

# How do I sign my FAFSA® Form?

You need your FSA ID (account username and password) to sign your *Free Application for Federal Student Aid* (FAFSA®) form electronically.

To sign your form electronically log into [studentaid.gov](https://studentaid.gov), and then select the “Provide Signatures” button.

If you do not already have an FSA ID, you can [create an FSA ID](#). If you have an FSA ID but don’t remember your username or password, you can [retrieve your username](#) or [reset your password](#).

Alternatively, you can do one of the following (slower) options:

- Print a signature page by selecting “Print Signature Page” on the “My FAFSA” or “Signature Status” page, sign it, and then mail it to the address on the page. Your FAFSA form will be processed once your signature is received.
- Submit your FAFSA form without signatures. Your FAFSA form will be partially processed without signatures, and you will receive a *Student Aid Report* (SAR) within 3–5 days. Without your signature, an Expected Family Contribution (EFC) won’t be calculated, and you won’t be able to receive federal student aid. However, you may be eligible for state or local aid. In order for your FAFSA form to fully process, you’ll need to return later to sign electronically.
