Coronavirus

On March 11, 2020, the World Health Organization declared the outbreak of a respiratory disease caused by a new coronavirus a pandemic, now known as COVID-19. In response to COVID-19, governments took preventative or protective actions, such as temporary closures of non-essential businesses, “shelter-at-home” guidelines for individuals, and phased reopening plans. As a result, there have been significant negative effects on local, regional, and global economies. COVID-19 has impacted the University in a number of ways, including the transition to remote learning in March 2020, the refund of approximately \$4.2 million of room and board revenue in the spring of 2020, significant reduction in room and board revenue for the year ended May 31, 2021 due to compliance with de-densification guidelines, the temporary suspension of Rome campus operations, unexpected costs due to COVID-19 testing and personal protection equipment, and reduced enrollment for the fall of 2021 and 2022.
