cruz, Staff/Three credits
EDU 260 TEACHING STUDENTS WITH SPECIAL NEEDS
This course focuses on the various types of learning needs of students in the inclusive classroom and on what to do and how to do it with respect to instructional and management challenges facing the regular classroom teacher. This course addresses individual differences in children and adolescents and the need for modification of instruction across the curriculum. The course is designed to encourage proper understanding and acceptance of children and adolescents with exceptionalities. The course may include community service learning. Prerequisites: EDU 101 and either EDU 120 or EDU 140, or concurrently. Not open to first-year students. (Fall, Spring)
Vander Hart/Three credits

EDU 265 EFFECTIVE CLASSROOM MANAGEMENT
In order to maximize student achievement, teachers must be good classroom managers. This course will use positive behavior supports as a framework to introduce students to evidence-based classroom management techniques and strategies. Students will learn about theoretical and empirical support for behavioral approaches to teaching and learning and their application in school-wide, classroom, and non-classroom settings. In addition, students will understand a proactive, multi-tier level model of behavior support, including implementation strategies that they will be able to apply in their own classrooms regardless of student age or ability level. Prerequisites: EDU 101 and either EDU 120 or EDU 140, or concurrently. Not open to first-year students. (Fall, Spring)
Goldman/Three credits

EDU 302 TEACHING ENGLISH LANGUAGE LEARNERS
This course is designed to help students learn about the particular learning needs of English Language Learners and, in turn, to design content instruction for that audience. The course will develop participants’ knowledge of the context and academic landscape in which non-native English speakers learn in K-12 settings. Students will be introduced to the structural levels of language and to theories, principles, and processes of language acquisition, and they will begin to explore various pedagogical implications. Particular focus will also be given to reading of complex informational and literary texts, responding to text-based questions, writing from sources, and building academic vocabulary and background knowledge through discussion, reading, and writing. There is a field-based component to this course. Limited to Education Majors (Stage 2). Limited to Education majors who have satisfied all the retention criteria. Students must concurrently take the associated pre-practicum course EDU 302F or EDU 332F. This course fulfills the core requirement for a language. (Fall for elementary, Spring for middle/secondary)
Walsh/Three credits

EDU 302F PRE-PRACTICUM TEACHING ENGLISH LANGUAGE LEARNERS
This is a supervised, field-based component of EDU 302. Students spend 25 hours at the field site and complete pre-practicum tasks required. Students must be enrolled in EDU 302. (Fall/Spring)
Staff/One credit

EDU 323 HISTORY AND SOCIAL SCIENCE IN THE ELEMENTARY CURRICULUM
This course is designed to familiarize students with the history and social science curriculum at the elementary level; examine the theoretical and research bases for effective teaching and learning in the field of social studies, and apply this knowledge in the design, implementation, and evaluation of their own instructional efforts. Topics emphasize teaching about local, United States and world history, geography, economics, and government, as well as the fundamental citizenship mission of social studies. Students also examine the Massachusetts History and Social Science Curriculum Framework and use it as a guide for their lesson planning. Traditions, issues, and current curriculum concerns in social studies at the elementary level are explored as well. Limited to Education majors who have satisfied all the retention criteria. (Fall)
D’Souza/Three credits

EDU 324 MATHEMATICS IN THE ELEMENTARY CURRICULUM
This course examines the teaching and learning of mathematical concepts in the elementary classroom. As informed by the standards in the Massachusetts Mathematics Curriculum Framework, students will draw upon various learning theories to design and implement effective mathematics lessons that seek to promote children’s conceptual awareness of mathematics concepts. Particular attention is given to developing students’ understanding of the varied methods (e.g., algorithms, manipulatives,
problem-solving) of expressing conceptual understanding and the multiple ways of assessing children’s learning. There is a field-based component to this course. Prerequisite: MAT 150. Limited to Education majors who have satisfied all the retention criteria. Students must concurrently take the associated pre-practicum course EDU 324F. (Fall)

de la Cruz/Three credits

EDU 324F PRE-PRACTICUM: MATHEMATICS IN THE ELEMENTARY CURRICULUM
This is the supervised field-based component of EDU 324. Students spend at least 25 hours at the field site and complete pre-practicum tasks required. Students must be enrolled in EDU 324. (Fall)
Staff/One credit

EDU 325 LITERACY DEVELOPMENT AND INSTRUCTION
In this course, students study literacy from a developmental perspective, beginning with emergent literacy and progressing through the more advanced stages of reading and writing to learn in the middle/secondary grades. Students examine processes of reading and writing, as well as current models of and approaches to literacy instruction and assessment. This course prepares students to plan effective literacy instruction for all learners in accordance with standards-based curriculum. In particular, students use the Massachusetts English Language Arts Curriculum Framework as a guide for their own lesson preparation. There is a field-based component to this course. Limited to Education majors who have satisfied all the retention criteria. Students must concurrently take the associated pre-practicum course EDU 325F. (Spring)
Walsh/Three credits

EDU 325F PRE-PRACTICUM: LITERACY DEVELOPMENT AND INSTRUCTION
This is the supervised field-based component of EDU 325. Students spend at least 25 hours at the field site and complete pre-practicum tasks required. Students must be enrolled in EDU 325. (Spring)
Staff/One credit

EDU 330 THE MIDDLE SCHOOL: CONCEPT AND CURRICULUM
This course is designed to provide prospective teachers with historical perspective on the concept of the middle school along with information concerning current reforms and trends related to learning and the early adolescent. The class will also investigate curriculum, grouping practices, instructional strategies, and the design of interdisciplinary units for middle level learners. Prerequisite: PSY 281. Limited to Education majors who have satisfied all the retention criteria. Students must concurrently take the associated pre-practicum course EDU 330F or EDU 332F. (Spring)
D'Souza/Three credits

EDU 330F PRE-PRACTICUM: THE MIDDLE SCHOOL: CONCEPT AND CURRICULUM
This is the supervised field-based component of EDU 330. Students spend at least 25 hours at the field site and complete pre-practicum tasks required. Students must be enrolled in EDU 330. (Spring)
Staff/One credit

EDU 332F: PRE-PRACTICUM: INTEGRATED FIELD EXPERIENCES IN MIDDLE SCHOOL AND ENGLISH LANGUAGE LEARNERS (5-8)
This is a supervised field-based component of EDU302 and EDU330. Students spend at least 30 hours at the field site and complete required pre-practicum tasks. Students must be enrolled in EDU302 and EDU330 concurrently. (Spring)
Staff/One Credit

EDU 333F INTEGRATED FIELD EXPERIENCES IN SECONDARY EDUCATION (5-8; 8-12; 5-12)
This is a field-based course, designed to help secondary Education majors observe, analyze, practice, and reflect upon effective teaching. Students will complete a pre-practicum of 25 hours in a middle-high school, working closely with a teacher in their licensure field. Students will observe mentor teachers teaching adolescents, will teach three practice lessons, and will analyze their observations and practice in light of course readings on secondary instruction, classroom assessment, and student engagement. Students will draw from their field experiences as the evidence-based principles of instruction, assessment of student learning, and the social-emotional aspects of student learning. Limited to Education majors who have satisfied all the retention criteria. (Fall 2021, Fall 2023)
Staff/one credit

105
EDU 341 READING AND WRITING ACROSS THE CURRICULUM (5–12)
This course emphasizes the investigation of theory and research related to the processes of reading, writing, and responding to content area text in middle/secondary education. It addresses a variety of topics such as strategy development for reading and writing to learn, methods and materials, cultural influences, assessment and evaluation, and the roles of teachers and administrators. There is a focus throughout the course on linking theory and research to practice. Limited to Education majors who have satisfied all the retention criteria. Students must concurrently take the associated pre-practicum course EDU 341F. (Fall 2021, Fall 2023)
Staff/Three credits

EDU 341F PRE-PRACTICUM: READING AND WRITING ACROSS THE CURRICULUM (5–12)
This is the supervised field-based component of EDU 341. Students spend at least 25 hours at the field site and complete pre-practicum tasks required. Students must be enrolled in EDU 341. (Fall 2021, Fall 2023)
Staff/One credit

EDU 342 CURRICULUM AND METHODS IN ENGLISH (5–12)
The course is designed to help students examine the theoretical and research bases of the teaching of English and apply that knowledge in the design, implementation, and analysis of their English teaching. Topics include teaching about literature, reading, writing, and language use. Students also examine the Massachusetts English Language Arts Curriculum Framework and use it as a guide for their own lesson preparation. As the students work their way through these components, they also complete pre-practicum field work, observing and assisting an English teacher at a local middle or secondary school. There is a field-based component to this course. Limited to Education majors who have satisfied all the retention criteria. Students must concurrently take the associated pre-practicum course EDU 342F. (Fall 2022, Fall 2024)
Staff/Three credits

EDU 342F PRE-PRACTICUM: CURRICULUM AND METHODS IN ENGLISH (5–12)
This is the supervised field-based component of EDU 342. Students spend at least 25 hours at the field site and complete pre-practicum tasks required. Students must be enrolled in EDU 342. (Fall 2022, Fall 2024)
Staff/One credit

EDU 343 CURRICULUM AND METHODS IN FOREIGN LANGUAGES (5–12)
This course is designed to help students examine the languages, and apply that knowledge to the design and implementation of foreign language curricula. Topics include the evolution of foreign language pedagogy, theory of second-language acquisition, the role of grammar in contextualized instruction, understanding proficiency and the ACTFL guidelines, teaching for cultural understanding, the relationship between foreign languages and other areas of the curriculum, and state and national standards, including the Massachusetts Foreign Languages Curriculum Framework. There is a field-based component to this course. Limited to Education majors who have satisfied all the retention criteria. Students must concurrently take the associated pre-practicum course EDU 343F. (Fall 2022, Fall 2024)
Staff/Three credits

EDU 343F PRE-PRACTICUM: CURRICULUM AND METHODS IN FOREIGN LANGUAGES (5–12)
This is the supervised field-based component of EDU 343. Students spend at least 25 hours at the field site and complete pre-practicum tasks required. Students must be enrolled in EDU 343. (Fall 2022, Fall 2024)
Staff/One credit

EDU 344 CURRICULUM AND METHODS IN HISTORY AND SOCIAL SCIENCE (5–12)
This course is designed to help students become familiar with the history and social science curriculum at the middle/secondary level, examine the theoretical and research bases for effective teaching and learning in the field of social studies, and apply this knowledge in the design, implementation, and evaluation of their own instructional efforts. Topics emphasize teaching about local, United States and world history, geography, economics, and political science as well as the fundamental citizenship mission of social studies. Students also examine the Massachusetts History and Social Science Curriculum Framework and use it as a guide for their lesson preparation. Traditions, issues, and current curriculum concerns in social studies are explored as well. There is a
field-based component to this course. Limited to Education majors who have satisfied all the retention criteria. Students must concurrently take the associated pre-practicum course EDU 344F. (Fall 2020, Fall 2022, Fall 2024)

D'Souza/Three credits

EDU 344F PRE-PRACTICUM: CURRICULUM AND METHODS IN HISTORY AND SOCIAL SCIENCE (5–12)
This is the supervised field-based component of EDU 344. Students spend at least 25 hours at the field site and complete pre-practicum tasks required. Students must be enrolled in EDU 344. (Fall 2022, Fall 2024)
Staff/One credit

EDU 345 CURRICULUM AND METHODS IN MATHEMATICS (5–8; 8–12)
This course considers the teacher’s role and responsibilities in teaching mathematics at the middle/secondary level. Emphasis is placed on curriculum, instructional techniques, and materials for mathematics instruction in middle/secondary education in accordance with standards set by the National Council of Teachers of Mathematics (NCTM) and the Massachusetts Mathematics Curriculum Framework. The overall goal of this course is to prepare the student to teach middle/secondary level mathematics effectively. There is a field-based component to this course. Limited to Education majors who have satisfied all the retention criteria. Students must concurrently take the associated pre-practicum course EDU 345F. (Fall 2022, Fall 2024)
de la Cruz/Three credits

EDU 345F PRE-PRACTICUM: CURRICULUM AND METHODS IN MATHEMATICS (5–8; 8–12)
This is the supervised field-based component of EDU 345. Students spend at least 25 hours at the field site and complete pre-practicum tasks required. Students must be enrolled in EDU 345. (Fall 2022, Fall 2024)
Staff/One credit

EDU 346 CURRICULUM AND METHODS IN SCIENCE AND TECHNOLOGY (5–8; 8–12)
This course is designed to provide students with an understanding of the role and responsibilities of the middle/secondary teacher of science. Emphasis is placed on curriculum, instructional techniques, and materials for middle/secondary science instruction. Drawing on their knowledge of the developmental stages of the adolescent, students design, implement, and evaluate instructional material to develop effective science lessons. Topics emphasized include methods and materials for teaching science, assessment of learning, relationships among the different disciplines of science, and professional development. Students also examine the Massachusetts Science and Technology/Engineering Curriculum Framework and use it as a guide in lesson preparation. There is a field-based component to this course. Limited to Education majors who have satisfied all the retention criteria. Students must concurrently take the associated pre-practicum course EDU 346F. (Fall 2022, Fall 2024)
Staff/Three credits

EDU 346F PRE-PRACTICUM: CURRICULUM AND METHODS IN SCIENCE AND TECHNOLOGY (5–8; 8–12)
This is the supervised field-based component of EDU 346. Students spend at least 25 hours at the field site and complete pre-practicum tasks required. Students must be enrolled in EDU 346. (Fall 2022, Fall 2024)
Staff/One credit

EDU 399 SPECIAL TOPICS IN EDUCATION
This course addresses contemporary issues and instruction in PreK-12 education. It responds to specific interests designated by students, extensions of topics addressed in a general or discipline-specific education course (e.g., English, history, literacy, mathematics, science), or faculty research interests. Topics are selected based on timeliness, and relevance to elementary, middle, and/or secondary school education. The course allows students opportunities to investigate current PreK-12 issues and instruction in greater depth than is possible in existing courses within the discipline. A special topics course may have prerequisites.
Staff/Three credits

EDU 420 PRACTICUM IN ELEMENTARY EDUCATION
The student will perform practicum activities under the general direction of a program supervisor and under the immediate guidance of a supervising practitioner. The practicum student will spend full school days at the field site for the spring semester.
Practicum students follow the elementary school calendar during their practicum and therefore are expected to be at the elementary school each day it is in session, including those days when Assumption University classes may not be in session. Prior to the beginning of the practicum, practicum students may request approval to attend Assumption University sponsored events. Such requests must be made in writing and addressed to the Licensure Program Coordinator, and, if approved, the practicum student will extend his or her practicum placement beyond the typical ending date for the practicum. Limited to Elementary Education majors who have satisfied all retention criteria, including passing all required Massachusetts Tests for Educator Licensure (MTEL) by December 13 of the senior year. Students must concurrently take the associated 3-credit seminar, EDU 420S. Education Practicum Fee: $500 (Spring)

EDU 420S PRACTICUM SEMINAR IN ELEMENTARY EDUCATION
Practicum students are required to attend a weekly seminar, where they will integrate theories and practices of elementary teaching and learning, discuss pedagogical issues, and reflect upon their development as pre-service teachers. Students must be concurrently enrolled in EDU 420. (Spring)

EDU 440 PRACTICUM IN MIDDLE/SECONDARY EDUCATION
The student will perform practicum activities under the general direction of a program supervisor and under the immediate guidance of a supervising practitioner. The practicum student will spend full school days at the field site for the spring semester. Practicum students follow the middle or secondary school calendar during their practicum and therefore are expected to be at the middle or secondary school each day it is in session, including those days when Assumption University classes may not be in session. Prior to the beginning of the practicum, practicum students may request approval to attend Assumption University sponsored events. Such requests must be made in writing and addressed to the Licensure Program Coordinator, and, if approved, the practicum student will extend his or her practicum placement beyond the typical ending date for the practicum. Limited to Middle/Secondary Education majors who have satisfied all retention criteria, including passing all required Massachusetts Tests for Educator Licensure (MTEL) by December 13 of the senior year. Students must concurrently take the associated 3-credit seminar, EDU 440S. Education Practicum Fee: $500. (Spring)

EDU 440S PRACTICUM SEMINAR IN MIDDLE/SECONDARY EDUCATION
Practicum students are required to attend a weekly seminar, where they will integrate theories and practices of middle/secondary teaching and learning, discuss pedagogical issues, and reflect upon their development as pre-service teachers. Students must be concurrently enrolled in EDU 440. (Spring)

EDU 444 HONORS THESIS IN EDUCATION
In this course the student will conduct the research project that was proposed and approved during the Honors Seminar (HON 300). The research project will be an original research thesis or creative work under the supervision of a faculty mentor. A summary of the capstone work will be presented at the Honors Colloquium at the end of the semester. This course will count as an elective in the Education Major. Prerequisite: HON 300; membership in Honors Program

EDU 499 INDEPENDENT STUDY
Open to all qualified junior and senior education majors with permission of the instructor, the Chairperson of the Education Department, and the Associate Vice President of Academic Affairs.

Staff/Nine credits
Department of English

Professors: Kristen Carella, Lucia Z. Knoles, James Lang, David Thoreen (Chairperson); Associate Professors: Paul Ady, Becky L. DiBiasio, Michael Land, Rachel Ramsey, Paul Shields; Assistant Professor: Christopher Gilbert; Professor of Practice: Shahara Drew; Visiting Instructor: Mary DiDomenico; Writer-in-Residence: John Hodgren; Instructors: Kate Donius, Michael Fisher, Barry C. Knowlton, David Nordman, Molly Williams.

MISSION STATEMENT

“Literature adds to reality, it does not simply describe it.” – C.S. Lewis

Literature addresses profound and enduring questions about what it means to be a human being, while challenging us to recognize complexity and ambiguity in our exploration of those questions. The study and creation of literature in all its written, performative, auditory, and visual forms is an enlightening quest of self-discovery that exposes us to a wide range of aesthetic sensibilities and reveals our strengths, vulnerabilities, and potential for change. Experiencing literature leads us to ask deeper questions about our spiritual, intellectual, personal, and cultural assumptions, so that we can come to know ourselves and our larger world more fully.

Through their engagement with literature, students learn to pose questions and employ methods specific to the field of literary studies and to explore the implications of these ways of knowing. They learn to read critically and empathetically and to recognize the significance, quality, and consequences of language. Students learn the value of writing as a means of discovery, as well as to learn to write and speak effectively, exhibiting an awareness of audience. Our courses challenge students to ask ethical questions about literature and its consequences for their values and ways of being in the world. Students also gain a more informed and global understanding of cultural and historical differences. The department seeks to inspire students to take intellectual risks, to synthesize the questions and approaches of the discipline they have learned, and to take responsibility for their continued learning. The department’s programs of study prepare students to become active and engaged learners in both their personal and their professional lives.

LEARNING GOALS

The department understands “literary,” “literature” and “language” to include written, visual, and performative texts. As members of the English Department, we want our students to do the following:

1. To pose questions and employ methods specific to the field of literary studies and to explore the implications of these ways of knowing;
2. To read critically and empathetically, recognizing the significance, quality, and consequences of language;
3. To write and speak effectively, exhibiting an awareness of audience;
4. To ask ethical questions about literature and its consequences for their values and ways of being in the world;
5. To gain a more informed and global understanding of cultural and historical differences;
6. To take intellectual risks, to synthesize the questions and approaches of the discipline they have learned, and to take responsibility for their own learning. To become lifelong active and engaged learners.

The English Department offers three majors: Literature; Literature with an Elementary Education Track; and Communication and Media. The Department also offers three minors: Literature, Writing, and Creative Writing and Magazine Design.

MAJOR IN ENGLISH (10)

The Major in English aims at developing a heightened appreciation of language through a close study of literature and greater facility in expression through regular written and oral presentations. The program seeks to develop powers of observation and discernment and to broaden awareness of the world, of our common humanity, and of the self. The English Department offers courses in speech, theatre arts, writing, and film, in addition to those emphasizing historical, generic, or thematic approaches to English and American literature. Students also have opportunities to develop their talents in creative and professional writing in
many forms of media. Every course in the department, whether nominally emphasizing literary study or communication skills, constantly seeks to reinforce the relationship between reading, writing, speaking, and critical thinking.

Traditionally, the major in English has prepared students for graduate school and law school, and for careers in creative and professional writing, in advertising, in non-profit organizations, in journalism and publishing, in public relations, and in teaching. Today, the great need for able writers provides opportunities for English majors virtually everywhere, especially if they supplement the major with selected study in foreign languages, art, computer science, the natural sciences, economics, management, or psychology, to cite a few of the obvious examples. The study of literature and language, however, is broadly humanistic and not narrowly pre-professional; accordingly, the department urges its majors to pursue the traditional liberal arts as the context of their pre-professional education.

THE CURRICULUM
The major in English consists of ten courses. These do not include ENG 130 English Composition or Introduction to Literature (LTE 140, LTC 140, FRE 204, ITA 140, SPA 204). Students should note that at least five of these courses must be at the 300–400 level. The Senior Seminar counts toward these five courses. Students are also encouraged to complete an elective internship in addition to their required courses. Students may take a total of 14 courses designated ENG for the English major.

GATEWAY TO THE MAJOR (1)
ENG 220 Approaches to Reading and Interpretation

HISTORICAL PERSPECTIVE (3)
The following courses are required but need not be taken according to the sequence in which they are listed or numbered, although it is preferable to take Literature Survey I before Literature Survey II:

ENG 221 Survey of British Literature I: Beginnings to the 18th Century or a Pre-1800 British literature at 300 level
ENG 222 Survey of British Literature II: 19th Century to the Present or a Post-1800 British literature at 300 level
ENG 223 Survey of American Literature: Beginnings to the Present or an American literature at 300 level

WRITING UNIT (1)
One 200- or 300-level writing course chosen from the following:
ENG 201 Argument and Persuasion
ENG 202 Introduction to Journalism
ENG 203 Writing Workshop: Autobiography
ENG 209 Creative Writing
ENG 301 Special Topics in Communication and Media
ENG 302 Special Topics in Journalism
ENG 303 Magazine Writing
ENG 304 Business and Technical Writing
ENG 305 Writing Workshop: Fiction
ENG 306 Writing Workshop: Poetry
ENG 307 Writing Workshop: Drama
ENG 308 Writing and Editing
ENG 309 Writing Workshop: Creative Nonfiction
ENG 310 Special Topics in Writing

MAJOR ELECTIVES (4)
At least three of the four electives should be literature courses (ENG 225–295, ENG 320-395). One course must address writing by historically under-represented groups, such as ENG 287 American Women of Color, ENG 379 Post-Colonial Literature, ENG 386 Native American Writing and Representation, or ENG 387 Survey of African-American Literature. These elective courses may not double-count.
CAPSTONE SENIOR SEMINAR ENG 411–414 (1)

NOTE: These classes may not double count for each other. These courses may be chosen from the English course offerings in literature, writing, and film. In making these choices, the student should note that of the ten courses required for the major, at least five must be at the 300- or 400-level. One course in classical language (GRK, LAT), one literature course in a foreign language (FRE, GER, ITA, SPA), or one comparative literature course (CLT) may be counted toward the English major; no special permission is required. An internship is recommended in the junior or senior year.

RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN ENGLISH

The following plan is recommended for English majors. It prepares students for the workforce or for graduate school. The major is flexible to accommodate study abroad and students can successfully complete the major if they begin by the spring of sophomore year.

<table>
<thead>
<tr>
<th>First Year</th>

</table>

ADVISING TIPS FOR THE MAJOR IN ENGLISH

- Although 10 courses are required for the major, students may take up to 14 courses designated ENG.
- Students entering with Advanced Placement credit for Language and Composition and/or Literature and Composition should plan to take ENG 201 Argument and Persuasion and/or another 200-level ENG course during the first year.
- Students may begin to explore the major by taking a 200-level genre course such as ENG 231 Introduction
to Poetry, ENG 233 The Modern Short Story, ENG 235 Introduction to Theatre, and ENG 240 Gothic Literature, or by taking a 200-level writing course such as ENG 201 Argument and Persuasion, ENG 203: Autobiography, and ENG 209 Creative Writing.

- Some English courses have no prerequisites; consider, for example, ENG/SOC 225 Literature of Social Responsibility, ENG/PHI 265 Introduction to Peace Studies, and ENG/WMS 285 Women’s Studies: Women of America.
- Remember that majors must complete at least five courses at the 300- or 400-level.
- Remember that at least three of the four electives in the major must be literature courses, one of which must focus on literature written by historically under-represented groups.
- ENG 221, 222, and 223 (the Literature Survey courses) are offered in a predictable sequence, with ENG 221 and ENG 223 offered in the fall of each year and ENG 222 offered in the spring of each year.
- English literature majors are encouraged but not required to complete an internship.

MAJOR IN ENGLISH, ELEMENTARY EDUCATION TRACK (10)

The Elementary Education Track applies only to those students who are pursuing a major in Education with a licensure emphasis in Elementary (1-6). If a student withdraws from the Education major, then the option to pursue the Elementary Track in the English major no longer applies. English majors who are pursuing licensure in Middle/Secondary Education (5-8; 8-12) would still complete the standard 10-course English major in Literature.

ENGLISH EDUCATION CORE (4)

- ENG 220 Approaches to Reading and Interpretation
- ENG 263 Children’s Literature
- EDU 302 Teaching English Language Learners
- EDU 325 Literacy Development and Instruction

HISTORICAL PERSPECTIVE (2)

Students are strongly recommended to take all three courses.

- ENG 221 Survey of British Literature: Beginnings to the 18th Century
- ENG 222 Survey of British Literature: 19th Century to the Present
- ENG 223 Survey of American Literature: Beginnings to the Present

WRITING UNIT (1)

One 200- or 300-level writing course chosen from the following:

- ENG 201 Argument and Persuasion
- ENG 202 Introduction to Journalism
- ENG 203 Writing Workshop: Autobiography
- ENG 209 Creative Writing
- ENG 301 Special Topics in Communication and Media
- ENG 302 Special Topics in Journalism
- ENG 303 Magazine Writing
- ENG 304 Business and Technical Writing
- ENG 305 Writing Workshop: Fiction
- ENG 306 Writing Workshop: Poetry
- ENG 308 Writing and Editing
- ENG 309 Creative Nonfiction
- ENG 310 Special Topics in Writing

MAJOR ELECTIVES (2)

Two 300-level literature courses (ENG 320-395) from among department offerings. Students should take both 300-level literature courses before taking the Senior Seminar.

ADVISING TIPS FOR THE MAJOR IN ENGLISH, ELEMENTARY EDUCATION TRACK

- Although 10 courses are required for the major, students can take up to 14 courses designated ENG.
- Students entering with AP credit for Language and Composition and/or Literature and Composition should take ENG 201 Argument and Persuasion and/or another 200-level ENG course during the first year.
- While students in this program are required to take just two of the three literature survey courses (or the 300-level period courses that satisfy these requirements), we strongly advise students to complete all three courses.
- ENG 221, 222, and 223 (the Literature Survey courses) are offered in a predictable sequence, with ENG 221 and ENG 223 offered in the fall of each year and ENG 222 offered in the spring of each year.
- Students in this program should complete the 300-level literature electives (ENG 320-395) before taking the Capstone Course in the fall of the senior year.

DOUBLE MAJOR IN SECONDARY EDUCATION AND ENGLISH

The Department of English works closely with Assumption’s Department of Education to prepare students for the teaching of English in secondary schools. Such students should consider a major in English and a major in secondary education. The major in English provides students with 30 hours of coursework in the field of knowledge competency required for certification by the
Commonwealth of Massachusetts. Students preparing to teach English at the elementary or secondary level are strongly encouraged to meet with a member of the English Department as early in their academic experience as possible. Application for the appropriate education major must be made to Assumption’s Department of Education by the spring of the sophomore year. Students should plan their courses of study working closely with members of both the Education and English Departments.

MAJOR IN COMMUNICATION AND MEDIA (11)
The major in Communication and Media combines the traditional skills of rhetorical analysis, effective style, critical thinking, and ethical questioning with contemporary applications through oral, written, and visual communications in both traditional and new media. The goal of the program is to help students understand how language shapes our world and to use responsibly and effectively the various forms of communication that define and construct contemporary life and culture. The major thrust of the curriculum is toward a broad and thorough education in the liberal arts in a creative hybrid form that also prepares students for graduate school, law school, careers in creative and professional writing, in journalism and publishing, in public relations, in teaching, and in other areas of the growing and changing communications and media fields.

One of the main features of the curriculum is the opportunity for each student to assemble, through the Seminar in Communication and Media, a portfolio designed to reflect his/her growth and promise as a writer and communications professional. As such, the portfolio enables the student to reflect on the knowledge and skills he or she has developed in the various courses comprising the major, as well as to evaluate his or her strengths and weaknesses and to address them.

Upon declaring the major, students should begin collecting the raw materials for the portfolio, which may include the best paper or project from each course the student has completed in the major. The finished portfolio will provide a profile of the student’s skills and experience that can serve as the foundation for a professional portfolio.

REQUIRED COURSES (11)
These do not include ENG 130 English Composition or LTE 140 Introduction to Literature. Students may take a total of 14 courses designated ENG for the major.

GATEWAY COURSES (3)
ENG 201 Writing Workshop: Argument and Persuasion
ENG 202 Introduction to Journalism
ENG 219 Approaches to Media Analysis

ELECTIVES: LITERATURE (3)
Three literature classes (ENG 225-295, ENG 320-295), two of which must be at level 300 or higher.

CAPSTONES (2)
ENG 415 Capstone Senior Seminar in Communication and Media
ENG 420 Communication and Media Practicum: Internship

SPECIALITY (3)
Three courses from ONE of these Specialties:

*Journalism and Professional Writing*
- ENG 212 Professional and Academic Writing
- ENG 301 Special Topics in Communication and Media
- ENG 302 Special Topics in Journalism
- ENG 304 Business and Technical Writing
- ENG 308 Writing and Editing
- ENG 309 Writing Workshop: Creative Nonfiction

*Creative Writing*
- ENG 203 Writing Workshop: Autobiography
ENG 209 Creative Writing
ENG 305 Writing Workshop: Fiction
ENG 306 Writing Workshop: Poetry
ENG 309 Writing Workshop: Creative Nonfiction
ENG 310 Special Topics in Writing

**Media Studies and Production**
ENG 211 Speech
ENG 217 Introduction to Film Studies
ENG 237 Film and Literature
ENG 293 Special Topics in Film and Literature
ENG 301 Special Topics in Communication and Media
ENG 396 American Film
ARD 115 Graphic Design I
ARD 215 Graphic Design II
ARD 175 Introduction to Digital Photography
CSC 181 Electronic Communication and Multimedia
TVP 290 Video Communications Skills
TVP 295 Video Production I
TVP 390 Video Production II

**Note:** At least five courses in the major must be at the 300- or 400-level. Students also have the option to design their own specialization, in consultation with their advisor and with the approval of the Chair. In addition, if for some reason courses for a particular specialization are not available, students may, in consultation with their advisor and approval of the Chair, make appropriate substitutions.

**RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN COMMUNICATION AND MEDIA**

ADVISING TIPS FOR THE MAJOR IN COMMUNICATION AND MEDIA

- Although 11 courses are required for the major, students can take up to 14 courses designated ENG.
- Students entering with AP credit for Language and Composition and/or Literature and Composition should take ENG 201 Argument and Persuasion and/or another 200-level ENG course during the first year.
- Two of the three literature courses required of students in this program must be at the 300-level (ENG 320-395).
- Students in this program should complete all three courses in their selected area of specialization before taking the Senior Seminar in Communication and Media.

Students are expected to complete their internship during their Junior or Senior year. Students who intend to complete an off-campus internship or a study abroad internship must meet the 2.8 minimal GPA requirement established by the university. Students who do not meet that requirement will complete an academic project or course under the supervision of the Practicum instructor and will participate in the Practicum seminar. Students are strongly encouraged to take CSC 181 and ARD 115 as part of their major and to consider a minor in subjects that could contribute to their careers as writers, including graphic design, a modern language, marketing, sociology, and history.

MINOR IN ENGLISH (6)
The minor consists of 18 credits (six courses) in English, including ENG 130 English Composition. At least three of the six courses must be in literature (LTE 140 may be counted as one of these three courses) and at least one must be a writing course at the 200-level or above. The student who intends to apply for an English Minor is urged to seek the advice of a faculty member in the department in order to design a program that is best suited to the student’s interests and professional goals.

MINOR IN WRITING (6)
The minor consists of 18 credits (six courses) in Writing, including ENG 130 English Composition. The student who intends to apply for a Writing Minor is urged to seek the advice of a faculty member in the department in order to design a program that is best suited to the student’s interests and professional goals.

MINOR IN CREATIVE WRITING AND MAGAZINE DESIGN (7)
This interdisciplinary minor consists of 21 credits (seven courses) in English (ENG) and Graphic Design (ARD):

Three required courses:
- ENG 209: Creative Writing
- ARD 115: Graphic Design I
- ARD 215: Graphic Design II

One genre course in literature:
- ENG 231 Introduction to Poetry, ENG 233 The Modern Short Story, ENG 235 Introduction to Theatre, ENG 240 Gothic Literature, ENG 241 Fantasy Literature, or ENG 390 The Art of the Novel

Three creative writing courses from among:
- ENG 203: Autobiography Workshop
- ENG 305: Fiction Workshop
- ENG 306: Poetry Workshop
- ENG 309: Creative Nonfiction

Students interested in the minor are urged to seek the advice of a faculty member in either the Department of English or Art, Music, & Theatre in order to design a program that is best suited to the student’s interests and professional goals.
A NOTE ON PRE-LAW

The American Bar Association confirms that majors and minors across the curriculum, combined with a strong liberal education, provide excellent preparation for law school. Assumption’s Pre-Law Program provides personalized advising, co-curricular activities, and development opportunities for all students considering law school. See the “Pre-Law” section under “Pre-Professional Programs of Study.” Above all, students considering law school should choose a major that interests them, pursue academic excellence in that field, and contact the pre-law advising coordinator, Prof. Carl Robert Keyes, Department of History, ckeyes@assumption.edu or 508 767-7324.

COURSE DESCRIPTIONS

ENGLISH (ENG)

ENG 130 ENGLISH COMPOSITION
This writing course emphasizes planning, composing, and revising. Specifically, the course deals with strategies for generating ideas, recognizing audience, clarifying purpose, focusing on a perspective, and choosing effective arrangements of ideas. Techniques of revision, which are central to the course, focus on appropriateness of language and effectiveness of development, as well as on editing. Counts in the Core Curriculum as a Core Seminar, to be taken in the same year as LTE 140, in either order. (Fall/Spring)
Staff/Three credits

LTE 140 INTRODUCTION TO LITERATURE
This course is designed to acquaint the students with the form and structure of various genres of literature. Readings are mainly drawn from English and American literature. Class discussion and writing assignments will make use of such critical concepts as point of view, imagery, and tone. Counts in the Core Curriculum as a Core Seminar, to be taken in the same year as ENG 130, in either order. (Fall/Spring)
Staff/Three credits

ENG 201 ARGUMENT AND PERSUASION
Words matter. Of course, so do images and ideas, which can be expressed linguistically but also stylistically in terms of both the form and the function of a persuasive piece of communication. This course will therefore take up the rhetorical force of words (not to mention images and ideas) by first considering “rhetoric” itself not as a pejorative label but rather as a source of communicative power. Students will engage the uses (and abuses) of words and phrases, categories of language choices, varieties of verbal techniques, figures of argument, and more, all with the learning objective of developing a strong sense of rhetorical style. Emphasis will be on written argument, with some attention to reading, listening, and speaking. Consequently, you will analyze and then produce communications like micro-analysis papers, letters to editors, op-eds, and congressional testimonies. Students will then have the option to create an artful piece of persuasion for a final project in the form of an advertisement, a public service announcement, a podcast episode, or some other mode of public argumentation. Prerequisite: ENG 130. (Fall)
Gilbert/Three credits

ENG 202 INTRODUCTION TO JOURNALISM
Students will explore important issues in print and broadcast journalism as well as in the writing techniques used in each medium. Students will study reportorial styles, newsgathering, research and interviewing skills, and put each into practice through regular submissions to the University newspaper, Le Provocateur. In the Fall semester, this course is taught as a Community Service Learning (CSL) course, which includes a combination of academic classroom learning and experiential learning in the community. Prerequisite: ENG 130 and any Introduction to Literature. Prerequisite: ENG 130 and any Introduction to Literature. (Fall/Spring)
Land, Nordman/Three credits

ENG 203 WRITING WORKSHOP: AUTOBIOGRAPHY
This course is intended to help students gain the ability to analyze and appreciate autobiographical writing and to produce powerful autobiographical writing of their own. Students will develop the ability to construct a close reading of an autobiographical text based on an analysis of such elements as imagery, dialogue, voice, and structure; and the ability to write
an autobiographical story characterized by a powerful voice, imagery, narrative, structure, and meaning. Prerequisite: ENG130 and any Introduction to Literature. (Spring) Knoles/Three credits

ENG 209 CREATIVE WRITING
In this course, students will study the techniques used by published poets and fiction writers and will learn to employ some of these techniques by writing original poetry and fiction. We will also learn the critical language for discussing these genres in a more precise and meaningful way, and will have ample opportunity to develop our understanding of the formal characteristics of poems and stories by both published and student writers. Prerequisite: ENG 130 and any Introduction to Literature. (Fall) Hodgen/Three credits

ENG 211 SPEECH
This is a course in the fundamentals of public speaking. Emphasis is on content and delivery of the most common types of short speeches, such as introducing a speaker, presenting information, persuading an audience, and demonstrating a technique or process, as well as impromptu speaking. Detailed evaluation, videotapes, and conferences will be used to encourage the process of improvement. Prerequisite: Complete ENG 130. (Fall) Knoles/Three credits

ENG 214 INTRODUCTION TO COMMUNICATION AND MEDIA
What is communication? Why do we communicate? What are media, and how are communication practices mediated? This course offers a wide-angle lens on the “problems” of communication and media. To examine communication and media together is ultimately to examine relationships between Self and Other, the personal and public, and the human-made world and the world out there. We will do this by exploring both communication and media on their own terms, and then again by considering them in cahoots as they appear in speech, writing, textuality, aurality, visuality, digital realms, and more. We will also grapple with matters of language, symbolic action, rhetoric, discourse, imagery, and the Internet. At each step of the way we will translate these grapples into thought pieces—or short written essays that develop critical ideas—that students will compose in order to evaluate and even rethink how communication and media are at the heart of meaning-making and message-making within the confines of the human condition. (Fall) Gilbert/Three credits

ENG 217 INTRODUCTION TO FILM STUDIES
This course introduces the concepts and technical vocabulary central to filmmaking and film criticism, allowing students to discuss films with greater awareness and precision, both in conversation and in writing. One emphasis will be on form and narrative: the structure and composition of the frame, of the sequence, of the scene, of the story. Always we will ask, "How are stories told in film?" That is, how does what is shown prompt viewers to draw inferences about what is not shown? Other emphases include point of view, cinematography, editing, and sound. Possible films for study include The Gold Rush (1925), Casablanca (1942), Roman Holiday (1953), On the Waterfront (1954), The Sting (1973), The Deer Hunter (1978), Cinema Paradiso (1988), Carol (2015), and The Dig (2021). (Spring) Thoreen/Three credits

ENG 219 APPROACHES TO MEDIA ANALYSIS
Designed to give students the means and opportunities to understand and analyze types and functions of mass media, this is a course in media literacy. Students will critically examine the evolution of mass media through active participation in discussing, reading, viewing, and writing theory and practical application of issues, such as media and ethics, politics and media, and ways in which we are informed, entertained, persuaded, and manipulated by means of media. This course will link weekly writing tasks to a research project and presentation. Prerequisite: Complete ENG 130. (Spring) DiBiasio/Three credits

ENG 220 APPROACHES TO READING AND INTERPRETATION
This course considers fundamental issues of textual interpretation, primarily but not exclusively in the print media. Representative readings, limited in number, will be chosen from a variety of genres and historical periods. In addition to adopting a critical vocabulary that will assist close reading of texts, the course also introduces the student to various interpretive strategies:
formalist, historical, reader-response, structuralist, and deconstructionist, among others. Required for all English Majors. Prerequisite: ENG 130 and any Introduction to Literature. (Fall)

Shields/Three credits

ENG 221 SURVEY OF BRITISH LITERATURE I: BEGINNINGS TO THE 19TH CENTURY
This course provides a broad overview of English literature from the Middle Ages to the late eighteenth century. We will read a variety of texts, construct historical and cultural contexts, debate issues of periodization and canonization, and consider questions of genre and innovation. Prerequisite: ENG 130 and any Introduction to Literature. (Fall)
Carella/Three credits

ENG 222 SURVEY OF BRITISH LITERATURE II: 19TH CENTURY TO THE PRESENT
In this course we will survey major writers of the Neoclassic, Romantic, Modernist, and Contemporary eras, probing the ways in which their world views were conditioned by their times, examining the formal elements that enhanced their art, and coming to terms with how their works challenge us as readers. Prerequisite: ENG 130 and any Introduction to Literature. (Spring)
Staff/Three credits

ENG 223 SURVEY OF AMERICAN LITERATURE: BEGINNINGS TO THE PRESENT
Participants in this course will read, discuss, and write about American literature from the 17th century to the present. The focus of the course will be on literature as a form of rhetoric, that is, how literature contributes to the debate of key issues in American life. Writing assignments will invite students to explore the methods used by texts to persuade readers to accept a point of view and the ways in which texts connect to one another to create a national “conversation.” Prerequisite: ENG 130 and any Introduction to Literature. (Fall)
Thoreen/Three credits

ENG/SOC 225 LITERATURE OF SOCIAL RESPONSIBILITY
An interdisciplinary course that offers students a combination of academic classroom learning and experiential learning in the community. Students will read contemporary American fiction and sociological monographs and cultural analysis, using these ideas to think critically about political, economic, and social issues in the community. Same as SOC 225. (Spring)
Land/Three credits

ENG 233 MODERN SHORT STORY
In *The Lonely Voice*, Frank O’Connor writes that the short story is the literary form best suited to dealing with “submerged population groups.” We will go deep-sea diving in this course, encountering a wide variety of tramps, vamps, dreamers, drug-abusers, lovers, master manipulators, lonely idealists, and losers. Prerequisite: ENG 130 and Literature 140. (Spring)
Drew/Three credits

ENG 237 FILM AND LITERATURE
This course will explore the rich tradition of film adaptations of literary texts, focusing on the exciting changes that occur when artists produce their own cinematic translations and interpretations of important literature. Students will develop their abilities to analyze texts and film productions with pleasure and critical insight and learn a critical vocabulary for this analysis. We will examine the effects of genre and medium on the adaptive process, and investigate how film adaptations contain cultural responses to literature and deploy literary texts to respond to culture. (Spring)
DiDomenico/Three credits

ENG 241 FANTASY LITERATURE
Fantasy Literature, an offshoot of Romance, is a constantly evolving narrative genre that includes tales of wonder, impossible worlds, mystery and the supernatural. Fantasy narratives, and *fantasy* as the expression of imagination, gained attention in the 18th century, partly as subversive and Romantic reactions to the ideals of the Enlightenment. This course examines the history of the Fantasy genre, focusing primarily on fiction from 1760-1925. Students will analyze ways in which Fantasy reflects cultural paradigms and movements, especially the development of science, the industrial revolution, the growth of mass market fiction by and *for* women, and the rise of democratic political systems. (Planned for Spring)
DiBiasio/Three credits

ENG 263 CHILDREN’S LITERATURE
This course provides a general overview of the field of children’s literature. Students read representative classic and contemporary works of children’s literature from a variety of genres, including fairy and folk tales, picture books, modern fantasy, realism, and books of information. They evaluate text and illustration, as well as address current issues in the field. Further, through disciplined examination of the history and tradition of children’s literature, students develop an appreciation for children’s books and the authors and illustrators who create them. Prerequisites: ENG 130 and any Introduction to Literature. (Fall/Spring)

Walsh/Three credits

ENG 271 ILLNESS, DISABILITY, AND HEALTHCARE IN LITERATURE
This literature course is designed for students interested in issues related to illness, disability, and/or healthcare. Readings will include poems, essays, and narratives written by people living with illness or disability, their loved ones, healthcare professionals, and canonical authors. By practicing the techniques of close reading, participants will learn the arts of listening with attention, responding with empathy, and interpreting based on evidence rather than stereotypes. Topics include the difference between curing and healing, the difference between pain and suffering; the nature of empathy; the importance of connecting to others across genders, classes, races, and cultures; and the special challenges for patients, loved ones, and healthcare workers in facing mortality. Prerequisites: ENG 130 English Composition and LTE 140 Introduction to Literature. (Spring)

Knoles/Three credits

ENG 301 SPECIAL TOPICS: SCIENTIFIC AND TECHNICAL WRITING
This course will be run primarily as a writing workshop, wherein students will learn about the genres of scientific and technical writing, and practice composing select examples of documents in these fields. While students will spend significant time working on improving styistics (grammar, syntax, word choice, etc.), more fundamentally, they will learn about the ideological, rhetorical, and organizational principles that underlie scientific and technical methods (versus, for example, their counterparts in the humanities), and which guide writing in these professions. Given that work in the sciences is frequently a team effort, we will examine best practices for writing collaboratively. Additionally, students will consider strategies to convey technical concepts to non-specialist audiences, and to appreciate their obligations as prospective practitioners of these professions to laypersons who may be affected by their work. Prerequisite: Complete English 130. (Fall)

Carella/Three credits

ENG 304 BUSINESS AND TECHNICAL WRITING
The course helps students learn techniques for composing various types of on-the-job writing tasks: memos, reports, letters, and proposals. It emphasizes clarity and functionality of language, and the need to suit format, style, and content to the purposes of the audience. It provides students opportunities for collaborative writing and for discussion of the ethical dimensions of writing on the job. Students are encouraged to learn the use of various technological tools for writing and research. Prerequisite: ENG 130. (Spring)

Staff/Three credits

ENG 306 WRITING WORKSHOP: POETRY
Ideally suited for, but by no means limited to, students who have completed ENG 209 Creative Writing, this course will extend the discussion of craft begun there. Our discussions will be informed by reading the work of established poets, but we will focus most insistently on the poems produced by members of the workshop. Through a variety of exercises, writers in this course will develop greater technical proficiency with image, metaphor, musical devices, grammar, enjambment, and metrical forms. Prerequisite: ENG 130 and any Introduction to Literature. (Spring)

Hodgen/credits

ENG 309 CREATIVE NONFICTION
In this course students will read and write essays in various forms of creative nonfiction: the personal essay, nature writing, and travel writing. The course will focus especially on the personal essay, in which writers draw upon and narrate elements of their history or experience to address broader social, political, or philosophical themes. For their major project of the course, students will produce a substantial personal essay on a subject of their choosing. This course should hold special interest for students who are thinking seriously about careers in writing, since it will allow them to stretch and test their skills in multiple forms of nonfiction writing. Prerequisite: Complete ENG 130 and any Introduction to Literature. (Spring)

Staff/Three credits
ENG 320 MEDIEVAL LITERATURE
This course will provide an introduction to medieval English literature, language, and culture between the years 600 and 1500. While our primary focus will be on texts written in English, we will also read (in translation) selections from the other major literatures that flourished in Britain during this period, including Irish, Welsh, Norse, French, and Latin. We will examine a variety of genres ranging from heroes’ tales, sagas, and lyric poetry to saints’ lives, and medical/scientific treatises. Major themes will include multicultural influences on English literature during the Middle Ages and the evolving conceptualization of the medieval hero. (Fall) Carella/Three credits

ENG 359 SPECIAL TOPICS IN BRITISH LITERATURE: GOThic WOMEN
This course focuses on the development and cultural impact of gothic fiction through the works of several women writers who had great commercial and artistic success in the late eighteenth and early nineteenth century. Ann Radcliffe’s The Castle of Otronto, Mary Shelley’s Frankenstein, Mary E. Braddon’s The Trail of the Serpent, and the dark romances of the Bronte sisters appealed to readers of all social classes and explored some of the problems inherent in a changing society. Readings will also include ghost stories and gothic fantasy from magazines. Students will develop individual research projects. Prerequisites: ENG 130 and any Introduction to Literature. (Spring) DiBiasio/Three credits

ENG 360 ROMANTICISM
A survey of major writers in the Romantic tradition, with primary emphasis on British authors but including a few from continental Europe (France, Germany) and the United States. Contrast always aids definition so we will bookend the Romantic period with writers from the preceding era (Neoclassicism) and successive one (Realism). Writers will include Voltaire, Pope, Goethe, Blake, Wordsworth, Coleridge, Byron, P.B. Shelley, Mary Shelley, Keats, Dickinson, Hawthorne, and Forster. Prerequisites: ENG 130 and any Introduction to Literature. (Fall) Ady/Three credits

ENG 371 THE 1920s
Perhaps in response to the tragedy of World War I, or perhaps in response to the aftershocks of challenging ideas in science, psychology, politics, philosophy, and art which date from before the War, the period of the 1920’s produced some of the most groundbreaking literary texts in the 20th century. For example, James Joyce’s Ulysses (1922) and Virginia Woolf’s To the Lighthouse (1927) both responded to the turbulence of this decade with new forms of expression that rejected shopworn views of the novel, acknowledged the chaos of the times and offered new ways to make order out of chaos, perhaps the primary goal of any art. We will concentrate on those two works, but begin with the Greek epic that helped Joyce structure Ulysses: Homer’s The Odyssey. Prerequisites: ENG 130 and any Introduction to Literature. (Fall) Ady/Three credits

ENG 384 20TH CENTURY AMERICAN DRAMA
This course is designed to introduce students to significant American playwrights of the 20th century. Students will become familiar with the predominant themes and motifs of American drama, including issues of race, gender, sexuality, and capitalism. One of the central questions will concern how various playwrights such as Arthur Miller, Lorraine Hansberry, and Amiri Baraka approach the promises and possibilities of the “American Dream.” Prerequisites: ENG130 and any Introduction to Literature. (Fall) Shields/Three credits

ENG 387 SURVEY OF AFRICAN AMERICAN LITERATURE
This course introduces and explores the vibrant and entertaining work of African-American authors throughout American literature. The authors to be surveyed are always creative, often filled with the fervor of revolutionary passions, and always important. Prerequisites: ENG 130 and any Introduction to Literature. (Fall) Drew/Three credits

ENG 389 SPECIAL TOPICS: HUMOR IN THE AMERICAN TRADITION
Power. Money. Persuasion. These and more human schemes can solve problems, little by little. But humor, well, humor can blow problems to atoms with a blast of laughter—at least rhetorically. So wrote Mark Twain in an unfinished novel, The Mysterious Stranger. His point, and the premise of this course, is that humor can and should be taken seriously. Our task will be to examine the role of humor in American culture by taking stock of its rhetorical characteristics, especially as they emerge out of specific examples in particular social, political, and historical contexts. To do so, we will peruse some theories of humor and related topics
(i.e., comedy, satire, jokes, and laughter). We will also consider what makes something humorous by evaluating such things as editorial cartoons, films, television shows, stand-up performances, literature, and even some of what various critics and commentators label the funniest stuff on the Internet. The end goal will be to conceptualize humor, consider its rhetorical and cultural implications, and develop a refined appreciation of why humor matters. (Spring)
Gilbert/Three credits

ENG 399 INDEPENDENT STUDY
Open to highly qualified juniors and seniors with the recommendation of an English Department faculty member who will design and supervise the study. Permission of the Department Chairperson is required.
Staff/Three credits

ENG 411 SENIOR SEMINAR IN LITERATURE: AFRICAN-AMERICAN LITERATURE, MUSIC, AND PHOTOGRAPHY AS A RESPONSE TO RACIAL TRAUMA
This course will explore the ways in which African-American literature, photography, and music have promoted the cause of racial justice not only by depicting the evils of racism but also by offering healing responses to racial trauma. We will begin our work by investigating the literary, artistic, and musical responses to the death of Emmett Till, the Birmingham Church bombing, the Harlem riots, and the events of Bloody Sunday on the march from Selma to Montgomery. Later we will explore ways of connecting these literary, artistic, and musical responses to racial violence to the responses we’ve witnessed to the deaths of Trayvon Martin, Eric Garner, Michael Brown, Breonna Taylor, George Floyd and others. (Fall)
Knoles/Three credits

ENG 412 SENIOR SEMINAR IN LITERATURE: 21st CENTURY BRITISH LITERATURE AND CULTURE
This course will give you the opportunity to explore the culture of modern Britain, and these challenging questions about the British identity, through an analysis of its literature, art and media over the past two decades. We’ll read novels, examine art works, view film and television productions, and read nonfiction on the cultural identity of Britain. At the heart of our work will be an effort to make sense of Britishness and why it matters. If we can come to an understanding of those questions, we can perhaps see more clearly the extent to which our national and cultural identities, in Britain as in our own lives, really matter to who we are. (Fall)
Lang/Three credits

ENG 415 SEMINAR IN COMMUNICATION AND MEDIA
The goal of this course is to assist you in making the transition from life as a student of communications to life as a communications professional. Over the course of the semester, students will work with other members of the class to 1) interview professionals from a variety of communications fields, 2) assess professionally produced advertisements, brochures, websites, and e-portfolios, 3) master the use of software and hardware used by communications professionals, and 4) complete a series of projects based on professional models. Collaborating with a team, students will design and produce an advertisement, a brochure, and a website for outside clients. At the completion of each project each student will submit an assessment evaluating the process, the product, the team, and his or her own performance. For a final project, each student will design and produce an e-portfolio for prospective employers showcasing his or her accomplishments in this and other courses. Prerequisites: ENG 130, ENG 202, and any Introduction to Literature. (Spring)
Gilbert/Three credits

ENG 420 COMMUNICATION AND MEDIA PRACTICUM
The Practicum consists of a seminar and an internship, taken in the same semester. The seminar provides interns with opportunities to reflect on the internship experience and to examine issues of the field of communications relevant to that experience. The purpose of the Internship that goes with the Practicum course is to provide Communication and Media majors with practical, hands-on experience in the field. A list of sites for internships is available at the Career Development and Internship Center in Alumni Hall, and in the English Department Office. Students must complete ENG 130, an application form (available also at the English Department Office), and set up an interview with the Department Chairperson before the deadlines set for fall and spring. NOTE: Internships and the Practicum course are to be taken the same semester. Requirement for taking the Practicum and Internship: 2.8 minimum GPA in the major. Those who do not fulfill this requirement must consult the Department Chairperson. (Fall)
Land/Three credits

TVP 295 VIDEO PRODUCTION I
Video Production I will introduce students to the basics of field and studio video production through demonstrations, in-class exercises and assignments. Emphasis will be placed on creative storytelling using camerawork, lighting, sound recording and non-linear editing techniques. We will be using HD field and studio video cameras and the latest professional Avid editing systems. Students will share the roles and responsibilities of a professional television production team, on location and using the studio facilities in the Assumption University Media Center. (Fall/Spring)
Burke/Three credits

TVP 390 VIDEO PRODUCTION II
Video Production II will build on skills acquired in Video Production I so students can produce their own high end video productions. We will create story ideas, storyboards, and develop pre-production approaches to ensure an engaging presentation. We will learn advanced camera, lighting and audio techniques as well as more elaborate editing. Projects will include documentaries, narrative fiction, sports reporting, and others based on what students want to create. Prerequisite: TVP 295. (Spring)
Burke/Three credits
Global Studies Program

A major in Global Studies provides students with an opportunity to explore the problems facing our increasingly interconnected world, with a particular emphasis on regions outside Europe and the United States. Through a carefully selected set of courses from across the curriculum students are not only given the tools necessary to understand contemporary global issues, but are also empowered to respond effectively. In addition to required coursework, students are expected to complete a semester abroad where they benefit from immersion in a different place and culture. Students majoring in Global Studies may pursue careers in international business, media, education, law, government, or the non-profit sector. Contact the Director, Associate Professor Kevin L. Hickey at khickey@assumption.edu for more information.

MAJOR IN GLOBAL STUDIES (11 OR 12)
There are five components to the major in Global Studies: 1. the Global Studies Core, 2. Global Studies Depth, 3. Global Studies electives, 4. Study Abroad, Internship, or Senior Project, and finally, 5. a required minor.

REQUIRED COURSES (6)
- GLS 100 Introduction to Global Studies
- GEO 100 Human and Physical Geography
- ANT 131 Cultural Anthropology
- ECO 110 Principles of Microeconomics
- ECO 252 Economic Development
- POL 207 Peace and War

GLOBAL STUDIES DEPTH (2)
One of the following:
- GEO 108 World Population Issues
- GEO 222 Regional Geography of South America
- GEO 232 Regional Geography of Africa

One of the following:
- HIS 242 Russia since 1917
- HIS 265 Peace Studies
- HIS 281 Asian History Since 1800
- HIS 283 Modern China: War and Revolution
- HIS 290 Islamic Middle East I (to 1800)
- HIS 291 Islamic Middle East II (Since 1800)
- HIS 306 Rise and Decline of European Primacy (1870 - Present)
- HIS 310 Diplomatic History of Europe in the 20th Century
- WMS 385 Women of the World

GLOBAL STUDIES ELECTIVES (3)
Any 3 of the following:
- GEO 106, 108, 134, 240, 252
- HIS 242, 265, 282, 290, 291, 306 or 310
- POL 332, 345, 371, 376, 377
- ECO 264, 353 or 354
- LAS 200
- SPA 125 or 126
- THE 305
- WMS 385
STUDY ABROAD, INTERNSHIP, OR SENIOR RESEARCH PROJECT

All Global Studies majors are expected to spend a semester in a university-approved study abroad program. Courses completed in such programs are likely to count as Global Studies electives subject to the approval of the department chair. As an alternative to study abroad, students may choose to spend a semester in Washington D.C. through The Washington Center for Internships and Seminars (TWC), [https://twc.edu/programs/academic-internship-program](https://twc.edu/programs/academic-internship-program) provided the internship placement is international in scope, subject to approval of the department chair. Students who for financial or other reasons are unable to complete a semester abroad or Washington Internship will be expected to complete an independent research project which incorporates a multi-disciplinary approach to analyze a specific global issue. This project can be completed as an independent study, subject to the approval of the department chair.

REQUIRED MINOR

All Global Studies students are required to complete a minor. The minor should be chosen in consultation with the student’s advisor. The department encourages students to consider minors offered by the Department of Modern and Classical Languages. Alternatively, minors in Latin American Studies, Geography, Economics, Business, History, and Political Science are complements to a Global Studies major. Other minors may be acceptable as long as they are approved by the department chair.

MINOR IN GLOBAL STUDIES (6)

A minor in Global Studies allows a student to add a global dimension to their program of study. By combining courses in geography, economics, history, politics, and anthropology students choosing to minor in Global Studies acquire an understanding of contemporary global issues that can complement many majors.

**Required Courses (6)**

- GLS 100 Introduction to Global Studies
- GEO 100 Human and Physical Geography
- ANT 131 Cultural Anthropology
- ECO 110 Principles of Microeconomics
- ECO 252 Economic Development

**Elective (1)**

- GEO 106, 108, 134, 240, 252
- HIS 242, 282, 290, 291
- POL 207, 332, 345, 371, 376, 377

MINOR IN ENVIRONMENTAL STUDIES (6)

Offered in cooperation with the Department of Biological and Physical Sciences, this minor allows students to expand their study of environmental problems especially for those with an interest in environmental policy.

**Required course (1)**

- ENV 150 Introduction to Environmental Science

**Choose (1) of the following**

- ENV 120 Environmental History of New England
- BIO 160 Concepts in Biology
- CHE 105 Chemistry in Modern Society
- CHE 131 General Chemistry

**Choose (4) of the following**

- GEO 101 Physical Oceanography
- GEO 103 Introduction to Meteorology
- GEO 108 World Population Issues
- GEO 134 Conservation of Natural Resources
GEO 240 Introduction to Geographic Information Systems
GEO 252 Land Use and Planning Law
ECO 235 Environmental Economics

ENV 260 Water Resources Planning and Management
(or)
ENV 280 Coastal Zone Management, available through Marine Studies Consortium

COURSE DESCRIPTIONS

GLOBAL STUDIES (GLS)

GLS 100 INTRODUCTION TO GLOBAL STUDIES
The course introduces students to several of today’s most pressing global issues and demonstrates how they are interconnected. It explores, subject to various perspectives, the issues of ethnic violence, world water concerns, climate change, the spread of tropical diseases, development basics, and current international status of HIV/AIDS. Attention is devoted to the debate over globalization and the development of international institutions. Available to freshmen/sophomores or by permission. Counts in the core as an additional scientific and quantitative reasoning course or as a social science. Also double counts as a global awareness course in the core. (Fall)
Hickey/Three credits

GLS 112 PERSPECTIVES ON GLOBAL HUMANITARIAN RELIEF
This course challenges students to develop critical judgment about contemporary global issues. Students will take advantage of the expertise and resources of Catholic Relief Services (CRS) as they first learn about migration—considered from historical, political, economic, and geographic perspectives—and then consider how Catholic social teaching can help individuals and organizations (such as the University) formulate and implement potential solutions. Course content will be drawn from the annual CRS Faculty Learning Commons and will require students to gain a deep understanding of global migration, of Catholic social teaching connected to that issue, and of the relevant humanitarian efforts of CRS. Students will work together on a major public advocacy project to educate the campus and/or local community about global migration through the lens of Catholic social teaching and the work of CRS. Taken three times, this course fulfills the Global Awareness requirement in the core curriculum. (Fall)
Crowley, Rao/One Credit

GEOGRAPHY (GEO)

GEO 100 INTRODUCTION TO PHYSICAL AND HUMAN GEOGRAPHY
A general examination of everyday physical occurrences of the earth. A wide range of topics is briefly covered, including global warming, storms; earth-moon relationships; oceans; land forms; erosion; weather; and climate. Physical effects on the human environment, activities potential, and limitations are investigated. The course is geared to students with no background in physical science. Students who have taken GEO 101 or 103 should not enroll. Counts in the core as an additional scientific and quantitative reasoning course or as a social science. Also double counts as a global awareness course in the core. (Fall)
Hickey/Three credits

GEO 101 INTRODUCTION TO PHYSICAL OCEANOGRAPHY
An introductory look at physical and chemical properties of seawater, marine geology, ocean currents, tides, deep-ocean circulation, bottom topography, marine life, sediments, and the sea’s resource potential will be discussed. No science background is necessary, only an interest in the field. The purpose of the course is to give the student an overall understanding of the environment which constitutes 73% of the earth’s surface. Course counts in Core as Counts in the Core as an additional scientific and quantitative reasoning course or as a social science. (Spring, Alternate Years)
Hickey/Three credits
GEO 103  INTRODUCTORY METEOROLOGY
An introductory examination of our atmosphere with special attention being paid to the study of weather phenomena and their causes. Practical use of meteorological data, climatic controls, weather systems, and weather prediction exercises. No science background is necessary, only an interest in the field. Course counts in Core as an additional scientific and quantitative reasoning course or as a social science. (Spring, Alternate Years)
Hickey/Three credits

GEO 106 HISTORICAL GEOGRAPHY OF THE UNITED STATES AND CANADA
A study of social and physical geographic motivations and restraints that helped to develop the United States and Canada. Emphasis will be post-1800, with particular attention to: settlement patterns, use/abuse of natural resources, changing ethnicity, urban location and growth, some effects of the slave plantation on new technology, industrialization and its economic role in development, and how 20th century transportation changes the landscape forever. Stress will be placed on geographic implications found in historical fact. Counts as core Social Science and as elective credit within the Global Studies major and minor.
Hickey/Three credits

GEO 108  WORLD POPULATION ISSUES
Lecture and open discussion on current population problems existing in the world today. Topics will include statistical processes; world food production and standards; female roles; adolescent pregnancy; migration; medical assistance; world economic issues; developing countries; issues on aging; foreign aid; and responses to population pressures, especially in urban areas. Same as SOC 108. Counts in the Core as an additional scientific and quantitative reasoning course or as a social science. Also double counts as a global awareness course in the Core. (Fall, Alternate Years)
Hickey/Three credits

GEO 134  CONSERVATION OF NATURAL RESOURCES
Topical study of issues relating to natural resources: their use, abuse, and future potential. U.S. resources will be stressed. A partial list of topics dealt with includes our carbon footprint, energy, alternative energy, water, fish resources, the Law of the Seas, waste disposal, environmental laws, and effective regional planning. Other issues will arise from class projects and discussion. Counts in Core as an additional scientific and quantitative reasoning course or as a social science. (Fall, Alternate Years)
Hickey/Three credits

GEO 222  REGIONAL GEOGRAPHY OF SOUTH AMERICA
A systematic study of the current physical and cultural landscape of the area south of the Panama Canal. Individual countries and discussions of issues concerning all of South America will be stressed. Topics to be covered include current political structures, resource base, agriculture, land tenure, and the economic development potential of South American countries. Western policy regarding this area completes the course. Open to all students. Counts in the Core as an additional scientific and quantitative reasoning course or as a social science. Also double counts as a global awareness course in the Core. (Spring, Alternate Years)
Hickey/Three credits

GEO 232  REGIONAL GEOGRAPHY OF AFRICA
The object of this course is to attain a fundamental economics/geographic conceptual view of Africa as it exists today. Political geography as well as the region’s physical terrain, climate, and resources will be studied. Land use patterns and the interrelationships between natural environment and human economic activities, especially AIDS, give focus to the materials. Readings on current issues are assigned. Western policy regarding this area completes the course. Open to all students. Counts as a second scientific and quantitative reasoning course or as a social science course. Also double counts as a global awareness course in the Core. (Fall, Alternate Years)
Hickey/Three credits

GEO 240  INTRODUCTION TO GEOGRAPHICS INFORMATION SYSTEMS
From Google Maps to location-tracking iphone apps, spacial data and geographic information systems (GIS) are everywhere. Corporations, nonprofits, academics, governments, and individuals use this technology to better navigate the world. Learn about new environments, assess interactions of phenomena across locations, and explore why places change over time. The aim of this course is to introduce students to spacial data structures, GIS theory, and GIS software programming. By the completion of the
course, students will have an elementary understanding of how to create, collect, manipulate, interpret, display, and analyze
geographically referenced information. Students will gain exposure to local and international real-world applications of spacial
data and GIS in multiple disciplines such as business, economics, healthcare, and environmental science. (Spring)
Williams/ three credits

GEO 250 SPECIAL TOPICS IN GEOGRAPHY
Special topics in Geography are offered occasionally. These courses expand our current offerings and respond to changing student
concerns, interests or more general worldwide topics of importance. These courses can be interdisciplinary in nature. They will
be taught at the intermediate level. Some may require prerequisites or could be restrictive in some other manner. Counts in Core
as either an additional scientific or quantitative option or a social science option.

GEO 252 INTRODUCTION TO LAND USE POLICY
The course reviews many landmark land use and legal cases, which established land use planning in the United States beginning
in the 20th century. Historic, precedent setting, cases will be discussed. Topics such as nuisance, zoning regulation, spot zoning;
aesthetic planning, resource protection and general due process will be discussed. Some geographic and urban theory as it applies
today, will be reviewed. No knowledge of law is necessary. This is not a class in law but is based on legal applications of land use
policy. Class discussion and case readings are the focus of the class. Counts in Core as either an additional scientific or quantitative
option or a social science. (Spring, Alternate Years)
Hickey/Three credits

GEO 399 INDEPENDENT STUDY IN GEOGRAPHY
Individually supervised study with one or more professors on an advanced topic. Open to qualified Juniors and Seniors with the
permission of the department chairperson. Counts in Core as either an additional scientific or quantitative option or a social
science. (Fall/Spring)
Hickey/Three credit
Department of History

Professors: Leslie Choquette, Carl Robert Keyes; Associate Professors: Stuart Borsch, Irina Mukhina (Chairperson), Deborah Kisatsky, Lance Lazar, Thomas Wheatland; Assistant Professor: John Bell; Lecturers: David Cohen, Barry C. Knowlton, Melinda Marchand, Edward Martin.

MISSION STATEMENT
Students of history embark on disciplined journeys through the past. Through coursework in an array of subjects, students encounter diverse civilizations and cultures. They practice the historical method of interpreting human thought and action in varied contexts, and they improve their reading, writing, and oral communication skills. By developing historical empathy and learning to articulate informed judgments about the past, students acquire a more astute perspective on the present and future. They may be inspired to contemplate their own engagement with the wider world and to contribute more purposefully to the betterment of human society. The History Department’s mission of fostering historical and self-awareness serves the University’s mission of forming graduates known for critical intelligence, thoughtful citizenship, and compassionate service.

MAJOR IN HISTORY
A major in History provides students with the opportunity to understand life in the present by exploring the rich and varied experiences of people who lived in the past. It trains the mind to think both abstractly and concretely, using analytic skills required for balanced reflection. It also provides excellent training in the interpretation of evidence and contributes to the development of strong reading and writing skills. Majors are prepared to pursue careers in any field that draws upon the strong analytic and communication skills, deepened perspective, and breadth of vision that come from the study of the past. Many Assumption History majors go on to enjoy successful careers in business, journalism, law, education, and public service.

REQUIRED COURSES (11)

• HIS 400 Research Methods. Introduces the skills, theories, and methods of historical scholarship to acquaint students with the historian’s craft and to prepare majors for the research seminar. HIS 400 is a prerequisite for the pro-seminar / seminar couplet.
• HIS 401 History Pro-Seminar. Provides background and context for the seminar topic. The pro-seminar is taken in the same semester as the seminar, usually during the junior or senior year.
• HIS 402 History Seminar. Is taken in conjunction with a linked pro-seminar, HIS 401. In rare instances, some research-intensive independent study courses might be approved to fulfill the history seminar requirement.
• Eight (8) additional HIS courses, six of which must be at the 200 level or above, with a minimum of one from each of the three groups below. Students are permitted to count no more than two 100-level courses towards the major.

Group I European History
HIS 202 Ancient Rome
HIS 222 Great Britain since 1688
HIS 230 Renaissance Europe
HIS 231 European Reformations
HIS 235 France since 1789
HIS 242 Russia since 1917
HIS 272 Germany since 1890
HIS 306 Rise and Decline of European Primacy
HIS 310 Diplomatic History of Europe in the 20th Century
HIS 312 Women in Europe
HIS 332 Baroque Europe, 1600-1789
HIS 337 Christian Mystics
HIS 338 Classics of Spiritual Direction
HIS 340 Hitler’s Vienna
Group II North American History

HIS 257 History of Canada
HIS 258 Colonial America
HIS 267 American Foreign Relations since 1776
HIS 269 African American Dream
HIS 285 Women’s Studies I: Images
HIS 313 Women and the American Experience
HIS 359 Revolutionary America, 1763-1815
HIS 362 Civil War and Reconstruction in the United States
HIS 366 Vocations in Public History
HIS 368 Cold War
HIS 369 September 11th in History & Memory
HIS 370 Immigration and American History since 1815

Group III World History

HIS 241 Russia: Pre-Revolutionary Period
HIS 251 Latin America since 1821
HIS 254 North American Indian
HIS 255 From Contact to Casinos: Interactions with Indians in North America
HIS 265 Peace Studies
HIS 280 Asia to 1800
HIS 281 Asia Since 1800
HIS 290 Islamic Middle East I (to 1800)
HIS 291 Islamic Middle East II (since 1800)
HIS 363 Vietnam War
HIS 393 From Jesus to Muhammad: The Near East in Transition
WMS 385 Women of the World

OTHER RECOMMENDATIONS

While History majors may take up to 14 courses in History, they are urged to take courses in related disciplines, such as Latin American and Latino Studies, Women’s Studies, Peace and Conflict Studies, Political Science, Anthropology, Sociology, Economics, Geography, Literature, Philosophy, and Theology, in order to broaden their liberal arts backgrounds. Students intending to pursue graduate work should note that a reading knowledge of French, German, Spanish, or other foreign languages is often required of doctoral candidates and in some cases of master’s candidates. Internships for credit are available for History majors.

The interdisciplinary American Studies Seminar of the American Antiquarian Society and five Worcester colleges is available on a competitive basis to outstanding Assumption students from across the disciplines every fall. This seminar fulfills the methods requirement for History majors and minors.

MINOR IN HISTORY

REQUIRED COURSES (6)

• HIS 400: Historical Methods
• At least one course from Group I (above).
• At least one course from Group II (above).
• At least one course from Group III (above).
• Two other courses from Departmental offerings

Minors in History may choose the option of taking the seminar/pro-seminar pairing, or of enrolling in the American Studies Seminar of the American Antiquarian Society, rather than taking the methods course. They should note that enrolling in the HIS 402 seminar entails taking its corresponding pro-seminar as well.
DOUBLE MAJOR IN HISTORY AND ELEMENTARY EDUCATION

For students interested in becoming history teachers at the elementary school level, Assumption University offers a special track towards a double major in History and Education. The Education Track in History consists of two core courses in World History (History 114 and 115 or HIS 116 and 117); one core course in US History (History 180 or 181); one Group I (European) course at the 200 level or higher; one Group III (World) course at the 200 level or higher; History 400 (Historical Methods); EDU 323 (History and Social Science in the Elementary Curriculum); and three additional History electives at the 200 level or above. Students who are interested in pursuing this opportunity should meet with the Education Program Coordinator by their second semester to acquire information about applying to the Education Major.

DOUBLE MAJOR IN HISTORY AND MIDDLE/SECONDARY EDUCATION

For students interested in becoming history teachers at the middle or high school level, Assumption University offers a state-approved teacher preparation program for history in grades 5–12. Such students should major in History with a major in middle/secondary education. Students who are interested in obtaining a teaching license in history should meet with the Education Program Coordinator by their second semester to acquire information about applying to the Education Major.

A NOTE ON PRE-LAW The American Bar Association confirms that majors and minors across the curriculum, combined with a strong liberal education, provide excellent preparation for law school. Assumption’s Pre-Law Program provides personalized advising, co-curricular activities, and development opportunities for all students considering law school. See the “Pre-Law” section under “Pre-Professional Programs of Study.” Above all, students considering law school should choose a major that interests them, pursue academic excellence in that field, and contact the pre-law advising coordinator, Prof. Carl Robert Keyes, Department of History, ckeyes@assumption.edu or 508 767-7324.

COURSE DESCRIPTIONS

HISTORY (HIS)

HIS 114 WEST AND THE WORLD I
This course explores important episodes and trends in the history of Europe, Asia, Africa, and the Americas from ancient times until the late eighteenth century. Participants study the origins and worldwide expansion of Christianity, the dramatic transformation of Western European societies during the Renaissance and after, and the collision and convergence of European, American, Asian, and African civilizations across the centuries. The course emphasizes the written analysis of primary and secondary documents. For all classes prior to 2020, this course fulfills the Core requirement in History and Humanities. This course fulfills the Core requirement in Person and Society as a first or second history, and the Core requirement in Culture and Expression as a Global Awareness course. (Fall)
Staff/Three credits

HIS 115 WEST AND THE WORLD II
This course explores the expansion of political participation in Europe from the Atlantic Revolutions of the late eighteenth and early nineteenth centuries to the present. Students study the commercial revolution in Europe and North America as well as other areas of the world. They examine the experiences of societies in Asia, Africa, and the Americas as global capitalism emerged and European and North American colonial empires expanded. The course also treats the two World Wars of the twentieth century and the emergence of powerful challenges to liberal democracy worldwide, including communism, fascism, and anti-colonial nationalism. It concludes with the study of particular episodes and trends in world history after 1945. At the instructor’s discretion, these might include the Cold War, emergence of the United States as a superpower, the rise of mass consumer societies, decolonization, changes in gender and family relations, 9/11, the wars in Iraq and Afghanistan, and other themes. The course emphasizes the written analysis of primary and secondary documents. For all classes prior to 2020, this course fulfills the Core requirement in History and Humanities. This course fulfills the Core requirement in Person and Society as a first or second history, and the Core requirement in Culture and Expression as a Global Awareness course. HIS 114 is not a prerequisite. (Spring)
Staff/Three credits
HIS 116 WESTERN CIVILIZATION I
This Honors course explores human ideas and experiences that have shaped the Western World from ancient times through the Middle Ages. The ages of classical Greece and Rome, the rise of Christianity, the emergence of medieval culture and thought, the slow evolution of national identities, and myriad political, religious, and social conflicts of the pre-modern eras are explored. The course emphasizes written analysis of primary and secondary sources. For all classes prior to 2020, it fulfills the Core requirement in History and Humanities. This course fulfills the Core requirement in Person and Society as a first or second history course. (Fall) Staff/Three credits

HIS 117 WESTERN CIVILIZATION II
This course studies the rise of the modern state, the rise of scientific inquiry and modern science, the course and implications of industrialization, and the role of ideology as an agent of politics, revolution, and war. The course emphasizes written analysis of primary and secondary sources. For all classes prior to 2020, it fulfills the Core requirement in History and Humanities. This course fulfills the Core requirement in Person and Society as a first or second history course. History 116 is not a prerequisite. (Spring) Staff/Three credits

HIS 180 UNITED STATES TO 1877
The first semester of this two-semester survey of American history begins with a study of indigenous peoples. It then examines the colonial encounters among European settlers, aboriginal inhabitants, and Africans; the growth of the English colonies in the context of the Atlantic World; tensions between the colonies and England culminating in the Revolution; the emergence of the first American republic, 1783–1844; sectional rivalries and westward expansion; the collapse of the “second party system” (Democrats v. Whigs); Civil War and Reconstruction. The course emphasizes written analysis of primary and secondary sources. For all classes prior to 2020, it fulfills the Core requirement in History and Humanities. This course fulfills the Core requirement in Person and Society as a first or second history course. (Fall) Staff/Three credits

HIS 181 UNITED STATES SINCE 1877
The second semester of this two-semester survey of American history briefly reprises the story of the Civil War and Reconstruction, then focuses upon the rise of an urban, industrial, ethnically diverse America in the years before the Great Depression. The course next explores the re-inventing of the American republic during the New Deal, World War II, and Cold War years, and concludes with an examination of the roots of the current “culture wars.” The course emphasizes written analysis of primary and secondary sources. For all classes prior to 2020, it fulfills the Core requirement in History and Humanities. This course fulfills the Core requirement in Person and Society as a first or second history course. History 180 is not a prerequisite. (Spring) Staff/Three credits

HIS 202 ANCIENT ROME, 509 B.C.–565 A.D.
From Rome’s rejection of Etruscan supremacy to the death of Justinian. Emphasis on Rome’s transition from Republic to Empire and on the subsequent transition from paganism to Christianity. Borsch/Three credits

HIS 222 GREAT BRITAIN SINCE 1688
This course surveys and investigates the history of Great Britain from the Gloriously Revolutionary settlement of its 17th century constitutional crises to the 20th century events and developments that have brought it from its “Finest Hour” to its “Brexit Moment.” The course focuses primarily on the political history of Britain, and from that perspective looks at the social, cultural, and intellectual history of one of the modern world’s most wealthy, powerful, and influential countries. Staff/Three credits

HIS 230 RENAISSANCE EUROPE
Led by the humanists’ rediscovery of the classical world, Renaissance writers, artists, political analysts, philosophers, and theorists opened new horizons of culture and learning. Europeans developed critical attitudes toward the past, explored the globe, established new methodologies for nearly every discipline, and created new modes of artistic and literary expression in ways that profoundly shape our world today. (Fall alternate years) Lazar/Three credits
**HIS 235 FRANCE SINCE 1789**
A study of France from the end of the Old Regime to the emergence of the Fifth Republic, emphasizing revolutionary traditions, church-state relations, and France's European and world position. (Offered fall every third year)
Choquette/Three credits

**HIS 241 RUSSIA: PRE-REVOLUTIONARY PERIOD**
From the Kievan period (tenth century) to the Bolshevik Revolution with special attention to such topics as Byzantine influence, westernization, technological development, art and literature, and revolutionary tradition. This course fulfills the Global Awareness requirement in the Core. (Fall alternate years)
Mukhina/Three credits

**HIS 242 RUSSIA SINCE 1917**
Beginning with a summary study of traditional Russian political culture, the Russian revolutionary heritage, and the origin and early development of the Bolshevik wing of the Russian Social Democratic Labor Party, the course investigates the collapse of the old order, the seizure of power by Lenin and his followers, and the history of the Soviet Union until its collapse in 1989. (Spring alternate years)
Mukhina/Three credits

**HIS 254 NORTH AMERICAN INDIAN**
An interdisciplinary course that seeks to integrate the methodology and findings of anthropology, biology (genetics and nutrition), history, and linguistics in the study of representative Indian groups within select culture areas; for example, the Arctic, the Subarctic, the Eastern Woodlands, the Northwest Coast, the Southeast, the Southwest, and the Plains. (Same as ANT 254.) This course fulfills the Global Awareness requirement in the Core. (Fall alternate years)
Choquette, Keyes/Three credits

**HIS 255 FROM CONTACT TO CASINOS: INTERACTIONS WITH INDIANS IN NORTH AMERICA**
An interdisciplinary course which allows a closer inquiry into a number of intriguing subjects which need to be more clearly understood if a better grasp of Indian culture is to be achieved. The topics have been selected on the basis of (a) the high priority usually given by scholars to certain Indian topics; (b) the continuing productive scholarship in, and even controversy on, certain subjects; and (c) the area of interest and expertise of the staff. Accordingly, new topics may be added as the interest and need warrant. (Same as ANT 255.) This course fulfills the Global Awareness requirement in the Core. (Spring alternate years)
Choquette, Keyes/Three credits

**HIS 257 HISTORY OF CANADA**
A survey of Canada's history from pre-colonial times through the present. (Spring every third year)
Choquette/Three credits

**HIS 258 COLONIAL AMERICA**
This course explores the development of European colonies in North America with emphasis on the English colonies that eventually formed a political union and became the United States. Rather than focusing solely on the experiences of European settlers, we analyze a series of encounters among Native Americans, Europeans, and Africans throughout the colonial period, placing these exchanges within the broader context of the emerging Atlantic World. We also use a comparative approach to examine the emergence of distinctive regional patterns among those colonies and their roles in the imperial contests of the era. Topics addressed include the organization of early American culture around the interactions of Africans, Europeans, and Native Americans in North America; the diverse origins of explorers, settlers, and migrants; the political, cultural, and economic development of English colonies; slavery and other labor systems; and the first rumblings of the American Revolution produced by tensions within and beyond colonial British America. (Fall alternate years)
Keyes/Three credits

**HIS 265 PEACE STUDIES**
This course examines causes of global and personal conflict and allows students to discuss means of resolution within historical as well as sociological contexts. The lead professors will stimulate debate by personal example. Guest speakers will provide additional expertise in specific areas relevant to the weekly discussion.
Staff/Three credits
HIS 267 AMERICAN FOREIGN RELATIONS SINCE 1776
An examination of U.S. interactions with the world from 1776 to the present. Topics include the diplomacy of the American Revolution, American westward expansion, the United States’ emergence as a world power, both World Wars, the Cold War, 9/11, and aftermath. The cultural, economic, and political context and consequences of U.S. globalism at home and abroad are emphasized. (Fall alternate years)
Kisatsky/Three credits

HIS 269: THE AFRICAN AMERICAN DREAM
This course examines how African Americans have resisted racial oppression by defining themselves as both part of and apart from American society. Beginning in the age of slavery and emancipation, it traces this tension in Black culture between integration and self-determination through Jim Crow and the Harlem Renaissance to the Civil Rights and Black Power Movements and into the present, concluding with a discussion of Afrofuturism and the Obama era.
Bell/Three credits

HIS 272 GERMANY SINCE 1890
A study of the development of Germany as a world power in the nineteenth century. Topics include Germany’s experiences in war and peace; monarchy, democracy, and dictatorship from the era of Wilhelm II through the age of Hitler; democracy and reconstruction in West Germany since World War II; the Cold War; the reunification of Germany; and Germany’s role in a new Europe. (Spring alternate years)
Wheatland/Three credits

HIS 280 ASIA TO 1800
This course is designed to introduce students to some of the major themes of East Asian history focusing on China, Japan, and Korea, from the Neolithic period to roughly 1800. The course begins by defining the notion of East Asia, and subsequently explores continuity and change in the region as a whole and within its discrete cultural components. Major themes include the origins of cultural continuity, the rise of the bureaucratic state, the evolution of Confucian thought and social roles, and the development and spread of Buddhism. (Fall alternate years)
Mukhina/Three credits

HIS 281 ASIAN HISTORY SINCE 1800
This course surveys the history of East Asia, mostly China, Japan and Korea, from the late seventeenth century to the present. Students will have an opportunity to learn about the diversity within East Asia by studying various voices of Asian people. It aims at deepening students’ understanding of East Asian history and culture. In addition to studying the political, social, and cultural transformation of China, Japan and Korea, the course will also address various themes in East Asian history. How did these countries deal with Western imperialism and problems of modernization? How did they interact with each other in the modern world? (Spring alternate years)
Mukhina/Three credits

HIS 285 WOMEN’S STUDIES I: IMAGES
This course is an introduction to the study of women. The course develops a coherent, integrated view of women and their roles; emphasizes the full range of contributions of and the limited opportunities for women; examines and appraises the experiences of women; and critically examines the thinking about women at various times and from various perspectives. The basic approach is interdisciplinary and the concentration of the course is on women in North America from the 19th century to the present. For classes prior to 2020, this course satisfies the humanities requirement in the Core Curriculum. (Fall)
Choquette, Keyes/Three credits

HIS 290 ISLAMIC MIDDLE EAST I (TO 1800)
This course examines the history of the pre-modern Middle East from the genesis of Islam in seventh century Arabia to the advent of Western power and dominance in the region. The course covers religious, cultural, and socio-economic developments in the Middle East. In addition to examining the origins of the Qur’an and Muhammad’s proselytizing mission in the Arabian Peninsula, the course analyzes the reasons for Islam’s rapid political takeover of territory stretching from Spain to Central Asia. It also examines how the conquered territories and peoples exerted a strong formative influence on the development of Islam. The
Islam’s numerous philosophic, scientific, and technological achievements which marked a period of progress in the European Middle Ages are stressed. This course fulfills the Global Awareness requirement in the Core. (Fall)

Borsch/Three credits

**HIS 291 ISLAMIC MIDDLE EAST II (SINCE 1800)**
This course examines the history of the modern Middle East. It covers the period in which the traditional societies of the Middle East were profoundly altered by their contacts with the Western world. It analyzes broad social issues such as the changing role of the middle class, the transformation of traditional authority and the emergence of potent new symbols of power in the twentieth century, such as nationalism, modernization, and resurgent Muslim identities. This course fulfills the Global Awareness requirement in the Core. (Spring)

Borsch/Three credits

**HIS 306 RISE AND DECLINE OF EUROPEAN PRIMACY, 1870 TO THE PRESENT**
An investigation of the emergence of Germany, France, and Great Britain as great world powers and their subsequent collapse after the First and Second World Wars. Special consideration given to the influence of imperialism, militarism, and power politics. (Spring alternate years)

Wheatland/Three credits

**HIS 310 DIPLOMATIC HISTORY OF EUROPE IN THE 20TH CENTURY**
Diplomatic history of Europe since 1914 with an emphasis on the political collapse of Europe, the German problem in an age of international civil war, and the beginning of the Cold War. (Fall alternate years)

Wheatland/Three credits

**HIS 312 WOMEN IN EUROPE**
An introduction to European women’s history from the Middle Ages to the twentieth century. The course examines the economic, social, and political position of women with particular attention to Britain, France, and Germany. It spans the pre-industrial and industrial periods and focuses especially on women’s work, women in the family, women in religion, and women’s political activities.

Choquette/Three credits

**HIS 332 BAROQUE EUROPE, 1600–1789**
This course explores the intersection of culture, politics, religion, and science in Europe from the seventeenth through the eighteenth centuries, a period of convulsive change in which the contours of the modern West were formed. The class introduces students to the richness and variety of creativity across many disciplines in a period typically designated as the “Golden Age” within the literary and artistic cultures of Spain, France, England, Italy, Holland, and Germany. (Spring alternate years)

Lazar/Three credits

**HIS 337 CHRISTIAN MYSTICS: WOMEN AND MEN IN MEDIEVAL AND EARLY MODERN EUROPE**
While many people sense some dim consciousness of the beyond, some claim to be eyewitnesses to the ultimate truths, to have a direct pipeline to the divine. Mystics gained renown as prophets and living saints, but often came in conflict with ecclesiastical authorities. Their writings, drawings, and lives provide extraordinary testimony to beliefs about popular devotions, gender, attitudes toward the body, and psychological deviance. This course explores the rich variety and exquisite intimacy of mystical experience in the West from the fourth through the seventeenth century. We will approach speculative thought, prophecy, calls to action, as well as “transcendental” experiences through the classic works of Hildegard of Bingen, Bernard of Clairvaux, Bonaventure, Catherine of Siena, Joan of Arc, Thomas à Kempis, Julian of Norwich, Margery Kempe, Ignatius of Loyola, Teresa of Avila, and others.

Lazar/Three credits

**HIS 338 CLASSICS OF SPIRITUAL DIRECTION**
Over the course of two millennia, the Christian tradition has developed an extensive and subtle literature of spiritual counsel. Spiritual guides in every century offered new frameworks for understanding the Christian condition and responding to the call of the heart. Some of these writings, as a result of their exquisite clarity and intimacy, have transcended their time as classics of the genre, offering the most profound insights into the yearnings, trials, and deepest consolations of the soul. (Typical authors include Teresa of Avila, John of the Cross, Catherine of Siena, Ignatius Loyola, François de Sales, Thomas à Kempis, and Thérèse of Lisieux,
among others.) This course surveys this exceptional treasure-trove of spiritual literature in a way that both embeds it within its historical and cultural context, and captures its perennial validity and relevance, even (or especially) for the contemporary world. Counts for SOPHIA Initiative and MEMS. (Spring alternate years)

Lazar/Three credits

HIS 340 HITLER’S VIENNA
A study of the political, social, and cultural history of the Austrian Empire, and particularly its capital city, Vienna, during the nineteenth and early twentieth centuries. Topics include the rise and decline of the Austrian Empire, the emergence of political liberalism, the rise of the “new Conservatives,” the crisis of traditional Austrian society and culture, and the crisis of Viennese modernism. The final third of the course takes a detailed look at the life and experiences of Adolf Hitler, who grew up amid all of these dramatic changes and crises — crediting them with shaping his racist and reactionary worldview. The final goal of the course will be to evaluate the accuracy of Hitler’s assessment regarding the impact of Vienna on the tragic course of the twentieth century. (Fall alternate years)

Wheatland/three credits

HIS 359 REVOLUTIONARY AMERICA
This course explores cultural, political, and economic changes in America from the age of imperial crisis through the era of the Early Republic. In addition to tracing the political history of the founding, we examine the experiences of Americans from diverse backgrounds, including women, slaves, free blacks, Native Americans, merchants, farmers, common soldiers, abolitionists, artisans, loyalists, and others. We examine their multiple perspectives on the Revolution, the drafting and ratification of the Constitution, and the cultural and political turmoil that emerged amidst the ensuing rise of political parties. The course takes both a narrative and an analytical approach by focusing on major interpretive issues in a more-or-less chronological fashion. We also assess how well popular narratives of the Revolution and the Early Republic reflect scholarly understandings of the period. This course fulfills the “Founding Documents” requirement for Education concentrators. (Spring alternate years)

Keyes/Three credits

HIS 362 CIVIL WAR AND RECONSTRUCTION IN THE UNITED STATES
This course examines the sectional conflict, the inability to resolve problems, issues leading to secession, the military, political, and social dimensions of the Civil War, and the era of Reconstruction. (Spring alternate years)

Bell/Three credits

HIS 363 THE VIETNAM WAR
An exploration of how Americans and Vietnamese on all sides of the conflict experienced the war (1945–1975) and sought to discern meaning from it. This course fulfills Global Awareness requirement in the Core. (Spring alternate years)

Kisatsky/Three credits

HIS 366 VOCATIONS IN PUBLIC HISTORY
“What can I do with a degree in history?” This course introduces students to a variety of careers pursued by public history professionals, from archivists, curators, and editors to administrators, cultural resources managers, and policy advisors. In the process of examining the diverse manifestations of presenting the past beyond the classroom, we will analyze the professional issues and political problems that practitioners of public history encounter. This will include an exploration of the relationship between historians and communities engaged in conversations and debates about both the purpose of history education and the intersections of history, cultural memory, heritage, and commemoration. Students will also gain practical experience through participating in a Community Service Learning project or internship in collaboration with a local public history institution or organization. (Spring alternate years)

Keyes/Three credits

HIS 368 THE COLD WAR
This course traces the history of the Cold War through the lens of American policy, politics, and culture. Students explore the causes, character, and consequences of the Cold War by considering the role that strategic, political, economic, cultural, and ideological forces play in shaping events and their outcomes. The effects of the Cold War on life and culture (economic relationships, gender and race relations, popular culture) in the United States and around the world are treated in depth. (Fall alternate years)

Kisatsky/Three credits
HIS 369 SEPTEMBER 11TH IN HISTORY & MEMORY
This course explores the history and meaning of September 11, 2001. We consider how and why the attacks on the World Trade Center and the Pentagon occurred. We also contemplate the significance of the attacks in the realms of American politics, culture, film, and public spaces. How is history made? How is it remembered? Who has the power to decide? By exploring these and related questions, we come to appreciate the complexity of the question “what happened?” on this day or any other. And we become attentive to the myriad ways in which the past is ever unfolding into the present—and the present into the past.
Kisatsky/Three credits

HIS 370 IMMIGRATION AND AMERICAN HISTORY SINCE 1815
A study of the role of the immigrant in American history, the impact on American society, and the process of assimilation and identification. The consequences of restriction since 1921 are also investigated. (Spring alternate years)
Bell/Three credits

WMS 385 WOMEN OF THE WORLD
This course uses the personal stories of women around the world as a lens into current global issues. Each week participants read accounts of women’s lives in regions outside of the United States, along with readable texts that provide historical and contemporary background for personal experiences. Students encounter the powerful and the powerless; the rich and the poor; the courageous and the meek; and in learning their stories, also learn something about the world that they inhabit, and that we inhabit along with them. In this global age in which we live, what happens at the individual and the local level is intricately connected with what is happening around the world, including in our own homes and communities. In experiencing a “world of women,” we learn about the human struggles that unite and divide people across cultures in the modern world. This course fulfills the Global Awareness requirement in the Core. (Spring)
Staff/Three credits

HIS 393 FROM JESUS TO MUHAMMAD: THE NEAR EAST IN TRANSITION
This course examines the history of the Near East from 50 BCE to 750 CE. The course addresses a very critical period of transition for the Near East, one in which a variety of religious experiences structured the life of people in classical times and late antiquity. It analyzes broad social issues such as the changing patterns of urban rural interaction, the growing power and influence of marginal societies such as the peasants of Mesopotamia and the Bedouin of Arabia, the transformation of traditional authority and the emergence of effective new symbols of power. The course ultimately traces the significant developments by which the Near Eastern societies were transformed from classical Roman and Imperial Persian paradigms into a unified caliphate under the new religion of Islam. (Every third year)
Borsch/Three credits

HIS 397 PRACTICUM IN THE TEACHING OF HISTORY
On occasion, students with a special interest in teaching History may work as assistants in the planning, teaching, and evaluation of one of the department’s introductory courses. Open only to juniors and seniors.
Staff/Three credits

HIS 389 SPECIAL TOPICS IN HISTORY
This course permits the study of selected topics in history. The topic normally changes each time the course is offered.
Staff/Three credits

HIS 390 INDEPENDENT STUDY
Open to highly qualified Junior and Senior History majors. Permission of the Chair is required.
Staff/Three credits

HIS 400 RESEARCH METHODS
This course introduces the historical method of research, writing, and analysis. It explores how historians construct and defend historical arguments and the many sources and implications of interpretive difference. (Spring)
Staff/Three credits

137
HIS 401 HISTORY PRO-SEMINAR
Designed primarily for History majors and minors in their junior or senior year, the Pro-seminar is formally linked to the History Seminar (HIS 402), taught by the same instructor in the same semester on a topic of the instructor’s choice. The Pro-seminar offers a broad survey of an historical subject or period, while the Seminar provides an opportunity for in-depth study and independent research on a discrete topic. (Fall)
Staff/Three credits

HIS 402 HISTORY SEMINAR
A writing- and research-oriented course designed primarily for History majors and minors, the Seminar introduces students to the practice of historical scholarship. Students intensively study an historical problem or subject, and they conduct individual research on different aspects of the seminar topic. Previous seminars have treated the American Revolution, Slave Narratives, Renaissance Humanism, the Holocaust, Salem Village Witchcraft, the Dreyfus Affair, the Vietnam War, and World War II in the Pacific. The seminar is taken in conjunction with a Pro-seminar (History 391), a course providing background and context for the seminar topic. The Pro-seminar is taken in the same semester as the Seminar, usually in the junior or senior year. This seminar fulfills the Writing Emphasis requirement in the Core Curriculum. (Fall)
Staff/Three credits

AAS 350 AMERICAN ANTIQUARIAN SOCIETY AMERICAN STUDIES SEMINAR
Each fall, the American Antiquarian Society and five Worcester Universities sponsor an interdisciplinary research seminar focusing on a different aspect of early American history and culture. The seminar topic and research methods combine several disciplines, and students from a wide variety of majors have participated successfully in this unique undergraduate opportunity. Recent seminar topics have included “Puritan Captivity Narratives and Native Stories,” “America’s Environmental Histories,” and “Sexualities in Early America.” The seminar meets at the American Antiquarian Society and is conducted by a scholar familiar with the Society’s collections. Selection is highly competitive. The participating students are chosen by a screening committee made up of representatives from the five participating institutions: Assumption University, Clark University, College of the Holy Cross, Worcester Polytechnic Institute, and Worcester State University. This seminar fulfills the methods requirement for History majors and minors. (Fall)
Staff/Three credits

GRADUATE SCHOOL PREPARATION
The History Department is strongly committed to preparing interested students for graduate-level work in History by fostering the critical skills necessary for success. Faculty mentor students who aspire to Master’s or Ph.D.-level work and assist those students in selecting a graduate program, preparing graduate school applications, and narrowing a field of interest. Students seeking to advance their education beyond the Baccalaureate level may consult with the History Chair, the Undergraduate Research and Fellowship Coordinator (Professor Carl Keyes), or any faculty member in the History Department.

PRE-LAW PREPARATION
The legal profession is complex, rigorous, and entails the responsibility for strong ethical choices and critical thinking. It is a profession with effects in all facets of society. Moreover, it is diverse and always changing, making dull moments a rarity. For students considering a career in this profession, Assumption University offers a wide path to follow. Student are not restricted to a rigid course track, but have the freedom to choose the appropriate courses themselves, guided by the view that a challenging liberal arts education is the best preparation for a professional career. Whether it be History, Political Science, English, or even Natural Sciences, students have the ability to concentrate their studies in an area that both interests and challenges them. Law school admissions officers agree that intensive liberal arts classes in reading, writing, and speaking nourish precisely those intellectual virtues required in the study and practice of law, namely, the ability to analyze a given issue from differing perspectives and to draw accurate conclusions from it.

Though students do not enroll in a specific Pre-Law program at Assumption, the University recommends that students seek the advice of its Pre-Law Committee. The Committee offers individualized curricular advice to students in all majors, helping students tailor their course load in a manner most suitable to their particular circumstance. The Committee consists of two faculty members who hold informational meetings for students and arrange meetings with representatives from law schools and with Assumption University Alumni who are in law school and in the legal profession. The Committee sponsors tours of law schools,
law class visitations, moot-court field trips, and legal internships and, above all, aids students in their preparation for the Law School Admissions Test (LSAT) while guiding them through the law school application process. Members of the Pre-Law Committee encourage students to seek their services early in the students’ academic careers. Assumption graduates have gone on to matriculate at such law schools as Boston University, Brooklyn University of Law, Catholic University of America-Columbus School of Law, New England School of Law, Suffolk University School of Law, Florida State University and the University of Notre Dame, and have continued to succeed in the profession. For more information contact the pre-law advising coordinator Prof. Carl Robert Keyes, ckeyes@assumption.edu or 508 767-7324.

LAW SCHOOL AGREEMENTS

DUQUESNE UNIVERSITY SCHOOL OF LAW B.A./J.D.
Assumption University and Duquesne University School of Law offer an accelerated program of study that allows qualified students to earn a bachelor’s degree from Assumption University and a law degree from Duquesne University in six years. Typically seven years of study are required to earn these degrees. In order to be eligible for admission into this accelerated program, students must complete the requirements of their major and the General Education Requirements of Assumption University in their first three years of study. Upon successful completion of their first year of law school at Duquesne, individuals in this program are eligible to graduate with a bachelor’s degree from Assumption University. Admission into the law school is not guaranteed. For more information about this program, contact Prof. Bernard J. Dobski.

WESTERN NEW ENGLAND UNIVERSITY SCHOOL OF LAW B.A./J.D.
Assumption University and the Western New England University School of Law offer an accelerated program of study that allows qualified students to earn a bachelor’s degree from Assumption University and a law degree from Western New England University School of Law in six years. Typically seven years of study are required to earn these degrees. In order to be eligible for admission into this accelerated program, students must complete the requirements of their major and the General Education Requirements of Assumption University in their first three years of study. Upon successful completion of their first year of law school at Western New England University School of Law, individuals in this program are eligible to graduate with a bachelor’s degree from Assumption University. Admission into the law school is not guaranteed. For more information about this program, contact Prof. Bernard J. Dobski.

UNIVERSITY OF ST. THOMAS SCHOOL OF LAW B.A./J.D.
Assumption University and the University of St. Thomas School of Law (Minneapolis, Minnesota) offer an accelerated program of study that allows qualified students to earn a bachelor’s degree from Assumption University and a law degree from the University of St. Thomas in six years. Typically seven years of study are required to earn these degrees. Assumption University students participating in this program will receive a guaranteed scholarship at the University of St. Thomas School of Law, ranging from 20% of tuition to a full-tuition scholarship, based on a record of academic success, overall strength as a candidate for law school, and potential to contribute to the University of St. Thomas School of Law’s mission. In order to be eligible for admission into this accelerated program, students must complete the requirements of their major and the Core Curriculum requirements of Assumption University in their first three years of study. Upon successful completion of their first year of law school at the University of St. Thomas School of Law, students in this program are eligible to graduate with a bachelor’s degree from Assumption University. Admission into the law school is not guaranteed; Assumption University students who wish to participate in this program must meet the University of St. Thomas School of Law admission standards. For more information about this program, contact Prof. Carl Robert Keyes.

VERMONT LAW SCHOOL B.A./J.D.
Assumption University and the Vermont Law School offer an accelerated program of study that allows qualified students to earn a bachelor’s degree from Assumption University and a law degree from Vermont Law School in six years. Typically seven years of study are required to earn these degrees. In order to be eligible for admission into this accelerated program, students must complete the requirements of their major and the Core Curriculum requirements of Assumption University in their first three years of study. Upon successful completion of their first year of law school at Vermont Law School, individuals in this program are eligible to graduate with a bachelor’s degree from Assumption University. The Vermont Law School has an exceptionally strong program in Environmental Law, and it has consistently been ranked among the top one or two programs in the country by US News and World Report. Students interested in pursuing a J.D. in Environmental Law may wish to consider this program. The Vermont University of Law also prepares students for the practice of other areas of law, so admission to this institution is not
limited to those interested in Environmental Law. Admission into the law school is not guaranteed. For more information about this program, contact Prof. Carl Robert Keyes.
The University offers a variety of programs of study that are informed by more than one disciplinary field. They include the Honors Program, the major in Latin American and Latino Studies, and minors in Community Service Learning (CSL); Core Texts and Enduring Questions (CTEQ); Law, Ethics, and Constitutional Studies (LEX); Medieval and Early Modern Studies (MEMS); and Women’s Studies (WMS).

MINOR IN COMMUNITY SERVICE LEARNING (CSL)
Community Service Learning (CSL) utilizes community service as part of the academic inquiry in a wide variety of courses. Among other things, CSL courses allow students to test classroom learning against their off-campus experiences, as well as put their academic insights and practical skills to use serving the greater Worcester community. Some CSL courses involve students volunteering multiple times at local agencies; most courses, however, involve specific service projects students do together. For example, CSL students have explored management principles while working on a Habitat for Humanity construction site, explained biology concepts to elementary school students, and used graphic design skills to help real-life, non-profit community partners. For questions, contact Community Service Learning Director Mike Land (mland@assumption.edu) or Partnership Coordinator Susan Hayes (shayes@assumption.edu).

The Community Service Learning Minor
Many students find themselves more than halfway to the CSL Minor without even realizing it; a few have even earned it as part of a triple-minor, with CSL courses double-counting for requirements in a major or minor. The minor gives students who like experiential learning an opportunity to take multiple courses in that educational format, but also allows students to reflect on the variety of kinds of service, and various ways different disciplines can contribute to the broader community. CSL minors are also asked to reflect on their service journey as a whole.

Requirements
The CSL Minor consists of five (5) elective courses that have been approved by the CSL director, plus a capstone independent study course. CSL students also must complete 125 hours of service during their time at Assumption. The heart of the minor is the taking of CSL courses in at least three different disciplines. A fourth course – IDS 425, the CSL Minor Capstone independent study – also requires community service. The remaining two courses consists of (1) a theology course and (2) either a fifth CSL course or any course that engages social justice issues in some way. (Ask the director if a course counts.) CSL minors must also accumulate 125 hours of community service while at Assumption. Students often earn most of these hours through the CSL courses themselves, but the minor also requires at least some hours through some other form of service at Assumption, usually either volunteering locally through the Reach Out Center or going on a SEND mission trip through Campus Ministry.

Sample CSL Courses
Often a single academic course will be offered in a CSL format one semester, but not the next. Thus the list of CSL courses is always changing – and growing. As examples, here is a list of courses taught as CSL in 2015-2016. When registering in a particular semester, look for the CSL designation.

- ARD 115 and 215, Graphic Design I and II
- BIO 102 Human Biology, Health and Disease
- BUS 330 Global Social Entrepreneurship
- CRM 255 Prisoner Rehabilitation and Reentry
- EDU 260 Teaching Students with Special Needs
- EDU 302 Teaching English Language Learners
- ENG 202 Introduction to Journalism.
- ENG/SOC 225 Literature of Social Responsibility
- ENG 309 Creative Nonfiction
- ENG 415 Writing Mass Communication Capstone
- HIS 181 U.S. History II
- HIS 366 Vocations in Public History
HON 100 Life Stories  
HRS 340 Principles of Case Management  
IDS 250 Individual Income Tax Assistance  
MGT 311 Diversity in the Work Force  
PSY 290 Psychology of Development: Infancy and Childhood  
PSY 330 Positive Psychology  
SPA 400 Special Topics in Latin American Studies  

IDS 425 SEMINAR IN SERVICE LEARNING  
The capstone course for CSL minors, IDS 425, an independent study course, combines interdisciplinary readings, critical thinking and analysis, and community service. Students are encouraged to explore the connections between text and experience, between ideas and lived events. Students are engaged in 45 hours of community service throughout the semester. They pursue a research project of their choice. The culmination of the seminar is a research paper and a formal presentation.

Land/Three credits  

FORTIN AND GONTHIER CORE TEXTS AND ENDURING QUESTIONS PROGRAM (CTEQ)  
The Fortin and Gonthier Core Texts and Enduring Questions (CTEQ) Program is a unique program at Assumption University. This select Catholic liberal arts program offers an intellectually rich interdisciplinary minor that complements any pre-professional, natural science, mathematics, or humanities major. Students in this engaging program attend special lectures by nationally known speakers, compete in student essay contests, run the CTEQ Book Club, take part in intercollegiate student research conferences, and travel on CTEQ class-related trips to major cities in the United States and Europe (Athens, Krakow, London, and Paris).

MINOR IN CORE TEXTS AND ENDURING QUESTIONS (6)  
Specifically designed for select students seeking an intense and integrated liberal arts education as they simultaneously pursue a specialized major, the minor in Core Texts and Enduring Questions brings faculty and students together to study great works of human thought not simply to learn something about them and their authors, but, more importantly, to learn something vital and enduring about ourselves as human beings. Believing that the dialogue between the best of ancient and modern thought gives us profound access to permanent truths about ourselves and our world, the CTEQ minor contributes to the integration of students’ specialized education by allowing them to hone their reasoning, writing, and speaking skills as they engage in a substantive, ongoing dialogue about timeless human questions and perennial human goals. Compatible with any major, this six (6) course, integrated minor also fulfills twelve (12) credit hours in Assumption University’s core curriculum program. Students can thus pursue the CTEQ minor, which will appear on their official transcript, while they work their way through the University’s required core curriculum program.

Inspired by Fr. Emmanuel d’Alzon’s, the founder of the Augustinians of the Assumption, vision of a truly dialectical and liberal education, the CTEQ minor combines four academic departments—Art History, Theology, Philosophy, and Political Science—in one concentrated minor. Exploring enduring questions about the nature of justice, beauty, human nature, and God, students in this interdisciplinary minor enter into meaningful dialogue with great artists and thinkers like Plutarch, Plato, Augustine, Michelangelo, Descartes, Pascal, Baudelaire, Tocqueville, and Pope Benedict XVI. Rooted in the idea that Core Texts are not the property of particular disciplines or particular periods or particular fields of study and drawing on the best aspects of Catholic liberal education, participants in the CTEQ minor form a distinctive learning community at Assumption University.

REQUIRED COURSES (6)  
The Core Texts and Enduring Questions minor consists of six courses. Students are required to take all four (4) of the following courses:

- ARH 160 Art Ancient and Modern: The Question of Beauty (fulfills 3 credit hours in the “Culture and Expression” area of the core curriculum)
- THE 153 Revelation: Ancient and Modern (fulfills 3 credit hours as a second required theology course in the core curriculum)
- PHI 245 Reason: Ancient and Modern (fulfills 3 credit hours in the “Great Conversation” area of the core curriculum)
- POL 351 Republicanism: Ancient and Modern (fulfills 3 credit hours in the “Great Conversation” area of the core curriculum)

Students must also elect to take two (2) of the following single book seminars:

- ARH 350 Nietzsche and the Avant-Garde
- PHI 351 Plato’s Republic
- PHI 375 Nietzsche’s Beyond Good and Evil
- POL 356 Machiavelli’s Discourse and Prince
- POL 358 Tocqueville’s Democracy in America
- THE 285 Augustine’s The City of God

Students are encouraged to take ARH 160, THE 153, and POL 351 in their first two years of study and PHI 245 and two of the single book seminars in their second two years of study. For further information, contact Dr. Marc Guerra, Director of the Fortin and Gonthier Core Texts and Enduring Questions Minor, at (508) 767-7575 or by email at mguerra@assumption.edu.

HONORS PROGRAM

Honors Council: Kyle Woolley, Brian Volz, Jessica Whitt, Sam Stoner, Kristen Quinn, Cathy Stutz, Becky DiBiasio, Prof. Molly McGrath (Director).

Students in the Assumption University Honors Program are passionate about ideas and learning, eager to grow by taking on challenges, and committed to the common good of their communities. For that reason, Honors students select courses and projects that reflect their interests, connect their classroom studies with experience in the community, collaborate on research with faculty members, and design independent projects. Students selected for the Honors Program become members of a lively community that supports academic and co-curricular activities, the chance to build life-long relationships, and the opportunity to develop as persons. The Honors Program reflects the mission of the university by providing a curriculum that offers a high quality liberal education, in-depth disciplinary and professional training, opportunities to contribute to the community, and a basis for a meaningful personal, professional, spiritual, family, and civic life. It presents opportunities for students to explore connections among their courses, and also between their courses and life. The program promotes intellectual friendship and discourse while providing a common, intensive learning experience inside and outside the classroom.

The program commences in the first year with a yearlong Honors COMPASS linkage that continues into the spring semester: these are small, liberal arts courses, in English Composition and Literature, or in Philosophy, or in Theology, and linked with another discipline. In the sophomore year, honors students take one honors elective chosen from a range of courses, including, for example, Life Stories, Honors Physics I and II, Honors Calculus I and II, and the Literature of Social Responsibility. In the junior year, a seminar guides students as they identify a topic for their senior year thesis or capstone project, a significant piece of independent work usually in the student’s major field of study. Going well beyond second-hand learning, students in the Honors Program experience a direct-engagement education by learning from primary texts, concrete experiences, faculty mentors, and personally driven scholarly projects.

HONORS PROGRAM GOALS

In the Honors Program students will:

- Cultivate independent thinking and learning
- Learn to interpret and evaluate information from a variety of perspectives
- Engage actively with various academic disciplines
- Develop and refine the qualities and responsibilities of honor, leadership, and service
- Carry out in-depth independent study in a self-designed project

REQUIRED COURSES (7)

First Year, an Honors COMPASS linkage (2 courses) in the fall; recommended continued in the spring (2 courses)
Sophomore Year, Elective: any course with an honors designation
Junior Year, HON 300: Honors Seminar
Senior Year, HON 444: Honors Capstone Thesis
If first year linkage not continued in spring, two other courses with an Honors designation.

HONORS PROGRAM CERTIFICATE REQUIREMENTS
To earn an Honors Program Certificate a student must complete the seven courses described above as part of the Honors Program. Students are required to maintain a minimum GPA in those courses of 3.25 and a minimum cumulative GPA of 3.25. In addition, students are required to defend their honors thesis to a committee of at least three faculty members. First-year students receiving a 3.5 GPA in the fall semester are invited to apply to the Honors Program and may join the program during their sophomore year.

PROGRAM BENEFITS
Co-curricular Opportunities
To complement the academic experience offered in the Honors Program, Assumption University sponsors such co-curricular activities as weekend book discussions, trips to historic sites and cultural events, concerts, lectures, attendance at academic conferences, dinner discussions, and study abroad.

Honors Fellowships
Honors Students are encouraged to apply for summer fellowships provided by the Honors Program. These funds may be used for summer and independent research and to attend scholarly conferences.

Honors Housing
Honors housing is available for first-year students in Hanrahan Hall. This alternate housing option provides students with a living and learning community that fully supports and understands the attainment of academic excellence. The mission of the Honors housing is to provide students with an educational environment in a smaller dorm setting. Programming in the Hanrahan lounge will create many opportunities for less formal interactions between students, faculty, and the administration. Honors housing is highly recommended for members of the University Honors Program, but is not required. Honors housing is also open to a limited number of students outside the Honors Program who are interested in being part of a friendly, relaxed, supportive, and intellectually stimulating living-learning community.

Honors Suite
An Honors Suite is available in Tsotsis 247 for members of the Honors community. This space is available for study, consultation, and conversation by all Honors Students. Receptions between faculty, students, and campus speakers and performers will be scheduled in the Honors Suite periodically throughout the semester. The space contains a reading room and lounge, computer facilities, meeting space, and advisory offices.

Recognition
Honors Capstone Projects are bound and archived in the d’Alzon Library. Recipients of Summer Fellowships are recognized campus-wide. Graduates of the Honors Program receive a certificate at commencement, are marked as such in the Commencement Program, and have Honors denoted on their official transcript.

COURSE DESCRIPTIONS

HON 200 LIFE STORIES (CSL)
This course explores the interconnectedness of human experience across time and place. It uses personal narratives and biographies to study the relationship between reflection and action. Coursework focuses on the challenges individuals face, the choices they make, and how those choices shape and define their lives. Studying life stories prompts contemplation of how we make choices, the connections between what we believe and what we do, and how we can build meaningful lives. This course introduces students to Honors-level reading, writing, and discussion. The course includes a community service learning component. Counts as a second literature in the Prerequisite: Membership in Honors Program. (Fall and Spring) Hodgen/Land/Three credits
HON 300 HONORS SEMINAR
The Honors Seminar will help students identify a faculty mentor and develop a project topic for their Honors Capstone thesis. Each student will prepare a brief abstract, a substantial description of the project, an annotated bibliography of relevant sources, and a timeline for completion of the project. Students will defend their complete project proposals to an audience of their peers and faculty mentors during the final weeks of the semester. Prerequisites: four previous honors courses and membership in Honors Program. (Fall and Spring)
Loustauanau, Vaughan/Three credits

HON 444 HONORS CAPSTONE
In the Honors Capstone, each student will produce an independent research thesis or creative project under the supervision of a faculty mentor. (The project is proposed and approved during HON300 Honors Seminar.) Students will meet on a weekly basis with their faculty mentor for advice and guidance, but primarily will work independently on the project throughout the semester. A summary and defense of the capstone work will be organized by the faculty mentor and completed by the end of the spring semester. Prerequisites: HON 300 and Membership in Honors Program. (Fall and Spring)
Staff/Three credits

MINOR IN LAW, ETHICS, AND CONSTITUTIONAL STUDIES (LEX)
The minor in Law, Ethics, and Constitutional Studies (LEX) helps students appreciate the nation’s constitutional order and its roots in the Western political and philosophical traditions. Jointly sponsored by the Political Science and Philosophy Departments, LEX engages constitutionalism, ethics, and the law through thinkers ranging from Aristotle, St. Thomas Aquinas, and Immanuel Kant to James Madison and John Marshall. In coursework based upon The American Founding, Constitutional Law, Logic, and the Philosophy of Law, students become familiar with political and philosophical texts like the Federalist Papers and The Treatise on Law, and landmark legal documents like the Mayflower Compact, the Constitution of the United States, and Marbury v. Madison. Students will approach these not merely as technical works but as political and philosophical texts that reflect ethical judgments, texts that must continue to be interpreted through the deliberate reflection of a political community.

The reasoning, rhetorical, and writing capacities students develop in the Law, Ethics, and Constitutional Studies minor are ideally suited to graduate school, law school, and employment in a variety of fields, such as government, teaching, journalism, law, and business. Not a pre-professional program, LEX helps students, whatever their future careers, to develop into citizens ready to take their places in the philosophical and constitutional tradition of America and the West. Drawing on the unique strengths of Assumption University as a Catholic liberal arts institution, the LEX minor in Law, Ethics, and Constitutional Studies is designed for those who want to acquire the liberal arts skills essential to professional and personal excellence, as well as to all those who aspire to thoughtful citizenship.

The Law, Ethics, and Constitutional Studies Minor consists of seven courses: four specified courses, two courses selected from Electives List A, and one course selected from Electives List B.

REQUIRED COURSES: (4)
PHI 210 Logic
PHI 270 Philosophy of Law
POL 312 The American Founding
POL 316 Constitutional Law

ELECTIVES LIST A (2)
PHI 225 Individual and Community
PHI 262 Biomedical Ethics
PHI 322 Advanced Topics in Ethics
POL 311 American Political Thought
POL 315 The Judiciary
POL 318 Problems in Civil Liberties
POL 345 Political Mass Murder
POL 373 International Law
POL 376 Terrorism in the Modern World
ELECTIVES LIST B (1)

BUS 215 Business Law I
ECO 230 Law and Economics
ENG 201 Argument and Persuasion
ENG 211 Speech
HIS 202 Ancient Rome, 509 B.C. - A.D. 565
HIS 259 Revolutionary America
HIS 267 United States Foreign Relations Since 1776
LAT 101-202 Latin I-IV
PHI 151 Ethics and the Good Life
POL 110 Political Issues: The Quest for Justice
POL 201 American Government
SOC 242 Criminology
THE 343 Social Teachings of the Church

Other courses in political science and philosophy may count as electives in the minor, depending upon approval of the Law, Ethics, and Constitutional Studies Director. For further information, contact the LEX Director Prof. Veronica Ogle at 508-767-7027 or by e-mail at ver.ogle@assumption.edu.

MINOR IN MEDIEVAL AND EARLY MODERN STUDIES (MEMS)

The Minor in Medieval and Early Modern Studies (MEMS) offers students the opportunity to explore the richness of Medieval and Early Modern culture within a coherent inter-disciplinary structure. Because pre-modern societies have so much to teach the modern world, students can combine history, literature, languages, the arts, philosophy, politics, and religion along with a range of interpretive methodologies. Students expand on their area of specialization within their primary discipline (their major) by incorporating perspectives from other disciplines that broaden their understanding of Medieval and Early Modern civilizations. Given that the mission of Assumption University is “grounded in the liberal arts,” and “enlivened by the Catholic affirmation of the harmony of faith and reason,” it is fitting to study the periods that defined the liberal arts and affirmed the harmony of faith and reason. Indeed, these periods provided us the concept of the “Uomo Universale,” the “Renaissance Man or Woman,” who combines expertise in many fields of human expression.

Beyond the intrinsic value of this course material, students will gain in instrumental ways from the MEMS minor at Assumption University. The MEMS minor perfectly complements participation in the Rome Program, or a study abroad program in Europe or Latin America. Furthermore, students graduating with a Medieval and Early Modern Studies Minor will enhance their competitiveness for many professional degrees. Students considering pursuing Medieval or Early Modern Studies as a specialty in graduate school are strongly encouraged to obtain proficiency in one or more foreign languages, especially Latin, and may wish to take part in regional and national conferences relating to Medieval and Early Modern Studies, such as the national undergraduate conference in Medieval and Early Modern Studies in Moravian College in Bethlehem, PA each December.

Students earning a MEMS minor may also be particularly well-suited candidates for internships and similar opportunities that become available on a regular basis at local institutions like the American Antiquarian Society and the Worcester Art Museum. MEMS affiliation can also increase students’ competitiveness for selection for archaeological digs and other international study opportunities. Students graduating with a MEMS minor will further distinguish their applications to graduate school, whether or not they pursue a graduate specialization in MEMS. Specializations related to MEMS are found in the finest graduate programs in all the related disciplines (including Art, Music, English, History, Languages, Latin American Studies, Philosophy, Political Science, Theology/Religious Studies, etc.).

REQUIREMENTS (6)

Students must complete a total of six courses, including an upper-level history course, from the following list:

Gateway Courses (at least one of the following):
HIS 208 Early Medieval Europe
The remaining five courses must come from at least two separate disciplines chosen from the following list, although no more than three courses from any one discipline can count in the MEMS minor. Versions of the following courses on the Rome Campus (usually designated with an ‘R’ following the course number), also count for MEMS.

**Art and Architectural History**

ARH 222 Medieval Art and Architecture
ARH 223 Renaissance Art and Architecture
ARH 224 Baroque Art
ARH 324 Michelangelo: Painting, Sculpture, Architecture, and Poetry
ARH 350 Special Topics in Art History (when appropriate)

**English Literature**

ENG 221 British Literature Survey I (beginnings to 1800)
ENG 237 Film and Literature (when appropriate)
ENG 240 Gothic Literature
ENG 252 The Mythic Imagination
ENG 253 Arthurian Literature
ENG 320 Medieval Literature
ENG 322 Beowulf
ENG 325 Chaucer
ENG 327 English Drama 900–1642
ENG 328 Medieval and Renaissance Tales
ENG 329 Special Topics in Medieval Literature
ENG 330 Renaissance Literature
ENG 331 Shakespeare’s Comedies
ENG 343 Milton
ENG 349 Special Topics in Seventeenth Century Literature
ENG 350 18th Century English Literature
ENG 351 Restoration and 18th Century Comic Drama
ENG 352 18th Century English Novel
ENG 359 Special Topics in 18th Century Literature
ENG 360 Romanticism
ENG 411 History Seminar (when appropriate)

**History**

HIS 208 Early Medieval Europe
HIS 209 Late Medieval Europe
HIS 230 Renaissance Europe
HIS 231 European Reformations
HIS 241 Russia: Pre-Revolutionary Period
HIS 250 Colonial Latin American History
HIS 254 North American Indians
HIS 255 From Contact to Casinos: Interactions with Native Americans
HIS 258 Colonial America
HIS 280 Asia to 1800
HIS 290 The Islamic Middle East I (to 1800)
HIS 332 Baroque Europe
HIS 337 Women and Mysticism
HIS 338 Classics of Spiritual Direction
HIS 359 Revolutionary America, 1763–1815
HIS 389 Special Topics (when appropriate)
HIS 400 Historical Methods (when appropriate)
HIS 401 Pro-Seminar (when appropriate)
HIS 402 Seminar (when appropriate)
AAS 350 American Studies Seminar at the American Antiquarian Society (when appropriate)

**Latin American and Latino Studies**

LAS 200 Introduction to Latin American Studies (when appropriate)
LAS 395 Special Topics (when appropriate)
LAS 400 Latin American Studies Seminar (when appropriate)

**Modern and Classical Languages**

CLT 225 Dante’s Comedy
CLT 234 Cervantes’s *Don Quixote*
FRE 332 Molière, Racine, and Corneille: Masterpieces of French Theatre
SPA 310 Spanish Culture and Civilization I
SPA 312 Spanish American Culture and Civilization I
SPA 320 Medieval Spanish Literature
SPA 331 Spanish Drama of the Golden Age
SPA 333 Spanish Mysticism
SPA 334 Cervantes: *El Quijote*
SPA 336 Spanish Picaresque

Also Special Topics Courses in Languages (when appropriate)

**Music History**

MUS 122 History of Music I
MUS 221 Music of the Middle Ages and Renaissance
MUS 223 Bach to Beethoven
MUS 229 Music and Worship
MUS 231 History of Opera
MUS 234 Music of France (when appropriate)
MUS 400 Special Topics in Music (when appropriate)

**Philosophy**

PHI 355 Augustine and Aquinas
PHI 356 Augustine Seminar
Students are encouraged, but not required, to mix their primary (major) discipline with their MEMS minor, although not more than three courses can be double-counted or combined with any other major or minor. Because no more than three courses can come from any one discipline, therefore, a minimum of two disciplines is also required. Students are also able to include up to two courses from another institution as a transfer student or during a Study Abroad program, subject to the approval of the chair of the relevant department at Assumption. Similarly, each respective department chair determines which special topics or other courses outside the above listing have a predominant focus on Medieval and Early Modern issues, thereby meriting inclusion in the minor. While there are no specific pre-requisites for the MEMS minor, students should be aware that many upper-level courses in many disciplines may require a 100-level introductory course or courses prior to enrollment in the upper-level course. Generally, only upper-level courses focusing on the Medieval or Early Modern periods within each discipline qualify for the MEMS minor. For further information, contact Dr. Lance Lazar, Director of the Medieval and Early Modern Studies Program, 508–767–7054; email: llazar@assumption.edu.

MINOR IN WOMEN’S STUDIES (WMS)

Throughout the greater part of the twentieth century, scholars in most academic disciplines considered the experiences of women to be peripheral. During the late 1960s, however, many researchers turned their attention to the study of women, attempting to correct what they viewed as distortions in scholarship. They discovered that the study of women opens new perspectives from which to view social reality.

At Assumption University, the Women’s Studies program began with a grant from the National Endowment for the Humanities. This grant brought together professors from four disciplines to design an introductory interdisciplinary course entitled Women’s Studies I: Images of Women in America (CLT/ENG/HIS/PSY/SOC/WMS 285). In 1993, a minor in Women’s Studies was approved. The minor program requires students to take the introductory course along with five other courses, three of which must be taken beyond the student’s major requirements as specified in Assumption’s policy on the “double counting” of courses. A new course, Women of the World (CLT/ENG/HIS/PSY/WMS 385), was recently added by Women’s Studies to expand the scope of our program by including the experiences and challenges of women worldwide. Students may also pursue internships focused on women’s issues in a variety of placements, including within educational or social service agencies. This minor is important for all students, but especially for those who intend to work in areas of policy making, urban planning, business, social service and counseling, or the law.

Students interested in Women’s Studies have the option of constructing a special major within the discipline with the approval of the Associate Vice President of Academic Affairs for Undergraduate Studies. This generally encompasses WMS 285, WMS 385, eight Women’s Studies electives, and an internship in a placement related to women and/or girls. In addition to the introductory Images course, students following the Women’s Studies minor select from an array of courses approved as Women’s Studies electives. These courses change from semester to semester, but often include many of the following:

<table>

HRS 421 Loss and Bereavement Across the Lifespan
IDS 250 Community Tax Assistance
LAS 200 Introduction to Latin American Studies

Field-based courses in Psychology, Sociology, and Human Services and other disciplines count for the Women's Studies minor if the field placement focuses on women and/or girls. An Independent Study with a focus on women and/or issues of significance to women may also count for the minor, as do courses with a focus on women offered in Continuing and Career Education, through the Worcester Consortium, or in Study Abroad. For further information, contact the Women's Studies Director Prof. Cinzia Pica-Smith at 508 767-7306 or by e-mail at cpicasmith@assumption.edu.

**COURSE DESCRIPTIONS**

**CLT/ENG/HIS/PSY/SOC/WMS 285 WOMEN’S STUDIES I: IMAGES OF WOMEN IN AMERICA**
This team-taught course is an introduction to the study of women. The course develops a coherent, integrated view of women and their roles; emphasizes the full range of contributions of and the limited opportunities for women; examines and appraises the experiences of women; and critically examines the thinking about women at various times and from various perspectives. The basic approach is interdisciplinary and the concentration of the course is on women in the United States from the nineteenth century to the present. This course satisfies either one Social Science requirement or the second literature requirement in both Cores. In addition, the course can serve as an elective in the major or minor programs in Psychology, Sociology, or History. In Modern and Classical Languages, CLT 285 may count for the one course that French or Spanish majors may take from the Modern and Classical Languages offerings in English.

Choquette, Farough, Keyes, Leone, Loustaunau, Parmley/Three credits

**CLT/ENG/HIS/PSY/WMS 385 WOMEN OF THE WORLD**
This team-taught course helps students learn about the character and quality of women’s lives across cultures in the contemporary period and to study the consequences of globalization by examining it through the prism of gender. Accounts of women’s lives in regions outside the United States are presented along with readings that provide the historical, social, political, and economic background needed to fully understand these lives. In this course we encounter the powerful and the powerless; the rich and the poor; the courageous and the meek; and in learning their stories we also learn something about the world they inhabit and that we inhabit along with them. In experiencing this world of women, we learn about the human struggles that unite and divide people across cultures in the modern world. This course qualifies as an elective in the major and minor programs in Anthropology, History, Psychology, or Sociology. It also can be chosen to fulfill the Cultural Perspectives requirement in the Human Services and Rehabilitation Studies major. This course satisfies the Global Awareness Core requirement, and, if taken as Comparative Literature or English, fulfills the second literature requirement in the Great Conversation part of the Core.

Kisatsky, Mukhina, Murphy, Perschbacher, Rao/Three credits
Department of Mathematics, Computer Science, and Cybersecurity

Associate Professors: Brooke M. Andersen, Suzanne Kelton, Jessica A. McCready (Chairperson); Assistant Professors: Joseph A. Alfano, Matthew Creek; Professor of Practice, Raymond Albert; Visiting Instructor: Suzanne L. Kozak; Lecturers: Giana Battista, Pawan Gupta, Dana James, Raul Laborde, Jun Thomas Ma, Karen McGrail, Jennifer McLarnon, Peter Sullivan, Gerald Taylor, Maria Cevallos Warren.

MISSION STATEMENT: COMPUTER SCIENCE
The Computer Science program at Assumption University serves all students interested in computer science, computers, and their applications in a supportive and stimulating learning environment. As the science of computer technology, we support the liberal arts mission of the university through the Core Curriculum. As a source of computing skills, we offer courses supporting the development of technical proficiency. For those students who become majors or minors in computer science, we seek to develop their programming skills, their knowledge of computer hardware and software, and an appreciation of the social and ethical implications of technology. The major provides a foundation for a variety of professional careers in the computer industry and for graduate study in computer science.

MISSION STATEMENT: MATHEMATICS
The Mathematics program at Assumption University serves all students interested in mathematics and its applications in a supportive and stimulating learning environment. As mathematics is a founding discipline of the liberal arts, we support the mission of the university through our course offerings in the Core Curriculum. As mathematics is the language of science and quantitative analysis, we offer courses for majors in the sciences and business studies. For those students who become majors or minors in mathematics, we seek to develop their problem-solving skills, their reasoning abilities, and their knowledge of the various fields of mathematics. The major provides a foundation for professional careers, especially the teaching profession, and for graduate study in mathematics.

MAJOR IN COMPUTER SCIENCE (15)
The major consists of a total of fifteen (15) required courses, which comprise seven specifically required courses in computer science, five electives in computer science, and three courses in mathematics:

REQUIRED COURSES (10)
First Year/Sophomore:

CSC 117 Introduction to Programming
CSC 250 Intermediate Programming
CSC 305 Data Structures*
CSC 260 Command Line Interfaces
MAT 117–118 Calculus I and II

OR

MAT 131–132 Elementary Calculus I and II
MAT 202 Discrete Structures

Sophomore / Junior:

CSC/CYB 230 Networking and Data Communications
CSC 231 Computer Architecture**
CSC 321 Database Management Systems
**ELECTIVES (5)**

A minimum of five additional courses chosen from computer science courses numbered above 205 or MAT 356 Numerical Analysis or PHY 213 Introduction to Engineering.

The required courses are offered every year, excepting CSC 231. This course and the elective courses are offered in alternate years. Students should consult with an advisor in the department to plan their program.

In addition to the 15 courses taken to satisfy the requirements listed above for the major, CSC majors are encouraged to take MAT 203 Linear Algebra and MAT 208 Probability Theory.

* If necessary, may be taken in the fall of junior year.
** If not offered during sophomore year, must be taken during junior year.

**MAJOR IN CYBERSECURITY (14)**

Cyberspace is a dynamic and evolving ecosystem, with complex, multifaceted networks that connect individuals, organizations and national and international entities. However, cyberspace’s expansion presents new weaknesses to exploit, making it vulnerable to intrusion and exploitation. Cyber threats and vulnerabilities have grown exponentially with the explosion of technology and connectedness, affecting individuals, organizations, and nations alike. And while cyber threats and vulnerabilities challenge our economic prosperity, organizational sustainability and individual identity and privacy, they have also emerged as a leading threat to national security.

The Assumption University Bachelor of Science in Cybersecurity offers a technology-based education, using methods in computing and information science, engineering, social science and technology management that also foster innovation and entrepreneurship in the digital information economy. The faculty, drawn from different areas of expertise in cybersecurity, will engage students in finding solutions to emerging global cyber threats. At Assumption, a Bachelor of Science in Cybersecurity will educate the next generation of leaders and architects in cybersecurity, who possess technological expertise and practical training to help secure, develop, and sustain the cyberspace ecosystem.

**LEARNING GOALS**

Assumption University Cybersecurity program graduates will be able to:

- Apply knowledge of computing and information technologies and use software development and security analysis tools to produce effective designs and solutions for specific cybersecurity problems within a variety of computing platforms and employing an approved secure systems development process model;
- Identify, analyze, and synthesize scholarly and professional literature relating to the fields of cybersecurity, information security, or information assurance, to help solve specific problems and to stay abreast of the rapidly changing security context;
- Participate as an active and effective member of a project team engaged in achieving specific computer-based cybersecurity results or solutions;
- Communicate, both orally and in writing, and negotiate with colleagues and other stakeholders including employees, managers, and executives within and between organizations;
- Demonstrate sensitivity to and sound judgment on ethical issues as they arise in cybersecurity and will adhere to accepted norms of professional responsibility;
- Integrate their technical expertise with knowledge from other disciplines, such as computer science, data analytics, economics, management science, psychology and human factors, to arrive at practical cybersecurity solutions that are effective in real organizations; and
- Use appropriate tools to prevent, detect, respond, and recover from cyber-attacks.

The Bachelor of Science in Cybersecurity comprises 14 required courses: one course in Statistics, three courses in Computer Science; four Cybersecurity Core Courses; and six advanced courses in Cybersecurity including an Independent Cybersecurity Project or Internship.
REQUIRED COURSES (14)

First Year
- ECO 115 Statistics, or PSY 224, or SOC 300
- CSC 117 Introduction to Programming, or CSC 120 Statistics Programming
- CYB 115 Cybersecurity Fundamentals

Sophomore Year
- CSC 321 Database Management Systems
- CSC/CYB 230 Networking and Data Communications
- CSC/CYB 235 Securing Wired and Wireless Networks
- CYB 265 Operating Systems Administration
- CSC 303 Operating Systems

Junior Year
- CYB 304 Cryptography
- CYB 318 Software and Application Security
- CYB 328 Computer, Network Forensics and Digital Investigations
- CYB 401 Preparing for Cyber Disasters

Senior Year
- CYB 338 Ethical Hacking
- CYB 438 Independent Cybersecurity Project or Internship

MINOR IN COMPUTER SCIENCE (8)

A minor in computer science consists of eight courses, which must include:
- CSC 117 Introduction to Programming
- CSC 250 Intermediate Programming
- CSC 305 Data Structures
- MAT 117–118 Calculus I and II
  **OR**
- MAT 131–132 Elementary Calculus I and II
- MAT 202 Discrete Structures

The remaining two courses may be chosen from the computer science courses numbered above 250.

MINOR IN INFORMATION TECHNOLOGY (6)

The IT Minor consists of six courses, which comprise two required courses, and four electives taken in the Applied Track (for students majoring in Accounting); the Online Track (for students majoring in Marketing or Organizational Communication) or the Analytical Track (for students majoring in Management or International Business).

REQUIRED COURSES (2)
- CSC 113 Introduction to Computer Science
- ACC 211 Accounting Information Systems

ELECTIVES (4)

Applied Track Electives:
- CSC 117, CSC 175, CSC 250, CSC 301, MKT 326, MKT 327

Online Track Electives:
- CSC 117, CSC 175, CSC 250, CSC 301, MKT 326, MKT 327

Analytical Track Electives:
- CSC 117, CSC 175, CSC 250, CSC 261, CSC 301, CSC 327, MKT 326
SOFTWARE DEVELOPMENT
Students interested in software developer positions should consult with the Chairperson of the Department of Mathematics and Computer Science to plan a course of study. Suggested coursework includes a major in Computer Science taking the electives CSC 301 Systems Analysis and Design and CSC 317 Java Programming.

MAJOR IN MATHEMATICS (12)
The major consists of a total of twelve (12) required courses, which comprise eight specifically required courses, four electives, and a comprehensive examination.

REQUIRED COURSES (8)
First Year/Sophomore
MAT 131–132  Honors Elementary Calculus I and II*
OR
MAT 117–118  Calculus I and II
CSC 117   Introduction to Programming
OR
CSC 120   Statistics Programming
MAT 231   Calculus III
MAT 232   Multivariable Calculus (If necessary, may be taken in junior year.)
MAT 202   Discrete Structures
MAT 203   Linear Algebra
Senior Year
MAT 401   Mathematics Seminar, offered Fall only
Senior Mathematics Assessment

ELECTIVES (4)
A minimum of four additional mathematics courses numbered above 200 or PHY 213 Introduction to Engineering. At least two electives must be 300-level courses, including at least one course chosen from:
MAT 332  Real Analysis
MAT 351  Modern Algebra I
MAT 358  Topology

SENIOR MATHEMATICS ASSESSMENT
Each mathematics major must pass a comprehensive examination administered at the end of the fall or the spring semester of the senior year. The exam is based on 8 topics covered in the required mathematics courses. Frequently included topics are Theory of Differentiation; Differentiation Techniques; Theory of Integration; Integration Techniques; Sequences and Series; Discrete Mathematics; Linear Algebra; and topics from the Mathematics Seminar.

The required courses are offered every year. Elective courses are offered in alternate years. Students should consult with an advisor in the department to plan their program.

*Students considering a major in mathematics are encouraged to take MAT 131–132 rather than MAT 117–118 in their first year.

MAJOR IN MATHEMATICS, ELEMENTARY EDUCATION TRACK (10)
The Elementary Track applies only to those students who are pursuing a concurrent Major in Education with a licensure emphasis in Elementary (1–6). If a student withdraws from the Education Major, then the option to pursue the Elementary Track in the
Mathematics Major no longer applies. Mathematics Majors who are pursuing licensure in Middle/Secondary Education (5–8; 8–12) would still take the standard 12 courses required Mathematics Major, as given above.

**REQUIRED COURSES (6)**
First Year/Sophomore
- MAT 131–132 Honors Elementary Calculus I and II
- OR
- MAT 117–118 Calculus I and II
- MAT 150 Numbers and Operations for Educators
- MAT 202 Discrete Structures
- MAT 203 Linear Algebra
- MAT 231 Calculus III

Senior Year
- Senior Mathematics Assessment

**ELECTIVES (4)**
A minimum of four additional mathematics courses numbered above 200. At least two of these courses must be at the 300 level, including at least one course chosen from:
- MAT 332 Real Analysis
- MAT 351 Modern Algebra I
- MAT 358 Topology

NOTE: The Elementary Track only applies to those students who are pursuing a concurrent Major in Education with a licensure emphasis in Elementary Education (1–6). If a student withdraws from the Education Major, then the option to pursue the Elementary Track in the Mathematics Major no longer applies.

**MINOR IN MATHEMATICS (6)**
A minor in mathematics consists of six courses, which must include:
- MAT 131–132 Elementary Calculus I and II
- OR
- MAT 117–118 Calculus I and II
- MAT 202 Discrete Structures

The remaining three courses may be chosen from the mathematics courses numbered above 200 with at least one course numbered above 300.

**TEACHER PREPARATION**
Students interested in the Major in Education should consult with the Chairperson of the Mathematics Department and the Licensure Program Coordinator in the Education Department to plan a course of study. Middle school (5–8) and secondary school (8–12) teacher of mathematics programs require a Major in Mathematics. The required courses for the major and the following elective courses address the subject matter knowledge prescribed by the Massachusetts Department of Education for the field of licensure.
- MAT 204 Number Theory (8–12)
- MAT 208 Probability Theory (8–12)
- MAT 351 Modern Algebra I (8–12)
- MAT 353 Advanced Euclidean Geometry (5–8, 8–12)
- ECO 115 Statistics OR PSY 224 Statistics (5–8, 8–12)
MAJOR IN ACTUARIAL SCIENCE (15)
The Actuarial Science major consists of a total of fifteen (15) required courses, which comprise seven specifically required courses in mathematics, six required courses in economics, and two in business studies:

REQUIRED COURSES (15)

First Year/Sophomore:
MAT 131–132 Elementary Calculus I and II

OR
MAT 117–118 Calculus I and II

MAT 231 Calculus III
MAT 232 Multivariable Calculus
MAT 202 Discrete Structures
MAT 208 Probability Theory
ECO 110 Microeconomics
ECO 111 Macroeconomics
ACC 125 Principles of Accounting I
ACC 126 Principles of Accounting II

Sophomore/Junior
MAT 207 Actuarial Mathematics
ECO 115 Statistics
ECO 215 Econometrics I
FIN 325 Managerial Finance (formerly ECO-325 Corporate Finance)
FIN 357 Investment Theory (formerly ECO-357 Investment Theory)

Senior Year
Senior Mathematics Assessment

RECOMMENDED COURSES
Students in Actuarial Science should also consider these additional courses, e.g. toward the pursuit of a minor in Finance or Economics.

MAT 203 Linear Algebra
MAT 332 Real Analysis
MAT 355 Differential Equations
CSC 113 Introduction to Computer Science
CSC 117 Introduction to Programming
CSC 120 Statistics Programming
CSC 175 Databases and Spreadsheets
CSC 261 Simulation
CSC 327 Operations Research
ECO 230 Law and Economics
ECO 310 Microeconomic Theory
ECO 311 Macroeconomic Theory
ECO 315 Econometrics II
ECO 331 Industrial Organization

Actuarial Science majors are encouraged — but not required — to take the first Actuarial Exam (Exam P, Probability, sponsored by the Society of Actuaries) soon after taking MAT 208. Exam P is a minimum requirement for entry into a summer internship or
full time employment as an actuary in an insurance company program. Advanced students may also consider taking the second Actuarial Exam (Exam FM, Financial Mathematics) before graduation.

**MAJOR IN DATA ANALYTICS (15)**
The major consists of a total of fifteen (15) required courses, which comprise thirteen specifically required courses in computer science, mathematics and statistics; and two electives:

**REQUIRED COURSES (13)**
First Year/Sophomore
- CSC 117  Introduction to Programming
- CSC 120  Statistics Programming
- CSC 233  Large Data Sets
- CSC 333  Machine Learning
- MAT 131–132 Honors Elementary Calculus I and II
  or
- MAT 117–118 Calculus I and II

Statistics, either ECO 115 or SOC 300 or PSY 224

Sophomore/Junior
- CSC 130  Data Visualization
- CSC 175  Databases and Spreadsheets
  or
- CSC 321  Database Management Systems
- MAT 202  Discrete Structures
- MAT 203  Linear Algebra
- MAT 208  Probability Theory
- ECO 215  Econometrics I

**ELECTIVES (2)**
- ACC 211  Accounting Information Systems
- ACC 331  Fraud Examination
- ACC 332  Forensic Accounting
- BIO 260  Bioinformatics
- BUS 304  Business Research
- CSC 261  Simulation
- CSC 327  Operations Research
- ECO 216  Sports Data Analysis
- ECO 315  Econometrics II
- GEO/SOC 108  World Population Issues
- MGT 230  Decision Analytics for Managers
- PSY 225  Research Methods in Psychology
- SOC 465  Sociological Research Methods

**RECOMMENDED BUT NOT REQUIRED**
- CSC 301  Systems Analysis and Design
- CSC 305  Data Structures
- CSC 317  Java Programming
- CSC/CYB 230  Networking and Data Communications
MINOR IN DATA ANALYTICS (7)
The Data Analytics Minor consists of seven courses, which comprise five required courses, and two electives.

REQUIRED COURSES (5)
- CSC 117 Introduction to Programming OR CSC 120 Statistics Programming (choose one)
- CSC 175 Databases and Spreadsheets OR CSC 321 Database Management Systems (choose one)
- ECO 115 Statistics OR SOC 300 Statistics OR PSY 224 Statistics (choose one)
- ECO 215 Econometrics I
- MAT 203 Linear Algebra

ELECTIVES (2)
- ACC 211 Accounting Information Systems
- ACC 331 Fraud Examination
- ACC 332 Forensic Accounting
- BIO 260 Bioinformatics
- BUS 304 Business Research
- CSC 117 Introduction to Programming
  - OR
- CSC 120 Statistics Programming, if not already taken for Requirement 1
- CSC 130 Data Visualization
- CSC 233 Large Data Sets
- CSC 333 Machine Learning
- CSC 261 Simulation
- CSC 327 Operations Research
- ECO 216 Sports Data Analysis
- ECO 315 Econometrics II
- GEO/SOC 108 World Population Issues
- MAT 208 Probability Theory
- MGT 230 Decision Analytics for Managers
- PSY 225 Research Methods in Psychology
- SOC 465 Sociological Research Methods

RECOMMENDED BUT NOT REQUIRED
PHI 260 Business Ethics OR MGT 350 Professional and Ethical Responsibilities in the Sport Industry
COURSE DESCRIPTIONS

COMPUTER SCIENCE (CSC)

CSC 113  INTRODUCTION TO COMPUTER SCIENCE
This course presents an overview of computers and their applications. Students are exposed to a variety of platforms (e.g. MAC, PC, etc.). Topics include popular applications as well as hardware, software, the Internet, social implications and multimedia. Not open to those who have taken CSC 117. (Fall, Spring) Ma, Warren/Three credits

CSC 117  INTRODUCTION TO PROGRAMMING
This course is an introduction to the field of computer science and structured programming in C++. Topics include basic computer architecture, the algorithmic approach to problem solving, various number systems, and logic. The programming language constructs introduced include types of variables, arithmetic operations, input/output, decision statements, loops, and functions. (Fall) Staff/Three credits

CSC 120  STATISTICS PROGRAMMING
This course introduces the Python programming language and the R programming language for statistical computing. Students will gain proficiency in writing computer programs to solve basic problems in data analysis. Applied problems will be chosen from a wide variety of subject areas. Prerequisite: Math placement at the level of MAT 114 or higher or completion of MAT 111. (Fall, Spring) Creek/Three credits

CSC 130  DATA VISUALIZATION
This course introduces computer-based techniques for the visual display of quantitative information. Students will gain proficiency in the use of Excel, Tableau, and R to produce effective data visualizations and information graphics. Prerequisite: ECO 115, SOC 300 or PSY 224 Statistics. (Spring) Alfano/Three credits

CSC 175  DATABASES AND SPREADSHEETS
This course covers the establishment and effective use of a database using Access: design, screen forms and data-entry, queries, updating, linking related tables, report generation, and export/import to other programs. It also presents the design and application of spreadsheets using Excel: formatting, ranges, built-in functions, user-defined formulas, array formulas, table-lookups, summaries by pivot tables, graphing, linking, and macros. Some mathematical background is assumed. Prerequisite: CSC 113 or CSC 117. (Fall) Ma/Three credits

CSC/CYB 230  NETWORKING AND DATA COMMUNICATIONS
This course expands upon the principles and current trends in computer networks as identified in Cybersecurity Fundamentals. Students will deepen their understanding of wide area networks (WANs), local area networks (LANs) and their architectures across which data travels and communicates. Subjects will include the open systems interconnection (OSI) model, transmissions control protocol / internet protocol (TCP/IP), open systems, topologies and internet connected devices. Through in-class projects, theoretical and practical approaches toward building and maintaining local area networks will be covered. Prerequisites: CYB 115 or CSC 117 or CSC 120, or Instructor’s permission. (Fall) Gupta, Battista/Three credits

CSC 231  COMPUTER ARCHITECTURE
A course introducing the student to computer architecture and assembly language programming. Topics will include memory and addressing, data representation, real and integral arithmetic, instruction formats and sets, indexing, subroutines, and error correction. Prerequisite: CSC 117 or equivalent. (Fall 2022, Fall 2024) Staff/Three credits
CSC 233 LARGE DATA SETS
This course gives the student a detailed introductory experience in skills required for performing data analytics. These skills may include, but are not limited to: data extraction and import; data tidying and transformation; data visualization for exploratory analysis; constructing statistical models from the data; assessing and improving the models; and communicating the results. The programming language, e.g. R or Python, is determined by the instructor. Prerequisite: CSC 120. (Spring)
Creek/Three credits

CSC/CYB 235 SECURING WIRED AND WIRELESS NETWORKS
This course provides students who have a basic understanding of computer networking and data communications with the methods and techniques used to secure networks. Students will be required to design and build a secure local area network, incorporating all elements of the seven layers of the OSI Model. Students will learn the capabilities, limitations and vulnerabilities of a cyber network that can be dynamic yet strong against aggressive hackers and virus outbreaks. Also the goal of this course is to provide students with both technical and theoretical approaches to the deployment, securing and defending of wireless networks. Topics will address network attacks, intrusion detection, malware, rogue wireless networks and wireless networking through the cloud. Students must already possess a basic knowledge of information security and networks. Team projects and presentations are required for completion. Prerequisites: CYB 115 and CSC/CYB 230, or Instructor’s permission. (Spring)
Gupta/Three credits

CSC 250 INTERMEDIATE PROGRAMMING
This course extends the computer science and programming concepts introduced in CSC 117. The advanced topics include: objects, pointers, arrays, records, string types, and functions with output parameters. Prerequisite: CSC 117. (Spring)
Staff/Three credits

CSC 260 COMMAND LINE INTERFACES
This course introduces a command language computing environment, the bash shell interface to the Linux operating system. Topics covered include: an exploration of the bash shells, hierarchical file structure, file permissions, multiuser systems, utilities, shell scripts, I/O redirection, pipes, and programming in C++. Prerequisite: CSC 117. (Spring)
Staff/Three credits

CSC 261 SIMULATION
Exposition of basic ideas of digital computer simulation of stochastic processes, and the application of those ideas to practical problems. Prerequisite: CSC 117. (Spring 2022, Spring 2024)
Staff/Three credits

CSC 301 SYSTEMS ANALYSIS AND DESIGN
A course dealing with all aspects of system design and implementation. Problem definition, feasibility study, system design tools, system development control, and implementation and evaluation of systems will be covered. Prerequisite: CSC 117 or equivalent. (Fall 2021, Fall 2023)
Gupta/Three credits

CSC 303 OPERATING SYSTEMS
This course introduces operating system design emphasizing process management for multiuser and networked systems. Topics covered include: process scheduling, interprocess communication, race conditions and solutions, memory, device and file management. Prerequisites: CSC 260 and CSC 305, or declared in the Cybersecurity Major, or instructor’s permission. (Spring)
Staff/Three credits

CSC 305 DATA STRUCTURES
This course introduces complex data structures such as trees, lists, stacks, and matrices. It also covers the classification of an algorithm by computing its order. The algorithms that will be analyzed include various sorting and searching methods. Prerequisite: CSC 250. (Fall)
Staff/Three credits
CSC 317  JAVA PROGRAMMING
Java is an object-oriented programming language with many interactive multimedia capabilities. This course covers the fundamentals of Java programming language, including how to write, debug, and execute Java programs. The course covers object-oriented programming techniques, as well as creating Java applets and applications. Prerequisite: CSC 305. (Spring 2023, Spring 2025)
Staff/Three credits

CSC 321  DATABASE MANAGEMENT SYSTEMS
This course deals with both the operational and decision support environment of database systems. Topics include indexing, randomization, physical blocking, and relational and hierarchical structures. Previous experience at the level of CSC 175 or equivalent is recommended. Prerequisite: CSC 305, or declared in the Cybersecurity Major, or instructor’s permission. (Spring)
Staff/Three credits

CSC 327  OPERATIONS RESEARCH
Concepts, methods, and introduction to the theory of optimization of linear systems. Topics to include simplex method, duality, sensitivity, formulation, and classic problems, e.g., maximal flow, travelling salesman, and assignment. Prerequisites: CSC 305 must be completed or taken concurrently. (Fall 2022, Fall 2024)
Staff/Three credits

CSC 333  MACHINE LEARNING
This course studies the construction of computer algorithms that can learn from and make predictions on data sets. Methods for supervised learning (linear regression, logistic regression, regularization, support vector machines, decision trees, naive Bayes, linear discriminant analysis) and unsupervised learning (k-means, principal component analysis, matrix factorization, singular value decomposition). Issues of feature selection, dimensionality reduction, bias-variance tradeoff, cross-validation. Prerequisite: CSC 233. (Fall)
Alfano/Three credits

CYBERSECURITY (CYB)

CYB 115  CYBERSECURITY FUNDAMENTALS
This course provides a bird’s eye view of the evolving cyberspace ecosystem, the interoperability of physical and social networks, and methods and techniques in securing that ecosystem. Students will explore the ethical, legal, and technical aspects of cybercrime and methods of prevention, detection, response and recovery. The value of strong moral character, integrity, and trust as prized attributes of cybersecurity practitioners will be highlighted. Students will be introduced to essential cybersecurity topics including operating system models and mechanisms for mandatory and discretionary controls, data models, basic cryptography and its applications, security in computer networks and distributed systems, inspection and protection of information assets, detection of and reaction to threats to information assets, and examination of pre- and post-incident procedures, technical and managerial responses, an overview of the information security planning and staffing functions, data mining and data science, and policy and assurance issues. The advantages and inherent value of being prepared as a life-long learner with a strong liberal-arts background will be emphasized with the opportunity for students to complete a service-learning project tailored to their academic/career goals. No prior computer programming experience is required. Basic competency in computer operation is required. (Fall, Spring)
Sullivan, McLarnon/Three credits

CSC/CYB 230  NETWORKING AND DATA COMMUNICATIONS
This course expands upon the principles and current trends in computer networks as identified in Cybersecurity Fundamentals. Students will deepen their understanding of wide area networks (WANs), local area networks (LANs) and their architectures across which data travels and communicates. Subjects will include the open systems interconnection (OSI) model, transmissions control protocol / internet protocol (TCP/IP), open systems, topologies and internet connected devices. Through in-class projects, theoretical and practical approaches toward building and maintaining local area networks will be covered. Prerequisites: CYB 115 or CSC 117 or CSC 120, or Instructor’s permission. (Fall)
Gupta, Battista/Three credits
CSC/CYB 235  SECURING WIRED AND WIRELESS NETWORKS
This course provides students who have a basic understanding of computer networking and data communications with the methods and techniques used to secure networks. Students will be required to design and build a secure local area network, incorporating all elements of the seven layers of the OSI Model. Students will learn the capabilities, limitations and vulnerabilities of a cyber network that can be dynamic yet strong against aggressive hackers and virus outbreaks. Also the goal of this course is to provide students with both technical and theoretical approaches to the deployment, securing and defending of wireless networks. Topics will address network attacks, intrusion detection, malware, rogue wireless networks and wireless networking through the cloud. Students must already possess a basic knowledge of information security and networks. Team projects and presentations are required for completion. Prerequisites: CYB 115 and CSC/CYB 230, or Instructor’s permission. (Spring) Gupta/Three credits

CYB 265  OPERATING SYSTEMS ADMINISTRATION
Learn how best to protect computers, the data they store, process and transmit, and the users who use them, from a wide array of cybersecurity threats. This course will introduce students to operating systems administration within the context of cybersecurity. Students will learn how best to perform basic system administration operations with an emphasis on methods (e.g., managing applications, services, and network ports) to fortify the security of the computer’s operating system. The class will provide coverage of methods used in the Microsoft Windows® and Linux® operating systems. Prerequisites: CYB 115, or Instructor’s permission. (Fall 2022, Fall 2024) Staff/Three credits

CYB 304  CRYPTOGRAPHY
Cryptography is a key component in securing data while it is stored, processed, and transmitted. Cryptography components are found in computer applications and also utilized to secure network communications. This course will introduce students to the principles of cryptography, cryptographic number theory, including hash functions, symmetric and asymmetric cryptography, and their common applications in network security and corresponding susceptibility to attacks/failures. Students will learn how best to compare, select, and apply cryptographic approaches to fortify cybersecurity. Other topics include cryptographic algorithms and programming. Prerequisites: CYB 235, or Instructor’s permission. (Spring 2022, Spring 2024) Albert/Three credits

CYB 318  SOFTWARE AND APPLICATION SECURITY
Software security represents a key aspect in the field of cybersecurity. This course will ground students in the concepts of malware, malware analysis and preventive measures during software development that can mitigate malicious activity. Theoretical approaches to software security will be complemented by practical scenarios from which students can conduct future software design and investigations. Prerequisites: CYB 235, or Instructor’s permission. (Fall 2021, Fall 2023) Albert/Three credits

CYB 328  COMPUTER, NETWORK FORENSICS AND DIGITAL INVESTIGATIONS
This course studies the technology and practice of investigating the abuse of computing systems and digital devices. As criminal and adversarial activity becomes faster and less visible over networks, students must understand how to search for, and extract information from, cyberspace. This course will provide unparalleled insight into digital forensics methods and laws, complemented with practical lab work. This course also introduces students to the theory and practice of network traffic analysis and intrusion detection. Students will learn “traceback” techniques and information retrieval methods to identify different attacks. Topics covered will include network forensics, intrusion detection and response, case studies, and issues of cyber law and ethics. Students must have basic knowledge of networking, and operating systems. Team projects and presentations are required for completion. Prerequisites: CYB 235, or Instructor’s permission. (Fall 2021, Fall 2023) Albert/Three credits

CYB 338  ETHICAL HACKING
This course will introduce students to ethical hacking and penetration testing methods, learning to think like a cyber-criminal and develop secure countermeasures. Students will learn the systematic approaches to planning, reconnaissance, vulnerability identification and exploitation methods used by hackers around the world to compromise the security of existing networks, systems, and applications. A variety of penetration-testing tools and techniques will be explored through hands-on activities. Identification of corresponding cybersecurity control recommendations will be highlighted. Prerequisites: CYB 235, or Instructor’s permission. (Fall 2022, Fall 2024)
Albert/Three credits

**CYB 401 PREPARING FOR CYBER DISASTERS**
This course will provide students a full picture of securing a firm from a cyberattack. Topics will include preparatory measures that continuously investigate network integrity, data security, and backup archives. Students will also develop Cyber Disaster Response Plans that consider the legal, economic, and physical requirements needed to recover from a cyberattack. Prerequisites: CYB 235, or Instructor’s permission. (Spring 2022, Spring 2024)

Sullivan/Three credits

**CYB 438 INDEPENDENT CYBERSECURITY PROJECT OR INTERNSHIP**
Students in the Cybersecurity program will have the option during one semester to conduct and present an independent cybersecurity project or intern part time with a cybersecurity employer in the business, government or nonprofit sectors. This course is designed to provide a culminating experience that avails students the opportunity to apply what they have learned to a contemporary cybersecurity project or internship experience that is framed by current cybersecurity industry trends and concerns. The course also helps students continue to improve skills critical to success in pursuit of their future academic and career aspirations. Prerequisites: Junior or Senior standing in Cybersecurity major, or Instructor’s permission. (Fall, Spring)

Albert/Three credits

**MATHEMATICS (MAT)**

**MAT 111 INTRODUCTORY MATHEMATICS**
An introductory course in basic algebra which covers the following topics: properties of real numbers, linear equations and inequalities, functions and graphs, polynomials, fractional algebra, radicals, and rational exponents. Not open to those who have completed any other mathematics course. (Fall, Spring)

Kozak/Three credits

**MAT 114 ELEMENTARY FUNCTIONS**
A survey of those topics in algebra, trigonometry, and analytic geometry which provide the background for the study of calculus. Topics to be covered include exponential and logarithmic functions, complex numbers and polynomial functions, trigonometry, plane analytic geometry, and systems of linear equations and inequalities. Not open to those who have completed MAT 117 or 131. Prerequisite: MAT 111 or departmental permission through placement. Counts in the Core Curriculum Requirements as Mathematics Group A. If only one Mathematics course is taken to fulfill the Core requirement in Mathematics, it must be at this level or higher. (Fall, Spring)

Staff/Three credits

**MAT 117 CALCULUS I**
An introductory course in differential calculus. Topics to be covered include limits and continuity, the derivative and applications, and an introduction to integration. Not open to those who complete MAT 117. Prerequisite: MAT 114 or departmental permission through placement. (Fall, Spring)

Staff/Three credits

**MAT 118 CALCULUS II**
The continuation of MAT 117. Topics to be covered include the definite integral and applications, elementary techniques of integration. Not open to those who complete MAT 131 or MAT 132. Prerequisite: MAT 117. (Fall, Spring)

Creek, Staff/Three credits

**MAT 131 ELEMENTARY CALCULUS I (Honors)**
A more rigorous introduction to calculus for entering students with good backgrounds in mathematics. Recommended for students considering a major in mathematics. Topics include the real numbers, functions, limits, the derivative and applications. Not open to those who complete MAT 117 or MAT 118. Prerequisite: Departmental permission through placement. (Fall)

Creek/Three credits
MAT 132  ELEMENTARY CALCULUS II (Honors)
A more rigorous introduction to calculus for entering students with good backgrounds in mathematics. Recommended for students considering a major in mathematics. Topics include the integral and applications, and techniques of integration. Not open to those who complete MAT 117 or MAT 118. Prerequisite: Departmental permission through placement. (Spring)

MAT 150  NUMBERS AND OPERATIONS FOR EDUCATORS
In this course, students will investigate fundamental mathematics concepts associated with numbers, operations, and patterns. One of the major goals of the course is for students to develop deeper conceptual understandings of the mathematics concepts they will teach in the elementary and middle grades. Not only will students gain computational proficiency but also the ability to explain to students, in multiple ways, why mathematics concepts make sense. The course heavily emphasizes the use of open-ended problem-solving methods of teaching and learning to help students develop their own functional understanding of the major concepts. A significant focus of this course will be on problem solving, reasoning and proof, multiple representations, recognizing connections (across mathematics and other disciplines), and mathematical communication. The course is intended for students planning on pursuing a career in elementary or middle school education. As such, particular attention is given to understanding common misconceptions that children have when learning about specific mathematics concepts and considering the ramifications of these misconceptions for the development of effective classroom instruction. This course is a prerequisite for EDU 324: Mathematics Teaching in the Elementary Classroom. Prerequisite: MAT 114 or higher. (Fall, Spring)

MAT 151  ALGEBRA, GEOMETRY, AND DATA ANALYSIS FOR EDUCATORS
In this course, students will investigate fundamental mathematics concepts associated with algebra, geometry, and data analysis. One of the major goals of the course is for students to develop deeper conceptual understandings of the mathematics concepts they will teach in the elementary and middle grades. Not only will students gain computational proficiency but also the ability to explain to students, in multiple ways, why mathematics concepts make sense. The course heavily emphasizes the use of open-ended problem-solving methods of teaching and learning to help students develop their own functional understanding of the major concepts. A significant focus of this course will be on problem solving, reasoning and proof, multiple representations, recognizing connections (across content areas and disciplines), and mathematical communication. The course is intended for students planning on pursuing a career in elementary or middle school education. As such, particular attention is given to understanding common misconceptions that children have when learning about specific mathematics concepts and considering the ramifications of these misconceptions for the development of effective classroom instruction. Recommended for elementary education majors and middle/secondary mathematics education majors. Prerequisite: MAT 114 or higher. (Spring)

MAT 190  FACILITATING A MATHEMATICS ACADEMY I
This course is part 1 of a 2-course sequence intended to prepare students to be facilitators/leaders of the Assumption College Mathematics Academy (ACMA) in Summer 2021. Students will participate in the mathematics activities that could be used with high school students during the ACMA. Students will collaboratively develop ideas about the content of the ACMA program. This course will meet for 1-hour a week. (Fall)

MAT 202  DISCRETE STRUCTURES
This course is an introduction to mathematical logic and discrete systems. Topics include Boolean algebra, mathematical proof, sets, relations, functions, induction, combinatorics, graph theory, and applications. Prerequisite: MAT 118 or MAT 132 must be completed or taken concurrently. (Fall)

MAT 203  LINEAR ALGEBRA
Linear systems of equations, matrix algebra, determinants, vector spaces, linear transformations, matrix representations of linear transformations, and applications. Prerequisite: MAT 202 or permission of instructor. (Spring)
MAT 204  NUMBER THEORY
Divisibility theory, prime factorization, congruences, Fermat’s theorems, the phi-function, Euler’s Theorem, and applications. Prerequisite: MAT 202. (Spring 2022, Spring 2024)
Creek/Three credits

MAT 207  ACTUARIAL MATHEMATICS
Mathematical theory and practical application of compound interest, including the measurement of interest, annuity calculations, loan repayment, and security valuation. Stress laid on theoretical foundations, derivations, and proofs. Introduction to financial simulation. Prerequisite: MAT 202. (Fall 2022, Fall 2024)
Alfano/Three credits

MAT 208  PROBABILITY THEORY
Combinatorial problems, conditional probability, dependence and independence, probability measures, distributions, and stochastic processes. Prerequisite: MAT 118 or MAT 132. (Spring)
Alfano/Three credits

MAT 231  CALCULUS III
A second-year course in calculus, designed to follow either MAT 118 or MAT 132. Topics to be covered include improper integrals, sequences and series, parametric curves, polar coordinates, and vector geometry. Prerequisite: MAT 118 or MAT 132. (Fall)
Andersen/Three credits

MAT 232  MULTIVARIABLE CALCULUS
A course in the calculus of functions of several variables. Topics to be covered include multivariable functions, partial derivatives, multiple integrals and the theorems of Green, Gauss, and Stokes. Prerequisite: MAT 231. (Spring)
Andersen/Three credits

MAT 332  REAL ANALYSIS
A course in classical real analysis. Topics to be covered include the real number system; convergence of sequences; limits and continuity of functions; differentiation; and integration. Prerequisite: MAT 202, and MAT 232 or permission of instructor. (Fall 2021, Fall 2023)
Staff/Three credits

MAT 351  MODERN ALGEBRA I
An introductory course in abstract algebra. This course will cover the theory of groups and the definitions of rings and fields. Prerequisite: MAT 202. (Fall 2022, Fall 2024)
Kelton/Three credits

MAT 352  MODERN ALGEBRA II
The continuation of MAT 351. Topics include advanced group theory, and the theory of rings and fields. Prerequisite: MAT 351. (Spring 2023, Spring 2025)
Kelton/Three credits

MAT 353  ADVANCED EUCLIDEAN GEOMETRY
An axiomatic approach to geometry built on Euclid's work with an emphasis on theorems and proofs. Topics include congruence, constructions, area, angle measure, similar figures, circle measure, and perspective geometry. Prerequisite: MAT 118 or MAT 132, and MAT 202. (Fall 2021, Fall 2023)
Andersen/Three credits

MAT 355  DIFFERENTIAL EQUATIONS
First and second order differential equations. Linear differential equations and linear systems. Existence and uniqueness theorems. Applications. Prerequisite: MAT 232 must be completed or taken concurrently. (Spring 2023, Spring 2025)
Staff/Three credits
MAT 356  NUMERICAL ANALYSIS
Roots of equations. Analysis of errors. Convergence. Interpolation and polynomial approximation. Numerical differentiation and integration. Solving linear systems, unstable matrices. The computer is used throughout the course. Prerequisite: MAT 118 or MAT 132. (Spring 2022, Spring 2024)
Alfano/Three credits

MAT 358  TOPOLOGY
An introductory treatment of both point-set and combinatorial topology. Topics to be covered include topological spaces and metric spaces, classification of surfaces, homology (mod 2), and map-coloring theorems. Prerequisite: MAT 202, and MAT 232 or permission of instructor. (Spring 2022, Spring 2024)
Kelton/Three credits

MAT 401   MATHEMATICS SEMINAR
The topic is determined by the instructor. Emphasis is placed on student oral presentations. Required course for senior mathematics majors. (Fall)
Alfano/Three credits

MAT 402   MATHEMATICS THESIS
Available only to highly qualified students. Under the direction of an individual instructor, each student will complete a thesis (either expository or research) on some advanced topic in mathematics. (Spring)
Staff/Three credits

NOTE: Semesters given with a year indicate courses that are offered in alternate years.
Department of Modern and Classical Languages and Cultures

Professors: Richard Bonanno, Esteban Loustaunau; Associate Professors: Juan Carlos Grijalva (Chairperson), Arlene Guerrero-Watanabe, Maryanne L. Leone (Rome, Fall 2021), Anthony S. Zielonka; Lecturers: Maria Cevallos Warren, Gennifer Dorgan, Nicholas Pezzote. Emerita: Bonnie A. Catto, Dona M. Kercher.

MISSION STATEMENT
The Department of Modern and Classical Languages and Cultures cultivates students’ understanding of diversity and global perspectives by introducing them to the rich cultural traditions and literary expression of the civilizations we study. By engaging multiple cultures, we prepare our students to be thoughtful and compassionate citizens of a global community, thus supporting the mission of the University. In keeping with the liberal arts tradition, our programs ensure that students not only improve their ability to communicate in the target language—both orally and in writing—but also develop skills of critical thinking and content analysis. Our majors prepare students to use their linguistic, cultural, and critical skills in their careers, advanced studies, and other future endeavors. The Department embraces the central educational values of Assumption University and its pursuit of academic excellence.

LEARNING GOALS
• To develop good oral/aural communication skills in the target language
• To write effectively in the target language
• To think critically about literary and cultural texts using discipline-appropriate methods of analysis
• To better understand the cultures of our target languages

MAJOR IN SPANISH (10)
The Major in Spanish is an integral part of a traditional education in the liberal arts. The Spanish Major is designed to contribute to the cultural and intellectual formation of students, as well as to prepare them for teaching on the elementary or secondary level, and for work in social services, medical fields, law, criminology, and as interpreters, translators, or representatives in business or government, or for continued work on the graduate level. Spanish majors are expected to achieve proficiency and fluency in the spoken and written language, to become knowledgeable about Hispanic cultures, and to read with critical appreciation and enjoyment representative works of the principal authors of Spain and Latin America. The selection of courses in this major will be made in consultation with the advisor with a view to a complete formation in the language, literature, and cultures of the Spanish-speaking world. Spanish majors are strongly advised to spend a semester or an academic year in a Spanish-speaking country.

REQUIRED COURSES (10)
A total of 10 major-level courses (those numbered 202 or higher) is required for a major. Students are expected to include language skills, literature, and culture study in their program.

The following are the minimum around which an individual program of study should be developed. These must include at least:
• a minimum of three courses numbered 210–299
• a minimum of three courses at the 300–level
Students who are considering a major in Spanish are advised to fulfill the Introduction to Literature requirement by taking SPA 204. All courses for the major must be in Spanish.

SPANISH AND EDUCATION MAJORS
The Department of Modern and Classical Languages and Cultures works closely with Assumption’s Department of Education to prepare students for the teaching of foreign languages. Such students should consider a major in Spanish and an Education Major. Elementary Education majors may complete the Spanish Major: Elementary Track. Middle/Secondary Education majors would complete the departmental major in Spanish which provides students with 27–33 hours of coursework in the field of knowledge
competency required for certification by the Commonwealth of Massachusetts. Students preparing to teach foreign languages at the elementary or secondary level are strongly encouraged to consider these major program options. However, no classroom course of study can replace the actual affiliation and development of language and culture skills in the target culture. Consequently, Spanish/education students are advised to meet with a member of the foreign language department as soon as possible to build study abroad into their academic plans.

Application for the Education Major must be made to Assumption’s Department of Education by the spring of the Sophomore year, and students should plan their courses of study working closely with a member of the Education Department Coordinator and a member of the Modern and Classical Languages and Cultures Department.

**SPANISH MAJOR: ELEMENTARY TRACK (10)**

**REQUIRED COURSES (10)**

A total of 10 major-level courses (those numbered 202 or higher) is required for a major. Students are expected to include language skills, literature, and culture study in their program.

The following are the minimum around which an individual program of study should be developed. These must include at least:

- EDU 302: Teaching English Language Learners
- a minimum of 9 courses numbered level SPA 202+ (follow description of major in Spanish above).

Note: It is highly recommended that students meet with a member of the MCLC department to plan their courses.

**INTERDISCIPLINARY MAJOR IN LATIN AMERICAN AND LATINO STUDIES (10)**

The major in Latin American and Latino Studies is designed to respond to the increasing interest in the societies of the region and to the need to understand the complexity of their history, political and economic systems, social structures, and literary and artistic expression. The history of the Latin American nations and the development of their distinctive identities, the struggle for independence, and the establishment of modern democracies offer a challenging range of areas to explore. The presence of Latin America within the United States in the Latino communities gives another dimension to the study.

Through a program that focuses on this significant region of the world, students will have the opportunity to increase familiarity with the dynamics of other societies while strengthening their awareness of cultural diversity. The program provides a comprehensive course of study. Since no single discipline affords full study of any area, the interdisciplinary approach will give coherence to the major, fostering scholarship. The goal is to provide students with methodologies and modes of inquiry derived from different academic disciplines. This major draws upon courses from the departments of Modern and Classical Languages and Cultures, History, Economics and Global Studies, Political Science, Sociology and Criminology, and Art, Music, and Theatre.

The major in Latin American and Latino Studies prepares students for graduate work or employment in fields such as government, business, industry, media, law, and community services. The major is also excellent preparation for a teaching career. Students interested in pursuing this major must discuss their intention early in their sophomore year in order to plan their program and have access to a wider range of course selections, since most of the courses are offered within departmental cycles. Students may also select courses from the listing of the Higher Education Consortium of Central Massachusetts (HECCMA http://www.heccma.org/students/crossregistration/ with previous approval by the director of the program.

The study of Spanish is vital to any training in Latin American and Latino studies. Language courses, therefore, are an integral part of the major. Students are strongly encouraged to pursue language study beyond the required level V. The major includes foundation courses in History and Literature. These survey courses provide the connections to other courses. The listing of other Latin America-related courses will give students flexibility to pursue specific interests and in many instances to combine the major with another major or minor. Electives offer a broader scope of study which will help students explore a specific aspect or issue related to Latin America.

167
Students are expected to participate in co-curricular activities, which may include films, lectures, field trips, art exhibitions, concerts, and other academic or cultural events.

**REQUIRED COURSES (10)**

The Major in Latin American and Latino Studies consists of 10 courses which include a minimum of three 300–400 level courses and a maximum of three in any single discipline selected from C and D. They are divided into five areas:

1. LAS 200 Introduction to Latin American Studies
2. Language: One course at level SPA 203 Spanish V: Conversational Spanish and Grammar Review, or above.
3. Two courses, one course in each discipline, from the following:
   - HIS 250 Colonial Latin American History
   - HIS 251 Modern Latin American History
   - SPA 231 Survey of Latin American Literature
4. Five courses selected from:
   - CLT 256 Latino Voices
   - GEO 222 Regional Geography of South America
   - HIS 250 Colonial Latin American History
   - HIS 251 Modern Latin American History
   - HIS 389 Special Topics in History (when topic is on Latin America)
   - HIS 401 History Pro-Seminar (when topic is on Latin America)
   - HIS 402 History Seminar (when topic is on Latin America)
   - LAS 390 Internship
   - LAS 395 Special Topics
   - LAS 399 Independent Study
   - MGT 301 Business and Society
   - MGT 311 Diversity in the Work Force
   - MUS 125 World Music
   - SOC 216 Racial and Ethnic Relations
   - SPA 200 Special Topics (when topic is on Latin America)
   - SPA 204 Introduction to Literature-Spanish
   - SPA 220 Spanish Composition
   - SPA 225 Business Spanish: Management
   - SPA 226 Business Spanish: Marketing
   - SPA 231 Survey of Latin American Literature
   - SPA 380 Latin American Chronicles
   - SPA 384 Magical Realism and the Literature of the Fantastic
   - SPA 400 Special Topics, when appropriate
   - SOC 236 Social Justice in a Global Community

Students may choose an elective from the following courses if the course has a substantive component on Latin America, and with the approval of the director:

- ANT 131 Cultural Anthropology
- ECO 252 Economic Development
- ECO 353 International Trade
- ECO 354 International Finance
- GEO 251 Economic Geography
- LAS 400 Latin American Studies Seminar

Study abroad: Students in the major are strongly advised to undertake an immersion experience in a Latin American country as an integral part of their education. They may select from a variety of Assumption-approved study abroad programs with sites in Argentina, Chile, Costa Rica, Cuba, Mexico, and Central America. Students may also consider internships in a study abroad setting with the approval of the Dean of Studies.
MINOR IN FRENCH (6)
A student completes a Minor in French by taking a total of six one-semester courses (18 credits) at level 201 or higher. At least one course must be taken at level 230–299. The program must be planned with a departmental advisor. All courses for the Minor must be taught in French.

MINOR IN GERMAN STUDIES (6)
The German Studies Minor is intended to offer students a greater knowledge of the language and a deeper understanding of the thoughts and culture of the German-speaking countries, especially of the new Federal Republic of Germany, which has become a powerful political and economic force in the new Europe. A student may complete a Minor in German Studies with six one-semester courses (18 credits) which must include at least one course in each of the following areas:
1. German at the level of GER 103 or higher
2. German literature in the original or in translation (i.e., CLT 140 Introduction to Literature/German emphasis, GER/CLT 251: Modern German Masterpieces)
3. German history (HIS 271, HIS 272)
The remaining courses may be selected in other disciplines when the content deals substantively with German culture (i.e., PHI 365, PHI 325, THE 363, MUS 223, MUS 225). The choice will depend on the student’s interest. Independent studies and consortium courses may be included. The minor must be planned with the departmental advisor.

MINOR IN ITALIAN STUDIES (6)
The Italian Studies Minor is intended to offer students a greater knowledge of the language and an understanding of the Italian way of life as seen in the social structure, political institutions, economy, arts, and culture of Italy. A country with a rich artistic and literary history, contemporary Italy plays a prominent role in world affairs as a member of the European Union. Knowledge of Italian language and culture is an asset to students interested in all areas of the Humanities as well as International Business and Foreign Affairs.
A student may complete a Minor in Italian Studies with six one-semester courses (18 credits) including the following:
- Italian language at the level of Italian 103 or higher. Up to two additional language courses may be included.
- Italian literature in the original (i.e., ITA 140 Introduction to Literature: Italian Language or equivalent course).
- The remaining courses may be taken in other disciplines where the content deals substantively with Italian culture. These courses include but are not limited to:
  - ARH 223 Renaissance Art and Architecture
  - CLT 225 Dante’s Comedy
  - CLT 227 Boccaccio’s Decameron
  - CLT 266 Italian Cinema
  - HIS 202 Ancient Rome
  - POL 338 Nationalism and Fascism
  - A fifth semester Italian language course.

Depending on the interests of the individual student and the applicability of the course focus in a given term, other courses may be included (HIS 206, HIS 212). Students will be required to demonstrate that they will deal substantively with Italian studies in assignments which may include additional reading materials, special projects and research, or a final paper. These courses must be approved by the Department of Modern and Classical Languages and Cultures and the faculty member teaching one of these courses. Independent studies, consortium, and study abroad courses may be included. The minor must be planned with the departmental advisor.

MINOR IN SPANISH (6)
A student completes a minor in Spanish by taking a total of six one-semester courses (18 credits) at level 201 or higher and completing it with courses acceptable for the Spanish major. At least one course must be taken at level 250–299. The program must be planned with a departmental advisor. All courses for the minor must be taught in Spanish.
MINOR IN LATIN AMERICAN AND LATINO STUDIES (6)

A student may complete the Minor in Latin American and Latino Studies with six one-semester courses (18 credits).
For a full description of requirements, see the Latin American and Latino Studies listing under Interdisciplinary Programs of Study.

REQUIRED COURSES

• Spanish at the level of SPA 202 Spanish IV or higher, acceptable for the major (SPA 202, 203, 204, 220)
• LAS 200 Introduction to Latin American Studies
• A minimum of three courses dealing with Latin American issues selected from various disciplines:
  Business (MGT 301, 311)
  Geography (GEO 222)
  History (HIS 250, 251, 256, 389, 401, 402)
  Latin American Studies (LAS 390, 395, 399)
  Art and Music (MUS 125)
  Spanish-American Literature (SPA 231, 256, 318, 380, 381, 384, 385, 387, 396, or 400)
  Spanish-American Culture (SPA 312, 313, or 400)
  Latin American Cinema (SPA 386)
  Latin American Studies Internship (LAS 390)
  Latin American Studies Seminar (LAS 400)

• The remaining course may be chosen from the following when the course deals substantively with Latin America:
  ANT 131 Cultural Anthropology
  ECO 252 Economic Development
  ECO 353 International Trade
  ECO 354 International Finance
  GEO 251 Economic Geography
  SOC 216 Racial and Ethnic Relations
  SOC 236 Social Justice in a Global Community

The minor must be planned in consultation with the director of the program.

DOUBLE MAJOR WITH LATIN AMERICAN AND LATINO STUDIES

Spanish majors are encouraged to pursue a double major in combination with the major in Latin American and Latino Studies. The major is designed to respond to the increasing interest in the societies of the region. The program provides an opportunity for study of their history, political and economic systems, social structures, and literary and artistic expression. Latin American and Latino Studies majors will be prepared for graduate study or employment in fields such as government, business, industry and education. For a full description of requirements, see the Latin American and Latino Studies listing under Interdisciplinary programs.

STUDY ABROAD CREDIT FOR MAJORS AND MINORS

The Department of Modern and Classical Languages and Cultures accepts for credit from an approved study abroad program, three courses (9 credits) per semester towards a major, and two courses (6 credits) per semester towards a minor. The same policies regarding the language in which the course is taught apply for courses taken abroad. Students must have courses pre-approved by the chair of Modern and Classical Languages and Cultures. Any exceptions to this policy will be reviewed and decided by the chair, in consultation with departmental faculty as the chair deems appropriate.

COURSE DESCRIPTIONS
COMPARATIVE LITERATURE (LTC/CLT) All courses designated LCT or CLT are taught in English.

LTC 140  INTRODUCTION TO LITERATURE, CLASSICAL EMPHASIS: THE BEGINNINGS OF WESTERN LITERATURE
The development of three genres of ancient literature (epic, drama, and lyric) and the differences in their means of expression. Through the literature, students will also be introduced to the culture, myths, ideas, and history of the Greek and Roman worlds. Readings in English translation from poets such as Homer, Vergil, Sophocles, Euripides, and Dante, with prose selections from Herodotus and Aristotle. This course fulfills the Core requirement in Literature. (Fall)
Staff/ Three credits

LTC 140  INTRODUCTION TO LITERATURE
This course is designed to acquaint the student with the form and structure of various genres of literature. Readings are drawn mainly from world literature in English translation. Class discussion and writing assignments will make use of such critical concepts as points of view, imagery, and tone. This course fulfills the Core requirement in Literature. (Fall and Spring)
Zielenka/ Three credits

CLT 205  LITERARY FOUNDATIONS OF THE WEST I
This course considers some of the great themes of the West as they are played out in literature. The Fall semester’s work (CLT 205) concentrates on questions raised by the texts about the role of heroes and their relationship with their communities, about honor, authority, obedience, rebellion, and the place of the gods or God in the lives of human beings. This course satisfies the Humanities requirement in the Core curriculum. (Fall)
Staff/ Three credits

CLT 206  LITERARY FOUNDATIONS OF THE WEST II
This course continues the investigation begun in CLT205 Literary Foundations of the West I, particularly in the light of the modern insistence on the pre-eminence of the individual person rather than on the community. This course satisfies the Humanities requirement in the Core curriculum. (Spring)
Staff/ Three credits

CLT 210  CLASSICAL MYTHOLOGY
This course introduces the central myths of ancient Greece and Rome. Myths give us insight into ancient and contemporary culture, and students are encouraged to draw connections between ancient myths and modern analogues. Much of the course is spent examining the original evidence for ancient myths, poems, plays, inscriptions, temples, sculptures, and paintings. Topics include myths of creation, the Olympian gods, ancient religion, and the hero. The nature of myth and various interpretative theories of myth are also explored. This course satisfies the Humanities requirement in the Core curriculum. (Fall)
Staff/ Three credits

CLT 211  MYTH IN EPIC
Study of the development of the genre of epic with readings in English drawn from Homer’s Iliad and Odyssey, Hesiod’s Theogony, Apollonius’ Voyage of Argo, Lucretius’ The Nature of Things, Vergil’s Aeneid, and Ovid’s Metamorphoses. This course satisfies the Humanities requirement in the Core curriculum. (Spring)
Staff/ Three credits

CLT 212  MYTH IN TRAGEDY
Reading in English of Aeschylus’ Oresteia and Prometheus Bound, and representative tragedies of Sophocles, Euripides, and the Roman poet Seneca. Emphasis on dramatic poetry as a source for the study of Greek mythology. This course satisfies the Humanities requirement in the Core curriculum. (Spring)
Staff/ Three credits

CLT 213  GREEK AND ROMAN COMEDY
Reading in English of representative comedies of Aristophanes, Menander, Plautus, and Terence, and their influences on later authors. This course satisfies the Humanities requirement in the Core curriculum. (Spring)
Staff/ Three credits
CLT 217 INTRODUCTION TO FILM STUDIES: WORLD CINEMA FOCUS
This course introduces key concepts and approaches relevant to the study of film through case studies of Hollywood and world cinema. Basic concepts such as genre, the auteur, narrative, stardom and acting, spectatorship, and audiences are all considered. Students will explore the main aspects of film form (mise-en-scene, editing, sound, cinematography, etc.) and the development of the film industry. In addition, some consideration will be given to non-traditional films and filmmaking such as the avant-garde and art cinema, and notions of national and world cinemas will be introduced. Includes weekly screenings of important cinematic texts, including foreign films subtitled in English. Students may receive credit for ENG 217 or CLT 217, but not for both. This course satisfies the Humanities requirement in the Core curriculum.
Staff/ Three credits

CLT 225 DANTE’S COMEDY
Close reading and discussion of Dante Alighieri’s Divine Comedy in translation. Particular attention to Dante’s life and times in relation to his writing of the Comedy and to significant historical, literary, philosophical, and theological references in the Comedy. Prerequisite: One of the following: LTC 140; LTE 140; ITA 140; SPA 140; or FRE 140. This course satisfies the Humanities requirement in the Core curriculum.
Bonanno/ Three Credits

CLT 227 BOCCACCIO’S DECAMERON
The course will introduce students to the tradition of storytelling in the European vernacular through a reading of The Decameron, the masterwork in prose of the late medieval period by Florentine author Giovanni Boccaccio. Students will explore the development of the Italian vernacular and of the “novella” tradition, the prevalent literary and sociocultural themes typical of the era and of the text itself, and the rise of mercantilism as expressed in the one hundred tales that make up The Decameron. Readings include The Decameron in its entirety and a selection of both sources and critical essays.
Bonanno/ Three Credits

CLT 251 MODERN GERMAN MASTERPIECES
This course is designed to familiarize students with the works of a variety of 20th-century German writers. In addition to such well-established authors as Kafka, Hesse, Mann, and Brecht, more recent writers like Gunter Grass, former East German writer Christa Wolf, and Heinrich Boll, the 1972 Nobel Prize winner for literature, will be discussed. Same as GER 251. This course satisfies the Humanities requirement in the Core curriculum. (Fall)
Solbakken, Staff/Three credits

CLT 255 THE FIGURE OF THE SEEKER
This course has been especially designed as a common course in the SOPHIA Program. As such, this course is meant to guide students in their search for life purpose, meaning, and vocation. We will examine a series of cultural texts – fiction, poetry, autobiography, memoir, film, and photography – that explore the idea of vocation across cultures, world views, and spiritual traditions with special attention to how these relate to Catholic social teachings. Prerequisite: ENG130 and any Introduction to Literature course. This course counts in the Great Conversation part of the Core curriculum.
Loustaunau/ Three credits

CLT 266 ITALIAN CINEMA
The course provides an introduction to Italian cinema. Students will explore the nature of neorealism, the hallmark of the Italian cinematic tradition, through an examination of the development of the film industry, the socio-historical situation, and the literary tradition within the Italian peninsula. The study of neorealism, which involves discussion of directed readings and screenings of classics by Rossellini, De Sica, and Visconti, provides a basis for the examination of ensuing movements and Italian “auteurs,” such as Fellini, Antonioni, Bertolucci, Pasolini, and others. Films may be screened at times other than regular class meetings when running times are extended. This course satisfies the Humanities requirement in the Core curriculum.
Bonanno/ Three credits

CLT 276 WOMEN AND FILM
This course seeks to understand the role of women in cinema, both as makers of film and as objects of the camera. It explores the history of women as directors, scriptwriters, and entrepreneurs—among other positions—especially during the early years of the film industry. Students analyze important critical essays on how films represent female sexuality and interpret films in light of these readings. Special attention is given to issues of melodrama and spectatorship. Films from both Hollywood and world
cinema are screened to enable students to appreciate the critique representations of women in different cultures. This course satisfies the Humanities requirement in the Core curriculum. (Spring)
Staff/ Three credits

CLT/HIS/ PSY/SOC 285 WOMEN’S STUDIES I: IMAGES
This course is an introduction to the study of women. The course will develop a coherent, integrated view of women and their roles; emphasize the full range of contributions of and the limited opportunities for women; examine and appraise the experiences of women; and critically examine the thinking about women at various times and from various perspectives. The basic approach is interdisciplinary and the concentration of the course is on women in North America from the 19th century to the present. This course satisfies the Humanities requirement in the Core curriculum.
Choquette, Farough, Gazin-Schwartz, Kisatsky, Leone/Three credits

CLT 299 INDEPENDENT STUDY
Subject and/or authors studied to be chosen with approval of professor. This course satisfies the Humanities requirement in the Core curriculum. Staff/ Three credits

FRENCH (FRE)

FRE 101 FRENCH I
This beginning course offers students the opportunity to acquire communicative skills in French and to develop an awareness and appreciation of Francophone cultures. The course provides an integrated approach in which listening, speaking, reading and writing are developed. Basic thematic vocabulary and grammatical structures are covered. This course is intended for students with no prior coursework in French. Prerequisites: None (Fall)
Zielonka, Staff/ Three credits

FRE 102 FRENCH II
This course is the second part of the beginning sequence offering students the opportunity to expand their knowledge of vocabulary and grammatical structures. The course provides an integrated approach in which listening, speaking, reading and writing are developed. The course fosters awareness of Francophone cultures through short readings and a variety of oral and written activities. Prerequisites: FRE 101, or one or two years of high school (Spring).
Zielonka, Staff/ Three credits

FRE 201 FRENCH III
Continued development of communicative competency in the French language. The course will stress a review of French grammar, and correct pronunciation and comprehension of the spoken language. Prerequisite: French 102, two or three years of high school French, or equivalent. (Fall)
Zielonka, Staff/ Three credits

FRE 202 FRENCH IV
A continuation of French III with an introduction to more advanced aspects of French grammar, as well as readings, skits, videos, and conversation practice. French films will be used to promote discussion and as a basis for written assignments. For students who have completed FRE 103 or an equivalent course. (Fall and Spring)
Zielonka, Staff/ Three credits

FRE 203 FRENCH V
This course is designed for students who wish to enhance their proficiency in French. It will develop students’ oral skills while providing a review of grammatical structures. Literary and cultural texts and film will be used to promote discussion and as a basis for written assignments. Prerequisite: FRE 104 or equivalent.
Zielonka/ Three credits
FRE 204  INTRODUCTION TO LITERATURE: FRENCH LANGUAGE
This course is designed to acquaint the student with the form and structure of the various genres of literature through the close reading and analysis of selections from French prose, poetry, and drama. Prerequisite: FRE 120 or equivalent. This course fulfills the Core requirement in Literature.
Zielonka/ Three credits

FRE 240  TECHNIQUES OF TRANSLATION
Readings, discussion, written exercises, and translation of selected texts designed to make the student aware of the major stylistic differences between the French and English languages. Includes a review of advanced grammatical structures. Prerequisite: FRE 140 or equivalent.
Zielonka/ Three credits

FRE 302  ADVANCED FRENCH ORAL EXPRESSION
An advanced course for students who desire greater fluency while continuing to increase their proficiency in pronunciation and intonation. (Fall) Prerequisite: any Main Currents course.
Zielonka/Three credits

FRE 310  FRENCH CULTURE AND CIVILIZATION
An analysis of what constitutes the French way of life as seen in the arts, the social structure, the philosophy, and the history of France from the French Revolution to the present. Prerequisite: any Main Currents course.
Zielonka/ Three credits

FRE 313  FRANCOPHONE AFRICAN LITERATURE
This course will study the works of literature, written in French, in the countries of Africa that were part of the colonial empire of France and achieved their independence around 1960. Readings will include works of fiction and poetry from North Africa (a region known as the Maghreb): Morocco, Tunisia and Algeria, as well as from Sub-Saharan Africa: Mali, Senegal, Cameroon, Guinea, the Congo, and Ivory Coast. The course also examines the colonial history of the French presence in Africa, the struggles for independence, and major developments in literature, society and culture, including film, since then. A consistent theme is the search for an identity, amid the diversity and fragmentation of post-colonial Africa, and the many social and political problems that persist there. This course satisfies the Humanities requirement in the Core curriculum. Pre-requisite: any Main Currents course.
Zielonka/ Three credits

FRE 354  19TH-CENTURY FRENCH FICTION
Close reading of representative novels of the 19th century, with emphasis on the works of Balzac, Stendhal, Flaubert, and Zola. Prerequisite: any Main Currents course. This course satisfies the Humanities requirement in the Core curriculum.
Zielonka/ Three credits

FRE 364  CONTEMPORARY FRENCH FICTION
Close reading and analysis of works representative of the most significant currents of modern and contemporary prose fiction in France from Gide and Proust to the “nouveau roman.” Prerequisite: any Main Currents class. This course satisfies the Humanities requirement in the Core curriculum.
Zielonka/ Three credits

FRE 366  TOPICS IN FRENCH CINEMA
The main aims of this course will be to use French cinema to improve students’ knowledge of and interest in French culture and history; to discuss how films can portray historical events, and to think about the techniques and aesthetics of film-making. Films used in the course will illustrate different aspects of French culture and give a picture of contemporary life at the time in which they are set. Some may center on important social or historical moments. Topics may vary by semester. In addition to viewing seven or eight movies, students will read several short historical and literary texts concerning the periods covered by the films. The course will be conducted in French. Prerequisite: FRE 251 or 252. This course satisfies the Humanities requirement in the Core curriculum.
Zielonka/ Three credits
FRE 390  INTRODUCTION TO FRENCH POETRY
A close reading of representative poems. The course includes some selections from the Middle Ages and 16th/17th centuries, but concentrates mostly on poetry of the 19th and 20th centuries. Characteristics of different poets and different poetic movements will be analyzed. Prerequisite: any Main Currents course. This course satisfies the Humanities requirement in the Core curriculum.
Zielonka/ Three credits

FRE 200  SPECIAL TOPICS COURSE (LEVEL 230–299)
Staff/ Three credits

FRE 300  SPECIAL TOPICS COURSE (LEVEL 300- 399)
Staff/ Three credits

FRE 401–409  INDEPENDENT STUDY
Subject and/or authors studied to be chosen with approval of professor.
Staff/ Three credits

GERMAN (GER)

GER 101  GERMAN I
An introduction to the German language aimed at developing beginning skills in oral comprehension and expression, reading, and writing. Three hours of class work with tapes and computer software. (Fall)
Staff/ Three credits

GER 102  GERMAN II
Continuation of German I. Aimed at further developing the language skills. Prerequisite: German 101 or equivalent. (Spring)
Staff/ Three credits

GER 103  GERMAN III
Systematic review of grammar. Graded readings. Prerequisite: GER 102 or equivalent. (Fall)
Staff/ Three credits

GER 104  GERMAN IV
Systematic review of grammar. Graded readings. Prerequisite: GER 103 or equivalent. (Spring)
Staff/ Three credits

GER 295  SPECIAL TOPICS
Staff/ Three credits

GER 299  INDEPENDENT STUDY
Subject and/or authors studied to be chosen by student with approval of professor.
Staff/ Three credits

GREEK (GRK)

GRK 101  GREEK I
An introduction to classical Greek language, literature, and culture. Emphasis on the grammatical structures and vocabulary which will enable students to read Greek texts with understanding and facility. (Fall)
Staff/ Three credits

GRK 102  GREEK II
A continuation of Elementary Greek with increased attention to cultural material. Prerequisite: Greek 101 or equivalent (Spring)
Staff/ Three credits
GRK 201 GREEK III
Review of basic grammar and introduction to the more advanced points of Greek syntax. Selected readings from Plato’s *Apology of Socrates*. The completion of Greek 101–102, or—with permission of instructor—one year of high school Greek is required for admission.
Staff/ Three credits

GRK 202 GREEK IV
The class will read selections from the tragedies of Aeschylus, Sophocles and Euripides, or the comedies of Aristophanes. Open to students who have completed Greek 201. This course satisfies the Humanities requirement in the Core curriculum.
Staff/ Three credits

GRK 301 SPECIAL TOPICS
Staff/ Three credits

GRK 310 INDEPENDENT STUDY
Area and/or authors studied to be chosen by student with approval of professor.
Staff/ Three credits

ITALIAN (ITA)

ITA 101 ITALIAN I
This beginning course offers students the opportunity to acquire communicative skills in Italian and to develop an awareness and appreciation of Italian culture. The course provides an integrated approach in which listening, speaking, reading and writing are developed. Basic thematic vocabulary and grammatical structures are covered. This course is intended for students with no prior coursework in Italian. Prerequisite: None (Fall)
Bonanno, Staff/ Three credits

ITA 102 ITALIAN II
This course is the second part of the beginning sequence offering students the opportunity to expand their knowledge of vocabulary and grammatical structures. The course provides an integrated approach in which listening, speaking, reading and writing are developed. The course fosters awareness of Italian cultures through short readings and a variety of oral and written activities. Prerequisites: ITA 101, or one or two years of high school. (Spring)
Bonanno, Staff/ Three credits

ITA 201 ITALIAN III
Continued development of communicative competency in Italian language and culture including a variety of media. Prerequisite: ITA 102, or two or three years of high school Italian, or equivalent. (Fall)
Bonanno, Staff/ Three credits

ITA 202 ITALIAN IV
Integration of all skills. Reading skills using contemporary selections are developed through a process approach. Cultural topics present insights into the characteristics of Italian people, art, and literature. Prerequisite: ITA 103 or equivalent (Spring)
Bonanno, Staff/ Three credits

ITA 203 ITALIAN V: CONVERSATIONAL ITALIAN AND GRAMMAR REVIEW
This course is designed for students who wish to enhance their proficiency in Italian. The main points of Italian grammar will be reviewed and expanded through traditional exercises and conversations on current topics. Italian news as well as magazine articles and literary excerpts will be used. Prerequisite: ITA 104 or equivalent. (Fall)
Bonanno, Staff/ Three credits

ITA 204 INTRODUCTION TO LITERATURE: ITALIAN LANGUAGE
This course is designed to introduce students to the form and structure of various genres of literature through the close reading and analysis of selections from Italian prose, poetry, and drama. Prerequisite: ITA 120 or equivalent. This course fulfills the Core requirement in Literature.
ITALIAN CIVILIZATION AND CULTURE
This course introduces students to various aspects of Italian culture, including geographical regions, politics, film, art, music, social issues, and other elements of Italian civilization. Prerequisite: ITA 120 or equivalent.
Bonanno/Three credits

SPECIAL TOPICS
Bonanno, Staff/ Three credits

INDEPENDENT STUDY
Subject and/or authors studied to be chosen with approval of professor.
Bonanno, Staff/ Three credits

LATIN (LAT)

LATIN I
An introduction to Latin language, literature, and culture. Emphasis on the grammatical structures and vocabulary which will enable the student to read Latin texts with understanding and facility. (Fall)
Staff/ Three credits

LATIN II
A continuation of Latin I with increased reading of narrative passages and an introduction to cultural material. Prerequisite: LAT 102 or equivalent (Spring)
Staff/ Three credits

LATIN III
For the student who wishes to increase the facility and accuracy with which he/she reads classical Latin. The class will consist of review of grammar and readings which focus on the daily lives of Romans of the first centuries B.C. and A.D. Readings will be drawn from the prose letters of Cicero and Pliny, and the poetry of Catullus, Horace, and Martial. Prerequisite: LAT 101–102, or at least two years of high school Latin. This course fulfills the Humanities Core Curriculum requirement. (Fall)
Staff/ Three credits

LATIN IV
The class will read selections from the poetry of the Golden Period of Latin literature. Readings will be drawn primarily from the epics of Lucretius and Vergil, and will focus on the themes of creation and foundations. Prerequisite: LAT 201 or by permission of the professor. This course fulfills the Humanities Core Curriculum requirement. (Spring)
Staff/ Three credits

ADVANCED READINGS IN LATIN LITERATURE
Extensive reading from major authors drawn from the following categories: Roman drama, epic, historians, oratory, philosophy, satire, and elegiac, lyric, and pastoral poetry. Readings will change each semester in accordance with the interests of the students. Prerequisites: LAT 201 and 202, or by permission of the professor. This course fulfills the Humanities Core Curriculum requirement.
Staff/ Three credits

INDEPENDENT STUDY
Subject and/or authors studied to be chosen with approval of professor.
Staff/ Three credits
SPANISH (SPA)

SPA 101 SPANISH I
This beginning course offers students the opportunity to acquire communicative skills in Spanish and to develop an awareness and appreciation of Hispanic cultures. The course provides an integrated approach in which listening, speaking, reading and writing are developed. Basic thematic vocabulary and grammatical structures are covered. This course is intended for students with no prior coursework in Spanish. Prerequisites: None
Staff/ Three Credits

SPA 102 SPANISH II
This course is the second part of the beginning sequence offering students the opportunity to expand their knowledge of vocabulary and grammatical structures. The course provides an integrated approach in which listening, speaking, reading and writing are developed. The course fosters awareness of Hispanic cultures through short readings and a variety of oral and written activities. Prerequisites: SPA 101, or one or two years of high school
Staff/ Three Credits

SPA 201 SPANISH III
Continued development of communicative competency in Spanish language and Hispanic culture including a variety of media. Prerequisite: SPA 102, or two or three years of high school Spanish, or equivalent. Media fee $15. (Fall and Spring)
Staff/ Three credits

SPA 202 SPANISH IV
Integration of all skills. Reading skills using contemporary selections are developed through a process approach. Cultural topics present insights into the characteristics of Hispanic people, art, and literature. Prerequisite: SPA 103 or equivalent. (Fall and Spring)
Staff/ Three credits

SPA 203 SPANISH V
This course helps develop oral language competency in Spanish, while increasing vocabulary and reviewing grammatical structures. The main objective is to enable students to understand lectures in the language, converse on everyday topics, read material of average difficulty, and express points of view on current issues with acceptable correctness. Prerequisite: SPA 104 or equivalent. (Fall and Spring)
Guerrero-Watanabe, Loustaunau, Staff/ Three credits

SPA 204 INTRODUCTION TO LITERATURE: SPANISH LANGUAGE
Designed for students to become active readers of literature and develop skills. The students are introduced to the form and structure of various genres of literature through the close reading and analysis of selections from Spanish and Spanish-American prose fiction, poetry, and drama. Prerequisite: SPA 120 or equivalent. This course fulfills the Core requirement in Literature. (Fall and Spring)
Staff/ Three credits

SPA 220 SPANISH COMPOSITION
Designed to develop skills in descriptive, narrative, and expository writing in Spanish, this course emphasizes the process of writing. It deals with strategies for generating and organizing ideas through pre-writing, composing, writing, and editing. Writing activities help expand and refine grammatical structures, range of vocabulary, and rhetorical techniques. Not open to students who have completed SPA 301. Prerequisite: SPA 140 or equivalent. (Spring)
Grijalva, Loustaunau, Staff/ Three credits

SPA 225 BUSINESS SPANISH: MANAGEMENT
This course enhances the student’s ability to function effectively in an increasingly important commercial language locally, throughout the United States, and abroad. The course provides the student with a solid foundation in Spanish in the vocabulary and discourse used when dealing with the legal constitution of different types of companies; management; banking and accounting; property and equipment; the modern business office and communications; and human resources. The course will also develop the student’s geographic literacy and cultural understanding of the Spanish-speaking world, as these are essential
to being able to conduct business successfully in Spanish. The course, to be conducted primarily in Spanish, will include translating and interpreting activities, cross-cultural communication skills used frequently in the world of business and of special importance for managers and leaders who must make informed decisions. Prerequisite: SPA 104 or equivalent.

**SPA 226 BUSINESS SPANISH: MARKETING**
This course enhances the student’s ability to function effectively in an increasingly important commercial language locally, in the United States, and abroad. It provides the student with a solid foundation in Spanish in the vocabulary and discourse used when dealing with goods and services, marketing, finance, foreign market entry, and import-export. The course also develops geographic literacy and cultural understanding of the Spanish-speaking world, as these are central to being able to conduct business successfully in Spanish. The course, to be conducted primarily in Spanish, will also include translating and interpreting activities, language skills frequently used in the world of business and of special importance for managers and leaders who must be able to communicate effectively and make well-informed decisions. Please note that SPA 125 and 126 are not sequential. Prerequisite: SPA 104 or equivalent.

**SPA 230 SURVEY OF SPANISH LITERATURE**
A survey of Spanish literature. Students will be introduced to the study of peninsular literature through the reading and analysis of representative selections from the major works. Prerequisite: SPA 140. This course satisfies the Humanities requirement in the Core curriculum.

**SPA 231 SURVEY OF LATIN AMERICAN LITERATURE**
A critical study of literary periods and movements in Latin America. Reading and analysis of representative selections from major works. Prerequisite: SPA 140. This course satisfies the Humanities requirement in the Core curriculum.

**SPA 250 SPECIAL TOPICS COURSE (LEVEL 250–299)**
This course focuses on food in its cultural, historical, political, economic, and social dimensions as a way to gain insights into the Spanish-speaking world and also develop students’ competencies in the Spanish language. Topics will include traditional foods and food-related customs, contemporary culinary trends, popular culture, agriculture practices, and national food policies. We will examine how food and culinary practices express, shape, and revise regional and national identities in countries where Spanish is spoken, and form part of a global world. A selection will be made from among the diversity of culinary traditions and food-related topics in the more than twenty countries in which Spanish is spoken. Prerequisites: SPA204 Introduction to Literature, may be taken concurrently.

**SPA 254 CELEBRATIONS IN THE HISPANIC WORLD**
This course is intended as a gateway to the more advanced courses in the Spanish major. Thematically, it is designed to serve as an introduction to the cultural practices of the Hispanic world, while presenting students with the critical tools needed for analyzing a broad range of cultural texts. At the same time, there will be significant emphasis on oral communication and review of major grammatical structures. The course will vary in terms of its specific subject matter from year to year. Topics will all draw from popular culture.
SPA 302  ADVANCED SPANISH ORAL EXPRESSION
A systematic study of various forms of public discourse through discussion and debate on controversial issues. Designed for students with a sophisticated command of Spanish who seek to increase their fluency and develop cultural awareness. Prerequisite: Spanish 210-299.

Guerrero-Watanabe/ Three credits

SPA 316  EMERGING MODERNITIES IN THE HISPANIC WORLD
This course focuses on the social and political events, artistic production, literary texts and culture of modern Latin America. Course materials include readings, films, music and the internet in order to develop a more complete understanding of the complex modes of cultural production that arose during this time period. Prerequisite: Spanish 210-299.
This course satisfies the Humanities requirement in the Core curriculum.

Guerrero-Watanabe/ Three credits

SPA 317  BORDER IDENTITIES IN SPAIN
This course focuses on the multiplicity of identity in contemporary Spain in the context of political and social changes of the twentieth- and twenty-first centuries. Reading theory and culture, understood as texts and practice, we will examine literature, films, and mass media to consider the identities of nation, class, gender, sexuality, and ethnicity. Prerequisite: Spanish 210-299.

This course satisfies the Humanities requirement in the Core curriculum.

Leone/ Three credits

SPA 318  REBELLION AND REINVENTION IN MEXICO
This course explores contemporary Mexican literary and cultural production in response to socio-political rebellion and cultural reinvention. The course materials focus on four key moments in Mexican history: the Revolution of 1910, the student movement of 1968; the Zapatista rebellion of 1994; and the current implications of mass migration and the narco wars. Students analyze textual, visual, and musical works by a variety of authors from the 20th and 21st centuries in order to learn how these authors represent cultural, social, and political affirmation in a country known for its economic and political repression. We will consider the role of literature and art in the understanding of civic action and social power. The course is taught in Spanish. Prerequisite: Spanish 210-299. This course satisfies the Humanities requirement in the Core curriculum.

Loustauanau/Three credits

SPA 380  LATIN AMERICAN CHRONICLES
In this course students will learn about how urban life, violence, and modern cities have been represented by journalist-literary writers in Latin America. We will discuss the relationship between literature and journalism, and between chronicles and other literary genres. In addition, students will examine some works of the “New Journalism” in the United States and its influence over Latin American writers. Intensive Spanish writing will be a major requirement. Prerequisite: Spanish 210-299. This course satisfies the Humanities requirement in the core curriculum.

Leone/ Three credits

SPA 384  MAGICAL REALISM AND THE LITERATURE OF THE FANTASTIC
Magical realism refers to a specific set of narrative works by Latin American writers in the second half of the twentieth century. This course will develop a more comprehensive understanding of this literary movement by analyzing a key number of primary texts along with all the pertinent literary criticism and theory. The textual strategies and techniques that help define these works include the use of rich, detailed language designed to create a realistic setting and characters in the story. The element of magic or the supernatural then enters or manifests itself in this seemingly “real” literary landscape. Although the texts incorporate these
bursts of the unexplained, the main body of the text always follows a mimetic approach to fictional production. Our study of these fantastic texts will begin with a discussion of possible pre-cursors of the movement, such as the Argentineans Jorge Borges and Julio Cortázar, and then move on to more seminal texts like Cien años de soledad by Gabriel García Márquez and Eva Luna by Isabel Allende. In the last few weeks, students will have the opportunity to analyze more recent texts to see how magical realism affects current modes of literary production. Prerequisite: Spanish 210-299. This course satisfies the Humanities requirement in the Core curriculum.

Guerrero-Watanabe/ Three credits

**SPA 300** SPECIAL TOPICS COURSE (LEVEL 3001)
Staff/ Three credits

**SPA 410–419** INDEPENDENT STUDY IN SPANISH
Subject and/or authors studied to be chosen with approval of professor.
Staff/ Three credits
Department of Philosophy

Professors: Christian Göbel, Daniel P. Maher; Associate Professors: J. Patrick Corrigan (Chairperson), Molly Brigid McGrath (Director of Honors Program); Assistant Professors: Veronica Roberts Ogle (LEX Director), Samuel A. Stoner.

MISSION STATEMENT
Philosophy is a reasoned quest for truths fundamental to all areas of inquiry. Animated by a love of ideas, philosophical inquiry attends to all that is of ultimate concern for human beings. Guided by the university’s commitment to embody the complementarity of faith and reason and its broader mission, the Philosophy Department of Assumption University is founded on the ongoing engagement of its faculty and students with the Catholic intellectual tradition. We seek intellectual friendship among all who take seriously the life of the mind. Grappling with fundamental questions of human existence with an eye toward discerning the truth is an essential dimension of this tradition. Our mission is to engage students in the activity of philosophy strengthened by this tradition.

LEARNING OUTCOMES
• Reading texts closely and carefully in context
• Appreciating and evaluating positions in order to discern their fundamental principles
• Writing clearly, insightfully, and in a well-ordered manner
• Engaging respectfully and constructively in philosophical conversation
• Constructing and assessing arguments and evaluating their formal structures

MAJOR IN PHILOSOPHY (11)
Philosophy comes before other studies in that it takes up the general questions whose answers underlie the more particular parts of human knowledge. The philosophy major prepares students for graduate work in philosophy, law, and theology. It also gives the student a more intensive training in the liberal arts, and lays the foundations for special studies in the natural sciences, literature, languages, history, and the social sciences. The critical investigation of the major areas of human endeavor stresses the formation of the student’s judgment.

REQUIRED COURSES (11)
• PHI 100 Socrates and the Search for Truth
• One intermediate course from the following list:
  PHI 151 Ethics and the Good Life
  PHI 152 The Human Difference
  PHI 153 The Book of Nature
  PHI 154 God and the Philosophers
• PHI 340 Metaphysics
• Three courses in the history of philosophy (from three eras):
  Ancient Philosophy (PHI 350–354)
  Medieval Philosophy (PHI 355–359)
  Modern Philosophy (PHI 360–369)
  Contemporary Philosophy (PHI 370–389)
• Three PHI courses (200 or higher)
• Two further PHI courses

Any student interested in graduate studies in philosophy should take PHI 210 Logic and should pursue at least one modern language (French or German) and at least one classical language (Greek or Latin).
RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN PHILOSOPHY

The following plan describes one way to complete the Major in Philosophy. Students who double major or who have one or more minors may well follow a different path.

### First Year

### DOUBLE COUNTS IN THE CORE FOR PHILOSOPHY MAJORS

- PHI 100 and one course from PHI 151–154 count as core seminars.
- Any PHI course 200 or higher counts in The Great Conversation segment of the core.

### ADVISING TIPS FOR THE MAJOR IN PHILOSOPHY

- Although 11 courses are required for the major, students may take up to 14 philosophy courses.
- The heart of the major is found in the four “history” courses, Ancient, Medieval, Modern, and Contemporary. There are several courses offered in each historical period, and majors must take one course from each period. Typically, courses in ancient and modern philosophy are offered in the fall semesters, and medieval and contemporary courses are offered in the spring. Although desirable, it is not always possible to offer all four courses each year, and so students must plan carefully and take appropriate courses when they are available. Students who plan to study abroad at some point should take particular care. Consult with the chairperson of the department to learn the anticipated schedule.
- It is possible to take more than one course from the same historical period as an elective within the major.
- Metaphysics may not be offered every year, and so students must plan carefully to take this course when it is available. Consult with the chairperson of the department to learn the anticipated schedule.
- A maximum of three intermediate courses (151–154) count within the major.
- Generally speaking, courses numbered under 250 are general interest PHI courses, presupposing no more than PHI 100 and one intermediate course (151–154). Courses numbered above 250 are like those below 250, except they involve a somewhat specialized or narrowed interest. There is no hard and fast distinction here, and both sets of courses will include students completing their core curriculum requirements. Courses numbered above 300 usually do not have extensive prerequisites, which means they could be taken at any time after the first two philosophy courses. Nevertheless, those courses are appropriate for majors, minors, and anyone with serious interest in the course.
Any student interested in graduate studies in philosophy should take PHI 210 Logic and should pursue at least one modern language (French or German) and at least one classical language (Greek or Latin).

PHI 210 Logic may be taken concurrently with the second core seminar.

Students may combine the Philosophy Major with another major or with any of several minors, such as Core Texts & Enduring Questions, LEX, or the Honors Program.

Students are encouraged to join the student-run Philosophy Club and Phi Sigma Tau, the international honor society for students of philosophy. For more information, contact Prof. Samuel Stoner.

To maintain the academic integrity of the major, transfer courses are approved under strict conditions. Students should consult with the department chair before registering for courses outside the day school of Assumption University.

TO WHAT CAREERS DOES A MAJOR IN PHILOSOPHY LEAD?

Philosophy leads to everything. In addition to obvious choices like law, medicine, publishing, teaching, and government, people who major in philosophy go on to careers in every imaginable field:

https://www.apaonline.org/page/whostudiesphilosophy

See our department website for more information on the wide range of careers that have been and can be successfully pursued with a philosophy degree:

https://www.assumption.edu/academics/programs/philosophy

For a guide to careers outside of academia appropriate for people with degrees in philosophy, see:

https://www.apaonline.org/page/beyondacademia

For an array of resources suitable for undergraduates, see:

https://www.apaonline.org/page/undergrad_resources

PHILOSOPHY, ETHICS, AND BUSINESS: A 6-IN-5 BA/MBA PROGRAM

The Philosophy, Ethics, and Business 6-in-5 BA/MBA Program is designed to provide students with the best of a Catholic liberal arts education and advanced professional training in business. Grounded in a rigorous undergraduate liberal education, graduates of this program will receive highly relevant professional training and be poised to launch successful careers. This program consists of (a) the Major in Philosophy, Pre-Business Track and (b) the Accelerated MBA (Management Track). Students earn the BA and the MBA in five years instead of the six years these two degrees customarily require. During the first four years, students complete the 12-course Major in Philosophy, Pre-Business Track. A cumulative GPA of 3.0 in the undergraduate part of the program guarantees acceptance into the Accelerated MBA Program (Management Track), which begins in the summer following completion of the BA with the four Foundations courses and continues through a fifth year of courses. This one-year MBA includes a “professional practice” concentration in which students acquire experience working in local businesses while completing advanced courses that cover a range of key business disciplines.

(a) MAJOR IN PHILOSOPHY, PRE-BUSINESS TRACK (12)

Today’s businesses and today’s world need citizens who can think with insight, communicate clearly, and exercise good judgment both in and out of the workplace. This version of the Major in Philosophy includes emphasis on ethics, business, and economic life, and it can readily be combined with a second major, such as Political Science or Economics. The first four courses listed below help prepare students to understand business activities in their ethical and civic context. The other eight courses are included to broaden and deepen students’ understanding of philosophical reasoning as a formative influence in human life, one important part of which is economic activity. Students who complete this major with a cumulative GPA of at least 3.0 are guaranteed acceptance into Assumption University’s Accelerated MBA Program (Management Track) for liberal arts majors.

REQUIRED COURSES (12)

- PHI 100 Socrates and the Search for Truth
- PHI 151 Ethics and the Good Life
● PHI 260 Business Ethics
● PHI 290 Property and Civic Life
● Three courses in the history of philosophy (from three eras):
  - Ancient Philosophy (PHI 350–354)
  - Medieval Philosophy (PHI 355–359)
  - Modern Philosophy (PHI 360–369)
  - Contemporary Philosophy (PHI 370–389)
● Three PHI electives (at least one numbered above 200)
● MGT100 Introduction to Management
● ACC 125 Principles of Accounting I

Students should take PHI 100 and PHI 151 by the end of their second year, thereby fulfilling the prerequisite for all other philosophy courses (which may be taken in any order). MGT 100 and ACC 125 may be taken at any time, but doing so earlier will allow students to take more business courses and reduce the number of Foundations in Business courses required for their MBA. In addition, with permission from the Dean of the Grenon School of Business, students may take up to two MBA courses as undergraduates. Students should consult with Prof. Michael Lewis, the MBA Program Director, as early as their junior year in order to make clear their intent to apply to the MBA program and to take the Foundations in Businesses courses at the end of their senior year.

Students completing these major requirements but opting not to continue into the Accelerated MBA program will graduate with the BA major “Philosophy, Pre-Business Track,” unless they take additional courses to qualify for the standard Philosophy Major.

(b) ACCELERATED M.B.A.PROGRAM
Following completion of the BA, students will complete the 12–14 month Accelerated MBA. For specific information about the Accelerated MBA Program (Management Track), students should consult the MBA Program. During the summer prior to their MBA year, students take the Foundations courses, consisting of four courses designed to prepare liberal arts majors for graduate-level business courses. Undergraduate students interested in an MBA should seriously consider taking the following courses as undergraduates, since earning a B- or better in these courses waives MBA requirements otherwise fulfilled by the Foundations courses:

- MKT 101 Principles of Marketing (equivalent: MBA 562)
- ACC 126 Principles of Accounting II (equivalent: MBA 565)
- MGT 230 Decision Analytics for Managers (equivalent: MBA 564)
- ECO 325 Corporate Finance (equivalent: MBA 563)

PHI 260 Business Ethics fulfills the MBA requirement for MBA 600 Business Ethics, thus enabling students to substitute an elective in the MBA segment of the program.

Each of the following undergraduate courses is also strongly recommended:
- CSC 113 Introduction to Computer Science or CSC 117 Introduction to Programming
- ENG 304 Business and Technical Writing
- or ENG 201 Writing Workshop: Argument and Persuasion
- or ENG 308 Writing and Editing
- MAT 117 Calculus I
- POL 322 Political Economy
- SPA 225 Business Spanish: Management, SPA 226 Business Spanish: Marketing
- THE 343 The Social Teachings of the Church

MINOR IN PHILOSOPHY (6)
The minor in Philosophy is designed to strengthen any major, broaden the student’s background, and enable the student to see his/her subject in perspective.
REQUIRED COURSES (6)

- PHI 100 Socrates and the Search for Truth
- One intermediate course (from the following list)
  - PHI 151 Ethics and the Good Life
  - PHI 152 The Human Difference
  - PHI 153 The Book of Nature
  - PHI 154 God and the Philosophers
- One course in the history of philosophy
  - Ancient Philosophy (PHI 350–354)
  - Medieval Philosophy (PHI 355–359)
  - Modern Philosophy (PHI 360–369)
  - Contemporary Philosophy (PHI 370–389)
- Three further PHI courses (at least one 200 or higher)

The minor program is planned in consultation with a member of the department, taking into consideration the student’s major and interests, and subject to the approval of the Department Chairperson.

FORTIN AND GONTHIER

CORE TEXTS AND ENDURING QUESTIONS PROGRAM (CTEQ)
Designed for select students who want to combine their pursuit of a specialized major with a fully integrated, interdisciplinary minor, the CTEQ minor brings four separate departments—Art History, Philosophy, Theology, and Political Science—together in one unified minor. Our students explore perennial human questions (about the nature of justice, beauty, human nature, and God) with the help of the Great Books. CTEQ students and faculty form a distinctive and close-knit learning community at Assumption University. For more information, see our entry under “Interdisciplinary Programs” or contact us at CoreTexts@Assumption.edu.

MINOR IN LAW, ETHICS, AND CONSTITUTIONAL STUDIES (LEX)
Jointly sponsored by the Departments of Philosophy and Political Science, the LEX minor engages law, ethics, and constitutionalism through those thinkers and texts whose political, philosophical, and legal reflections have shaped the Western intellectual tradition. This minor is designed for those who want to acquire the liberal arts skills essential to professional and personal excellence, as well as to all those who aspire to thoughtful citizenship. For more information, please consult the entry for LEX in “Interdisciplinary Programs” or contact its director, Prof. Veronica Roberts Ogle.

A NOTE ON PRE-LAW: The American Bar Association confirms that majors and minors across the curriculum, combined with a strong liberal education, provide excellent preparation for law school. Assumption’s Pre-Law Program provides personalized advising, co-curricular activities, and development opportunities for all students considering law school. See the “Pre-Law” section under “Pre-Professional Programs of Study.” Above all, students considering law school should choose a major that interests them, pursue academic excellence in that field, and contact the pre-law advising coordinator, Prof. Carl Keyes at ckeyes@assumption.edu.

COURSE DESCRIPTIONS

PHILOSOPHY (PHI)

PHI 100 Socrates and the Search for Truth
This course introduces students to the activity of philosophy, understood in the Socratic sense of living an examined life. Philosophy begins by questioning ordinary experience and the opinions one already holds, and it becomes a comprehensive, fundamental, and self-reflective search for the truth about the nature of human beings and the good life, the world, and God. Readings include Plato’s Apology of Socrates and the Allegory of the Cave, as well as at least one medieval and one modern text. This course also introduces elementary principles of logical reasoning and basic distinctions of philosophic importance. It serves as the first half of a core seminar, and each section includes some direct link with the content pursued in each of the intermediate core courses in philosophy.
PHI 151  ETHICS AND THE GOOD LIFE
Each person must confront the question, How should I live? In doing so, one may also wonder, Do the ends justify the means? Are intentions all that count? Is God the source of right and wrong? How important are my desires? Many things seem good that later prove to be evil or merely incomplete goods for the human being. This course uses classic texts to investigate common opinions about the human good in light of our need to distinguish apparent goods from true goods. Ultimately, what is it to live well? Texts include Aristotle’s Ethics and readings from the utilitarian and the Kantian traditions. Prerequisite: PHI 100.

Staff/Three credits

PHI 152  THE HUMAN DIFFERENCE
Being human involves wondering what it means to be human. The human being has been understood variously to be a political animal, a rights-bearing individual, a pleasure-seeking ego, a self-conscious mind, a purely material being, and the image and likeness of God. Are we souls, bodies, selves, minds, persons, or something else? Do we share a common nature, or are we self-made individually? This course investigates contemporary views of what it means to be human in dialogue with Aristotle’s interpretation of man as a rational animal at home in the cosmos and the Platonic/Augustinian view that human beings, loving and longing for something higher, are homeless and restless in the world. Prerequisite: PHI 100.

Staff/Three credits

PHI 153  THE BOOK OF NATURE
Is nature good, or is it indifferent to our well-being? Should we admire nature for its beauty and bounty, or should we master and transform it to serve our desires? Philosophy began with the discovery of nature, and modern natural science now enjoys unparalleled authority and power in the world. This course examines the modern understanding of nature as mathematical and lawful in relation to two older views it displaced: (1) Aristotle’s natural kinds and their intrinsic causes; (2) nature as created by God. All living beings depend upon the order of nature, but only human beings try to understand it. Philosophical investigation of nature presupposes inquiry into human nature. Authors treated include Aristotle, Descartes, and Max Weber. Prerequisite: PHI 100.

Staff/Three credits

PHI 154  GOD AND THE PHILOSOPHERS
Is there a God? What could God be? What does God have to do with us? What is the role of reason in relation to faith? This course examines several ways that philosophers have thought about the divine: its existence and its relation to the world and to human beings. It considers classic arguments for the existence of God and various challenges to theism, such as those made in the name of science and the problem of evil. Included among the readings are the “Five Ways” of Thomas Aquinas, Anselm’s “ontological argument,” and Nietzsche’s “Madman” parable. Prerequisite: PHI 100.

Staff/Three credits

PHI 210  LOGIC
This course examines the principles of formal and informal reasoning. Students examine validity, soundness, deduction, induction, and probabilistic reasoning, and the relation between logical form and truth. Topics may include classical syllogistic logic, propositional logic, predicate logic, modal logic, and fallacies. The course may also examine the relations between logic and ordinary language, science, mathematics, or metaphysics. This course is required for the LEX minor. Prerequisite: PHI 100 and any intermediate PHI course (151–154); may be taken concurrently with intermediate course.

Staff/Three credits

PHI 220  LOVE AND FRIENDSHIP
This course investigates the kinds of love, their causes and effects, as well as the necessity, nature, forms, and properties of friendship. Prerequisites: PHI 100 and any intermediate PHI course (151–154).

Corrigan, Maher, Ogle/Three credits

PHI 225  INDIVIDUAL AND COMMUNITY
This course examines the relationship between the individual and the community and the tension which exists between the achievement of private desires and the cultivation of public spiritedness for the purpose of realizing a common good. Political, social, economic, and moral dimensions of the theme will be examined in the tradition of American individualism. The pairing of
duties and responsibilities with rights and liberties will be emphasized. Prerequisites: PHI 100 and any intermediate PHI course (151–154).

**Staff/Three credits**

**PHI 230 PHILOSOPHY AND LITERATURE**

Philosophical ideas are most often presented in the form of abstract, systematic, argumentative treatises. However, philosophical insight is not restricted to conventional philosophical discourse. Literature, with its keen discernment of the human condition and its probing of our moral situation, often presents significant philosophical insight. This course will either study a philosophical issue through a mixture of systematic, argumentative texts and literary texts or study the thought of a single author as presented in his or her argumentative and literary works. Prerequisites: PHI 100 and any intermediate PHI course (151–154).

**Ogle/Three credits**

**PHI 235 PHILOSOPHY AND FILM**

This course examines the implications of cinematic representation for philosophy. How do moving images and sound change traditional conceptions of representation? How is knowledge transmitted through the medium of film? How is film related to culture, politics, and social life? Can film be a new mode of philosophical expression? Film theory will be read alongside works by such cinematic greats as Bergman, Truffaut, Lee, and others. Prerequisites: PHI100 and any intermediate PHI course (151–154).

**Göbel, McGrath/Three credits**

**PHI 240 EDUCATION AND LIBERATION**

This is a seminar on the idea of liberal education—that is, an education that emancipates and that prepares a person for living freely. Why do people sometimes describe their educations as liberating? From what would education free us? And are some forms of education not emancipating, but subjugating? What type of activities must the freed person learn in order to live well in freedom? The tradition of liberal education is the history of an argument about what oppresses human beings and what we are meant to do with our freedom, and thus about what type of learning we need in order to live a fuller human life. This course will require extensive reading, writing, and discussion. Readings will include classic texts from the tradition of liberal education as well as more contemporary adaptations of that tradition. Prerequisites: PHI100 and any intermediate PHI course (151–154).

**McGrath/Three credits**

**PHI 245 REASON ANCIENT AND MODERN**

Human intelligence takes many forms: common sense, mathematics, poetry, philosophy, science, engineering, and moral activity, to name a few. What, then, is our reason? What is the nature and proper use of this power at the origin of all our cultivated pursuits? The most universally acclaimed achievements of human reason have come through modern science, but this science itself gives no guidance for the use of its power. Does the contemporary critique of the modern form of reason (in the name of the environment, deconstruction, or religion) apply to reason simply? This course examines ancient and modern interpretations of human reason in core philosophical texts. Prerequisite: PHI100 and any intermediate PHI (151–154)

**Maher, Stoner/ Three credits**

**PHI 260 BUSINESS ETHICS**

This course is a review of the main theories of ethics and justice and the application of these theories to business. This will be done by examining case studies and legal decisions involving issues of the rights and responsibilities of business with regard to the employee, the consumer, and government. Business in modern society: social responsibility and environmental issues. Prerequisites: PHI 100 and PHI 151 or permission of instructor.

**Staff/Three credits**

**PHI 262 BIOMEDICAL ETHICS**

This course studies moral reasoning in relation to health by surveying a series of topics appropriate to biomedical ethics. Historical medical and legal cases provide the context for close examination of practical decisions and philosophical arguments in defense of those decisions. The emphasis in the course falls on the arguments that attempt to justify and to criticize various actions. The topics treated vary, and may include assisted suicide, fertility therapies, biotechnical enhancement, abortion and perinatal care, treatment of animal and human research subjects, genetic screening, and allocation of scarce resources. Prerequisites: PHI 100 and PHI 151 or permission of instructor.

**Maher/Three credits**
PHI 265  INTRODUCTION TO PEACE STUDIES
Regrettably, conflict and its violent resolution have marked human history. At the same time, however, human beings have consistently expressed their desire for peace and proposed strategies to eliminate or at least reduce violence. This interdisciplinary course is designed to acquaint students with a variety of reflections about the causes of and remedies for violent conflict. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Göbel/Three credits

PHI 267  PERSON, MIND, AND BRAIN
When I meet a human being, do I encounter a person who somehow transcends the body I can see, or do I encounter a neurochemical machine that can be understood completely through the operation of its physical parts? Is the person an immaterial mind or self? Is the mind rather an illusion, where the mental acts we experience as ours—memory, imagination, choice, and so on—are really nothing but operations of the brain? This course offers a philosophical examination of attempts to understand the human being in relation to neuroscience. We consider the phenomena of personal life and engage dialectically with diverse efforts to explain the phenomena by appeal to the neural conditions that make it possible. Prerequisites: PHI 100 and any intermediate PHI course (151–154); PHI 152 or 153 recommended.
Maher/Three credits

PHI 270  PHILOSOPHY OF LAW
A discussion of the classical and contemporary writings on the source of, authority, the nature and kinds of law, the interpretation of law, and theories of punishment. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Maher, Ogle/Three Credits

PHI 290  PROPERTY AND CIVIC LIFE
What is wealth, and what is it for? Are human beings essentially greedy? We are all economic actors, but only because we are also human beings seeking the good life and citizens benefitting from and co-responsible for the shape of our communities. This course investigates what property, wealth, and business are and seeks a deeper understanding of ourselves as human beings involved in the production, exchange, distribution, and use of economic goods within our communities. Classical readings from Aristotle and Aquinas will be read in conjunction with texts from modern and contemporary thinkers (e.g., Locke, Smith, Marx, Hayek, Sen). Prerequisites: PHI 100 and any intermediate PHI course (151–154).
McGrath/Three credits

PHI 340  METAPHYSICS
The course examines the aim and subject of that wisdom which is the goal of all philosophical activity. It examines the kind of experience necessary for pursuing this wisdom. Topics include: the search for first causes, the before and after of what is, how the human being is towards truth and the principle for finding the road to follow in science. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Maher, McGrath/Three credits

PHI 345  SPECIAL TOPICS IN PHILOSOPHICAL ISSUES
This course offers a study at an advanced level of a philosophical issue not covered by other thematic courses. Topic changes according to the interest of the professor and needs of students. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Staff/Three credits

PHI 350  PLATO
This course undertakes a detailed reading and discussion of several major dialogues of Plato with numerous references to selected parts in other dialogues. Plato’s positions on the nature and purpose of philosophy, as well as his tentative answers to the central questions of philosophy, will be contrasted with those of some other philosophers. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Staff/Three credits
PHI 351  PLATO’S REPUBLIC
What is justice? Treating others justly is good for them, but is it good for the just person? Would it be better to be unjust, provided one can get away with it? Plato’s Republic begins with these vital questions and leads readers to examining, e.g., the nature of the soul, the city, the divine, knowledge, ethics, happiness, politics, poetry, and metaphysics in their interrelations. While some understand this book to depict an ideal city, others see it as a defense of despotism, and still others regard it as ironic or anti-political. This course helps students learn to read this inexhaustibly fertile text, to ponder the questions it raises, and to appreciate the power of a great book to enliven enduring questions. Prerequisites: PHI 100 and any intermediate PHI (151–154).
Staff/Three credits

PHI 354  SPECIAL TOPICS IN ANCIENT PHILOSOPHY
This course studies a figure or school of philosophy not treated by other history of philosophy courses covering the Ancient period. It fulfills the Area 1 History of Philosophy Requirement for Philosophy Majors and Minors. “Focus in the History of Philosophy” courses are foundational to the Philosophy major. Texts, issues and positions of the past are studied for more than merely their antiquarian interest. Philosophizing well requires coming to grips with the ideas and continued significance of major thinkers in the tradition. These courses are not “survey” courses; they focus upon key figures or philosophical issues characteristic of the period. With the help of the professor, students cultivate the art of independent philosophical research and writing, leading to the completion of a substantive essay characterized by a style appropriate to professional philosophical writing and argumentation. In keeping with the tradition of the Department, each year senior majors present a paper from one of their history of philosophy courses to their peers and the faculty in the Philosophy Department. Fall Semester. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Staff/Three credits

PHI 355  AUGUSTINE AND AQUINAS
The new intellectual environment of philosophy in medieval times will be investigated through a study of the writings of two of the greatest thinkers of the West. Of particular interest will be the union of and tension between the wisdom of the philosophers and the wisdom of the Scriptures present in each author’s work. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Göbel, McGrath/Three credits

PHI 356  SEEK AND FIND: AUGUSTINE SEMINAR
The course offers an introduction to the life and thought of Augustine, whose philosophy resides at the heart of an Assumptionist education. Augustine was a constant seeker: his personal quest for truth and truthfulness did not end when he found God. The course offers a close reading of Augustine’s own account of this spiritual journey in the Confessions, one of the most influential books in Western intellectual history. We will further explore important topics addressed in the Confessions—Augustine’s analysis of the human condition (our “restless heart” and ‘metaphysical nature’), self, freedom, evil, happiness, truth, love, God, faith and reason, education, social engagement, a Christian existence, etc.—through the study of other works by Augustine and authors in the ‘Augustinian tradition’. We want to draw inspiration from these readings and find models of the philosophical quest for truth and a good life that we can relate to in our personal, professional, social, and spiritual development. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Göbel, Ogle/Three credits
PHI 357  CROSSROADS: ISLAMIC, JEWISH, AND CHRISTIAN PHILOSOPHY
This course involves an investigation of the contributions of Islamic, Jewish, and Christian thinkers to the roots of modern philosophical issues and problems. Students will be introduced to important classical figures in each tradition discussing a set of common problems. Consideration will be given to the contemporary implications of classical views. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Maher/Three credits

PHI 359  SPECIAL TOPICS IN MEDIEVAL PHILOSOPHY
This course studies a figure or school of philosophy not treated by other history of philosophy courses covering the Medieval period. It fulfills the Area 2 History of Philosophy Requirement for Philosophy Majors and Minors. Content and pedagogical objectives of the course are similar to those described in PHI 354 above. Spring Semester. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Staff/Three credits

PHI 360  EARLY MODERN PHILOSOPHY
This course undertakes a study of the European thinkers, from Descartes and Hobbes to David Hume, who contributed to and wrestled with modern science and its revolutionary impact on Western civilization. Examination will focus on the respective roles of reason and experience in our understanding of ourselves and the universe, which culminates in the intellectual movement known as the Enlightenment. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Corrigan, Maher, Stoner/Three credits

PHI 365  LATE MODERN PHILOSOPHY
The course undertakes an investigation of the philosophical movement known as German Idealism, in its beginnings with Immanuel Kant, its maturity in thinkers such as Fichte, Schelling, and Hegel, and its self-overcoming in thinkers such as Feuerbach, Marx, and Schopenhauer. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Stoner/Three credits

PHI 369  SPECIAL TOPICS IN MODERN PHILOSOPHY
This course studies a figure or school of philosophy not treated by other history of philosophy courses covering the Modern period. It fulfills the Area 3 History of Philosophy Requirement for Philosophy Majors and Minors. Content and pedagogical objectives of the course are similar to those described in PHI 354 above. Fall Semester. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Staff/Three credits

PHI 370  EXISTENTIALIST THOUGHT
This course is an examination of that human experience and philosophy which is perhaps most clearly representative of the contemporary West. The roots of existentialist thought in the writings of Kierkegaard and Nietzsche, and then a consideration of similarities and differences in the work of several existentialist writers. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Staff/Three credits

PHI 380  20TH-CENTURY CONTINENTAL PHILOSOPHY
An examination of the French and German philosophical movements of the 20th century, topics in this course may include the phenomenology of Edmund Husserl and Maurice Merleau-Ponty, the ontological analyses of Martin Heidegger, the neo-Marxism of the Frankfurt School, the hermeneutics of Hans-Georg Gadamer and Paul Ricoeur, and the postmodernism of Jacques Derrida and Jean-Francois Lyotard. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
McGrath/Three credits

PHI 389  SPECIAL TOPICS IN CONTEMPORARY PHILOSOPHY
This course studies a figure or school of philosophy not treated by other history of philosophy courses covering the Contemporary period. It fulfills the Area 4 History of Philosophy Requirement for Philosophy Majors and Minors. Content and pedagogical
objectives of the course are similar to those described in PHI 354 above. Spring Semester. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Staff/Three credits

PHI 405 INDEPENDENT STUDY
Individually supervised study of a particular area of Philosophy. Offered only to highly qualified Juniors and Seniors. Prerequisites: PHI 100 and any intermediate PHI course (151–154). Permission of the Chairperson is required in all cases.
Staff/Three credits

PHI 444 HONORS THESIS IN PHILOSOPHY
In this course the student will conduct the research project that was proposed and approved during the Honors Seminar (HON 300). The research project will be an original research thesis or creative work under the supervision of a faculty mentor. A summary of the capstone work will be presented at the Honors Colloquium at the end of the semester. This course will count as an elective in the Philosophy major. Prerequisites: PHI 100 and any intermediate PHI course (151–154).
Staff/Three credits
Department of Political Science

Professor: Geoffrey Vaughan (chair), Bernard J. Dobski; Associate Professors: Jeremy Gedert, Gregory Weiner. Post-Doctoral Fellow: Deborah O’Malley.

MISSION STATEMENT

The major is designed to provide a comprehensive grounding in the fundamental principles and problems of a science whose relevance to contemporary life is immediate, yet whose tradition is venerable. Its concern is to help students become liberally educated men and women, rather than narrowly trained functionaries. Nevertheless, it prepares students in more than a general way for successful work in such fields as government service, international affairs, graduate study, journalism, law, teaching, publishing and business. The political science program consists of basic courses, open to all students, and advanced courses for all students except first-year students.

The basic Political Science courses are:
- POL 110 Political Issues: The Quest for Justice
- POL 201 American Government
- POL 203 Modern States
- POL 205 Political Philosophy
- POL 207 Peace and War

Selections from these basic courses may be counted toward Core requirements in “Person and Society” and “The Great Conversation” as well as credit in a Political Science major or minor. The courses cover the major fields in Political Science, namely:

- American National Government—the constitutional founding, institutions and parties, constitutional law, civil rights, and political thought in the U.S.
- American Public Policy and Administration—political economy, urban politics, and democratic leadership.
- Major Foreign States—the institutions, practices, and traditions of European, Latin American, Asian, and African States.
- Political Philosophy—reflection on political life from Plato and Aristotle to Machiavelli, Hobbes, Locke, Rousseau, Marx, and Nietzsche.
- International Politics—relations of peace and war among states, American foreign policy, and diplomacy.

Students are urged to plan a program of study by selecting from among major and elective courses those appropriate to their personal interests and objectives

MAJOR IN POLITICAL SCIENCE (11)

REQUIRED COURSES

- Four (4) intermediate courses, normally taken sophomore year
  - POL 201 American Government
  - POL 203 Modern States
  - POL 205 Political Philosophy
  - POL 207 Peace and War

- One (1) course from three (3) of the following five areas:
  - POL 310–319 American National Government
  - POL 320–329 American Public Policy
  - POL 330–349 Major Foreign States
  - POL 350–359 Political Philosophy
POL 370–379 International Politics

- Three (3) courses from the rest of the departmental offerings at the introductory and upper levels
- POL 409 Research Seminar. To be taken in the fall of senior year.

**NOTE:** All first-year students who think they may major in Political Science or who have an interest in politics are urged to take POL 110 Political Issues: The Quest for Justice or any of the required intermediate courses listed above.

**MINOR IN POLITICAL SCIENCE (6)**
Students majoring in other fields may minor in Political Science by planning their program with a departmental advisor.

Of the six required courses, at least three of the following must be taken:
- POL 201 American Government
- POL 203 Modern States
- POL 205 Political Philosophy
- POL 207 Peace and War

For the three additional courses, two must be numbered above POL 207, producing a total of 18 credits of Political Science. The student must earn at least a C average in the courses in Political Science.

**MINOR IN LEX: LAW, ETHICS, AND CONSTITUTIONAL STUDIES (7)**
Jointly sponsored by the Departments of Political Science and Philosophy, the LEX minor engages the law, ethics, and constitutionalism through those thinkers and texts whose political, philosophical, and legal reflections have shaped the Western intellectual tradition. This minor is designed for those who want to acquire the liberal arts skills essential to professional and personal excellence, as well as to all those who aspire to thoughtful citizenship. For more information, please consult the entry in “Interdisciplinary Programs of Study” or contact its Director, Prof. Veronica Ogle.

**A NOTE ON PRE-LAW:** The American Bar Association confirms that majors and minors across the curriculum, combined with a strong liberal education, provide excellent preparation for law school. Assumption’s Pre-Law Program provides personalized advising, co-curricular activities, and development opportunities for all students considering law school. See the “Pre-Law” section under “Pre-Professional Programs of Study.” Above all, students considering law school should choose a major that interests them, pursue academic excellence in that field, and contact the pre-law advising coordinator, Prof. Carl Keyes at ckeyes@assumption.edu.

**RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN POLITICAL SCIENCE**
The following is a suggested plan for Political Science majors. For instance, students who are interested in the study of politics are encouraged to take our introductory course (POL 110: Quest for Justice) as early as they can. But that course need not be taken first. Nor is it required for the major. However, all students who plan to major in Political Science should take the intermediate 200-level courses either before or in conjunction with relevant upper division offerings. Both the major and its requirements are flexible enough to accommodate study abroad and students can successfully complete the major with the latest starting point being spring of sophomore year.

ADVISING TIPS FOR THE MAJOR IN POLITICAL SCIENCE

- Although 11 courses are required for the major, students can take up to 14 Political Science classes.
- Students are encouraged to explore the major by taking POL 110 as early as possible, though it is not a required class.
- 200-level courses (POL 201, 203, 205, 207) do not have prerequisites. Majors must take these 200-level intermediate courses before or in conjunction with relevant 300-level offerings and are thus usually taken during Freshman and Sophomore years. There is no prescribed order in which the 200-level offerings need to be taken.
- More than one 200-level course can be taken at the same time.
- As a general practice, all 200-level intermediate courses are offered every semester.
- POL 350 and POL 358 count towards the minor in Core Texts and Enduring Questions (CTEQ).
- The special topics course (POL 399ST) can, depending on its theme and content, fulfill any of our upper division course requirements. Students should consult with the Department chair.
- Students thinking about pursuing a career in the law may want to consider minoring in Law, Ethics, and Constitutional Studies (LEX), an interdisciplinary minor between Philosophy and Political Science. As a general practice, the four required courses of this seven-course minor are offered every year.
- The Senior Seminar (POL 409) is only offered during the Fall and only on Wednesdays from 2:30-5:00.
- The Department does not accept on-line classes for credit. Nor does it grant credit to classes taken in the CCE.
- To maintain the academic integrity of the major, transfer courses are approved under strict conditions. Students should consult with the department chair before registering for courses outside the day school of Assumption University.

TO WHAT CAREERS DOES A MAJOR IN POLITICAL SCIENCE LEAD?
An education in Political Science affords students the skills, training, and intellectual disposition to pursue effectively a variety of fulfilling vocations. Recent Political Science graduates have begun their careers in the State Department, the FBI, and the White House, as well as in posts throughout our national, state, and local governments. In addition to public service, our graduates also pursue careers in international affairs, graduate study, journalism, media, law, teaching, publishing, and business. The Political Science program consists of basic courses, open to all students, and advanced courses for all students except first-year students.

COURSE DESCRIPTIONS

POLITICAL SCIENCE (POL)

POL 110 POLITICAL ISSUES: THE QUEST FOR JUSTICE
This beginner’s course in political science provides an introduction to politics through a critical examination of a full range of political issues and of classic and contemporary texts that illuminate the ongoing human—and American— “quest for justice.” Classic works of political reflection, political literature, speeches and writings by statesmen, as well as contemporary American political debates on domestic and foreign policy will be analyzed to put the “issues” of politics in a broader and deeper perspective. Counts towards “The Great Conversation” in the Core Curriculum. (Fall, Spring)
Staff/Three credits

POL 201 AMERICAN GOVERNMENT
This course is an introduction to the principles, institutions, and processes of American government. It focuses on our political principles, such as liberty, democracy, and equality, especially as reflected in our government institutions—Congress and the Executive and Judiciary branches—and in our extra-governmental institutions, such as political parties and interest groups. Consideration will also be given to major contemporary issues—free speech, racial and sexual equality, privacy—as expressions of debates over our principles. Open to all students, this course counts towards “The Great Conversation” in the Core Curriculum. (Fall, Spring)
Weiner/Three credits

POL 203 MODERN STATES
A comparative analysis of major types of ancient and modern political systems, with an emphasis on the Western European liberal democracies of Great Britain and France and on the 20th century experience of totalitarian despotism. Open to all students, this course counts as social science in “Person and Society” in the Core Curriculum. (Fall, Spring)
Geddert/Three credits

POL 205 POLITICAL PHILOSOPHY
This course is an introduction to the nature and place of political philosophy in the political thought and life of Western Civilization. It examines the basic principles of political philosophy according to thinkers such as Plato, Aristotle, St. Augustine, Machiavelli, and Marx. Open to all students, this course counts towards “The Great Conversation” in the Core Curriculum. (Fall, Spring)
Vaughan/Three credits

POL 207 PEACE AND WAR
This course examines the role of war in human affairs, especially during the 20th century of “total war,” and at the outset of the 21st century. It considers why no enduring peace was achieved after the two world wars, the characteristics of international politics since the end of the Cold War, and the instruments for maintaining or restoring peace. Major interpretations of world politics are evaluated. Open to all students, this course counts as social science in “Person and Society” in the Core Curriculum. (Fall, Spring)
Dobski/Three credits

POL 311 AMERICAN POLITICAL THOUGHT
American political conditions and institutions have occasioned unique contributions to the history of political thought. This course will explore them. It begins with the theoretical foundations of the American republic; proceeds to cover the political theory of the Constitution and the great clashes about the nature of the union that culminated in the Civil War and the concepts
of freedom that blossomed in its aftermath; and finally, explores the ideas unleashed by the emerging conditions of the 20th century, including industrialism, American power and civil rights, through the lenses of both progressive and conservative thought.

Weiner/Three credits

**POL 312 THE AMERICAN FOUNDING**
An investigation into the fundamental principles that informed the founding of the American political order and have subsequently oriented the American way of life. In seeking to understand those principles, we also examine the political and philosophical tradition that preceded the founding. (Fall)
Weiner/Three credits

**POL 315 THE JUDICIARY**
This course explores the U.S. judiciary as an institutional force in American politics. Beginning with the foundations of the judiciary and continuing through its prominent position in the interpretation and sometimes formation of policy and law today, the course considers the place courts do and should occupy in the constitutional scheme, how effective they are in producing social change, why their role has changed and how other branches of government react to them. Students will consider major Supreme Court cases and political controversies that illustrate the effect of the federal judiciary on American government.
Weiner/Three credits

**POL 316 CONSTITUTIONAL LAW**
The role of the Supreme Court in the American political system. Constitutional powers and limitations, with primary emphasis on judicial interpretations of the 1st and 14th amendments.
Weiner/Three credits

**POL 321 PUBLIC POLICY**
This course examines selected major contemporary national problems of the U.S. and the federal policies designed to deal with them. Particular problems considered might include poverty, welfare, the economy, education, health, transportation, consumer protection, environmental protection, and energy. It considers the interaction between parts of the government and between government and interest groups, in formulating and executing public policy. It evaluates the thinking of those who have advocated and opposed the expansion of government responsibility for a large range of social action.
Geddert/Three credits

**POL 322 POLITICAL ECONOMY**
The purpose of this course is to clarify the tradition of political economy, to understand its foundations and historical permutations, and to study its relationship and pertinence to pressing public policy concerns of our time. The relationship between “political” and “economic” phenomena and analysis will be investigated. The course focuses on the origins of political economy in moral and political reflection rather than in abstract “scientific” considerations. Authors to be studied include Smith, Marx, Keynes, de Jouvenel, Hayek, and Berger. (Fall)
Geddert/Three credits

**POL 338 NATIONALISM AND FASCISM**
This course has as its focus the nation, as a unique form of political organization, and nationalism as the unique movement which gives that form its primary expression. Distinctions will be drawn between moderate and patriotic forms of nationalism and that extreme form known as fascism. It will analyze the rise of major manifestations of nationalism in the 19th and 20th centuries as well as the 21st century challenges posed to the sovereignty of the nation by multinational corporations, intergovernmental organizations, terrorism, transnational bodies (the EU), and even individuals.
Dobski/Three credits

**POL 345 POLITICAL MASS MURDER**
Scholars who have studied the 20th century say that far more people were killed by their own governments during this time than by foreign enemies in wars. This course examines this phenomenon and compares selected major cases of political mass murder, including the Jewish holocaust, great state induced famines under Stalin and Mao, the killing fields of Cambodia, genocide in Rwanda and Sudan and ethnic cleansing in Bosnia. It considers how outside powers, especially the U.S. and U.N, have responded,
when they intervene and how effectively; when and why they refrain from acting; and whether moral principles or international law permit or oblige states to intervene. (Fall)

Dobski/Three credits.

**POL 350 REPUBLICANISM ANCIENT AND MODERN**

Is it possible for a political community to combine the rule of wisdom and virtue with popular consent? Can such a regime satisfy the need for both stability and energy? To understand why and how republics ancient and modern answered these questions, as well as why some republics succeeded and others failed, students will explore the theoretical and historical texts that illustrate the evolution of this political form. Rising above any particular party, policy, or platform, this course will distinguish the ancient effort to secure ordered liberty from its medieval and modern counterparts, throwing into specific relief the character of our own republican democracy and the challenges facing its success. Fulfills a “Great Conversation” requirement in the Core curriculum.

Dobski/Three credits

**POL 351 CLASSICAL POLITICAL PHILOSOPHY**

Study of the origin and principles of political philosophy in the works of Homer, Herodotus, Thucydides, Plato, Xenophon, and Aristotle. Relevant works by Roman-era philosophers and historians (Cicero, Plutarch, Seneca, Sallust, Tacitus and Livy) may also be studied.

Dobski/Three credits

**POL 352 EARLY MODERN POLITICAL PHILOSOPHY: MAKING NATURAL RIGHTS**

This course will explore the major philosophers of the period, from Machiavelli to Rousseau. These figures made the modern world through their claim that each individual is best positioned to know what is right for that person. This is the origin of natural rights.

Vaughan/Three credits

**POL 353 IDEOLOGY AND REVOLUTION**

A study of modern revolutions and their connection to “ideologies” which promise a fundamental transformation of political life. We examine the political history of the French and Soviet Revolutions to understand the originality of ideological revolution as distinct from traditional political revolutions which have had more limited aims. The course also compares totalitarian tyrannies with traditional forms of dictatorship. The anti-totalitarian Revolutions of 1989 in Eastern Europe are also considered.

Staff/Three credits

**POL 358 TOCQUEVILLE AND DEMOCRACY IN AMERICA**

Democracy in America (1835, 1840) is arguably the first and greatest philosophical reflection on modern democracy and the greatest guide to American laws, institutions, and mores yet written. Tocqueville, a distinguished French aristocrat and political thinker, wrote sympathetically about the American experiment in republican self-government while highlighting tensions between liberty and equality, religion and individualism, local self-government and centralized administration. He praised active citizenship and warned against pantheism, civic apathy, and soft or tutelary despotism. He wrote poignantly on the three races in America and opposed the evils of racism and slavery. He taught that to love democracy well it is necessary to love it moderately—and thus to be aware of its considerable strengths as well as the myriad threats it posed to liberty and human dignity. We will read both volumes of this great classic and some selected letters from Tocqueville that clarify its intent.

(Spring)

Staff/Three Credits

**POL 371 FOREIGN POLICY AND DIPLOMACY**

This course examines the making and character of the foreign policies of major states in the world today. This study is made against a background consideration of Thucydides’ interpretation of relations between states, the nature and development of diplomatic practice, and the impact of modern Western civilization on the contemporary world.

Staff/Three credits

**POL 372 AMERICAN FOREIGN POLICY**

A study of the policy of the United states regarding important areas and problems in the contemporary world, and the development of the American involvement in foreign affairs from the Roosevelt-Truman era of World War II to the present time. Legalist, moralist, realist and revisionist interpretations of American foreign policy are evaluated.
POL 376 TERRORISM AND THE MODERN WORLD
An introduction to modern-day terrorism and the challenges it poses to contemporary political life. This course distinguishes three ways in which terrorism manifests itself in the modern world, capturing the difference between those who see terror as an end in itself, those who use terror as an instrument to achieve political goals, and those who understand terrorism to serve “otherworldly”, or non-political, ends. Students will examine how these manifestations of modern terrorism vary from each other in their origins, historical development, the justifications they employ, the goals they pursue, and the tactics, targets and technologies that they use.
Dobski/Three credits

POL 377 THE POLITICS OF JUST WARS
Are “just wars” possible? This class examines reflections on just war thinking at the core of the political, military, religious and philosophic traditions within Western civilization, and how they apply to contemporary reflections on human rights and international law. It begins with military justifications from classical antiquity, moving to the origins of just war theorizing in the early Church, Judaism and Islam. It then weighs the most serious criticisms of the moral and political teachings of the classical and Christian world posed by the “Catholic New Left,” feminist political theory, Islamist terrorism, and the allure of a world without borders.
Dobski, Geddert/Three credits

POL 381 SHAKESPEARE’S POLITICS
Perhaps transcending the distinction between philosopher and poet, Shakespeare has given the world dramatic portrayals of the most enduring human problems. This course focuses on one of those problems through a careful reading of some of Shakespeare’s British histories. To be more precise, it explores Shakespeare’s portrait of Britain’s development from a tribal kingship under the political and spiritual influence of “Rome” into a constitutional monarchy whose separation of church from state prepared the way for its modern republican character.
Dobski/Three credits

POL 382 POLITICS AND LITERATURE
Literature, such as the epic, the novel, or tragic or comic drama, has always been central to the entertainment and self-understanding of a democratic people. This course studies a series of writers who illuminate the nature of democracy and tyranny in the modern world.
Staff/Three credits

POL 399 SPECIAL TOPIC: THEOLOGY OF THE AMERICAN FOUNDING
Americans often say we prefer to keep politics out of the pulpit and the pulpit out of politics. But early in American history, the two nourished each other, so much so that it is difficult to imagine an American republic emerging without political theology. This course examines those strains in early American thought from the Puritan landing in America through the Civil War, including early colonial documents like the Mayflower Compact, the sermons that fired the American Revolution, and the spiritual chords of Lincoln’s Second Inaugural. This political theology established a tradition whose influence on our constitutional culture—ranging from the civil rights movement of the 1960s to the evangelical movement today—endures.
(Spring)
Weiner/Three Credits

POL 400 INDEPENDENT STUDY
Open to highly qualified Junior and Senior Political Science majors. Permission of the Chairperson is required. Staff/Three credits

POL 409 RESEARCH SEMINAR: POLITICAL THEORY AND POLITICAL PRACTICE IN THE 20th and 21st CENTURIES
We will study five recent or contemporary distinguished political philosophers (Hannah Arendt, Leo Strauss, Eric Voegelin, Pierre Manent and Roger Scruton) whose philosophical reflection has illuminated the nature of political liberty and ideological despotism, the character of citizenship and statesmanship, the nature of liberal education, and the variety of political regimes and forms. The senior seminar will explore the multiple ways in which political philosophy in the most capacious sense of the term illumines the structure of moral and political action and thus of decent politics in the modern world. (Fall)
Staff/Three Credits
Department of Psychology

Professors: Leonard A. Doerfler, Paula Fitzpatrick; Associate Professors: Sarah Cavanagh, Leamarie Gordon, Maria Kalpidou, Regina Kuersten-Hogan, Karen Lionello-DeNolf, Maria Parmley (Chairperson), Adam Volungis Fang Zhang; Assistant Professors: Amy Cirillo, Amanda Cremone-Caira; Lecturers: Sheila Bessette, Zachary Bryant, Jillian Crawley, Rachael Hickey, Cormac MacManus, Johanna Sagarin, Rachel Schein, Ashley Warhol.

MISSION STATEMENT
Psychology is a science concerned with mind and behavior. The psychology program introduces students to a variety of ways to understand cognition, emotion, and behavior. In addition, the program prepares students for various career paths within psychology human service jobs, graduate study, or in other professions (business, education, public service). The curriculum requires students to sample from diverse courses that provide the foundation for understanding the major concepts and theoretical perspectives of psychology. Students also develop skills for understanding and conducting psychological research. The curriculum promotes personal growth and development and challenges students to critically evaluate complex social issues. Students can explore opportunities for independent research and work in supervised fieldwork placements. The department apprises students of the many fields with which psychology shares borders of concern and inquiry in the pursuit of knowledge.

DESCRIPTION OF THE PROGRAM
The goal of our program is to introduce students to the breadth of the discipline and give them the opportunity to develop competence, both as scientists and practitioners. As a consequence, our curriculum requires students to sample from core courses like developmental psychology, social psychology, cognitive psychology, and abnormal psychology. Students are also required to complete courses to provide the foundation for conducting psychological research. In addition, students are given the opportunity to explore more specialized areas within the field like human neuroscience, child psychopathology, interpersonal communication, stereotypes and prejudice, or psychology of women. Students are encouraged to explore opportunities for independent research with faculty members and work in supervised fieldwork placements where psychological services are provided. Likewise, students are encouraged to work closely with a member of the psychology faculty to develop a program that will best satisfy their intellectual, vocational, and personal interests.

LEARNING OUTCOMES
We expect that our students will develop a strong psychological knowledge base, sharpen their critical thinking and communication skills, understand psychological applications and research methods, develop a socio-cultural awareness, and plan effectively for their career, academic, and personal futures.

MAJOR IN PSYCHOLOGY (12)
Candidates for the Psychology Major must complete twelve psychology courses.

FOUNDATION COURSE (1)
PSY 101 General Psychology (normally taken in the first year)

RESEARCH SEQUENCE (3)
PSY 224 Statistics (normally taken the fall of sophomore year)
PSY 225 Research Methods in Psychology (normally taken in the spring of the sophomore year)
PSY 390 Research Seminar OR PSY 391/PSY 391L Experimental Techniques in Human Neuroscience with Lab (normally taken in the junior year)

CORNERSTONE COURSES (4)
Students must choose one 200-level course from each of the four cornerstones.

Social/Developmental Cornerstone (1)
PSY 210 Social Psychology
PSY 290 Psychology of Development: Infancy and Childhood

**Biological Cornerstone (1)**
- PSY 250 Perception
- PSY 251 Introduction to Brain and Behavior

**Mental Health Cornerstone (1)**
- PSY 216 Abnormal Psychology
- PSY 240 Psychology of Personality

**Cognition and Learning Cornerstone (1)**
- PSY 252 Cognitive Psychology
- PSY 253 Psychology of Learning

**CAPSTONE SEMINAR (1)**
Students must complete one capstone seminar course from among:

- PSY 408 Family Psychology
- PSY 409 Common Problems in Childhood
- PSY 416 Abnormal Child and Adolescent Psychology
- PSY 425 Clinical Psychology
- PSY 402 Social and Affective Neuroscience
- PSY 403 Cognitive Neuroscience
- ABA 450 Applied Behavior Analysis: Implications for Practice

Students are encouraged to choose a 400-level seminar course that builds off a cornerstone course they have previously taken.

**ELECTIVE COURSES (3)**
Students must take three additional courses from any area; at least one must be 300 level or higher, from among:

- Any additional cornerstone or seminar course
- PSY 212 Sports Psychology
- PSY 217 Psychology of Women
- PSY 218 Cultural Psychology
- PSY 220 Interpersonal Communication
- PSY 281 Psychology of Adolescence and Maturity
- PSY 283 Introduction to Autism Spectrum Disorder
- PSY 285 Women’s Studies I: Images
- PSY 286 Organization and Industrial Psychology
- PSY 296 Forensic Psychology
- PSY 301 Internship in Psychology
- PSY 330 Positive Psychology
- PSY 335 Motivation and Emotion
- PSY 385 Women of the World *
- PSY 392 Raising Happy and Successful Children
- PSY 399 Independent Study
- ABA 340 Applied Behavior Analysis: Skill Acquisition
- ABA 350 Applied Behavior Analysis: Evidence-based Interventions

*Does not count as a 300+ Psychology elective

**RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN PSYCHOLOGY**
The following plan is recommended for psychology majors. It prepares students for the workforce or for graduate school. The major is flexible to accommodate study abroad and students can successfully complete the major with the latest starting point being spring of sophomore year. Students who intend to go to graduate school are encouraged to gain additional research experience in the junior and senior year.
### First Year

### ADVISING TIPS FOR THE MAJOR IN PSYCHOLOGY

- Although 12 courses are required for the major, students can take up to 14 psychology courses.
- Several students take independent study (PSY399) to gain more research experience.
- Students may begin to explore the major by taking PSY101, which is a prerequisite to several research courses (PSY 225, PSY 390) and some cornerstone courses (PSY 250, PSY 251, PSY 252).
- Students may also begin to explore the major by taking any cornerstone course without a prerequisite (PSY 210, PSY 290, PSY 216, PSY 240, PSY 253). Students entering with AP credit for PSY 101 should plan to take one social/developmental or mental health cornerstone in the fall of their first year.
- Students must complete the research courses in the sequence of PSY 224, PSY 225, PSY 390. We recommend students take the courses in consecutive semesters, unless they study abroad.
- More than one cornerstone course can be taken at the same time.
Students are encouraged to take the cornerstone courses that do not have prerequisites first.
- At least one course from each cornerstone is offered every semester.
- Starting in 2019-2020, PSY 251 will be offered in the fall and spring and PSY 250 will be offered in the spring.
- If students are thinking about the neuroscience of human behavior concentration, but are not sure yet, they should take PSY 251 Introduction to Brain and Behavior in their sophomore year and should take BIO 160 in their freshman or sophomore year.
- Capstone Seminar courses allow students to go into greater depth in various areas of psychology and have at least one cornerstone course prerequisite (most capstone seminars are offered either in the fall or the spring and students need to plan ahead).
- PSY 301 Internship in Psychology is only offered in the spring semester. Students are encouraged to take this course in the spring of the junior year to help guide career planning for entering the workforce or graduate school.
- ABA courses count as elective courses (PSY 253 or HRS 331 is a prerequisite to all ABA courses).
- To maintain the academic integrity of the major, transfer courses are approved under strict conditions. Students should consult with the department chair before registering for courses outside the day school of Assumption University.

WHAT CAREERS DOES A MAJOR IN PSYCHOLOGY LEAD TO?
The websites of the American Psychological Association and the Association for Psychological Science offer a wealth of information about the current state of the field and career paths

MAJOR IN PSYCHOLOGY WITH A CONCENTRATION IN NEUROSCIENCE OF HUMAN BEHAVIOR (13)

This concentration focuses the psychology major on courses relevant to the interactions of brain function, cognition, and behavior. This concentration is ideal for students interested in applying to graduate programs in psychology, neuroscience, or certain clinical programs focused on the biological basis of psychopathology. The major can be combined with further study in the natural sciences, and with careful planning it is possible to pursue a second major or a minor in one of these disciplines. Students who choose this concentration are also encouraged to do internships or independent studies in laboratories studying psychophysiology, neurobiology, or the biological basis of behavior.

REQUIRED COURSES (13)
All of the below courses are required. It is highly recommended that interested students declare this major by the end of their sophomore year.

Students are advised to take the required Biology courses in their sophomore and junior year. Students are further recommended to take PSY 251: Introduction to Brain and Behavior (offered in the fall & spring) in their sophomore year, and to complete the Neuroscience Capstone in their senior year.

FOUNDATION COURSES (7)

PSY 101 General Psychology
PSY 250 Perception
PSY 251 Introduction to Brain and Behavior
PSY 252 Cognitive Psychology
BIO 160 Concepts in Biology (+ lab; 4-credit)
BIO 280 Sensory Systems (+ lab; 4-credit)
PHI 267 Person, Mind, & Brain

RESEARCH SEQUENCE (3)
PSY 224 Statistics
PSY 225 Research Methods
PSY 391 Experimental Techniques in Human Neuroscience (+ lab; 4-credit)

PSYCHOLOGY CORNERSTONE COURSES (2)
Social Developmental Cornerstone (1)
PSY 210 Social Psychology
PSY 290 Psychology of Development: Infancy and Childhood
Mental Health Cornerstone (1)
PSY 216 Abnormal Psychology
PSY 240 Psychology of Personality

NEUROSCIENCE CAPSTONE (1)
PSY 402 Social and Affective Neuroscience
PSY 403 Cognitive Neuroscience

RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN PSYCHOLOGY WITH A CONCENTRATION IN NEUROSCIENCE OF HUMAN BEHAVIOR
The following plan is recommended for psychology majors with a concentration in neuroscience of human behavior. It prepares students for the workforce or for graduate school, though to work within the field of neuroscience a graduate degree is almost always required. The concentration is designed so that students reap all of the benefits of a major in psychology while focusing their study on topics relevant to neuroscience, as well as gaining some interdisciplinary expertise through the biology requirements. The major is flexible to accommodate study abroad and students can successfully complete the major with the latest starting point being spring of sophomore year. Students who intend to go to graduate school are encouraged to gain additional research experience in the junior and senior year.

### ADVISING TIPS FOR THE PSYCHOLOGY NEUROSCIENCE MAJOR

- Although 10 psychology courses are required for the major, students can take up to 14 psychology courses.
- Note that all of the requirements of the psychology major pertain to the major with the concentration; however, some of the choices within the major are constrained to fit the concentration.
- Please note: The Foundation courses are designed to build up to PSY 402 or PSY 403; thus, while some students do take these courses in their junior year, it is more ideal to take them senior year.
- Several students take independent study (PSY 399) to gain more research experience.
- Students may begin to explore the major by taking PSY 101, which is a prerequisite to several research courses (PSY 225, PSY 391) and some cornerstone courses (PSY 250, PSY 251, PSY 252).
- Students may also begin to explore the major by taking any cornerstone course without a prerequisite (PSY 210, PSY 290, PSY 216, PSY 240).
- Students must complete the research courses in the sequence of PSY 224, PSY 225, PSY 391. We recommend students take the courses in consecutive semesters, unless they study abroad.
- To maintain the academic integrity of the major, transfer courses are approved under strict conditions. Students should consult with the department chair before registering for courses outside the day school of Assumption University.
- Concentrators are encouraged to explore the offerings of our Center for Neuroscience and to get involved in the new student-run neuroscience club.

MAJOR IN PSYCHOLOGY WITH A CONCENTRATION IN CHILD AND ADOLESCENT DEVELOPMENT (13)

This Major in Psychology with a Concentration in Child and Adolescent Development trains students in the major areas of human development, including physical, cognitive, perceptual, social, personality, and emotional development, and exposes students to theory, research, and application of the developmental psychology field. In addition to a broad foundation in psychology across the lifespan, the coursework allows students to focus on the earlier developmental periods (e.g. childhood and adolescence). Students also have opportunities to take courses that focus on typical (e.g., common problems in childhood) and atypical development (e.g., abnormal child and adolescent development), as well as optimal functioning (e.g., raising happy and successful children, family psychology). This major is ideal for providing students with the background to pursue graduate degrees in a variety of areas such as Developmental Psychology, Human Development, Family Studies, Applied Behavior Analysis, School Psychology, Special Education, Counseling Psychology, Social Work, School Counseling, and Child Life programs. Many psychology-based graduate programs require a strong foundation in psychological theory and research and this major prepares students for such programs. The coursework also provides the research, conceptual, and applied background for students who may seek employment in organizations (e.g., schools or agencies) that work with children and adolescents that may or may not have developmental psychopathology or impairments.

REQUIRED COURSES (13)

All of the below courses are required. In addition to these, concentrators will need to take one additional Psychology elective in order to complete the Psychology major. It is highly recommended that interested students declare this major by the beginning of their junior year. The Child and Adolescent Development coordinator is Dr. Regina Kuersten-Hogan.

FOUNDATION COURSE (1)

PSY 101 General Psychology

RESEARCH SEQUENCE (3)

PSY 224 Statistics
PSY 225 Research Methods
PSY 390 Research Seminar - OR - PSY 391/PSY 391L Experimental Techniques in Human Neuroscience/Experimental Techniques in Human Neuroscience Lab (normally taken in the junior year)

FOUNDATIONS IN PSYCHOLOGY AND CHILD AND ADOLESCENT DEVELOPMENT (6)

(Completing these foundation courses fulfills the cornerstone psychology requirements)

PSY 216 Abnormal Psychology
PSY 281 Psychology of Adolescence and Maturity
PSY 250 Perception - OR - PSY 251 Introduction to Brain and Behavior
PSY 253 Psychology of Learning
PSY 290 Psychology of Development: Infancy and Childhood
PSY 301 Internship in Psychology (internship approved by Child and Adolescent Development coordinator)

CHILD AND ADOLESCENT DEVELOPMENT CAPSTONE SEMINAR (1)

PSY 408 Family Psychology
PSY 409 Common Problems in Childhood
PSY 416 Abnormal Child and Adolescent Psychology

CHILD AND ADOLESCENT DEVELOPMENT ELECTIVE COURSES (1)

PSY 392 Raising Happy and Successful Children
PSY 399 Independent Study (topic approved by concentration coordinator)
PSY 408 Family Psychology (Unless taken as Capstone)
PSY 409 Common Problems in Childhood (Unless taken as Capstone)
PSY 416 Abnormal Child and Adolescent Psychology (Unless taken as Capstone)

ONE ADDITIONAL PSYCHOLOGY ELECTIVE (1)
May be from any area: elective, cornerstone in the Psychology major (Social/Developmental Cornerstone; Biological Cornerstone, Mental Health Cornerstone, and Cognition and Learning Cornerstone), or seminar

RECOMMENDED COURSES IN OTHER DISCIPLINES:
- ABA 340 Applied Behavior Analysis: Skill Acquisition
- ENG 263 Children’s Literature
- EDU 260 Teaching Students with Special Needs
- EDU 265 Effective Classroom Management
- HRS 235 Normal Speech and Language Development
- HRS 241 Prevention and Intervention: Models and Approaches with Youth
- HRS 321 Social Skill Development for Youth
- HRS 421 Loss and Bereavement Across the Lifespan

RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN PSYCHOLOGY WITH A CONCENTRATION IN CHILD AND ADOLESCENT DEVELOPMENT
The following plan is recommended for psychology majors with a concentration in child and adolescent development. It prepares students for the workforce or for graduate school in the field of child and adolescent development. The major with the concentration is designed so that students reap all the benefits of a major in psychology while focusing their study on topics relevant to child and adolescent development, as well as gaining some internship experience within the field. The major is flexible to accommodate study abroad and students can successfully complete the major with the latest starting point being spring of sophomore year. Students who intend to go to graduate school are encouraged to gain additional research experience in the junior and senior year.

## ADVISING TIPS FOR THE MAJOR IN PSYCHOLOGY WITH A CONCENTRATION IN CHILD AND ADOLESCENT DEVELOPMENT

- Although 13 courses are required for the major, students can take up to 14 psychology courses.
- Note that all of the requirements of the Psychology major pertain to the major with the concentration; however, some of the choices within the major are constrained to fit with the Child and Adolescent Development focus.
- Students may begin to explore the major by taking PSY101, which is a prerequisite to several research courses (PSY225, PSY390) and some cornerstone courses (PSY 250, PSY 251, PSY 252).
- Students may also begin to explore the major by taking any cornerstone course or Child and Adolescent Development courses without a prerequisite (PSY290, PSY 281, PSY216, PSY 253). Students entering with AP credit for PSY 101 should plan to take either PSY290 or PSY 281 in their first year.
- Students must complete the research courses in the sequence of PSY224, PSY 225, PSY390. We recommend students take the courses in consecutive semesters, unless they study abroad.
- More than one cornerstone course can be taken at the same time.
- Students are encouraged to take the cornerstone courses that do not have prerequisites first.
- At least one course from each cornerstone is offered every semester.
- Child and Adolescent Development Capstone Seminar courses allow students to go into greater depth in the field of child and adolescent development and have PSY290 as a course prerequisite (most capstone seminars are offered either in the fall or the spring and students need to plan ahead).
- PSY 301 Internship in Psychology is currently only offered in the spring semester. Students are encouraged to take this course in the spring of the junior year to help guide career planning for entering the workforce or graduate school.
- Students may take an independent study (PSY399) to gain more research experience.
- ABA courses count as elective courses (PSY 253 is a prerequisite to all ABA courses).
- To maintain the academic integrity of the major, transfer courses are approved under strict conditions. Students should consult with the department chair before registering for courses outside the day school of Assumption University.

MAJOR IN PSYCHOLOGY WITH A CONCENTRATION IN MENTAL HEALTH AND PRE-CLINICAL COUNSELING (13)

The Major in Psychology with a Concentration in Mental Health and Pre-Clinical Counseling is designed for Psychology majors with a particular interest in clinical or counseling psychology or clinical social work. The concentration lays a solid foundation in coursework, research, and field experiences to help students decide if they wish to apply to a graduate program and obtain licensure to practice in a clinical field (e.g., Clinical Psychology, Counseling Psychology, Social Work, etc.). Students will pursue coursework, applied work, and research emphasizing clinical psychology as a science, and the best practices for diagnosis and treatment within the scientific paradigm. Students will be prepared for entry level positions related to the field of psychology, and also prepared for entry into graduate study in areas such as social work, counseling, school psychology and clinical psychology. Courses will include Abnormal Psychology, Internship in Psychology, and an advanced seminar in Clinical Psychology.

REQUIRED COURSES (13)

All of the below courses are required. In addition to these, concentrators will need to take one additional Psychology elective in order to complete the Psychology major. It is highly recommended that interested students declare this major by the beginning of their junior year. The Mental Health and Pre-Clinical Counseling coordinator is Dr. Amy Cirillo.

FOUNDATION COURSE (1)

PSY 101 General Psychology

RESEARCH SEQUENCE (3)

PSY 224 Statistics
PSY 225 Research Methods
PSY 390 Research Seminar -OR- PSY 391/PSY 391L Experimental Techniques in Human Neuroscience/Experimental Techniques in Human Neuroscience Lab (normally taken in the junior year)

FOUNDATIONS IN MENTAL HEALTH AND PRE-CLINICAL COUNSELING (6)

(Completing these foundation courses fulfills the cornerstone psychology requirements)

PSY 210 Social Psychology -OR- PSY 290 Psychology of Development: Infancy and Childhood
PSY 216 Abnormal Psychology
PSY 251 Introduction to Brain and Behavior
PSY 253 Psychology of Learning
PSY 301 Internship in Psychology (internship approved by concentration coordinator)
PSY 425 Clinical Psychology (Capstone)

SOCIAL, EMOTIONAL, AND CULTURAL INFLUENCES (1)

PSY 217 Psychology of Women
PSY 218 Cultural Psychology
PSY 220 Interpersonal Communication
PSY 240 Psychology of Personality
PSY 330 Positive Psychology
PSY 335 Motivation and Emotion
### ADVANCED MENTAL HEALTH AND PRE-CLINICAL COUNSELING ELECTIVE (1)
- PSY 399 Independent Study (topic approved by concentration coordinator)
- PSY 409 Common Problems in Childhood
- PSY 416 Abnormal Child and Adolescent Psychology
- ABA 340 ABA: Skill Acquisition
- ABA 350 ABA: Evidence-Based Interventions

### ONE ADDITIONAL PSYCHOLOGY ELECTIVE (1)
May be from any area: elective, cornerstone in the Psychology major (Social/Developmental Cornerstone; Biological Cornerstone, Mental Health Cornerstone, and Cognition and Learning Cornerstone), or seminar

### RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN PSYCHOLOGY WITH A CONCENTRATION IN MENTAL HEALTH AND PRE-CLINICAL COUNSELING
The following plan is recommended for psychology majors with a concentration in mental health and pre-clinical counseling. It prepares students for the workforce or for graduate school in the field of mental health and clinical counseling. The concentration is designed so that students reap all of the benefits of a major in psychology while focusing their study on topics relevant to mental health, as well as gaining some internship experience within the field. The major is flexible to accommodate study abroad and students can successfully complete the major with the latest starting point being spring of sophomore year. Students who intend to go to graduate school are encouraged to gain additional research experience in the junior and senior year.

#### First Year

DOUBLE COUNTS IN THE CORE FOR PSYCHOLOGY MAJORS

| Second scientific or quantitative course          | PSY 224 or PSY 101 or PSY 253 |
| Person and Society                               | PSY 101 or PSY 210 or PSY 290 or PSY 240 |
| Global Awareness                                 | PSY 218 |

ADVISING TIPS FOR THE MAJOR IN PSYCHOLOGY WITH A CONCENTRATION IN MENTAL HEALTH AND PRE-CLINICAL COUNSELING

- Although 13 courses are required for the major, students can take up to 14 psychology courses.
- Note that all of the requirements of the Psychology major pertain to the major with the concentration; however, some of the choices within the major are constrained to fit with the mental health and pre-clinical counseling focus.
- Students may begin to explore the major by taking PSY 101, which is a prerequisite to several research courses (PSY 225, PSY 390) and some cornerstone courses (PSY 250, PSY 251, PSY 252). Students may also begin to explore the major by taking any cornerstone course or foundation courses without a prerequisite (PSY 216, PSY 210, PSY 253, PSY 290). Students entering with AP credit for PSY 101 should plan to take PSY 216 in their first year.
- Students must complete the research courses in the sequence of PSY 224, PSY 225, PSY 390. We recommend students take the courses in consecutive semesters, unless they study abroad.
- More than one cornerstone course can be taken at the same time.
- Students are encouraged to take the cornerstone courses that do not have prerequisites first.
- At least one course from each cornerstone is offered every semester.
- Advanced courses (300+) allow students to go into greater depth in the field and may have course prerequisites (most 400 level capstone seminars are offered either in the fall or the spring and students need to plan ahead).
- Students may take an independent study (PSY 399) to gain more research experience.
- PSY 301 Internship in Psychology is currently only offered in the spring semester. Students are encouraged to take this course in the spring of the junior year to help guide career planning for entering the workforce or graduate school.
- ABA courses count as elective courses (PSY 253 is a prerequisite to all ABA courses).
- To maintain the academic integrity of the major, transfer courses are approved under strict conditions. Students should consult with the department chair before registering for courses outside the day school of Assumption University.

WHAT CAREERS DOES A MAJOR IN PSYCHOLOGY WITH A CONCENTRATION IN MENTAL HEALTH AND PRE-CLINICAL COUNSELING LEAD TO?

The websites of the American Psychological Association and the Association for Psychological Science offer a wealth of information about the current state of the field and career paths.

MAJOR IN NEUROSCIENCE WITH A PSYCHOLOGY PATH (16)

A Major in Neuroscience utilizes an interdisciplinary approach to empower students to: 1) develop and refine skills of inquiry with a focus on the brain and mind, 2) gain a strong understanding of classic and contemporary findings in neuroscience, 3) comprehend and appreciate the dynamic, multidisciplinary nature of this field, 4) ask thoughtful questions and strategically select approaches to answer questions, 5) develop informed hypotheses and design/execute experiments to test hypotheses, 6) critically analyze data and determine if data supports hypotheses, and 7) explore philosophical questions about the nature of human life, consciousness, and free will.

Neuroscience explores the complex interactions between the distinct aspects of brain, mind, and behavior. The Major in Neuroscience engages students through a holistic, interdisciplinary approach rooted in rigorous science and augmented by philosophical perspectives that address the brain, mind, and human nature.

In addition, students are encouraged to engage in activities offered by the Center for Neuroscience (CfN), which include research internships, an interdisciplinary lecture series, and community service. Students who major in neuroscience will be prepared to pursue careers in industry, health professions, and graduate studies within the field of neuroscience.

The Major in Neuroscience with a Psychology Path features curriculum that explores concepts related to human neuroscience, namely:

1. Neuroanatomy and function of the nervous system
2. Neural mechanisms of human perception, thought, and behavior
3. How context, environment, experience, and brain function interact to influence human behavior
4. Developmental, neurological, and psychiatric disorders
5. Familiarity and experience with experimental designs and tools used to study human neuroscience
6. Philosophical conversations about the relationship between brain and mind, free will and human consciousness.

REQUIRED COURSES (16)

All of the below courses are required. It is highly recommended that interested students declare this major by the end of their sophomore year. Students are advised to take the Biology courses in their sophomore and junior year. Students are further recommended to take PSY 251: Introduction to Brain and Behavior (offered in the fall & spring) in their sophomore year, and to complete the Neuroscience Capstone in their senior year.

FOUNDATION COURSES (9)

PSY 101 General Psychology
PSY 250 Perception
PSY 251 Introduction to Brain and Behavior
PSY 252 Cognitive Psychology
PSY 335 Motivation and Emotion
BIO 160 Concepts in Biology (+ lab; 4-credit)
BIO 280 Sensory Systems (+ lab; 4-credit)
BIO 415 Principles of Neuroscience (+ lab; 4-credit)
PHI 267 Person, Mind, & Brain

• It is strongly recommended that students take PHI 152 The Human Difference -OR- PHI 153 The Book of Nature as their second, intermediate PHI requirement in the Core, and that they take THE 151 Faith and Reason as their second, intermediate THE requirement in the Core.

CHOOSE ONE OF THE FOLLOWING BIO COURSES (1)

BIO 375 Milestones in Neuroscience (3-credit; no lab)
BIO 310 Animal Behavior (+ lab; 4 credit)

RESEARCH SEQUENCE (3)

PSY 224 Statistics
PSY 225 Research Methods
PSY 391 Experimental Techniques in Human Neuroscience (+ lab; 4-credit)
NEUROSCIENCE CAPSTONE (CHOOSE ONE OF THE FOLLOWING) (1)
PSY 402 Social and Affective Neuroscience
PSY 403 Cognitive Neuroscience

ELECTIVES (2)
Any PSY course (200-level or above)
Any BIO course (200-level or above)
MAT 117 Calculus I
CSC 117 Introduction to Programming

RECOMMENDED BUT NOT REQUIRED COURSES
MAT 117 Calculus I (if not taken as elective)
CSC 117 Introduction to Programming (if not taken as elective)
PHI 152 The Human Difference -OR- PHI 153 Book of Nature
THE 151 Faith and Reason

RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN NEUROSCIENCE WITH A PSYCHOLOGY PATH
The following plan is recommended for neuroscience majors with a psychology path. It prepares students for the workforce or for graduate school, though to work within the field of neuroscience a graduate degree is almost always required. The major is designed so that students reap all of the benefits of interdisciplinary expertise. The major is flexible to accommodate study abroad and students can successfully complete the major with the latest starting point being spring of sophomore year. Students who intend to go to graduate school are encouraged to gain additional research experience in the junior and senior year.

ADVISING TIPS FOR THE PSYCHOLOGY NEUROSCIENCE MAJOR

- Please note: This is one example of a course sequence for this major. There are many possibilities.
- In preparation for PHI 267 Person, Mind, and Behavior, it is strongly recommended that students take PHI 152 The Human Difference or PHI 153 The Book of Nature as their second PHI requirement.
- Students are advised to take no more than 2 laboratory courses in a given semester.
- If students elect to take three additional courses in BIO, then they will be able to add a BIO minor.
- Programming is a valuable skill in many graduate programs and careers that explore human neuroscience.
- The Foundation courses are designed to build up to PSY 402 or PSY 403; thus, while some students do take these courses in their junior year, it is more ideal to take them senior year.
- Several students take an independent study (PSY 399) to gain more research experience.
- Students may begin to explore the major by taking PSY 101 or BIO 160, which is a prerequisite to several research courses (PSY 225, PSY 391), PSY courses (PSY 250, PSY 251, PSY 252), and BIO courses (BIO 280).
- Students may also begin to explore the major by taking any cornerstone course without a prerequisite (PSY 210, PSY 290, PSY 216, PSY 240).
- Students must complete the research courses in the sequence of PSY 224, PSY 225, PSY 391. We recommend students take the courses in consecutive semesters, unless they study abroad.
- To maintain the academic integrity of the major, transfer courses are approved under strict conditions. Students should consult with the department chair before registering for courses outside the day school of Assumption University.
- Majors are encouraged to explore the offerings of our Center for Neuroscience and to get involved in the new student-run neuroscience club.

MINOR IN PSYCHOLOGY (6)
To complete a minor in Psychology students must complete six Psychology courses: PSY101, one course from each of the four cornerstones, and one elective.

REQUIRED COURSE (1)
PSY 101 General Psychology (normally taken during the first year)

CORNERSTONE COURSES (4)
Students must choose one 200-level course from each of the four cornerstones.

Social/Developmental Cornerstone (1)
PSY 210 Social Psychology
PSY 290 Psychology of Development Infancy and Childhood

Biological Cornerstone (1)
PSY 250 Perception
PSY 251 Introduction to Brain and Behavior

Mental Health Cornerstone (1)
PSY 216 Abnormal Psychology
PSY 240 Psychology of Personality

Cognition and Learning Cornerstone (1)
PSY 252 Cognitive Psychology
PSY 253 Psychology of Learning

ONE ELECTIVE (1)
Students must take one additional course from any area: elective, cornerstone, or seminar.

MINOR IN APPLIED BEHAVIOR ANALYSIS (8)
Applied behavior analysis (ABA) is the science of learning and behavior used in order to solve socially significant problems (to influence changes in behavior that are meaningful to individuals and those around them). ABA has been applied in a variety of settings, including developmental and intellectual disabilities, autism spectrum disorder, regular and special education, clinical psychology medicine, counseling, job effectiveness, business, animal training, sports training, environmental protection, exercise and health, criminology, and other areas. The Minor in ABA is a multi-disciplinary program that complements coursework in the Education, Human Services and Rehabilitation Studies, and Psychology majors. Given the prevalence of developmental and intellectual disabilities in society, the minor may also be of interest to students in other majors, such Business Studies, Biology, and Criminology. Students who complete undergraduate courses in ABA will learn how to effectively apply behavior-analytic procedures to solve behavioral problems that occur in their professional and personal lives. Students who complete the minor will also meet the coursework requirements to sit for the Board Certified Assistant Behavior Analyst exam and to become licensed as an Assistant Applied Behavior Analyst in Massachusetts (students will need to meet other requirements to qualify). Students interested in pursuing a Minor in ABA are encouraged to take PSY 253, HRS 331, and ABA 340 during their Sophomore and Junior years, ABA 350, ABA 360, and PSY 301 during their Junior and Senior years, and ABA 450 during their Senior year.

Students interested in pursuing the Minor in ABA are encouraged to talk with the ABA Program Director as well as work with their academic advisor to plan their course of study.

REQUIRED COURSES (7)
PSY 253 Psychology of Learning
HRS 331 Basic Concepts and Principles in Applied Behavior Analysis
ABA 340 Applied Behavior Analysis: Skill Acquisition
ABA 350 Applied Behavior Analysis: Evidence-based Interventions
ABA 360 Applied Behavior Analysis: The Professional Compliance Code (1 credit*)
ABA 450 Applied Behavior Analysis: Implications for Practice
PSY 301 Internship (Internship approved by ABA Program Director**)

*ABA 360 is a 1-credit course. Completion of this course is required for the Minor in ABA but ABA 360 does not count as one of the 38 courses required for graduation.
**HRS 400 or HRS 490 may be substituted in some circumstances if the student’s experience is focused on ABA and with approval by the ABA Program Director.

ELECTIVE (1)
Students are encouraged to choose an elective outside of their major field of study.

EDU 101 Schools in American Society
EDU 260 Teaching Students with Special Needs
EDU 265 Effective Classroom Management
HRS 119 Introduction to Human Services and Rehabilitation Studies
HRS 121 Human Development and Disability across the Lifespan
HRS 225 Introduction to Human Communication and Its Disorders
HRS 321 Social Skills Development Strategies for Youth
PSY 101 General Psychology
PSY 216 Abnormal Psychology
PSY 290 Psychology of Development: Infancy and Childhood
PSY 220 Interpersonal Communication
PSY 225 Research Methods in Psychology
PSY 283 Introduction to Autism Spectrum Disorder
PSY 409 Common Problems in Childhood
PSY 416 Abnormal Child and Adolescent Psychology

CONCENTRATION IN OCCUPATIONAL THERAPY (11)
The minimal entry-level degree for practice as an Occupational Therapist is a clinical master’s degree in Occupational Therapy. The Concentration in Occupational Therapy is designed to prepare students for graduate study in Occupational Therapy. The concentration is not a major, and all students completing the concentration must also complete the requirements of a major prior to graduation. A student may complete any major while also completing the concentration. Many students interested in Occupational Therapy have majored in Biology, Human Services and Rehabilitation Studies, or Psychology and many of the courses required for the concentration are also required for completion of these majors.

REQUIRED COURSES (10)

HRS 125 Professional Orientation to Physical and Occupational Therapy (Spring)
HRS 345 Occupational Therapy: Occupation, Theory, Intervention and Assessment Across the Lifespan (Fall)
BIO 160 Concepts in Biology (Fall/Spring)
BIO 240 Human Anatomy (Fall)
BIO 370 General Physiology (Spring)
PSY 101 General Psychology (Fall/Spring)
PSY 216 Abnormal Psychology (Fall/Spring)
HRS 121 Human Development and Disability (Fall/Spring)
SOC 121 Principles of Sociology OR ANT 131 Cultural Anthropology
PSY 224 Statistics (Fall/Spring)

HUMAN SERVICES COURSE (1)

HRS 490 Internship in Human Services and Rehabilitation Studies (if HSRS Major–12 Credits)

or

HRS 400 Human Services and Rehabilitation Studies (if Non HSRS Major–3 credits)
Recommended (but not required): Some programs may require a course in Neuroscience, Kinesiology and/or Neuroanatomy with a focus on the Central and Peripheral Nervous System.

First semester freshmen who wish to complete the concentration should enroll in BIO 160 and HRS 125. First-year students should also consult with the Health Professions Advisor, Dr. Steven Theroux, or members of the department of Human Services and Rehabilitation Studies. A significant number of hours (as many as 1,000) in fieldwork related to health care may be required for admission to some OT programs. The internship experience required for our program may not provide all of the hours needed to satisfy this requirement. Additional experience can be gained by volunteer work or by acquiring a paid position as a rehabilitation aide. It may also be possible to obtain additional fieldwork experience by completing additional internships within the major.

It is also important to note that some graduate programs have atypical course requirements. Students who are considering applying to graduate school for Occupational Therapy should review the admission requirements of the schools they plan to apply to by the beginning of their junior year in order to be certain they will have time to complete all of the necessary coursework before graduation.

CONCENTRATION IN PHYSICAL THERAPY (16)

The minimal entry-level degree for practice as a Physical Therapist is a clinical doctoral degree in Physical Therapy. The Concentration in Physical Therapy is designed to prepare students for graduate study in Physical Therapy. The concentration is not a major, and all students completing the concentration must also complete the requirements of a major prior to graduation.

A student may complete any major while also completing the concentration. Many students interested in Physical Therapy have majored in Biology, Human Services and Rehabilitation Studies, or Psychology, and many of the courses required for the concentration are also required for completion of these majors. The double counting rule applies. See “Undergraduate Academic Policies” above. Please note that a Biology minor requires three courses be distinct from this concentration.

REQUIRED COURSES (13)

- HRS 125 Professional Orientation to Physical and Occupational Therapy (Spring)
- BIO 160 Concepts in Biology (Fall/Spring)
- BIO 240 Human Anatomy (Fall)
- BIO 370 General Physiology (Spring)
- CHE 131 General Chemistry I (Fall)
- CHE 132 General Chemistry II (Spring)
- PHY 201 General Physics (Fall)
- PHY 202 General Physics (Spring)
- BIO/HRS 390 Exercise Physiology (Fall)
- PSY 101 General Psychology (Fall/Spring)
- PSY 216 Abnormal Psychology (Fall/Spring)
- PSY 290 Psychology of Development (Fall/Spring)
- SOC 121 Principles of Sociology (Fall/Spring)

ONE OF THE FOLLOWING STATISTICS COURSES (1)

- PSY 224 Statistics
- ECO 115 Statistics

ONE OF THE FOLLOWING MATH COURSES (1)

- MAT 114 Elementary Functions
- MAT 117 Calculus I

ONE OF THE TWO HRS COURSES LISTED BELOW (1)

- HRS 490 Internship in Human Services and Rehabilitation Studies (if HSRS Major~12 Credits)
- HRS 400 Human Services and Rehabilitation Studies (if Non-HSRS Major~3 credits)

RECOMMENDED BUT NOT REQUIRED
First semester freshmen who want to complete the concentration should enroll in BIO 160, CHE 131, HRS 125, and the appropriate math course (i.e., MAT 114 or MAT 117). First-year students should also consult with the Health Professions Advisor, Dr. Steven Theroux, or Human Services at the beginning of the fall semester to plan out the remainder of their course of study.

A significant number of hours (as many as 1,000) in fieldwork related to health care may be required for admission to some PT programs. The internship experience required for our program may not provide all of the hours needed to satisfy this requirement. Additional experience can be gained by volunteer work or by acquiring a paid position as a rehabilitation aide. It may also be possible to obtain additional fieldwork experience by completing additional internships within the major.

It is also important to note that some graduate programs have atypical course requirements. Students who are considering applying to graduate school for Physical Therapy should review the admission requirements of the schools they plan to apply to by the beginning of their junior year in order to be certain they will have time to complete all of the necessary coursework before graduation.

A NOTE ON HEALTH SCIENCE CONCENTRATIONS: The university offers five concentrations that pair with a variety of majors to prepare students for graduate study in the health sciences. They are: Patient Advocacy, Communication Sciences and Disorders, Pre-Occupational Therapy, Pre-Physical Therapy, and Pre-Clinical Health Professions. For more information, see the entries in the Biological and Physical Science and Human Services and Rehabilitation Studies sections of this catalog.

COURSE DESCRIPTIONS

PSYCHOLOGY (PSY)

PSY 101 GENERAL PSYCHOLOGY
In this introduction to psychology students learn the language, methods, theoretical perspectives, and research of the discipline. This course introduces students to a range of topics within psychology, such as the biological and social bases of behavior, as well as basic principles of perception, learning, and motivation. This course counts as a social science in the Core Curriculum requirements. (Fall, Spring)
Staff/Three credits

PSY 210 SOCIAL PSYCHOLOGY
This course will examine theoretical and empirical contributions in the field of social psychology. Specific topics to be covered include social perception; social cognition; attitudes; theories of self; interpersonal relations; group processes; aggression; prosocial behavior; and how social psychology can be applied to everyday life. This course counts as a social science in the Core Curriculum requirements. (Fall, Spring)
Parmley/Three credits

PSY 212 SPORTS PSYCHOLOGY
This course is a survey of the field of sports psychology and all emotional, cognitive, behavioral, and social phenomena related to the fields of performance, competition, exercise, and training. We seek in this class to understand the complexity of the psychological experience of an athlete in performance. Topics will be broken down into three general categories. First, an examination of the lived-experience of the athlete in performance will be considered. Second, we will explore therapeutic intervention techniques that can be deployed with athletes to reduce anxiety, increase motivation, conceptualize emotions, and energize the body in performance. Lastly, a bio-psycho-social examination of the athlete’s career transition will be examined. Here we will look closely at the effects of head trauma, the loss of identity, the loss of interpersonal structures, and the experiential shifts that may occur as athletes navigate retirement. All of these topics will be examined by reviewing the scientific literature relevant to each phenomenon, supplemented at points with memoirs and non-fiction literature written by athletes or those with close involvement in sport. (Fall)
Staff/Three credits
PSY 216 ABNORMAL PSYCHOLOGY
This course provides students with a detailed description and analysis of the forms of behavior seen as abnormal in our contemporary culture. Research relevant to and theoretical perspectives on these disorders are presented. Throughout the course students are asked to consider the implications of being labeled abnormal and to apply their knowledge to individual cases. (Fall, Spring)
Cirillo, Volungis/Three credits

PSY 217 PSYCHOLOGY OF WOMEN
This course will acquaint students with the unique experiences and challenges faced by women and girls as they move through the complex process of psychological development. Questions of gender identity, socialization, sex-role stereotyping, and self-image will be among the topics discussed. In addition, many of the important roles filled by women throughout the lifespan will be addressed, along with circumstances, such as poverty and domestic violence that undermine the well-being of women in American society. Primary source material as well as textbook readings will be required along with class presentations, reflective essays, and a biography analysis project, among other assignments. (Spring)
Staff/ Three credits

PSY 218 CULTURAL PSYCHOLOGY
This course explores the way in which cultural traditions and social practices regulate, express, transform, and permute the human psyche to shape human experience. We will explore constitution of culture, examine cultural similarities and, more importantly, cultural diversities in mind, self, and emotion, and investigate why cultures differ and ways in which culture interacts with human psyche to produce cultural effects. Students will be challenged to step outside of their own cultural framework, suspend their presumptions of human behavior to enter into the mind of other people from differing cultural backgrounds to see what is normal, beautiful, and true from their perspectives. Known principles of human behavior from mainstream psychology will be assessed in a cultural light and cross-cultural compassions will be made across a broad range of psychological phenomena, ranging from perception to psychopathology to social organization. It is the aim of this course that after taking this course students will become a more mindful citizen in today’s interconnected, globalized world. Fulfills the Global Awareness requirement in the core curriculum. (Spring)
Zhang/Three credits

PSY 220 INTERPERSONAL COMMUNICATION
This course introduces students to basic theoretical issues, research findings, and practical strategies in the field of interpersonal communication. The course examines the processes through which people collaboratively construct shared understandings in conversation, including discussion of how ideas about the self are shaped and expressed in dialogue with others. Through readings, discussion, and exercises, the class will work toward an understanding of how effective communication patterns, as well as problematic patterns, arise in the course of person-to-person interaction. (Fall, Spring)
Parmley/Three credits

PSY 224 STATISTICS
This course is an introduction to statistical methods used in behavioral research. The course will cover both inferential and descriptive statistics, with an emphasis on the conceptual understanding of how to use statistics to summarize and evaluate information. This course counts as a second Math course in the Core curriculum. (Fall, Spring)
Parmley, Zhang/Three credits

PSY 225 RESEARCH METHODS
The purpose of this course is to explore the logic and methods used in psychological research (e.g., control, measurement, correlation, and experimental design) as well as the practical (e.g., developing hypotheses, presenting findings in a written format) and ethical concerns involved in conducting empirical studies. Prerequisite: PSY 101 and PSY224 Statistics. (Fall, Spring)
Cremone-Caira, Gordon/Three credits

PSY 240 PSYCHOLOGY OF PERSONALITY
The course surveys several important theories of personality with the goal of helping students explain human behavior from a variety of perspectives. Historically significant theories, as well as recent interpretations of personality formation and dynamics, will be presented. (Fall)
PSY 250 PERCEPTION
The main purpose of this course is to gain an appreciation of the importance of our sensory and perceptual systems in making us uniquely psychological beings. Throughout the semester, we will explore what it means to gain a scientific understanding of these systems. We will consider a number of different perspectives for addressing these issues regarding perceptual processes, as well as different methods and procedures for testing sensory responses and perceptual experiences. Students will actively be involved in participating in computer-based experiments, perceptual simulations, and internet assignments. In addition, time will be spent reading and discussing articles to illustrate the everyday importance of our perceptual systems. Sensory disorders and deficits such as hearing loss, loss of proprioception, phantom limbs, and visual agnosia will be discussed. Prerequisite: PSY 101. (Spring)

Cremone-Caira/Three credits

PSY 251 INTRODUCTION TO BRAIN AND BEHAVIOR
This course examines central aims of human neuroscience by exploring structures and functions of the brain and neural communication. Discussion focuses on contemporary theories of bidirectional relationships between brain function and human experience, thought, and behavior. Topics considered include emotion, memory, sociality, sleep, and mental illness. (Fall, Spring)
Cavanagh, Cremone-Caira/Three credits

PSY 252 COGNITIVE PSYCHOLOGY
Cognitive psychology is the study of how we gather, organize, and use information. Students in this course learn how the mind works (and sometimes fails to work) by exploring topics such as the neural bases for cognition, object recognition, attention, memory, decision making, and problem solving. An understanding of factors that influence how people think is fundamental to many careers within and outside of the cognitive sciences, including but not limited to education, law, business management, and marketing. Prerequisite: PSY 101. (Fall, Spring odd years)
Gordon/Three credits

PSY 253 PSYCHOLOGY OF LEARNING
The purpose of this course is to provide students with a grounding in important principles of learning, such as conditioning, extinction, generalization, and discrimination. The behavioral approach of B.F. Skinner is predominant throughout the course, although the concepts of important learning theorists such as Thorndike, Tolman, and Hull are also presented. In addition, the philosophical underpinnings of a learning-based model of human behavior and the complex questions of freedom and determinism raised by modern behaviorism are addressed in the course. (Fall, Spring even years)
Lionello-DeNolf/Three credits

PSY 281 PSYCHOLOGY OF ADOLESCENCE AND MATURITY
The course will examine a wide range of issues in adolescence, such as historical perspectives on adolescence; biological changes; cognitive development; parenting styles and family dynamics; moral development; drug abuse; and psychological disorders of adolescence. The issues will be illustrated and further developed through the use of several case studies. (Fall, Spring)
Zhang/Three credits

PSY 283 INTRODUCTION TO AUTISM SPECTRUM DISORDER
This course provides an introduction to autism spectrum disorder (ASD). Topics will include the history of autism; current diagnostic criteria; genetic, neurological, and environmental causes; assessment; interventions; and lifespan issues. Students will learn the criteria for determining whether an intervention is evidence-based versus pseudoscientific and will examine a range of interventions for ASD to determine whether they can be considered evidence-based. Finally, current controversies in autism will be explored. (Spring)
Lionello-DeNolf/Three credits

PSY 285 WOMEN’S STUDIES I: IMAGES
This course is an introduction to the study of women. The course will develop a coherent, integrated view of women and their roles; emphasize the full range of contributions of and the limited opportunities for women; examine and appraise the experiences of women; and critically examine the thinking about women at various times and from various perspectives. The basic approach is interdisciplinary, and the concentration of the course is on women in North America from the 19th century to
the present. This is the same course as HIS 285, and SOC 285. This course counts as a social science in the Core Curriculum requirements. (Fall, Spring)
Staff/Three credits

**PSY 286 ORGANIZATIONAL AND INDUSTRIAL PSYCHOLOGY**
This course undertakes a survey of current theory and practice in the field of industrial psychology. Topics covered include personnel issues, leadership, motivation and satisfaction, and communications. Emphasis will be placed on the person in the work environment at all levels. (Spring)
Staff/Three credits

**PSY 290 PSYCHOLOGY OF DEVELOPMENT: INFANCY AND CHILDHOOD**
This course examines human growth and development during infancy and childhood. Emphasis is placed on the relationship between theory, research, and the application of knowledge in child development. Different theoretical perspectives (psychoanalytic, behavioral, cognitive-developmental); current research on selected topics (e.g., day care, cross-cultural differences in child rearing); and ways to encourage optimal growth in children at home, with friends, and at school are reviewed. This course counts as a social science in the Core Curriculum requirements. (Fall, Spring)
Kalpidou/Three credits

**PSY 296 FORENSIC PSYCHOLOGY**
This course will provide students with an introduction to the field of forensic psychology. This course explores the clinical evaluation, psychopathology, and treatment modalities of criminal and severely mentally ill offenders in a variety of settings, including psychiatric and correctional facilities. A variety of readings, discussions, and real-life case studies of various types of offenders will be presented to give students a better understanding of the topic and related mental health and political issues. This class will include several in-depth discussions of various legal issues, such as not guilty by reason of insanity, risk and dangerousness, and competency to stand trial. Prerequisite: PSY 216 Abnormal Psychology. (Spring)
Staff/Three credits

**PSY 301 INTERNSHIP IN PSYCHOLOGY**
This course is designed to give students exposure to the many roles psychologists currently play in the community. Students are expected to spend 8 to 10 hours per week working in a clinical or research setting off-campus for 13 weeks. This translates into 100 hours of placement time. It is important to have one full day or two half days available to complete the field-based component of the course. In addition, students are required to attend a weekly seminar. Students have to secure their own internships prior to the start of the semester. Prerequisites: Limited to Junior and Senior Psychology majors and minors, or Junior and Senior minors in Applied Behavior Analysis. Prerequisite: PSY 101 or PSY 253. (Spring)
Kuersten-Hogan/Three credits

**PSY 330 POSITIVE PSYCHOLOGY: THE PSYCHOLOGY OF WELL-BEING**
This course explores contemporary research in positive psychology neuroscience, and psychology of religion on how spirituality (mindfulness, meditation, religion), and positive emotions, activities, and traits impact well-being. This course invites students to understand factors that allow an individual to thrive and lead a meaningful and fulfilling life. Students will read both science and non-science sources to understand the neuroscience that lends empirical validation to our understanding of what constitutes a “good life”. Students will also participate in experiential exercises to apply course concepts to their own lives, develop knowledge to live well, and contribute to their communities. This course helps students integrate knowledge across specializations in psychology (positive psychology, psychology of religion, neuroscience) as well as across disciplines (e.g., philosophy and theology). Students will be challenged to think about how the claims of faith can be integrated with and/or compared to science as they explore the complementarity of faith and reason. (Fall)
Staff/Three credits

**PSY 335 MOTIVATION AND EMOTION**
This course will examine theoretical and empirical contributions to the understanding of human motivation and emotion. Specific topics to be covered include the psychological bases of motivation and emotion; the motivational-emotional bases of sex and aggression; the development of emotion regulation; the communication of emotion; and the social and cognitive influences on motivation and emotion. Prerequisite: PSY 101. (Spring)
Cavanagh/Three credits
PSY 385 WOMEN OF THE WORLD
This course uses the personal stories of women around the world as a lens into current global issues. Each week participants read accounts of women’s lives in regions outside of the United States, along with readable texts that provide historical and contemporary background for personal experiences. Students encounter the powerful and the powerless; the rich and the poor; the courageous and the meek; and in learning their stories, also learn something about the world that they inhabit, and that we inhabit along with them. In this global age in which we live, what happens at the individual and the local level is intricately connected with what is happening around the world, including in our own homes and communities. In experiencing a “world of women,” we learn about the human struggles that unite and divide people across cultures in the modern world. This course does NOT count as a 300-level elective in the Psychology major. This course fulfills the Global Awareness requirement in the Core. (Spring)
Keyes/Three credits

PSY 390 RESEARCH SEMINAR
This seminar is a continuation of PSY 225 focusing on more advanced problems of research design and analysis. Students are required to design and conduct a research project during the course of the semester. (Senior and Junior Psychology majors)
Prerequisites: PSY 224, PSY 225. (Fall, Spring)
Gordon, Kalpidou, Parmley, Zhang/Three credits

PSY 391 EXPERIMENTAL TECHNIQUES IN HUMAN NEUROSCIENCE
This 4-credit laboratory course reviews the utility, strengths, and weaknesses of leading tools and techniques used to study human neuroscience. Specifically, the course examines electroencephalography (EEG), event related potentials (ERP), functional magnetic resonance imaging (fMRI), and measures of autonomic nervous system activity (heart rate variability and skin conductance). Students are encouraged - and challenged - to think about the implications of using these tools to understand human neuroscience. Is the activity recorded by these tools predictive or responsive to human thought and behavior? Do particular patterns of brain activity reliably predict atypical or abnormal outcomes? When are neuroscientific methodologies necessary? In the accompanying laboratory section of this course (PSY 391L), students acquire hands-on experience collecting and analyzing data obtained with many of these tools. Students apply the knowledge acquired in lecture and lab to develop and test research questions, collect and analyze data, and communicate results in written (APA-formatted research paper) and oral formats. Prerequisites: PSY 224 Statistics and PSY 225 Research Methods and PSY 251 Introduction to Brain and Behavior or permission of the instructor. Lab Fee: $400.00. (Fall, 2023)
Cremone-Caira/Four credits

PSY 392 RAISING HAPPY AND SUCCESSFUL CHILDREN
The goal of this course is to discover the childhood roots of adult happiness and success. The students will identify the emotional, social, intellectual, moral, and spiritual needs of children and adolescents and discuss the things that parents, schools, and society can do to meet these needs. Among others, topics include the role of early social relationships, the influence of the material world, the effects of media and technology, the importance of character, and the significance of faith and spirituality. The students will read a collection of primary and secondary sources from experts in the science of success and happiness of children and adolescents. The students will also read and reflect on readings from other disciplines as well as biographies of successful people with focus on their childhood and adolescent years. (Fall)
Kalpidou/Three credits

PSY 399 INDEPENDENT STUDY
Open to qualified Junior and Senior Psychology majors with permission of the instructor, the Chairperson, and the Associate Vice President of Academic Affairs for Undergraduate Studies. (Fall, Spring)
Staff/One to Three credits

PSY 402 SOCIAL AND AFFECTIVE NEUROSCIENCE
This upper-level seminar course leads students to understand and critique contemporary peer-reviewed research in the fields of social and affective neuroscience. After a brief review of brain anatomy and technologies used to study the live human brain, we will critically examine a number of representative research articles in the aforementioned domains. Topics of interest will include
the neural substrates of consciousness, prejudice, affiliation, emotion, and psychopathology. Prerequisite: PSY 251 Introduction to Brain and Behavior, or permission of instructor. (Spring)
Cavanagh/Three credits

PSY 403 COGNITIVE NEUROSCIENCE
This upper-level seminar course explores the neural processes that support cognitive capacities including, but not limited to, sensory inference, attention, learning and memory, decision making, and language. Throughout the course we survey current research in cognitive neuroscience by critically reading empirical journal articles. Students showcase their understanding and evaluation of this research using effective communication skills (written and oral). Prerequisites: PSY 251 Introduction to Brain and Behavior and PSY 252 Cognitive Psychology or permission of the instructor. (Spring)
Cremone-Caira/Three credits

PSY 408 FAMILY PSYCHOLOGY
This course will provide students with an understanding of normal family functioning including family interaction and communication patterns and normative family life cycle transitions. Students are introduced to various theoretical frameworks used to conceptualize family functioning, including family systems theory. Furthermore, the role of gender, culture, and ethnicity in families is examined. Students are familiarized with research methods and coding systems utilized in family research and will have the opportunity to practice analyzing family interaction patterns portrayed in case examples. Students are also guided through interpretations of research reports published in family psychology journals. While the main focus in this class is on characteristics of normative family functioning, students will receive a brief introduction to the dynamics of families afflicted with mental illness and receive an overview of different family therapy models. This seminar-style course heavily emphasizes class discussions of theoretical and empirical literature in family psychology as well as discussions of videotaped examples of family interaction patterns. In addition, classes involve student presentations, lectures, and hands-on learning activities designed to illustrate principles of family dynamics. Prerequisites: PSY 290, PSY 216 (Fall, Odd-numbered Years)
Kuersten-Hogan/Three credits

PSY 409 COMMON PROBLEMS IN CHILDHOOD
Parents and child practitioners often encounter children’s problems that may not necessarily reflect psychopathology. This course is an in-depth study of the challenges that children face, the guidelines for determining when a behavior is a cause of concern, and how problems can be addressed. Students will explore the psychological, biological, and social roots of difficult phases of development such as difficulty to grow, bed-wetting, problems with sleeping and eating, common anxiety problems and fears, bad habits, and problems in self-regulation and social behavior. Prerequisite: PSY 290 (Spring, Even-numbered Years)
Kalpidou/Three credits

PSY 416 ABNORMAL CHILD AND ADOLESCENT PSYCHOLOGY
This course will provide an understanding of various forms of psychopathology in children and adolescents. It is intended as an overview of the taxonomy of childhood disorders with many videotaped examples of different disorders to help apply knowledge to actual cases. Different theoretical models used to explain how psychopathology develops in children will be presented and the role of home and school environment, child gender, ethnicity, culture, and socioeconomic status will be explored. In addition to learning about the characteristics of various psychological disorders in youngsters, a review of the research into the causes and outcomes of mental disorders in children and adolescents will be explored. Finally, special challenges in diagnosis, assessment, and treatment of psychological disorders in children are highlighted. This seminar-style course includes lectures but heavily emphasizes class discussions, student presentations, and case studies. Prerequisites: PSY 116, PSY 190 (Fall, Odd-Numbered Years)
Kuersten-Hogan/Three credits

PSY 425 CLINICAL PSYCHOLOGY
This course is a consideration of the history, problems, and techniques of clinical psychology. Research and theoretical issues related to clinical assessment and different methods of psychotherapy are examined. Prerequisite: PSY 101, PSY 216. (Fall, Spring)
Cirillo/Three credits

PSY 444 HONORS THESIS IN PSYCHOLOGY
In this course the student will conduct the research project that was proposed and approved during the Honors Seminar (HON 300). The research project will be an empirical investigation (either quantitative or qualitative) of a psychological issue under the supervision of a faculty mentor. The project will culminate in written thesis and oral defense of the capstone work at the end of the semester. Students are encouraged to present the thesis work Undergraduate Symposium in the spring. This course can be a substitute for PSY 390 Research Seminar in satisfaction of the requirements of the Psychology major. **Prerequisites:** HON 300, PSY 224, PSY 225 (Fall, Spring)

**Staff/ Three credits**

**APPLIED BEHAVIOR ANALYSIS (ABA)**

**ABA 340 APPLIED BEHAVIOR ANALYSIS: SKILL ACQUISITION**

This is an advanced course in applied behavior analysis for students interested in learning fundamental skill acquisition procedures. The course focuses on assessment of behavioral deficits and procedures for increasing a variety of self-care, communication, academic, and social skills. There will be a focus on identifying pivotal skills to teach and prioritizing teaching goals. Students will learn to identify and implement behavioral interventions to promote positive behaviors related to reinforcement, motivation, and stimulus control. In addition, interventions based on token economies, behavioral contracts, and group contingencies will be examined. There will be an emphasis on application of behavioral interventions across multiple domains, including autism and other developmental disorders, intellectual disability, education, health, and other areas. **Prerequisites:** HRS 331 or PSY 253 or permission of the ABA Program Director. (Spring)

**Staff/Three credits**

**ABA 350 APPLIED BEHAVIOR ANALYSIS: EVIDENCE-BASED INTERVENTIONS**

This is an advanced course intended for students pursuing a minor in applied behavior analysis. The course focuses on the delivery of evidence-based behavior-analytic procedures. Students will explore what it means to say that an intervention is “behavior analytic” and “evidence based.” There will be an emphasis on application of interventions based on behavioral principles across multiple domains, including autism and other developmental disorders, intellectual disability, education, health, and other areas. Students will learn to identify and implement behavioral interventions related to reinforcement, motivation, stimulus control, extinction, punishment, and verbal behavior. In addition, students will learn how to evaluate the effectiveness of an intervention based on visual data analysis and experimental design. **Prerequisites:** HRS 331 or PSY 253 or permission of the ABA Program Director. (Fall)

**Staff/Three credits**

**ABA 360 APPLIED BEHAVIOR ANALYSIS: THE PROFESSIONAL COMPLIANCE CODE**

This is a one-credit course intended for students pursuing a minor in applied behavior analysis. In this course, students will be introduced to the BACB Compliance Code. This course will provide students with an understanding of legal, professional, and ethical issues in the delivery of behavior-analytic services and the practice of behavior-analytic research. A variety of common dilemmas involving assessing behavior, selecting treatment protocols, evaluating behavior change, collaborating with other professionals, and relationships with clients will be presented and students will learn to identify the relevant aspects of the compliance code. Students will learn how to develop solutions to dilemmas and will practice implementing their solutions in interactive exercises. Finally, professional behavior related to behavior-analytic service delivery will be discussed. **Value:** 1 credits. **Prerequisites:** ABA 340 or ABA 350 or permission of the ABA Program Director. (Fall)

**Lionello-DeNolf/One credit**

**ABA 450 APPLIED BEHAVIOR ANALYSIS: IMPLICATIONS FOR PRACTICE-CSL**

This is an advanced course intended for students pursuing a minor in applied behavior analysis and includes a required community service learning component. In this course, students will focus on the implementation, management, and supervision of behavioral services across a variety of settings. Students will learn methods of case management, monitoring program efficiency, and staff training. In addition, students will explore the Professional and Ethical Compliance Code for Behavior Analysts and will practice solving common ethical problems that occur during service delivery. Students will learn of current certification and licensure standards as well as graduate training and career options. Finally, students will gain real-world experience with behavior-analytic service delivery via the community service learning component. This experience will enable students to
integrate knowledge learned across the applied behavior analysis curriculum and give them the opportunity to see first-hand the positive effect behavioral intervention can have in the lives of clients. Prerequisites: ABA 350 or permission of the ABA Program Director. (Spring) Staff/Three credits
Department of Sociology and Criminology

Associate Professors: Steven Farough, Angela Kaufman-Parks (chairperson); Assistant Professors: Francis Prior, Kyle Woolley.

MISSION STATEMENT
Department of Sociology and Criminology faculty seek to educate students by cultivating the development of sociological and criminological perspectives. These perspectives enable students to link the personal troubles of individuals to broader public issues grounded in history, society, and culture. Our department educates students through a variety of pedagogical practices both inside and outside of the classroom, enhancing critical intelligence (independent thinking), fostering compassionate service, and encouraging students to become informed, deliberative, and engaged citizens.

Drawing on the theoretical and analytical tools of sociology and criminology, students learn to use the results of empirical investigation to look under the surface of social phenomena and to probe the taken-for-granted social world in which they live. Developing the requisite skills to accomplish this also prepares students to compete successfully in the 21st century global economy where critical thinking, writing, and oral communication are at a premium.

The Department of Sociology and Criminology contributes to a liberal arts education within the context of Catholic intellectual traditions by encouraging self-discovery and promoting social justice. The department educates students to understand their world and encourages them to work for social change.

SOCIOLOGY MAJOR LEARNING GOALS
The Department of Sociology and Criminology has identified the following specific learning goals for our Sociology majors:
1) To develop an understanding of how the discipline of sociology can be taken out into the public for the greater good;
2) To better understand how social inequality is based upon divisions of class, race, ethnicity, gender, age, and sexual orientation;
3) To develop an understanding of sociological approaches to analyzing and addressing the complex interactions between individuals and societal, historical, and cultural forces;
4) To gain specific competencies in social science research as related to the field of sociology;
5) To acquire the essential skills necessary for successful careers and post-graduate education.

CRIMINOLOGY MAJOR LEARNING GOALS
The Department of Sociology and Criminology has identified the following specific learning goals for our Criminology majors:
1) To develop an understanding of and appreciation for how the criminal justice system operates;
2) To understand how the risks of criminal offending and victimization are based upon divisions in class, race, ethnicity, gender, age, and sexual orientation;
3) To develop an understanding of sociological and criminological approaches to analyzing and addressing the complex interactions between individuals and societal, historical, and cultural forces in defining law violating behaviors and our responses to them;
4) To gain specific competencies in social science research as related to the fields of criminology and sociology;
5) To acquire the essential skills necessary for successful careers and post-graduate education.

MAJOR IN SOCIOLOGY (12)
The Major in Sociology engages students in critical analyses of social structures, social interactions, and the linkages between the two. Through courses and extracurricular activities, department faculty provide students with ways to think critically about their world, their society, and themselves. Students acquire new and different ways of looking at the human community, including: an appreciation of the social patterning of behavior; an understanding of the development of communities; an awareness of the functions and dysfunctions of societal institutions; and a deeper comprehension of the diverse ways of being human. Building off of the foundations of the discipline, the Major emphasizes what is known as “public sociology,” the use of sociological analysis to contribute to the greater public good. The emphasis of public sociology links sociological analysis to change agents in society, whether that be in social policy, social service organizations, or work in the nonprofit world and private enterprise. Public sociology demonstrates how sociology leads to meaningful careers and active participation in our social order.

226
The emphasis on public sociology seeks to contribute to the liberal arts experience by encouraging the discovery of one’s self and one’s relationship to others. The program is designed to allow students to explore sociological contributions to understanding social change and to solving social problems. A wide variety of internships opportunities are available to students. Through these internship placements and the department’s course offerings, students may discover a variety of options for future careers. A major in Sociology prepares students for graduate study in the field of Sociology, as well as for graduate study in related fields such as social work, urban planning and policy analysis, gerontology, education, law, journalism, and criminal justice. The Sociology major also provides an important background for a wide range of occupations in which knowledge of human behavior, social relationships, and institutional practices is important.

In acquiring competencies in the methodological and theoretical approaches of Sociology, students have the opportunity to explore human relations in their most fundamental as well as their broadest scope, from the dynamic intimacy of small groups to the structures of entire societies.

**REQUIRED COURSES (6)**

- SOC 121  Principles of Sociology
- SOC 250  Public Sociology
- SOC 300  Statistics
- SOC 350  Sociological Theory
- SOC 390  Sociological Research Methods
- SOC 475  Senior Seminar

**ELECTIVE COURSES (6)**

Six elective courses in Sociology. These six courses must include three courses from the Structural and Cultural Factors area, two from the Deviance/Law & Society area, and one elective of the student’s choosing from either content area. CRM 485 Internship Seminar I may count as one elective toward the Sociology major.

**Structural and Cultural Factors**

- ANT 131  Cultural Anthropology
- GEO 108  World Population Issues
- CRM 485  Internship Seminar I
- EDU 101  Schools in American Society
- SOC 122  Social Problems
- SOC 206  The Sociology of Urban Life
- SOC 216  Racial and Ethnic Relations
- SOC 218  Social Movements
- SOC 224  Gender Issues in Society
- SOC 225  Literature of Social Responsibility
- SOC 232  Social Inequality in Society
- SOC 234  Social Policy
- SOC 255  Special Topics
- SOC 315  Masculinities
- WMS 285  Women’s Studies I: Images
- WMS 385  Women of the World

**Deviance/Law & Society**

- CRM 130  Introduction to the Criminal Justice System
- CRM 160  Criminology
- CRM 243  Juvenile Delinquency
- CRM 255  Special Topics
- CRM 272  Deviant Behavior
- CRM 280  Sociology of Punishment
- CRM 335  Family Violence
RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN SOCIOLOGY

The following plan is suggested for Sociology majors. The major prepares students both for the workforce or for graduate study in a number of disciplines. The major is flexible to allow for study abroad, internships, and the addition of another major or minor(s). Students can successfully complete the major with spring of sophomore year being the latest point to start taking required courses.

First Year

DOUBLE COUNTS IN THE CORE FOR SOCIOLOGY MAJORS

<table>
<thead>
<tr>
<th>Person and Society (Social Science) SOC 121 Principles of Sociology</th>
</tr>
</thead>
<tbody>
<tr>
<td>Second Scientific and Quantitative Reasoning: SOC 300 Statistics</td>
</tr>
</tbody>
</table>

Please note that additional courses taken as electives for the Sociology major may serve as additional double counts in the core. We recommend consulting with an advisor in the department.

ADVISING TIPS

- Students are strongly encouraged to switch to an advisor in the department upon declaring the major.
- Students may begin to explore the Sociology major through SOC 121, SOC 122, or any SOC elective course.
- At least one structural and cultural factors elective and at least one deviance/law and society elective is offered every semester.
- Other than SOC 121, SOC 122, CRM 130, and CRM 160, all other courses in the department are offered at most once per year (some electives are not offered in a given year).
- The major is designed for students to take SOC 350 Sociological Theory junior fall, SOC 390 Sociological Research Methods junior spring, and SOC 300 Statistics senior fall. This is the preferred order of the courses and allows for cohorts of majors to bond as a group.
- Many majors take advantage of the accelerated double major with Criminology, which requires only 18 courses to complete both majors.
- Few, if any, sociology courses are offered in the summer through Assumption, so Sociology majors should not plan to take courses in the major during the summer.
- To maintain the academic integrity of the major, it is expected that courses for the major will be completed through the Assumption University day school. Transfer courses will be reviewed under strict conditions and should be submitted to the department for review before registering for the course.
WHAT CAREERS DOES A MAJOR IN SOCIOLOGY LEAD TO?

The website of the American Sociological Association offers a wealth of information about what is going on in the field of Sociology, including career resources for undergraduates in the Career Center section.

American Sociological Association main web page
http://www.asanet.org/

American Sociological Association Careers Page for Undergraduates
http://www.asanet.org/career-center/careers-sociology

Recent Sociology alums from Assumption are pursuing active careers in business, counseling, education, finance, higher education student affairs, law, sales, school counseling, social services; some own their own businesses. Others have or are still pursuing additional education, including degrees in business, education, law, public health, public policy, social work, and sociology. To keep up with the latest department happenings, follow us on Facebook: https://www.facebook.com/AssumptionSociology/

MAJOR IN CRIMINOLOGY (13)

The major in Criminology is anchored in the discipline of sociology. Consequently, it provides students with a theoretically sophisticated understanding of crime as a social phenomenon, both regarding its causes and its consequences for society. Coursework in the major encompasses the study of how laws are made (the sociology of law), why some people break those laws (theories of crime), and the societal reaction to law-breaking behavior by the criminal justice system. Students who major in Criminology gain both a broad and deep understanding of the history of the field of criminology as an academic discipline; exposure to the theories of legal creation; knowledge of the sociological, biological, and psychological theories that offer explanations for why people engage in criminal behavior; and an appreciation of how the criminal justice system operates — from the time of arrest by the police, through formal processing by the courts, and extending to sanctioning (incarceration and supervision) and reentry.

As a social science with its roots in sociology, the Criminology major emphasizes the central importance of students gaining proficiency in social science research methods and sociological theories. Students who major in Criminology design, execute, and present a research project relevant to the field in the required two-semester Internship Seminar, taken in the senior year. In addition, the required Internship Seminar provides opportunities for experiential learning in agencies and organizations within the criminal justice system or closely allied professions (e.g., victim services agencies).

Students who complete the major in Criminology are prepared for graduate study in criminology, criminal justice, related social sciences, and the law. Should graduates aspire to more immediate employment opportunities, the Criminology major prepares them for careers in law enforcement, institutional corrections, probation and parole, in social and human service agencies that deal with crime victims, or in a number of diversion and treatment programs that are designed to provide alternatives to incarceration, especially for juvenile offenders.

REQUIRED COURSES (7)
SOC 121 Principles of Sociology OR SOC 122 Social Problems
CRM 130 Introduction to the Criminal Justice System
CRM 160 Criminology
SOC 300 Statistics
CRM 485 Internship I
CRM 486 Internship II
SOC 390 Sociological Research Methods

ELECTIVE COURSES (6)
Choose three from Deviance/Law and Society and three from Structural and Cultural Factors.

Deviance/Law and Society (3)
CRM 243 Juvenile Delinquency
CRM 255   Special Topics
CRM 272   Deviant Behavior
CRM 280   Sociology of Punishment
CRM 335   Family Violence
POL 316   Constitutional Law

Structural and Cultural Factors (3)
SOC 206   The Sociology of Urban Life
SOC 216   Racial and Ethnic Relations
SOC 224   Gender Issues in Society
SOC 232   Social Inequality in Society
SOC 234   Social Policy
SOC 250   Public Sociology
SOC 315   Masculinities

RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN CRIMINOLOGY

The following plan is suggested for Criminology majors. The major prepares students both for the workforce or for graduate study in a number of disciplines. The major is flexible to allow for study abroad (including a semester in Washington, D.C.), additional internships beyond those required, and the addition of another major or minor(s). Students can successfully complete the major with spring of sophomore year being the latest point to start taking required courses.

Please note that additional courses taken as electives for the Criminology major may serve as additional double counts in the core. We recommend consulting with an advisor in the department.
ADVISING TIPS

- Students are strongly encouraged to switch to an advisor in the department upon declaring the major.
- Students may begin to explore the Criminology major through CRM 130, CRM 242, or any CRM elective course they are eligible to take (first year students are not eligible to take CRM 333 Prisoner Rehabilitation and Reentry or CRM 335 Family Violence).
- At least one structural and cultural factors elective and at least one deviance/law and society elective is offered every semester.
- Other than SOC 121, SOC 122, CRM 130, and CRM 160, all other courses in the department are offered at most once per year (some electives are not offered in a given year).
- The major is designed for students to take SOC 390 Sociological Research Methods junior spring, SOC 300 Statistics and CRM 485 senior fall, and CRM 486 senior spring. This is the preferred order of the courses and allows for cohorts of majors to bond as a group.
- Many majors take advantage of the accelerated double major with Sociology, which requires only 18 courses to complete both majors.
- Students may take advantage of the special double major with Human Services and Rehabilitation Studies. Interested students must start the double major curriculum their freshman year. All Criminology and Human Services and Rehabilitation Studies double majors are advised by the chair of the Criminology department in consultation with the Clinical Coordinator in Human Services and Rehabilitation Studies.
- Few, if any, criminology courses are offered in the summer through Assumption, so Criminology majors should not plan to take courses in the major during the summer.
- To maintain the academic integrity of the major, it is expected that courses for the major will be completed through the Assumption University day school. Transfer courses will be reviewed under strict conditions and should be submitted to the department for review before registering for the course.

WHAT CAREERS DOES A MAJOR IN CRIMINOLOGY LEAD TO?

Recent Criminology alums from Assumption are active in careers in business, education, institutional corrections, law, law enforcement, the military, parole, probation, sales, social services, and youth services. Others have or are still pursuing additional education, including degrees in business, counseling psychology, criminal justice, education, homeland security, public administration, school counseling, and social work. To keep up with the latest department happenings, follow us on Facebook: https://www.facebook.com/AssumptionSociology/

Although only a few of our graduates will seek federal employment, the U.S. Department of Justice’s webpage on careers provides a nice overview of some of the federal opportunities in that agency: https://www.justice.gov/careers

This page also has helpful information for a wide range of careers in criminal justice system and allied professors, such as victim services: http://www.cjstudents.com/careers.htm

MINOR IN SOCIOLOGY (6)

Students who wish to minor in Sociology will be required to take 18 credits in the field. These must include Principles of Sociology (SOC 121) and Sociological Theory (SOC 350). The four elective courses may be selected from any of the required or elective courses that are a part of the Sociology major. Students majoring in Criminology, Data Analytics, Economics, Global Studies, History, Human Services and Rehabilitation Studies, Latin American Studies, Political Science, or Psychology, or intending to go to medical school may find such a minor particularly useful.

MINOR IN CRIMINOLOGY (6)

The minor in Criminology, anchored in the discipline of sociology, provides students with a sophisticated understanding of crime as a social phenomenon. Students must take three required courses and three elective courses. Students majoring in Accounting, Chemistry, Data Analytics, Human Services and Rehabilitation Studies, Political Science, Psychology, Sociology, and other disciplines may find the Criminology minor particularly useful.

REQUIRED COURSES (3)

SOC 121 Principles of Sociology OR SOC 122 Social Problems
CRM 130 Introduction to the Criminal Justice System
CRM 160 Criminology

ELECTIVE COURSES (3)
Choose two from Deviance/Law and Society and one from Structural and Cultural Factors.

Deviance/Law and Society (2)
- CRM 243 Juvenile Delinquency
- CRM 272 Deviant Behavior
- CRM 280 Sociology of Punishment
- CRM 335 Family Violence
- POL 316 Constitutional Law

Structural and Cultural Factors (1)
- SOC 206 The Sociology of Urban Life
- SOC 216 Racial and Ethnic Relations
- SOC 224 Gender Issues in Society
- SOC 232 Social Inequality in Society
- SOC 234 Social Policy
- SOC 250 Public Sociology
- SOC 315 Masculinities

A NOTE ON PRE-LAW The American Bar Association confirms that majors and minors across the curriculum, combined with a strong liberal education, provide excellent preparation for law school. Assumption’s Pre-Law Program provides personalized advising, co-curricular activities, and development opportunities for all students considering law school. See the “Pre-Law” section under “Pre-Professional Programs of Study.” Above all, students considering law school should choose a major that interests them, pursue academic excellence in that field, and contact the pre-law advising coordinator, Prof. Carl Robert Keyes, Department of History, ckeyes@assumption.edu or 508 767-7324.

COURSE DESCRIPTIONS

CRIMINOLOGY (CRM)

CRM 130 INTRODUCTION TO THE CRIMINAL JUSTICE SYSTEM
This survey level course introduces students to the purpose, structure, and function of the criminal justice system, which represents the government’s official response to crime. Students will learn about the role of the various aspects of the criminal justice system (i.e., law enforcement, courts, and corrections) in responding to and controlling crime. A significant focus of the class will be on critical analysis of criminal justice policy and programs, such as mandatory minimum sentences for drug offenses, New York City’s stop and frisk campaign, sex offender residency restrictions, mandatory arrest laws for domestic violence, day reporting centers for probationers and parolees, and victimless prosecution of domestic violence cases. The course will also force students to consider the challenges facing the criminal justice system, including an aging prison population, the impact of incarceration on families and communities, the pressure to efficiently process high caseloads, and protecting personal liberties while keeping citizens safe. This course counts in the Core Curriculum as a social science in either Scientific and Quantitative Reasoning or Person and Society. (Fall, Spring)
Kaufman-Parks, Staff/Three credits

CRM 160 CRIMINOLOGY
The course examines the patterns, causes, and consequences of crime, and the ways in which the criminal justice system attempts to deal with the crime problem in the United States. Specific substantive topics will include analyses of how laws are created; theories of crime causation; penology; the relationship between crime/criminal justice and social class, race/ethnicity and gender; fear of crime; the social construction of crime in the media; the growth of the prison system; and an assessment of the efficacy of alternative “crime-fighting” strategies, such as community policing. This course counts in the Core Curriculum as a social science in either Scientific and Quantitative Reasoning or Person and Society. (Fall, Spring)
CRM 243 JUVENILE DELINQUENCY
This course examines the history of “juvenile delinquency” as a societal category and as a social problem. While the main focus is on competing theories of delinquent behavior and the relative effectiveness of various policy responses to juvenile crime, the course will also focus extensively on media portrayals of juvenile criminals and the broader topic of the social construction of the juvenile crime problem. Specific topics include: decriminalization; deinstitutionalization; court diversion; radical nonintervention; community arbitration; and community-based corrections. (Spring)
Kaufman-Parks/Three credits

CRM 255 SELECTED TOPICS IN CRIMINOLOGY
This course will permit the study of a selected topic within Criminology. The topic may change each time the course is offered.
Staff/Three credits

CRM 272 DEVIANT BEHAVIOR
This course examines how particular acts, beliefs, and conditions come to be defined as deviant; who confers the label of “deviant” upon whom; and how a deviant identity is managed by those persons successfully labeled “deviant.” The main theoretical approach employed in this course, social constructionism, argues that deviant behavior cannot be understood in isolation from differentials in social power that permit some groups in society to define their lifestyles, beliefs, and status as superior and preferred. Specific topics to be covered include crime and delinquency; mental illness; drug and alcohol addiction; “alternative” lifestyles; the social organization of deviant subcultures; and elite deviance (white-collar crime). (Fall)
Prior, Staff/Three credits

CRM 280 SOCIOLOGY OF PUNISHMENT
In liberal-democratic society, what does it mean for governments to use punishment in pursuit of justice? In this course, students will be given the opportunity to put punishment in historical and social context. In doing so, the course provides an inroad to understand not only bureaucratic mechanisms of social control, but also to understanding society and government more broadly. The way societies distribute punishment tells us a great deal about morality, group membership, social inequality, and the maintenance of political sovereignty. This course will draw on classical sociological theories of punishment, as well as contemporary debates on the use and character of punishment in the U.S. Students will also have the opportunity to explore classical theories of government, as well as contemporary social and political theory of punishment. (Spring)
Prior/Three credits

CRM 335 FAMILY VIOLENCE
This course combines classroom and experiential community learning to examine the phenomenon of family violence in the United States. Students will gain an understanding of the prevalence, risk factors and consequences of child maltreatment, intimate partner violence and elder abuse specifically. This course also entails a critical analysis of how definitions of and responses to family violence impacts individuals, families, communities, and the safety of society overall. Students should be at least sophomore standing. (Fall)
Kaufman-Parks/Three credits

CRM 485 INTERNSHIP SEMINAR I
This seminar provides interns with the opportunity to examine the internship experience along with other student interns. Students also examine related issues: social policy development; program planning, evaluation, and research; the social scientist’s responsibilities for the use of her or his research; the political role of the social scientist; the “value-free” debate among social scientists; applied versus pure sociology; the role of the social scientist within private and public organizations; management of human service agencies; and career options for social scientists. (Fall)
Prior, Woolley/Three credits

CRM 486 INTERNSHIP SEMINAR II
This seminar provides interns with the opportunity to examine the internship experience along with other student interns. Students also examine related issues: social policy development; program planning, evaluation, and research; the social scientist’s responsibilities for the use of her or his research; the political role of the social scientist; the “value-free” debate among social
scientists; applied versus pure sociology; the role of the social scientist within private and public organizations; management of human service agencies; and career options for social scientists. Prerequisite: CRM 485. (Spring)

Prior/Three credits

**SOCIOLOGY (SOC)**

**SOC 121 PRINCIPLES OF SOCIOLOGY**
This course consists of an introduction to how the academic discipline of sociology studies the social world and how it can be used outside of higher education to raise awareness about public issues, inform social policy, and be used in a range of occupations. The student will become acquainted with the approaches, methods, and findings of contemporary sociology and the ongoing process of understanding social interaction, groups, problems, and sociocultural systems. Topics covered may include socialization, social inequality, deviance, the corporation and occupational roles, the community, interrelationships, change of institutions, and other related subjects. This course counts in the Core Curriculum as a social science in either Scientific and Quantitative Reasoning or Person and Society. (Fall, Spring)

Staff/Three credits

**SOC 122 SOCIAL PROBLEMS**
This course is an introduction to the discipline of sociology, the study of social interaction and institutions as it relates to contemporary American social problems. The course will focus on several sociological perspectives that are used to analyze such problems as poverty, homelessness, racism, sexism, addiction, crime, delinquency, ageism, and health care. This course counts in the Core Curriculum as a social science in either Scientific and Quantitative Reasoning or Person and Society. (Fall, Spring)

Prior, Staff/Three credits

**SOC 206 THE SOCIOLOGY OF URBAN LIFE**
This course examines the patterns, causes, and consequences of urbanization and suburbanization. While the major focus will be on the development of cities, metropolitan areas, and megalopolitan regions within the United States, a major goal of the course is to understand the increasingly critical role that economic globalization plays in creating uneven development and decline within and among cities and metropolitan regions throughout the world. Specific topics to be investigated include: urban renewal and redevelopment; residential segregation; gentrification; conflicts over land use; urban planning; and the problems of concentrated poverty and crime in central cities.

Prior/Three credits

**SOC 216 RACIAL AND ETHNIC RELATIONS**
This course explores how race and ethnicity structure social relations and identities in the United States. Students will become familiar with the history of race and ethnicity in the U.S. and why it continues to be a central aspect of social life. The course will also focus on a variety of debates regarding the persistence of institutionalized racism and white privilege in the post-Civil Rights era. The process of how class, gender, and sexuality structure various racial and ethnic groups will be explored as well. Current issues on race and ethnicity addressed in this class include: racial profiling, immigration, increasing diversity in the U.S., affirmative action, Ebonics, reverse discrimination, post-September 11th forms of discrimination, and unequal access to employment, housing, and mortgages by race.

Farough/Three credits

**SOC 218 SOCIAL MOVEMENTS**
The course will analyze the internal dynamics and external environments of social movements as mechanisms of social change. It will examine several case studies of American social movements, focusing on their rise and fall and their impact on institutions.

Woolley/Three credits

**SOC 224 GENDER ISSUES IN SOCIETY**
This course addresses gender inequalities, practices, and identities from a sociological perspective. This means that gender differences and inequalities are socially produced and vary across history and cultures. In this course, students will become familiar with more recent sociological research that argues gender is a central institution in social life, organizing “men” and “women” into specific social practices and positions within the social structure. This course will also explore how gender inequality and differences interact with race, class, and sexuality. Specific areas of study include the changing roles of masculinity and femininity in work, family, sexuality, health, religion, education, and marriage.
SOC 225 LITERATURE OF SOCIAL RESPONSIBILITY: COMMUNITY SERVICE LEARNING
An interdisciplinary course that offers students a combination of academic classroom learning and experiential learning in the community. Students will read contemporary American fiction and sociological monographs and cultural analyses, using these ideas to think critically about political, economic, and social issues in the community. Same as ENG 225.

SOC 232 SOCIAL INEQUALITY IN SOCIETY
The purpose of this course is to focus on social inequality in the United States. Topics to be covered include the dimensions of stratification, theories of social stratification, social class, social mobility, occupational prestige, status attainment, poverty, wealth, and racial and sexual inequality in the United States.

SOC 234 SOCIAL POLICY
This course examines the nature, purposes, and effectiveness of social policy in America. It looks at the relationship of society and politics, as well as the processes of creation and implementation of social reforms. The role of government, the corporate sector, social science, the media, and the public in shaping social policy is examined. The course presents an assessment of the successes and failures of American social programs having to do with children and their families, income support, the elderly, health care, education, energy, and the environment. The skills and topics provided centrally address one of the major tenets of public sociology: how it informs the public about social policy outcomes and how the discipline can shape social policy for the greater good.

SOC 250 PUBLIC SOCIOLOGY
This course introduces students to how the discipline of sociology can be used in the real world for the purpose of contributing to the greater good. Public Sociology therefore links the formal study of sociological phenomena conducted in higher education and professional social science research to various audiences in the public. Student will learn (1) how sociologists raise awareness about sociological research; (2) how sociological studies can help people engage in social activism and responsible citizenship; (3) how sociological analysis can inform social and public policy; and (4) how sociology can be used in nonprofit, social service, and private enterprise work. Public sociology demonstrates how sociology leads to meaningful careers and participation in our social order. All work will take place on campus. (Spring)

SOC 255 SELECTED TOPICS IN SOCIOLOGY
This course will permit the study of a selected topic within Sociology. The topic may change each time the course is offered.

SOC 300 STATISTICS
An introduction to the logic and techniques of statistical analysis in sociology. The focus of the course is on exploratory analysis, including measures of central tendency, dispersion, and hypothesis testing using linear regression including both bivariate and multivariate. The Statistical Package for the Social Sciences (SPSS) will be used. This course counts as a second scientific or quantitative reasoning course in the Core Curriculum. (Fall)

SOC 315 MASCULINITIES
This course explores the lives of men in the United States from a broader social and historical context. It also examines the extent to which masculinity is rooted in biology and culture. Masculinities will also survey contemporary issues facing men such as the relationship between masculinity and the Great Recession; the significant change of gender roles in family and work; the influences of class, race and sexuality on masculinity; the development of social movements centered on men’s issues; the relationship between masculinity and major social institutions such as education, government, and military; the interdependent connection between masculinities and femininities; the question of power, privilege and masculinity; and violence against women and bullying.

SOC 315 MASCELINITIES
SOC 350 SOCIOLOGICAL THEORY
This course will examine the works of the three major classical theorists in sociology (i.e., Durkheim, Marx, and Weber), the theoretical contributions of symbolic interactionists such as Goffman and Geertz, and several major contemporary social theories, including post-structuralism and feminism. Prerequisite: SOC121. (Fall)
Farough, Woolley /Three credits

SOC 385 INDEPENDENT STUDY
Individually supervised study of a sociologically relevant topic. Offered only to Senior Sociology majors who have demonstrated an ability for independent research.
Staff/Three credits

SOC 465 SOCIOLOGICAL RESEARCH METHODS
This course is designed to introduce students to the analysis of sociological and criminological data using the three main methods in the discipline: qualitative, comparative-historical, and quantitative. Specific topics will include: how to select research methods appropriate to the problem under investigation; the relationship between theory and research; how to conduct a literature review; ethical issues involved in conducting social research. Students will get “hands-on” experience using each of the three main research methods by designing and conducting small-scale research projects. Prerequisite: SOC121. (Spring)
Staff/Three credits

SOC 475 SENIOR SEMINAR
In this seminar, students will work closely with the instructor – and with each other – to review and synthesize the content of their previous sociology courses to create a major research paper in the tradition of public sociology: taking the disciplinary skills of sociology outside of higher education into the public for the purpose of contributing to the greater good. The course will also incorporate professional development skills, such as resume building, recommended interview etiquette, and how students might present their sociological research to potential employers or graduate programs. This course is a capstone for and required for sociology majors. Prerequisites: SOC121 and SOC 465. (Fall)
Farough/Three credits
Department of Theology

Professors: Marc D. Guerra (Chairperson); Associate Professors: Kathleen M. Fisher, Christopher Klofft; Assistant Professors: Matthew Briel, Rachel Coleman, Ty Monroe; Visiting Assistant Professor: Fr. Roger Corriveau, A.A.; Professor of Practice: Fr. Chi Ai, A.A..

MISSION STATEMENT
Theology is the intellectual exercise of faith seeking understanding. As an academic discipline, theology seeks to understand God and God’s relation to human beings and the world human beings inhabit. Informed by an understanding of theology that traces its roots back to St. Augustine, the Department of Theology invites students and faculty to engage in a dialectical investigation of the Catholic theological tradition and to reflect on this tradition’s ongoing engagement with other theological traditions and other disciplines’ distinctive claims to human knowledge. As part of its mission, the Department of Theology is deeply committed to bringing contemporary theological reflections into genuine dialogue with the various intellectual, political, and spiritual currents of thought that have shaped, and continue to shape, our modern world.

LEARNING OUTCOMES
• Recognize Catholic theology’s distinctive claim about the fundamental relation of Christian faith and human reason
• Appreciate Catholic theology’s intellectual and spiritual relation to other theological traditions
• Read theological texts closely and carefully in context
• Write clearly, insightfully, and in a well-ordered manner
• Engage thoughtfully and respectfully in theological debate

MAJOR IN THEOLOGY (11)
The Major in Theology introduces students to the rich, variegated, and continuing tradition of Christian and Catholic theological reflection. Examining the enduring and irreducible theological questions that human beings are inescapably led to ask about their origins and end, the Major in Theology systematically introduces students to the Biblical and theoretical foundations of theology’s distinctive exercise in faith seeking understanding. The Theology Major prepares students for graduate work in theology and philosophy and provides the educational background needed by directors of religious education, elementary/high school teachers of religion, and those working in Catholic media and publishing.

REQUIRED COURSES (11)
The requirements for the major consist of eleven courses, distributed as follows from the Theology Department’s regular offerings:

THE 100 Introduction to Theology. This course is required of all students as the first theology course in the core curriculum.
One 150-level Theology course. One THE 150-level course is required by all students as part of the core curriculum.
Two of the following 200-level theology courses:
   THE 202 Moral Theology
   THE 203 The Early Church
   THE 204 Catholicism Today
   THE 207 Christ, Yesterday and Today
Seven courses selected from the Department’s offerings from THE 210 to THE 499
   Four of the aforementioned courses from 210-499 must be numbered from THE 300-499
RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN THEOLOGY

The Theology Department recommends the following semester-by-semester course plan to its majors. The major is structured to accommodate those students who are simultaneously pursuing another major along with a Theology major and those students who plan on studying abroad. Students can, with some ease, start to pursue a major in theology as late as the spring semester of their sophomore year. Students who intend to go to graduate school are strongly encouraged to study a foreign language along with their theology courses, most especially, Latin.

THE 200 or higher

ADVISING TIPS FOR THE MAJOR IN THEOLOGY

- Although 11 courses are required for the major, students may take up to 14 Theology courses.
- With the Chairperson’s approval, majors may take an independent study (THE 499) to gain specific research experience in areas of personal interest.
- To maintain the academic integrity of the major, transfer courses are approved under strict conditions. Students should consult with the Department Chairperson before registering for courses outside of Assumption University’s day school.

MINOR IN THEOLOGY (6)

The Minor in Theology is designed to broaden the student’s educational and theoretical background and enable a student to see how his/her major field of study relates to the universal claims made by reason and revelation.
The requirements for the minor consist of six courses, distributed as follows from among the offerings of the Theology Department:

- **THE 100 Introduction to Theology.** This course is required of all students as the first theology course in the core curriculum.
- One 150-level theology course. This course is required by all students as part of the core curriculum.
- Two of the following second-level theology courses:
  - THE 202 Moral Theology
  - THE 203 The Early Church
  - THE 204 Catholicism Today
  - THE 207 Christ, Yesterday and Today
- Two courses selected from the Department’s upper-level course offerings, THE 210 or higher

### COURSE DESCRIPTIONS

#### THEOLOGY (THE)

**THE 100  INTRODUCTION TO THEOLOGY**
This course introduces students to the intellectual challenge posed by the academic study of Catholic theology. Through the study of selected classic and contemporary texts, the course familiarizes students with the nature, foundations, history, methods, and ends of Catholic theology. Students will become familiar with some of the distinctive movements and thinkers of the Catholic theological tradition, as well as the dialogue between Catholicism and other theological traditions. Each section of this course examines a book from the Old and a book from the New Testament, St. Augustine’s *Confessions*, the thought of a medieval and the thought of a modern Catholic theologian, and the thought of a non-Catholic theologian. (Fall, Spring)
Staff/Three credits

**THE 150 THE PROBLEM OF GOD**
This course uses a variety of theological, philosophical, and literary works, including Augustine’s The City of God, to examine what the twentieth-century American theologian John Courtney Murray called “the problem of God.” That problem focuses on the challenge that the idea of God, in general, and the Christian understanding of God, in particular, poses to the human mind. This course fulfills the second theology requirement in the core curriculum program. (Fall, Spring)
Staff/Three credits

**THE 151 FAITH AND REASON**
Catholic theology both presupposes the compatibility of faith and reason and argues in defense of this compatibility. This course introduces students to Catholic theology’s traditional understanding of: 1) the nature of faith and reason; 2) their basic relation to each other; and 3) some of the various ways that theologians have historically approached the question of faith and reason. The course also introduces students to some contemporary debates involving the question of faith and reason. Each section of this course includes some readings taken from Augustine’s The City of God. Prerequisite: THE 100. This course fulfills the second theology requirement in the core curriculum program. (Fall, Spring)
Staff/Three credits

**THE 153 REVELATION ANCIENT AND MODERN**
This course introduces students to the major distinctions that typically differentiate ancient and modern theological understandings of the nature, status, and import of divine revelation. Through close readings of a series of classic, primary texts written by Jewish, Catholic, Islamic, and Protestant thinkers, this course familiarizes students with the fundamental questions and concerns that have traditionally animated the theological debates that modern religious thinkers have carried out with pre-modern religious thinkers. Prerequisite: THE 100. This course fulfills the second theology requirement in the core curriculum and is a requirement in the Core Texts & Enduring Questions Program. (Fall, Spring)
Guerra, Monroe/Three credits
THE 202 MORAL THEOLOGY
No one can live a genuinely human life without asking the question “How should I live and what kind of life will make me happy?” This course introduces students to the unique way in which theology goes about answering the question of human flourishing. Moral theology is not so much preoccupied with drafting ethical and legal codes, but rather with shedding light on those actions that respond to the deepest aspirations of the human heart. Beginning with the premise that human beings need to be related to God if they are to be truly happy, this class invites students to think about what it would mean to live a morally serious human life. Prerequisite: THE 100 and one THE150s course. (Fall, Spring)
Guerra, Klofft/Three credits

THE 203 THE EARLY CHURCH
We examine how the Christians of the first five centuries worked out the implications of their original profession of faith in Jesus Christ. What was the relationship between Christian discipleship and Judaism? How did the early Christians envision their role within their social, cultural, and political surroundings? We look back to the earliest Christian writings in order to see how the Christian Church came into existence and to grapple with issues that continue to be important today: the nature of God and Christ, grace and salvation, the use and interpretation of the Bible, and the practice of faith and the sacraments. Prerequisite: THE 100 and one THE150s course. (Fall, Spring)
Briel, Corriveau, Monroe/Three credits

THE 204 CATHOLICISM TODAY
Catholics do not live their lives within a Catholic bubble, a hermetically sealed world in which everyone and everything is shaped by the teachings of Catholicism. Christ himself said this would not be the case, informing his disciples that in this world they would have to render to Caesar the things that are Caesar’s and to God that things that are God’s. As a result, the Catholic Church has always had to find some way of engaging the world in which it currently finds itself. This course introduces students to Catholicism’s ongoing engagement with the world today, paying particular attention to both the main currents in contemporary thought and the representative social movements that shape the modern world. Prerequisite: THE 100 and one THE 150s course. (Fall, Spring)
Coleman, Fisher, Monroe/Three credits

THE 207 CHRIST, YESTERDAY AND TODAY
We study the different theological interpretations of Jesus of Nazareth. The course focuses on the significance of Jesus, the Christ, asking such questions as: whether he is only a man, only God, or both; what the original experiences of men and women were in the presence of Jesus, before his Resurrection and afterward; what the subsequent experience of his presence is within the Church; and what difference the identity of Jesus makes for the idea of salvation. Prerequisite: THE 100 and one THE150s course. (Fall, Spring)
Corriveau, Monroe/Three credits

THE 285 SAINT AUGUSTINE’S CITY OF GOD
Christians have long struggled with Christ’s injunction to “render to Caesar the things that are Caesar’s, and to God the things that are God’s.” For it is not immediately clear what things legitimately are Caesar’s and what things legitimately are God’s. It is also not clear what Christians are supposed to do when Caesar’s things come into conflict with God’s things. St. Augustine’s The City of God takes these kinds of problems as its point of departure, as it goes on to outline the origins, natures, and ends of what Augustine calls the earthly city and the City of God. This course helps students learn to read Augustine’s rich text, engage critically the enduring questions and tensions it raises, and reflect on the ways that Augustine’s classic work can still speak to us today. Prerequisites: THE 100 and one THE 150s course. THE 285 also fulfills a requirement in the Core Text & Enduring Questions Program. (Fall, Alternating Years/Even Years)
Guerra/Three credits

THE 286 CATHOLICISM AND THE WORLD’S RELIGIONS
This course explores the theology, practice, and current status of interreligious dialogue between Catholicism and the world’s major religions. It examines the Church’s response to religious diversity and its teachings about Judaism, Islam, Hinduism, and Buddhism. Using the methods of comparative theology, students examine the Church’s participation in interfaith dialogue on fundamental theological questions and its work with other religions on problems of global peace and social justice. Prerequisites: THE 100 and one THE 150s course. This course fulfills the Global Awareness requirement in the core curriculum. (Spring, Alternating Years/Odd Years)
Fisher/Three credits

THE 333 THE MYSTERY OF THE CHURCH
This course examines Catholics’ understanding of themselves as the Church and the difference that makes in their fundamental interpretation of human existence. Is the Church more than a social phenomenon? How is its mission part of God’s plan for humanity? How is it the channel of God’s relationship to humanity? In addition to exploring such questions, this course will examine Vatican Council II’s concept of the Church as “the universal sacrament of salvation.” Prerequisites: THE 100 and one THE150s course. (Fall, Alternating Years/Odd Years)

Monroe/Three credits

THE 341 MORAL ISSUES IN MEDICINE
An introduction to medical and health care ethics. Assisted by the writings of health care professionals, moral thinkers, and theologians, and in the distinctive light of Catholic morality, the course includes a study of the significance of conscience, prudence, and moral character, as well as competence in the health care professions, and an exploration of the many biomedical issues that have arisen as a result of the impact of modern science and technology. Prerequisites: THE 100 and one THE 150s course. (Spring, Alternating Years/Even Years)

Coleman/Three credits

THE 342 A THEOLOGY OF HUMAN SEXUALITY
This course seeks to clarify what God has revealed about the nature and the purposes of human sexuality. Beginning with a study of Christian moral principles and moving to an examination of biblical teachings on the subject of sexuality, the course will then address the topics of masturbation, pre-marital sex, homosexuality, and birth control from the perspective of a theology of marriage. Prerequisites: THE 100 and one THE 150s course. (Fall, Alternating Years/Even Years)

Klofft/Three credits

THE 343 THE SOCIAL TEACHINGS OF THE CHURCH
A study of the social teachings of the Church, based on the writings of early Christian, medieval, and modern authors. The aim of the course is to discover and understand the distinctive principles of Catholic social teaching and to reflect on current critical issues in the light of those principles. Prerequisites: THE 100 and one THE 150s course. (Spring, Alternating Years/Odd Years)

Guerra, Klofft/Three credits

THE 371 THE CHURCH IN THE MIDDLE AGES
This course examines a number of theological disputes and controversies that animated the Church in the Middle Ages. Students are introduced to the heated theological debates that medieval thinkers carried out on topics such as the status of proofs of God’s existence, the nature of Providence, the role of philosophy in theological reflection, the mode of the Incarnation, and the relation of papal and secular powers. Prerequisites: THE 100 and one THE150s course. (Fall, Alternating Years/Odd Years)

Briel/ Three credits

THE 391 SPECIAL TOPICS IN THEOLOGY
This course offers a study at an advanced level of theological issues, themes, and/or theologians not covered by other thematic courses. The subject matter changes according to the interests of the professor and the needs of students. Prerequisites: THE 100 and one THE 150s course. (Rotating)

Staff/Three credits

THE 499 INDEPENDENT STUDY
Available only to highly qualified students who wish to develop a special interest but cannot find a suitable course among the regular offerings. Prerequisites: THE 100 and one THE 150s course. (Offered when warranted.)

Staff/Three credits
Grenon School of Business
Department of Accounting

Associate Professors: Frank A. Marino (chair), Joseph Foley; Assistant Professors: Bryan Coleman, Elizabeth O’Hara; Professors of Practice: Michael Matraia, Paul Piwko, Kristen Quinn; Lecturer: Philip Benvenuti.

MISSION STATEMENT

The Department of Accounting offers undergraduate programs of study in accounting. The general mission of the Department of Accounting is to create a challenging learning environment that prepares students for professional employment in the private, public, and nonprofit sectors and/or graduate study. Assumption University has a strong liberal arts tradition, and the Accounting programs augment the liberal arts courses by developing students who:

- gain fundamental knowledge, concepts, and theory of the disciplines we teach;
- are proficient in technical and professional skills related to the disciplines we teach;
- understand and can perform in a professional environment that is multi-cultural and global;
- possess the knowledge and ability to perform in a professional environment that is multi-cultural and global;
- understand and can perform in a professional environment that is multi-cultural and global;
- possess the knowledge and ability to understand ethical reasoning and act in a socially responsible manner;
- can exercise critical thinking and creative problem solving skills and know how to make decisions;
- are able to communicate effectively;
- are able to relate well to others and to perform well as an individual or as part of a team.

MAJOR IN ACCOUNTING (16)

The Accounting program is designed to enable the student to establish a basic professional competence that will encourage intelligent and effective employment in both profit and nonprofit institutions. The Accounting major is structured to provide students with the basic educational background to sit for various professional examinations. The undergraduate Accounting program leading to the Bachelor’s degree continues to provide excellent preparation for careers in the corporate, governmental, and not-for-profit sectors as well as entrance into law school and graduate business school.

Certified Public Accountant (CPA) candidates should note that all states have adopted some version of what has come to be called the 150 hours rule. This rule requires 150 semester hours of university education as a condition either to take the Uniform C.P.A. Examination, or to become certified as a CPA In Massachusetts, the requirement to take the CPA exam is 120 semester hours of university education, and then 150 hours of education are required to obtain certification (the CPA license). While the requirement does not specifically call for a graduate degree, 30 additional semester hours (150 hours less the 120 hours required in our undergraduate Accounting program) does represent a full year of study after the Bachelor’s degree. Assumption has designed an Accelerated CPA Track M.B.A. program to enable our CPA candidate majors to begin their graduate studies during their senior year, satisfy the additional credit hour requirement, and receive both a B.A. and M.B.A. degree in five years instead of the six years these two degrees customarily require. Students planning to sit for the Uniform CPA Examination should consult with the Accounting faculty no later than fall of their junior year. This will allow the student to devise a strategy for meeting the educational requirements.

Additional information about the Accelerated CPA Track M.B.A. program can be found in the catalog section titled Accelerated CPA Track M.B.A. Program below. Complete details of the Accelerated CPA Track M.B.A. program can be obtained from Prof. Michael Lewis, M.B.A. Director, and are explained in depth in the graduate school catalog.

The following courses, both the accounting courses and those from other disciplines, comprise the accounting major. Please note that two of these courses, ECO 110 and ECO 115, also fulfill Core Curriculum requirements.
# RECOMMENDED FOUR-YEAR PLAN FOR THE MAJOR IN ACCOUNTING

## First Year

<table>
<thead>
<tr>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 125 Principles of Accounting I</td>
<td>ACC 126 Principles of Accounting II</td>
</tr>
<tr>
<td>MGT 100 Introduction to Management</td>
<td>MKT 101 Principles of Marketing</td>
</tr>
<tr>
<td>For ECO 115</td>
<td></td>
</tr>
</tbody>
</table>

If not taken during the First year, the above courses should be taken during the Sophomore year.

## Sophomore Year

<table>
<thead>
<tr>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 200 Intermediate Accounting I (fall only)</td>
<td>ACC 201 Intermediate Accounting II (spring only)</td>
</tr>
<tr>
<td>ECO 110 Microeconomics</td>
<td>ECO 111 Macroeconomics</td>
</tr>
<tr>
<td>BUS 100 Excel (1 credit)</td>
<td>ECO 115 Statistics</td>
</tr>
</tbody>
</table>

Note: ECO 115 requires students to have taken MAT 114 prior to or at the same time. The course also requires successful prior completion of the one-credit BUS 100. If the Principles of Accounting sequence was not completed during the First year, then Intermediate Accounting I and II can be taken during the Junior year.

## Junior Year

<table>
<thead>
<tr>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 210 Cost Accounting</td>
<td>ACC 210 Cost Accounting</td>
</tr>
<tr>
<td>OR ACC 211 Accounting Information Systems</td>
<td>OR ACC 211 Accounting Information Systems</td>
</tr>
<tr>
<td>BUS 215 Business Law I</td>
<td>BUS 215 Business Law I</td>
</tr>
<tr>
<td>OR FIN 325 Managerial Finance I (formerly ECO 325 Corporate Finance)</td>
<td>OR FIN 325 Managerial Finance I (formerly ECO 325 Corporate Finance)</td>
</tr>
</tbody>
</table>

Note: If intending to apply to the Accelerated CPA Track M.B.A. program, complete the application during the Spring of Junior year in order to take two M.B.A. classes during Senior year.

## Senior Year

<table>
<thead>
<tr>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 310 Federal Income Taxes (fall only)</td>
<td>ACC 320 Advanced Accounting (spring only)</td>
</tr>
<tr>
<td>ACC 420 Auditing (fall only)</td>
<td></td>
</tr>
</tbody>
</table>

## Other Business Courses

The following electives are available to supplement the major requirements listed above. None of these courses is required to meet the undergraduate degree requirements, but will assist in fulfilling the educational requirements for certification (see Requirements for Uniform CPA Examination and Certification below).

- ACC 250 Personal Finance
- ACC 331 Fraud Examination
- ACC 332 Forensic Accounting
- BUS 320 Issues in Corporate Governance and White Collar Crime
- BUS 399 Internship in Business
- IDS 250 Community Tax Assistance
- Other Business Courses

The order suggested above is intended as a guide, not intended as an inflexible sequence. For example, many students have successfully completed the major by taking some of the First Year/Sophomore courses in their Junior or even Senior year.

## REQUIREMENTS FOR UNIFORM CPA EXAMINATION AND CERTIFICATION

There are specific requirements to take the CPA Examination in Massachusetts; the requirements may differ in other states. Students should check with the Board of Accountancy in the state where they intend to sit for the examination and apply for certification. The undergraduate accounting curriculum qualifies a student to sit for the examination in Massachusetts. Students who wish to apply for certification in Massachusetts after successful completion of the CPA Examination should take the following courses to fulfill the specific requirements for certification:

At least one course in each area:
Area 1:  
ACC 331  Fraud Examination  
ACC 332  Forensic Accounting  
IDS 250  Community Tax Assistance  

Area 2:  
BUS 320  Issues in Corporate Governance and White Collar Crime  
ACC 250  Personal Finance  
PHI 260  Business Ethics  
Any business or economics course not required for the accounting major  

MINOR IN ACCOUNTING (7)  

REQUIRED COURSES (3)  
ACC 125  Principles of Accounting I  
ACC 126  Principles of Accounting II  
MGT 100  Introduction to Management  
OR  
MKT 101  Principles of Marketing  

ELECTIVES (4)  
ACC 200  Intermediate Accounting I  
ACC 201  Intermediate Accounting II  
ACC 210  Cost Accounting  
ACC 211  Accounting Info Systems  
ACC 250  Personal Finance  
IDS 250  Community Tax Assistance  
ACC 310  Federal Income Taxes  
ACC 320  Advanced Accounting  
ACC 331  Fraud Examination  
ACC 332  Forensic Accounting  
ACC 420  Auditing  

MINOR IN FRAUD EXAMINATION AND FORENSIC ACCOUNTING (7)  

REQUIRED COURSES (7)  
ACC 125  Principles of Accounting I  
ACC 126  Principles of Accounting II  
MGT 100  Introduction to Management  
ACC/MGT 331  Fraud Examination  
ACC 332  Forensic Accounting  
BUS 320  Issues in Corporate Governance and White Collar Crime  
CYB 115  Cybersecurity Fundamentals  

ACCELERATED CPA TRACK M.B.A. PROGRAM  
The Accelerated CPA Track M.B.A. program is offered to students who hold an undergraduate degree in Accounting. This program is specifically designed to provide recent graduates the academic and practical experience needed to sit for the CPA exam and pursue careers in public accounting. Students interested in the Accelerated M.B.A. should consult with Prof. Michael Lewis, Director of the M.B.A. program, early in their junior year to plan their course of study and job search activities.
ACCOUNTING (ACC)

Accounting 125 is a prerequisite for Accounting 126, and the Accounting 125–126 sequence is required for all accounting, management, marketing, and international business majors.

ACC 125 PRINCIPLES OF ACCOUNTING I
An introduction to accounting concepts for financial reporting. Accounting theories and principles relative to asset valuation, liability reporting, and income determination will be examined. The uses and limitations of external financial reports will be emphasized. (Fall, Spring)
Coleman, Matraia, Piwko, Quinn/Three credits

ACC 126 PRINCIPLES OF ACCOUNTING II
A consideration of some of the more complex areas of financial accounting and an introduction to managerial accounting and its role in the planning and control of business operations. Changes in financial position, analysis of financial statements, cost accounting, and budgeting will be examined. The impact of accounting information on internal decision making will be emphasized. Prerequisite: ACC 125.
Coleman, Matraia, Piwko, Quinn/Three credits

ACC 200 INTERMEDIATE ACCOUNTING I
An intensive study of financial accounting and reporting problems. The class will discuss generally accepted accounting principles as applied to income determination, cash, receivables, investments, inventories, and productive resources. Emphasis is on the theory and practice of providing useful information to external financial statement users. The course will include coverage of the primary differences between U.S. GAAP and International Financial Reporting Standards (IFRS). Prerequisite: ACC 125–126. (Fall)
Foley, Piwko/Three credits

ACC 201 INTERMEDIATE ACCOUNTING II
A continuation of ACC 200. Discussion focuses on debt and equity capital issues, leases, pensions, earnings per share, income taxes, and cash flow. The course will include coverage of the primary differences between U.S. GAAP and International Financial Reporting Standards (IFRS). Prerequisite: ACC 200. (Spring)
Foley, Piwko/Three credits

ACC 210 COST ACCOUNTING
Deals with the processing, reporting, and use of accounting data for managerial decision making. Focuses on the use of cost accounting as a highly developed quantitative device for the selection and achievement of objectives. Emphasis on cost/volume/profit relationships, job-order costing, process costing, activity-based costing, standard costs, budgeting, capital budgeting, and performance evaluation. Prerequisite: ACC 125–126.
Piwko/Three credits

ACC 211 ACCOUNTING INFORMATION SYSTEMS
The overall objective of the course is to develop a framework for the analysis and design of accounting information systems. Based on this framework, the objective is then to show the student how to analyze accounting information systems that satisfy the transaction processing, reporting, decision making, and internal control requirements. Prerequisite: ACC 125–126.
Staff/Three credits

ACC 250 PERSONAL FINANCE
This course will examine personal choices and the realization of an individual’s financial objectives. Creating an overall personal financial plan is the focus of the course. Money management, investment selection, consumer credit, housing, inflation, income taxes, transportation, insurance, retirement and estate planning are included in the discussion. Students will strive to develop a solid grounding in personal financial management principles. The department encourages enrollment of non-accounting and non-business majors. Prerequisite: Senior standing or instructor’s permission. (Spring)
ACC 310  FEDERAL INCOME TAXES
The course will focus on the Federal Internal Revenue Code, its origins, organizations, principles, and application. The emphasis will be on the tax consequences of decisions made by both individuals and corporations. Specific practical problems will be used to illustrate the application of many of the basic principles of taxation. Consideration will be given to the historic, economic, and social causes and effects of tax law. Prerequisite: ACC 201 or permission of instructor. (Fall)

ACC 320  ADVANCED ACCOUNTING
This course concentrates on advanced applications of financial accounting concepts not considered in depth in previous courses. Topics covered may include partnership organization, operation, and liquidation; business combinations; special financial reporting issues, governmental and non-profit accounting; Securities and Exchange Commission requirements; and financial reporting by multinational companies. The objective of the course is to expand and refine the problem-solving techniques introduced in ACC 200–201. Prerequisite: ACC 200–201. (Spring)

ACC 331  FRAUD EXAMINATION
This course examines the subject of fraud from both management and accounting perspectives. Utilizing a variety of techniques including text, lecture, case studies, and occasional training videos, the course seeks to familiarize students with the conditions which facilitate fraud, the profile of the fraud perpetrator, common types of fraud, and methods of prevention, detection, and resolution. Numerous historical cases of fraud are examined. Prerequisites: ACC125–126, MGT100. (Fall)

ACC 332  FORENSIC ACCOUNTING
This course serves as a follow-on to Fraud Examination, ACC/MGT 331, and builds upon the concepts learned in that course. The course covers the role of the forensic accountant including common types of engagements performed. It includes discussion of specific types of occupational and management fraud in depth with emphasis on detection techniques. There is coverage of the structure of forensic financial investigations, including those related to business frauds, business valuations, and matrimonial settlements. Cases from the text and other sources are used to illustrate key concepts. Prerequisite: ACC/MGT 331. (Spring)

ACC 385  INDEPENDENT STUDY IN ACCOUNTING
Open to highly qualified junior and senior majors. Permission of the department chair is required.

ACC 395  SPECIAL TOPICS IN ACCOUNTING
This course permits the study of selected topics as designate by the instructor. Topics will change each time the course is offered.

ACC 420  AUDITING
An examination of the theory and practice of auditing. Emphasis is on generally accepted auditing standards, professional liability of auditors, ethics of the accounting profession, the structure and conduct of the audit, and the preparation of the auditor’s report. Prerequisites: Senior standing and ACC 200–201. (Fall)

IDS 250  (CSL) COMMUNITY TAX ASSISTANCE
This course combines the study of low-income taxpayers with community service learning. Students examine sociological issues, such as social class, in addition to researching individual tax credits targeted at low-income taxpayers. They will also become proficient with tax software. Students will apply their learning through the electronic preparation of tax returns for low-income Worcester residents. (Spring)
BUSINESS (BUS)

BUS 215 BUSINESS LAW I
An analysis of the legal environment of business. Emphasis is on the basic structure of legal rights and obligations and their impact on business decisions. Prerequisites: Not open to Freshmen, preference to Junior and Senior business majors.
Fitzpatrick, Kingsley/Three credits

BUS 250 PERSONAL FINANCE
This course will examine personal choices and the realization of an individual’s financial objectives. Creating an overall personal financial plan is the focus of the course. Money management, investment selection, consumer credit, housing, inflation, income taxes, transportation, insurance, retirement and estate planning are included in the discussion. Students will strive to develop a solid grounding in personal financial management principles. The department encourages enrollment of non-accounting and non-business majors. Prerequisite: Senior standing or instructor’s permission. (Spring)
Foley/Three Credits

BUS 320 ISSUES IN CORPORATE GOVERNANCE AND WHITE COLLAR CRIME
This course covers the subject of corporate governance focusing on the roles of top management and the board of directors. Recent changes initiated by the Sarbanes Oxley Act are discussed. The importance of ethical leadership is stressed. The course also covers the subject of white collar crime, defining and discussing the major types of this criminal activity. The roles of top management and the board of directors in both the commission and the prevention of white collar crime are covered at length. Various resources such as recent cases of white collar crime, and websites such as those of the FBI and the National White Collar Crime Center are incorporated into the course. Prerequisites: MGT 100 and ACC 125 and 126. (Fall)
Matraia/Three credits

BUS 399 INTERNSHIP IN BUSINESS
This course is open to junior/senior students approved by the instructor who meet the University-wide internship standard of a minimum GPA of 2.8. It provides the interning student with a valuable experiential learning opportunity, and includes field-based training experience in either the private, industrial, not-for-profit, or governmental sectors. Students must attend weekly seminar meetings to complete regular academic assignments and process observations about the internship experience. Students complete a major paper that links theory in the field to the internship experience.
Staff/Three credits

BUS 444 HONORS CAPSTONE IN BUSINESS
In this course, each student will produce an independent research thesis in business. The capstone work will entail a faculty-student research project directed by a Business Studies faculty member. (The project was proposed and approved during the Honors Seminar.) A summary of the capstone work will be presented at the Honors Colloquium at the end of the semester. Prerequisites: HON 300 and membership in the Honors Program.
Staff/Three credits
Department of Management, Marketing, and Organizational Communication

Associate Professors: J. Bart Morrison; Assistant Professors: Cary LeBlanc (chair), Bridget Leonard, Michael Lewis; Professors of Practice: Megan Hill, Kevin Kelly; Visiting Assistant Professors: Paul Bailey, John Chetro-Szivos, Zachary Daniels; Lecturers: Thomas L. Fitzpatrick, Mary Kingsley, Caitlin White.

The Department of Management, Marketing, and Organizational Communication offers majors and minors that, when combined with substantial background in the liberal arts disciplines, provide our students with the knowledge and skills valued by the business world. Our majors also focus on helping students build socially responsible lives with ethical cores.

MISSION STATEMENT

The Department of Management, Marketing, and Organizational Communication offers undergraduate programs of study in management, marketing, and organizational communication. These programs are part of the University’s professional studies. The department’s mission is to create a challenging learning environment that prepares students for professional employment in the private, public, and nonprofit sectors and/or graduate study. Assumption University has a strong liberal arts tradition, and Business Studies programs augment the liberal arts courses by developing business students who:

• gain fundamental knowledge, concepts, and theory of the disciplines we teach
• are proficient in technical and professional skills related to the disciplines we teach
• understand and can perform in a professional environment that is multi-cultural and global
• possess the knowledge and ability to understand ethical reasoning and act in a socially responsible manner
• can exercise critical thinking and creative problem solving skills and know how to make decisions
• are able to communicate effectively
• are able to relate well to others and to perform well as an individual or as part of a team

MAJOR IN MANAGEMENT (17)

The major in Management is structured to develop the student’s ability to identify, analyze, and contribute to the development of organizations through an understanding of how they function. Management students are ready for positions in professional management of profit or non-profit organizations, for corporate management training programs, and for graduate studies in business disciplines, the law, and related areas. The curriculum seeks to develop and sharpen knowledge, skills, and abilities in the following areas:

• Principal management activities of planning, organizing, staffing, leading, and controlling
• Communication (oral, written, and electronic)
• Quantitative and qualitative analysis methods
• Analytical and strategic thinking abilities
• Strategy development and implementation
• Interpersonal relations, group decision-making, diversity, and leadership

The following courses (both the management courses and those from other disciplines) comprise the Management major. Please note that two of these courses, ECO 110 and ECO 115, also fulfill Core Curriculum requirements.
REQUIRED COURSES (14)

- ACC 125  Principles of Accounting I
- ACC 126  Principles of Accounting II
- BUS 215  Business Law
- ECO 110  Microeconomics
- ECO 111  Macroeconomics
- ECO 115  Statistics
- FIN 325  Financial Management I (Formerly ECO 325 Corporate Finance)
- MKT 101  Principles of Marketing
- MGT 100  Introduction to Management
- MGT 102  Introduction to Organizational Behavior
- MGT 230  Decision Analytics for Managers
- MGT 300  Human Resource Management
- MGT 330  Organizational Innovation
- MGT 400  Business Strategy

MANAGEMENT ELECTIVES (3)

- BUS 304  Business Research
- BUS 330  Global Social Entrepreneurship
- BUS 399  Internship in Business
- BUS 444  Honors Capstone in Business
- INB 307  International Management
- INB 318  Asian Business Practices OR INB 320 European Business Practices
- MGT 301  Business and Society
- MGT 302  Management Information Systems
- MGT 303  Purchasing and Supply Management
- MGT 305  Strategic Leadership
- MGT 311  Diversity in the Workplace
- MGT 315  Services Management
- MGT 325  Small Business and Entrepreneurship
- MGT 331  Fraud Examination
- MGT 342  Sport Management
- MGT 350  Professional and Ethical Responsibilities in the Sport Industry
- MKT 405  Strategic Marketing

First Year

The order suggested above is intended as a guide in planning the major, not an inflexible sequence. For example, many students have successfully completed the major by taking some of the First Year/Sophomore courses in their Junior or even Senior years.

MAJOR IN MARKETING (17)
The major in Marketing is designed to provide the student with the educational background necessary to function successfully in sales, advertising, public relations, merchandising, product and brand management, and other marketing occupations. The student will develop an understanding of the risks, rewards and challenges inherent in the marketing profession while developing the ability to identify, analyze, and respond to these challenges.

Requirements for the Classes of 2024 and beyond. (Classes of 2021, 2022 and 2023 are subject to the catalog requirements in place in the year in which they matriculated.) The following courses (both the marketing courses and those from other disciplines) comprise the marketing major. Please note that two of these courses, ECO 110 and ECO 115, also fulfill Core Curriculum requirements.

REQUIRED COURSES (13)

| ACC 125 | Principles of Accounting I |

MAJOR IN ORGANIZATIONAL COMMUNICATION (15)

Effective communication, a widely recognized goal of a liberal arts education, is a key element in the successful practice of management. The Organizational Communication major builds on the strengths of a liberal arts curriculum to produce a set of competencies valued in the business environment and transferable across many sectors. Students who major in Organizational Communication will be prepared to enter the world of management, including profit, non-profit, government and entrepreneurial organizations, and will be strong candidates for corporate management development programs.

ACCELERATED M.B.A. – MANAGEMENT TRACK

The Accelerated M.B.A. Management Track is open to all undergraduate students regardless of their declared major. Today’s businesses and today’s world need citizens who can think with insight, communicate clearly, and exercise good judgment both in and out of the workplace. This program is designed to provide students with the best of a Catholic liberal arts education and advanced professional development in business. Graduates of this program will be poised to launch successful careers in a variety of fields. Students interested in the Accelerated M.B.A. – Management Track should seek advice from the Director of the M.B.A. Program early in their junior year in order to plan their course of study.

COURSE DESCRIPTIONS

BUSINESS (BUS)

BUS 215 BUSINESS LAW I
An analysis of the legal environment of business. Emphasis is on the basic structure of legal rights and obligations and their impact on business decisions. Prerequisites: Not open to first year students, preference to Junior and Senior business majors. Fitzpatrick, Kingsley/Three credits

BUS 250 PERSONAL FINANCE
This course will examine personal choices and the realization of an individual’s financial objectives. Creating an overall personal financial plan is the focus of the course. Money management, investment selection, consumer credit, housing, inflation, income taxes, transportation, insurance, retirement and estate planning are included in the discussion. Students will strive to develop a solid grounding in personal financial management principles. The department encourages enrollment of non-accounting and non-business majors. Prerequisite: Senior standing or permission of instructor. (Spring) Foley, Jones/Three Credits

BUS 304 BUSINESS RESEARCH
Students will learn how to scan the environment of changing conditions in order to identify specific business opportunities and problems. The course teaches the following techniques for collecting and analyzing data: research objectives, research design, data
collection, sampling procedures, field work, statistical analysis, and reporting the research findings. Discussion focuses on how business research fits the decision-maker’s needs. Prerequisites: MKT 101, ECO 115, and Junior/Senior standing or permission of instructor. (Spring)

Staff/Three credits

BUS 320 ISSUES IN CORPORATE GOVERNANCE AND WHITE COLLAR CRIME
This course covers the subject of corporate governance focusing on the roles of top management and the board of directors. Recent changes initiated by the Sarbanes Oxley Act are discussed. The importance of ethical leadership is stressed. The course also covers the subject of white collar crime, defining and discussing the major types of this criminal activity. The roles of top management and the board of directors in both the commission and the prevention of white collar crime are covered at length. Various resources such as recent cases of white collar crime, and websites such as those of the FBI and the National White Collar Crime Center are incorporated into the course. Prerequisites: MGT 100 and ACC 125 and 126. (Fall)

Matraia/Three credits

BUS 330 GLOBAL SOCIAL ENTREPRENEURSHIP
This course explores the emerging and rapidly developing business field of social entrepreneurship, both as an individual driving change to solve social problems, as well as the social enterprises that may emerge. These organizations are highly regarded for being mission driven as a significant focus of their business is aimed at solving social problems, while also achieving financial sustainability. Throughout the course students will gain in-depth insights into how these organizations achieve dual objectives of economic and social value. We will explore social ventures across a wide variety of sectors, such as environmental, energy, health, education, micro finance, and other areas. Social enterprises look to fill the void at the nexus of government, private, and non-profit enterprises that have not sustainably addressed social problems. Throughout the course students will encounter issues related to inequities in gender, race, ethnicity, and culture, which all play a role in the establishment and effectiveness of the social enterprise. A key outcome of the course will be social problem identification and assessment, and the development of a social venture business plan.
Prerequisites: MGT 100, MKT 101, ACC 125.

LeBlanc/Three credits

BUS 340 SPORT INTERNSHIP
This course is designed to expand the student’s current knowledge in the field of sport management. Students will gain experience in leading and planning sport activities through an internship in professional/amateur sports organizations, sports commissions, and sports agencies (i.e., ‘sport-related’ sites) and work a minimum of 120 hours for the semester. This is a valuable opportunity for students to gain practical work experience, apply concepts and skills learned in the classroom, and develop professional contacts within the sports community. The course is open to junior/senior students approved by the instructor who meet the University-wide internship standard of a minimum GPA of 2.8. Prerequisites: MGT 342, MKT 344. (Spring)

O’Hara/Three credits

BUS 385 INDEPENDENT STUDY IN MANAGEMENT, MARKETING, OR ORGANIZATIONAL COMMUNICATION
Open to highly qualified junior and senior majors. Permission of the department chair is required.
Staff/Three credits

BUS 395 SPECIAL TOPICS IN MANAGEMENT, MARKETING OR ORGANIZATIONAL COMMUNICATION
This course permits the study of selected topics as designated by the instructor. Topics will change each time the course is offered.
Staff/Three credits

BUS 399 INTERNSHIP IN BUSINESS
This course is open to junior/senior students approved by the instructor who meet the University-wide internship standard of a minimum GPA of 2.8. It provides the interning student with a valuable experiential learning opportunity, and includes field-based training experience in either the private, industrial, not-for-profit, or governmental sectors. Students must attend weekly seminar meetings to complete regular academic assignments and process observations about the internship experience. Students complete a major paper that links theory in the field to the internship experience.
Staff/Three credits
**BUS 444 HONORS CAPSTONE IN BUSINESS**

In this course, each student will produce an independent research thesis in business. The capstone work will entail a faculty-student research project directed by a Business Studies faculty member. (The project was proposed and approved during the Honors Seminar.) A summary of the capstone work will be presented at the Honors Colloquium at the end of the semester.

Prerequisites: HON 300 and membership in the Honors Program.

*Staff/Three credits*

**MANAGEMENT (MGT)**

**MGT 100 INTRODUCTION TO MANAGEMENT**

This course introduces a systems approach to managing organizations and focuses on the planning, organizing, leading, and controlling tasks and functions of managers. Students are given the opportunity to develop key managerial skills such as self-management, team management, and organizational management that support effective performance. The course includes an introduction to basic Microsoft Excel, Word, and presentation software for business communication. Ideally, MGT 100 should not be taken in the same semester as MKT 101.

*Kelly, LeBlanc, Lewis, Morrison/Three credits*

**MGT 102 INTRODUCTION TO ORGANIZATIONAL BEHAVIOR**

This course focuses on developing an understanding of individual characteristics and interpersonal and organizational processes and how they influence organizational outcomes such as performance, creativity, citizenship behavior, stress, deviance, and ethical behavior. Students will have an opportunity to develop their managerial/leadership style through experiential learning. Topics include: personality theory, learning, motivation, power and justice, conflict/negotiation skills, decision making, leadership, and team dynamics, communication, and organizational culture. Prerequisite: MGT 100.

*Chetro Szivos, LeBlanc, Lewis/Three credits*

**MGT 230 DECISION ANALYTICS FOR MANAGERS**

In an increasingly complex world, decision analysis has a major role to play in helping produce insight and promoting creativity to help decision-makers make better decisions. Business analytics are becoming a critical capability for enterprises of all types, for profit or non-profit, domestic or international. Solving organizational problems requires understanding of many functional areas, including marketing and sales, human resources, accounting, operations, engineering, and others. In this course, students will gain knowledge of theory and practical applications of decision analysis. Using cases, students will identify pertinent information, perform analysis using key tools including analytical software, and develop effective solutions supported by data. Concepts we will explore include, decision trees, probability, risk assessments, group decision-making, resource allocation, and scenario planning. Prerequisites: MGT 100, ECO 115 or PSY 224 or SOC 300.

*Kelly/Three credits*

**MGT 300 HUMAN RESOURCE MANAGEMENT**

This course examines the pivotal role of the Human Resource (HR) department in all types of organizations, especially medium to large enterprises. Increasingly HR has emerged as a key function in the overall strategy and success of organizations. HR functions that we will explore include organization and work design, workforce planning, job descriptions and evaluations, recruitment and selection, compensation and benefits, employee relations, safety and health, and corporate social responsibility. The course features a 10-week long HR simulation, whereby students in teams utilize course knowledge to make decisions for the effective running of a simulated company. Prerequisites: MGT 100, and Junior/Senior standing.

*LeBlanc, White/Three credits*

**MGT 301 BUSINESS AND SOCIETY**

Provides a conceptual framework, analysis, and discussion of the issues surrounding the business and society relationship at a macro level. Identifies and engages the major topics involved in developing a robust understanding of business in society. The course takes up a managerial perspective that investigates, identifies, and integrates current and relevant practice, thought, and topics. The managerial perspective is embedded in the course’s major themes of business ethics, sustainability, and stakeholder management. Each of these three themes is essential today. Each theme builds upon its own perspective but is consistent with and overlaps the others. Taken together, they provide a lens through which to comprehend the challenges of the past and master frameworks for thinking about the current and future role of business in society. Prerequisites: MGT 100 and Junior/Senior standing. (Fall)
Morrison/Three credits

MGT 305 STRATEGIC LEADERSHIP
Leadership is the process of transforming organizations from what they are to what the leader would have them become. This course builds upon the basic knowledge of leadership theory and practice provided in introduction to management and organizational behavior courses, and can help prepare the student for a capstone course in business strategy by: 1) expanding the scope and depth of the student’s knowledge of leadership theories in the context of creating strategy in a globalized world, 2) building the student’s capacity to apply leadership theory to situations arising from the economic, social, political and environmental conditions that are transforming our world, and 3) developing the student’s self-knowledge of his or her actual as well as desired leadership style. Prerequisites: MGT 100.

Morrison/Three credits

MGT 311 DIVERSITY IN THE WORKPLACE
The purpose of this seminar is to explore the issues and the challenges of understanding and managing an increasingly diverse workplace. The course focuses on preparing students to work and to manage in multicultural organizations. Special emphasis is placed on topics related to the impact of gender, race, and ethnicity, and other differences as they affect interpersonal relations and group behavior within a managerial organizational context. Prerequisite: MGT100 or permission of instructor.

LeBlanc/Three credits

MGT 315 SERVICES MANAGEMENT
This course provides students with the concepts and tools necessary to manage service operations effectively. The strategic focus should also provide entrepreneurially inclined students with the foundation to start their own service business. The course explores the dimensions of successful service firms, prepares students for enlightened management, and suggests creative entrepreneurial opportunities. Beginning with the service encounter, service managers must blend marketing, technology, people, and information to achieve a distinctive competitive advantage. This course looks at service management from an integrated viewpoint. The material integrates marketing, strategy, technology, and organizational issues. Prerequisites: MGT 100, MKT 101.

Staff/Three credits

MGT 325 SMALL BUSINESS AND ENTREPRENEURSHIP
The course is designed to provide a comprehensive and integrated introduction to the challenges of starting and managing a small business. In this course, students will build on an interdisciplinary foundation of accounting, management, and marketing to address the problems and decisions of starting, growing, and managing a small business. Prerequisites: MGT 100, MKT 101, ACC 125, ACC 126.

Coleman, Foley, Kelly/Three credits

MGT 330 ORGANIZATIONAL INNOVATION
How do organizations become better innovators? How do managers foster a culture of innovation within teams and organizations? This course will help students understand the relationship between creativity and innovation, and how individuals, teams, and organizations can increase their capacity for innovative thinking and creativity. Using case studies, students will explore and analyze innovation of various organizations and industries. Students will be introduced to product, process, and business model innovation and experience using tools and approaches such as brainstorming, design thinking, how-why laddering, and various mapping techniques. Prerequisites: MGT 100, MGT 102, MKT 101.

LeBlanc, Lewis/Three credits

MGT 331 FRAUD EXAMINATION
This course examines the subject of fraud from both management and accounting perspectives. Utilizing a variety of techniques including text, lecture, case studies, and occasional training videos, the course seeks to familiarize students with the conditions which facilitate fraud, the profile of the fraud perpetrator, common types of fraud, and methods of prevention, detection, and resolution. Numerous historical cases of fraud are examined. Prerequisites: ACC 125 and 126, MGT100.

Benvenuti/Three credits

MGT 342 SPORT MANAGEMENT
Sport has become a multibillion-dollar industry, and as such, requires increasingly sophisticated and innovative management.
This course introduces students to the business of sport. Students will learn the concepts, principles, and practices of managing sport organizations and sporting events as well as gaining an overview of the sport industry. This course builds on the skills and knowledge from an introductory management and organization course as students learn to apply organizational, management, and leadership principles to sport organizations. Students will also study change and innovation in both sport organizations as well as the sport industry. Prerequisite: MGT 100.

O’Hara/Three Credits

**MGT 350 PROFESSIONAL AND ETHICAL RESPONSIBILITIES IN THE SPORT INDUSTRY**

The culture of winning reflects a set of longstanding American values. During contemporary times, issues in sport such as performance enhancing drugs, cheating, and violence have become important topics for sport managers. This course examines the professional and ethical responsibility of the sport manager, as well as ethical issues confronted by sport managers. Students will be asked to not only identify these issues within the sport industry environment, but also to analyze, discuss, and debate the sport manager’s professional and ethical responsibility in addressing these issues through ethical decision making. Students will also explore principle-centered leadership in sport. Prerequisite: MGT 342.

O’Hara/Three credits

**MGT 400 BUSINESS STRATEGY (CAPSTONE)**

This course serves to integrate prior studies in management, marketing, human resources, organizational behavior, production, finance, and accounting. The primary objective is to develop the student’s ability to think strategically by using case studies to analyze industry and competitive situations facing organizations. Prerequisites: Senior Management, Marketing and International Business majors and ECO 325. Capstone course: must be taken in the undergraduate University at Assumption.

Lewis/Three credits

**MARKETING (MKT)**

**MKT 101 PRINCIPLES OF MARKETING**

This introductory course assesses the impact of environmental forces on the practice of marketing. Students will learn the fundamentals of the marketing mix. The course covers the following: target market identification, market research, consumer behavior, product positioning, distribution, communications (personal selling, advertising, sales promotion, and public relations), and pricing decisions. Ideally, should not be taken in same semester as MGT 100.

Bailey, Daniels, Hill, LeBlanc, Leonard, O’Hara/Three credits

**MKT 250 DEVELOPING MARKETING INSIGHTS**

This course provides a fundamental understanding of how leading businesses use marketing research to develop deeper marketing insights. Marketing is an intensely data-driven field, and a good marketing manager must be comfortable directing, using, and interpreting marketing research studies. Marketing research is often used to investigate the consumer experience, develop deeper insight into the needs of the consumers, and to aid marketing managers in making decisions around new advertising campaigns, new product development, finding new markets, and adapting to the changing business environment. In this course, students will learn to design, conduct, analyze, interpret and present marketing research studies using the most common marketing research techniques including interviews, focus groups, observations, surveys, and field experiments. Prerequisite: MKT 101. Co-requisite: ECO 115 (or any other statistics course), Leonard/Three credits

**MKT 308 CONSUMER MARKETING BEHAVIOR**

This course is an in-depth examination of the processes involved when individuals or groups select, purchase, use, and dispose of products, services, and ideas to satisfy their needs and wants. Understanding consumer behavior from the complex perspectives of environmental, individual, and psychological influences provides a foundation for the formulation of effective marketing strategies. Prerequisite: MKT 101.

Leonard/Three credits

**MKT 310 ADVERTISING**

This course is an in-depth treatment of all of the activities involved in presenting a non-personal, sponsor-identified message about a product, service, or organization to the consumer. Topics included are advertising campaign objective-setting, message creativity and development, optimal media mix selections, and advertising agency coordination. Prerequisite: MKT 101.
**MKT 312 SALES MANAGEMENT**
This course examines all facets of the personal communication process used to persuade a prospective customer to purchase a good, service, or idea. This is accomplished from both the perspective of the salesperson and the Sales Manager. Included in this in-depth examination are topics, such as outbound and inbound (800 and 900) telemarketing, types of sales organizations, the personal selling process, sales force recruitment and selection, sales force motivation, and compensation. Prerequisite: MKT 101.

**Bailey/Three credits**

**MKT 314 SERVICES MARKETING**
This course examines the marketing of services from the perspective of managers responsible for the day-to-day execution of business plans and strategies. Topics include: the Nature of Services, the Service Consumer, Service Delivery Systems, Services Management, Services Marketing Communications, and Services Pricing Strategies. Prerequisite: MKT 101.

**Bailey/Three credits**

**MKT 316 PUBLIC RELATIONS**
This is a practitioner-level course which melds business goals and the writing process to deliver a set of skills which bridges the information gap between organizations and their publics. Topics include: Basics of Style, Media Relations, Press Releases, Brochures, Newsletters, Magazines, Annual Reports, Media Copy Writing, Speech Writing, and the use of Web Pages. Prerequisite: MKT 101.

**Daniels, Hill/Three credits**

**MKT 322 BUSINESS-TO-BUSINESS MARKETING**
The purpose of this course is to introduce you to business-to-business marketing by identifying the distinctive characteristics of the business market, exploring the way in which organizations make buying decisions, and isolating the requirements for marketing strategy success. The course also provides a perfect vehicle for profiling leading business marketing firms such as IBM, Cardinal Health, Cisco Systems, Dell Computer, and others that demonstrate best practices in marketing strategy. Because more than half of all business school graduates are employed by firms that compete in the business market this is a relevant and useful field of study. Prerequisites: MGT 100 and MKT 101.

**Bailey/Three credits**

**MKT 326 DIGITAL MARKETING STRATEGIES**
This course is designed to teach students how to integrate the Internet into marketing and business communication functions. The objective of this course is to increase students’ understanding of the complexity of marketing goods and services on the Internet. This will be accomplished through an analysis of the technology from a marketing/communication perspective. Students will study the concepts and business models of electronic commerce as these relate to the development and implementation of successful Internet strategies. Prerequisite: MKT 101.

**Daniels/Three credits**

**MKT 327 SOCIAL MEDIA MARKETING**
This course will cover one of the fastest growth areas within the marketing discipline—social media marketing. Over the last half dozen years, organizations have shifted more of their marketing expenditures from traditional to digital marketing campaigns. Within digital marketing, expenditures for campaigns that involve social media tactics have grown exponentially. Although specific social media platforms or channels such as Facebook, Instagram or Twitter may come and go, the underlying principles behind social media, of engaging present and potential customers with content that they want to share with others, are here to stay. Prerequisite: MKT 101.

**Daniels/Three credits**

**MKT 328 DIGITAL ANALYTICS FOR MARKETING**
This course is designed to teach students how to measure digital activity and implement best practices for using data to inform marketing strategy decisions. Students will work with web analytics, social media analytics, marketing analytics, and dashboards, helping students to make sense of business measurement challenges, extract marketing tactics, and take effective actions. Prerequisite: MKT 326.

**Daniels/Three credits**
MKT 329 MOBILE MARKETING
This course introduces students to mobile marketing and its role in the overall marketing strategy. Students will learn how to use various techniques such as text messaging, responsive web design, and QR codes as a way to create consumer interaction through mobile devices. In addition, students will develop an understanding of the laws and ethics surrounding mobile marketing. Prerequisite: MKT 326.
Daniels/Three credits

MKT 330 PROFESSIONAL SELLING
This course presents, analyzes and evaluates Sales as a profession. As such, the emphasis will be on a career in sales, building relationship, and a strong ethical foundation. In addition, it addresses direct selling skills as they are employed within the realm of the sales cycle. In today's dynamic environment, it is important to have a complete understanding of sales as a profession from the initial contact with a prospect through closing the sale. This is essential for a company to achieve its revenue goals. In addition, this course includes the topics or relationship selling, ethics, sales communications, and purchasing behaviors. The format of this course, is lecture, case studies and role plays. Prerequisite: MKT 101
Bailey/Three credits

MKT 344 SPORTS MARKETING
Students electing this course explore the various segments of the sports business in the United States and around the world. The course utilizes the basic elements of strategic marketing (consumer, product, price, place, and promotion) and relates them to the business of sports. Topics include the consumer as a sports participant and spectator, the fan cost index, sponsorships, endorsements, event marketing, sports advertisements, sports media, sporting goods, lifestyle marketing, and more. Prerequisite: MKT101.
O’Hara/Three credits

MKT 346 SPORT MEDIA AND COMMUNICATION
This course introduces students to the role of communications in sports as well as the growing usage of new media technology. Students will explore the various channels for communication within the sport industry and how sport organizations communicate with their target markets and other stakeholders. Areas of focus will include the use of public relations, television, radio, print media, as well as digital technologies. Special attention will be paid to how sport organizations leverage new technologies such as the internet, mobile technology, social networking, streaming video, and user-enhanced content. Prerequisite: MKT 344
O’Hara/Three credits

MKT 405 STRATEGIC MARKETING
Relying on real world cases, students will learn to apply marketing concepts. This course will develop the application of specific analytic techniques, the ability to distinguish opinion from fact, and the articulation of decisions that can be defended on economic and practical grounds. Cases will cover a wide range of marketing topics, including target market and segmentation, consumer behavior, product strategy and positioning, pricing, promotion, strategy formulation, and optimum use of the marketing mix. Prerequisites: MKT 101 and Junior/Senior standing.
Daniels, LeBlanc/Three credits

ORGANIZATIONAL COMMUNICATION (OCM)

OCM 200 COMMUNICATION THEORY
An introduction to the study of communication, required of all Organizational Communication majors. This course includes a survey of basic theories of the human communication process, and an examination of communication theory in five business related contexts: (1) group communication; (2) persuasion and cultural communication; (3) intra/interpersonal communication; (4) mass communication; and (5) organizational communication. This is a prerequisite course for OCM 333. (Fall)
Hill/Three credits

OCM 333 STRATEGIC MANAGERIAL COMMUNICATION
Strategic Managerial Communication investigates the role of managerial communication within the organization as a key component of strategy implementation. This course investigates the vital role of communication as a mode of strategy
implementation through an understanding of strategy-related management behavior and communication formats. The course examines corporate communication theory, structure and functions that are within the context of organizations’ communicating to internal and external constituencies. Topics include: identity, image, reputation, corporate responsibility, corporate advertising, media relations, internal communications, government relations, investor relations and crisis communication. It is an upper level seminar and capstone course for the major in Organizational Communication. Prerequisites: ENG 130, MGT 100, MKT 101, OCM 200. (Spring)

Hill/Three credits

OCM 398 PORTFOLIO MANAGEMENT

Professional communicators must possess sound knowledge of their current skills and abilities as well as an understanding of the expectations of professional employment. In order to remain competitive in today’s changing work environment, professional communicators collect and showcase their skills, abilities, knowledge, and experience in a portfolio. The portfolio development process will assist the student to recognize and document the transferable skills they have already acquired through formal education and informal learning experiences. Students will analyze their prior learning within the context of the communication profession. They will document prior learning (knowledge and skills) and identify skills that they may need or want to develop in the future. The portfolio they develop will include a resume and cover letter, along with a variety of business communication writing samples. The portfolio will help the student develop a learning plan and action plan to enhance his/her competitiveness in the workplace and within the communication profession. Prerequisite: MKT 101. (Spring)

Hill/Three credits

OCM 399 INTERNSHIP IN BUSINESS

This course is designed to provide student interns with a valuable experiential learning opportunity, and includes a field-based internship experience of a minimum of 120 hours for the semester in the private, non-profit, entrepreneurial or governmental sector. Students attend a weekly seminar to discuss organizational behavior and management concepts and to share observations about their internship experiences. Students assess their career competencies, organizational culture preferences, risk tolerances and supervision/feedback requirements to determine their optimal career paths. They also conduct informational interviews with professionals in their career field or industry of interest. All students complete an observation/reflection paper which documents and analyzes organizational theory and applies it to experiential consequences and behavior. Prerequisites: Juniors/Seniors, 2.8 GPA, permission of instructor.

Staff/Three credits
Department of Economics, Finance, and International Business

Professors: Colleen Fahy, Demetrius Kantarelis, Smriti Rao (chair) Thomas White; Associate Professor: Brian Volz; Assistant Professor: Weixiao (Olivia) Wu; Lecturers: Abir Bukhatwa, Michael McKay.

MISSION STATEMENT

The Department of Economics, Finance, and International Business offers programs which emphasize the development of critical intelligence and an appreciation for diverse, evidence-based perspectives in order to prepare students for a lifetime of engaged citizenship. Through exposure to the theoretical and empirical methods, students develop a greater understanding of the complex world in which they live, and are able to critically evaluate options available for improving that world. Upon graduation, our students are prepared for careers in a wide array of fields in the private sector (such as banking and other financial services, business administration, marketing, sales, journalism, consulting, or entrepreneurship) or the public sector (government or non-profit analyst/researcher, etc.). In addition, our graduates are prepared to succeed in graduate school in a variety of disciplines, including economics, finance, and business.

MAJOR IN ECONOMICS (11)

A major in economics provides students with tools that are helpful in understanding the complex economic forces at work in society. In part, this understanding comes from learning factual information about economic events and institutions. However, economic facts are best viewed through the lens of economic theory, while economic data should be evaluated using careful statistical analysis. The undergraduate major in economics emphasizes applications of economic theory and analysis to a wide variety of real-world events and arrangements in both the private and public sectors. An economics major is excellent preparation for direct entry into a career or for graduate work in economics, business, law, public administration, or international affairs. Students considering graduate school in economics are strongly encouraged to complete a minor or second major in mathematics as a strong background in mathematics is required for admittance to such programs. Please consult with the economics faculty for suggestions on which mathematics electives would be most appropriate. Within economics, there are two possible majors: Economics, and Economics with Business Concentration. Students in both majors are required to complete the seven courses that make up the economics core, plus four to eight additional courses.

ECONOMICS CORE (7)

ECO 110 Principles of Microeconomics
ECO 111 Principles of Macroeconomics
ECO 115 Statistics
ECO 215 Econometrics I
ECO 310 Microeconomic Theory
ECO 311 Macroeconomic Theory
ECO 499 Senior Research Seminar

ECONOMICS ELECTIVES (4) Any four additional economics courses

Note: Calculus I (MAT 117 or 131) is a prerequisite for ECO 310: Microeconomic Theory. Additional mathematics courses beyond calculus are especially important for students considering graduate school in economics or business. CSC 110 or CSC 113 or successful completion of a test-out option is a prerequisite for ECO 115 Statistics. A student who chooses to major in Economics while minoring in finance will need to take a total of 14 courses.
RECOMMENDED FOUR-YEAR PLAN FOR THE ECONOMICS MAJOR

The following plan is recommended for economic majors. The major is flexible to accommodate study abroad and students can successfully complete the major with the latest starting point being spring of sophomore year. While not a complete necessity, students should try to complete the first and sophomore year courses by the end of sophomore year.

ADVISING TIPS FOR THE MAJOR IN ECONOMICS

- Although 11 courses are required for the major, students can take up to 14 economics courses.
- CSC 110 is a prerequisite for ECO 115 which is a prerequisite for ECO 215. CSC 110 and ECO 115 are offered every semester while ECO 215 is only in the fall. Students should take CSC 110 as early as possible.
- Students considering graduate school in economics should take a number of mathematics courses. Please see the economics department chair for details.
- Students who plan to major in economics and minor in finance must take 3 courses in the minor that do not count toward major requirements. Please see the department chair to outline a course plan.
- While there is not a course devoted to internships, students may complete an internship for credit that may count as an economics elective
- Study abroad coursework may count as economic electives with advanced permission.

Honors students should consider taking electives as early as possible as this will help the thesis topic process.
MAJOR IN ECONOMICS WITH BUSINESS CONCENTRATION (14)

ECONOMICS CORE (7)
- ECO 110 Principles of Microeconomics
- ECO 111 Principles of Macroeconomics
- ECO 115 Statistics
- ECO 215 Econometrics I
- ECO 310 Microeconomic Theory
- ECO 311 Macroeconomic Theory
- ECO 499 Senior Research Seminar

BUSINESS CONCENTRATION (7)
- FIN 325 Financial Management I (Formerly ECO 325 Corporate Finance)
- ACC 125 Principles of Accounting I
- ACC 126 Principles of Accounting II
- MGT 100 Introduction to Management
- OR
- MKT 101 Principles of Marketing

3 of the following 5 courses:
- ECO 353 International Trade
- ECO 329 Monetary and Financial Institutions
- ECO 354 International Finance
- ECO 323 Labor Economics
- ECO 331 Industrial Organization

Note: Calculus (MAT 117 or 131) is a prerequisite for ECO 310: Microeconomic Theory. Additional mathematics courses beyond calculus are especially important for students considering graduate school in economics or business. CSC 110 or CSC 113 or successful completion of a test-out option is a prerequisite for ECO 115; Statistics. When choosing which of the three courses to select as upper level electives, students should check with the department chair to verify when the courses will be offered.

RECOMMENDED PLAN FOR THE ECONOMICS WITH A BUSINESS CONCENTRATION MAJOR
The following plan is recommended for economics with a business concentration majors. The major is flexible to accommodate study abroad and students can successfully complete the major with the latest starting point being spring of sophomore year. While not a complete necessity, students should try to complete the first and sophomore year courses by the end of sophomore year.

Third of the three economics electives for Business Concentration | ECO 499 Research Seminar

DOUBLE COUNTS IN THE CORE FOR ECONOMICS MAJORS

| Second scientific or quantitative course | Person and Society |
--- | ---
ECO 115 or ECO 110 | ECO 110

ADVISING TIPS FOR THE MAJOR IN ECONOMICS WITH A BUSINESS CONCENTRATION

- Although 10 economics courses are required for the major, students can take up to 14 economics courses.
- CSC110 is a prerequisite for ECO 115 which is a prerequisite for ECO 215. CSC 110 and ECO 115 are offered every semester while ECO 215 is only in the fall. Students should take CSC 110 as early as possible.
- Students considering graduate school in economics should take a number of mathematics courses. Please see the chair for details.
- While there is not a course devoted to internships, students may complete an internship for credit that may count as an economics elective.
- Study abroad coursework may count as economic electives with pre-approval by the chair of the department.

MAJOR IN FINANCE (15)

Note: This major is available for students in the classes of 2023 and 2024. Required courses will not be available for students in the class of 2022.

A major in finance aims to expose students to financial theory while developing practical skills desired by employers. Through a curriculum that provides students with the decision making tools used by professionals in the corporate and investment sectors, students develop an understanding of the structure of the financial system and its impact on society.

**FUNDAMENTALS (5)**
- ACC 125 Principles of Accounting I
- ACC 126 Principles of Accounting II
- ECO 110 Principles of Microeconomics
- ECO 111 Principles of Macroeconomics
- MGT 100 Introduction to Management

**QUANTITATIVE SKILLS (3)**
- MAT 117 or 131 Calculus
- ECO 115 Statistics
- FIN 330 Financial Modelling

**UPPER LEVEL (4)**
- FIN 325 Financial Management I (Formerly ECO 325 Corporate Finance)
FIN 326 Financial Management II  
FIN 357 Investment Theory  
FIN 358 Investment and Securities Valuation

**ELECTIVES (3)** At least one (1) must be at the 400 level
- ECO 215 Econometrics
- ECO 329 Monetary and Financial Institutions
- ECO 311 Macroeconomic Theory
- ECO 354 International Finance
- ACC 200 Intermediate Accounting I
- ACC 201 Intermediate Accounting II
- FIN 410 Cases in Financial Management
- FIN 420 Applied Security & Portfolio Analysis
- FIN 430 Financial Econometrics

**RECOMMENDED FOUR-YEAR PLAN FOR THE FINANCE MAJOR**
The following plan is recommended for finance majors. The sequence is slightly flexible. Students should do their best to take ECO 110, ECO 111, ACC 125, ACC 126, MAT 117 and ECO 115 by the middle of their second year. Many courses have prerequisites and will be offered only once a year so planning should be done carefully.

**First Year**

<table>
<thead>

<tr>
<td>FIN Elective (can be taken senior year instead)</td>
<td>FIN Elective (can be taken senior year instead)</td>
</tr>
</tbody>
</table>

**Senior Year**

- 400 level FIN (Fall or Spring)  
- FIN Electives if not taken junior year

**DOUBLE COUNTS IN THE CORE FOR FINANCE MAJORS**

| Second scientific or quantitative course | ECO 115 or ECO 110 |
| Person and Society                      | ECO 110            |
ADVISING TIPS FOR THE MAJOR IN FINANCE

- Many courses in the major have prerequisites. Careful planning is needed for the major, especially if a student would like to study abroad.
- The major can be tailored somewhat to a student’s interest. Those interested in corporate finance should consider taking accounting courses as finance electives and FIN 410 as the capstone; those interested in investments should consider FIN 420 as the capstone; and those interested in quantitative analysis should consider taking ECO 215 and FIN 430.
- Students can double major in Economics and Finance or double major in Accounting and Finance by taking 6 courses in the second major that don’t count in the first. See the relevant department chair for details.

MAJOR IN INTERNATIONAL BUSINESS (17 or 18, and language)

The International Business major is designed to provide students with a particularly wide variety of learning experiences designed to prepare them to function successfully in global environments. International Business students need to understand the history, language, and practices of other cultures. Along with a strong foundation of business courses, this major draws upon the strengths of related liberal arts disciplines such as foreign language, literature, history, geography, philosophy, political science, and theology. Upon graduation, students are prepared to enter a global organization in the functional areas of marketing, management and manufacturing or to seek government employment with agencies such as the Foreign Service, Department of Commerce, and the many other agencies that have international involvement, or to enter a corporate management training program, or to proceed to graduate studies.

REQUIRED COURSES (13)

- ACC 125 Principles of Accounting I
- ACC 126 Principles of Accounting II
- MGT 100 Introduction to Management
- MGT 102 Introduction to Organizational Behavior
- MKT 101 Principles of Marketing
- ECO 110 Microeconomics
- ECO 111 Macroeconomics
- ECO 115 Statistics (requires CSC 110 or Excel Placement Exam)
- MGT 230 Decision Analytics for Managers
- INB 306 International Marketing
- FIN 325 Financial Management I (Formerly, ECO 325 Corporate Finance)
- INB 307 International Management
- MGT 400 Business Strategy (Capstone)

ELECTIVES (1 or 2)

Choose 1 course or 2 if Foreign Language competency satisfied by AP credits
- INB 318 Asian Business Practices OR INB 320 European Business Practices
- INB 334 International Communication: Organizational Perspectives
- BUS 330 Global Social Entrepreneurship
- BUS 399 Internship in Business
- BUS 444 Honors Capstone in Business
- ECO 353 International Trade
  OR
- ECO 354 International Finance

FOREIGN LANGUAGE AT LEVEL 3 OR HIGHER (course count varies, depending on placement)

CULTURAL LITERACY DEPTH (3)

The focus of this area is to build knowledge of other cultures. Additional courses which clearly support this learning goal will be approved by the department chair. Some courses count as Global Awareness courses in the Core curriculum.
GEOGRAPHY
GEO 108 World Population Issues
GEO 222 Regional Geography of South America

</tr>
</tbody>
</table>

Note: If intending to apply to the Accelerated M.B.A. – Management Track, complete the application during the Spring of Junior year in order to take two M.B.A. classes during Senior year.

Senior Year – students may take the courses below during either Fall or Spring
MINOR IN ECONOMICS (7)

Required Courses (4)
ECO 110 Principles of Microeconomics
ECO 111 Principles of Macroeconomics
ECO 115 Statistics
ECO 310 Microeconomic Theory

OR
ECO 311 Macroeconomic Theory

Electives (3)
Chosen from among department offerings at the 200 level or above, and selected in consultation with a department member to achieve a particular objective.

Note: Students majoring in ACC, MGT, MKT or INB typically need to take 3 additional ECO courses beyond those required for the major to complete a minor in economics.

MINOR IN LAW AND ECONOMICS (6)

REQUIRED COURSES (5)
ECO 110 Principles of Microeconomics
ECO 111 Principles of Macroeconomics
ECO 230 Law and Economics
ECO 331 Industrial Organization
PHI 260 Business Ethics

ELECTIVE (1)
POL 316 Constitutional Law
POL 321 Public Policy
GEO 252 Land Use Geography and Planning Law

MINOR IN FINANCE (6-9)

Required Courses (3)
ECO 115 Statistics
MAT 117 or 131 Calculus
FIN 325 Financial Management I (Formerly ECO 325 Corporate Finance)

Electives (3) at least two (2) must have FIN designation:
ECO 329 Monetary and Financial Institutions
ECO 354 International Finance
FIN 326 Financial Management II
FIN 330 Financial Modelling
FIN 357 Investment Theory
FIN 358 Investment and Securities Valuation
FIN 410 Cases in Financial Management
FIN 420 Applied Security and Portfolio Analysis
FIN 430 Financial Econometrics
Notes on the Finance Minor

- ECO 110, ECO 111 and ACC 125 are prerequisites for FIN 325
- ACC 126 is also highly recommended for the finance minor
- Students should take careful note of prerequisites and course timing and plan accordingly
- Students combining a minor in finance with a major in economics must have at least three courses that are in the finance minor, but not counted as part of the economics major. Contact the department chair if you have questions concerning this requirement. Students majoring in ACC, MGT, MKT or INB typically need to take 3 or 4 additional ECO courses beyond those required for the major to complete a minor in finance.

MINOR IN INTERNATIONAL BUSINESS (7)

Required Courses (3)
- ACC 125  Principles of Accounting I
- MGT 100  Introduction to Management
- MKT 101  Principles of Marketing

Electives (4)
- BUS 330  Global Social Entrepreneurship
- INB 306  International Marketing
- INB 307  International Management
- INB 318  Asian Business Practices OR INB 320 European Business Practices
- INB 334  International Communication: Organizational Perspectives
- MGT 311  Diversity in the Workforce
- ECO 353  International Trade OR ECO 354 International Finance

One non-business course with an international dimension chosen in consultation with the Chair of the department may be substituted for one of the above electives.

COURSE DESCRIPTIONS

ECONOMICS (ECO)

ECO 110  PRINCIPLES OF MICROECONOMICS
An examination of the basic theory and performance of the household, business, and government in determining the nature of the output of the economy and its distribution among the members of the society. Policy issues considered may include public control of business, labor unions, agriculture, the environment, income distribution and poverty, and international trade. ECO 110 may be taken to satisfy the Core requirement for either a second scientific or quantitative option or a social science. Prerequisite: MAT 111. (Fall, Spring)
Staff/Three credits
ECO 111  PRINCIPLES OF MACROECONOMICS
An analysis of the basic theory of aggregate economic activity and the application of the theory to current policy problems. Topics include national income accounting, the determinants of the level of income and employment, money and banking, fiscal and monetary policies, and economic growth and stability. Prerequisite: ECO 110. (Fall, Spring)
Staff/Three credits

ECO 115  STATISTICS
The purpose of this course is to develop an understanding of how statistical inferences are made in the face of uncertainty. The underlying role of probability is stressed. A secondary purpose is the application of various test designs to formulate research questions. These designs include: t tests, analysis of variance, chi square analysis, and linear regression. Counts as a second math course in the core curriculum. MAT 114 must be taken prior to or at the same time as ECO 115. Prerequisite: CSC 113 or CSC 110 or successful completion of test-out. (Fall, Spring)
Fahy, Kantarelis, Volz, Wu/Three credits

ECO 210  ECONOMICS OF WOMEN, MEN, AND WORK
This course examines the work of women and men in the home and in the labor market. Economic decisions within the family are examined including the division of labor and the decision to engage in market work. Topics include: a historical perspective on women’s emergence in the workplace; comparative advantage within families; the effects of consumerism; and international comparisons. This is followed by an investigation into the underlying causes of the gender wage gap and the degree of poverty among women. The effects of government and business policies such as family leave, social security, affirmative action and social programs are discussed throughout. Prerequisites: ECO 110. (Alternate years)
Fahy/Three credits

ECO 212  ECONOMICS OF THE PUBLIC SECTOR
Micro-economic and macro-economic theory is applied in an analysis of the role of the public sector in the United States economy. Following a consideration of the institutional arrangements that determine the magnitude of local, state, and federal taxes and expenditures, micro-theory is applied to the analysis of the impact of public finance on private sector behavior. Prerequisites: ECO 110–111. (Alternate years)
Fahy, Volz/Three credits

ECO 215  ECONOMETRICS I
This course is about the construction of hypotheses and the specification of statistical methodology for testing those hypotheses. Students will learn estimation of parameters and inferential analysis, and how to apply these concepts to forecasting and policy. The course starts with the multiple linear regression model, after the properties of the ordinary least-squares estimator are studied in detail and a number of tests developed, it continues with specification, multicollinearity, autocorrelation, heteroskedasticity, and dummy variables. Prerequisites: ECO 115 or SOC300 or PSY 224; and MAT 117 or MAT 131; and CSC 110 or successful completion of a test-out option or CSC 113 or CSC 175. (Fall)
Fahy, Kantarelis, Volz/Three credits

ECO 216  SPORTS DATA ANALYSIS
The primary purpose of this course is to provide students with hands on experience analyzing large data sets from the sports industry. In addition to applying econometric analysis to sports data, students will also be introduced to measures of productivity and value currently being utilized within the sports industry. Students will use appropriate data analysis software to calculate traditional and emerging sports statistics and to analyze relationships between variables using regression analysis. Additionally, students will be introduced to data envelopment analysis as a measure of efficiency. Prerequisite: ECO 215. (Spring, alternate years) Volz/Three credits

ECO 230  LAW AND ECONOMICS
The objective of the course is to show how economic thinking may facilitate legal thinking in its attempt to “create” efficient legal rules. After an overview of micro-economics and legal institutions, the course turns to the economics of the principal areas of the common and criminal laws. More specifically, it deals with the existing economic theories of property, contracts, torts, crime, and their applications. Prerequisites: ECO 110–111. (Alternate Years)
Kantarelis/Three credits
ECO 235 ENVIRONMENTAL ECONOMICS
The course examines the relationship between the environment, markets, and business organizations. After an overview of the economics of the environment, it focuses on (among other topics) property rights; externalities; human population problems; the allocation of depletable, renewable, and other resources; cost-benefit analysis; regulation and taxation; and the trading of pollution rights. Prerequisite: ECO 110. (Alternate Years)
Kantarelis, White/Three credits

ECO 250 SPECIAL TOPICS IN ECONOMICS
Special topics in Economics are offered occasionally. These courses expand our current offerings and respond to changing student concerns, interests or more general worldwide topics of importance. These courses can be interdisciplinary in nature. They will be taught at the intermediate level. Some may require prerequisites or could be restrictive in some other manner.
Staff/Three credits

ECO 252 ECONOMIC DEVELOPMENT
Problems encountered by less developed countries. Theories of development are presented, followed by problems of capital accumulation; resource and population issues; strategies for agricultural and industrial development; government’s role; and relationships between developing and developed economies. Prerequisites: ECO 110. (Alternate Years)
Rao/Three credits

ECO 264 COMPARATIVE ECONOMIC SYSTEMS
This course is an in-depth, comparative study of the rising economic powers of Asia and/or Central and Eastern Europe. Countries selected for study may include, among others, China, India, Russia and Poland. It examines such areas as transfer of firm ownership from the state to private investors, removal of price controls, macroeconomic stabilization, and the international economic relations of these countries, particularly their relationship with and impact upon the United States economy. Prerequisites: ECO 110. (Alternate Years)
Rao/Three credits

ECO 310 MICROECONOMIC THEORY
The primary purpose of this course is to develop the ability to analyze the economic behavior of individuals, businesses, and government, in the light of economic principles. Topics include consumer theory, production and costs, various market structures and related models, and welfare considerations. Should be taken before senior year. Prerequisites: ECO 110–111, MAT 117 or 131. (Fall)
Fahy, Kantarelis, Rao/Three credits

ECO 311 MACROECONOMIC THEORY
The modern theory of aggregate economic behavior is considered through development of comparative static models that include the principal aggregate variables associated with determination of output, employment and prices. The problems of economic growth are introduced by using a limited number of the basic dynamic models. Should be taken before senior year. Prerequisites: ECO 110–111. (Spring)
White/Three credits

ECO 323 LABOR ECONOMICS
This course applies economic theory to labor market issues. It makes use of the analytical tools of micro- and macro-economics in an examination of productivity, pricing, and allocation of labor resources. Public policy issues are covered including discrimination, manpower development, income maintenance programs, collective bargaining, and unemployment. Prerequisites: ECO 110–111. (Alternate Years)
Volz/Three credits

ECO 325 CORPORATE FINANCE (see FIN 325 Financial Management I)

ECO 329 MONETARY AND FINANCIAL INSTITUTIONS
A study of the role of money and monetary institutions in the economy. A parallel development of the monetary theory and institutions that determine public monetary policy and its influence on domestic and international economic activity. Prerequisites: ECO 110–111. (Alternate Years)
ECO 331 INDUSTRIAL ORGANIZATION
The course is concerned with the organization of industries in a market environment. It focuses on the market structure, conduct, and performance of industries in the USA. In addition, attention is given to antitrust policy regarding price-fixing agreements, control of market structures, and restrictions on conduct. Prerequisites: ECO 110–111. (Alternate Years)
Fahy, Kantarelis, Volz/Three credits

ECO 340 THE ECONOMICS OF SPORTS
This course applies economic modeling to a number of issues surrounding professional and University sports in the United States. Market structure and game theory will be used to analyze the decision making process for the owners of professional sports teams. Public financing issues are addressed in the context of the funding of stadiums and arenas. A number of labor market topics will be examined including monopsony, labor unions and the economics of discrimination. Finally, collusion, game theory and human capital investment are examined in the context of University sports. Prerequisites: ECO 110 and 115. (May be taken with ECO 115) (Alternate Years)
Fahy, Volz/Three credits

ECO 353 INTERNATIONAL TRADE
An examination of the theory of international trade and policies followed by governments with respect to trade of goods and services among countries. Theory examines the gains from trade under classical and modern assumptions, and the impact of various measures used by governments to either restrict or promote trade. Policy analysis focuses on U.S. trade policies and the role of the World Trade Organization. Current topics include trade and the environment, NAFTA, U.S.-China trade, and others as appropriate. Prerequisites: ECO 110 and Junior/Senior standing. (Alternate Years) Kantarelis, Rao/Three credits

ECO 354 INTERNATIONAL FINANCE
This course covers open economy macroeconomics. Topics include: balance of payments accounting, exchange rate determination, monetary and fiscal policy, and macroeconomic modeling. After examining standard theories and models, the course will explore case studies from recent history in numerous countries. The case studies will focus on: debt and balance of payments crises, speculative currency attacks, European monetary union, International Monetary Fund policy, and the value of the U.S. dollar. Students will engage in research projects. Prerequisites: ECO 110–111 and Junior/Senior standing. (Alternate Years) Kantarelis, Rao/Three credits

ECO 357 INVESTMENT THEORY (See FIN 357 Investment Theory)

ECO 399 INDEPENDENT STUDY IN ECONOMICS
Individually supervised study with one or more professors on an advanced topic. Open to qualified juniors and seniors with the permission of the Chair. (Fall/Spring)
Staff/Three credits

ECO 499 RESEARCH SEMINAR
Required of all Economics majors in their final semester. Course theme is chosen by the instructor. Research projects will be planned and carried out by students under faculty guidance. Seminar meetings provide the opportunity for discussions of students’ research and what it means to be an economist in today’s world. Useful for seniors in other social sciences and business studies. (Spring)
Staff/Three credit

FINANCE (FIN)

FIN 325 FINANCIAL MANAGEMENT I (Formerly ECO 325 Corporate Finance)
Introduction to the principles and techniques utilized in the financial management of business. Topics to be covered include: interpretation of financial statements, time value of money, stock and bond valuation, ratio analysis, risk and return, capital budgeting, cost of capital, leverage, and capital structure. Prerequisites: ECO 110–111, ACC 125. (Fall, Spring)
Fahy, Volz, White/Three credits
FIN 326 FINANCIAL MANAGEMENT II
A continuation of FIN 325 with a focus on both long-term and short-term financial planning and management. Topics will include cost of capital, financial leverage, capital structure, dividend policy, working capital management, and international corporate finance. Prerequisite: FIN 325. (Fall)
Wu/Three credits.

FIN 330 FINANCIAL MODELLING
In this course students develop the ability to construct financial models in order to answer complex financial questions. Students will learn how to access financial data and how to use that data to complete analyses using a variety of tools. Microsoft Excel will be utilized to format data, perform numerical analysis, and generate graphical presentations of data. Financial topics that will be addressed include discounted cash-flow analysis, capital budgeting, the cost of capital, risk, and financial planning and forecasting. Prerequisites: FIN 325, ECO 115. (Spring; first offered in 2022)
Staff/Three credits

FIN 357 INVESTMENT THEORY (Formerly ECO 357 Investment Theory)
An examination of investment decision making using economic analysis. Topics include types of investments; investment objectives; investment return and risk; security analysis; portfolio theory; the efficient market hypothesis; fundamental analysis; technical analysis; the capital asset pricing model; and other topics to be chosen by the instructor. Prerequisites: ECO 110–111, ECO 115. MAT117 or 131 (Fall)
Kantarelis, White/Three credits

FIN 358 INVESTMENTS AND SECURITY VALUATION
This course examines the various techniques used by investment professionals to value debt and equity securities of public and private companies. Stock valuation methods that will be covered include the dividend discount model, the price-earnings ratio, and financial statement analysis. Bond valuation will focus on pricing, risk, and portfolio management. Measuring the value of derivative securities such as options and futures will also be discussed. Prerequisites: FIN 325, FIN 357. (Spring)
Wu/Three credits

FIN 410 CASES IN FINANCIAL MANAGEMENT
This course focuses on financial concepts, tools and techniques and their impact on the firm through an examination of case studies. Students utilize material from previous finance courses to assess options and offer recommendations for a variety of realistic case-based problems involving financial decision-making. Topics covered include ethical decision making in finance, financial analysis, forecasting, estimating cost of capital, capital budgeting and resource allocation, management of the firm’s equity through dividends & share repurchases, assessment of corporate capital structure, and working capital management. Emphasis is on identifying problems, developing solutions, and presenting cases in an effective and professional manner. Prerequisites: FIN 325, FIN 326. (Spring; first offered in 2023)
Wu/Three credits

FIN 420 APPLIED SECURITY AND PORTFOLIO ANALYSIS
The course builds on the knowledge gained from the core course FIN 358: Investment and Securities Valuation. It will help students develop a broad knowledge and understanding of issues relevant to portfolio management practice. Through the combination of theory and practical cases, students will learn Investment Policy Statement for individual and institution investors, process and strategies of portfolio optimization, portfolio performance evaluation, and portfolio rebalancing. Prerequisite: FIN 357, FIN 358. (Fall; first offered in 2022)
Wu/Three credits

FIN 430 FINANCIAL ECONOMETRICS
The course is about analyzing prices of financial assets traded in competitive markets through econometric methods; it utilizes concepts from microeconomics, finance, mathematical optimization, data analysis, probability models and statistical analysis. After an overview of multiple regression, dummy variables and panel data, the course focuses on methodologies in modeling and testing time series data (analysis of data sets that change over a time period): Cointegration, Autoregressive Integrated Moving Average (ARIMA) models, Generalized Autoregressive Conditional Heteroskedasticity (GARCH), Granger Causality, Event Study, and Monte Carlo analysis. The last portion of the course is spent on studying classic applications found in literature and on applied work undertaken by students on various topics of their choice. Familiarity with econometric software will be essential as
assignments will have to be carried out using standard packages such as Excel and STATA. Prerequisite: ECO 215. (Spring; first offered in 2023)
Kantarelis/ Three credits

INTERNATIONAL BUSINESS (INB)

INB 306 INTERNATIONAL MARKETING
This course explores marketing across national boundaries and within foreign countries, as well as the coordination of marketing in multiple international markets. It examines plans, strategies, and tactics that are developed to cope with the problems and opportunities presented in the international arena. Specific topics will include cultural differences, marketing intelligence, foreign market entry, product policy, distribution, advertising/promotion, pricing, planning, and controlling the international marketing organization. The student will be exposed to the unique challenges and the decision-making processes that are integral to marketing on a global basis. An appreciation will be developed for the ever-changing environmental factors and risks (economic, cultural, and political/legal) that impact the international marketing field. The course will include readings, lectures, discussions, cases, reports, and presentations. Prerequisites: MGT 100, MKT 101, and Junior/Senior standing or permission of instructor. (Fall)
Staff/Three credits

INB 307 INTERNATIONAL MANAGEMENT
This course provides an in-depth examination of the managerial issues confronting managers as they plan, organize, staff, and control global/transnational operations. The basic premise is that management in a global environment differs in many ways from management of a firm doing business within national boundaries. Specific topics include the cultural context of international business, planning, implementation, personnel selection, labor relations, communication, motivation, control, and ethics/social responsibility. The course includes readings, lectures, cases, experiential exercises, and discussions. Prerequisites: MGT 100, MKT 101, and Junior/Senior standing or permission of instructor. (Spring)
Staff/Three credits

INB 318 ASIAN BUSINESS PRACTICES
This course examines the evolving business practices of Asian countries vis-à-vis a scrutiny of influences, such as history, geography, demography, religion, value systems, politics/legal structures, and language(s). This will provide the student with both a multicultural sensitivity and a basic set of skills for functioning in specific Asian markets. The course is grounded, but certainly not limited to, the major countries of the region: China (PRC/ROC), Japan, North and South Korea, Brunei, Indonesia, Malaysia, Philippines, Singapore, Thailand, India, Pakistan, Sri Lanka, Vietnam, Myanmar, Cambodia, and Laos. Prerequisite: MGT 100, MKT 101, or permission of instructor.
Staff/Three credits

INB 320 EUROPEAN BUSINESS PRACTICES
The course examines the evolving business practices of European countries vis-à-vis a scrutiny of influences, such as history, geography, demography, religion, value systems, political/legal structures and languages(s). This will provide the student with both a multicultural sensitivity and a basic set of skills for functioning in specific European markets. This course is grounded, but certainly not limited to the major countries of the region: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain, Sweden, and the United Kingdom. Prerequisite: MGT 100, MKT 101, or permission of instructor.
Staff/Three credits

INB 334 INTERNATIONAL COMMUNICATION: ORGANIZATIONAL PERSPECTIVES
This course is an introduction to the major theories and concepts of intercultural communication as they apply to business organizations. It emphasizes a process approach to the study of written, oral and non-verbal communication between persons of different cultures as they communicate with each other, work together on teams, and conduct business negotiations. Prerequisite: MGT 100. (Spring)
Chetro Szivos/Three credits
Froelich School of Nursing

Associate Professor: Caitlin Stover (Dean); Professor of Practice: Brianna Eble, Danielle Hebert, Allison Mamishian, Stacey Waite

MISSION STATEMENT

The mission of the Froelich School of Nursing is to cultivate an intellectual community committed to preparing leaders in the delivery of safe, high-quality, and compassionate professional nursing practice. Graduates are prepared, in accordance with the principles of Catholic healthcare ethics, to care for, serve, and promote the health of society.

LEARNING OUTCOMES

The graduate from Froelich School of Nursing is prepared as a nurse generalist who functions within an inter-professional healthcare team to provide professional, compassionate, patient-centered care to individuals across the lifespan, families, and populations, in a variety of healthcare settings. Health promotion, including the use of patient teaching, is a refined skill of the graduate. Through reflection and the pursuit of a life of inquiry, the student nurse will transition into practice and continue evolving as a member of the nursing profession. He or she will

- Synthesize concepts and theories from the liberal arts and science education rooted in the Catholic intellectual tradition and Catholic health care ethics to guide professional nursing practice.
- Integrate concepts of safety and quality improvement in the practice of professional nursing within a healthcare system.
- Appraise evidence to support clinical decisions throughout the nursing process.
- Incorporate information systems and healthcare technologies throughout the nursing process.
- Examine the impact of socio-economic, cultural, spiritual, legal, ethical, and political factors influencing healthcare and professional nursing practice.
- Collaborate with patients, families, populations, and the interprofessional healthcare team by selecting appropriate communication strategies.
- Select evidence-based health promotion and health maintenance strategies to maximize health and minimize risk to patients, families, and populations.
- Examine a variety of health determinants when planning, implementing, and evaluating nursing care of patients, families, and populations.
- Demonstrate characteristics and behaviors consistent with the professional standards of moral, ethical, and legal practice in professional nursing.

APPLICATION TO THE PROGRAM

A completed application to the Froelich School of Nursing includes:

1. A completed Common Application, including the additional essay question specific to the School of Nursing.
2. An official high school transcript including senior grades, submitted directly from the high school or its equivalent. All applicants must graduate from an accredited secondary school with a minimum of 18 academic units, which must include:
   a. four years of English
   b. three years of mathematics
   c. two years of a foreign language
   d. two years of history
   e. three years of science, including one year of a lab science
   f. five additional academic units.
3. A letter of recommendation from a counselor or teacher.
4. Submission of SAT or ACT scores (test-optional for the Class of 2025).
5. Demonstration of a strong GPA in high school math and science courses.
6. A $50 non-refundable application fee paid through the Common Application at time of submission.
7. Compliance with the current Massachusetts Department of Public Health immunization requirements.
An internal change of major application is accepted by the School of Nursing before the first Friday in March. The Assumption University student who applies for a seat in the School of Nursing must meet specific course criteria in their first fall semester and should anticipate joining the nursing cohort in the second year of nursing study. Details are available on the School of Nursing website and at information sessions offered several times during the fall semester.

**Health, Immunization, and Clinical Credentialing Requirements**

In addition to the health and immunization requirements required of all Assumption University students, nursing students are required to provide additional documentation prior to beginning the clinical course sequence in the fall of their junior year.

1. MMR (measles, mumps, rubella) 2 doses; first dose must be given on or after the 1st birthday and the 2nd dose must be given ≥28 days after dose 1; laboratory evidence of immunity acceptable.*   
2. *Tdap 1 dose; and history of a DTaP primary series or age appropriate catch-up vaccination. Tdap given at ≥7 years may be counted, but a dose at age 11-12 is recommended if Tdap was given earlier as part of a catchup schedule. Td should be given if it has been ≥10 years since Tdap.   
3. *Varicella (chicken pox) 2 doses; first dose must be given on or after the 1st birthday and 2nd dose must be given ≥28 days after dose 1; laboratory evidence of immunity is acceptable.   
4. * Hepatitis B 3 doses; laboratory evidence of immunity acceptable. *   
5. Meningococcal Meningitis (required for any student living on campus) – 1 dose of MenACWY (formaly MCV4) given at age 16 or older. Doses received at younger ages do not count towards this requirement. Students may decline MenACWY vaccine after they have read and signed the MDPH Meningococcal Information and Waiver Form provided by their institution. Meningococcal B vaccine is not required and does not meet this requirement.   
6. Current physical exam (conducted within the last 12 months). Documentation MUST include a statement of “NO LIMITATIONS.”   
7. Initial negative 2-step tuberculin skin test with an annual TB skin test thereafter. For students who cannot undergo skin testing (history of positive reaction of previous BCG immunization) evidence of a negative chest x-ray within five years and annual assessment of signs and symptoms from a medical provider is required. If desired, a QuantiFERON Gold blood test is acceptable.   
8. Annual seasonal influenza vaccine.   
9. Background searches.   
10. Comprehensive 12-panel urine drug screen.   
11. Fingerprinting (if applicable to the assigned clinical agency).   
12. **American Heart Association BLS for Healthcare Provider Certification** (including pediatric patient and AED).   

*Designates immunizations required by Assumption University.

Clinical facilities may stipulate additional requirements for which documentation must be provided. If this information is not disclosed, the student will not be allowed to attend clinical and may be dismissed from the School of Nursing. Clinical agencies are not required to accept students who have an unsatisfactory background check. Students need to notify the Dean of Nursing of any criminal offenses, open cases, or pending convictions. Students who are unable to obtain clinical placement due to unsatisfactory background checks will be dismissed from the program. Students have an obligation to inform the Dean of Nursing if a legal issue arises during enrollment which is reportable on a background check.

**Standards of Conduct and Good Moral Character**

In addition to abiding by the Assumption University Student Code of Conduct, nursing students, as part of their learning process, will interact with patients and faculty. As a result, they have the obligation to behave in a way consistent with the standards of professional nursing practice. These ethical standards include the following professional standards:

- American Nurses Association Code of Ethics with Interpretive Guidelines
- **244 CMR 9.00 Board of Registration in Nursing: Standards of Conduct**
- Massachusetts General Law (MGL) Chapter 112 Sections 74, 74A, 76 Good Moral Character

To be eligible for Licensure by the Massachusetts Board of Registration in Nursing (BORN), students must be in compliance with the Massachusetts BORN Good Moral Character (GMC) licensure requirement found on the MA BORN website: [https://www.mass.gov/service-details/good-moral-character-requirements-for-nursing-licensure](https://www.mass.gov/service-details/good-moral-character-requirements-for-nursing-licensure)
To graduate with a Bachelor of Science in Nursing degree, a student must earn a minimum of 127 credits, 70 being Core curriculum, liberal arts and science courses and 57 credits being nursing-specific courses designated NUR. Students must meet all the requirements of Assumption University and attain a B- (2.7) or higher cumulative GPA in nursing courses.

MAJOR IN NURSING (20)

REQUIRED LIBERAL ARTS AND SCIENCES COURSES (10)

- BIO 105 Human Heredity
- BIO 110 Nutrition
- BIO 160 Concepts in Biology with Lab
- BIO 240 Anatomy with Lab
- BIO 250 Microbiology with Lab
- BIO 370 Physiology with Lab
- HSC 100 Systems Approach to Delivering Healthcare in America
- PHI 262 Biomedical Ethics
- HRS 121 Human Development and Disability Across the Lifespan
- ECO 115 or PSY 224 or SOC 300 Statistics

REQUIRED NURSING COURSES (20)

- NUR 100 Introduction to Professional Nursing Practice
- NUR 200 Fundamentals of Professional Nursing
- NUR 201 Fundamentals of Professional Nursing Clinical
- NUR 204 Pathopharmacological Processes
- NUR 210 Professional Nursing Concepts
- NUR 300 Professional Nursing
- NUR 301 Professional Nursing Clinical
- NUR 304 Pathopharmacological Therapeutics
- NUR 310 Evidence-Based Nursing Practice
- NUR 312 Professional Nursing: Promoting Mental Health
- NUR 313 Professional Nursing: Promoting Mental Health Clinical
- NUR 400 Complexities of Professional Nursing
- NUR 401 Complexities of Professional Nursing Clinical
- NUR 410 Clinical Judgment Seminar
- NUR 412 Professional Nursing: Promoting Family Health
- NUR 413 Professional Nursing: Promoting Family Health Clinical
- NUR 420 Professional Nursing: Promoting Global Health
- NUR 421 Professional Nursing: Promoting Global Health Clinical
- NUR 490 Transition to Professional Nursing Practice
- NUR 491 Transition to Professional Nursing Practice Clinical

A NOTE ON CLINICAL ROTATIONS

Clinical placements are made at the discretion of the faculty based upon the learning objectives, availability of experiences, and the student’s previous assignments and experiences. Specific assignments and responsibilities will be provided by the faculty. The assignments will not necessarily be based on the choice of the student. Clinical hours may be at any time during a 24-hour period that patient care or other experiences are available. The hours of the clinical experience are not limited to business hours Monday through Friday. Students must make appropriate arrangements to allow for completion of their clinical assignments regardless of the time of the assignment. The locations of the clinical assignment may require travel, and transportation is the responsibility of the student. Students must have a stethoscope that will effectively detect both high- and low-pitched sounds, a manual blood pressure cuff in a solid color (no prints allowed), a watch that keeps time in seconds using a sweep hand, bandage scissors, and a penlight. Other specific equipment needed in each clinical course will be outlined in the course syllabi.
PROGRESSION THROUGH THE NURSING CURRICULUM

The following program plan provides the student with an example of how the Core Curriculum Program, required liberal arts and science courses, and Nursing courses are completed in four years. Several of the courses in the program of study have strict prerequisite requirements which are not waived, and therefore may inhibit progression. The student will work closely with their faculty advisor to ensure an eight-semester program completion.

</table>

The following courses must be completed with a grade of B- or higher. The student may repeat the course once to achieve the minimum standard. Students are made aware that a withdrawal (W) in one of these courses is considered an attempt and only two attempts at a course are permitted.

- BIO 110
- BIO 160 w/lab
- BIO 210 w/lab
- BIO 240 w/lab
- BIO 250 w/lab
- BIO 370 w/lab
- HSC 100
- HRS 121
- PHI 262
All Nursing courses must be completed with a minimum grade of B-. Withdrawal (W) from a NUR course is considered an attempt and the student may only attempt a Nursing course twice. The student may repeat the course based on seat availability, which is determined by the Dean of Nursing. The student is made aware that NUR courses are taught once a year, therefore, an unsuccessful attempt means that the student will have to wait one full year for the course to be offered again.

DISMISSAL FROM THE SCHOOL OF NURSING

A nursing student who accumulates eight (8) or more credits of unsuccessful attempts in all courses (either course failure [F] or not meeting a minimum grade of B-) over the course of the program plan will be dismissed from the School of Nursing and will be directed to select a different major at Assumption.

A nursing student who does not achieve B- or higher in two different NUR designated courses will be dismissed from the School of Nursing and will be directed to select a different major from among those offered by Assumption.

A student found in violation of the (a) Assumption University School of Nursing Student Professional and Civil Code of Conduct, (b) Massachusetts State Board in Nursing Good Moral Character (GMC), or (c) American Nurses Association Nursing Code of Ethics, and/or (d) Massachusetts State Board in Nursing Standards of Conduct, may require remediation that impedes progression and/or leads to dismissal from the School of Nursing.

SCHOOL OF NURSING POLICIES

The School of Nursing maintains a set of school-based policies that the student will read and attest understanding. The most current version of the policy is provided to the student in an electronic format and any revision is communicated to the student via email with a timeline for implementation.

SCHOOL OF NURSING AFFILIATIONS

The Assumption University School of Nursing has Initial Approval Status from the Massachusetts Board of Registration in Nursing (MABORN).

The Assumption University School of Nursing is accredited by the New England Commission of Higher Education (NECHE).

The Assumption University School of Nursing is a member of the American Association of Colleges of Nursing (AACN), the National League for Nursing (NLN), the Massachusetts/Rhode Island League of Nursing (MARLN), the Massachusetts Association of Colleges of Nursing (MACN), and the Iota Phi-at-Large Chapter of Sigma Theta Tau International Honor Society of Nursing.

COURSE DESCRIPTIONS

NURSING (NUR)

NUR 100 INTRODUCTION TO PROFESSIONAL NURSING PRACTICE
Introduction to the evolution of the roles of the professional nurse as a member of the inter-professional healthcare team within a healthcare system. The student will refine skills in basic math principles as a foundation for medication administration while beginning to build communication skills that are used throughout the profession. Learners will examine their values and beliefs in relation to basic concepts and behaviors that define the nursing profession. Critical thinking skills, moral and legal matters, and standards of practice are explored as the basis for clinical decision making throughout the nursing process. Pre-requisites: MAT 114 or higher. (Spring)
Staff/Three credits

NUR 200 FUNDAMENTALS OF PROFESSIONAL NURSING
Foundational nursing knowledge, skills, and attitudes are cultivated in the student in preparation for delivering safe, patient-centered care. The focus on health and physical assessment techniques and evidence-based nursing intervention provides the framework for student nurses to begin providing quality and compassionate nursing care. Pre-requisites: BIO 370 Physiology, HRS 121 Human Development and Disability Across the Lifespan, NUR100 Introduction to Professional Nursing Practice. Co-requisite: NUR 201 Fundamentals of Professional Nursing Clinical. (Fall)
Staff/Four credits
NUR 201 FUNDAMENTALS OF PROFESSIONAL NURSING CLINICAL
Student nurses will apply theoretical nursing knowledge when using the nursing process to care for a patient. Assessment and fundamental nursing interventions comprise the student nurse-patient relationship. The student will begin to develop the clinical decision-making skills needed to deliver safe, patient-centered care. Clinical experiences will be conducted in a variety of settings including, but not limited to, the clinical skills laboratory, clinical and virtual simulation laboratory, and healthcare agencies. Pre-requisites: BIO 370 Physiology, HRS 121 Human Development and Disability Across the Lifespan, NUR100 Introduction to Professional Nursing Practice. Co-requisite: NUR 200 Fundamentals of Professional Nursing. (Fall)
Staff/Three credits

NUR 204 PATHOPHARMACOLOGICAL PROCESSES
The pathology of disease, severity of body symptoms, and the impact on patient function across the lifespan will be explored. Concepts of pharmacology and principles of pharmacodynamics and pharmacokinetics will be integrated across the course. The learner will build a foundation of knowledge used to assess the patient's health condition and provide health promotion strategies that include patient teaching. Pre-requisites: BIO 370 Physiology, NUR 100 Introduction to Professional Nursing Practice. (Fall)
Staff/Three credits

NUR 210 PROFESSIONAL NURSING CONCEPTS
This course will address professional role development, integrating concepts of multidimensional care and skills of inquiry and analysis to inform clinical decision-making, professional practice, and lifelong learning. Concepts and theories basic to the art and science of nursing will be examined to support the broad context in which professional nursing care is provided. Pre-requisites: NUR 100 Introduction to Professional Nursing Practice, HRS 121 Human Development and Disability Across the Lifespan, and HSC 100 Systems Approach to Delivering Healthcare in America. (Fall)
Staff/Three credits

NUR 300 PROFESSIONAL NURSING
This course will introduce the conceptual and theoretical frameworks used to assess the determinants of health and provide safe and compassionate care for patients with acute medical and surgical conditions and chronic health conditions throughout the lifespan. Course content is delivered within the context of maximizing patient health and minimizing risk. Prerequisites: NUR 200 Fundamentals of Professional Nursing, NUR 201 Fundamentals of Professional Nursing Clinical, NUR 204 Pathopharmacological Processes, NUR 210 Professional Nursing Concepts. Co-Requisite: NUR 301 Professional Nursing Clinical. (Spring)
Staff/Three credits

NUR 301 PROFESSIONAL NURSING CLINICAL
Learners will conduct the nursing process when caring for patients with acute and chronic health conditions. The student nurse will assess, plan, deliver, and evaluate safe and quality patient-centered care using therapeutic communication and evidence-based nursing interventions. Collaboration with social support systems and the inter-professional team will be expected. Principles of patient teaching will be applied to various clinical situations. Clinical experiences support the development of clinical judgment. Clinical experiences may be conducted in a variety of clinical settings including, but not limited to, the clinical skills laboratory, clinical simulation laboratory, virtual simulation, and healthcare agencies. Pre-requisites: NUR200 Fundamentals of Professional Nursing, NUR 201 Fundamentals of Professional Nursing Clinical, NUR 204 Pathopharmacological Processes. Co-requisite: NUR 300 Professional Nursing. (Spring)
Staff/Three credits

NUR 304 PATHOPHARMACOLOGICAL THERAPEUTICS
Building on the knowledge of disease processes within the human system, comorbid symptomatology and the additive effects of polypharmacy will be explored. Conducting the nursing process within a complex, multisystem presentation of symptoms will frame course content. Pre-requisites: NUR 204 Pathopharmacological Processes. (Spring)
Staff/Three credits

NUR 310 EVIDENCE-BASED NURSING PRACTICE
This course will expose learners to be consumers and users of health-related evidence and best nursing practice guidelines. The connection between theory and nursing practice and the components of the research process support evidence-based nursing
interventions and clinical judgement. Professional writing is emphasized. Pre-requisite: Statistics, either ECO 115 or PSY 224 or SOC 300. (Spring)
Staff/Two credits

NUR 312 PROFESSIONAL NURSING: PROMOTING MENTAL HEALTH
Conceptual and theoretical frameworks guide the nursing process in providing compassionate care for patients, families, and populations experiencing alteration in mental health and substance use disorders. Nursing care is explored within the context of current healthcare policy and evidence, including legal regulations and best practice guidelines. The emphasis on effective and therapeutic communication strategies throughout the nursing process is emphasized to minimize risk maximize mental health. Prerequisites: NUR 200 Fundamentals of Professional Nursing, NUR 201 Fundamentals of Professional Nursing Clinical, NUR 204 Pathopharmacological Processes, NUR 210 Professional Nursing Concepts. Co-requisite NUR 313 Professional Nursing: Promoting Mental Health Clinical. (Spring)
Staff/Three credits

NUR 313 PROFESSIONAL NURSING: PROMOTING MENTAL HEALTH CLINICAL
Conceptual and theoretical frameworks guide the safe and compassionate nursing care for patients, families, and populations experiencing alteration in mental health and substance use disorders. Learners will begin to apply nursing knowledge in various clinical situations. Appropriate communication strategies, including patient teaching, and development of therapeutic relationships with patients as well as their social support network and the inter-professional team in a variety of healthcare systems are emphasized. Clinical experiences support the evolution of clinical judgement. Clinical experiences may be conducted in a variety of clinical settings including, but not limited to, the clinical skills laboratory, clinical simulation laboratory, virtual simulation, and healthcare agencies. Prerequisites: NUR 200 Fundamentals of Professional Nursing, NUR 201 Fundamentals of Professional Nursing Clinical, NUR 204 Pathopharmacological Processes, NUR 210 Professional Nursing Concepts. Co-requisite NUR 312 Professional Nursing: Promoting Mental Health. (Spring)
Staff/One credit

NUR 400 COMPLEXITIES OF PROFESSIONAL NURSING
Building on an established nursing knowledge base, the safe, quality, and compassionate care for patients with complex health conditions within a complex healthcare system will be presented. The learner will select and adapt nursing interventions and patient teaching strategies based on the complexity of the patient’s health condition. Course content will be delivered within the context of current healthcare policy and the availability of evidence and resources with the goal of maximizing health and minimizing risk. Pre-requisites: NUR 300 Professional Nursing, NUR 301 Professional Nursing Clinical, and NUR 304 Pathopharmacological Therapeutics. Co-requisite: NUR 401 Complexities of Professional Nursing Clinical. (Fall)
Staff/Three credits

NUR 401 COMPLEXITIES OF PROFESSIONAL NURSING CLINICAL
Learners will conduct the nursing process when caring for patients with complex health conditions and comorbidities in complex healthcare systems. The student nurse will assess, plan, deliver, and evaluate safe and quality patient-centered care using therapeutic communication and evidence-based nursing interventions. Collaboration with social support systems and the interprofessional team will be expected. Clinical experiences support further evolution of clinical judgement. Clinical experiences may be conducted in a variety of clinical settings including, but not limited to, the clinical skills laboratory, clinical simulation laboratory, virtual simulation, and healthcare agencies. Pre-requisites: NUR 300 Professional Nursing, NUR 301 Professional Nursing Clinical and NUR 304 Pathopharmacological Therapeutics. Co-requisite: NUR 400 Complexities of Professional Nursing. (Fall)
Staff/Two credits

NUR 410 CLINICAL JUDGEMENT SEMINAR
This seminar will engage the learner in the multi-layered process of executing safe clinical judgement. Patient problems require the learner to recognize and analyze cues, prioritize hypotheses, and generate and evaluate evidence-based solutions for safe patient-centered care. Pre-Requisites: NUR 400 Complexities of Professional Nursing and NUR 401 Complexities of Professional Nursing Clinical. (Fall)
Staff/One credit
NUR 412 PROFESSIONAL NURSING: PROMOTING GLOBAL HEALTH
Conceptual and theoretical frameworks will prepare students to promote health and provide care for individuals, families, and aggregates in the global community. The evolution of global healthcare will be outlined. Multiple determinants of population health will be explored and incorporated in the safe, ethical, and compassionate care of healthy and vulnerable populations in the community setting. Course content will be delivered within the context of current socio-political environment, social justice principles, and availability of evidence with the goal of maximizing health and minimizing risk to the population. Pre-requisites: NUR 300 Professional Nursing, NUR 301 Professional Nursing Clinical, NUR 312 Professional Nursing: Promoting Mental Health, and NUR 313 Promoting Mental Health Clinical. Co-requisite: NUR 413 Professional Nursing: Promoting Global Health Clinical. (Fall)
Staff/Three credits

NUR 413 PROFESSIONAL NURSING: PROMOTING GLOBAL HEALTH CLINICAL
The student nurse will demonstrate clinical judgement in the role of global health nurse by prioritizing care for individuals, families, and/or aggregates in the community. Under the direct supervision of a community partner and the indirect supervision of the clinical faculty, the student will identify a priority health need in the community; plan, develop, implement, and evaluate an evidence-based health promotion project, noting the community’s strength(s) and resources. Clinical experiences may be conducted in a variety of clinical settings including, but not limited to, the clinical skills laboratory, clinical simulation laboratory, virtual simulation, and healthcare agencies. Pre-requisites: NUR 300, Professional Nursing NUR 301 Professional Nursing Clinical, NUR 312 Professional Nursing: Promoting Mental Health, NUR 313 Professional Nursing: Promoting Mental Health Clinical. Co-requisite: NUR 412 Professional Nursing: Promoting Global Health. (Fall)
Staff/Two credits

NUR 420 PROFESSIONAL NURSING: PROMOTING FAMILY HEALTH
Conceptual and theoretical frameworks are used to assess the determinants of family health and guide the safe and compassionate care for the family unit. Course content will be delivered within the context of current healthcare policy, best practice guidelines, and growth and development principles. Maximizing family health and minimizing risk is achieved through evidence-based nursing interventions implemented across the family unit and throughout the continuum of care. Pre-requisite: NUR 400 Complexities of Professional Nursing, NUR 401 Complexities of Professional Nursing Clinical, NUR 412 Professional Nursing: Promoting Global Health, and NUR 413 Professional Nursing: Promoting Global Health Clinical. Co-requisite: NUR 421. (Spring)
Staff/Four credits

NUR 421 PROFESSIONAL NURSING: PROMOTING FAMILY HEALTH CLINICAL
The learner will conduct the nursing process when caring for the family unit, with special consideration of age and principles of developmental stage. The student nurse will assess, plan, deliver, and evaluate safe and quality patient-centered care using therapeutic communication and evidence-based nursing interventions. Collaboration with social support systems and the inter-professional team will be expected. Clinical experiences provide the student nurse an opportunity to execute clinical judgement. Clinical experiences may be conducted in a variety of clinical settings including, but not limited to, the clinical skills laboratory, clinical simulation laboratory, virtual simulation, and healthcare agencies. Pre-requisites: NUR 400 Complexities of Professional Nursing, NUR 401 Complexities of Professional Nursing Clinical, NUR 412 Professional Nursing: Promoting Global Health, and NUR 413 Professional Nursing: Promoting Global Health Clinical. Co-requisite: NUR 420 Professional Nursing: Promoting Family Health. (Spring)
Staff/Four credits

NUR 490 TRANSITION TO PROFESSIONAL NURSING PRACTICE
Socialization of the student to contemporary issues in professional nursing practice will be emphasized. The roles of the nurse as a leader and manager in the structure of the healthcare system will be explored. System-based practice and specific work unit environments will be examined to ensure quality and safety in the delivery of patient-centered care. Specific concepts of leadership, change, conflict, workplace violence, performance evaluation, delegation, self-care, and life of inquiry will be examined. The student will be prepared for role transition from student nurse to registered nurse. Prerequisite NUR 400 Complexities of Professional Nursing, NUR 401 Complexities of Professional Nursing Clinical and NUR 412 Professional Nursing: Promoting Global Health, NUR 413 Professional Nursing: Promoting Global Health Clinical. Co-requisite: NUR 491 Transition to Professional Nursing Practice Clinical. (Spring)
Staff/Three credits

285
NUR 491 TRANSITION TO PROFESSIONAL NURSING PRACTICE CLINICAL

The synthesis of liberal arts, science, and nursing knowledge will guide clinical judgement and professional practice. The student will begin to perform nurse roles such as delegator, leader, and manager within the work unit while performing the nursing process to promote safe, compassionate, patient-centered care. Clinical experiences may be conducted in a variety of clinical settings including, but not limited to, the clinical skills laboratory, clinical simulation laboratory, virtual simulation, and healthcare agencies. Prerequisite NUR 400 Complexities of Professional Nursing, NUR 401 Complexities of Professional Nursing Clinical, NUR 412 Professional Nursing: Promoting Global Health, and NUR 413 Professional Nursing: Promoting Global Health Clinical. Co-requisite: NUR 490 Transition to Professional Nursing Practice. (Spring)

Staff/Three credits
School of Health Professions
Department of Human Services and Rehabilitation Studies

Associate Professors: Cinzia Pica-Smith; Susan M. Scully-Hill (Director, School Counseling Program); Assistant Professors: Nicholas J. Cioe (Director, Rehabilitation Counseling Program), Travis Gagen, Gary Senecal (Advisor, Pre-Occupational Therapy and Pre-Physical Therapy Concentrations); Professors of Practice: Lea Christo (Director, Health Advocacy Program), Heath Hightower, Lorette McWilliams (School Counseling Program), Alison Myette (Coordinator, Communication Sciences and Disorders Concentration), Ryan Paskins, Christian Scannell (Coordinator, Working with Children and Adolescents in Community Settings Concentration); Lecturers: Caroline Flowers Tomekowou, Shane Fuller, Katie Moss, Jack Mourad, Tammy Murray, William O’Neill, Tariq Sheikh, Ashley Thompson; Clinical Coordinator: Susan Sabelli. Chair: Carl Robert Keyes.

MISSION STATEMENT
The Human Services and Rehabilitation Studies Department is based upon the philosophy that all humans have worth and potential. The undergraduate programs offered in the Human Services and Rehabilitation Studies Department are committed to preparing students to maximize the participation, inclusion, and functioning of all individuals in the community. The Human Services and Rehabilitation Studies curriculum incorporates a humanistic, strengths-based, social justice perspective to working with all individuals including individuals representing diversity. It is within this context that the liberal arts are integrated with the study of health, human disability, and rehabilitation services.

The Human Services and Rehabilitation Studies Department offers two undergraduate major programs of study: 1) Health Sciences, and 2) Human Services and Rehabilitation Studies. Additionally, minors in 1) Applied Behavioral Analysis, and 2) Human Services and Rehabilitation Studies are offered along with several concentrations, including 1) Communication Sciences and Disorders, 2) Patient Advocacy, 3) Pre-Occupational Therapy, 4) Pre-Physical Therapy, and 5) Working with Children and Adolescents in Community Settings. Finally, we offer a Six-in-Five Graduate Program in Rehabilitation Counseling that begins in the final year of undergraduate studies.

MAJOR IN HEALTH SCIENCES (14)
A major in Health Sciences prepares students for a broad range of career opportunities in the growing fields of health care with applications to administration, clinical practice, policy development, and research. The Health Sciences major at Assumption University is an interdisciplinary program with coursework in disease and disability, health care delivery and care models, and the natural sciences, as well as the economics, ethics, and policies that drive our global health care systems. Students are encouraged to customize their education by adding a concentration to their major, in close consultation with their advisor, which may help direct them toward the graduate program of their choice. Typical concentrations for the Health Sciences major include Communication Sciences and Disorders, Patient Advocacy, Pre-Clinical Health Professions, Pre-Occupational Therapy, and Pre-Physical Therapy. Graduate school is not necessary for employment after earning a bachelor’s degree in Health Sciences. Entry-level positions in health care administration, health insurance, medical billing, patient advocacy and patient experience, and the pharmaceutical and medical device industries are all possible outcomes for undergraduates who don’t wish to pursue graduate studies.

A significant component of the Health Sciences curriculum is a 6-credit internship that enables students to explore their professional interests and develop essential skill sets by working in a variety of health care settings. This experiential learning component of the major is critical to connect the concepts learned in the classroom to the practice of health care in the community. This internship should typically be completed in a student’s junior or senior year. The specific setting will be determined in close consultation with a clinical coordinator within the Human Services and Rehabilitation Studies Department.

The particular sequence of courses is highly dependent upon other programs of study (such as concentrations or minors) the student may wish to pursue. Some courses have prerequisites; therefore, it is highly recommended that the student work closely with an advisor in selecting electives and the sequence of courses. Communication Sciences and Disorders concentrators can substitute HRS 335 Anatomy and Physiology of Speech and Hearing Mechanisms (Fall) for one Biology elective in the Health Sciences major.

**MAJOR IN HUMAN SERVICES AND REHABILITATION STUDIES (13)**

A significant component of the HSRS curriculum is its culmination in a semester-long internship that enables students to develop and refine the attitudes, knowledge, and skills necessary for working as human service professionals in a variety of service settings. A specific emphasis in the HSRS curriculum focuses on developing competencies for working with children and adults with disabilities in human service and rehabilitation settings. After completion of the undergraduate program in Human Services and Rehabilitation Studies, students are prepared to work in a wide range of human service professions serving children and adults with disabilities and other challenging life circumstances.

The major in Human Services and Rehabilitation Studies is committed to preparing students to achieve the following:

- Thorough understanding of the social, psychological, economic, physical, medical, cultural, and other environmental factors faced by individuals who are to be helped through their involvement in the human and rehabilitation services.
- Thorough understanding of the history, philosophy, and legislation that comprises the underpinnings of the human and rehabilitation service professions.
- Understanding of the history, treatment, and education of people with disabilities and special needs.
- Thorough understanding of human development across the lifespan.
- Knowledge in developmental, physical, cognitive, sensory, and psychiatric disabilities.
- Thorough understanding of the roles and functions of human and rehabilitation service practitioners in a wide variety of professional settings.
- Skills in effective verbal communication through intense study and practice of interviewing and basic counseling skill training.
- Skills in effective written communication through intense study and practice of research report writing, client report writing, and the standards of case documentation.
- Skills in utilizing information and assessment in an effort to assist people in solving problems and reaching life goals.
- Skills in locating and utilizing community resources in an effort to assist people to solve problems and reach life goals.
- Knowledge of interventions and strategies employed to assist children and adults in a variety of human service and rehabilitation settings.
- Thorough understanding of and developed skills in the case management process.
• Thorough understanding of the ethical principles and standards that affect the delivery of human and rehabilitation services.
• Thorough understanding of the importance of career development and employment and the subsequent development of these skills to assist people in reaching vocational goals.
• Successful demonstration of the integration of theory, strategies and interventions learned in the classroom into professional practice by completing a semester long supervised internship in a human service setting.

The major in Human Services and Rehabilitation Studies provides a strong undergraduate foundation for graduate professional education in a variety of health and human service-related fields, including adjustment counseling, counseling psychology, nursing, occupational therapy, physical therapy, rehabilitation counseling, school counseling, school psychology, social work, special education, and speech-language pathology.

CREDENTIALING
Students graduating with a major in Human Services and Rehabilitation Studies and who have completed 350 hours of related work experience post-graduation are eligible to sit for the examination that leads to achievement of the Human Services-Board Certified Practitioner (HS-BCP) credential. With increased competition in the growing field of human services, practitioners are finding that board certification in human services demonstrates attainment of high standards and a commitment to maintaining their knowledge and skills to remain effective in the helping professions. The independent HS-BCP credential allows human services practitioners to stand out as a part of a distinguished group known for their commitment to the field. More information on the HS-BCP can be found at http://www.cce-global.org/Credentialing/HSBCP.

Students majoring in HSRS and interested in working in the field of alcohol and substance abuse treatment may take HRS 431: Treatment Strategies and Interventions for Substance Use Disorders and complete an internship in a substance use treatment agency. If students wish to pursue a credential as a Certified Alcohol/Drug Counselor (CADC) in Massachusetts they may find more information regarding the work experience and exam requirements at https://mbsacc.com. Students interested in working beyond Massachusetts should examine requirements in other states. The International Certification and Reciprocity Consortium provides information and an examination that has reciprocity in multiple states. See https://internationalcredentialing.org. All students should work with an academic advisor to plan an appropriate program of study.

Note: Please see the department’s Policy on Major/Minor/Concentration Internship Requirements.

Students are also required to complete one course in each of the three following areas:
### Psychological Perspective (Choose One):
- PSY 210  Social Psychology (Fall/Spring)
- PSY 216  Abnormal Psychology (Fall/Spring)
- PSY 240  Psychology of Personality (Fall)
- PSY 253  Psychology of Learning (Fall/Spring)
- PSY 281  Psychology of Adolescence and Maturity (Fall/Spring)
- PSY 290  Psychology of Development: Infancy and Childhood (Fall/Spring)

### Cultural Perspective (Choose One):
- ANT 131  Cultural Anthropology (Fall/Spring)
- ANT/HIS 254 North American Indian (Consult department chair)
- ANT/HIS 255 From Contact to Casinos: Interactions with Indians in North America (Consult department chair)
- HIS 269  African American Dream (Fall of even-numbered years)
- PSY 217  Psychology of Women (Spring)
- SOC 206  The Sociology of Urban Life (Consult department chair)
- SOC 216  Racial and Ethnic Relations (Spring)
- SOC 224  Gender Issues in Society (Consult department chair)
- WMS 285  Women’s Studies I: Images of Women in American Popular Culture (Fall)
  (Note: This course may also be taken as CLT/ENG/HIS/PSY 285)
- WMS 385  Women of the World (Spring)
  (Note: This course may also be taken as CLT/ENG/HIS/PSY 385)

### Societal, Family Perspective (Choose One):
- EDU 101  Teachers and Teaching in American Schools (Fall/Spring)
- HRS 420  Family Aspects of Disability (Spring)
- PSY 408  Family Psychology (Fall of odd-numbered years)
- SOC 122  Social Problems (Fall/Spring)

### Recommended Optional Electives:
- ASL 101  Introduction to Sign Language (Fall/Spring)
- ASL 102  Sign Language II (Fall/Spring)
- HRS 125  Professional Orientation to Physical and Occupational Therapy (Spring)
- HRS 225  Introduction to Human Communication and its Disorders (Spring)
- HRS 241  Prevention and Intervention: Models and Approaches with Youth (Fall)
- HRS 321  Social Skill Development for Youth (Spring)
- HRS 325  Clinically Based Phonetics of American English (Spring)
- HRS 331  Basic Concepts and Principles in Applied Behavior Analysis (Spring)
- HRS 335  Anatomy and Physiology of Speech and Hearing Mechanisms (Fall)
- HRS 420  Family Aspects of Disability (Spring)
- HRS 421  Loss and Bereavement Across the Lifespan (Consult department chair)
- HRS 431  Treatment Strategies and Interventions for Substance Use Disorders (Consult department chair)
- HRS 485  Special Topics in Human Services and Rehabilitation Studies
- HRS 499  Directed Study in Human Services and Rehabilitation Studies
- HSC 100  Systems Approach to Delivering Health Care in America (Fall/Spring)
- HSC 150  Introduction to Public Health (Fall/Spring)
- HSC 310  Evidence-Based Health Care (Spring)
- HSC 360  Legal and Ethical Aspects of Health Care (Fall)
- HSC 370  Principles of Health Education and Promotion (Spring)
- PSY 224  Statistics (Fall/Spring)
- PSY 225  Research Methods (Fall/Spring)
- SOC 206  The Sociology of Urban Life (Consult department chair)
- SOC 232  Social Inequality in Society (Fall)
- SOC 234  Social Policy (Spring)
- SOC 300  Statistics (Fall)
MINOR IN APPLIED BEHAVIOR ANALYSIS (8)

Applied behavior analysis (ABA) is the science of learning and behavior used in order to solve socially significant problems (to influence changes in behavior that are meaningful to individuals and those around them). ABA has been applied in a variety of settings, including developmental and intellectual disabilities, autism spectrum disorder, regular and special education, clinical psychology, medicine, counseling, job effectiveness, business, animal training, sports training, environmental protection, exercise and health, criminology, and other areas. The Minor in ABA is a multi-disciplinary program that complements coursework in the Education, Human Services and Rehabilitation Studies, and Psychology majors. Given the prevalence of developmental and intellectual disabilities in society, the minor may also be of interest to students in other majors, such as Business Studies, Biology, and Criminology. Students who complete undergraduate courses in ABA will learn how to effectively apply behavior-analytic procedures to solve behavioral problems that occur in their professional and personal lives. Students who complete the minor will also meet the coursework requirements to sit for the Board Certified Assistant Behavior Analyst exam and to become licensed as an Assistant Applied Behavior Analyst in Massachusetts (students will need to meet other requirements to qualify). Students interested in pursuing a Minor in ABA are encouraged to take PSY 253, HRS 331, and ABA 340 during their Sophomore and Junior years, ABA 350, ABA 360, and PSY 301 during their Junior and Senior years, and ABA 450 during their Senior year.

Students interested in pursuing the Minor in ABA are encouraged to talk with the ABA Program Director as well as work with their academic advisor to plan their course of study.

REQUIRED COURSES (7)

- PSY 253 Psychology of Learning
- HRS 331 Basic Concepts and Principles in Applied Behavior Analysis
- ABA 340 Applied Behavior Analysis: Skill Acquisition
- ABA 350 Applied Behavior Analysis: Evidence-based Interventions
- ABA 360 Applied Behavior Analysis: The Professional Compliance Code (1 credit*)
- ABA 450 Applied Behavior Analysis: Implications for Practice
- PSY 301 Internship (Internship approved by ABA Program Director**)

*ABA 360 is a 1-credit course. Completion of this course is required for the Minor in ABA but ABA 360 does not count as one of the 38 courses required for graduation.
**HRS 400 or HRS 490 may be substituted in some circumstances if the student’s experience is focused on ABA and with approval by the ABA Program Director.

ELECTIVE (1)

Students are encouraged to choose an elective outside of their major field of study.

- EDU 101 Schools in American Society
- EDU 260 Teaching Students with Special Needs
- EDU 265 Effective Classroom Management
- HRS 119 Introduction to Human Services and Rehabilitation Studies
- HRS 121 Human Development and Disability across the Lifespan
- HRS 225 Introduction to Human Communication and Its Disorders
- HRS 321 Social Skills Development Strategies for Youth
- PSY 101 General Psychology
- PSY 216 Abnormal Psychology
- PSY 290 Psychology of Development: Infancy and Childhood
- PSY 220 Interpersonal Communication
- PSY 225 Research Methods in Psychology
- PSY 283 Introduction to Autism Spectrum Disorder
- PSY 409 Common Problems in Childhood
- PSY 416 Abnormal Child and Adolescent Psychology
MINOR IN HUMAN SERVICES AND REHABILITATION STUDIES (6)

Students interested in supplementing another major by developing knowledge and skills in the areas of human services and rehabilitation studies may wish to pursue a minor. The minor consists of six courses, four of which are required. The four required courses are designed to provide students with a firm understanding of the range and diversity of human and rehabilitation service settings. The minor is also geared toward providing students with some core skills required of a human service professional. The minor also provides students with the opportunity to apply these fundamental skills by completing a 100-hour field placement experience. In addition to the four required courses, students are encouraged to choose two other HRS courses that suit their individual interests and career objectives. The minor program of study should be developed with a faculty member from the Human Services and Rehabilitation Studies Department.

REQUIRED COURSES (4)

- HRS 119 Introduction to Health, Human, and Rehabilitation Services (Fall/Spring)
- HRS 330 Interviewing Techniques in Human and Rehabilitation Services (Fall)
- HRS 340 Principles of Case Management (Spring)
- HRS 400 Field Experience in Human Services and Rehabilitation Studies (Fall/Spring)

Note: With the approval of the department chair, students may substitute an internship from majors other than Health Sciences and HRS for HRS 400. Please see the department’s Policy on Major/Minor/Concentration Internship Requirements.

ELECTIVES (2)

- ASL 101 Introduction to Sign Language (Fall/Spring)
- ASL 102 Sign Language II (Fall/Spring)
- HRS 121 Human Development and Disability Across the Lifespan (Fall/Spring)
- HRS 125 Professional Orientation to Physical and Occupational Therapy (Spring)
- HRS 200 Addiction: Etiology, Assessment, Treatment, and Rehabilitation (Fall/Spring)
- HRS 210 Medical Aspects of Disability (Fall/Spring)
- HRS 219 Rehabilitation Strategies and Interventions (Fall/Spring)
- HRS 225 Introduction to Human Communication and its Disorders (Spring)
- HRS 241 Prevention and Intervention: Models and Approaches with Youth (Fall)
- HRS 305 Client Information and Assessment (Fall)
- HRS 320 Psychiatric Rehabilitation (Fall/Spring)
- HRS 321 Social Skill Development Strategies for Youth (Spring)
- HRS 325 Clinically-Based Phonetics of American English (Spring)
- HRS 331 Basic Concepts and Principles in Applied Behavior Analysis (Spring)
- HRS 335 Anatomy and Physiology of Speech and Hearing Mechanisms (Fall)
- HRS 420 Family Aspects of Disability (Spring)
- HRS 421 Loss and Bereavement Across the Lifespan (Consult department chair)
- HRS 431 Treatment Strategies and Interventions for Substance Use Disorders (Consult department chair)
- HRS 485 Special Topics in Human Services and Rehabilitation Studies
- HRS 499 Directed Study in Human Services and Rehabilitation Studies
- HSC 100 Systems Approach to Delivering Health Care in American (Fall/Spring)
- HSC 150 Introduction to Public Health (Fall/Spring)
- HSC 310 Evidence-Based Health Care (Spring)
- HSC 360 Legal and Ethical Aspects of Health Care (Fall)
- HSC 370 Principles of Health Education and Promotion (Spring)

CONCENTRATION IN COMMUNICATION SCIENCES AND DISORDERS (13)

For students interested in pursuing graduate studies in the fields of Audiology or Speech-Language Pathology, the Department of Human Services and Rehabilitation Studies offers a concentration in Communication Sciences and Disorders. In accordance with the standards set forth by the American Speech-Language-Hearing Association (ASHA), undergraduate preparation in human communication sciences and disorders should include “broad educational experiences in areas traditionally recognized as liberal arts with a strong foundation in oral and written communication skills.” The concentration in Communication Sciences and
Disorders builds on Assumption University’s strong liberal arts foundation with courses specifically focused on human communication, social and behavioral sciences, and mathematics, as well as biological and physical sciences.

For those students who have completed all required courses in the CSD concentration AND 20 hours of clinical observation under a licensed Speech-Language Pathologist, it is possible to secure a license as a Speech-Language Pathology Assistant in the state of Massachusetts. Other states have different licensing requirements. Students who are interested in becoming Assistants outside of Massachusetts should look into licensing requirements for the state they plan to work in.

Students interested in the Concentration in Communication Sciences and Disorders should contact Prof. Alison Myette, the concentration coordinator.

**REQUIRED COURSES (13)**

- HRS 225  Introduction to Human Communication and its Disorders (Spring)
- HRS 235  Normal Speech and Language Development (Fall)
- HRS 325  Clinically-Based Phonetics of American English (Spring)
- HRS 335  Anatomy and Physiology of Speech and Hearing Mechanisms (Fall)
- HRS 405  Introduction to Audiology (Fall) Prerequisite: HRS 415
- HRS 415  Hearing Science (Spring) Prerequisite: HRS 335
- HRS 425  Speech Science (Spring) Prerequisites: HRS 325 and HRS 335
- PSY 290  Psychology of Development: Infancy and Childhood (Fall/Spring)

1 additional course in the behavioral sciences  (HSRS, Psychology, Sociology)
1 Biology course
1 Chemistry or Physics course
1 Mathematics course (Note: MAT 114 completed with a C- or higher is required for Worcester State University courses.)
1 Statistics course (PSY 224 Statistics)

Note: One natural science course must be taken with a separate lab.

**CONCENTRATION IN PATIENT ADVOCACY (7)**

The Concentration in Patient Advocacy is designed to advance students’ knowledge and understanding of health and human services, health care management, health psychology, and sociology, in the context of the health care environment working with, and for, patients. The Concentration in Patient Advocacy is designed to prepare students with the foundational knowledge for entry-level roles in the field of health advocacy and patient navigation. The concentration prepares students for non-clinical graduate study in health care such as health care administration, health care policy, patient advocacy, and public health. Additionally, the Concentration in Patient Advocacy will complement students’ preparation for graduate study in one of the many clinical health professions such as dentistry, medicine, nursing, optometry, physician’s assistant. This interdisciplinary concentration provides the student with education in aspects of human services, ethics, law, policy, and the social sciences necessary for advancing patient- and family-centered health care. It can be undertaken while studying a number of possible majors.

**REQUIRED COURSES (7)**

- HRS 210  Medical Aspects of Disability (Fall/Spring)
- HRS/HSC 222  Advocacy for Patient-Centered Care (Fall)
- HRS 340  Principles of Case Management (Spring)
- HSC 100  Systems Approach to Delivering Healthcare in America (Fall/Spring)
- HSC 310  Evidence-Based Health Care (Spring)
- HSC 360  Legal and Ethical Aspects of Health Care (Fall)
- HSC 370  Principles of Health Education and Promotion (Spring)
CONCENTRATION IN PRE-CLINICAL HEALTH PROFESSIONS (17)

The Concentration in Pre-Clinical Health Professions is designed to prepare students for graduate study in one of the many clinical health professions, such as medicine, dentistry, veterinary medicine, physician’s assistant, nursing, and optometry. This interdisciplinary concentration provides the student with a strong background in mathematics, the biological and physical sciences, and the social sciences. As a concentration, it must accompany a major program of study, but can augment a variety of majors. Majors that share the greatest numbers of common courses with this concentration are Biology, Biotechnology and Molecular Biology, Biology with a Concentration in Neuroscience and Behavior, Psychology with a Concentration in Neuroscience, and Health Sciences.

REQUIRED COURSES (17)

- BIO 160 Concepts in Biology
- BIO 210 Genetics
- BIO 240 Human Anatomy
- BIO 250 Microbiology or BIO340 Molecular and Cellular Biology
- BIO 370 Physiology
- CHE 131-132 General Chemistry I and II (Note CHE 132 requires MAT 114 or higher as a pre-requisite.)
- CHE 201-202 Organic Chemistry I and II
- CHE 414 Biochemistry
- MAT 114 Elementary Functions or MAT 117 Calculus I
- PHY201-202 General Physics I and II
- PSY 101 General Psychology
- Statistics PSY 224 or SOC 300 or ECO115
- HSC 100 Systems Approach to Delivering Health Care
- SOC 121 Principles of Sociology

CONCENTRATION IN PRE-OCCUPATIONAL THERAPY (11)

The minimal entry-level degree for practice as an Occupational Therapist is a clinical master’s degree in Occupational Therapy. The Concentration in Occupational Therapy is designed to prepare students for graduate study in Occupational Therapy. The concentration is not a major; all students completing the concentration must also complete the requirements of a major prior to graduation. A student may complete any major while also completing the concentration. Many students interested in Occupational Therapy have majored in Biology, Human Services and Rehabilitation Studies, or Psychology. Many of the courses required for the concentration are also required for completion of these majors.

REQUIRED COURSES (11)

- BIO 160 Concepts of Biology (Fall/Spring)
- BIO 240 Human Anatomy (Fall)
- BIO 370 General Physiology (Spring)
- HRS 121 Human Development and Disability Across the Lifespan (Fall/Spring)
- HRS 125 Professional Orientation to Physical and Occupational Therapy (Spring)
- HRS 345 Occupational Therapy: Occupation, Theory, Intervention, and Assessment Across the Lifespan (Fall)
- PSY 101 General Psychology (Fall/Spring)
- PSY 216 Abnormal Psychology (Fall/Spring)
- PSY 224 Statistics (Fall/Spring)

Choose one:

- ANT 131 Cultural Anthropology (Fall/Spring)
- SOC 121 Principles of Sociology (Fall/Spring)

One of the three internship or field placement courses listed below:

- HRS 400 Field Experience in Human Services and Rehabilitation Studies (if Non-HSRS Major and Non-Health Sciences major – 3 credits) (Fall/Spring)
- HRS 490 Internship in Human Services and Rehabilitation Studies (if HSRS Major – 12 credits) (Fall/Spring)
- HSC 450 Internship in Health Sciences (if Health Sciences Major – 6 credits)
Note: Please see the department’s Policy on Major/Minor/Concentration Internship Requirements.

Recommended (but not required) coursework:
Some programs may require a course in Neuroscience, Kinesiology, and/or Neuroanatomy with a focus on the central and peripheral nervous system.

Students who wish to complete the concentration should enroll in BIO 160 and its lab in their first semester at the University, as well as HRS 125 in the spring semester. First-year students should also consult with the Health Professions Advisor, Dr. Steven Theroux, or Human Services and Rehabilitation Studies Advisor, Dr. Gary Senecal, at the beginning of the fall semester to plan out the remainder of their course of study.

A significant number of hours (as many as 1,000) in fieldwork related to health care may be required for admission to some OT programs. The internship experience required for our program may not provide all of the hours needed to satisfy this requirement. Additional experience can be gained by volunteer work or by acquiring a paid position as a rehabilitation aide. It may also be possible to obtain additional fieldwork experience by completing additional internships within the major.

It is also important to note that some graduate programs have atypical course requirements. Students who are considering applying to graduate school for Occupational Therapy should review the admission requirements of the schools they plan to apply to by the beginning of their junior year in order to be certain they will have time to complete all of the necessary coursework before graduation.

CONCENTRATION IN PRE-PHYSICAL THERAPY (16)
The minimal entry-level degree for practice as a Physical Therapist is a clinical doctoral degree in the Physical Therapy. The Concentration in Physical Therapy is designed to prepare students for graduate study in Physical Therapy. The concentration is not a major; all students completing the concentration must also complete the requirements of a major prior to graduation. A student may complete any major while also completing the concentration. Many students interested in Physical Therapy have majored in Biology, Human Services and Rehabilitation Studies, or Psychology. Many of the courses required for the concentration are also required for completion of these majors.

PSY 224  Statistics (Fall/Spring)

One of the following math courses:
MAT 114  Elementary Functions (Fall/Spring)
MAT 117  Calculus I (Fall/Spring)

Recommended (but not required) coursework:
BIO 415  Principles of Neuroscience (Fall)
PSY 251  Introduction to Brain and Behavior (Fall)

Students who wish to complete the concentration should enroll in BIO 160, CHE 131, and the appropriate math course (MAT 114 or MAT 117) in their first semester at the University, as well as HRS 125 in the spring semester. First-year students should also consult with the Health Professions Advisor, Dr. Steven Theroux, or Human Services and Rehabilitation Studies Advisor, Dr. Gary Senecal, at the beginning of the fall semester to plan out the remainder of their course of study. A significant number of hours (as many as 1,000) in fieldwork related to health care may be required for admission to some PT programs. The internship experience required for our program may not provide all of the hours needed to satisfy this requirement. Additional experience can be gained by volunteer work or by acquiring a paid position as a rehabilitation aide. It may also be possible to obtain additional fieldwork experience by completing additional internships within the major.

It is also important to note that some graduate programs have atypical course requirements. Students who are considering applying to graduate school for Physical Therapy should review the admission requirements of the schools they plan to apply to by the beginning of their junior year in order to be certain they will have time to complete all of the necessary coursework before graduation.

CONCENTRATION IN WORKING WITH CHILDREN AND ADOLESCENTS IN COMMUNITY SETTINGS (7)

This concentration is dedicated to educating students in the theories and approaches identified as best practices and skill areas needed to work with children and adolescents in schools, agencies, clinics and community settings. The concentration prepares students to become practitioners that promote healthy social and emotional development and academic achievement through prevention and intervention strategies and programs grounded in ecological systems and social justice frameworks. Examples of such practitioners include, but are not limited to, early intervention specialists, paraprofessionals in school settings, case managers for youth, and youth workers in both residential and academic settings. The concentration also provides a strong foundation for those students hoping to go on to graduate school to pursue careers that focus on youth and family work such as counseling, social work, and education. The concentration focuses specifically on understanding how practitioners can support and strengthen youth’s support systems and protective factors while minimizing the impact of risk factors. The program combines the practices of prevention, interventions, and system building to ensure that children and adolescents experience opportunities to practice strategies that promote their personal growth, academic success, social inclusion, etc. The concentration allows students an opportunity to further specialize their knowledge and skill base to develop and implement effective interventions when working with youth. Furthermore, this concentration affords students in all majors the opportunity to complete the specific coursework targeted at developing the knowledge and skills necessary for effective intervention with children and adolescents. Students interested in this concentration may choose to pursue graduate degrees in a number of areas such as Special Education, School Counseling, Applied Behavioral Analysis, Child Life Specialist, Rehabilitation Counseling, Counseling Psychology, Social Work, etc. Students in a variety of majors at Assumption University may wish to pursue this concentration based on their vocational and/or avocational aspirations.

RECOMMENDED OPTIONAL ELECTIVES:

- CRM 243  Juvenile Delinquency (Spring)
- CRM 335  Family Violence (Fall)
- CRM 485  Internship Seminar I (Fall)
- HRS 331  Basic Concepts and Principles in Applied Behavioral Analysis (Spring)
- HRS 400  Field Experience in Human Services and Rehabilitation Studies (Fall/Spring)
- PSY 301  Internship in Psychology (Spring)
- PSY 392  Raising Happy and Successful Children (Spring)

SIX-IN-FIVE GRADUATE PROGRAM IN REHABILITATION COUNSELING

The Department of Human Services and Rehabilitation Studies has an accelerated path toward helping undergraduate students earn a master’s degree in Rehabilitation Counseling. The Six-in-Five Graduate Program in Rehabilitation Counseling is open to all undergraduate students at Assumption University regardless of their declared major. Undergraduate students that are on-track to complete general education/core requirements in addition to the required courses for their major may begin the graduate program in Rehabilitation Counseling during their senior year. Graduate coursework during the senior year counts toward the undergraduate degree as well as the graduate degree so students in this program will graduate with their bachelor’s degree on schedule. Then, upon completion of one additional year of graduate study (the fifth year), students will be awarded a Master of Arts in Rehabilitation Counseling. Students are then eligible to take the Certified Rehabilitation Counselor Examination and become nationally certified as a Rehabilitation Counselor (CRC).

Upon completion of this nationally accredited program in Rehabilitation Counseling, students have a number of professional options. Students can gain employment as a professional rehabilitation counselor in educational settings, independent living centers, insurance-based settings, private settings, rehabilitation hospitals, state rehabilitation agencies, and other settings. The master’s degree will enable students to achieve professional counselor status and improved prospects for advancement into supervisory positions. Students can also use the Master’s in Rehabilitation Counseling for entry into a doctoral program.

Students interested in the Six-in-Five Graduate Program in Rehabilitation Counseling should seek advising with the chair of the Department of Human Services and Rehabilitation Studies no later than February 1 of their junior year at Assumption University. It is necessary to delineate a program of study as soon as possible to ensure that all requirements are fulfilled. It is also possible to modify this accelerated path to a Master’s in Rehabilitation Counseling should students have outstanding undergraduate requirements that preclude them from taking 8 graduate level courses during their senior year. Academic advising is a critical piece to pursuing this program. Students with a declared major in HSRS do not complete the undergraduate field-based internship requirement (HRS 490), thus providing room for 4 graduate level courses. HSRS students pursuing the Six-in-Five program will gain field-based experience as part of the graduate program (100-hour counseling practicum during the spring semester of senior year and a 600-hour rehabilitation counseling internship during the fifth year).

Admission to the Six-in-Five Program in Rehabilitation Counseling requires a strong undergraduate record of academic success. Interested students will apply to the program by submitting a personal statement, resume, two letters of recommendation, and transcripts to Nicholas Cioe, director of the Rehabilitation Counseling Program. Interested students should contact Prof. Cioe in advance of applying to the program as well as discuss this option with their academic advisor. Application materials are due early in the spring semester of junior year.

Once admitted to the Six-in-Five Program in Rehabilitation Counseling, students will begin taking graduate courses during their undergraduate senior year. On-going evaluation of student progress will take place during the senior year to ensure students are successfully completing graduate level coursework. During the spring semester of the senior year students with successful achievement will make application to Assumption University’s Graduate School and be admitted as graduate students. Financial support, such as grants and scholarships, are available to qualified students.

POLICY ON MAJOR/MINOR/CONCENTRATION INTERNSHIP REQUIREMENTS

The following policy applies only to declared Human Service and Rehabilitation Studies and Health Sciences majors with a declared minor or concentration that has an internship requirement. This applies to the minor in Human Service and
Rehabilitation Studies and to the concentrations in Pre-Occupational Therapy and Pre-Physical Therapy. The HSRS and HSC Major Internship Requirement Supersedes Minor and Concentration Field Experience Requirements. For Human Services and Rehabilitation Studies and Health Sciences majors, the required internship for the major will satisfy the internship requirement for the minors and concentrations listed above. Students should plan to complete the major internship requirement of their respective major; Human Service and Rehabilitation Studies (HRS 490; 12-credits; 400-hours) and Health Sciences (HSC 450; 6-credits; 200-hours). Students who satisfy their major internship requirement are not required to complete the field experience requirement for their minor and/or concentration but are required to fulfill the total credit requirement to satisfy the minor (18 credits). Students are encouraged to identify electives within the minor/concentration to satisfy the credit requirements.

MINOR/CONCENTRATION INTERNSHIP OPTION

While not required, students may submit a special request to complete a minor/concentration internship. The minor/concentration internship is suitable for students who want to gain additional experience in a field placement that they did not receive from the major internship experience.

- The student should submit a MINOR/CONCENTRATION REQUEST FORM to the clinical coordinator (Susan Sabelli, Switzer Building 108; ssabelli@assumption.edu).
- Requests will be processed on an individual, first-come-first-serve basis. Minor/concentration internship placements are determined by the number of available placements for the semester in which a student is requesting the internship.
- Requests should be submitted one semester prior to the start of the minor/concentration internship. Using the HSRS departmental MINOR/CONCENTRATION REQUEST FORM, please indicate how the minor/concentration internship will differ from your major internship experience along with how the additional minor/concentration internship experience may help you with professional and/or graduate-school endeavors.

COURSE DESCRIPTIONS

AMERICAN SIGN LANGUAGE (ASL)

**ASL 101 INTRODUCTION TO SIGN LANGUAGE**
This course focuses on the use and study of American Sign Language (ASL), the language that is widely used by Americans with Deafness. This course will include basic ASL vocabulary, grammatical structures, and conversational basics. Students will also be introduced to the values, beliefs and behavioral norms shared by members of the deaf culture. Counts as a language in the Core curriculum. (Fall/Spring)
Fuller/Three Credits

**ASL 102 SIGN LANGUAGE II**
This is a second level course that focuses on the use and study of American Sign Language (ASL). This course continues to increase ASL vocabulary and grammatical structures. In this course the student will also continue the exploration of the deaf culture including developing culturally appropriate relationships with individuals who are deaf. Counts as a language in the Core curriculum. Prerequisite: ASL 101 (Fall/Spring)
Fuller/Three Credits

APPLIED BEHAVIOR ANALYSIS (ABA)

**ABA 340 APPLIED BEHAVIOR ANALYSIS: SKILL ACQUISITION**
This is an advanced course in applied behavior analysis for students interested in learning fundamental skill acquisition procedures. The course focuses on assessment of behavioral deficits and procedures for increasing a variety of self-care, communication, academic, and social skills. There will be a focus on identifying pivotal skills to teach and prioritizing teaching goals. Students will learn to identify and implement behavioral interventions to promote positive behaviors related to reinforcement, motivation, and stimulus control. In addition, interventions based on token economies, behavioral contracts, and group contingencies will be examined. There will be an emphasis on application of behavioral interventions across multiple domains, including autism and other developmental disorders, intellectual disability, education, health, and other areas. Prerequisites: HRS 331 or PSY 253 or permission of the ABA Program Director. (Spring)
Staff/Three Credits
ABA 350 APPLIED BEHAVIOR ANALYSIS: EVIDENCE-BASED INTERVENTIONS
This is an advanced course intended for students pursuing a minor in Applied Behavior Analysis. The course focuses on the delivery of evidence-based behavior-analytic procedures. Students will explore what it means to say that an intervention is “behavior analytic” and “evidence-based.” There will be an emphasis on application of interventions based on behavioral principles across multiple domains, including autism and other developmental disorders, intellectual disability, education, health, and other areas. Students will learn to identify and implement behavioral interventions related to reinforcement, motivation, stimulus control, extinction, punishment, and verbal behavior. In addition, students will learn how to evaluate the effectiveness of an intervention based on visual data analysis and experimental design. Prerequisites: HRS 331 or PSY 253 or permission of the ABA Program Director. (Fall)
Staff/Three Credits

ABA 360 APPLIED BEHAVIOR ANALYSIS: THE PROFESSIONAL COMPLIANCE CODE
This is a one-credit course intended for students pursuing a minor in Applied Behavior Analysis. In this course, students will be introduced to the Behavior Analyst Certification Board Compliance Code. This course will provide students with an understanding of legal, professional, and ethical issues in the delivery of behavior-analytic services and the practice of behavior-analytic research. A variety of common dilemmas involving assessing behavior, selecting treatment protocols, evaluating behavior change, collaborating with other professionals, and relationships with clients will be presented and students will learn to identify the relevant aspects of the compliance code. Students will learn how to develop solutions to dilemmas and will practice implementing their solutions in interactive exercises. Finally, professional behavior related to behavior-analytic service delivery will be discussed. Prerequisites: ABA 340 or ABA 350 or permission of the ABA Program Director. (Fall)
Lionello-Denolf/One Credit

ABA 450 APPLIED BEHAVIOR ANALYSIS: IMPLICATIONS FOR PRACTICE – CSL
This is an advanced course intended for students pursuing a minor in applied behavior analysis and includes a required Community Service Learning (CSL) component. In this course, students will focus on the implementation, management, and supervision of behavioral services across a variety of settings. Students will learn methods of case management, monitoring program efficiency, and staff training. In addition, students will explore the Professional and Ethical Compliance Code for Behavior Analysts and will practice solving common ethical problems that occur during service delivery. Students will learn of current certification and licensure standards as well as graduate training and career options. Finally, students will gain real-world experience with behavior-analytic service delivery via the Community Service Learning component. This experience will enable students to integrate knowledge learned across the applied behavior analysis curriculum and give them the opportunity see firsthand the positive effect behavioral intervention can have in the lives of clients. Prerequisites: ABA 350 or permission of the ABA Program Director. (Spring)
Staff/Three Credits

HEALTH SCIENCES (HSC)

HSC 100 SYSTEMS APPROACH TO DELIVERING HEALTH CARE IN AMERICA
How is healthcare delivered, funded, and legislated within the United States? What is working and what is not in our current system? This course will address the framework and structure of contemporary healthcare delivery systems in the United States and abroad. Key issues surrounding healthcare legislation, public vs. privatized insurance, and the differences with universal healthcare. Disparities in access and quality of care, health outcomes in the United States, and the role of technology in healthcare delivery will all be introduced. Students will gain an appreciation of the complexity of interacting systems that comprise health care delivery today with special attention toward the challenges and opportunities for patient-centered care. (Fall/Spring)
Gagen/Three Credits

HSC 150 INTRODUCTION TO PUBLIC HEALTH
This course provides an overview of the basic principles in Public Health, a field focused on health promotion and disease prevention. Students will learn the concepts and methods for measuring health in populations. Environmental, socio-economic, and behavioral determinants of health will be discussed, as will the role of health care systems, public policy, and government. Students will engage in the public health approach to issues by learning to define the problem, establish the cause, identify
mitigating factors, develop evidence-based recommendations for interventions, and use appropriate methods to evaluate the impact of the intervention. (Fall/Spring)

Gagen/Three Credits

HSC/HRS 220  PSYCHOSOCIAL ASPECTS OF CHRONIC ILLNESS AND DISABILITY
This course explores chronic illness and disability in light of its psychological and social impact. Historical and current perspectives on chronic illness and disability are studied. Disability models are presented. The major determinants associated with the psychological adaptation to chronic illness and disability are examined in this course. The impact that chronic illness and disability has on personality and development, sexual functioning, family functioning, social functioning, and other significant areas of function are covered. The role of gender on psychological adaptation to chronic illness and disability is covered. The role of gender on psychological adaptation to chronic illness and disability is addressed. The course will also study stigma and the attitudes of others toward people with disabilities and severe and chronic health conditions. (Fall)

Staff/Three Credits

HSC/HRS 222  ADVOCACY FOR PATIENT-CENTERED CARE
The Institute of Medicine frames healthcare quality as being patient-centered, timely, efficient, effective, safe, and equitable. Patient advocacy is a central organizing vehicle for negotiating patient navigation and systemic improvements in healthcare organizations and across health care systems. This course will advance the place and role of patient advocacy in the United States health care system with an emphasis on specific tasks, skills and actions. The advocacy focus for/with consumers will attend to protecting the ethical rights of patients, improving patient quality of life, developing cultural competence in healthcare, promotion of disease prevention and health literacy, assistance with financing health care, integrating behavioral health services with primary care, and improving access to community-based care. Policy advocacy in healthcare, community and government settings will also be introduced. (Fall)

Gagen/Three Credits

HSC 310  EVIDENCE-BASED HEALTH CARE
Evidence-based practice in health care is the synthesis of best available research evidence with current knowledge and clinical experience for health promotion and quality health care services. It is a predominant clinical and administrative consideration for improving health care delivery and practice. While unprecedented developments in the diagnosis, treatment, and long-term management of disease provide the opportunity for longer and healthier lives, access to health care that is most appropriate is too often impeded by ignorance, inequity, and economic constraints. The Institute of Medicine finds this gap “due to our failure to apply the evidence gathered about the medical care that is most effective – a failure related to shortfalls in provider knowledge and accountability, inadequate care coordination and support, lack of insurance, poorly aligned payment incentives, and misplaced patient expectations.” For students who are participants of the U.S. health care system, as patients or prospective providers, understanding the research process and the critical appraisal of research to support the practice implications in health care is imperative. (Spring)

Gagen/Three Credits

HSC 360  LEGAL AND ETHICAL ASPECTS OF HEALTH CARE
This course will address relevant legal and ethical issues in current healthcare practice and systems. The course will provide an introduction to a broad scope of legal principles and obligations required by health care professionals and consider the professional ethics involved in modern health care delivery. Primarily, federal health care policies that will impact contemporary health providers in their everyday work will be reviewed. The rights and responsibilities of organizations, health care providers, and patients will be examined. Additionally, contemporary ethical dilemmas will be explored along with developing an understanding of how ethical issues are resolved using ethics committees in modern health systems. (Fall)

Gagen/Three Credits

HSC 370  PRINCIPLES OF HEALTH EDUCATION AND PROMOTION
This course provides a foundational understanding of the professional field of health education. The historical, philosophical, ethical, theoretical and practical issues of the field of community health education will be explored. The course covers health education principles and addresses the application of these principles to health challenges faced by individuals, groups and communities. The course provides a fundamental understanding of the roles and responsibilities of the health education specialist and the need for implementing a wide range of targeted health education activities in the community. (Spring)

Gagen/Three credits
HSC 450  INTERNSHIP IN HEALTH SCIENCES
During the final year of the Health Sciences major, students complete a required internship experience to gain firsthand experience in an area of interest. Internship experiences may be completed in selected health care work environments, e.g., public health departments, clinics, hospitals, not-for-profit organizations, and community health organizations. This course is a field-based, professional opportunity for students to apply the theories, models, knowledge, concepts, and strategies learned through their coursework in the Health Sciences. Students apply their classroom and laboratory learning in a health, allied health, or health care environment. This internship is an intensely supervised and supported experience as students are supervised by both college faculty and an onsite supervisor. There are three phases to the internship experience: orientation, observation, and performance. Students will complete 200 hours on site during the Fall or Spring semester. (Fall/Spring)
Gagen/Three credits

HUMAN SERVICES AND REHABILITATION STUDIES (HRS)

HRS 119  INTRODUCTION TO HEALTH, HUMAN, AND REHABILITATION SERVICES
This course is an introduction to the theory, practice, and systems of health, human, and rehabilitation services. The information covered in this course is geared toward students in all majors so that they may become more socially, politically, culturally, and humanly aware of the issues that people with disabilities, chronic illnesses, and challenging life circumstances experience. This course utilizes social justice frameworks to consider the barriers and inequities faced by individuals typically marginalized, disenfranchised, and limited from full participation in society. The history, legislation, and mission of health, human, and rehabilitation services will be examined along with the major models and theories of helping and providing services in community-based health and human service agencies. Current issues and trends in health, human, and rehabilitation service provision are covered with specific attention paid to disability and chronic illness. This course fulfills the social science requirement in the Core Curriculum. (Fall/Spring)
Hightower/Three Credits

HRS 121  HUMAN DEVELOPMENT AND DISABILITY ACROSS THE LIFESPAN
This course will cover the basic principles of developmental theories in addition to the major theories of human growth and development. Piaget, Erikson, Bronfenbrenner, Maslow, and Kohlberg are some of the theorists studied in this course. Demographic shifts across history are identified with the intent of demonstrating the increased population of individuals living and living longer with chronic illness and disability. Typical development across the lifespan is studied with each stage of life covered from pregnancy and infancy to older adulthood. Disabilities and chronic illnesses common to each stage of life will be studied with discussion of the ways in which the disability and illness experience affects passage through life stages. This course fulfills the social science requirement in the Core Curriculum. (Fall/Spring)
Scannell/Three Credits

HRS 125  PROFESSIONAL ORIENTATION TO PHYSICAL AND OCCUPATIONAL THERAPY
This course will cover the history, principles, philosophies, and ethics of occupational and physical therapy. The physical and occupational therapists’ relationship to other health care providers will also be covered. This introductory course will provide a foundation for understanding the role of the physical and occupational therapist within a variety of professional treatment sites. Theories, models of practice, and the OT and PT processes will be covered. This course will also provide an overview of professional issues and current trends and will highlight the legal and ethical responsibilities related to health care service. (Spring)
Murray/Three Credits

HRS 200  ADDICTION: ETIOLOGY, ASSESSMENT, TREATMENT, AND REHABILITATION
This course will provide an overview of addictions and addictive behavior. Topics such as the historical, psychological, social, societal, physiological, family, and relationship aspects of addictions will be covered. The pharmacology, treatment, prevention, intervention, and rehabilitation related to substance abuse, alcohol dependence, eating disorders, gambling addictions, steroid use, etc. will also be explored. This course will introduce students to the different theories of addiction (e.g., biological, psychodynamic, social-learning, and socio-cultural) and the implications for successful intervention. Ethical issues related to addictions and addiction counseling will also be discussed. (Fall/Spring)
Dougherty, Scannell/Three Credits
HRS 210 MEDICAL ASPECTS OF DISABILITY
The goal of this course is to assist students in acquiring an understanding of chronic illness, disability, and health impairments. The course provides information about the medical aspects and characteristics of chronic illnesses and disabling conditions along with treatments and interventions aimed at ameliorating the resulting functional limitations. Students will study chronic diseases and disabling conditions that are commonly encountered in health care and rehabilitation service settings. In addition to emphasizing the medical aspects and characteristics, treatment and intervention strategies will be covered. Basic medical terminology will be studied. This course will focus on disease, chronic illness, and physical impairments. (Fall/Spring)
Myette, Senecal/Three Credits

HRS 219 REHABILITATION STRATEGIES AND INTERVENTIONS
This course explores the full range of rehabilitation strategies and interventions that occur across the lifespan of individuals with disabilities. Educational and rehabilitation strategies aimed at maximizing independence for people with disabilities will be covered. Early intervention, inclusion, and transition services will be examined as critical educational strategies aimed at minimizing the impact of disability and enhancing independence. The course will provide critical knowledge and skills related to employment and independent living options for people with disabilities, including related legislation. Supportive strategies for assisting and maintaining individuals with disabilities in educational and employment settings will be addressed. Rehabilitation and assistive technology options will also be covered. (Fall/Spring)
Sheikh/Three Credits

HRS/HSC 220 PSYCHOSOCIAL ASPECTS OF CHRONIC ILLNESS AND DISABILITY
This course explores chronic illness and disability in light of its psychological and social impact. Historical and current perspectives on chronic illness and disability are studied. Disability models are presented. The major determinants associated with the psychological adaptation to chronic illness and disability are examined in this course. The impact that chronic illness and disability has on personality and development, sexual functioning, family functioning, social functioning, and other significant areas of function are covered. The role of gender on psychological adaptation to chronic illness and disability are covered. The role of gender on psychological adaptation to chronic illness and disability is addressed. The course will also study stigma and the attitudes of others toward people with disabilities and sever and chronic health conditions. (Fall)
Benoit/Three Credits

HRS/HSC 222 ADVOCACY FOR PATIENT-CENTERED CARE
The Institute of Medicine frames healthcare quality as being patient-centered, timely, efficient, effective, safe, and equitable. Patient advocacy is a central organizing vehicle for negotiating patient navigation and systemic improvements in healthcare organizations and across health care systems. This course will advance the place and role of patient advocacy in the United States health care system with an emphasis on specific tasks, skills and actions. The advocacy focus for/with consumers will attend to protecting the ethical rights of patients, improving patient quality of life, developing cultural competence in health care, promotion of disease prevention and health literacy, assistance with financing health care, integrating behavioral health services with primary care, and improving access to community-based care. Policy advocacy in healthcare, community and government settings will also be introduced. (Fall)
Gagen/Three Credits

HRS 225 INTRODUCTION TO HUMAN COMMUNICATION AND ITS DISORDERS
This course is an introduction to human communication across the lifespan with emphasis on the linguistic rule systems of pragmatics, semantics, syntax, morphology, and phonology. An overview of normal and disordered speech, language, cognitive-linguistic, and hearing skills is provided. This overview includes etiologies, characteristics, assessment, and treatment using case studies, video, DVD, and audio-taped examples as well as hands-on materials. (Spring)
Myette/Three Credits

HRS 235 NORMAL SPEECH AND LANGUAGE DEVELOPMENT
This course provides an in-depth coverage of normal speech and language development, including theories of acquisition, development of the linguistic areas of content, form and function, cognitive-linguistic development, the development of literacy skills, and basic analysis techniques for measuring the speech and language development of a child. Learning is achieved through lecture, reading, and video/audio taped examples. (Fall)
Myette/Three Credits
HRS 241 PREVENTION AND INTERVENTION: MODELS AND APPROACHES WITH YOUTH
This course will provide students an overview of professional settings that employ counselors and youth workers to work with children and adolescents. Settings such as public, private, and alternative schools, early intervention programs, afterschool programs, and youth facilities will be covered. The role of professionals working in these settings will also be explored. The course will provide an overview of a variety of issues associated with early childhood and adolescence. Basic guidelines for working with children will be covered in addition to an overview of specific prevention and intervention models for counseling children and adolescents. The course will focus on the practical application of developmental theory within the context of a social justice and multicultural counseling framework. The course will also address effective intervention techniques to work with all youth within our socio-political contexts of schools and communities. Effective and collaborative family intervention models will also be covered. (Fall)
Pica-Smith/Three Credits

HRS 305 CLIENT INFORMATION AND ASSESSMENT
This course is intended to provide the student anticipating a professional role in the human and rehabilitation services with an opportunity to develop awareness, understanding, and skills related to the use of assessments and evaluation tools. Clients utilizing human and rehabilitation services are in need of professionals with skills in utilizing assessment results in order to plan and provide appropriate interventions. This course will utilize a lifespan approach to provide an overview of common assessment and evaluation tools used in a variety of human service and applied settings such as schools, early intervention programs, and rehabilitation agencies. (Fall)
Senecal/Three Credits

HRS 320 PSYCHIATRIC REHABILITATION
As an introduction to psychiatric rehabilitation, this course emphasizes understanding of lifespan development with appreciation for the complex interaction of biological, social, and psychological variables that influence human behavior. From this bio-psycho-social framework, the course will review major psychiatric and developmental disorders with attention to diagnostic and intervention strategies. This course will also address the co-occurrence of psychiatric disorders and substance use disorders in individuals. The challenging nature of treatment and rehabilitation for individuals with co-occurring disorders will be identified and covered. Educational and vocational factors will also be covered. Students will gain an understanding and appreciation of the personal experience of psychiatric disability and recovery, including an understanding of the core principles and motives of psychiatric rehabilitation. Prerequisites: HRS 119 and HRS 121. (Fall/Spring)
Senecal/Three Credits

HRS 321 SOCIAL SKILLS DEVELOPMENT STRATEGIES FOR YOUTH
Social Skills Training is a psycho-educational approach to scaffolding pro-social behaviors of youth and adolescents with behavioral challenges. Social skill development as an approach supports youth to be successful in social interactions. Specifically, social skill development as an approach provides youth with strategies for building resilience and for dealing with teasing and bullying, starting conversations, asking for help, dealing with peer pressure, practicing effective problem solving, etc. The course will provide students with the theoretical, evidentiary, and practical background to engage with youth in social skill development and interventions. Students will be introduced to assessment strategies to determine the social skills needs of youth and adolescents. The course will also introduce interventions for specific behavioral challenges of students with disabilities (ADHD, learning disabilities, and autism spectrum disorders, for example). Students will also be introduced to other relevant evidence-based interventions for working with youth. (Spring)
Flowers Tomekwou/Three Credits

HRS 325 CLINICALLY-BASED PHONETICS OF AMERICAN ENGLISH
This course is the study of sounds of the American English Language. Using the International Phonetic Alphabet (IPA), students will learn to analyze and transcribe the physical properties of American English, including the production of sounds, acoustics, and perception of speech. (Spring)
Myette/Three Credits

HRS 330 INTERVIEWING TECHNIQUES IN HUMAN AND REHABILITATION SERVICES
This course is designed to provide students with a thorough understanding of the interview process. A strong emphasis will be placed on developing skills in applying and utilizing specific interviewing skills and techniques in human and rehabilitation service settings. Students will understand the impact of diversity, culture, and individual lifestyles on the helping process. The course will
assist students to apply effective interpersonal skills in interviewing and communicating with persons with disabilities, their families, related professionals, and the general public. Client choice and consumer self-direction will be emphasized in interviewing and counseling situations. Students will be taught to incorporate cultural sensitivity into daily practice and interactions with clients. Ethical principles and decision making will be discussed and practiced. Prerequisites: HRS 119. (Fall and Spring)

Hightower, Paskins, Pica-Smith, Scannell/Three Credits

HRS 331 BASIC CONCEPTS AND PRINCIPLES IN APPLIED BEHAVIORAL ANALYSIS
The field of applied behavior analysis (ABA) grew out of the scientific study of the principles of learning and behavior and is now an evidence-based method for changing people’s behavior, including the behavior of children and adults with a variety of developmental, cognitive, and behavioral disabilities. This course first introduces students to the core concepts, terminology, and methods of ABA. Students then learn how to use behavioral principles to address the behavioral needs of a variety of individuals being served in diverse community settings. Students will learn functional assessment methods and methods to assess reinforcer preference and adaptive, social, and communication skills. Students will learn how to assimilate information derived from these methods to develop a hypothesis regarding the function of behavior and how to select and implement an intervention method based on the assessment results while using evidence-based practices. Students will complete exercises and practical application-based projects so that they can develop basic behavior-analytic skills prior to implementing these skills in real-world settings. Interventions that are geared toward reducing problem behaviors and generalizing and promoting positive behaviors that enhance the development, abilities, and choices of children and adults with developmental and behavioral disabilities will be covered.
Staff/Three credits.

HRS 335 ANATOMY AND PHYSIOLOGY OF SPEECH AND HEARING MECHANISMS
This course is an in-depth study of the muscular, skeletal, and nervous systems as they pertain to speech, hearing, and swallowing. This course covers the normal anatomy and physiology of the speech and hearing mechanisms with emphasis on respiration, phonation, resonance, articulation, hearing, swallowing, and audition. (Fall)
Myette/Three Credits

HRS 340 PRINCIPLES OF CASE MANAGEMENT
This course is designed to assist students in developing the necessary case management skills that are essential to the human and rehabilitation services fields. It will provide students with the knowledge and skills needed to facilitate client movement from initiation of services to case service termination. Students will be exposed to case management practices across human service agencies. Efficient case documenting, case recording, and time management approaches will be developed along with case planning skills that recognize individual client needs. Community resource utilization, goal development, action planning, advocating, service coordination, and utilization of assessment information will also be covered. This is a skills-based course that aims to teach organizational principles, practices, and processes to students, thus enabling them to be effective in human and rehabilitation service delivery systems. Prerequisites: HRS 119. (Fall and Spring)
Benoit, Pica-Smith/Three Credits

HRS 345 OCCUPATIONAL THERAPY: OCCUPATION, THEORY, INTERVENTION, AND ASSESSMENT ACROSS THE LIFESPAN
The course will explore occupation, context and activities that have meaning and purpose in an individual’s life across their lifespan. Students will compare, analyze and practice using Occupational Therapy assessment tools and intervention strategies. The course addresses standards for testing, types and levels of assessment and a brief introduction to report writing for various practice settings. This course explores the occupational therapy theoretical literature, which includes the Model of Human Occupation, the occupation based models of Occupational Adaption, the Ecology of Human Performance model and the Person-Environment-Occupation Model. These theories will be studied with an emphasis on their usefulness in addressing issues in both the disability and able-bodied populations. Students will also examine the Third Edition of the Occupational Therapy Framework (OTPF-3) which guides OT best practice. Students will utilize this framework to examine environmental factors that facilitate physical access, improve psychological awareness and empowerment, and utilize advocacy for positive change across the lifespan. Prerequisite: HRS 335. (Fall)
Murray/Three Credits
HRS/BIO 390  EXERCISE PHYSIOLOGY
This advanced course is designed to provide students with applied knowledge relative to humans’ physiologic responses to acute and chronic exercise stress. Students’ basic knowledge of neuromuscular physiology, energy metabolism, and cardiovascular and respiratory physiology will be honed to focus on human exercise response with the focus of the course being on applications to exercise training and programming, sport, nutrition, youth, aging, and disease. Laboratory exercises will enable practical skills to be gained in measuring and testing for physiological markers of human readiness and response to exercise. Lab fee $400. Prerequisites: BIO 370. (Fall)
Staff/Four credits

HRS 400  FIELD EXPERIENCE IN HUMAN SERVICES AND REHABILITATION STUDIES
This course is a supervised 100-hour field placement experience in an approved human or rehabilitation service agency. The field placement will provide students with an opportunity to become oriented to the human and rehabilitation services by observing and participating in the provision of services to client groups. As students develop they will have the opportunity to use their skills and knowledge to provide services within a highly supervised setting. This field placement enables students to work with staff representing a variety of human service fields. Students will also participate in a weekly seminar that provides group supervision, instruction, and discussion of the field placement experience. (Fall/Spring)
O’Neill/Three Credits

HRS 405  INTRODUCTION TO AUDIOLOGY
This course is intended to offer students an introduction to the theoretical and practical aspects of the field of Audiology. This course will introduce methods of prevention, diagnosis, and treatment of both audiological and vestibular disorders. This course will cover a variety of important topics for the beginning diagnostic audiologist, including air and bone conduction audiometry, speech audiometry, otoscopy, tympanometry, hearing aids, cochlear implants, and an introduction to electrophysiologic measurements and vestibular disorders/assessments. (Fall)
Baumann, Martin/Three Credits

HRS 415  HEARING SCIENCES
This course will provide students with the fundamental principles of hearing science. This course is designed to review auditory anatomy and introduce students to physical acoustics (sound and its measurement), physiological acoustics (physiology of the auditory and balance systems), and psychoacoustics (the perception of sound). (Spring)
Martin/Three Credits

HRS 420  FAMILY ASPECTS OF DISABILITY
This course uses a family systems approach to cover the life cycle of the family. Students will learn to develop and use a genogram to better understand the family system. The course also takes a specific focus on the complex challenges that families face when a family member has a chronic illness, severe disability, or substance use disorder. The course will examine family risk factors and interventions employed to prevent and mitigate the effects associated with these factors. The course will focus on developing specialized skills and techniques for working with families in an attempt to foster family cohesion to confront challenges. This course attempts to provide students with a context and a philosophy for facilitating families as they move through time. Furthermore, the course aims to teach professionals to assist family members in becoming a positive resource and support for each other as they confront the many challenges associated with disability, chronic illness, or substance use disorders. The course covers a variety of family assessment and intervention models. The course includes an analysis of relevant and critical issues to consider when working with families during the treatment, intervention, and/or rehabilitation processes. Specific attention is given to the family life cycle and the effect of risk factors, such as disability, chronic illness, or substance use disorders on the family. (Spring)
Hightower/Three Credits

HRS 421  LOSS AND BEREAVEMENT ACROSS THE LIFESPAN
This course will address the topics of loss, grief, bereavement, aging, and the dying process from a humanistic perspective. The course will examine the role of spirituality, culture, gender, and developmental stage in responding to loss. This course will address the role that helping professionals and fellow human beings can play in facilitating and encouraging the natural, healthy, and healing expression of emotions related to loss. In this course, students will learn that grieving evokes strong emotions and strong emotions can be overwhelming if they are not spoken in the presence of someone who can accept and not judge. Therefore, students in this course will be taught how to be present with someone experiencing strong emotions related to loss
and death, how to respond to feelings shared by others experiencing grief and loss, and how to encourage others to accept and cope with strong emotions related to loss and grief.

Pica-Smith/Three Credits

**HRS 431 TREATMENT STRATEGIES AND INTERVENTIONS FOR SUBSTANCE USE DISORDERS**
This advanced course will focus on the theories, approaches, strategies, and interventions currently utilized for the effective treatment of alcohol and substance use disorders. Specific attention will be paid to change theory and the importance of motivating individuals for change. Evidence-based interventions, such as motivational interviewing and cognitive-behavioral techniques, will be highlighted. Content covered will deepen students’ understanding of substance use disorders and facilitate the development of skills and competencies associated with addiction intervention strategies. A variety of individual and group treatment modalities will be covered with specific attention paid to psycho-educational strategies. This course will also introduce crisis intervention for treating clients with substance use disorders.

Scannell/Three credits

**HRS 425 SPEECH SCIENCE**
This advanced course will provide students with the fundamental principles of speech science. This course is designed to introduce students to the objective measurements of human speech and voice production and perception from acoustic and physiological instrumentation. Readings, lectures, course work, and discussions are designed to demonstrate the ways in which this empirical data relates to research in the field of communication science as well as to its clinical applications. (Fall)

Myette/Three Credits

**HRS 430 CHILDREN AND ADOLESCENTS CAPSTONE SEMINAR**
In seminar format, students will work closely with the instructor, and with each other, to integrate and reflect on their previous coursework and experiences in the Working with Children and Adolescents concentration as well as areas of current interest to create a final research project. This course will help students to increase their mastery of theoretical and professional competencies in working with children and adolescents in school, family, or community settings. This course will also help students develop a sense of how this knowledge applies to professional practice and practical issues related to working with children and adolescents in community settings. This course will incorporate concepts such as current trends in working with children and adolescents, promoting well-being and resilience in children and families, risk and protective factors, addressing developmental assets and challenges facing youth, and crisis management, as well as prevention and intervention strategies. (Consult department chair)

Scannell, Pica-Smith/Three Credits

**HRS 435 ADVANCED ASSESSMENT IN PSYCHOSOCIAL REHABILITATION: INDIVIDUALS AND COMMUNITIES IN CRISIS**
This advanced course provides students, anticipating a role in the human and rehabilitation services, with an opportunity to combine knowledge of assessment and rehabilitation with an understanding of the personal and systemic dynamics of crises. Additionally, the course prepares students to respond to the immediate presenting needs of clients and systems experiencing crisis, to access community resources, to make the necessary referrals, and to engage in consultation and collaboration. Students also learn to recognize the effects of stressors and service delivery on human services and rehabilitation professionals, emphasizing the importance of self-care strategies, and burnout prevention skills. Prerequisites: HRS 119, HRS 121, HRS 200, HRS 305, HRS 320, HRS 330, HRS 340. (Consult department chair)

Scannell/Three Credits

**HRS 485 SPECIAL TOPICS IN HUMAN SERVICES AND REHABILITATION STUDIES**
Special topics courses are elective courses designed to address special issues, skills, and knowledge needed in the human and rehabilitation services. These courses are designed for junior and senior level students as independent research and inquiry are required.

Staff/Three Credits

**HRS 490 INTERNSHIP IN HUMAN SERVICES AND REHABILITATION STUDIES**
This course is a field-based, professional opportunity for students to apply the theories, strategies, interventions, and knowledge learned through the HSRs coursework. Students will be applying their classroom learning in a professional human and/or rehabilitation service setting. The internship is an intensely supervised and supported experience as students are supervised by both faculty and an agency supervisor. There are three phases to the internship experience: orientation, observation, and
performance. Students will perform all aspects of the human and/or rehabilitation specialists job, e.g., intake interviewing, assessment, action planning, service planning, case management, and case closure. Students will complete a minimum of 400 hours on site during the fall or spring semester. The internship is a competency driven experience and specific skills related to the direct provision of services will be evaluated. Prerequisites: HRS 119, HRS 121, HRS 200, HRS 210, HRS 219, HRS 305; HRS 320, HRS 330, and HRS 340. (Fall/Spring)

Sabelli/Twelve Credits

HRS 499 DIRECTED STUDY IN HUMAN SERVICES AND REHABILITATION STUDIES
This course allows students to explore an area of interest along with the guidance of a faculty member. Students will work with their faculty advisor to develop a research or other project that provides immersion into a topic area of interest. Students, along with their faculty advisor, will develop a project proposal to be approved by the department chairperson and the Dean of Studies. Staff/Variable Credit
Admissions

Admission to Assumption University is limited to individuals of character, intelligence, and motivation, selected from among applicants who have completed the prescribed secondary school requirements. Assumption University supports the efforts of secondary school officials and governing bodies to have their schools achieve regional accredited status to provide reliable assurance of the quality of the educational preparation of its applicants for admission. Matriculation is offered on a full-time basis.

All applicants for admission must graduate from an accredited secondary school with 18 or more academic units. Ordinarily, these 18 units should include four years of English, three years of mathematics, two years of a foreign language, two years of history, two years of science, and five additional academic units. The Admissions Committee will also consider the quality of work, general promise, and seriousness of purpose of the student when reviewing a high school transcript.

Submission of test scores is optional for Assumption University; students decide whether they want their test scores included as part of their application. SAT-II tests are not required, but if submitted may be used for placement purposes. Information on testing dates and centers for the SAT may be obtained on the web at www.collegeboard.com, or by calling (866) 630-9305. Information for the ACT may be obtained on the web at www.act.org, or by calling (319) 337–1270.

Assumption reserves the right to rescind offers of admission at any point prior to a student’s matriculation. Rescission of an admission offer is at the discretion of the University and typically occurs when the University becomes aware of conduct that is in violation of Assumption’s Student Handbook, including false or misleading information or changes in academic performance. Failure to inform Assumption University of any changes to information contained in the application may also lead to rescission of an offer of admission.

APPLICATION PROCEDURE

A complete application includes the following:

1. A First-year Common Application. Students can access application forms at www.commonapp.org
2. A request that the school counselor forward the official high school transcript (including first-quarter senior grades) and recommendation to the Office of Admissions, Assumption University, 500 Salisbury Street, Worcester, MA, 01609. Supporting documents may also be submitted through a variety of electronic portals. Other recommendations are not required, but are welcomed by the Admissions Committee. When deemed advisable, the Admissions Committee may request such additional recommendations.

Submission of standardized test scores (SAT or ACT) is optional for students applying for admission. This policy allows students to decide whether to have test results considered as part of the application. Applicants who choose not to submit SAT or ACT test scores will not be penalized in the review for admission. For students who would like to submit their test scores as part of their application, the SAT code number for Assumption University is 3009. The ACT code number for Assumption University is 1782.

An appointment for an interview and tour may be arranged by calling toll free (866) 477-7776. A personal interview is not required, but it is recommended that the applicant visit the campus.

All applications for regular admission for the first-year class, as well as all supporting credentials, should be filed in the Office of Admissions by February 15 for fall admission and December 15 for spring admission.

EARLY ACTION PROGRAM

Assumption offers an Early Action Program for those students who have determined that Assumption is one of their top choices. All applications for Early Action must be received by November 15 and will receive a decision by Mid-December. Applications for Early Action II must be received by December 15 and will receive a decision by Late January. The candidate will have until May 1 to choose to enroll at Assumption University.
When an early action applicant is deferred, their application will be reviewed in the context of the entire applicant pool, taking into account the student’s mid-term grades and any other new information they may submit. The standards used for the admission review, the merit scholarship review, and the need-based financial aid review are the same for both Early Action and Regular Admission.

EARLY DECISION PROGRAM
Students who have identified Assumption University as their first choice school may choose to apply under our Early Decision Program. Early Decision is a binding agreement and if accepted to Assumption, you agree to enroll, submit a non-refundable deposit by January 15th and withdraw all other applications. Financial aid candidates should file the FAFSA (Free Application for Federal Student Aid) by our priority filing deadline date of March 1. Applicants are encouraged to file their FAFSA at the time of application to expedite delivery of their financial aid offer letter. Any applicants not admitted and not denied under the Early Decision Plan will be deferred to the Regular Decision Plan and their application will be reviewed in the context of the entire applicant pool. Students should file their Early Decision application by November 15th and will receive an answer by December 1st.

ADMISSION OF TRANSFER STUDENTS
A student wishing to transfer from an accredited University or Community College to Assumption University should follow the procedure outlined below:

2. Students who have earned 14 credits or less should submit their final, official high school transcript.
3. Have an official transcript of the courses taken at each collegiate institution attended mailed directly to the Office of Admissions (only courses in which the student has earned a grade of C or better are considered for transfer. The Associate Vice President of Academic Affairs reserves the right to make the final decision on all transfer credits).
4. A recommendation from a current University professor, college administrator, or employer.
6. To be considered for fall admission, all required documents should be submitted before the July 1st deadline. For spring semester admission, all required documents should be submitted before the December 15th deadline.
7. At least 20 of the 40 semester courses must be taken in the undergraduate day University or through the Higher Education Consortium of Central Massachusetts (HECCMA) as an Assumption University student.

ADMISSION OF INTERNATIONAL STUDENTS
Assumption University is pleased to receive applications from qualified international students. A candidate for First year or Transfer admission should follow the procedure outlined below:

2. Official educational records, both secondary and post-secondary transcripts, including subjects studied by year, grades, and examination marks, must be submitted directly from the appropriate institutions. Applicants may also submit copies of diplomas, titles, degrees and certificates;
3. English Proficiency Test: All students, regardless of citizenship, must demonstrate English language proficiency when applying to Assumption. If English is not your first language, you will need to submit official results from one of the following: TOEFL, IELTS, Duolingo or Pearson.
4. Submit a recommendation from a teacher or counselor.
5. Submit Declaration of Finances. Documents must be officially certified or notarized, indicating that the candidate has adequate funds for study at Assumption University. While Assumption University provides need-based aid for international students, those seeking financial assistance should realize that aid is very limited.

6. File all of the required documents by February 15 for Fall admission and October 1 for Spring admission.

Any educational or financial documents not in English must be accompanied by certified English translations.

ADMISSION AS A SPECIAL OR NON-MATRICULATING STUDENT

A non-matriculating student is defined as a student who is not a candidate for a degree. The number of courses or credits taken per semester does not affect this status. To be admitted as a non-matriculating student, an applicant must meet the regular entrance requirements and prove himself/herself qualified to pursue the studies concerned. A non-matriculating student is subject to the same academic regulations and discipline as a regular student. However, he/she is given no class rating and is not eligible for academic honors. The University reserves the right to limit the number of courses to be taken. A non-matriculating student is charged at a per-credit rate, plus additional fees as determined by the Business Manager. Special student applications are available in the Office of Admissions. Financial Aid is not available for special students.

Financial Aid and Expenses

Each year Assumption University awards a number of scholarships, grants, loans, and work study funding to incoming first-year and returning students. The scholarships are competitive and are made on the basis of both financial need (as determined by the Free Application for Federal Student Aid/FAFSA) and scholastic achievement. Most awards are renewable each year provided the student maintains financial aid satisfactory academic progress (SAP) and files the proper financial aid documents by the deadline. Students’ financial aid levels are also reviewed annually and may impact the renewal of need-based financial aid awards. Assumption University merit and need based scholarships and grants are renewable for eight (8) semesters of full time (at least 12 credits) undergraduate enrollment. Students must maintain the cumulative grade point average required for merit based scholarships. Merit and need based scholarships are not applied to summer or intersession course work.

To apply for financial aid, applicants must submit:

1. An application for admission to the University (all first-year and transfer students)
2. A Free Application for Federal Student Aid (FAFSA) www.FAFSA.gov
3. The priority filing deadline for first year students is March 1st, and for transfer and upper-class students is March 31st.

FEDERAL STUDENT AID PROGRAMS

FEDERAL PELL GRANT

The Federal Pell Grant Program is an entitlement award designed to provide financial assistance to undergraduate students who qualify on the basis of financial need by filing the Free Application for Federal Student Aid (FAFSA). These are grant funds which do not need to be repaid. The amount of the Federal Pell Grant is determined on the basis of the expected family contribution, the cost of education, the number of courses taken, and the number of semesters in attendance per academic year.

FEDERAL SUPPLEMENTAL EDUCATIONAL OPPORTUNITY GRANT (SEOG)

This is a federally funded grant program. Recipients are selected by Assumption University, and funds are generally reserved for undergraduate students with exceptional financial need (Federal Pell Grant eligible).
FEDERAL WORK-STUDY PROGRAM
The Federal Work-Study Program provides employment for students in need of financial assistance to help pay for their University education. Funds for this program are provided by the federal government and in part by Assumption University. Students are selected for these self-help funds based upon their financial need, and it is offered as part of the financial aid package. Funds must be earned, and will be paid bi-weekly on an as-worked basis.

WILLIAM D. FORD FEDERAL DIRECT LOAN PROGRAM
The William D. Ford Federal Direct Loan Program is a low-interest, long-term educational loan available to students to assist them in meeting their educational expenses. Funds are provided by the federal government. Students must complete the Free Application for Federal Student Aid (FAFSA). Students who demonstrate financial need will be eligible for a William D. Ford Federal Direct Subsidized Loan. The William D. Ford Federal Direct Unsubsidized Loan is for students who do not demonstrate financial need as determined by the federal government. Limits for this program are set by the federal government depending upon the student’s year in University.

SATISFACTORY ACADEMIC PROGRESS (SAP)
In order to retain financial aid eligibility, all undergraduate students enrolled on either a full-time or part-time basis must maintain Satisfactory Academic Progress (SAP). SAP is defined by the regulations of the U.S. Department of Education as, “proceeding in a positive manner toward fulfilling degree requirements.” Please note that these standards differ from the academic standing standards as stated in the “Academic Regulations” section of this catalog. Students are evaluated annually at the end of the spring semester. Financial Aid SAP review includes the following qualitative and quantitative standards of measurement: cumulative GPA, cumulative credit hour completion, and maximum time frame limitation.

Qualitative - Cumulative Grade Point Average (GPA). A student must be in good academic standing to receive federal, state, and institutional financial aid. This means a student must have a minimum cumulative GPA of 2.0.

Quantitative (Pace) - Minimum Completion Rate for Attempted Credit Hours. Each academic year, the Registrar’s Office in consultation with the Office of Financial Aid will evaluate all students’ academic progress by comparing the number of successfully completed courses with the number of courses attempted during the academic year. A student must demonstrate progress by accumulating academic credits at a rate that indicates graduation in a timely manner. A student who is not progressing towards graduation at the defined completion rate will not receive federal, state, or institutional financial aid regardless of GPA. A student must successfully complete at least 67% of all cumulative attempted credit hours in order to be eligible for all sources of federal, state, and institutional financial aid funding at Assumption University. The cumulative, attempted credit hours includes all transfer credit accepted by Assumption University and noted on the academic transcript.

Quantitative (Maximum Timeframe) - Degree Completion
Maximum time frame is the maximum number of years after first enrollment that a student may complete Assumption University courses in the pursuit of a degree. The maximum time frame for completing a program cannot be longer than 150% of the published length of the program or the required number of credits of the student’s degree program. For a full-time student pursuing a 4-year undergraduate degree, the student is allowed up to 6 years or 180 attempted credits of federal and state financial aid eligibility to earn the 120 credits required for degree completion. All semesters the student is enrolled will count towards the maximum time frame, even if the student did not receive aid for each of those semesters. If it becomes apparent that the student will be unable to meet SAP standards within the maximum time frame, the student will become ineligible for financial aid. The qualitative, quantitative, and maximum timeframe review will be completed on an annual basis by the Office of Financial Aid to determine if the student has exceeded the maximum years in which courses are attempted.

Treatment of Courses
Audited Classes - Audited classes will not be counted as attempted or earned credit.
Incomplete credit - Courses with an “I” designation will be counted as credit attempted but not earned.
Pass/No Credit classes – courses passed (grade above a C-) in the pass/no credit option will not be factored in the GPA component of SAP but will be counted as attempted and completed credits. Students who receive a grade of below C- in the Pass/No credit option will not have the grade counted towards their GPA and the credits will be considered as attempted and unearned credit.
Repeat Coursework - Students may receive financial aid funding for the repeat of a failing grade or withdrawal of any class or classes. Repeat of the same course may only be funded one additional time. Every attempt of a repeated course counts as attempted towards completion rate, but it only counts once as completed.
Transfer credit - Transfer credits accepted by Assumption University will be counted as attempted and earned credit and count towards the quantitative (pace and maximum timeframe) but not the qualitative SAP review (GPA).
Withdrawal from course - Courses with a “W” designation will be counted as credit attempted but not earned.
Grades earned - Students who earn the following grades in a course will be counted as credit attempted and earned:
A, B, B+, C+, C, C-, D+, D, D-.
Students who earn the following grades in a course will be counted as credit attempted but not earned:
F, I, and W.

Leaves of Absence
The period of time for which a student received an approved, institutional leave of absence will be excluded from the maximum time frame required to complete their program.

Financial Aid Suspension
Students who fail to meet the required Financial Aid SAP standards will be placed on Financial Aid Suspension and become ineligible for continued financial aid funding (federal, state, and institutional) beginning with the term immediately following the term in which the SAP requirements were not met. The Office of Financial Aid will notify the student in writing of their aid status and the appeal process.

Academic Dismissal or Withdrawal
Students who are academically dismissed or who withdraw from Assumption University will no longer qualify for any source of financial aid funding: federal, state, or institutional.

Regaining Financial Aid Eligibility, Appeal Process
Students not meeting Assumption University’s financial aid SAP requirements may appeal the loss of financial aid funding to the Office of Financial Aid by completing the Financial Aid SAP Appeal form. Some examples of reasons for such a request may include, but are not limited to, serious illness or injury to the student or immediate family member, death of an immediate family member, or significant trauma in the students’ life that impaired the student’s emotional or physical health.

Appeal Procedures
A Financial Aid SAP Appeal Form must be submitted by the student to the Office of Financial Aid for review. The appeal should explain in detail the reason(s) for not meeting the standards for academic progress, the step(s) the student plans to take to correct his/her academic progress, and list in detail any extenuating circumstance(s) of which the appeal committee should be aware.

Financial Aid Probation
If a student’s Financial Aid SAP appeal is approved, they will be moved from Financial Aid Suspension status to Financial Aid Probation status and allowed to receive financial aid for the designated timeframe indicated in the appeal letter.

Academic Education Plan
A student’s appeal may be approved with the condition they follow an Academic Education Plan, standards of which will be set forth by the Director of Financial Aid. At the end of the timeframe in which the student is allowed to receive financial aid while on Financial Aid Probation status, the student will be reviewed to ensure they are meeting the terms of their plan. If the student chooses not to appeal or the appeal is denied, the student may continue to enroll in classes (without the assistance of financial aid) if they are still academically eligible to do so. Payment plans and some private loans are available to assist the student during the timeframe in which the student remains ineligible for aid. A student may regain eligibility by meeting Financial Aid SAP standards in future semesters.

VERIFICATION POLICY
The federal government randomly selects financial aid applicants for a process called “verification.” Students and parents should review the results of their processed FAFSA (ISIR) to see if they have been selected for verification. If selected, the Assumption University Office of Financial Aid will notify applicants of the required documents they will be need to complete and submit. Failure to respond to any verification request may result in the loss of financial aid.

VETERANS BENEFITS
In accordance with Sec. 103 of the Veterans Benefits and Transition Act of 2018, Assumption permits any covered individual to attend beginning on the date on which the individual provides to the University with a certificate of eligibility for entitlement to
educational assistance under chapter 31 or 33. A certificate of eligibility may also include a Statement of Benefits obtained from
the Department of Veterans Affairs’ (VA) website – eBenefits, or a VAF 28-1905 form for chapter 31 authorization purposes and
ending on the earlier of the following dates:
1. The date on which payment from VA is made to the institution.
2. 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility.

Assumption University does not penalize Chapter 31 or 33 students if/when the VA is late making payments, and does not have
any policies in place that would prevent enrolling in and attending courses. It does not assess late fees, or require alternative or
additional sources of funding, or deny access to school resources due to late VA payments.

In order to prevent outstanding student accounts, Chapter 31 or 33 students must:
• Submit a COE or Statement of Benefits by the first day of classes
• Submit a written request to be certified
• Provide any additional information needed for certification

MERIT SCHOLARSHIPS
The Assumption University Merit Scholarship Program was established to reflect the University’s commitment to upholding a
campus culture that champions academic excellence and student leadership. Scholarships are awarded to entering first year
students whose high school records demonstrate strong academic achievement, leadership, and potential for success at
Assumption University. Merit scholarships are renewed annually (up to four years/eight semesters) as long as students maintain
the required GPA while enrolled at Assumption University. Merit Scholars may also qualify for need-based financial aid to
supplement their merit awards.

AUGUSTINE SCHOLARS PROGRAM
The Augustine Scholars program was established in 1996. These merit scholarships are awarded to juniors and seniors who have
been nominated by faculty, staff, and administrators on the basis of their high academic achievement, who have demonstrated
initiative and creativity in academic and co-curricular endeavors, and who are of good character. The founding donors of the
program are:

Mr. John J. Barnosky ‘64
Mr. Raymond W. Belair ’70 in honor of Dr. Mary A. and
Raymond F. Belair
Mrs. Winifred E. Brough
Mr. Louis Y. Chartier ’34
Mr. Richard Cohen
Mr. John B. Connolly
Dr. Donald D’Amour ’64
Mr. Douglas Denby
Imperial Distributors
Mr. John F. Kennedy
Kervick Family Foundation, Inc.
Mr. J. Michael Martin ’63

John McShain Charities
Mr. Robert T. Mossey ’65
Polar Corporation
Mr. Luc Pierre Quinson ’68
Rev. Msgr. Mederic J. Roberts ’43
Mabel C. Ryan Memorial Scholarship
Mrs. Roberta R. Schaefer
Stratford Foundation
Mr. Woodbury C. Titcomb in honor of Miss Connie C.
Turner
Mr. Eric J. Hirvonen Jr. ’65
Mr. Michael P. Tsotsis ’71
Mr. Stephen A. Tuttle ’62

ENDOWED SCHOLARSHIPS
Through the generosity of its alumni and special benefactors, Assumption University is able to assist many students in awarding
them scholarship and grant funding to offset their educational costs. The majority of endowed scholarships are awarded to
students based on their demonstrated financial need (FAFSA) and will replace previously awarded Assumption University Grant
funding. The following is a list of the endowed scholarships that are available on a limited basis through the Office of Financial
Aid.

William and Jean Alberga Scholarship
Pierre B. Aucoin, M.D. ’25 Scholarship
Authier-Vallée Scholarship Fund
John J. Barnosky, Esq. ’64 Endowed Scholarship

Bro. Robert Francis Beaulac, A.A. Memorial Scholarship
Henry Beauvais Scholarship Fund
Robert W. Blanchette Scholarship Fund
John L. Bresciani ’72 Memorial Scholarship
Winifred Brough Scholarship
Dr. Eugene W. Byrnes Scholarship
Angeline C. Carocari Scholarship Fund
Christopher R. Caron Scholarship
Dorothy and Normand ‘34 Cartier Endowed Scholarship Fund
Centennial Scholarship Fund
Reverend Gilbert Chabot, A.A. Scholarship in memory of Ellen M. Amaral
Paul N. Chaput Fund
David L. Christianson Scholarship Fund
John and Elena Clancy Endowed Scholarship Fund
Class of 1975 Endowed Scholarship
Paul ‘38 and Georgette Coderre Scholarship Fund
Jeanne Y. Curtis Endowed Scholarship
George E. And Sarah Denommé Memorial Scholarship
Fr. Louis F. Dion, A.A. ‘35 Scholarship
Harry Doehla Memorial Scholarship Fund
Dr. Angela G. Dorenkamp Scholarship
Mary M. Doyle G’77 Scholarship
Dufault Family Scholarship
Saint Marie Eugénie Scholarship
Fallon Health Scholarship
Reverend Joseph S. Fortin Scholarship Fund
Fuller Family Fund
Robert ‘65 and Maureen G’67 Gray Scholarship Fund
Thomas and Bernadette Goulet Grenier Scholarship
Roland Gregoire ‘34 Scholarship Fund
Fr. Paul Goudreau G’65 Scholarship
Joseph H. Hagan Scholarship Fund
Raymond P. and Myrtle S. Harold Memorial Fund
William Randolph Hearst Foundation Scholarship
The John J. Hynes, Sr. Family Scholarship
The Jean L. Hynes Family Scholarship
Docithe E. Jette and Diana Savaria Jette Memorial Scholarship Fund
J. Michael Keefe ‘93 Memorial Scholarship Fund
Gregory A. Keil ‘94 Endowed Scholarship
Brian Kelly ‘83 Family Endowed Scholarship
Susan ‘80 and Jeffrey ‘76 Lagarde Endowed Scholarship
Fr. Raymond Lambert ‘50 Endowed Scholarship
The Cynthia Courtney and Adelard F. Landry ‘42 Scholarship
The Dr. Joseph Alfred ‘56 and Jacquelyn Mary Leblanc Scholarship
Bro. Armand Lemaire, A.A. ‘48 Scholarship
James G. Lucchese Scholarship
Lynch Scholarship Award
Raymond J. Marion Scholarship Award
Christine Cannon Markes ’77 Endowed Scholarship
Prof. James McCarthy Memorial Scholarship
Nancy E. McGovern Endowed Scholarship
Milleret-Barnes Scholarship
Colonel Francis R. Moulin Scholarship
Albert G. Nault, Sr. Scholarships
Agnes (Murphy) and Edward Neafsey, Jr. and Marion (Kelliher) and Lawrence Picard Scholarship
Stephen ‘69 and Cynthia O’Brien Scholarship
Matteo A. Pagano ‘59 Scholarship
Amelia Peabody Charitable Fund Endowed Scholarship
J. Romeo Pelletier ‘52 Endowed Scholarship Fund
George ‘47 and Jacqueline Picard Scholarship
Dr. Maurice B. Plasse Memorial Scholarship
Tom and Monty Plough Scholarship Fund
Clara Racine Reardon Scholarship
Hilaire J. Racine Scholarship
Joseph Racine Scholarship for Medical Students
G. Rainville and N. Rainville Family Scholarships
Joseph Riley ‘11 Scholarship Fund
Colleen Ritzer ‘11 Memorial Scholarship
Leo and Madeline Remillard Scholarship Prize
Maria E. Robert Scholarship
Mabel C. Ryan Scholarship
Alice L. Sabeau Scholarship
Santander Bank Scholarship
Louise A. and John Enrico Scola Scholarship
Bertha M. and Elzeard J. Senecal Prize
Erika and Geoff Smith ‘66 Scholarship Fund
Stanley and Mary Ann Snider Scholarship
The Spillane Family Endowed Scholarship Fund
Sullivan Family Scholarship
Mrs. Nellie E. Surprenant Scholarship Fund
Rev. Arthur A. Sylvestre Scholarship
Richard Testa ‘59 Scholarship
The Chester Thompson Scholarship in the Natural Sciences
The Shirley Thompson Scholarship in the Visual Arts
John and Helen Tinsley Scholarship Fund
Michael and Dorothy Tsotsis Scholarship Fund
Msgr. Roger Viau ’38 Scholarship
The Nita and Charles Volkavitch Scholarship
EXPENSES 2021-22

All charges are subject to review and change at any time by the Assumption University Board of Trustees.

PAYMENT OF BILLS

Assumption University follows a policy of billing students directly. Bills for each semester are available prior to the beginning of each semester. Students receive their billing statements electronically through their student portal. For your convenience, payments may be made electronically through the student account center or through the payment gateway [https://assumption.afford.com](https://assumption.afford.com).

Students will not be considered officially registered and, therefore, will not be issued class schedules or officially listed in the class roster until their bill is paid. Payments are applied to a student’s bill in the order of past due balance, fines, interest, fees including room and board, miscellaneous charges, and finally, tuition. Specific fees are often assessed after the student’s class schedule is fixed.

The University does not offer a deferred payment plan. Students wishing to use an installment plan must make private arrangements with TMS/Nelnet, a payment plan provider which offers this type of plan on a for-fee basis. Information on this plan is available through the Student Account Center, online [http://assumption.afford.com](http://assumption.afford.com) or from the Student Accounts office.
Financial aid, loans, payments from deferred payment plans, etc., must be received by the payment due date each semester. Payments received after the due date will be assessed a $100 late fee. A late application for financial aid by a student does not excuse late fees charged by the University.

REFUNDS
No consideration will be given to applications for refunds from an individual course or the University unless the student has filed an official withdrawal notice with the Associate Vice President for Academic Affairs. To obtain access to the online withdrawal form, email Dr. Eloise Knowlton at eknowlton@assumption.edu. The date of withdrawal is the last day of attendance. No amount paid is returnable upon a student’s voluntary withdrawal from the University as a matter of right. Also, no refund is made for delay in attending class at the beginning of a term or for withdrawal or dismissal beyond the eighth week of a semester. Refunds made on tuition will be made in accordance with the following schedule:

<table>
<thead>
<tr>
<th>Date of Withdrawal Based on Last Day of Class Attended</th>
<th>Tuition Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>On or before the first day of classes</td>
<td>100%</td>
</tr>
<tr>
<td>Second day of classes through last day of second week of classes</td>
<td>90%</td>
</tr>
<tr>
<td>First day of the third week of classes to last day of fourth week</td>
<td>50%</td>
</tr>
<tr>
<td>First day of the fifth week of classes to last day of the eighth week</td>
<td>25%</td>
</tr>
<tr>
<td>First day of the ninth week, and after</td>
<td>0%</td>
</tr>
</tbody>
</table>

Refunds on board charges and room charges will be calculated on a daily pro-rata basis. No refunds are granted on fees at any time. Refund checks are issued by the Student Accounts once per week and mailed to the student’s address on record with the Registrars’ office. Any refunds due to the student will first be offset against any other amounts owed to the University. Refunds related to the Student Accident and Sickness insurance plan are determined by the insurance carrier. Please refer to their pamphlet. An optional tuition protection plan is available. Enrollment is offered through the Student Accounts Center when payments are made electronically. For more information consult http://www.gradguard.com/ tuition/assumption.

SECOND FAMILY MEMBER DISCOUNT
A $1,000 reduction is granted if more than one dependent member of a family is in full-time attendance. This credit is applied to the account of the older student.

COURSE OVERLOAD
Students taking more than 15 credits per semester will be billed per credit hour accordingly. The exception would be for Dean’s List students who have the option of taking an additional course at no expense for the following fall or spring semester only. Summer and intersession courses are not granted by means of Dean’s listing. Students will normally be charged for a sixth course consisting of three credits. Students taking a Natural Science course will be charged an additional $400.00 per four-credit course.

FAILURE TO PAY COLLEGE FINANCIAL OBLIGATIONS
All students complete a Financial Responsibility Agreement prior to course registration each semester. Enrolled students may be suspended from the University for past due obligations, an action which includes removal of courses and prevention from course enrollment and campus housing for future terms. Students whose accounts are not in good standing may not be allowed to participate in the housing lottery. Current and former students will have a financial hold placed on their official academic transcript. Past due obligations may be referred to a collection agency at the discretion of the University. In such cases, the student will be liable for any collection and legal fees which may total 50% of the outstanding bill.

TUITION REMISSION / STAFF COURTESY
The tuition remission form must be completed for each semester before tuition credit will be given. Tuition remission only applies to tuition, with payment for all other fees being the responsibility of the student by the specified due date.

GRADUATION CLEARANCE
Diplomas and official transcripts are released only upon full payment of all bills. All tuition, service charges, graduation fee, and miscellaneous fees, including library fees, must be paid in full by the announced graduation clearance deadline. Student accounts that are not fully paid by graduation.
THE STUDENT BODY
Assumption University is an institution born out of and standing within the Roman Catholic tradition. The student body, like the faculty, includes persons of many creeds, races, religious traditions, and nationalities. Eighty-five percent of the undergraduates are resident students. The remaining fifteen percent of students commute from Worcester and its suburbs. Of the resident students, approximately two-thirds are from New England. The other one-third come principally from the Middle Atlantic states, as well as from other parts of the United States and from abroad.

CAMPUS MINISTRY
Inspired by the Assumption University motto “…until Christ be formed in you,” the Office of Campus Ministry encourages students to “live a life that matters” through opportunities for prayer and worship, service and justice, and spiritual growth and development. These are open to students of all religious traditions as well as those who are not connected with a church, synagogue, temple or mosque community.

Prayer and Worship
Students are invited to participate in a variety of prayer and worship opportunities including Sunday and weekday Masses, daily Morning and Evening Prayer, the Sacrament of Reconciliation, Adoration of the Blessed Sacrament, and occasional Protestant worship services, as well as the student-led Candlelight Prayer and Charismatic Praise. Many students serve at campus liturgies as Greeters, Altar Servers, Lectors, Communion Ministers and Music Ministers. Bible study groups, including some just for athletes, meet weekly. Spaces for quiet prayer and meditation include the Chapel of the Holy Spirit and an Interfaith Prayer Room in the Tinsley Campus Ministry Center which offers prayer rugs, meditation cushions and books from a variety of religious and spiritual traditions. The campus ministers can also connect students who are not Catholic with a worshipping community from their faith community in the Worcester area.

Service and Justice
Students have numerous opportunities to serve and develop solidarity with those who are poor both locally and beyond Worcester. Campus Ministry’s Reach Out Center (ROC) seeks to enhance the liberal arts education and faith lives of Assumption students by connecting them with meaningful, pro-active volunteer service. Through their experience in a variety of Worcester area programs, ROC participants build relationships with community partners, acknowledge responsibility to help meet the needs of our neighbors, and gain insight into how to effect positive change in our world. Students identify times that fit their schedule and pick their area of volunteer interest from options that include housing assistance, youth mentoring, pre-school assistance, empowerment programs, in-school tutoring, after-school programs, parish outreach, and adults in transition/hunger. University vans provide transportation to service sites for students who do not have a car.

Campus Ministry’s SEND service/immersion trips offer students an opportunity to serve others, to experience the reality of poverty, and to gain insight into their personal spiritual lives. SEND participants develop strong bonds with other Assumption students, staff, faculty and alumni through a combination of shared service experiences, prayer activities, immersion opportunities, and critical reflection rooted in the Assumptionist tradition and Catholic Social Teaching. Week-long SEND trips take place during winter, spring and summer breaks, and current sites include Baltimore MD (Habitat For Humanity), Camden NJ (Romero Center Ministries), Duran, Ecuador (Rostro De Cristo), Florida (Immokalee Friendship House), Pennsylvania (Habitat For Humanity), Pine Ridge SD (Re-Member), Tuscaloosa AL (Habitat For Humanity), and Washington, DC (Bethlehem House and L’Arche).

Students have the opportunity to serve parishes in the Worcester area through the SEARCH retreat program for high school Confirmation candidates and through the Foundations in Faith program in which Assumption students teach religious education classes for children. AC Allies, Assumption’s gay-straight alliance, provides support to students who identify as LGBTQ and a safe place to discuss issues connected to the LGBTQ community. Advocates for Life offers students the opportunity to discuss and educate the University community about a variety of life issues including euthanasia, abortion, death penalty and human trafficking. Catholic Relief Services Social Justice Ambassadors raise awareness, educate and foster dialogue about issues of inequality, justice and social change.

Spiritual Growth and Development
Assumption’s popular retreat program invites students to get to know themselves and one another in an off-campus setting while exploring topics of identity, community, commitment, faith and service. A one day on-campus retreat known as Genesis is offered for first year students in September. Agape Latte is a series of evening programs in Charlie’s featuring desserts, coffee, and
reflections by members of the Assumption community on how they have integrated faith in their life. Topics such as friendship, hope, forgiveness, prayer, dating, discernment and growth in character are typical topics. Discernment groups provide students a place to reflect on how to discern God’s will for their lives including the possibility of a life of service to the Church as religious brothers or sisters, priests, or lay ministers.

Six campus ministers serve the Assumption community: an Assumptionist brother, a Catholic deacon, two Catholic lay ministers and two Protestant members of InterVarsity Christian Fellowship. Four young missionaries from the Fellowship of Catholic University Students assist the campus ministers in providing opportunities for students to develop a transformative relationship with Jesus Christ. Campus ministers are available in the Tinsley Campus Ministry Center adjacent to the Chapel of the Holy Spirit and in the Campus Ministry office in the Hagan Campus Center for pastoral care and spiritual direction with students, and these conversations are protected by confidentiality. Two campus ministers and a graduate assistant also live among the students in the residence halls as Ministers in Residence. The Lauring Community Room in Tinsley is a comfortable space for students to study, hang out, grab a free cup of Fair Trade coffee, or chat with a campus minister. Tinsley is open every day until 11 PM during the academic year.

STUDENT AFFAIRS
Assumption, a Catholic institution sponsored by the Augustinians of the Assumption and rooted in the Catholic intellectual tradition, strives to form graduates known for critical intelligence, thoughtful citizenship and compassionate service. Student Affairs staff support that mission throughout the residential and co-curricular aspects of student life on campus. We plan and implement programs around a core set of principles to help Assumption students achieve their full personal and academic potential. The bell tower in front of the Chapel of the Holy Spirit has five bells that ring clearly across campus. Our five principles do the same. As a Catholic University, we are very clear about our identity. We are catholic in our approach and believe that each student should be encouraged to explore and understand his or her personal faith tradition.

• Principle 1 – Community - Assumption University seeks to foster friendships among students that help individuals grow, and become better family members, thoughtful citizens, participants in communities of faith, and stewards of the earth.

• Principle 2 – Contemplation - Assumption University provides opportunities for students to open their minds, reflect thoughtfully on their experiences, and grow in the spirit of gratitude and generosity.

• Principle 3 - Longing for God - Assumption University encourages the development of a more fully formed conscience that will enable our graduates to lead a virtuous life, recognizing that conscience formation and the pursuit of truth occur over the course of a lifetime.

• Principle 4 – Vocation - Assumption University works with students to help them identify their personal vocations and make thoughtful life choices.

• Principle 5 – Mission to Serve - Assumption University encourages students to take bold action that reflects a generous heart and compassion for others.

STUDENT HEALTH SERVICES
Student Health Services (SHS), located in Armanet House, provides holistic, high-quality, confidential, episodic and urgent care, as well as health education for full-time undergraduate students currently enrolled at Assumption University. Our highly qualified staff encourages and educates students to make healthy lifestyle choices and become advocates for their own healthcare. Clinic services are provided by Nurse Practitioners who work in collaboration with a consulting Physician. Health Education for the campus community is provided by a Certified Health Promotion Specialist and PAWS (a student peer health education program). Nutrition counseling is provided in collaboration with dining services. Services offered by Heath Services are covered by tuition and the Student Health Services fee. There are no office fees or co-pays for visits to Health Services, and the school health insurance plan does not need to be purchased in order to receive care. However, health insurance is mandatory, and a low-cost student health insurance plan is available through the Finance Office. A student’s insurance plan may incur charges for additional medical services, including but not limited to lab tests, radiology tests, prescription medications, and ambulance transportation. Clinic services are available Monday-Friday, 8:30AM–4:30PM when classes are in session.
ALCOHOL, DRUG & WELLNESS EDUCATION
Assumption University provides support and response to alcohol and other drug-related concerns of students by providing education, consultation, assessment, and referral to other constituents when necessary. Through educational workshops and programs, the University facilitates campus-wide awareness for sexual assault prevention and alcohol and other drug related issues. All first-year and transfer students are required to complete AlcoholEdu and Sexual Assault Prevention for Undergraduates, two online educational programs. Additionally, our student peer education group PAWS (Peers Advocating Wellness for Students), provide wellness programs for students that address alcohol/drug concerns as well as a myriad of other health and wellness topics.

COUNSELING SERVICES
Assumption University Counseling services, located in Fuller Hall, offers a broad range of services to assist students with their personal, social, and mental health concerns. These services are available on both an individual and group basis. Counseling can be helpful in addressing many mental health concerns such as anxiety, depression, alcohol and drug issues, and eating disorders. Counseling can also be helpful for personal growth, issues of development and adjustment, as well as relationship concerns for students at all stages of their University years. Services (included in tuition and the Health Services fee) are available to all fulltime undergraduate students. Based on Massachusetts law and our professional code of ethics, information shared in counseling is kept confidential. Counseling Services staff are also available to provide consultation, psychiatric medication evaluation, as well as psychoeducational programming on topics related to mental health and wellness.

CAREER DEVELOPMENT AND INTERNSHIP CENTER (CDIC)
The Career Development and Internship Center (CDIC) assists full-time undergraduate day students and Accelerated MBA students in identifying their strengths, skills and gifts for the purpose of preparing for success after graduation. The CDIC supports students through the process of obtaining and applying for internships, full-time jobs, graduate school, and post-graduate service programs. Support is provided through workshops, events and programs, experiential learning opportunities, individual advising, scheduled appointments, Handshake (the CDIC’s recruiting system), and interviews with recruiters. Email us at careerdevelopment@assumption.edu to schedule an appointment with a career advisor. Visit the CDIC website at career.assumption.edu for more information about the CDIC and resources to assist you as you explore academic and career options, set goals, and work towards post-graduate success. The CDIC is located on the lower level of Alumni Hall in Alumni 026.

CROSS-CULTURAL CENTER
The Cross-Cultural Center (CCC) promotes multicultural awareness and educational programming for the Assumption community to support and complement the University’s commitment and mission for diversity. The Center serves as a resource for students, staff and faculty, and is an inclusive and safe space for students to come and explore their identities and learn about other races, cultures, and religions. The Cross-Cultural Center staff supports, advises, and advocates for Assumption’s ALANA (African, Latino/Hispanic, Asian, and Native-American) student population and supports first-generation students as they transition to and through their University experience. The Center staff work in partnership with faculty and staff to develop programs that enhance cross-cultural understanding and emphasize human dignity, solidarity, and the importance of working for justice for all people.

RESIDENTIAL LIFE
The Office of Residential Life is responsible for overseeing the daily operations and activities within the residential areas, which houses more than 1800 students in eighteen residence halls, suites, apartments, and townhouse complexes. The staff is comprised of the Director of Residential Life, the Assistant Director of Residential Life, one Area Coordinator, and five Resident Directors (full time professionals responsible for the supervision of the area), and fifty-four Resident Assistants (students who assist the resident directors in their responsibilities). Together they work to ensure that on-campus living will be an enjoyable, safe, inclusive, and educational experience. The Office provides a variety of administrative, referral, and programming functions. Residential Life works to create a community-oriented environment that maximizes a person’s potential for academic and co-curricular development. The Office looks to students to provide the enthusiasm and commitment to help us achieve a positive learning atmosphere within our University community. In collaboration with Campus Ministry, the Office of Residential Life administers the Peer Ministry program, which provides an opportunity for student leaders to participate in the work of faith development among our students and to grow in their own faith. Peer Ministers work in collaboration with the Resident Assistants in each hall on campus to plan and implement prayer opportunities with the residence halls each week. Additionally, Peer Ministers encourage one-on-one conversations about faith with residents within the halls. Peer Ministers also meet each
Housing options include:

**HONORS HOUSING**
This alternate housing option provides students with a community that fully supports the attainment of academic excellence. The mission of the Honors Housing is to provide students with a seamless educational environment in a smaller residential setting.

**SUBSTANCE-FREE HOUSING**
The University offers substance-free housing in Nault Hall. Residents who choose to live in this hall also choose to live a substance free life, and not to use or possess alcohol, tobacco or illegal drugs, and ensure that their guests abide by these same guidelines.

**FR. ISIDORE GAYRAUD, A.A. LIVING LEARNING CENTER**
The Living Learning Center (LLC) is a living learning community for students who are intellectually engaged and want to strengthen their capacity to critically analyze differing viewpoints, to speak clearly and persuasively, to develop an awareness of current events bearing on our global society, and to gain a better understanding of Catholic intellectual tradition. This model provides opportunities for students to enhance their undergraduate experience through involvement with faculty and staff Through Interest Circle discussion groups, residents of the Living Learning Center have structured opportunities to learn about current events and social issues in this unique residential community.

**CAMPUS POLICIES**
In any academic community, policies are necessary to maintain order and an atmosphere conducive to academic and co-curricular success. They are based on the premise of responsible freedom, a principle that helps to shape the mature citizen of tomorrow. Assumption University expects the members of this voluntary community to conduct themselves in a manner that reflects the values that are the foundation of our Catholic institution. Written policies serve as guidelines toward reasoned action. These policies are recorded and described in detail in the Student Handbook and supplemental bulletins. Attendance at Assumption University represents acceptance of these policies and a commitment to abide by them. The Vice President for Student Affairs/Dean of Students is responsible for most areas of student life outside of the classroom. Various advisory boards, which include student representatives, serve to recommend, formulate, and update policy.

**OFFICE OF COMMUNITY STANDARDS**
The Office of Community Standards enforces the University Conduct Code and administers the student conduct process. The overall goal of the department is to establish a safe educational environment that fosters individual responsibility, integrity, and respect. The Office of Community Standards strives to attain that goal by promoting responsible decision-making, educating students about University policies, holding students accountable for their actions, and helping them learn from their mistakes. The conduct process is designed to be educational, transformative, transparent, fair, expedient, and respectful of students’ rights.

**INTERCOLLEGIATE ATHLETICS**
The Intercollegiate Athletics Program is directly related to the education of the students. It is designed to enhance the athletic skills and competitive instincts of all participants. In addition, intercollegiate athletics assists in the development of the personal characteristics of fairness, cooperation, self-control, and good sportsmanship, and to extend the student’s physical and social capacities. The University is a member of the National Collegiate Athletic Association (NCAA), and competes at the Division II level. Assumption is also a member of the Northeast-10 Conference (NE10). Assumption University offers the following 24 varsity athletic programs in NCAA Division II and the Northeast-10 Conference: Baseball (Men’s), Basketball (Men’s and Women’s), Cross Country (Men’s and Women’s), Field Hockey (Women’s), Football (Men’s), Golf (Men’s and Women’s), Ice Hockey (Men’s), Lacrosse (Men’s and Women’s), Rowing (Women’s)/Independent Conference Membership, Softball (Women’s), Soccer (Men’s and Women’s), Swimming (Women’s), Tennis (Men’s and Women’s) Track and Field (Men’s and Women’s), Volleyball (Women’s).
INTERCOLLEGIATE ATHLETIC ELIGIBILITY
Students who desire to participate in the intercollegiate athletic program must register with the NCAA Eligibility Center prior to participation. Members of Intercollegiate Athletic teams must comply with the NCAA rules on eligibility and meet the academic standards of Assumption University. Assumption University chooses to adhere to a higher academic standard for its student athletes than the NCAA minimum requirement. For further details regarding academic eligibility, please refer to the Student-Athlete Handbook or contact the Department of Athletics.

BLUE AND WHITE SPORTS
Beginning in the 2019-20 academic year Assumption will begin offering three Blue and White Club sports. These teams will be men’s swimming, women’s ice hockey, and esports. These programs will compete against other schools in the region with the expectation of eventually competing at the highest national club level for their respective sport. Each sport has a coach to oversee all aspects of the program including recruiting potential student-athletes and helping them develop the necessary skills to be successful once they arrive on campus.

CAMPUS RECREATION
The Department of Campus Recreation and the Plourde Recreation Center are committed to a student-centered approach for recreation programs and facilities. The recreation programs are designed to enrich the college experience for all participants and provide diverse opportunities that promote a sense of community, support student development and encourage the pursuit of a healthy and active lifestyle. We aim to meet these goals through offering variety of intramural sports, club sports, fitness classes, and special programs. The Plourde Recreation Center is fully equipped with cardio equipment, free weights, sectorized machines & stretching/meditation areas. The facility also includes a pool, racquetball courts, aerobics studio, saunas and multipurpose courts for a variety of open recreation activities. There are numerous opportunities for employment and leadership positions in Recreation such as Facility Supervisor, Building Staff, Intramural Official, Lifeguard, Water Safety Instructor or Fitness Class Instructor. Campus recreation takes a holistic approach when developing these goals with a person’s wellbeing in mind by seeing the connection between physical, mental, and emotional health. Campus recreation aims to create an atmosphere that promotes a healthy and active lifestyle.

OFFICE OF STUDENT ACTIVITIES
Student involvement in various clubs and organizations on campus is overseen by the Office of Student Activities. The department supports student development and a vibrant campus life program, with an array of social, recreational, academic and cultural activities to develop the co-curricular student experience. The Office of Student Activities is comprised of a director and program coordinator. The department goals of the staff in Student Activities are:

- Provide an environment conducive to leadership and growth.
- Empower students to enhance their community through programming, service and engagement.
- Encourage positive learning through mentorship.
- Embrace ethical and social responsibility while valuing diversity.

The Office of Student Activities works closely with students to organize, publicize and implement co-curricular activities. Getting involved on campus is part of the culture at Assumption. Students can choose among more than 60 clubs and organizations, finding a group that piques their interest and utilizes their talents. It’s fun, and it builds confidence, friendships and leadership skills, and a sense of community within student life on campus. The Office of Student Activities is also responsible for Student Leadership Development, First Year Student Orientation, and campus programming.

STUDENT GOVERNMENT ASSOCIATION
The elected representatives of the student body constitute the Student Senate of the SGA. This group is responsible for the recognition and the financing of student clubs and activities and for serving as the official means of communication between the student body, administration, and faculty.

CAMPUS ACTIVITIES BOARD
This organization sponsors a major portion of the social, entertainment, cultural, and educational activities at Assumption. Some annual activities include Family Weekend, the Spring Concert, Winter Fest, late night weekend programming, Spring Weekend
and Spring Ball. Participation in CAB gives students valuable experiences in leadership development, group process, and event planning.

**CLUBS AND ORGANIZATIONS**
There are many opportunities for students to get involved on campus. The Office of Student Activities hosts a Club and Activities Fair during the first week of the fall semester, giving all students the opportunity to meet students involved in organizations and to see all that Assumption has to offer. A full listing of clubs and organizations can be found on the AU Mobile App.

**ELIGIBILITY RULE FOR CO-CURRICULAR INVOLVEMENT**
A student failing to make reasonable progress toward graduation risks curtailment of his/her right to participate in co-curricular activities. The Dean of Students and the Associate Vice President for Undergraduate Studies will address academic issues with elected and selected leaders who do not maintain a 2.5 GPA. General membership in clubs and organizations does not require a 2.5 GPA.

**STUDENT PUBLICATIONS**
*Le Provocateur*, the student newspaper, covers campus news as well as student opinion. *The Heights* yearbook captures the spirit of University life in pictures and words. *The Muse* is Assumption University’s magazine for the creative arts. Primarily dealing with literary endeavors of undergraduates, the magazine also publishes photographs, especially of paintings and sculpture, and touches on nearly all art forms. *The Student Handbook*, prepared by the Vice President of Student Affairs/Dean of Students, summarizes the basic policies and services of the University. It also includes information pertinent to living in on-campus housing and outlines the policies and services attendant to residence at the University. It is distributed annually to all students at the beginning of the academic year.
Directory

OFFICERS OF THE UNIVERSITY
Chairman of the Board: Francis J. Bedard, Esq. ’81, Primm Springs, TN.
Vice Chairman of the Board: Rev. Dennis Gallagher, A.A., M.Div., ’69, Brighton, MA.
President of the University: Francesco C. Cesareo, Ph.D., Worcester, MA.
Treasurer: Peter D. Wells, M.B.A., CPA, Spencer, MA.
Provost: Gregory S. Weiner Ph.D., Holden, MA.
Vice President for Enrollment Management: TBD
Vice President for Student Affairs: Deb Cady Melzer, Ph.D., Worcester, MA.
Vice President for Student Success: Conway Campbell, Sr., Ed.D., Worcester, MA.
Vice President for Institutional Advancement: TBD
Secretary of the Board: Michael H. Rubino, J.D., Marblehead, MA.

TRUSTEES
Francis J. Bedard, Esq., CPA ’81, Primm Springs, TN.
Suzanne M. Besnia, Esq., ’79, St. Louis, MO.
Richard P. Burke, Jr. ’80, Worcester, MA.
Carl M. Cafaro ’98, Wellesley, MA.
Rev. Alex A. Castro, A.A., Brighton, MA.
Maj. General Robert G. Catalanotti, Ret.’80, N. Grafton, MA.
Richard J. Catrambone, D.M.D., M.D.’81, Canton, MA.
Francesco C. Cesareo, Ph.D., Worcester, MA.
Edda Colon-Irizzary ’88, Agoura Hills, CA
Fr. John Franck, A.A., Fiskdale, MA.
Micheal J. Kelly, Ph.D.’70, Ontario, Canada.
James Krukones, Ph.D., University Heights, OH.
Emmanuel Larbi ’14, Worcester, MA.
Rev. Vincent LeClercq, A.A., Rome, Italy.
Harris L. MacNeil, Northborough, MA.
Christine C. Marcs ’77, New Castle, NH.
Lilliam M. Miller ’89, Guaynado, PR.
Rev. Marcel Poirier, A.A., Quebec, Canada.
Rev. Peter R. Precourt, A.A. ’70, Fiskdale, MA.
Rev. Edward Shatov, A.A., Quebec, Canada.
Stephen T. Skoly, Jr., D.M.D.’78, E. Greenwich, RI.
Michael D. Sleeper, Worcester, MA.
Joseph W. Spillane, Esq., Worcester, MA.
Sr. Clare Teresa Tjäder, R.A., Philadelphia, PA.
Andrew S. Viens ’94, Dover, MA.
Jonathan Weaver ’06, Fiskdale, MA.

CHAIRMAN OF THE BOARD OF TRUSTEES EMERITUS
Frederick L. Bayon, D.M.D. ’65, Worcester, MA.

TRUSTEE EMERITI
Janice L. Fuller, Boylston, MA.
Paul J. MacKinnon, South Yarmouth, MA.
James J. O’Connor, Naples, FL.
James J. Paugh III ’77, Worcester, MA.
Leonard C.G. “Geoff” Smith ’66, Naples, FL.
Michael P. Tsotsis ’71, Rutland, MA.

HONORARY TRUSTEES
John B. Connolly, Westford, MA.
The Honorable Mike R. Gravel ’69, Arlington, VA.
David R. Grenon, HD ’86, Sutton, MA.
Gloria J. Plourde, HA ’95, Southborough, MA.
ADMINISTRATION

OFFICE OF THE PRESIDENT
President: Francesco C. Cesareo, B.A., Cathedral College of the Immaculate Conception; M.A., Ph.D., Fordham University.
General Counsel: Michael H. Rubino, B.A., Clark University; A.P.C., J.D., Suffolk University; Ed.D. Northeastern University.
Executive Administrative Assistant: Sharon A. Mahoney.

CAMPUS MINISTRY
Director of Campus Ministry: Paul Covino, B.A., Georgetown University; M.A., University of Notre Dame.
Campus Minister: Daniele Caglioni, A.A., B.A., Assumption College; M.Div., St. John’s Seminary.
Director of Liturgical Music, Michael Ochoa, B. Mus., University of Colorado.
InterVarsity Representative: Scott Brill, B.S. Purdue University.
InterVarsity Representative: Rachel Dean, B.A., Smith College.
FOCUS Missionary: Peter Sheen, B.S., University of Connecticut.
FOCUS Missionary: Marie Volcko, B.S., Iowa State University.
FOCUS Missionary: Dan Payne, B.A., St. John’s University.
Graduate Assistant for Campus Ministry: Timothy Cody, B.A., Assumption College.
Administrative Assistant: Sandy Bousquet, A.S., Becker Junior College.

PUBLIC AFFAIRS
Executive Director of Communications: Michael K. Guilfoyle, B.A., St. Anselm College.
Director of Public Affairs: TBD.

FINANCE
Vice President for Finance and Administration/Treasurer: Peter D. Wells, C.P.A, B.S., Worcester State University, M.B.A., Nichols College.
Director of Finance: Cathleen Cullen, B.A., M.B.A., Assumption College.
Financial Reporting Accountant: Kathleen Ducharme, B.S., Bryant University.
Assistant Director of Finance: M. Kathryn Foley, B.A. Assumption College.
A/P Payroll Administrator: Margaret Kennedy, B.A. University of Massachusetts, Amherst.

BUSINESS SERVICES
Director of Business Services: Todd Derderian, B.A., Fitchburg State University.

HUMAN RESOURCES
Assistant Director of Human Resources: TBD.
Human Resources Coordinator: Betsy Dunbar.

INFORMATION TECHNOLOGY AND MEDIA SERVICES
Chief Information Officer: Wayne Robin, B.S, University of Massachusetts-Dartmouth.
Enterprise Applications Director: John Flynn, B.S.M.E., Worcester Polytechnic Institute; M.B.A., Nichols College.
Web Developer: Christopher Murray, B.S., University of Phoenix.
Applications Analyst: Allen Wilkins, B.S., University of Massachusetts-Amherst.
Report Writer: Shawn Conway, B.S., Anna Maria College.
Infrastructure Director: **Thomas Haley**, B.S., University of Massachusetts-Amherst.
Desktop Support Manager: **Christopher Naples**, B.A., Assumption College.
Media Services Supervisor: **Thomas E. Burke**, B.A., Becker College.
Instructional Technology Specialist: **Beth Peterson**, B.A., Becker College.
Instructional Technology Designer: **Justin Allison**, B.S., Jackson State University, M.S., Mississippi State University, Ph.D., Mississippi State University.
Media Specialist: **Laurie Palumbo**, B.A., Assumption College.

**PUBLIC SAFETY**

Director of Public Safety: **Steven B. Carl**, M.S., Westfield State College; B.S., Framingham State College; A.S., Massasoit Community College; F.B.I. National Academy #162.
Deputy Chief/Operations Lieutenant: **Rebecca Gagne**
Administrator: **Laurie Handscome-Voedisch**, A.S., Mt. Wachusett Community College.

**ENROLLMENT MANAGEMENT**

Vice President for Enrollment Management, **Robert Mirabile**, B.A., Bates College; M.A., Ph.D., Princeton University.
Assistant Vice President for Enrollment Management: **William Mortimer**, B.A., Bates College.
Director of Marketing for Enrollment Management: **Christine Mackenzie**, B.S., Nichols College.

**GRADUATE ADMISSIONS**

Director of Recruitment and Graduate Admissions: **Karen M. Stoyanoff**, B.A., Assumption College; M.B.A., Clark University.
Graduate Admissions Counselor: **Meghan Sweeney**, B.A., Merrimack College.
Assistant Director of Graduate Admissions: **Susan M. Cahill**, A.S., Becker College; B.S., Fitchburg State College; M.B.A., Assumption College.

**UNDERGRADUATE ADMISSIONS**

Associate Director of Admission: **Anastasia Hagerstrom**, B.A., University of Rhode Island; M.Ed. Higher Education Administration, Northeastern University.
Associate Director of Admissions: **Shanell Cartagena Dopson**, B.A. Assumption College.
Associate Director of Admissions: **Jessica McCaughy**, B.A. Immaculata University
Admissions Counselor: **Alison Koning**, B.S., M.S.M., Mount Ida College.
Admissions Counselor: **Theodore Kiritsy**

**ATHLETICS**

Athletic Director: **Christine Lowthert**, B.A., B.S. Indiana University of Pennsylvania; M.B.A., Duquesne University.
Sr. Associate Director for Athletic Operations: **Francis Millerick**.
Associate Director of Athletics Communication: **Eileen Flaherty**.
Assistant Director of Athletics for Communications: **Lauren Neilian**, B.S. Assumption University, MBA Anna Maria College.
Assistant Director of Athletics for Internal Operations: **Becky Mastrototoro**.
Equipment Manager: **John Kneessy III**.
Head Athletic Trainer: **Krystle Robleski**, M.S., A.T.C., B.S. University of Vermont.
Associate Athletic Trainer: **Ashley Leverone**, B.S., Quinnipiac University.
Assistant Athletic Trainer: **Christopher Leary**, B.S., State University of New York at Cortland; M.S. University of New Haven.
Assistant Athletic Trainer: **Doug Seavey**, B.S Ohio University.
Strength and Conditioning Coach: **Nicholas Stanovich**.
Head Men’s Baseball Coach: **Mike Rocco**, B.S., Bryant University; M.S., Endicott College.
Assistant Men’s Basketball Coach: Garvin McAllister, B.S., Post University; M.S. Nichols College.
Head Women’s Basketball Coach: Kerry Phayre, B.A., Providence College.
Assistant Women’s Basketball Coach: Sue Cahill, B.S., Saint Michael’s College.
Interim Head Men and Women’s Cross Country / Track and Field Coach: TBA.
Head Football Coach: Andy McKenzie, B.A., Allegheny College; M.S. California University.
Assistant Football Coach: TBA.
Assistant Football Coach: Woody Blevins, B.A. Colorado Mesa University, M.A. University of Northern Colorado.
Assistant Football Coach: Nik Kessel, B.A. Assumption University.
Head Men’s Golf Coach: John O’Hara, Central Connecticut State University.
Head Women’s Golf Coach: TBA.
Head Men’s Lacrosse Coach: Guy Bourdon, B.A., Ripon College.
Head Women’s Lacrosse Coach: TBA.
Head Women’s Rowing Coach: TBA.
Head Men’s Soccer Coach: Chris Payne, B.S., Southern Connecticut State University.
Head Women’s Soccer Coach: Adrian Warner.
Head Women’s Softball Coach: Jon Ladino, B.A. Merrimack College; M Ed., Salem State University.
Head Women’s Swimming and Diving Coach: TBA.
Head Men & Women’s Tennis Coach: Megan Pirez, B.A., M.B.A., Assumption College.
Head Women’s Volleyball Coach: Kyle Medeiros, B.S. Rhode Island College.
Faculty Athletic Representative to the National Collegiate Athletic Association: Lisa D’Souza, Associate Professor of Education (2009), B.A., M. Ed. Wake Forest University; Ph.D. Boston College, 2009.

FINANCIAL AID
Director of Financial Aid: Monica Blondin, B.A., University of Massachusetts/Amherst, M.S., Northeastern University, M.S., Kansas State University.
Associate Director of Financial Aid: Robin M. Montalvo, B.A., Worcester State College.
Financial Aid Counselor/Student Employment Coordinator: Patricia MacInnes, A.S., Bay Path University.
Financial Aid Counselor/Office Manager; Sarah Bergeron, B. A., University of Massachusetts/Dartmouth, M.Ed, Endicott College.

INSTITUTIONAL ADVANCEMENT
Vice President for University Advancement: TBD.
Assistant to the Vice President for University Advancement: Nicki Lazaros, B.A., University of Massachusetts, Dartmouth; A.A., Champlain College.
Assistant Vice President for Leadership Giving and Stewardship: Melanie Demarais, B.A., Saint Michael’s College.
Advancement Officer: Emily P. Murray, B.A., Assumption College.
Assistant Vice President for Development and Alumni Relations: Linda B. Rosenlund, B.A., Assumption College.
Director of Alumni Relations: Amy Logue Gontarz, B.A., M.B.A. Assumption College.
Director of Assumption Fund: Timothy R. Martin, B.S., Fairfield University.
Director of Advancement Services: Christina N. Nathan, B.S., Stella Maris College, India; M.S., Loyola College, India; M. Phil, Loyola College, India; M.S., University of Massachusetts, Lowell.
Gift Processor: Joanna G. Toscano, B.A., Worcester State University.
Director of Research: Amy H. Sacco, B.A., Assumption College.

STUDENT AFFAIRS
Vice President for Student Affairs/Dean of Students: Deborah Cady Melzer, B.A. St. Michael’s College, M. Ed. University of Vermont, Ph.D., Boston College.
Associate Dean of Students: Joseph T. Zito, B.A., M.A., Assumption College.
Administrative Assistant: Brenda L. Torres, B.S., Assumption College, Notary Public – Commonwealth of Massachusetts.
CAMPUS RECREATION
Director of Recreation: **Mike Rodier**, B.S., Assumption College; M.B.A., Assumption College.
Assistant Director of Recreation: **John LeDoux**, B.S. Assumption College.
Aquatics Director: **Cheryl Cote**, M.S., Assumption College.
Assistant Aquatics Director: **Katie Meservey**, Assumption College.

COUNSELING SERVICES
Director of Counseling Services: **Frank Dibert**, B.A. Montana State University, M.Div. Harvard University, Ph.D. Boston University.
Personal Counselor: **Nicole Breen**, B.A. Assumption College, M.A. Springfield College.
Consulting Psychiatrist: **Alex Cutler**, B.A., Bates College, M.A., Boston University, M.D., Sackler School of Medicine, N.Y. State / American Program of Tel Aviv University.

HEALTH SERVICES
Director of Student Health Services: **Sarah Sherwood**, B.S., M.Ed., Springfield College.
Assistant Director of Student Health Services / Nurse Practitioner: **Lisa Boucher**, A.P.R.N., A.N.P.-B.C., American Nurses Credentialing Center; B.S.N., University of Massachusetts–Dartmouth, M.S., University of Massachusetts–Worcester, Graduate School of Nursing.
Collaborating Physician: **Nancy Berube**, B.S., Worcester Polytechnic Institute; M.D., University of Massachusetts Medical School.
Nurse Practitioner: **Susan Marcoulier**, A.P.R.N., A.G.N.P-B.C., American Nurses Credentialing Center; B.S., Boston College; M.S., M.G.H. Institute of Health Professions.
Physician Assistant: **Jeffery Giarnese**, PA-C, MSPA; B.S., Assumption College; M.S. UMDNJ-Seton Hall University.
Office Manager: **Maureen Barbale**, B.S. Westfield State.
Contact Tracer: **Brittany Watson**, B.S. Worcester State University.

RESIDENTIAL LIFE
Area Coordinator: **Zachary Lynch**, B.S., Southern New Hampshire University.
Resident Director: **Desarai Liberty**, B.S., University of Maine – Orono.
Resident Director: **Taylor Burke**, B.A., Assumption College.
Resident Director: **Hayden Butler**, B.A., Assumption College.

STUDENT ACTIVITIES
Director of Student Activities and Student Leadership Development: **Sara Swillo Muckian**, B.A., College of the Holy Cross; M.Ed., Springfield College.
Coordinator for Student Programming: **Isabella Zaccardi**, B.S., M.B.A., Quinnipiac University.

STUDENT CONDUCT
Director of Community Standards: **Hillary George**, B.S. University of Massachusetts-Amherst, M.S. Syracuse University.
Student Conduct Assistant: **Leslie Bowden**, B.A., St. Michael’s College.

OFFICE OF STUDENT SUCCESS
Vice President for Student Success: **Conway Campbell, Sr.**, B.A., University of Connecticut; M. Ed, University of Massachusetts at Lowell; Ed. D, Regis College.
Administrative Assistant: **Brenda L. Torres**, B.S., Assumption College; Notary Public, Commonwealth of Massachusetts.
ACADEMIC SUPPORT CENTER
Director of the Academic Support Center: Allen A. Bruehl, B.A., Franklin and Marshall College; M.A., Antioch University.
Associate Director for Student Success: Amy Hurley, B.A., M.A., Assumption College, L.M.H.C.
Graduate Assistant: Meghan Costa, B.A. Assumption College.
Graduate Assistant: Rachel Raposa, B.S. Emerson College.

CAREER DEVELOPMENT AND INTERNSHIP CENTER
Assistant Director: Kelly Stairs, B.S., Worcester State University; M.A., Assumption College.

CROSS-CULTURAL CENTER
Director of ALANA and First-Generation Student Success: Matthew Okereke, B.A, Dominican University, Nigeria; STB, Pontificia University, Rome; ThM, Boston College.
Graduate Assistant: Sherezade Alvarez, B.A., Assumption College.

STUDENT ACCESSIBILITY SERVICES
Director of Student Accessibility Services: Julie LeBlanc, B.A., M.A., Assumption College.
Assistant Director of Student Accessibility Services: Kathryn Kadamus, B.A., Boston College.

ACADEMIC ADMINISTRATION AND FACULTY

ACADEMIC AFFAIRS
Provost and Academic Vice President: Gregory Weiner B.A. University of Texas; M.A., Georgetown University; Ph.D., Georgetown University, 2010.
Associate Vice President for Academic Affairs: Eloise Knowlton, B.A., William Jewell College; M.A., Wake Forest University; Ph.D., Syracuse University.
Assistant Vice President for Academic Affairs: Jennifer Klein Morrison, B.A., University of Pennsylvania; M.A., Pennsylvania State University; Ph.D., Yale University.
Director of Institutional Research and Academic Assessment: Stuart J. Munro, B.A., M.A., University of Alberta.
Executive Assistant to the Provost/Mgr. Instructional Support Team: Lorrie McCarty, B.A., Assumption College.

D’AMOUR COLLEGE OF LIBERAL ARTS AND SCIENCES
Chair of the Department of Art and Music: Toby Norris, Associate Professor of Art History (2006), B.A., Magdalen College, Oxford University; M.Phil., Glasgow University; Ph.D., Northwestern University.
Chair of the Department of Biological and Physical Sciences: Brian Niece, Professor of Chemistry (1997), B.S., Georgia Institute of Technology; Ph.D., University of Illinois at Urbana-Champaign, 1997.
Director of the Global Studies Program: Kevin Hickey, Associate Professor of Geography (1972), A.B., M.A., Boston University; M.A., Harvard University, 1976.
Chair of the Department of English: David Thoreen, Professor of English (1995), B.A., St. John’s University; M.F.A., Bowling Green State University; Ph.D., State University of New York at Stony Brook, 1994.
Chair of the Department of History: Irina Mukhina, Associate Professor of History (2007), B.A., University of Massachusetts-Dartmouth; M.A., Ph.D. Boston College, 2006.
Chair of the Department of Mathematics and Computer Science: Jessica McCready, Associate Professor of Biology (2012), B.S., Cornell University; Ph.D., Virginia Commonwealth University, 2006.
Chair of the Department of Modern and Classical Languages and Cultures (Fall 2021) Juan Carlos Grijalva, Associate Professor of Spanish (2008), B.A., Pontificia Universidad Catolica del Ecuador (Quito, Ecuador); M.A., Universidad Andina Simon Bolivar (Quito); Ph.D., University of Pittsburgh, 2004. Spring Semester: Maryanne Leone, Associate Professor of Spanish (2005), B.S., University of Connecticut; M.A., Middlebury College; Ph.D., University of Kansas, 2003.
Chair of the Department of Philosophy: J. Patrick Corrigan, Associate Professor of Philosophy (1989), B.A., The Catholic University of America; M.A., The
University of Texas at Austin; Ph.D., The Catholic University of America, 1995.
Chair of the Department of Political Science: Geoffrey Vaughan, Professor of Political Science (2008) B.A., University of Toronto; M.A., Boston College; D.Phil., University of Oxford.
Chair of the Department of Psychology: Maria Parmley, Associate Professor of Psychology (2008), B.A., University of Massachusetts; M.A., Ph.D., Brandeis University, 2004.
Chair of the Department of Sociology and Criminology: Angela Kaufman-Parks, Associate Professor of Criminology (2014), B.S., M.A., Ph.D., Bowling Green State University, 2014.
Chair of the Department of Theology – Marc Guerra, Professor of Theology (2012), B.A., M.A., Assumption College; Ph.D., Ave Maria University, 2007.

SCHOOL OF GRADUATE STUDIES
Dean: Kimberly A. Schandel, B.S., Pennsylvania State University; Ph.D., Duke University.
Director of Applied Behavior Analysis program: Karen Lionello-Denolf, Assistant Professor of Psychology (2015), B.A. Illinois Wesleyan University; M.S., Ph.D. Purdue University, 2001. Director of the Applied Behavior Analysis Program.
Director of Clinical Counseling Psychology program: Leonard Doerfler, Professor of Psychology (1989), B.S., University of Pittsburgh; M.A., Ph.D., University of Missouri-Columbia, 1982.
Director of Health Advocacy Program and Resiliency Program: Lea Christo, Assistant Professor of Practice in Human Services (2014), B.A., Saint Anselm College; M.S.W., Boston College Graduate School of Social Work.
Director of the Health Care Advocacy Program, Co-Director of the MBA in Health Care Management, Coordinator of the Resiliency in Helping Professions Certificate Program.
Director of Rehabilitation Counseling program: Nick Cioe, Assistant Professor of Rehabilitation Counseling (2016), B.A., College of the Holy Cross; M.S., Southern Illinois University; Ph.D., Southern Illinois University, 2012.
Director of the Rehabilitation Counseling Program. Director of School Counseling program: Susan Scully-Hill, Associate Professor of Human Services and Rehabilitation Studies (1998), B.A., M.A., Ph.D., Michigan State University, 1996. Director of the School Counseling Program.
Director of Special Education program: Nanho Vander Hart, Associate Professor of Special Education (1999), B.A., Ewha Woman’s University, Seoul, Korea; M.A., University of Northern Colorado; Ph.D., University of Iowa, 1998. Director of M.A. in Special Education.

GRENON SCHOOL OF BUSINESS
Dean: Joseph T. Foley, Associate Professor of Accounting, A.B., College of the Holy Cross; M.S./M.B.A. Northeastern University Graduate School of Professional Accounting; Certified Public Accountant, (Massachusetts); Chartered Global Management Accountant. Founding Dean of the Grenon School of Business.
Chair of the Department of Accounting: Frank A. Marino, Associate Professor of Accounting (1981), A.B., College of the Holy Cross; M.B.A., Northeastern University, Graduate School of Business Administration, 1975; M.S.T., Bentley College, 1982; Certified Public Accountant, 1975 (Massachusetts).
Chair of the Department of Management, Marketing, and Organizational Communication: Mike Lewis, Associate Professor of Management (2007), B.S., Central New England College; M.B.A., Assumption College; M.A., Ph.D., Fielding Graduate University, 2016.
MBA Program Director: Mike Lewis, Associate Professor of Management (2007), B.S., Central New England College; M.B.A., Assumption College; M.A., Ph.D., Fielding Graduate University, 2016.

FROELICH SCHOOL OF NURSING
Dean: Caitlin Stover, Associate Professor of Nursing (2018), B.S., Boston College; M.S., Worcester State University; Ph.D., University of Massachusetts – Worcester, Graduate School of Nursing (2011).

SCHOOL OF HEALTH PROFESSIONS
Interim Dean: Kimberly A. Schandel, B.S., Pennsylvania State University; Ph.D., Duke University.
Chair of the Department of Human Services and Rehabilitation Studies: Carl Keyes B.A., University of Michigan; M.A., American University; Ph.D., Johns Hopkins University, 2007. Pre-Law Advisor.
COMMUNITY SERVICE LEARNING
Director, Community Service Learning Program: Michael Land, B.A., University of Alabama; M.A., Ph.D., University of Missouri-Columbia, 1999.
Community Service Learning Community Placement Coordinator: Vincent Sullivan Jacques, B.A., Boston College; M.Ed., Boston College School of Theology and Ministry.

LIBRARY SERVICES
Director of Library Services: TBD.
Head of Research Services and User Experience, Barrie Mooney, B.S., University of Vermont; M.S.L.I.S., University of Rhode Island.
Head of Technical Services and Special Collections: Elizabeth Maisey, B.A., Bridgewater State College; J.D., New England School of Law; M.S., Simmons College.
Research Services/Scholarly Communications Librarian: Mary Rigali, B.A., St. Lawrence University; M.A., M.S., Simmons College.
Research and Instruction Librarian: Kate Bejune, B.S., Cornell University; M.S.L.I.S., Syracuse University.
Access Services/InterLibrary Loan Coordinator: Vivienne Anthony, A.A., Montgomery County Community College.

OFFICE OF THE REGISTRAR
Registrar: Heather L. Pecoraro, B.A. Lock Haven University, M.A. Clemson University.
Assistant to the Registrar, Undergraduate Division: Mary Malone, B.S.L.S., Assumption College.
Assistant to the Registrar, Graduate Division: Deirdre Comeau, A.S., Becker College.
Records Specialist: John Wild, B.A. Holy Cross, M.A. Assumption College.

ACADEMIC DEPARTMENT CHAIRS
Accounting – Frank A. Marino, Associate Professor of Accounting (1981), A.B., College of the Holy Cross; M.B.A., Northeastern University, Graduate School of Business Administration, 1975; M.S.T., Bentley College, 1982; Certified Public Accountant, 1975 (Massachusetts).

Art, Music and Theatre – Toby Norris, Associate Professor of Art History (2006), B.A., Magdalen College, Oxford University; M.Phil., Glasgow University; Ph.D., Northwestern University.

English – David Thoreen, Professor of English (1995), B.A., St. John’s University; M.F.A., Bowling Green State University; Ph.D., State University of New York at Stony Brook, 1994.

Global Studies Program Director – Kevin Hickey, Associate Professor of Geography (1972), A.B., M.A., Boston University; M.A., Harvard University, 1976.

Human Services and Rehabilitation Studies – Carl Robert Keyes, B.A., University of Michigan; M.A., American University; Ph.D., Johns Hopkins University, 2007. Pre-Law Advisor.

Management, Marketing, and Organizational Communication – Mike Lewis, Associate Professor of Management (2007), B.S.,
Central New England College; M.B.A., Assumption College; M.A., Ph.D., Fielding Graduate University, 2016.

**Mathematics and Computer Science** – Jessica McCready, Associate Professor of Biology (2012), B.S., Cornell University; Ph.D., Virginia Commonwealth University, 2006.

**Modern and Classical Languages and Cultures** – (Fall Semester) Juan Carlos Grijalva, Associate Professor of Spanish (2008), B.A., Pontificia Universidad Catolica del Ecuador (Quito, Ecuador); M.A., Universidad Andina Simon Bolivar (Quito); Ph.D., University of Pittsburgh, 2004. (Spring Semester) Maryanne Leone, Associate Professor of Spanish (2005), B.S., University of Connecticut; M.A., Middlebury College; Ph.D., University of Kansas, 2003.

**Nursing** – Caitlin Stover, Associate Professor of Nursing (2018), B.S. Boston College; M.S., Worcester State University Ph.D. University of Massachusetts – Worcester, Graduate School of Nursing (2011).

**Political Science** – Geoffrey Vaughan, Professor of Political Science (2008) B.A., University of Toronto; M.A., Boston College; D.Phil., University of Oxford.

**Psychology** – Maria Parmley, Associate Professor of Psychology (2008), B.A., University of Massachusetts; M.A., Ph.D., Brandeis University, 2004.

**Sociology and Criminology** – Angela Kaufman-Parks, Associate Professor of Criminology (2014), B.S., M.A., Ph.D., Bowling Green State University, 2014.

**Theology** – Marc Guerra, Professor of Theology (2012), B.A., M.A., Assumption College; Ph.D., Ave Maria University, 2007.

**CENTERS AND INSTITUTES**

**Aaron Beck Institute for Cognitive Studies**
Director: Leonard A. Doerfler, Professor of Psychology (1989), B.S., University of Pittsburgh; M.A., Ph.D., University of Missouri-Columbia, 1982.

**Ecumenical Institute**
Interim Director: Rachel Coleman, Assistant Professor of Theology (2020), B.A., B.S., DeSales University; Ph.D., Pontifical John Paul II Institute at the Catholic University of America.

**French Institute**

**Center for Global Studies**
Director: Kevin Hickey, Associate Professor of Geography (1972), A.B., M.A., Boston University; M.A., Harvard University, 1976.

**Center for Neuroscience**
Director: Michele L. Lemons, Professor of Biology (2007), B.S., College of William and Mary; Ph.D., University of Florida, 1999.

**Center for Purpose and Vocation**
Director: Esteban Loustaunau, Professor of Spanish (2008), B.A., Carleton College; M.A., Ph.D., Ohio State University, 1998. Director of the SOPHIA Program.

**D’Amour Center for Teaching Excellence**
Associate Director: Sarah Cavanagh, Associate Professor of Psychology (2009), B.A., Boston University; M.S., Ph.D., Tufts University, 2007. Interim Director of the Center for Teaching Excellence.
THE FACULTY

Raymond Albert, Professor of Practice of Cybersecurity (2018), B.A. University of Maine; M.S., University of Vermont; Ph.D. University of Florida, Gainesville, 1996. Director of Cybersecurity.

Joseph A. Alfano, Assistant Professor of Mathematics (1994), B.S., Massachusetts Institute of Technology; M.A., Ph.D., University of California at San Diego, 1994. Chairperson of the Department of Mathematics and Computer Science.

Brooke M. Andersen, Associate Professor of Mathematics (2009), B.S., Centre College; A.M., Ph.D., Dartmouth College, 2008.

Amirmohsen Behjat, Assistant Professor of Health Sciences (2020), B.S., University of Shiraz, M.S., University of Razi; M.A., Ryerson University; Ph.D., University of Victoria.

Kevin Bechard, Visiting Assistant Professor of International Business (2021), B.S. University of Hartford; M.B.A. University of Hartford, 2002.

John F. Bell, Assistant Professor of History (2019), B.A., The College of William and Mary; M.A., Ph.D., Harvard University, 2017.

Soraya V. Betancourt-Calle, Visiting Assistant Professor of Biology (2019), B.S., University of Puerto Rico, Rio Piedras Campus; M.S., University of Puerto Rico, Medical Sciences Campus; M.S., The University of Michigan; Ph.D., The Medical College of Georgia, 1998.

Richard Bonanno, Professor of Italian (2002), B.A., University of Massachusetts; M.A., Ph.D., Rutgers University, 2000.

Stuart J. Borsch, Associate Professor of History (2002), B.S., United States Naval Academy; M. Ph. (History), Ph.D., Columbia University, 2002.

Matthew Briel, Assistant Professor of Theology (2016), B.A., University of Notre Dame; M.A., University of Minnesota; Ph.D., Fordham University (2016).

Kristen Carella, Professor of English (2007), B.A., University of North Carolina; M.A., Indiana University; Ph.D., University of North Carolina, 2006.

Sarah Cavanagh, Associate Professor of Psychology (2009), B.A., Boston University; M.S., Ph.D., Tufts University, 2007. Interim Director of the Center for Teaching Excellence.

John Chetro-Szivos, Visiting Assistant Professor (2019), B.A., M.A., Assumption College; MBA, Anna Maria College; Ph.D., University of Massachusetts – Amherst, 2000.

Lea Christo, Assistant Professor of Practice in Human Services (2014), B.A., Saint Anselm College; M.S.W., Boston College Graduate School of Social Work. Director of the Health Care Advocacy Program, Co-Director of the MBA in Health Care Management, Coordinator of the Resiliency in Helping Professions Certificate Program.

Nicholas J. Cioe, Assistant Professor of Rehabilitation Counseling (2016), B.A., College of the Holy Cross; M.S., Southern Illinois University; Ph.D., Southern Illinois University, 2012. Director of the Rehabilitation Counseling Program.

Amy Cirillo, Assistant Professor of Psychology (2002), B.A., Clark University; M.A., Ph.D., University of Rochester, 1998. Leave Fall 2021.

Elizabeth A. Colby Davie, Professor of Chemistry (2007), B.A., Macalester College; Ph.D., Massachusetts Institute of Technology, 2005.

Rachel M. Coleman, Assistant Professor of Theology (2020), B.A., B.S., DeSales University; Ph.D., Pontifical John Paul II Institute at the Catholic University of America.

Matthew C. Creek, Assistant Professor of Mathematics (2017), B.E., M.S., Georgia Institute of Technology; B.S., University of Minnesota; M.A., University of Montana; M.A., Ph.D., University of Rochester, 2014.

Amanda Cremone-Caira, Assistant Professor of Psychology (2020), B.S., Merrimack College; Ph.D., University of Massachusetts-Amherst.

Lisa D’Souza, Associate Professor of Education (2009), B.A., M. Ed. Wake Forest University; Ph.D. Boston College, 2009. Faculty Representative to the National Collegiate Athletic Association.

Zachary Daniels, Visiting Assistant Professor of Marketing (2016), B.A., University of Massachusetts; M.A., Assumption College, 2009.

Jessica de la Cruz, Associate Professor of Education (2008), B.A., Union College; M.S., Ph.D., University of Virginia. Chairperson of the Department of Education.

Deanna L. Denault, Professor of Practice of Physician Assistant Studies (2020), B.A., University of Massachusetts; M.Ed., Springfield College; M.A., Boston University; Ph.D., Dartmouth College.

Becky L. DiBiasio, Associate Professor of English (1985), B.A., Purdue University; M.A., George Peabody College, Nashville; Ph.D., Purdue University, 1985.

Mary Di Domenico, Visiting Assistant Professor of English (2007), B.A., University of Massachusetts; M.A., University of Massachusetts-Boston, 1995.

Edward J. Dix, Professor of Chemistry (1994), B.S., Clarkson University; M.S., Ph.D., University of Rochester, 1994. Sabbatical Spring 2022.

Bernard J. Dobski, Jr., Professor of Political Science (2003), B.A., Boston College; M.A., Ph.D., Michigan State University, 2003.

Steven Farough, Associate Professor of Sociology (2001), B.A., Western Michigan University; M.S.W., University of Michigan; Ph.D., Boston College, 2001. Sabbatical Fall 2021.

Carol Femia, Professor of Practice in Nursing (2019), B.S., St. Lawrence University, Canton, NY; R.N., M.S.N., Massachusetts General Hospital Institute of Health Professions; D.N.P., Northeastern University, 2018.

Kathleen M. Fisher, Associate Professor of Theology (2002), B.A., University of Scranton; M.T.S., Ph.D., Boston University, 1999.

Karolina Fucikova, Assistant Professor of Biology (2016), B.S., University of South Bohemia; M.S., John Carroll University; Ph.D., University of Connecticut, 2011.

Vanessa K. Gadoury, Visiting Professor of Practice in Nursing (2021), A.S.N. Becker College, B.S.N., M.S.N. Western Governor’s University, 2017.

Holly Gardner, Assistant Professor of Practice (2020), B.A., California State University Sonoma; M.S., Massachusetts College Pharmacy and Health Sciences.

Travis M. Gagen, Associate Professor of Health Sciences (2017), B.S., M.P.H., University of Massachusetts Amherst; Ph.D., University of Massachusetts Amherst, 2018.

Jeremy Geddert, Associate Professor of Political Science (2012), B.A., M.A. University of Saskatchewan; Ph.D., Catholic University of America, 2012.

Georgi Georgiev, Professor of Physics (2007), B.S., M.S., Sofia University, Sofia, Bulgaria; M.S., Ph.D., Tufts University, 1998. Sabbatical 2021-22.

Jeffery J. Giarnese, Assistant Professor of Practice in Physician Assistant Studies (2019), B.A., Assumption College; M.S., UMDNJ-Seton Hall University, 2002. Director of Clinical Education.

Christopher J. Gilbert, Assistant Professor of English (2016), B.A., University of Massachusetts; M.A., Ph.D., Indiana University, 2015.

Scott J. Glushien, Assistant Professor of Art (2000), B.A., Hampshire College; M.F.A., Yale University School of Art.

Christian Göbel, Professor of Philosophy (2008), B.A. Munich School of Philosophy; Ph.L., Pontifical University of St. Anselmo; M.Phil., University of Cambridge; Ph.D. (Philosophy), Pontifical University of St. Anselmo, 2001; Ph.D. (Theology), Leiden University, 2008.

**Juan Carlos Grijalva**, Associate Professor of Spanish (2008), B.A., Pontificia Universidad Catolica del Ecuador (Quito, Ecuador); M.A., Universidad Andina Simon Bolivar (Quito); Ph.D., University of Pittsburgh, 2004. Chairperson of the Department of Modern and Classical Languages and Cultures.

**Marc D. Guerra**, Professor of Theology (2012), B.A., M.A., Assumption College; Ph.D., Ave Maria University, 2007. Chairperson of the Department of Theology and Director of Core Texts and Enduring Questions Program.

**Maria-Teresa Herd**, Assistant Professor of Physics (2019), A.B., Bryn Mawr College; Ph.D., University of Wisconsin – Madison, 2007.

**Kevin L. Hickey**, Associate Professor of Geography (1972), A.B., M.A., Boston University; M.A., Harvard University, 1976. Director of the Center for Global Studies.

**Demetrius Kantarelis**, Professor of Economics (1983), B.A., University of Athens, Greece; M.A., Fordham University; Ph.D., Clark University, 1983.

**Angela Kaufman-Parks**, Associate Professor of Criminology (2014), B.S., M.A., Ph.D., Bowling Green State University, 2014. Chairperson of the Department of Sociology and Criminology.

**Kevin Kelly**, Assistant Professor of Practice of Business (2018), B.S., University of Massachusetts – Dartmouth; M.S., Harvard University; Ph.D., Northeastern University (2009).

**Suzanne Kelton**, Associate Professor of Mathematics (2002), B.S., Virginia Polytechnic Institute and State University; M.S., Ph.D., University of Virginia, 2001. Leave Fall 2021.

**Lucia Z. Knoles**, Professor of English (1984), B.A., Saint Mary’s College; M.A., Ph.D., Rutgers University, 1979.

**Benjamin J. Knurr**, Assistant Professor of Chemistry (2015), B.A. Macalester College; Ph.D., University of Colorado, 2014.

**Lucas R. Keyes**, Professor of History (2008), B.A., University of Michigan; M.A., American University; Ph.D., Johns Hopkins University, 2007. Pre-Law Advisor; Chairperson of the Department of Human Services and Rehabilitation Studies; Chairperson of the Department of History.

**Lance G. Lazar**, Associate Professor of History (2005), A.B., Dartmouth College; Ph.D., Harvard University, 1998. Director of the Medieval and Early Modern Studies Program.

**Cary LeBlanc**, Assistant Professor of Management and Marketing (2006), B.A., Boston College; M.Ed., Northeastern University; Ph.D., Union Institute and University, 2008. Rome Program Director, 2021-22.

**Michele L. Lemons**, Professor of Biology (2007), B.S., College of William and Mary; Ph.D., University of Florida, 1999.

**Bridget L. Leonard**, Assistant Professor of Marketing (2017), H.B.Com, M.B.A, Laurentian University; Ph.D., University of Colorado Boulder, 2014.

**Maryanne Leone**, Associate Professor of Spanish (2005), B.S., University of Connecticut; M.A., Middlebury College; Ph.D., University of Kansas, 2003.

**Nicolas N. Lessios-Damerow**, Assistant Professor of Biology (2019), B.S., Duke University; Ph.D., Arizona State University, 2016.

**Michael Lewis**, Associate Professor of Management (2007), B.S., Central New England College; M.B.A., Assumption College; M.A., Ph.D., Fielding Graduate University, 2016. Director of the MBA program.
Karen Lionello-DeNolf, Associate Professor of Psychology (2015), B.A. Illinois Wesleyan University; M.S., Ph.D. Purdue University, 2001. Director of the Applied Behavior Analysis Program.

Daniel P. Maher, Professor of Philosophy (2008), B.A., Ph. L., Catholic University of America; Ph.D., Boston College, 1997. Chairperson of the Department of Philosophy.

Allison H. Mamishian, Professor of Practice in Nursing (2021), B.S. Worcester State University, M.S.N. Worcester State University, 2016.

Laura Marcotte, Assistant Professor of Chemistry (2014), B.A., Sweet Briar College; Ph.D., Harvard University, 2007.

Frank A. Marino, Associate Professor of Accounting (1981), A.B., College of the Holy Cross; M.B.A., Northeastern University, Graduate School of Business Administration, 1975; M.S.T., Bentley College, 1982; Certified Public Accountant, 1975 (Massachusetts). Chair of the Department of Accounting.

Nicholas A. Marshall, Assistant Professor of Practice in Physician Assistant Studies (2019), B.S., Anna Maria College; B.S., M.S., Pace University – Lenox Hill Hospital Physician Assistant Program, 2013. Director of Didactic Education.

Michael Matraia, Assistant Professor of Practice in Business Studies (2019), B.A., Assumption College, M.A., University of Connecticut; Certified Public Accountant (Massachusetts), J.D., Suffolk University School of Law, 1996.

Jessica McCready, Associate Professor of Biology (2012), B.S., Cornell University; Ph.D., Virginia Commonwealth University, 2006. Chairperson of the Department of Mathematics and Computer Science.

Molly McGrath, Associate Professor of Philosophy (2006), B.A., Mount Saint Mary’s College; M.A. 2003; Ph.D., The Catholic University of America, 2007. Director of the Honors Program.

Lorette McWilliams, Professor of Practice in Human Services and Rehabilitation Studies (2017), B.A., University of Massachusetts-Amherst; M.A., University of Massachusetts-Boston; Ph.D., Leslie University.

Sharon L. Milne, Professor of Practice in Nursing (2021) B.A. University of Massachusetts Lowell, M.A. Anna Maria College, A.S.D. Lawrence Memorial/Regis College, M.S.N. Salem State College, Ph.D. Endicott College, 2018.

J. Bart Morrison, Associate Professor of Management (2011), B.A., Fordham University; M.Ed., Harvard University; D.M., Case Western Reserve University (2002).

Alison Myette, Professor of Practice in Human Services and Rehabilitation Studies (2000), B.S., M.A., University of Rhode Island, 1995.

Brian K. Niece, Professor of Chemistry (1997), B.S., Georgia Institute of Technology; Ph.D., University of Illinois at Urbana-Champaign, 1997. Chairperson of the Department of Biological and Physical Sciences.

Carrie Nixon, Associate Professor of Art (2008), B.A., Yale University; M.F.A., Wayne State University.

Toby Norris, Associate Professor of Art History (2006), B.A., Magdalen College, Oxford University; M.Phil., Glasgow University; Ph.D., Northwestern University. Chairperson of the Department of Art, Music and Theatre.

Chi A. Nguyen, Visiting Assistant Professor of Theology (2018), B.A., Catholic University of Paris; M.A., Laval University, Quebec; Ph.D., Laval University, Quebec, Canada, 2015.

Veronica Ogle, Assistant Professor of Philosophy (2017), B.A., M.A., Boston College; M.A., Ph.D., University of Notre Dame, 2014. Director of the LEX minor.

Elizabeth M. O’Hara, Assistant Professor of Management (2014), B.S., Elms College; M.B.A., University of Massachusetts, Amherst, 1999; Ed. D. Johnson and Wales University, 2018.

Maria Parmley, Associate Professor of Psychology (2008), B.A., University of Massachusetts; M.A., Ph.D., Brandeis University, 2004. Chairperson of the Department of Psychology.

Ryan T. Paskins, Assistant Professor of Practice in Rehabilitation Counseling (2019), B.A., Weber State University; M.A., University of Utah; Ph.D., Utah State University, Logan, 2018.

Cinzia Pica–Smith, Associate Professor of Human Services and Rehabilitation Studies (2008), B.A., M.S.Ed., The College of St. Rose; Ed.M., Harvard Graduate School of Education; Ed.D., University of Massachusetts, Amherst.

Paul Piwko, Assistant Professor of Practice in Accounting (2017), B.B.A., University of Massachusetts, Amherst; M.B.A., Nichols College, 1992; Certified Management Accountant 2010 (Massachusetts).

Francis B. Prior, Assistant Professor of Sociology and Criminology, B.A.; Villanova University; M.A., Ph.D., University of Pennsylvania.

Kristen P. Quinn, Assistant Professor of Practice (2020), B.A.; Assumption College; M.A., Suffolk University.

Rachel Ramsey, Associate Professor of English (2001), B.A., West Virginia Wesleyan College; M.A., Ph.D., West Virginia
University, 2001. **Sabbatical 2021-22.**

**Anthony Sacino,** Visiting Instructor of Biology (2017), B.A., Assumption College; M.S., University of Hartford, 2014.

**Christian Scannell,** Professor of Practice in Human Services and Rehabilitation Studies (2012); B.A., M.A. Assumption College, 2012.

**Kimberly A. Schandel,** Associate Professor of Biology and Chemistry (1995), B.S., Pennsylvania State University; Ph.D., Duke University, 1990. Dean of the School of Graduate Studies.

**Susan M. Scully-Hill,** Associate Professor of Human Services and Rehabilitation Studies (1998), B.A., M.A., Ph.D., Michigan State University, 1996. Director of the School Counseling Program.

**Gary Senecal,** Assistant Professor of Human Services and Rehabilitation Studies (2019), B.A., St. Anselm College; M.A., The Katholieke Universiteit of Leuven, Belgium, 2009; Ph.D., University of West Georgia, 2014.

**Paul Shields,** Associate Professor of English (2005), B.A., Mercer University; M.A., Ph.D., Florida State University, 2005.

**Samuel A. Stoner,** Assistant Professor of Philosophy (2016), B.A., University of Notre Dame; M.A., Ph.D., Tulane University, 2014.

**Caitlin M. Stover,** Associate Professor of Nursing (2018), B.S., Boston College; M.S., Worcester State University; Ph.D., University of Massachusetts – Worcester, Graduate School of Nursing (2011). Dean of the Froelich School of Nursing.

**Steven J. Theroux,** Professor of Biology (1992), B.A., Rhode Island College; Ph.D., University of Massachusetts at Amherst, 1989. Pre-Health Science Program Coordinator.

**David Thoreen,** Professor of English (1995), B.A., St. John’s University; M.F.A., Bowling Green State University; Ph.D., State University of New York at Stony Brook, 1994. Chairperson of the Department of English.

**Nanho S. Vander Hart,** Associate Professor of Special Education (1999), B.A., Ewha Woman’s University, Seoul, Korea; M.A., University of Northern Colorado; Ph.D., University of Iowa, 1998. Director of M.A. in Special Education.

**Adam M. Volungis,** Associate Professor of Psychology (2011), B.A., Saint Anselm College; M.A., Assumption College; Ph.D., Indiana University, 2011.

**Brian Volz,** Associate Professor of Economics (2010), B.S., Carnegie Mellon University; M.A., Johns Hopkins University; Ph.D., University of Connecticut, 2009.

**Gregory S. Weiner,** Associate Professor of Political Science (2011), B.A. University of Texas; M.A., Georgetown University; Ph.D., Georgetown University, 2010. Provost and Vice President for Academic Affairs.

**Jessica L. Whitt,** Assistant Professor of Practice (2020), B.A., La Salle University; Ph.D., University of Maryland.

**Thomas J. White,** Professor of Economics (1994), B.S., Iowa State University; M.A., Ph.D., State University of New York, Binghamton, 1989. **Sabbatical Fall 2021.**

**Kyle R. Woolley,** Assistant Professor of Sociology and Criminology (2019), B.A., Saint Anselm College; M.A., Brandeis University; Ph.D., Loyola University Chicago, 2019.

**Weixiao Wu,** Assistant Professor of Economics, Finance and International Business (2020), B.A., Beijing Institute of Technology; M.A., University of Edinburgh, Ph.D., Clark University.

**Fang Zhang,** Associate Professor of Psychology (2003), B.S., Peking University; M.A., Ph.D., Cornell University, 2001.

**Anthony S. Zielonka,** Associate Professor of French (1998), B.A., Ph.D., University of Birmingham, 1984.

**ADJUNCT FACULTY**

**Daniel Armenti,** Lecturer in Italian (2019), B.A., Bard College; M.A., Ph.D. candidate, University of Massachusetts, Amherst.

**Kristin Baker,** Lecturer in Biology (2019), B.S., University of California at Davis; M.S., California Polytechnic State University, San Luis Obispo; Ph.D., Tufts University, 1999.

**Giana Battista,** Lecturer in Cybersecurity (2021), B.A., Assumption College; M.A., Boston University; M.A., Salve Regina University, 2018.

Sheila Bessette, Lecturer in Psychology (2019), B.A. Providence College; M.A., Simmons College; Ph.D., Nova Southeastern University, 2017.

Robert Brooks, Lecturer in Sociology & Criminology (2021), B.M., Wayne State University; J.D., University of Detroit School of Law; M.A., Antioch University, Ph.D., American University, 2003.

Zackary M. Bryant, Lecturer in Psychology (2019), B.A., University of California Santa Barbara; M.A., San Jose State University; Ph.D., in progress, Springfield College.

Elissa Chase, Lecturer in Art History (2011), B.A. Beloit College; M.A. University of Glasgow, 1996.

Amy Y. Cheu, Lecturer in Biology (2019), B.S., University of California, Riverside; Ph.D., anticipated, Clark University.

Matthew Clemente, Lecturer in Philosophy (2021), B.A., Holy Cross; M.A., Ph.D., Boston College, 2019

Jillian Crawley, Lecturer in Psychology (2020), B.A., University of Massachusetts, Amherst; M.A. Simmons College; M.A. William James College, 2019.

Christina Danko, Lecturer in Philosophy (2016), B.A., Clark University; M.A. (Teaching), Clark University; M.A. (Philosophy), Claremont Graduate University; Ph.D., Claremont Graduate University, 2015.

Kate Donius, Lecturer in English (2021), B.A., University of New Hampshire; M.A., London Metropolitan University; M.A., University of Massachusetts, Boston, 2015.

Kathleen Dion, Lecturer in Education (2008), B.S., Worcester State College; M.A. Worcester State College; M.A. Fitchburg State College, 1989.

Terrence T. Dougherty, O.C.D., Lecturer in Human Services and Rehabilitation Studies, Professor Emeritus of Human Services and Rehabilitation Studies (1977), A.B., Mount Carmel College; M.Ed., C.A.G.S., Boston University.

Paul R. Douillard, Lecturer in Philosophy (1972), A.B., Assumption College; B.Ph., M. Ph., Laval University; Ph.D. Boston College, 1981.

Eriy Ferris, Lecturer in Sociology & Criminology (2021), B.S., Roanoke College; M.S., Eastern Tennessee State University.

Shane Fuller, Lecturer in Sign Language (2017), B.S., MBA, University of Phoenix, 2016.

Robert Furse, Lecturer in Biological and Physical Sciences (2018), B.S. Brigham Young University, Ph.D., University of Miami 1994.

Paul Gallagher, Associate Professor of Philosophy (ret.), B.A., Duquesne University; M.A., Pennsylvania State University; Ph.D., Pennsylvania State University, 1991.

Pawan Gupta, Lecturer in Computer Science (2012), B.S., University of Massachusetts – Lowell; M.S., Northeastern University, 2005.

Kaplan Hasanoglu, Lecturer in Philosophy (2021), B.A., M.A., Colorado State University; Ph.D., University of Iowa, 2011.
Beth Imhoff-Kunsch, Lecturer in Biological and Physical Sciences (2021), B.S., American University; M.A., Ph.D., Emory University, 2009.
Dana Sandvoss James, Lecturer in Mathematics (2017), B.A., Oberlin College; M.S., Syracuse University, 1994.
Klaida Kashuri, Lecturer in Physics (2014), B.S., University of Tirana, Albania; M.S., Ph.D., Worcester Polytechnic Institute, 2013.
Robert Kumar, Lecturer in Math & Computer Science (2021), B.S., Brigham Young University Hawaii; M.S., California State University, Fullerton; IDE/ACSC DL, Air University PME, 2020.
Andrew Lacombe, Lecturer in English (2010), B.A., Providence College; M.A., Syracuse University, 2000.
Donat Lamothe, A.A., Professor of Music (ret.) Archivist. Ph.L., University of Ottawa; M.A., St. John’s University; M.M., Boston University; Ph.D., University of Strasbourg.
Mina Lim, Lecturer in Biological & Physical Sciences (2021), B.S., Texas A&M; Ph.D., North Carolina State University, 2020.
Cormac MacManus, Lecturer in Psychology (2019), B.A. M.S., University of Ulster; Ph.D., Western New England University, 2021.
Peter Marton, Lecturer in Philosophy (2021), M.S., Eötvös University; Ph.D., Brown University, 2001.
Philip McCue, Lecturer in Sociology & Criminology (2021), B.A., Stonehill College; J.D., Suffolk University Law School, 1981.
Michael McKay, Lecturer in Economics (2009), B.A., University of Massachusetts, Dartmouth; Clark University, 2013.
Hubert G. Meunier, Lecturer in Chemistry (1970), Professor Emeritus of Chemistry, B.S., Providence College; M.S., Rutgers University; Ph.D., University of Rhode Island, 1967.
Thomas P. Miles, Lecturer in Philosophy (2016), B.A. Yale University; M.Phil., Cambridge University; Ph.D., University of Texas at Austin, 2006.
Brian Moen, Lecturer in Philosophy (2021), B.A., University of California; M.A., City University of New York.
Hasnaa Mokhtar, Lecturer in Women’s Studies (2021), B.A., King Saud University; M.A., Ph.D., Clark University, 2021.
John E. Moore, Lecturer in Economics (2003), B.A., Villanova University; M.B.A., Assumption College; Ph.D., Clark University, 2007.
Tammy Murray, Lecturer in Human Services and Rehabilitation Studies (2008), B.S., Utica College of Syracuse University; M.Ed., Cambridge College (2005).
Sandra Nedelescu, Lecturer in Chemistry (2005), B.S., M.Sc., University of Bucharest, Bucharest, Romania; Ph.D., Clark University, 2005.
David Nordman, Lecturer in English (2016), B.A., Assumption College.
Gary Orlinsky, Lecturer in Art (2000), B.A., University of Illinois; M.F.A., University of Massachusetts.
Arlene Rankin, Professor of Psychology (ret.), A.B., McMaster University, Ph.D., University of California (Berkeley), 1969.
Susan R. Sabelli, Lecturer in Human Services and Rehabilitation Studies, Coordinator of Human Services and Rehabilitation Studies Undergraduate Internships (1979), A.B., Merrimack College; M.A., C.A.G.S., Assumption College, 1978.
Colleen Smith, Lecturer in Psychology (2008), B.A., The University of Albany; M.A., Ph.D., Syracuse University.
Peter Sullivan, Lecturer in Mathematics & Computer Science (2021), B.S., Northeastern University; M.S., Norwich University, 2012.
Jennifer Tellier, Lecturer in Education (2021), B.S., M.Ed., Fitchburg State University; M.Ed., Framingham State University, 2016
Keith Trott, Lecturer in Mathematics (2017), B.S., SUNY at Plattsburgh; M.S.E.E., Syracuse University; Ph.D., 1986.
Joel Van Fossen, Lecturer in Philosophy (2021), B.A., St. Norbert College; M.A., Georgia State University.
Maria Cevallos Warren, Lecturer in Spanish (2003), B.A., University of Puerto Rico; M.S., University of Massachusetts, 1976.
Wego Wang, Lecturer in Biological & Physical Sciences (2021), B.S., National Cheng - Kung University; M.S., National Taiwan University; M.S., Sc.D., Massachusetts Institute of Technology, 1982.
Nevila Weagle, Lecturer in Psychology (2020), B.A., Brigham Young University; M.A., Assumption College.
Justin P. Williams, Lecturer in Anthropology (2018), B.A., University of Kentucky; MA, Washington State University; Ph.D Washington State University, 2016.
Meghan Williams, Lecturer in Human Services and Rehabilitation Studies (2018), B.S., University of Massachusetts, Amherst, MA.; Au.D, CCC-A, Northeastern University, 2013.
Molly Williams, Lecturer in English (2021), B.A., Columbia College Chicago; M.A., Emerson College, 2018.
Daniel Young, Lecturer in Biological and Physical Sciences (2021), B.S., University of Massachusetts at Amherst; Sc.D., Boston University, Sargent College of Health and Rehabilitation Sciences, 2010.

EMERITI

Linda Ammons, Professor Emerita of Anthropology (1984), A.B., Phillips University; Ph.D., Harvard University, 1978.
Allan E. Barnitt, Jr., Professor Emeritus of Biology (1976) A.B., William Paterson College of New Jersey; M.S., Ph.D., University of Rhode Island, 1972.
Barbara Beall-Fofana, Professor Emerita of Art (2000) B.A. Bard College; M.Ed, Clark University; M.A. University of Massachusetts-Amherst; Ph.D., Brown University.
Eugene W. Byrnes, Professor Emeritus of Chemistry (1968), B.S., Rensselaer Polytechnic Institute; Ph.D., University of New Hampshire, 1964.
Corazon C. Castaldi, Professor Emerita of English (1981), A.B., B.S., Holy Spirit College; M.A., Ateneo University (Manila); Ph.D., Cornell University, 1979.
Magda C. de Moor, Professor Emerita of Spanish (1969), Prof. de Lit., Universidad Nacional de Cuyo (Argentina); M.A., Harvard
University; Ph.D., University of Massachusetts-Amherst, 1979.

Regina M. Edmonds, Professor of Psychology (1976), A.B., Elmira College; M.S., Ph.D., University of Pittsburgh, 1974.

Michelle Graveline, Professor of Music (1984), B.Mus., M.S.M., Boston University; D.M.A., University of Michigan, 1982.

Carol Harvey, Professor Emerita of Management (1990), A.B., Anna Maria College; M.A., Assumption College; M.B.A., C.A.S., Northeastern University; Ed.D., University of Massachusetts-Amherst, 1991.

Louise Carroll Keeley, Provost Emerita, Professor of Philosophy (1983) and Provost (2015), B.A., Marquette University; M.A., Ph.D., Boston College, 1983.

Dona Kercher, Professor of Spanish and Film (1990), B.A., University of Michigan – Ann Arbor; M.A., Ph.D., Johns Hopkins University, 1980.

Donat R. Lamothe, A.A., Professor of Music (1963), Archivist, Ph.D., University of Ottawa; M.A., St. John’s University; M.M., Boston University; Ph.D., University of Strasbourg.

Marc LePain, Professor Emeritus of Theology (1971), A.B., Assumption College; M.A., University of Pennsylvania; Ph.D., Fordham University, 1978.

Stuart R. Lynn, Professor Emeritus of Economics (1987), A.B., College of William and Mary; Ph.D., University of North Carolina.

Daniel Mahoney,

Hubert G. Meunier, Professor Emeritus of Chemistry (1970), B.S., Providence College; M.S., Rutgers University; Ph.D., University of Rhode Island, 1967.

John G. Moline, Professor Emeritus of Social and Rehabilitation Services (1972), A.B., Hardin-Simmons University; M.A., Texas Tech University; Ph.D., University of Connecticut, 1975.

Ann B. Murphy, Professor Emerita of English (1990), B.A., Hollins; M.A., Ph.D., University of Massachusetts – Amherst, 1986.

Susan Perschbacher, Professor Emerita of Sociology and Anthropology (1990), B.A., Denison University; M.A., Ph.D., University of Chicago, 1981.

Thomas R. Plough, President Emeritus of Assumption College (1998), B.A., Michigan State University; M.A., Student Personnel Administration; Ph.D., Higher Education Administration, Michigan State University.

Arlene Vadum Rankin, Professor of Psychology, A.B., McMaster University, Ph.D., University of California (Berkeley), 1969.

Patricia S. Reisert, Professor Emerita of Biology (1975), A.B., Manhattanville College; M.A., Ph.D., Brown University, 1965.

David St. John, Professor Emeritus of Human Services and Rehabilitation Studies (1987), B.A. St. Anselm College; M.Ed, Boston University; Ed.D Clark University, 1973.

Roger R. Trahan, Emeritus Director of the Media Center (1967), A.B., St. Mary’s Seminary and University; M.Ed., University of Hartford, 1962.
Campus Buildings

Assumption University is located on 185 acres in the West side of Worcester, offering the opportunities of a large city while providing the comfort of a beautiful residential neighborhood. Assumption’s facilities support students’ academic, social, recreational, and spiritual needs. Some of our most notable buildings are described below.

**Admissions House (2008)** The Assumption University Admissions House was built around 1912 as the home of Charles Persons and his family, renowned manufacturers of bicycle saddles. In 1980, the house was acquired by Assumption University to be used as the home of its president. Two Assumption presidents lived there, and in 2007, the University renovated the home to create an appropriate space for Enrollment Management, including the University’s Admissions and Financial Aid offices. The project included renovation of the 9,000-square-foot Persons mansion and the construction of a 6,000-square-foot addition in a compatible style. The accompanying three-car brick garage was adapted for use as a classroom and meeting space, and renamed the Carriage House.

**Andrew Laska Gymnasium (1963)** is the home of Assumption’s intercollegiate basketball teams and the volleyball team and is the location for key University functions. The facility was renovated in 2009 and accommodates 1,500 spectators. Within this building are athletic staff offices, showers and locker rooms. As a Division II program, Assumption’s Intercollegiate Teams emphasize academic pursuits, while enhancing the athletic skills and competitive instincts of all participants. In addition, intercollegiate athletics assist in the development of the personal characteristics of fairness, cooperation, self-control, and good sportsmanship, and extend the students’ physical and social capacities.

**Armanet House (1960/2001)** provides space for the Wellness Center, comprised of Student Health Services and Counseling Services. Student Health Services has three rooms for exam and treatment, and space for day treatment and observation. Student Counseling provides counseling services for full-time undergraduate Assumption students. The SDCC staff helps students make the most of their University years. Personal counseling is available in either individual or group sessions. Students are counseled in a safe and comfortable atmosphere where their privacy is ensured. Outreach programs are held in classes, residence halls, and other central campus locations.

**Richard J. and Sophia Catrambone Health Sciences Center (2020)**, is where students prepare to treat an illness, but more importantly, to treat a human person who is ill. Future health care professionals who graduate from Assumption will be known for their empathy and as those who understand and respect the dignity of the human person. The 41,000 square foot, centrally located Health Sciences Building houses the Froelich School of Nursing, but benefits students in all disciplines. All classrooms are equipped with full audio/visual technology including a recording system in the simulation labs for debriefing following lab exercises. The nursing floor features a nursing skills lab with seven full-sized hospital beds for teaching patient care. Throughout the spacious building students have access to lounges, smaller break-out spaces and de-briefing rooms and conference rooms. The building includes nine spacious offices and office suites for faculty, staff, and administration.

**Chapel of the Holy Spirit (1968)** is the spiritual center of the University. The Assumption community is welcome to pray at Mass and Morning and Evening Prayer with the religious communities (Augustinians of the Assumption and Religious of the Assumption) who sponsor the University. Other opportunities for students and the Assumption family include participation in the Liturgical Ministries of Lector, Eucharistic Minister, Altar Server, Greeter, and membership in the Chapel Choir. Under the direction of Campus Ministry, students participate in retreats, mission opportunities, prayer and discussion groups, and numerous other opportunities for spiritual growth.

**Charlie’s (1983)**, the University’s casual retail dining facility, is located on the first floor of the Hagan Campus Center. Charlie’s offers a social environment and a trendy Bistro/Café atmosphere. Charlie’s offers extensive hours and a variety of meal options. It is also a hotspot for live music and campus activities. The offices of Student Activities, Student Government Association, the ReachOut Center and PEER are located in Charlie’s.

**Dipasquale Media Center (1977)** houses Media Services, which provides audio-visual services to the campus community. The building has a television studio for classroom and student productions, and houses four Avid non-linear editing systems,
Television production students can sign out two professional video field production kits that include JVC video cameras, Arri light kits, and Sennheiser audio recording equipment.

**Emmanuel d’Alzon Library** *(1988)* is home to a collection of nearly 175,000 volumes, and subscribes to about 1,000 journals. Full-text of more than 50,000 journals and 8,000 books is available through the library’s website. The library also houses videos, DVDs, audio CDs, and microforms. More than 100 online databases of articles, images, and other resources are offered through the library’s website, as well as nearly 200 online dictionaries, encyclopedias, and other reference resources. The University’s participation in local, regional, and national library networks provides access to additional resources through interlibrary loan. The library, which is fully accessible, provides seating for 350 readers in a variety of arrangements conducive to study, research, or relaxation, and includes three group-study rooms. Computer workstations and laptops with standard software and Internet access are available. Research librarians provide assistance in finding and using library resources at the Research Help Desk, by phone, IM, and e-mail. Students can schedule research consultations for more extensive research help. The library hosts the d’Alzon Arts Series of art exhibitions and poetry readings. The Academic Support Center, the Assumption University Archives, the Center for Teaching Excellence, and the Center for Purpose and Vocation are also located here.

**Emmanuel House** *(1985)* is home to the Augustinians of the Assumption, the University’s founding order. Located next to the Chapel of the Holy Spirit, the house is designed for ten residents and two guests. There the Assumptionists live in community, along with candidates at various levels of discernment to religious life.

**Founders Hall** *(1963)* was originally designed as a residence hall. In 1988, it was converted to the primary faculty office building. Currently, 100 faculty have their offices in Founders, in nine academic departments. It was renovated in the summer of 2008.

**Fuller Hall and Information Technology Center** *(2002)* houses three public access computer labs and several technology-rich classrooms, as well as IT staff dedicated to serving the Assumption community. The Center has more than 170 computers, flatbed scanners and laser printers for student use. Primary software applications include MS-Office (Word, Excel, PowerPoint), Internet Explorer, InDesign, Photoshop, Dreamweaver, Flash and SPSS. More than 20 workstations are configured for video editing in Final Cut Pro or Avid, and several are configured for podcast production and editing. The Hub, Assumption’s IT helpdesk, assists students and faculty with technology-related issues. The Data Center (basement level) houses the University’s servers and the core of the University network. The network supports 1,000 network devices and more than 5,000 student and office computers connected via Ethernet or wireless. Wireless access to the Internet and the Assumption network is available in all campus buildings and residence halls. Additional computer labs and computer classrooms are found in most of the academic buildings on campus.

**Fr. Isidore Gayraud, A.A. Living Learning Center** *(1998)* is a residence hall with a special mission. It is designed to foster intellectual discourse among faculty and students: students choose a specific interest circle and work with a faculty mentor who facilitates weekly discussions pertaining to that theme. The student learning outcomes associated with this program include developing critical thinking and speaking skills, global awareness, and a strong sense of community.

**Hagan Campus Center** *(1983)* is where students conduct many of their daily activities. The University’s Post Office, Charlie’s casual retail dining facility and Dunkin Donuts are located on the first floor. The University Bookstore where students can purchase books, school supplies, daily convenience items, and Assumption apparel is located on the second floor. The Hagan Campus Center also includes offices for Campus Ministry, Multicultural Affairs, Student Activities and Student Affairs, as well as for student organizations such as Campus Activities Board (CAB), Le Provocateur newspaper, the Heights yearbook, Reach Out Center, and the Student Government Association. The Hagan Campus Center Hall, where various conferences, meetings and events are held, is located on the second floor.

**Kennedy Memorial Hall** *(1956)* is named in memory of Lt. Joseph P. Kennedy Jr., Navy pilot killed in action in WWII, and brother of President John F. Kennedy. It holds two technologically sophisticated auditoriums: the George I. Alden Trust Auditorium, and the Assumption Prep Auditorium, the primary classroom for the Worcester Institute for Senior Education (W.I.S.E.) programs. It also houses Campus Police, the Copy Center, a music practice room, faculty offices, a graduate student lounge, and classrooms.
La Maison Française (1956) Marked by a statue of Our Lady of the Assumption at its entrance, La Maison is centrally located above the University's duck pond and is the first building seen on campus. It houses the President's and Provost's Offices, the Center for Continuing and Career Education, and the Office of Communications. The multi-purpose Salle Saint Jean-Baptiste Hall is used for small theatre productions, meetings, symposia, lectures, and dinners.

Brian Kelly Stadium (2005) supports six varsity athletic teams (field hockey, football, men’s and women’s lacrosse, and men’s and women’s soccer) and an outdoor intramural sports program with a synthetic turf field. It also features lights for evening games and practices, elevated grandstand seating for 1,200 spectators and a press box.

Plourde Recreation Center (1992) provides extensive recreational facilities for the Assumption University community. The 69,000-square-foot complex is the largest building on campus and features a six-lane swimming pool, a jogging/walking track, three full-size multipurpose courts with individual scoreboards, two racquetball courts with a viewing area, a mirrored aerobic/dance studio, a fitness center with cardiovascular machines and free weights, lounges, and locker rooms with saunas. The popular intramural program has numerous sports including basketball, flag football, ice hockey, floor hockey, racquetball, soccer, softball, co-ed volleyball, battleship and wiffleball. Approximately half of the University’s students participate in the intramural program, competing against student teams as well as faculty/staff teams. The Club Sports program is designed to serve individual student interests in various sports and program activities. The active club sports are: cheerleading, dance, ultimate frisbee, outdoors club, volleyball (men’s and women’s), and equestrian. Other programs include first aid, yoga, aerobics, spinning, lifeguard training and massage therapy.

Residence Halls provide quality housing options to the University’s undergraduate students, the majority of whom reside on campus. While most first year students are typically assigned “traditional” two or three person dormitory rooms, upper class students have a variety of options including doubles, triples-and suites, as well as four and five or six person apartments. Hanrahan Hall serves as the Honors students’ residence hall. Nault Hall serves for students wishing to be in a substance-free hall. Since 1998, the University has built four new, air-conditioned residence halls: Living Learning Center, Plough, South and West.

Richard and Janet Testa Science Center (2003) provides students with an exceptional environment for scientific research and laboratory work. The Center houses the Department of Biological and Physical Sciences, which includes the disciplines of biology, chemistry, environmental science, and physics. The three-floor Center features a 60-seat auditorium, four state-of-the-art classrooms, ten teaching laboratories, seven laboratories dedicated to faculty and student research, two conference rooms, and a greenhouse. Additionally, the students enjoy bright and inviting study and lounge areas located throughout the building, and the Center’s South Atrium offers a sound system for lectures, receptions, and other special events, making it valuable for campus-wide use. Student-faculty research is thriving in this academic building.

Taylor Dining Hall (1956) serves as the primary resident dining facility, offering an extensive assortment of menu choices and catering services. The Marriott Conference Room and the Presidential Dining Room are also located here. Dining services are provided by Sodexo, Inc.

Tinsley Family Campus Ministry Center (2012) is the home of the many activities of Campus Ministry. The facility, adjacent to the Chapel of the Holy Spirit, opened in January, 2012. The space has offices for staff, conference space and an interfaith prayer room.

Tsotsis Family Academic Center (2017) demonstrates the University’s commitment to educating the whole person by integrating class and co-curricular spaces. The building houses 13 high-tech, flexible classrooms, seminar rooms, common study spaces, and faculty offices. The Grenon School of Business, the Honors Program, and the Core Texts and Enduring Questions (CTEQ) Program are located here, as well as a 400-seat performance hall, a rehearsal room, and a multi-purpose space with a terrace offering a panoramic view of the Chapel of the Holy Spirit.

Villino Dufault (2013) is home to the University’s Rome Program, and is located in a residential neighborhood where students are immersed in Roman culture. The fully-renovated, modern building offers comfortable living quarters, a gourmet kitchen staffed by an authentic Italian chef, dining and common areas, and a state-of-the-art classroom. The neighborhood offers
a myriad of fine dining and shopping options, as well as a gym. Nearby bus and metro stops offer quick and convenient access to Vatican City and the heart of ancient Rome. Accommodations at reputable hotels are provided to students for overnight excursions away from Rome. Villino Dufault is located at Via San Pio V, 55, 00165 Roma, Italy.
