Students who already own an iPad with pencil do not need to purchase a new one. iPads will be available for purchase through the IT department at a discount at the time of entering the program.

^ Books and resources will be available electronically. This estimate is for recommended books that are not available that students may wish to purchase.

Additional costs of attendance

Students will be responsible for housing, meals, and reliable transportation throughout the program, including clinical site travel and housing in the event that the clinical site is distant from campus.

Students will be responsible for purchasing scrubs for clinical and anatomy labs (in the color and design designated by the program).

Students will be responsible for purchasing a patient gown of an appropriate size for use in the Patient Assessment lab.

Students are required to maintain health insurance while attending the program. Students with proof of health insurance may waive the coverage. The current annual cost for the Assumption health insurance plan is \$2,703.

*Fees and costs are primarily estimates and may vary from year to year
